DIRECTORS' REPORT TO THE SHAREHOLDERS

Your Directors present their Report together with the audited accounts of your Corporation for the year ended March 31, 2021.

Financial Results:

For the year ended March 31	2021 USD	2021 INR	2020 USD	2020 INR
Income	**992,012,421**	**72,526,028,385**	1,100,243,365	83,200,403,261
Profit/(Loss) before tax	**83,608,349**	**6,112,606,419**	67,229,708	5,083,910,519
Profit/(Loss)after tax	**63,278,329**	**4,626,278,651**	54,278,222	4,104,519,148

Review of operations:

During the fiscal year under review, the Corporation achieved an income of US$ 992.01 Million (equivalent to INR 7,252 Crores). The Corporation continues to invest in strengthening its business in the USA which is the largest IT market in the World. The increase in business and the focus on right sizing the USA operations while preparing for the next level of growth has helped the Corporation to earn healthy level of profits in the last few years.

Acquisitions / Mergers / Incorporations / Investments:

During year, Corporation has acquired 100% stake in Zen3 Infosolutions (America) Inc. for the total purchase consideration of USD 64 Million with an upfront consideration of USD 35 Million. The balance amount shall be paid as a deferred consideration in terms of Share Purchase Agreement and Amendments there too.

Incorporated a wholly owned subsidiary under the laws of State of Delaware, United States of America in the name of "Tech Mahindra Credit Solutions, Inc" on August 17, 2020.

On October 21, 2020, the Corporation acquired a 6% stake in Vitaltech Holdings ("Vitaltech") to the value of $3 million.

Changes in Director:

During the year under review, Mr. Arvind Malhotra resigned as Director of the Corporation. The Board placed on record its appreciation for the assistance and guidance provided by Mr Arvind Malhotra during his tenure as Director of the Corporation. Mr. Manish Vyas, Mr. Lakshmanan Chidambaram, Mr. T N Manoharan, Mr. Guru Prasad R Iyengar are the other members of the Board of Directors.

Outlook for the current year:

The Corporation believes that the investments made over the last few years in cultivating long term relationships with existing & prospective customers will result in further increase in business.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Corporation. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder(s) for the co-operation and assistance received from them.

Manish Vyas
Director

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Tech Mahindra (Americas), Inc. a New Jersey Corporation,
a wholly owned subsidiary of Tech Mahindra Limited, an India Corporation
Plano, Texas

Opinion

We have audited the accompanying financial statements of Tech Mahindra (Americas), Inc., (a New Jersey Corporation), which comprise the balance sheets as of March 31, 2021 and 2020, and the related statements of operations and comprehensive income, cash flows and changes in stockholders' equity, for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra (Americas), Inc. as of March 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("US GAAP"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Mahindra (Americas), Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The group's accounting policies require the Corporation to consolidate its subsidiaries with controlling interest. For the purposes of these US GAAP Financial Statements, the Balance Sheet and Statement of Operations and Comprehensive Income of its subsidiaries, Lightbridge Communications Corporation, Tech Talenta, Inc., Objectwise Consulting Group, Zen3 Infosolutions (America) Inc. Tech Mahindra Healthcare Systems Holdings, LLC and Mad*Pow Media Solutions, have not been consolidated. The non-consolidation of the above-mentioned controlling interest subsidiaries is not in accordance with the group's accounting policies. The effects of this departure from the group's accounting policies on the Balance Sheet and Statement of Profit and Loss, have not been determined.

The accounting treatment for the Corporation's investment in the CJS Solutions Group through Tech Mahindra Healthcare Systems Holdings LLC and its investment in Zen3 Infosolutions (America) Inc. was provided by group management and therefore out of scope for the purpose of this report. The potential effect of this departure from accounting standards on the Balance Sheet and Statement of Operations and Comprehensive Income, have not been determined.

Other matters

As discussed in various notes to the financial statements, the Corporation has had numerous transactions with the parent and affiliated companies.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedules of Revenue and Expenses on page 26 to 27 are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra (Americas), Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech Mahindra (Americas), Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra (Americas), Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO, AND FORMING PART OF, THE FINANCIAL STATEMENTS

as of and for the year ended March 31, 2021 and March 31, 2020

(All amounts are in USD)

1 Summary of significant accounting policies

(a) Nature of operations

Tech Mahindra (Americas) Inc. ("TMA" or "the Corporation"), is a wholly owned subsidiary of Tech Mahindra Limited ("TML"), which is incorporated in the Republic of India. TMA was incorporated in the State of New Jersey on November 29, 1993, and provides computer consulting and programming support services.

On March 6, 2012, TMA formed Tech Talenta, Inc. (TechT). TechT is a Texas corporation, which is 100% owned (500 shares of $1.00 par value) by TMA and is accounted for on the cost method. The cost of investment was reported at $500,000 at March 31, 2021 and 2020. The subsidiary's stockholder's equity at March 31, 2021 and 2020 was $4.8 million and $4.7 million, respectively. TechT is engaged in the business of recruitment, fulfillment and ongoing management of local temporary contractor resources in the areas of IT Development, Product Engineering, IT System Support and Operations for clients across North America. On May 7, 2014, TechT registered a branch in Canada and on February 9, 2016 a branch was registered in the United Kingdom. The Canadian branch and United Kingdom branches had insignificant activity since inception. The Canadian branch was dissolved, effective March 20, 2018. The branch in the United Kingdom was closed on December 31, 2019.

The Corporation acquired a 100% investment in Lightbridge Communications Corporation (LCC), a Delaware Corporation on February 6, 2015, which is accounted for on the cost method. The purchase price was $170 million. During the period ended March 31, 2017 and 2016, the Corporation received a refund of $3.2 million and $6.2 million, respectively, from the investment escrow account. During the period ended March 31, 2019, the Corporation received a refund of $1.5 million, from the investment escrow account. The balance of the investment was reported at $159 million and $159 million at March 31,2021 and 2020, respectively. LCC provides integrated end-to-end solutions for wireless voice and data communications networks with offerings ranging from high level technical consulting to system design and optimization services, ongoing operations and maintenance services, and deployment services.

On March 3, 2015, TMA purchased 600,000 shares of Series A preferred stock of $0.001 par value per share of Avion Networks, Inc. ("Avion"), a Delaware corporation. Avion is in the business of providing engineering and technology services to customers in the telecommunication industry. TMA owns 30% of Avion and accounts for this investment under the equity method. The carrying value of investment was $ nil for both March 31, 2020 and 2019 after management carried out an impairment test which resulted in the impairment of the carrying value in Avion amounting to $3 million. Consequently, the Corporation recognized $ nil and $ nil of after-tax income from Avion during both years ended March 31, 2021 and 2020.

On May 4, 2017 the Corporation acquired CJS through Tech Mahindra Healthcare Systems Holding LLC., a Delaware Limited Liability Company. An amount of $84.7 million was paid upfront in cash, for the acquisition of 84.74% membership units in CJS. An additional amount of $4.7 million was paid to the minority shareholder as goodwill. Total amount paid including the goodwill was $89.5 million out of which $7.5 million was considered as a prepaid compensation to the minority shareholder. TMA also had a put option at fair value of $6.9 million resulting in a net investment of $88.9 million at acquisition date. On October 13, 2017 the Board of Directors of TMA approved to extend a corporate guarantee, for the working capital facility of CJS. On March 1, 2019, TMA signed an amended agreement with an effective date of December 31, 2018, resulting in a change in vesting and exercise date starting from April 30, 2019. The amended agreement presented the call option to purchase the remaining 15.26% of shares from the minority shareholder over a period of 3 years – December 2019, 2020 and 2021 at values which will be derived based on EBITDA and revenue achievement. The minority shareholder had a put option on the remaining 15.26% of shares over a period of 3 years – December 2019, 2020 and 2021 at values which will be derived based on EBITDA and revenue achievement. As at March 31, 2019 the first option was exercised, resulting in a change in holding of 4.07%, TMA's shareholding subsequent to exercising its first option was 88.81%. As at March 31, 2020 the second option with a fair value of $7.4 million was exercised, resulting in a change in holding of 4.07%.TMA's shareholding as a result of exercising option two is 92.88%. As at March 31, 2020, $4.7 million was paid as part payment for the second option. As at March 31, 2021 the third and final option with a fair value of $7.1 million was exercised, increasing the holding by 7.12% bringing the holding to 100%.

On January 18, 2018, TMA invested $15 million in Altiostar Networks Inc's ("Altiostar") series C1 Preferred shares entitling 23.5% of the fully diluted stake in the Altiostar. As per the share purchase agreement, TMA is entitled, subject to certain terms and conditions, to purchase from Altiostar, 7.9 million shares of Common stock, at a purchase price of $0.05 per share.

Prior to June 2019, the Corporation owned 23.5% of fully diluted stake amounting to $15 million in Altiostar Networks Inc.'s ("Altiostar"). TMA accounted for the investment on the equity basis due to its significant influence and recognized $9.3 million losses from Altiostar during the year ended March 31, 2019.

During June 2019, Altiostar issued additional shares to another investor, resulting into dilution of the investment held of TMA from 23.5% to 9.5% and accordingly it was determined that significant influence over this investee was lost. During the year ended March 31, 2020, prior to this dilution, TMA recorded additional loss from equity in losses of Altiostar of $1.1 million. TMA elected to measure the retained equity interest at fair value under Topic 321 and adjusted the carrying amount of the investment in Altiostar to fair value. Accordingly, the investment in Altiostar was transferred from equity method investments to equity securities. TMA recognized the difference between the carrying value of investment in Altiostar and fair value when it was determined that significant influence was lost and recognized the difference between fair value and carrying amount and accordingly a dilution gain of $10.4 million was recognized in the statement of operations.

During September 2020, the Corporation sold it's stake in Altiostar for $45 million.

On May 19, 2019 the Board of Directors approved the transfer of the entire issued and outstanding capital of Mahindra Technologies Services Inc. ("MTSI"). The separate existence of MTSI ceased on July 1, 2019, which management considered as the effective date of the merger.

On July 31, 2019, TMA acquired 65% membership interests of Mad*Pow Media Solutions, LLC. ("Mad*Pow"), at a cost of $16.7 million. TMA is bound to obtain the remaining interest over a period of three years subsequent to the initial acquisition date. The fair value of the embedded forward contract at the date of purchase was determined to be $11.6 million which represents the mandatorily obligation of TMA to acquire the remaining shareholding. During November 2020, the Corporation acquired an additional 11.66%, increasing the holding to 76.7%

In October 2019 TMA's newly formed Canadian subsidiary, Tech Mahindra Canada, Inc. acquired 100% interest in Objectwise Consulting Group Inc.("Objectwise"). Subsequent to the acquisition Tech Mahindra Canada, Inc. amalgamated with Objectwise as the surviving entity.

On April 8, 2020 an amended purchase agreement was executed between the Corporation and the sellers of Zen3 Infosolutions America Inc. (incl. subsidiaries)("Zen 3"). The board of directors approved a total purchase consideration of $64 million. This agreement stipulated that ZenIndia shares would be acquired by Tech Mahindra Limited and a minority holder (holding 1 ZenIndia share). The transaction costs linked to the purchase agreement represents a prepayment towards contingent liabilities resulting from the acquisition. A total of $34.6 million has been paid to the seller. An additional amount of $4 million will be paid out equally over the next 2 years (at the end of each fiscal year). The remaining balance will be available as an earn-out payment potential and is currently totaling and estimated $ 16.7 million.

On October 21, 2020, the Corporation acquired a 6% stake in Vitaltech Holdings ("Vitaltech") to the value of $3 million. The Corporation has not exercised the option to acquire an additional 8% shareholding in Vitaltech. The Warrants issued to the Corporation at the time of the initial investment is contingent on performance measures and the 36 month vesting period. See note 11 for additional disclosure.

During December 2020, TMA contributed capital of $100,000 towards a newely formed subsidiary, Tech Mahindra Credit Solutions ("TMCS").

(b) Basis of presentation

The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) with the exception as stated below.

TMA have investments in subsidiaries which are listed in Note 9. U.S. generally accepted accounting principles (GAAP) require that all subsidiaries should be consolidated, and consolidated financial statements should be presented. Consolidated financial statements are the general-purpose financial statements of a parent company that has one or more subsidiaries. In certain circumstances, parent company-only financial statements may be required in addition to consolidated financial statements. ASC 810-10-45-11 permits presentation of parent company financial statements as a supplement to the consolidated financial statements when such a presentation is the most effective means of presenting pertinent information. The parent company-only financial statements are being presented without accompanying consolidated financial statements which is not accordance with US GAAP. Accordingly, these financial statements are not the general-purpose financial statements of the reporting entity, TMA.

The Corporation did not present the parent company only financial statements according to the proportionate share of the subsidiaries' net assets as required in the rare instances in which parent company financials are presented without accompanying consolidated financial statements.

(c) Use of estimates in preparation of financial statements

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates and assumptions made by management include the determination of recognition of revenue, valuations of privately held equity securities and amortization of assets recognized. The Corporation bases its estimates on historical experience and on various other assumptions that are believed to be reasonable, the result of which forms the basis for making judgments about the carrying values of assets and liabilities. Actual results could differ from those estimates.

(d) Cash and cash equivalents

Cash represents current accounts and demand deposits held at financial institutions. The Corporation considers all highly liquid investments with a maturity, when purchased, of three months or less to be cash equivalents. Cash equivalents include short-term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are carried at cost, plus accrued interest, which approximates fair value. Cash equivalents are held to meet short-term liquidity requirements, rather than for investment purposes. Cash and cash equivalents are held at major financial institutions and are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation (FDIC) limitations.

(e) Accounts receivable

Accounts receivable consist of amounts due from customers on revenue contracts contracted directly by TMA and is recorded on the balance sheet as “Accounts receivables, net”. As of March 31, 2021 and 2020 the allowance for doubtful accounts was $1,738,076 and $1,777,309, respectively. Accounts receivables for services rendered to the parent company under the service contract are recorded separately on balance sheet as “Due from parent company”. TML assumes the business and entrepreneurial risks relating to all customer transactions.

(f) Equity method investments

The Corporation accounts for investments in which it has significant influence but not a controlling financial interest using the equity method of accounting. Equity method investments are classified as “Equity Method Investments” in the balance sheet.

(g) Equity securities

The Corporation holds strategic investments in privately held equity securities in which the Corporation does not have a controlling interest or significant influence. Privately held equity securities without a readily determinable fair value are recorded at fair value as described. If, based on the terms of these privately held securities, the Corporation determines that the Corporation exercises significant influence on the entity to which these securities relate, the Corporation will apply the equity method of accounting for such investments.

Privately held equity securities are valued using significant unobservable inputs or data in an inactive market and the valuation requires the Corporation’s judgment due to the absence of market prices and inherent lack of liquidity. The carrying value is not adjusted for the Corporation’s privately held equity securities if there are no observable price changes in a same or similar security from the same issuer or if there are no identified events or changes in circumstances that may indicate impairment, as discussed below. In determining the estimated fair value of its strategic investments in privately held companies, the Corporation utilizes the most recent data available to the Corporation. Valuations of privately held companies are inherently complex due to the lack of readily available market data. In addition, the determination of whether an orderly transaction is for a same or similar investment requires significant management judgment including the nature of rights and obligations of the investments, the extent to which differences in those rights and obligations would affect the fair values of those investments, and the impact of any differences based on the stage of operational development of the investee.

The Corporation regularly assesses its privately held equity securities strategic investment portfolio for impairment. The Corporation’s impairment analysis encompasses an assessment of the severity and duration of the impairment and qualitative and quantitative analysis of other key factors including the investee’s financial metrics, the investee’s products and technologies meeting or exceeding predefined milestones, market acceptance of the product or technology, other competitive products or technology in the market, general market conditions, management and governance structure of the investee, the investee’s liquidity, debt ratios and the rate at which the investee is using its cash.

(h) Property and equipment

Property and equipment are recorded at cost and depreciated using the straight-line method over an estimated useful life of three to five years.

(i) Deferred contract cost

Deferred contract cost is amortized at cost and depreciated using the straight-line method over an estimated useful life of three to five years.

(j) Revenue and expenses

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires a corporation to recognize revenue when the corporation transfers control of promised goods and services to the customer. Revenue is recognized in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. A corporation also is required to disclose sufficient quantitative and qualitative information to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Corporation adopted the provisions described in ASU 2014-09, Revenue from Contracts with Customers, also referred to as Topic 606. The Corporation adopted the standard using the full retrospective method. The impact of Topic 606 on reported revenue results was not material.

The Corporation determines the amount of revenue to be recognized through application of the following steps:- Identification of the contract, or contracts with a customer;

- Identification of the performance obligations in the contract;
- Determination of the transaction price

; - Allocation of the transaction price to the performance obligations in the contract; and

- Recognition of revenue when or as the Corporation satisfies the performance obligations.

TMA have entered in agreement with TML according to which TML have appointed TMA as a contract service provider for providing onsite software development services (“contract service provider agreement” or “agreement”). According to the terms of the agreement.

- TML will be securing contracts from customers for software development/modification of software and other related services to customers based in the USA.
- TMA in certain cases may enter into contracts with customers based in the USA in its own name and will render the agreed onsite services to TML.
- In respect of all contracts entered with customers, the entire underlying risk and rewards of such contracts shall be with TML alone.
- Costs which are not in relation to provision of service but emanate out of or due to the contracts, will also be reimbursed by TML.

TML pays remuneration to TMA for its services as contract service provider, on a cost-plus basis. This remuneration represents revenue for TMA.

In those cases when TMA may enter into contracts with customers in its own name, TMA recognizes respective revenue and accounts receivables from contract with customers in its books, however since according to the contract service provider agreement the entire underlying risk and rewards of such contracts is with TML alone and this revenue is fully repaid to TML, this revenue is fully netted and presented on net basis in these financial statements.

Amounts of remuneration for provision of services in accordance with the contract service provider agreement are recorded as revenue in the statement of operations. Accounts receivables due from TML in accordance with this agreement are recorded as “Due from parent company”.

TMA fully repays revenue contracted directly by TMA to TML. Accounts payable due to TML for revenue contracted directly by TMA are recorded in “Due to parent company” on the balance sheet. Expenses are recorded when incurred.

(k) Unbilled revenue

Unbilled revenue include revenue recognized in relation to efforts incurred on time and material contracts not billed as of the end of the reporting period and where services have been performed in accordance with the terms of respective contracts with customers.

(l) Income taxes

TMA accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. TMA records valuation allowances against deferred tax assets as deemed necessary.

“

Per FASB ASC 740-10-20, the Corporation follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken on expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Corporation has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates. “

In accordance with guidance in ASC 740-10-30-27, the Corporation uses a “separate return” method to allocate current and deferred taxes or benefits to members of the consolidated return group (“TMA and subsidiaries”) by applying ASC 740 to each member as if they were separate tax payers. Under the “separate return” method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the parent. Management concluded that no provision for income tax is required in the Corporation’s financial statements as a result of uncertain tax positions.

(m) Related parties

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

(n) Financial instruments

Financial assets and liabilities are recognized when the Corporation becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

Derivative financial instruments

The Corporation, when deemed appropriate, uses derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks managed by the Corporation through the use of derivative instruments is interest rate risk. All derivatives are carried at fair value in our balance sheet in the following line items, derivative financial liabilities as applicable. The cash flow impact of the Corporation’s derivative instruments is primarily included in the statement of cash flows in net cash provided by operating activities

(o) Fair value - definition and hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

In determining fair value, the Corporation uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The valuation techniques used by the Corporation to determine fair value are consistent with the income approaches. The Corporation determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market. When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

- Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access
- Level 2 – Valuations based on inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly
- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.”

Fair value is a market-based measure, based on assumptions of prices and inputs considered from the perspective of a market participant that are current as of the measurement date, rather than an entity-specific measure. Therefore, even when observable inputs are not readily available, the Corporation’s own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors, including the type of investment, whether the investment is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Corporation in determining fair value is greatest for investments categorized in Level 3. In some cases, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In such cases, the fair value measurement is generally categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

(p) Leases (policy applicable beginning April 1, 2019)

In February 2016, the FASB issued Accounting Standards Update No. 2016-02, “Leases (Topic 842)” (“ASU 2016-02”), which requires lessees to record most leases on their balance sheets but recognize the expenses on their statements of operations in a manner similar to current accounting rules. ASU 2016-02 states that a lessee would recognize a lease liability for the obligation to make lease payments and a right-to-use asset for the right to use the underlying asset for the lease term. The new standard is effective for interim and annual periods beginning after December 15, 2020 (i.e. calendar periods beginning on January 1, 2021) on a modified retrospective basis. The Corporation performed early adoption of the ASU 2016-02 on a modified retrospective basis as of April 1, 2019.

The Corporation is a lessee in several non-cancellable operating leases, primarily for office space. The Corporation accounts for leases in accordance with ASC Topic 842, Leases. The Corporation determines if an arrangement is or contains a lease at contract inception. The Corporation recognizes a right-of-use (ROU) asset and a lease liability at the lease commencement date.

For operating leases, the lease liability is initially and subsequently measured at the present value of the unpaid lease payments at the lease commencement date. For finance leases, the lease liability is initially measured in the same manner and date as for operating leases and is subsequently measured at amortized cost using the effective-interest method. Key estimates and judgments include how the Corporation determines the discount rate it uses to discount the unpaid lease payments to present value, lease term and lease payments.

ASC 842 requires a lessee to discount its unpaid lease payments using the interest rate implicit in the lease or, if that rate cannot be readily determined, its incremental borrowing rate. Generally, the Corporation cannot determine the interest rate implicit in the lease because it does not have access to the lessor’s estimated residual value or the amount of the lessor’s deferred initial direct costs. Therefore, the Corporation generally uses its incremental borrowing rate as the discount rate for the lease. The Corporation’s incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms. Because the Corporation does not generally borrow on a collateralized basis, it uses the interest rate it pays on its non-collateralized borrowings as an input to deriving an appropriate incremental borrowing rate, adjusted for the amount of the lease payments, the lease term and the effect on that rate of designating specific collateral with a value equal to the unpaid lease payments for that lease. The lease term for all of the Corporation’s leases includes the non - cancellable period of the lease plus any additional periods covered by either a Corporation option to extend (or not to terminate) the lease that the Corporation is reasonably certain to exercise, or an option to extend (or not to terminate) the lease controlled by the lessor.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments, including in-substance fixed payments, owed over the lease term (which includes termination penalties the Corporation would owe if the lease term assumes Corporation exercise of a termination option);
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the lease commencement date;
- Amounts expected to be payable under a Corporation-provided residual value guarantee; and
- The exercise price of a Corporation option to purchase the underlying asset if the Corporation is reasonably certain to exercise the option.

The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for lease payments made at or before the lease commencement date, plus any initial direct costs incurred less any lease incentives received.

For operating leases, the ROU asset is subsequently measured throughout the lease term at the carrying amount of the lease liability, plus initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received.

Lease expense for lease payments is recognized on a straight-line basis over the lease term.

ROU assets for operating and finance leases are periodically reduced by impairment losses. The Corporation uses the long-lived assets impairment guidance in ASC Subtopic 360-10, Property, Plant, and Equipment – Overall, to determine whether a ROU asset is impaired, and if so, the amount of the impairment loss to recognize.

The Corporation monitors for events or changes in circumstances that require a reassessment of one of its leases. When a reassessment results in the remeasurement of a lease liability, a corresponding adjustment is made to the carrying amount of the corresponding ROU asset unless doing so would reduce the carrying amount of the ROU asset to an amount less than zero. In that case, the amount of the adjustment that would result in a negative ROU asset balance is recorded in profit or loss.

Operating lease ROU assets are presented as operating lease right of use assets on the balance sheet. The current and the long-term portion of operating lease liabilities are presented separately as operating lease liabilities on the balance sheet.

(q) Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

(r) Reclassifications

The Corporation has reclassified certain amounts relating to its prior period results to conform to its current period presentation. These changes were mainly made from general and administrative expenses and is presented separately on the statement of operations. Derivative financial liabilities was reclassified between current and non-current. These changes have not impacted the results of op**erations of prior periods.**

2 Significant Risks and Uncertainties Including Business and Credit Concentrations

The Corporation is subject to credit risk to the extent any financial institution or customer with which it conducts business is unable to fulfil contracted obligations on its behalf. Management monitors the financial condition of those financial institutions and counterparties.

The Corporation's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents, amounts due from the parent company and equity securities.

As described in Note 1 (j), TMA entered in agreement with TML according to which TML have appointed TMA as a contract service provider for providing onsite software development services. Accordingly, all revenue of TMA comes from TML, the parent company of TMA. For the summary of all transactions of TMA with TML, refer to Note 23.

Total amount of revenue recorded for the year ended March 31, 2021 and 2020 was $992,012,421 and $1,100,243,365, respectively. Total amount due from the parent company as of March 31, 2021 and 2020 was $111,497,948 and $80,948,922, respectively. Total amount of revenue, which was directly contracted by TMA and remitted to the Parent company for the year ended March 31, 2021 and 2020 amounted to $22,211,946 and $72,227,427, respectively.

For information about revenue and accounts receivables concentration, on revenue contracted directly by TMA, refer to Note 4.

3 Cash and Cash Equivalents

As of March 31, cash and cash equivalents consisted of the following:	2021	2020
Current accounts with banks	6,671,655	1,586,269
Money market mutual funds	-	66,000,000
Total	$ **6,671,655**	$ **67,586,269**

The Corporation places its cash on deposit with financial institution in the United States of America. Cash and cash equivalents are subject to credit risk to the extent those balances exceed applicable Federal Deposit Insurance Corporation limitations. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts.

4 Accounts Receivable, net

TMA in certain cases may enter into contracts with customers based in the USA in its own name and will render the agreed onsite services to TML. Revenue contracted directly by TMA and subsequently transferred back to TML has been treated as agency transactions for the purpose of these financial statements and accordingly presented on net basis.

As of March 31, accounts receivable consisted of the following:	2021	2020
Amounts due for services rendered and billed	5,488,320	7,723,362
Allowance for doubtful accounts	(660,076)	(1,777,309)
Amounts due for services rendered and billed, net	4,828,244	5,946,053
Amounts due for services rendered, not billed	520,868	2,139,197
Total	$ **5,349,112**	$ **8,085,250**

Bad debt write-off was $321,352 and $986,510 for the year ended March 31, 2021 and March 31, 2020, respectively..

(a) Trade receivables: credit risk

The credit periods offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable upon receipt or immediate to within 120 days.

Aging analysis of trade receivables, is as follows:

	Less than 30 days	Between 30 to 60 days	More than 60 days	Total
Accounts receivable, gross as of March 31, 2021	3,963,590	544,112	980,618	$ **5,488,320**
Accounts receivable, gross as of March 31, 2020	4,568,610	590,680	2,564,072	$ **7,723,362**

(b) Revenue contracted directly by TMA and accounts receivables concentration

The Corporation provides services to customers in diversified customer base and geographic regions and, therefore, has low concentration of credit risk. The Corporation continuously evaluates the credit worthiness of its customers and generally does not require collateral.

Billed accounts receivable concentrations:

Three customers had accounts receivables balances that accounted for more than 10% of gross accounts receivables balance as of March 31, 2021. Total amount of accounts receivables balances of these customers amounted to $2,866,397, or 52% of gross accounts receivables balance as of March 31, 2021.

Accounts receivable concentration as of March 31, 2021

	Amount	Concentration, %
Customer 1	$1,784,852	31%
Customer 2	$679,993	12%
Customer 3	$401,552	7%

Three customers had accounts receivables balances that each individually accounted for more than 10% of gross accounts receivables balance as of March 31, 2020. Total amount of accounts receivables balances of these customers amounted to $2,632,019, or 34% of gross accounts receivables balance as of March 31, 2020.

Accounts receivable concentration as of March 31, 2020

	Amount	Concentration, %
Customer 1	$894,654	12%
Customer 2	$881,756	11%
Customer 3	$855,609	11%

Revenue from 3 customers, which individually accounted for 10% or more of total revenue contracted directly by TMA amounted to $8,451,282 for the year ended March 31, 2021, or 38% from total revenue contracted directly by TMA.

Concentration of revenue contracted directly by TMA for the year ended March 31, 2021

	Amount	Concentration, %
Customer 1	$3,737,070	17%
Customer 2	$2,443,734	11%
Customer 3	$2,270,478	10%

Revenue from 3 customers, which individually accounted for 10% or more of total revenue contracted directly by TMA amounted to $24,723,372 for the year ended March 31, 2020, or 39% from total revenue contracted directly by TMA.

Concentration of revenue contracted directly by TMA for the year ended March 31, 2020

	Amount	Concentration, %
Customer 1	$9,218,080	15%
Customer 2	$7,768,066	12%
Customer 3	$7,737,226	12%

5 Notes Receivable/ Due from Affiliated Companies

(a) Notes Receivable from Affiliated Companies

Notes receivable from affiliated companies consist of the following as of March 31, 2021:

Note amount	Accrued interest	% rate	Maturity	Carrying amount	% payments
Note receivable from Tech Mahindra Servicos de Informatica LTDA, Brazil, current					
3,000,000	328,810	USD Libor+1%		-	Quarterly

Note amount	Accrued interest	% rate	Maturity	Carrying amount	% payments
Note receivable from Lightbridge Communication, Current					
3,000,000	150,105	USD Libor+1%	September, 2021	5,150,105	Quarterly

Note amount	Accrued interest	% rate	Maturity	Carrying amount	% payments
Note receivable from Lightbridge Communication, Current					
2,000,000	651	USD Libor+1%	September, 2021	2,000,651	Quarterly

Notes receivable from affiliated companies consist of the following as of March 31, 2020:

Note amount	Accrued interest	% rate	Maturity	Carrying amount	% payments
Note receivable from Tech Mahindra Servicos de Informatica LTDA, Brazil, Current*					
3,000,000	218,709	USD Libor+1%	September, 2020	3,218,709	Quarterly

	2021	2020
Notes receivable from Affiliated Companies - current portion	7,000,000	3,000,000
Accrued interest	698,275	218,709
Total	$ **7,698,275**	$ **3,218,709**

All notes receivable from affiliated companies are unsecured. Accrued interest income from notes receivable from affiliated companies is included in prepaid expenses and other current assets.

* The note is overdue and an impairment provision was raised in the current year for the carrying amount of $3,328,810.

(b) Due from affiliated companies

The balance due from affiliates includes a balance of $0.3 million (2020: $10.6 million) with an offsetting provision.

6 Income Taxes

TMA accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes, as described in Note 1 above.:

Current income tax expense consists of the following:	2021	2020
Federal	13,449,565	12,408,735
State	4,586,178	4,472,086
Total	$ **18,035,743**	$ **16,880,821**

Deferred income tax expense benefit consists of the following:

	2021	2020
Other	-	(2,096,698)
Federal	(4,640,009)	(1,052,024)
State	(1,765,714)	(780,613)
Total	**(6,405,723)**	**(3,929,335)**
Total current and deferred income tax expense	$ **11,630,020**	$ **12,951,486**

Deferred tax asset consists of the following:	2021	2020
Federal	24,393,072	23,485,687
State	4,854,492	4,121,977
Total	$ **29,247,564**	$ **27,607,664**

As of March 31, 2021, and 2020, TMA had utilized all federal net operating losses (NOLs) available to be utilized for the respective years which were carried forward from prior years. TMA had utilized all state net operating losses (NOLs) available to be utilized for the respective years which were carried forward from prior years. TMA expects to be able to utilize the entire deferred tax benefit, therefore, no valuation allowance has been recorded to reduce the asset.

In accordance with the tax sharing arrangement between the Corporation and its wholly owned subsidiary, LCC, the Corporation recorded an amount payable to LCC as of March 31, 2021 and 2020, of $2.7 million and $32.8 million for LCC's NOL that the Corporation is able to utilize as part of filing a consolidated Federal income tax return. The amount payable to LCC was during the 2021 financial year. The closing amount of the deferred tax asset consists primarily of LCC's NOL.

In the ordinary course of business there are many transactions with affiliated companies that affect the calculation and estimation of the Corporation's tax liability. Although management believes that the Corporation's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Corporation's historical income tax provisions and accruals. As of March 31, 2021, the Corporation's tax years from 2016 to 2021 are open for examination by Federal and state tax authorities

7 Property and Equipment

Property and equipment, net, consisted of the following as of March 31,

	2021	2020
Plant and machinery	26,764,034	26,805,903

	2021	2020
Financial liability under license agreements – long-term portion	60,310,635	100,425,362
Contingent consideration – long-term portion	14,729,305	5,568,469
Other payroll related liabilities – long-term portion	3,973,390	3,823,001
Accrued payroll related taxes - long-term portion (*)	10,405,060	-
Derivative financial liabilities - long-term portion	-	151,957
Total	$ **89,418,390**	$ **109,968,789**

* Due to the impact of the Covid-19 pandemic the Corporation was allowed a deferral of the employer portion of social security tax deposits for the period between April and December 2020, TMA entered into a tax credit and deferral agreement.

The following table shows the remaining undiscounted cash flows for the financial liability under the license agreements:

	2021
Future obligation commitment	
Year one	34,578,750
Years two to four	62,395,926
Total undiscounted liability	**96,974,676**
Imputed interest	2,085,291
Total amortized cost under contractual obligation	$ **94,889,385**

17 Common Stock

	2021	2020
Ordinary shares of $1 each	**Number of shares**	**Number of shares**
Issued and fully paid	170,521,745	170,521,745

The Corporation is authorized to issue 220,000,000 shares of common stock, par value $1 per share, of which 170,521,745 shares were issued and outstanding on March 31, 2021 and 2020.

The sole shareholder, TML; being the sole owner of common stock is entitled to one vote per share, and to receive dividends and, upon liquidation or dissolution, is entitled to receive all assets available for distribution to stockholders. There are no preemptive or other subscription rights and there are no redemption or sinking fund provisions with respect to such shares.

18 Employee Benefits

TMA's medical benefits are provided under a partially self-insured plan and a contract with an insurance company for major stop-loss coverage. Under the insurance contract, TMA is liable for all expenses under an aggregate annual maximum based on the number of persons covered. Management has included in accrued expenses claims payable and an estimate of incurred but not paid claims as of the year end.

Employees of TMA may be allotted/granted shares in TML in terms of several Employee Stock Option plans. The allotment of options to eligible employees is decided by the Compensation Committee which is comprised of certain directors of TML. However, it is the opinion of management that the options granted to the employees relate to the services rendered to the parent company and therefore need not be accounted for by TMA under FASB ASC 718, Compensation - Stock Compensation as these options relate to shares of TML.

19 Leases

Information as of and for the year ended March 31, 2021:

The Corporation has several non-cancellable operating leases, primarily for office space that expire over the next five years. These leases generally contain renewal options for periods ranging from two to five years. Because the Corporation is not reasonably certain to exercise these renewal options, the options are not considered in determining the lease term and associated potential option payments are excluded from lease payments. The Corporation's leases generally do not include termination options for either party to the lease or restrictive financial or other covenants. Payments due under the lease contracts include mainly fixed payments.

Total lease cost for the year ended March 31, 2021 amounted to $4,549,751.

Amounts reported in the balance sheet as of March 31, 2020 were as follows:

Operating leases:	**2021**	**2020**
Operating lease ROU assets	10,409,733	11,104,937
Operating lease liabilities – short-term	4,256,480	4,218,394
Operating lease liabilities – long-term	5,695,523	7,488,766
Total operating lease liabilities	$ **9,952,003**	$ **11,707,160**

Maturities of operating lease liabilities under non-cancellable leases as of March 31, 2021 are as follows:

	Operating leases
In 1 year	4,255,810
In 2 to 5 years	5,821,897
Thereafter	212,270
Total undiscounted lease payments	10,289,977
Less: imputed interest	(337,974)
Total lease liabilities	$ **9,952,003**

Other information related to leases as of March 31, 2021 was as follows:

	2021	**2020**
Supplemental cash flow information		
Cash paid for amounts included in the measurement of lease liabilities:	(4,507,056)	(3,997,117)
ROU assets obtained in exchange for lease obligations	1,796,674	15,415,856
Reductions to ROU assets resulting from reductions to lease obligations	(1,672,332)	(4,310,919)
Weighted average remaining lease term	2 years	2 years
Weighted-average discount rate	2%	2%

20 Commitments and Contingencies

The Corporation is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Corporation's financial position, results of operations, or liquidity.

21 Mergers with Companies under Common Control

Mahindra Technologies Services Inc.

On May 19, 2019 the Board of Directors approved the transfer of the entire issued and outstanding capital of Mahindra Technologies Services Inc. ("MTSI") to TMA, for consideration to be paid in the amount of $1,169,651. The separate existence of MTSI ceased on July 1, 2019, which management considered as the effective date of the merger. The results of operations for April 1, 2019 to June 30, 2019 in the amount of $103 was included in TMA's results as though the transfer of net assets had occurred at the beginning of the period. From that date to the end of the period and all future periods the results of MTSI will be those of the combined operations. The substance of the MTSI transaction did not result in a change of reporting entity for TMA and was prospectively accounted for as described above.

	Net value acquired
Assets	
Cash	1,088,403
Accounts receivable, net	7,174
Tax receivable	20,057
Deferred taxes	68,040
	1,183,674

Accrued expenses	(9,954)
	(9,954)
Net value acquired	1,173,720
Prior periods retained earnings included on April 1, 2019	(123,616)
Consideration paid over net asset value acquired	119,547
Consideration paid	1,169,651

22 Financial Instruments

Interest rate swap - designated as a hedge

Derivative financial instruments are used by the Corporation principally in the management of its interest rate exposures. The Corporation does not hold or issue derivative financial instruments for trading purposes. For derivative instruments that are designated and qualify as cash flow hedges, the gain or loss on the effective portion of the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings.

Interest Rate Swaps. The Corporation uses interest rate swaps to manage its interest rate risk. The swaps are designated as cash flow hedges with the changes in fair value recorded in AOCI and as a derivative asset or liability, as applicable. The swaps settle periodically in arrears with the related amounts for the current settlement period payable to, or receivable from, the counter-parties included in accrued liabilities or receivables, respectively, and recognized in earnings as an adjustment to Interest Expense from the underlying debt to which the swap is designated. As of March 31,2021 and 2020, the Corporation had a series of U.S. dollar denominated interest rate swaps outstanding with effectively fixing the interest on variable rate debt, exclusive of lender spreads, on a floating leg for a specified notional principal amount.

The Corporation's interest rate swap derivative financial instruments at March 31, 2021 are as follows:

	Average Contracted Fixed Interest Rate		Notional Principal Value		Fair Value assets (liabilities)	
	2021	2020	2021	2020	2021	2020
	%	%				
Cash Flow Hedges						
Outstanding receive floating pay fixed contracts						
Less than 1 year	1.83%	1.76%	43,000,000	75,000,000	(598,336)	1,504,191
1 to 2 years	0.79%	-	22,000,000	-	118,185	-
2 to 5 years	-	0.79%	-	22,000,000	-	151,957

The fair values of derivative instruments as of March 31, 2020 and 2019 are as follows.

	2021	2020
	Fair value	Fair value
Derivative Assets	118,184	-
Derivative Liabilities	(598,335)	(1,656,148)
	$ **(480,151)**	$ **(1,656,148)**

23 Transaction with Parent Company

As stated in Note I and Note 2 above, TMA has entered into revenue sharing agreement with TML, its parent company. The transactions with TML are summarized below:

	Year ended March 31,	
	2021	2020
Beginning balance, due from parent company	50,410,753	105,404,633
External contract revenue recharge to parent company	(22,211,946)	(72,227,428)
Cost of services	-	-
Income from parent company	995,133,265	1,100,243,365
Payments to parent company	30,638,218	144,228,948
Collections from parent company	(979,249,908)	(1,221,593,739)
Expense reimbursement - debit/credit notes	9,108,080	(5,645,026)
Ending balance, due from parent company	$ **83,828,462**	$ **50,410,753**

Due (to) from parent consists of:	2021	2020
Amounts due to parent company	(27,669,486)	(30,538,169)
Amounts due from parent company	111,497,948	80,948,922
	$ **83,828,462**	$ **50,410,753**

24 Fair value hierarchy

The following tables summarize those assets and liabilities measured at fair value on a recurring basis:

The fair values of the Corporation's financial assets and liabilities by category as at March 31, 2021 were as follows.

	Level 1	Level 2	Level 3	Total
Assets				
Equity securities	13,000,001	-	-	13,000,001
Liabilities				
Derivative financial liabilities	(481,151)	-	-	(481,151)
Total	$ **12,518,850**	$ **-**	$ **-**	$ **12,518,850**

The fair values of the Corporation's financial assets and liabilities by category as at March 31, 2020 were as follows:

	Level 1	Level 2	Level 3	Total
Assets				
Equity securities	25,000,000	-	-	25,000,000
Liabilities				
Derivative financial liabilities	(1,656,148)	-	-	(1,656,148)
Total	$ **23,343,852**	$ **-**	$ **-**	$ **23,343,852**

Liabilities related to contingent consideration that are measured at fair value in connection with certain acquisitions have not been categorized in the fair value hierarchy but are included in Note 16.

25 Subsequent Events

The Corporation has evaluated subsequent events through May 7, 2021, the date the financial statements were available to be issued.

Tech Mahindra (Americas), Inc. has entered into a purchase agreement with Eventus Solutions Group, LLC on April 26, 2021 with a purchase price of $44 million.

During April of 2021, the Corporation liquidated its holdings of T units in Maviner, indirectly through Sierra, in exchange for the original value assigned of $10 million plus interest.

The Corporation has committed to acquiring 100% of DigitalOnUs Inc. along with its subsidiaries, other than the Indian entity. The Indian subsidiary of the target will be acquired directly through Tech Mahindra Ltd, India (TML). The total purchase consideration for the deal is $120 million.

The Corporation incorporated a 100% subsidiary, Healthnxt Inc. on April 27, 2021.

Except as discussed above, no significant events occurred subsequent to the balance sheet date but prior to May 7, 2021, that would have a material impact on the financial statements.

INDEPENDENT AUDITOR'S REPORT

To:Board of Directors
Tech Talenta Inc.
a Texas Corporation,
a wholly owned subsidiary of Tech Mahindra (Americas), Inc.
Plano, Texas

Opinion

We have audited the accompanying financial statements of Tech Talenta Inc. a Texas Corporation, which comprise the balance sheets as of March 31, 2021 and 2020, and the related statements of operations and retained earnings and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tech Talenta Inc as of March 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Talenta Inc and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

As discussed in notes 35 and 36 to the financial statements, the Company has had numerous transactions with the parent company.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedules of Revenue and Expenses on page 40 are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Talenta Inc's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Tech Talenta Inc.

internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Talenta Inc's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS

1. NATURE OF OPERATIONS

Tech Talenta Inc. (the “Company” or “TechT”) is a wholly owned subsidiary of Tech Mahindra (Americas), Inc. (“TMA”). The Company was incorporated in the State of Texas on March 6, 2012. The Company is engaged in the business of recruitment, fulfillment and ongoing management of local temporary contractor resources in the areas of IT Development, Product Engineering, IT Systems Support and Operations for clients across North America.

On May 7, 2014, the Company registered a branch office in Canada. This branch was dissolved with the effective date March 20, 2018.

On February 9, 2016, the Company registered a branch office in the United Kingdom. This branch was closed on December 31, 2019.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation of the financial statements

The Company has adopted the Financial Accounting Standards Board (FASB) Codification (Codification or ASC). The Codification is the single official source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by non-governmental entities. All of the Codification’s content carries the same level of authority.

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

For the purposes of the statements of cash flows, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalent.

The Company places its cash on deposit with financial institution in the United States of America. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts. As of March 31, 2021, the Company had a balance with the financial institution that exceeded the Federal insured limit by $461,756.

Accounts receivable

Accounts receivable consist primarily of amounts due from parent and affiliated companies’ customers for services provided by the Company. Management’s estimates of uncollectible accounts is based upon an analysis of past due accounts. Accounts are written off when all methods of collection have been exhausted.

Revenue Recognition

Effective October 1, 2013, the Company has entered into a contract with Tech Mahindra Limited (“TechM”), an affiliated company. Under the contract TechM has agreed to reimburse TechT all direct project expenses and all indirect costs plus 3% of these expenses.

Effective October 1, 2013, the Company has entered into a contract with Tech Mahindra (Americas) Inc.(“TMA”), the parent company. Under the contract TMA, has agreed to reimburse TechT all direct project expenses and all indirect costs plus 3% of these expenses.

Revenue is derived from services that are provided under time and material contracts. Revenue on fixed fee contracts is recognized based on the percentage of completion method, which is calculated based on total hours incurred to total estimated hours. Revenue on time and material contracts is recognized as the services are performed.

Unbilled revenue comprises of revenue recognized in relation to efforts incurred on time and material contracts not billed as of the period end where services are performed in accordance with agreed terms.

Income Taxes

The Company accounts for income taxes using FASB ASC 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740, the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records valuation allowances against deferred tax assets as deemed necessary.

In terms of FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain income tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates.

In accordance with guidance in ASC 740-10-30-27, the Company uses a “separate return” method to allocate current and deferred taxes or benefits to members of the consolidated return group by applying ASC 740 to each member as if they were separate tax payers. Under the “separate return” method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the parent.

Property and equipment

Property and equipment are recorded at cost. Depreciation is provided using the straight-line method over the three years estimated useful lives of the assets.

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. The cost of properties sold or otherwise disposed of, and the accumulated depreciated thereon, is eliminated from the property and reserve accounts, and gains and losses are reflected in the statement of income.

Related parties

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

3. ACCOUNTS RECEIVABLE, NET

The following table summarizes, our accounts receivable and other, that approximate fair value due to the immediate to short-term maturity of these financial instruments.

	2021 $	2020 $
Amounts due for services rendered, billed	371,016	2,639,453
Less: allowance for doubtful accounts	(369,913)	(160,425)
	1,103	**2,479,028**
Amounts due for services rendered, not billed	52,438	541,187
	53,541	**3,020,216**

a) Trade receivables: credit risk

The entity's exposure to the credit risk inherent in its trade receivables and the associated risk management techniques that the entity deploys in order to mitigate this risk are discussed in c) below. The credit periods offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable immediately or within 10 to 60 days. The allowance for bad and doubtful receivables is calculated based on prior experience reflecting the level of uncollected receivables over the last year within each business.

On this basis, the billed aging analysis of trade receivables, is as follows:

	Less than 30 days $	**Between 30 to 60 days** $	**More than 60 days** $	**Total** $
The carrying amounts reported as at March 31, 2021	108,404	21,202	241,410	371,016
The carrying amounts reported as at March 31, 2020	1,392,439	149,322	1,097,692	2,639,453

b) Movement in the allowance account for bad and doubtful receivables

Bad debt movement was $209,488 (2020: $128,369) from the year ended March 31, 2021.

c) Revenue and accounts receivable concentrations

The Company provides services to customers in diversified customer base and geographic regions and, therefore, has low concentrations of credit risk. The Company continuously evaluates the creditworthiness of its customers and generally does not require collateral.

Revenue and Accounts receivable concentration:

Billed accounts receivable	**March 31,**			
	2021		**2020**	
	Amount	**Concentration**	**Amount**	**Concentration**
Customer 1	104,707	28%	1,823,750	22%
Customer 2	80,850	22%	199,455	22%
Customer 3	76,319	21%	115,402	16%
Revenue from third parties				
Customer 1	522,351	39%	6,999,053	87%
Customer 2	232,477	18%	2,268,285	28%
Customer 4	197,211	15%	1,479,525	18%

4. PROPERTY AND EQUIPMENT, NET

	2021 $	2020 $
Property and equipment are summarized as follows at March 31, 2021 and 2020:		
Furniture and fixtures	88,701	88,701
Office equipment	9,848	9,848
Computers	25,817	25,817
Software	6,693	6,693
Less: accumulated depreciation	(131,059)	(131,059)

Depreciation expense was $0 and $899 for the years ended March 31, 2021 and 2020, respectively.

Reconciliation of carrying value

	2021 $	2020 $
Carrying value at the beginning of the year	-	-
Additions	-	-
Depreciation	-	(899)
Carrying value at the end of the year	**-**	**(899)**

5. INCOME TAXES

The Company accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes, as discussed in Note 2 above.

The components of the provisions for the income taxes for the years ended March 31, 2021 and 2020 are as follows:

	2021 $	2020 $
Current		
Federal	78,809	221,882
State	21,739	71,629
	100,548	**293,511**
Deferred		
Federal & State	(91,610)	(13,857)
	(91,610)	(13,857)
Total current and deferred income tax expense	**8,938**	**279,654**
Deferred tax asset consists of the following:		
Federal	117,534	49,041
State	39,667	16,550
Total deferred tax asset	**157,201**	**65,591**

As of March 31, 2021 and 2020, the Company had no federal or state net operating losses (NOLs) available to be carried forward.

In the ordinary course of business, there are many intercompany transactions that affect the calculation and estimation of the Company's tax liability. Although the Company's management believes that their tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's income tax provisions and accruals.

6. TRANSACTIONS WITH PARENT COMPANY

In the years ended March 31, 2021 and 2020, TechT had inter-company transactions with Tech Mahindra (Americas), Inc. the parent company. Transactions with parent company are summarized below:

	2021 $	2020 $
Beginning balance, due from / (to) parent company	1,160,175	2,020,310

DIRECTORS' REPORT TO THE SHAREHOLDERS

Your Directors present their Report together with the audited accounts of your Company for the year ended March 31, 2021.

For the year ended March 31,	**2021 US$**	2020 US$
Income	**29,624,656**	30,742,228
Profit/(Loss) before tax	**6,628,284**	5,582,735
Profit/(Loss) after tax	**4,482,871**	3,511,130

Review of Operations:

During the year under review, your company recorded an income of US$ 29,624,656, decrease by 4% over the previous year income of 30,742,228. Profit after tax for the current year was increased to US$ 4,482,871 compared with previous year US$ 3,511,130.

On January11, 2017 the Company has established an international branch in India at Hyderabad and transactions for this branch are included in these consolidated financial statements.

Board

During the year under review, Mr. Arvind Malhotra Director & President & CEO has resigned w.e.f 9th December,2020 and Mr. Krishna Bala has been appointed as Director & President & CEO w.e.f 10th December,2020. Other than this there is no change in the constitution of Board. The Board of Directors are Mr. Krishna Bala, Mr. Manish Vyas and Mr. Lakshmanan Chidambaram. The Board placed on record its appreciation for the valuable guidance provided by Mr Arvind Malhotra during his tenure as a Director of the corporation.

Dividend

During the year under review, Board has approved a final dividend at the rate of US$ 50 per share amounting to US$ 5,000,000 for the financial year 2020-21 and for the financial year 2019-20 it was US$ 2.5 million.

Outlook for the current year and Impact of Covid-19

During the year the incidence of Covid-19 developed into a global pandemic. The directors have assessed the impact of Covid-19 on the business at the balance sheet date and consider that the company's assets are expected to realise their carrying value in the ordinary course of business and that all known liabilities have been included. The company has not experienced any adverse impact on the demand for its services which continue to be provided to its customers with minimal disruption. Despite the worldwide uncertainty caused by Covid-19, and its potential to impact the company, the directors are confident that due to the nature of the company's customer base and its current financial strength, any potential detrimental effect on its business is not expected to be significant.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder/s for the co-operation and assistance received from them.

The Board placed on record its appreciation for the valuable guidance provided by Mr Arvind Malhotra during his tenure as a Director of the corporation

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Stockholder of Tech Mahindra Technologies, Inc.

We have audited the accompanying consolidated financial statements of Tech Mahindra Technologies, Inc., a Delaware corporation, which comprise the consolidated balance sheets as of March 31, 2021 and 2020 and the related consolidated statements of income, stockholder'sequity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of India branch of Tech Mahindra Technologies, Inc, which statements reflect total assets of approximately $5,987,000 and $3,904,000 as of March 31, 2021 and 2020, respectively, and revenues of approximately $3,908,000 and $4,153,000, respectively, for the years then ended. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for India Branch of Tech Mahindra Technologies Inc, is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra Technologies, Inc. as of March 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

see accompanying notes to consolidated financial statement

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of operations

Tech Mahindra Technologies Inc. the “Company” was incorporated as a Delaware corporation on September 28, 2000. The Company was formed to provide software development, professional engineering and information services. The Company is now a wholly owned subsidiary of Tech Mahindra Limited (the parent company). During 2014, the Company changed its name from Satyam Technologies Inc. to Tech Mahindra Technologies Inc. On January 11, 2017, the Company has established an international branch in India, the transactions for this are included in these consolidated financial statements.

2. Summary of significant accounting policies

This summary of significant accounting policies of Tech Mahindra Technologies Inc. is presented to assist in understanding the Company’s consolidated financial statements.

Basis of presentation and consolidation

The consolidated financial statements are presented on the accrual method of accounting as prescribed by the generally accepted accounting principles (GAAP) in the United States of America. The consolidated financial statements include the foreign branch in India. All inter-company balances and transactions have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

For the purposes of the statements of cash flows, cash and cash equivalents are defined as highly liquid investments with maturity dates of three months or less. Included in the cash equivalents is the certificate of deposits with original maturities greater than three months and remaining maturities less than one year.

Accounts receivable

The Company carries its accounts receivable at cost less an allowance for doubtful accounts. Allowance for doubtful accounts is maintained with respect to accounts determined to be uncollectible in the current period. Management determines the allowance for doubtful accounts based upon historical experience and assessment of the collectability of existing specific accounts. Accounts are written off against the allowance when they are deemed uncollectible. At March 31, 2021, the Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required.

Property and equipment

Property and equipment are recorded at cost less depreciation. Depreciation and amortization are computed using the straight-line method over useful lives, which range from 3 to 5 years. Leasehold improvements are amortized over the shorter of the useful life of the related assets or remaining lease term.

Depreciation expenses were $262,101 and $65,886 during the years ended March 31, 2021 and 2020, respectively.

Expenditures for maintenance and repairs which are not for the permanent improvement, betterment or restoring property are charged directly to appropriate operating accounts at the time the expense is incurred.

Impairment of long-lived assets

The Company is required, under current accounting standards to review the carrying value of its long-lived assets, whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. As of March 31, 2021, management has determined that no impairment exists. Accordingly, no adjustments have been made to the carrying values of long-lived assets.

Income taxes

The Company accounts for income taxes in accordance with the FASB ASC 740 (formerly SFAS No. 109, “Accounting for Income Taxes”), which requires an asset and liability approach to financial accounting and reporting of income taxes. Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

Financial Accounting Standards Board issued FIN 48 now known as ASC No. 740–10 “Accounting for Uncertainty in Income Taxes”, the Company adopted FIN 48, thereafter, recognizes the tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the consolidated financial statements from such positions are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement.

In evaluating the Company’s tax provisions and accruals, future taxable income, and the reversal of temporary differences, interpretations and tax planning strategies are considered. The Company believes their estimates are appropriate based on current facts and circumstances.

Revenue recognition

The Company earns revenue from software development and consulting services. Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

In arrangements for engineering services with customers, the Company has the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The Company accounts for volume discounts and pricing incentives to customers as a reduction of revenue based on the ratable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The Company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs. For the year ended March 31, 2021, volume discounts which reduced the revenue amounted to $236,250.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Contract Assets and Contract Liabilities

A contract asset results when goods or services have been transferred to the customer, but payment is contingent upon a future event, other than the passage of time. The Company does not have any material unbilled receivables, therefore, does not have any contract assets. The Company only has accounts receivable as disclosed on the face of the balance sheet. Included in the accounts receivable as of March 31, 2021 and 2020, total unbilled of $675,723 and $1,202,592, respectively, which refers to the revenue that was earned but not billed as of the end of the year.

The Company records contract liabilities to unearned revenue when the Company receives customer payments in advance of the performance obligations being satisfied on the Company's contracts. As of March 31, 2021, unearned revenue amounted to $210,003.

Employee benefits

401(k) savings plan

The Company has established a defined contribution savings plan under Section 401(k) of the Internal Revenue Code, which covers substantially all employees who meet minimum age and services requirements and allows participants to defer a portion of their annual compensation on a pre-tax basis. Company contributions to the plan may be made at the discretion of the Board of Directors. For the years ended March 31, 2021 and 2020, the Company did not make any contribution to the plan.

Gratuity

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company. Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur.

Provident fund

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the statement of income. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company. The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

Foreign currency

Foreign translation adjustments

The Company's other comprehensive income consists of foreign currency translation adjustments from the branch not using the U.S. dollar as its functional currency.

All assets and liabilities are translated using the exchange rate on the date of the balance sheet. Revenues, expenses, and net income are translated using prevailing on the date of the transaction. The foreign exchange adjustment that results from these translations appears in other comprehensive income.

Foreign currency transactions are recorded at exchange rates.

Foreign exchange gain and loss

Transaction gain and losses are included in net income which results from transactions denominated in a currency other than an its functional currency.

Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation. These changes have no impact on previously reported consolidated net income or consolidated stockholder's equity.

New accounting pronouncements

In February 2016, the Financial Accounting Standards Board issued a new accounting pronouncement that requires lessees to record assets and liabilities on the balance sheet for lease-related rights and obligations and disclose key information about certain leasing arrangements. This new standard establishes a right-of-use ("ROU") model that requires a lessee to recognize a ROU assets and lease liability on the balance sheet for all leases with a term longer than 12 months. Leases will be classified as financing or operating, with classification affecting the pattern of expense recognition in the statement of operations. ASU 2019-10 delayed this one year to years beginning after December 15, 2020, however, as a result of COVID 19 this is now move to another year beginning after December 15, 2021 or the 2022 calendar year. The Company will the adopt the standard, including the related amendments, using the modified retrospective approach, applying the provisions of the new standard on its effective date. Management is currently evaluating the potential impact that the adoption of this standard will have on the Company's financial position, results of operations, and related disclosures.

3. Risks and uncertainties

In the normal course of business, the Company maintains its cash balances in a financial institution, which at times may exceed federally insured limits. The Company has not experienced any losses in such account and believes it is not subject to any significant credit risk as all its deposits are maintained in a high-quality financial institution. The balance in excess of the FDIC limits at March 31, 2021 and 2020 was approximately $3,682,000 and $3,374,000, respectively.

The Company operates in the computer industry. The fluctuations in information technology spending caused by market conditions or availability of qualified personnel to complete the projects may have significant effect on the profitability of the Company.

The Company may be exposed to currency risk which is the potential risk of loss from fluctuating foreign exchange rates related to its foreign transactions and foreign operations.

COVID-19 has spread across most of the world including the United States of America where the Company has its operations. However, the Company's operations had not affected significantly for the current year. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions.

4. Major customers and subcontractors

Major customers

Accounts receivable balances are typically unsecured and are derived from revenues earned from customers. For the year ended March 31, 2021, the Company had three major customers, one of which is the Company's parent company (See Note 5. Related party transactions). These three customers accounted for approximately 90% and 72% of revenue and accounts receivable, respectively. For the year ended March 31, 2020, the Company had one major customer (the Company's parent company) which accounted for 42% and 23% of revenue and accounts receivable, respectively.

Major subcontractors

For the year ended March 31, 2021, the Company had one major service provider which represents approximately 46% of the total subcontracting and 45% of accounts payable. For the year ended March 31, 2020, one supplier accounted for 28% of subcontracting expense, which is a related party described in Note 5. Related party transactions, of approximately $1.4 million and 78% of accounts payable.

5. Related party transactions

The Company is wholly owned subsidiary of Tech Mahindra Limited, an India based company (parent company).

The Company has entered into professional service agreements with its parent company, including with Tech Mahindra Network Services International, Inc., Tech Mahindra Americas, Inc. and Tech Mahindra Growth Factories Limited, which are subsidiaries of the parent company.

In addition, the Company through its Branch made contribution to Tech Mahindra Foundation (a non-profit organization) the Corporate Social Responsibility (CSR) arm of Tech Mahindra.

Loan receivable from Tech Mahindra (Americas) Inc.

On March 30, 2021, the Company entered into loan agreement with Tech Mahindra (Americas) Inc., the borrower, a related party, for an unsecured loan of $5 million. The loan is subject to interest of LIBOR plus eighty basis points (~ 1% p.a.) per annum on the amount borrowed and the interest is calculated from the date of disbursement. The interest is payable at the end of the tenure of the loan. The borrower agrees to repay the loan amount on or before September 30, 2021, with the borrower's option to repay the loan either in full or in installments. Accrued interest receivable as of March 31, 2021 is $276.

6. **Property and equipment, net**

Property and equipment consisted of the following:	2021	2020
	$	$
Furniture and Fixtures	$49,521	$49,521
Office Equipment	4,438	4,438
Computers and equipment	155,586	154,281
Leasehold improvements	68,236	68,236

7. **Software**

The software pertains to the total costs of $449,987 incurred when the Company obtained a contract for the development of a commercial product beginning February 2017. Costs incurred by the Company were capitalized and reported as work in progress on the balance sheet as of March 31, 2020. During the year March 31, 2021, the Company began amortization when the product first became available for general release to customers. The annual amortization is computed using the straight-line method over the estimated economic life of the product of 3 years, as this amount is greater than amount based on the ratio of current revenue and total expected revenue. The accumulated amortization as of March 31, 2021 is $149,996.

8. Income taxes

Deferred tax assets and liability consist of the following as of March 31, 2021 and 2020:

	2021	2020
	$	$
Deferred tax assets		
Accrued liabilities	$152,074	$54,790

9. Employee benefit

A. Current and Non-current breakup:

Current liability	$	6,702
Non-current liability		50,609
Total Liability	$	57,311

B. Changes in defined benefit obligation:

Defined Benefit Obligation(DBO) at the end of prior period	$	67,022
Service cost		10,806
Interest cost on the DBO		3,967
Past Service cost-plan amendment		-
Actuarial(gain)/loss		(15,867)
Benefits paid		(8,617)
DBO at the end of current period	$	57,311

C. Expected benefit payments for the year ending March 31:

2022	$	6,839
2023		6,839
2024		8,754
2025		9,985
2026		11,900
2027		59,773
Total	$	104,090

D. Amounts recognized in statement of Profit & Loss:

Service Cost		$10,806
Actuarial (gains)/losses		(15,867)
Net interest on net defined benefit liability/(asset)		3,967
Cost recognized in P&L	$	(1,094)

E. Amounts recognized in Other Comprehensive income (OCI):

Net Gain/(Loss)	$	(15,867)
Cumulative (Gain)/Loss Recognized via OCI at Prior Period End		-
Cumulative (Gain)/Loss Recognized via OCI at Current Period End	$	(15,867)

F. The Principal Assumptions used for the purposes of the actuarial valuation as follows

Discount Rate(s)	6.20%
Expected Rate(s) of salary increase	
Top Management	4.00%
Middle Management	4.00%
Other Staff	8.00%

10. Grants repayable

In connection with the development of commercial product described in Note 6. Property and equipment, net, the Company has obtained a conditional funding contract. As per the contract, the Company will periodically receive funds up to a maximum of $270,000 and has to return the same with time value based on 5% of the gross sale value realized from marketing this product expected to be refunded over a period of 5 years after completion of development of product. As of March 31, 2021, the outstanding grant repayable was $269,201.

11. Accrued compensated absences

Employees of the Company are entitled to paid vacation and sick days depending on length of service and other factors. As at March 31, 2021 and 2020, the Company accrued a total of $349,090 and $399,209, respectively, of unused vacation and sick leave. This accrued compensated absence account is included in the accrued expenses and other liabilities account.

12. Deferred payroll tax

The Coronavirus Aid, Relief, and Economic Security (CARES) Act Section 2302 permits the deferral of payment of the employer portion of social security taxes between March 27, 2020 and December 31, 2020, with 50% of the deferred amount due December 31, 2021 and the remaining 50% due December 31, 2022.

Starting April 2020, the Company began deferral of the employer portion of social security taxes. As of March 31, 2021, the deferred payroll tax amounted to $539,761, of which $231,326 is classified as noncurrent included in the Other non-current liabilities account.

13. Commitments

Leases

The Company entered into a three-year non-cancelable operating lease agreement for its branch office in Hyderabad, India with its parent company. The lease agreement expired on March 1, 2020 and renewed for another three years expiring 2023. In addition, the Company also entered into lease agreements for its US offices with an unrelated party from earliest date effective April 1, 2019 and latest lease ends January 2023.

Future lease payments are as follows:

Year ended March 31,	**Amount**
2022	$ 886,838
2023	752,250
	$1,639,088

The Company did not record the effect of deferred rent since the amount is not material.

For the year ended March 31, 2021 and 2020, the total rent expense associated with this lease is $870,048 and $837,603, respectively, which is included in selling, general and administrative expenses.

14. Common stock

Each share of common stock is entitled to one vote. The holders of common stock are also entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors, subject to the prior rights of holders of all classes of stock outstanding.

During the year ended March 31, 2020, the Company's board of directors declared and paid dividend at the rate of $25 per share on the outstanding number of shares of 100,000 for the total of $2.5 million. During the year ended March 31, 2021, the Company's Board of Directors has not declared any dividend.

15. Subsequent events

The Company evaluated its consolidated financial statements for subsequent events through May 25, 2021, the date of the consolidated financial statements were issued.

BOARD OF MANAGERS' REPORT

The Board of Managers present their Report together with the audited accounts of your Company for the year ended March 31, 2021.

Financial Results:

For the year ended March 31	**2021 USD**	**2020 USD**
Income	93,478	26,982
Profit/(Loss) before tax	0	0
Profit/(Loss)after tax	0	0

Review of operations:

During the fiscal year under review, the Company achieved an income of US$ 93.4 Thousand.

Board:

During the year under review, Mr. Arvind Malhotra resigned as Board Manager of the LLC. Mr. Manish Vyas, Mr. Lakshmanan Chidambaram are the Board of Managers. The Board placed on record its appreciation for the valuable guidance provided by Mr Arvind Malhotra during his tenure as a Board Manager of the LLC.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Board of Managers gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Board of Managers also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder(s) for the co-operation and assistance received from them.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Tech Mahindra LLC
A Delaware Limited Liability Company
a wholly owned subsidiary of Tech Mahindra Limited an India Corporation
Plano, Texas

Opinion

We have audited the accompanying financial statements of Tech Mahindra LLC, a Delaware Limited Liability Company, which comprise the balance sheets as of March 31, 2021 and 2020, and the related statements of operations, changes in member's equity and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Tech Mahindra LLC as of March 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tech Mahindra LLC and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

As discussed in Note 4 to the financial statements, the Company has had numerous transactions with the parent company.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedules of Revenue and Expenses on page 67 are presented for purposes of additional analysis and are not a required part of the financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra LLC's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tech Mahindra LLC's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tech Mahindra LLC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

1. NATURE OF OPERATIONS

Tech Mahindra LLC (the “Company” or “TMLLC”) is a wholly owned subsidiary of Tech Mahindra Ltd. (“TML”). The Company was incorporated in the State of Delaware on June 14, 2018. The Company is engaged in the business of providing sofware development services onsite for clients across the United States of America.

In terms of an signed agreement between the company and Tech Mahindra Limited (“TML”), the company will enter into contracts with customers based in the United States of America for the development or modification of software and other related services. The company will then outsource all of these services to TML, who will accept the responsibility of fulfilling the terms of these agreements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF PREPARATION

The Company has adopted the Financial Accounting Standards Board (FASB) Codification (Codification or ASC). The Codification is the single official source of authoritative accounting principles generally accepted in the United States of America (U.S. GAAP) recognized by the FASB to be applied by non-governmental entities. All of the Codification’s content carries the same level of authority.

B. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

D. REVENUE AND EXPENSES

Effective December 17, 2018, the Company has entered into a contract with Tech Mahindra Ltd.(“TML”) to outsource all services to TML. Under the contract with TML, the Company has agreed to outsource all of the services to TML at the price agreed between the Company and it’s customers. Revenue derived from the outsource of these services is recognized on time and material basis, provided that no uncertainties regarding customer acceptance exist and collection of the related receivable is probable.

Management determined, by virtue of the rights and obligations resulting from its master services agreement with TML, that it does not meet the control indicators as defined in ASC 606. The Company conducts services as agent of TML and recognizes revenue as the net amount of consideration that it retains after paying TML the consideration received in exchange for the goods or services to be provided by TML.

E. INCOME TAXES

As a single member LLC, the Company’s income and deductions are reported on the LLC member’s corporate income tax return as a “disregarded entity” for income tax purposes. Accordingly, the member of the Company will be responsible for income taxes; therefore, no provision for income taxes is included in these financial statements. Due to various timing differences, income is recognised in different periods for tax reporting purposes than for financial statements purposes.

F. CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Company places its cash on deposit with financial institution in the United States of America. The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts. As of March 31, 2021, the Company had $0 (2020: $524,329) in excess of the Federally insured limit with the financial institution.

G. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR BAD DEBTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract’s terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company’s specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days is an indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

H. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

I. RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

3. ACCOUNTS RECEIVABLE, NET

At March 31, 2021 and 2020, accounts receivable balances were as follows:

	March 31, 2021	March 31, 2020
Amounts due for services rendered and billed	9,110,330	5,568,027
Less: allowance for doubtful accounts	-	-
Amounts due for services rendered and billed, net	9,110,330	5,568,027
Amounts due for services rendered, not billed	2,861,189	1,079,505
Total accounts receivable, net	**11,971,519**	**6,647,532**

4. TRANSACTIONS WITH PARENT COMPANY

During the period ended March 31, 2021 and 2020, the Company had transactions with Tech Mahindra Ltd.("TML"). At March 31, 2021 and 2020 the Company had payables due to TML as follows:

	March 31, 2021	March 31, 2020
Beginning balance, due to	7,301,496	4,030,940
Cost of services from TML	59,394,006	16,805,066
Reimbursements	(4,000,000)	-
Payments to parent company	(53,509,034)	(13,507,528)
Revenue from TML	(93,478)	(26,982)
Ending balance, due to	**9,092,990**	**7,301,496**
Due (to) consists of:		
Amounts due to TML	13,101,355	7,314,359
Amounts due from TML	(4,008,365)	(12,863)
	9,092,990	**7,301,496**

Amounts due to and receivable from TML are interest free and payable on demand.

5. LITIGATION AND CONTINGENCIES

The Company is not involved in any legal proceedings in the ordinary course of its business.

6. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales. The concentration for revenue and billed accounts receivable, for the period ended March 31, 2021, is predominately from the following customers:

Billed accounts receivable as at 31 March, 2021	Amount	Concentration
Customer 1	4,111,514	45%
Customer 2	2,090,413	23%
Customer 3	964,430	11%

Billed accounts receivable as at 31 March, 2020	Amount	Concentration
Customer 1	3,463,949	60%
Customer 2	2,026,456	35%
Customer 3	131,533	2%
Revenue concentration for the 12 months ended March 31, 2021	**Amount**	**Concentration**
Customer 1	29,605,670	50%
Customer 2	14,286,169	24%
Customer 3	8,762,986	15%
Revenue concentration for the 12 months ended March 31, 2020	**Amount**	**Concentration**
Customer 1	4,735,389	28%
Customer 2	10,107,457	60%
Customer 3	381,506	2%

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company's floatable interest rate debt are considered reasonable estimates of fair value.

8. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through April 30, 2021. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

INDEPENDENT AUDITORS' REPORT

To TECH MAHINDRA GmbH, Düsseldorf

Opinions

We have audited the annual financial statements of TECH MAHINDRA GmbH, Düsseldorf, which comprise the balance sheet as at 31 March 2021, and the income statement for the financial year from 1 April 2020 to 31 March 2021, and notes to the financial statements, including the recognition and measurement policies presented therein. In addition, we have audited the management report of TECH MAHINDRA GmbH for the financial year from 1 April 2020 to 31 March 2021. In accordance with the German legal requirements, we have not audited the content of the corporate governance statement pursuant to Section 289f (4) HGB [Handelsgesetzbuch: German Commercial Code] (disclosures on the quota for women on executive boards), which is included in Section 2.2.4 of the management report.

In our opinion, on the basis of the knowledge obtained in the audit,

– the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2021 and of its financial performance for the financial year from 1 April 2020 to 31 March 2021, in accordance with German Legally Required Accounting Principles, and

– the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development. Our opinion on the management report does not cover the content of the statement on corporate governance referred to above.

Pursuant to Section 322 (3) sentence 1 HGB [Handelsgesetzbuch: German Commercial Code], we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with Section 317 HGB and the German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" Section of our auditor's report. We are independent of the Company in accordance with the requirements of European law and German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinions on the annual financial statements and on the management report.

Other Information

Management is responsible for the other information. The other information comprises the corporate governance statement pursuant to Section 289f (4) HGB (disclosures on the quota for women on executive boards).

Our opinions on the annual financial statements and on the management report do not cover the other information, and consequently we do not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit, our responsibility is to read the other information and, in so doing, to consider whether the other information

– is materially inconsistent with the annual financial statements, with the management report information audited for content or our knowledge obtained in the audit, or

– otherwise appears to be materially misstated.

Responsibilities of Management for the Annual Financial Statements and the Management Report

Management is responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations, and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, management is responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, management is responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, management is responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, management is responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Section 317 HGB and in compliance with the German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgement and maintain professional skepticism throughout the audit. We also:

– Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
– Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of these systems.
– Evaluate the appropriateness of accounting policies used by management and the reasonableness of estimates made by management and related disclosures.
– Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
– Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
– Evaluate the consistency of the management report with the annual financial statements, its conformity with [German] law, and the view of the Company's position it provides.
– Perform audit procedures on the prospective information presented by management in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by management as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

TECH MAHINDRA GMBH, DÜSSELDORF/GERMANY

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR

1 April 2020 to 31 March 2021

General information about the annual financial statements

TECH MAHINDRA GmbH is located in Düsseldorf and registered at the Registry court in Düsseldorf, Registry court number, HRB 47738. The company is a large corporation within the meaning of Section 267 (3) HGB.

The annual financial statements were prepared in accordance with the provisions of the German Commercial code (HGB) in the current version and the supplementary provisions of the German limited liability company law (Gesetz betreffend Gesellschaften mit beschränkter Haftung (GmbHG)).

The financial statements comprise balance sheet, income statement and notes (including the fixed-asset movement schedule). The income statement was prepared in accordance with the nature of expense method (§ 275 (2) HGB).

Disclosures on accounting policies

Intangible assets are measured at cost and amortized on a straight-line basis over their economic useful life. Purchased software is amortized over their useful life of four years. Intangible asset, which are fully amortized, will be presented as disposal in the last year of amortization.

Tangible assets are valued at cost and depreciated over their estimated useful life on a straight-line basis. Operating and office equipment is depreciated over a useful life of three to ten years.

Low-value assets with costs of up to EUR 800.00 are immediately recognized as depreciation expense and directly presented as disposal.

Investments and other financial assets are recognized at cost. If necessary, the applicable lower value has been recognized at the reporting date.

Receivables and other assets are recognized at nominal value. In order to cover all recognizable risks as at the balance sheet date, allowances for bad debts are set aside.

Cash-in-hand and bank balances are recognized at nominal value.

Prepaid expenses are incurred before the balance sheet date to the extent that these constitute expenditures for a certain time thereafter.

Deferred taxes will be determined for temporary differences between the carrying amounts of assets and liabilities under commercial law and their tax bases and for usable loss carryforwards. Deferred taxes are calculated on the basis of an average income tax rate of 31 %. Any net resulting tax burden would be recognized in the balance sheet as deferred tax liabilities. In the event of a tax relief (deferred tax asset), the option granted in Section 274 (1) Sentence 2 HGB is exercised and a balance sheet entry is waived. In the current financial year, there was a total asset surplus not shown in the balance sheet. This is mainly due to valuation differences between the commercial balance sheet and the tax balance sheet with regard to pension provisions.

Provisions were recognized for all further uncertain liabilities. They reflect all identifiable risks. In accordance with section 253 (1) sentence 2 of the HGB, provisions are measured at the settlement amount dictated by prudent business judgement.

Provisions from pension obligations were calculated based on the projected unit credit method by an actuarial. The underlying assumptions are presented in following explanations to the balance sheets.

Liabilities are recognized at their settlement amount.

Income and expenses are recognized in the income statement on an accrual basis. Revenue is recognized at the time when services are rendered.

Assets and liabilities in foreign currencies are valued in the annual financial statements at the average rate for the date of initial recognition. On the reporting date, assets and liabilities denominated in foreign currencies with a remaining term of up to one year are converted at the exchange rate prevailing on the balance sheet date. Non-current receivables and liabilities denominated in foreign currencies are valued in accordance with the lower of cost or market principle (section 256a sentence 2 HGB) and recognized at the exchange rate on the balance sheet date provided that the exchange rate on the transaction date was not lower (for assets) or higher (for liabilities). Profit and loss from converting foreign currency transactions into local currency are recognized separately in the income statement under “Other operating income” and “Other operating expenses”.

BALANCE SHEET

Fixed Assets

With regard to the development of intangible assets, tangible assets and financial assists we refer to the fixed-asset movement schedule (as appendix to the notes).

Financial assets

The company holds the share in the following investments:

TechM IT Services GmbH, Wien/Austria:

	March 31, 2021	March 31, 2020
Shareholding relationship	100 %	100 %
Equity in kEUR	107	100
Result for the year in kEUR	7	11

TECH MAHINDRA Norway A.S, Norway:

	March 31, 2021	March 31, 2020
Shareholding relationship	100 %	100 %
Equity in kNOK	10,876	7,752
Result for the year in kNOK	3,134	2,991
FX-rate as of March 31	9.9888 NOK/ EUR	11.7084 NOK/ EUR

Tech Mahindra Luxembourg S.à r.l., Luxembourg:

	March 31, 2021
Shareholding relationship	100 %
Equity in kEUR	35
Result for the year in kEUR	23

Current Assets

Inventory

Inventory comprises only of prepayments to suppliers

Trade receivables and other assets

Trade receivables and other assets comprise as follows:

	As of March 31, 2021	Amounts due after more than 1 year	As of March 31, 2020	Amounts due after more than 1 year
Trade receivables	14,769,041.54 €	0.00 €	18,258,412.32 €	0.00 €
Receivables from affiliated companies	24,678,851.26 €	0.00 €	27,279,868.81 €	0.00 €
Other Assets	1,452,607.16 €	0.00 €	1,032,530.66 €	0.00 €
Total	**40,900,499.96 €**	**0.00 €**	**46,570,811.79 €**	**0.00 €**

Receivables from affiliated companies comprise receivables from shareholders in the amount of kEUR 24,520 (prior year: kEUR 23,941).

Receivables from affiliated companies contain loan receivables in the amount of kEUR 10,387 (previous year: kEUR 16,184), for which an allowance has been setup in the amount of kEUR 10,387 (prior year: kEUR 12,934), due to uncollectability. The remaining receivables from affiliated companies result from trade receivables.

Other assets contain mainly deposits, tax receivables as well as salary and travel expense advance payments to employees.

Subscribed capital

The entity's subscribed capital amounts to kEUR 601 (prior year: kEUR 601) and is fully paid in.

Capital reserve

As part of the merger of LCC Telecom GmbH, Ratingen, as of April 1, 2020 onto the company, based on the merger agreement, the amount of EUR 9,376,528.73, of which the transferred liabilities exceeded the transferred assets, was deducted from the capital reserve.

Provision for pension obligations

The actuarial report to determine the provision for pension obligations considers future salary increases as well as increases in pension benefits. To calculate the pension obligation the mortality tables "Richttafeln 2018 G" by Klaus Heubeck were applied.

The following assumptions were applied to determine the pension obligation as of March 31, 2021:

	March 31,2021	March 31, 2020
Discount rate	2.19 %	2.61 %
Expected wage and salary increases	2.0 %	2.0 %
Expected increase in pension benefits	1.0 %	1.0 %

The provision for pension obligations is calculated in accordance with § 253 (2) HGB (German Commercial Code) using the average market rate of interest for the past ten financial years and a duration of 15 years, which is published by the German Central Bank (Deutsche Bundes Bank).

In the case of the provisions for post-employment benefit obligations, the difference between the amount recognized using the average market rate of interest for the past ten financial years and the amount recognized using the average market rate of interest for the past seven financial years amounts to EUR 15,230 (prior year EUR 21,899) in the current financial year. This amount is restricted from distribution to the shareholder in accordance with § 253 (6) sentence 2 HGB.

All pension obligations are covered by reinsurance policies. Pursuant to § 246 (2) sentence 2 HGB the reinsurance policies have been offset against the pension obligations, as claims against a reinsurance policy that is not accessible to all other creditors and serves exclusively to meet pension obligations:

	March 31, 2021 kEUR	March 31, 2020 kEUR
The fair value of the plan assets	373	397
Pension obligation	495	583
Net amount	122	186

Due to the netting of the pension obligation with the plan assets, expenses for additions to the pension provision in the amount of kEUR 88 were netted with personnel expenses in the amount of kEUR 25 as part of the pension expenses. The fair-value of the plan assets were determined using actuarial valuation methods.

Besides the netted pension obligation, in the prior year, the provision contained also outstanding contributions to the reinsurance policy.

Other Provisions

As in the prior year, other provisions largely contain provisions for outstanding invoices for utilized subcontractor services (kEUR 4,530; prior year kEUR 3,638), provision for outstanding charges from the shareholder (kEUR 4,293; prior year kEUR 4,506).

Obligations for employee commitments comprise obligations for outstanding vacation days, bonus and severance payments amount to kEUR 1,633 (prior year kEUR 2,172).

Liabilities

Remaining maturities are as follows:

	March 31, 2021	Remaining Maturity less than 1 year	Remaining Maturity more than 1 year and less than 5 years	Remaining Maturity more than 5 years
Liabilities to banks	933,583.34 €	933,583.34 €	0.00 €	0.00 €
Trade payables	430,294.10 €	430,294.10 €	0.00 €	0.00 €
Payables to affiliated companies	17,988,634.48 €	17,988,634.48 €	0.00 €	0.00 €
Other liabilities	982,238.29 €	982,238.29 €	0.00 €	0.00 €
Thereof relating to social security and similar obligations	3,810.71 €	3,810.71 €	0.00 €	0.00 €
Thereof relating to taxes	977,442.99 €	977,442.99 €	0.00 €	0.00 €
Total	**20,334,750.21 €**	**20,334,750.21 €**	**0.00 €**	**0.00 €**

	March 31, 2020	Remaining Maturity less than 1 year	Remaining Maturity more than 1 year and less than 5 years	Remaining Maturity more than 5 years
Trade payables	422,034.94 €	422,034.94 €	0.00 €	0.00 €
Payables to affiliated companies	20,328,306.24 €	20,328,306.24 €	0.00 €	0.00 €
Other liabilities	1,280,267.72 €	1,280,267.72 €	0.00 €	0.00 €
Thereof relating to social security and similar obligations	3,750.38 €	3,750.38 €	0.00 €	0.00 €
Thereof relating to taxes	1,271,744.97 €	1,271,744.97 €	0.00 €	0.00 €
Total	**22,030,608.90 €**	**22,030,608.90 €**	**0.00 €**	**0.00 €**

Liabilities to the shareholder amount to kEUR 12,759 (prior year: kEUR 20,298).

Liabilities to affiliated companies result from deliveries and services (kEUR 12,941; prior year: kEUR 20,328) as well as from loans (kEUR 5,048; prior year: kEUR 0).

Other liabilities comprise mainly VAT payables as well as social security contributions and taxes.

Income statement disclosures

Revenue

As in the prior year, revenue mainly relates to income from subcontracting activities relating to the rendering of IT services. They are all generated in Germany. Tech Mahindra GmbH is acting as service agent (“Dienstleistungskommissionär”) as all material chances and risks related to the provided services are located at Tech Mahindra Limited.

Revenues are presented in the amount of actual costs plus a 7 % mark-up, charged to Tech Mahindra Limited. These amounts are presented as receivables from affiliated companies from Tech Mahindra Limited. Invoices charged by Tech Mahindra GmbH to customers locally are presented as trade receivables until they are paid. Corresponding to the trade receivables, liabilities to affiliated companies are recognized.

Further, revenues include rental in the amount of kEUR 29 (prior year: kEUR 48) due to the sublease of not needed office space.

Other operating income

Other operating income mainly includes income from release of allowance for doubtful trade receivables from affiliated companies in the amount of kEUR 2,547 (previous year: kEUR 0) as well as income from exchange rate differences amounting to kEUR 30 (previous year: kEUR 158) and income from settling private use of company cars.

Other operating expenses

Other operating expenses include, in particular, additions to the allowances for doubtful accounts (kEUR 87; prior year: kEUR 13,918) travel and distribution costs (kEUR 242; prior year: kEUR 1,414), legal and consulting costs (kEUR 1,664; prior year: kEUR 1,978) and premises costs (kEUR 2,053; prior year: kEUR 1,796). The high allowance for doubtful receivables in the prior period is mainly a correction of an intercompany loan.

Expenses from currency conversion amount to kEUR 678 (prior year: kEUR 39).

Other Interest and similar income

Other interest and similar income include interest from affiliated companies in amount of kEUR 250 (prior year: kEUR 299). In the prior year, interest on taxes refunds for the years 2010 to 2012 was included in other interest and similar income in the amount of kEUR 161.

Other Interest and similar expenses

Other interest and similar expenses include interest expenses to affiliated companies in amount of kEUR 339 (prior year: kEUR 0) as well as interest charged to the provisions for pensions and similar obligations (kEUR 4; prior year: kEUR 6).

Taxes on income

Income taxes comprise as follows:

	March 31, 2021	March 31, 2020
Current Income tax expenses	(935,920.57) €	(1,600,976.00) €
Tax refund prior years	672,393.07 €	463,261.48 €
Total expenses on Income taxes	**(263,527.50) €**	**(1,137,714.52) €**

Other disclosures

Other financial obligations

The other financial obligations mainly result from office rental contracts an amount up to kEUR 1,396 (prior year: kEUR 1,563) due in the next 12 months and kEUR 1,939 (prior year: kEUR 2,630) for following remaining duration of the agreements.

Employees

In the fiscal year 2020/2021 in average the following number of employees were employed:

Company areas	number of employees
technical consultant	569
sales and support employees	34
Total	**603**

Management and Remuneration of the members of the Management

Managing directors of the company are

- Mr. Aloke Palsikar, Bad Soden, Chief operating Office, till September 21, 2020
- Mr. Mukul Dhyani, Frankfurt am Main, Chief operating Office, since September 21, 2020
- Mr. Abhijeeet Anant Awekar, Milton Keynes/UK, CFO till February 9, 2021
- Mr. Mandar Vasant Bhairavkar, Milton Keynes/UK, CFO since February 9, 2021

As the CFO is been paid by the group company in the UK, no remuneration of the members of the management has been disclosed, with regard to option of § 286 (4) HGB.

Advisory Board

The entity has an advisory board, which is composed of the following two members:

Rajesh Chandiramani, Mumbai/Indien, Tech Mahindra Ltd., Manager

Manish M Vyas, Texas/USA, Tech Mahindra Ltd., Manager

In the reporting year, the members of the advisory board did not receive any remuneration from the entity for their activities.

Events after the balance sheet date

No significant subsequent events after the balance sheet date, which have a significant impact on the income statement and the balance sheet, have been occurred

Auditor's fee

MANAGEMENT REPORT FOR THE FINANCIAL YEAR 1 APRIL 2020 TO 31 MARCH 2021

1 Corporate Profile

1.1 General business activities

TECH MAHINDRA GmbH (as follows: company or TECH MAHINDRA) is a wholly-owned German subsidiary of Tech Mahindra Limited, Pune/India (“TM Ltd.”). It was established in 2001. The company’s business activities are focused on the provision of consultancy technology and rendering outsourcing services in the communications sector.

We generally perform our services on behalf of our parent company within the scope of a service agreement. Our parent company reaches agreements with the customer regarding those business activities. We are a subcontractor to our parent company and are therefore not subject to material risks. Remuneration for our activities is based on the reimbursement of costs incurred plus a mark-up.

Since 2015 we have also concluded a significant number of agreements directly with customers.

1.2 Financial performance measures

TECH MAHINDRA is part of the global Tech Mahindra Limited, Pune/India (“TM Ltd.”) group and its reporting system. The financial performance indicators of the company are revenues as well as result for the year and are described in section 2 and 3 of this report. As there is no break-down of group budgets on company level, the company reviews its financial performance indicators mainly by comparison to prior fiscal years.

1.3 Non-financial performance indicators

We note that the following non-financial performance indicators are important but are not currently used in the direct management of our company.

- **Occupational safety**

The constant and consistent implementation of safety guidelines ensures that the risk of accidents is reduced as far as possible. Occupational safety is the highest principle of management and is more important than the principle of profit maximization.

- **Training Measures**

The nature of our business means that we require highly qualified employees for work on high-tech and telecommunications projects. Training is carried out according to need and is primarily conducted by employees at the Tech Mahindra development centers in India. Training measures are monitored and evaluated by the HR department, an employee’s superior and the employee him- or herself.

2 Report on Economic Conditions and Business

2.1 Development of the overall economy and the industry

The performance of the global economy during the second year of the COVID19 pandemic varies considerably between sectors and regions. Industry is increasingly recovering from its slump in the spring of 2020. Although economic output in Germany was still growing marginally at the end of 2020 a decline is expected for the first quarter of 2021. The economic recovery is likely to resume over the coming months as the pandemic is increasingly contained and restrictions are gradually eased.

The German Council of Economic Experts (GCEE) expects gross domestic product (GDP) in Germany to grow by 3.1 % in 2021. The economic recovery is set to continue apace next year as demand rises worldwide and consumers run down the savings that they have accumulated. The GCEE expects GDP to grow by 4.0 % in 2022. Consumer price inflation is likely to rise temporarily this year especially as a result of higher energy prices and the expiry of the VAT cut to 16% as of December 31, 2020. The GCEE is forecasting that the rate of inflation in Germany will average 2.1 % and 1.9 % in 2021 and 2022, respectively. It expects GDP in the euro area to grow by 4.1 % and 4.2 % in 2021 and 2022, respectively.

After years of robust growth in the past few years, the German economy had thus embarked upon a period of economic boom in 2019, before the beginning of the COVID 19 pandemic. In this economic climate, the ECB’s sustained expansionary monetary policy is partly responsible for a further increase in capacity overutilization in the economy as a whole. With regard to further impacts from the COVID 19 pandemic on the economic environment, we refer to section 4.2 - **Outlook**.

The sector in which our company operates, benefits considerably from increasingly strong digitalization and the continuously high need for investment in IT. Entities know that in order to create sustainable competitiveness, they need to develop digitally within the company or face irrelevance. These challenges also provide opportunities for the global technology industry.

2.2 Report on business

2.2.1 Development of revenue

As our revenues are mainly based on reimbursement of costs incurred plus a 7 % mark-up (“cost-plus method”) as part of a service agreement, the general economic and industry development have only a limited effect on the business development of our company.

Revenue from the service agreement decreased from kEUR 83,863 to kEUR 75,064 due to lower costs, which have been charged to our parent company. The company records also insignificant rental income in the revenue in the amount of kEUR 29 (prior year kEUR 48) due to the sublease of not needed office space till October 2020.

2.2.2 Investments

In the fiscal year 2020/2021, the company acquired IT - and office - equipment for the locations in Dresden, Leipzig, Mannheim and Munich in the amount of kEUR 303.

2.2.3 Employees

As at March 31, 2021, the Company counts 584 employees (March 31, 2020: 715 employees). Due to the economic impacts of the COVID 19 pandemic, the company and its workers council signed an agreement on April 20, 2020 with regard to the implementation of short-time work at the company. This agreement was designated for a duration of 12 months, but has been extended to December 31, 2021. During the duration of the agreement the company can assign short-time work to its employees if deemed necessary.

The nature of our business demands the employment of highly skilled personnel who participate in high-tech and telecommunication projects. That makes it necessary to employ staff from the TECH MAHINDRA development centers in India.

We also employ qualified staff as well as subcontractors on site. Our employees are working at client companies throughout Germany, including Bonn, Munich, Koblenz, Wolfsburg and Hamburg. Most of our employees have a university degree and several of them have even postgraduate qualifications.

2.2.4 Statement on governance

The regulation for equal allocation of men and women in leading positions of companies and the public sector (“Gesetz für die gleichberechtigte Teilhabe von Frauen und Männern an Führungspersonen in der Privatwirtschaft und im öffentlichen Dienst”) requires, that the supervisory board and the management sets a target for the quote of women in supervisory board include time limits, in which this target has to be fulfilled.

The resolution of the shareholder and the management is still to be made.

3 Business development

3.1 Results of operations

Under the service agreement concluded with the parent company, TECH MAHINDRA is reimbursed for the cost incurred and receives a mark-up of 7 %, so that TECH MAHINDRA always disposes on constant cash inflows and realizes revenue that more than compensate the costs. In the period for the financial year 2020/2021, the Company reported a net profit of kEUR 4,716, compared to net loss of kEUR 8,956 in the prior year. This profit for the year corresponds to 6.3 % of the total revenue (prior year: -10.7 %). The loss in the prior year was primarily due to additions to doubtful account for intercompany loans (included in intercompany receivables) in the amount of kEUR 12,934. Without the prior year recognition of the allowance in the amount of kEUR 12,934, prior years result would be a profit of kEUR 3,978 (4.7 % of sales).

The cost of materials, which related exclusively to purchased services, totaled kEUR 26,354 (prior year: kEUR 25,155). The materials usage ratio (ratio of cost of materials to revenue) increased from 30.0 % to 35.1 % due to an increased need for purchased services at some projects.

The decline in employee benefits expense from kEUR 46,309 to kEUR 38,467 is mainly due to the lower numbers of employees. The employee benefits expense ratio (ratio of employee benefits expense to revenue) amounts to 51.2 % (prior year: 55.2 %). The lower personnel expenses were partly compensated by higher purchased services.

Other operating expenses decreased significantly from kEUR 21,006 to kEUR 6,772. The decline is notably attributable to the prior year’s provision for doubtful loans given to intercompany amounting to kEUR 12,934. In addition, the company incurred higher exchange losses. Due to the current pandemic situation, there has been a significant reduction in travel and marketing costs as compared to last year.

3.2 Net assets

The equity ratio decreased from 34.4 % to 29.9 % following the decrease of kEUR 4,660 in equity to kEUR 13,188. The decline in equity is mainly due to the decrease of the capital reserve in the amount of kEUR 9,377 due to the merger of an affiliated company, which has been partly compensated by the profit of the year in the amount of kEUR 4,716.

The Company’s assets are dominated by trade receivables as well as receivables from affiliated companies.

Trade receivables decreased from kEUR 18,258 to kEUR 14,769 mainly due an improved receivable management and significant payments collected before the balance sheet date as well as due to lower sales in the current year.

The decline in receivables from affiliated companies from kEUR 27,280 to kEUR 24,679 relates mainly to lower sales.

The variance in cash and cash equivalents as part of the cash funds is presented together with the information on the financial position below.

The lower other accruals as compared to last year were primarily due lower tax provision due to advance tax payments in the current year.

Liabilities to affiliated companies decreased slightly to kEUR 17,989 as compared to kEUR 20,328 of last year due to lower sales.

3.3 Financial situation

As of March 31, 2021, the company’s cash funds (cash-in-hand, bank balances) amounted to kEUR 145 (March 31, 2020: kEUR 1,110). While the operative cash flow increased significantly in current year, the decrease in cash funds relates mainly to the repayment of intercompany loans, which have been transferred to the company as part of the merger, as well as investing in newer expenditures for IT – and office-equipment at the new locations.

The service agreement ensures continuous cash inflow for the financing of current business activities.

3.4 Overall Assessment of the Economic Situation

In the opinion of the management of the company, the business development is generally satisfying. Despite the fact that sales did not rise as forecasted due to the impacts and restrictions of the COVID 19 pandemic, the management is satisfied with the development of sales and the profit for the year considering the current situation.

The company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and intangible assets. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the company, as at the date of approval of this management report has used internal and external sources of information including economic forecasts. The company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

4 Outlook, risks and opportunities for future development

4.1 Report on risks and opportunities

4.1.1 Risk management

The company has a financial reporting system, which is integrated into the TECH MAHINDRA group reporting structures. This supports the company in the ongoing monitoring and management of business development by means of target, actual and budget comparisons on group level.

As a result of the service agreement described above, the company has constant cash inflows and revenue above the level of its costs. Owing to the agreements that are in place, the company is not subject to significant business risk.

4.1.2 Risks and opportunities for future development

A number of the risks we face relate to the development of offshore services, increased competition and lower revenues as well as lower profits. We are focused on overcoming those risks by continuing to increase our marketing activities, developing clear quality guarantees for existing customers, extending our activities beyond our usual areas of business (e.g. OSS, VAS and networks) and entering new markets.

As risk, we define future developments or events, which have impact on the budgeted results of the company and the group respectively. We classify the risks in economic risks, employee related risks and technology risks. The company is facing the following risks, which are present from risks with highest occurrence and the highest possible impact to the lowest occurrence and lowest financial impact.

- **Economic downturn due to the COVID-19**

Due to the COVID-19 pandemic the global economic trend is slowing down and companies could consider cutting their budgets with regard to investment in the IT infrastructure or to postpone IT - projects.

- **Employee related risks:**

With the evolving IT industry, right skillset and talent is required to respond quickly to the ongoing changes. The inability to cost effective hiring and retaining increased number of professionals with the required skillset is to be consider as a risk.

- **Technology risks:**

The industry has been seeing a shift to disruptive technologies which are continually evolving. This shift, coupled with changes in business models and consumer spending patterns could be a threat to the growth in traditional IT spends and technology obsolescence.

The following opportunities are currently followed by the company:

- **Digitalization Trend**

The COVID-19 pandemic showed a significant need to digitalize processes in companies and further improve the IT infrastructure. The TECH MAHINDRA group provides the necessary services to these companies, which comprises significant business opportunities for the company.

- **Employees**

The company sees a big opportunity, that its recruits also employee in India, which offers more skilled and trained IT – professionals then the limited market in Germany and Europe.

- **Cost advantage**

Due to the possibility to outsource part or complete orders to its shareholder in India, which has a different and lower cost structure, the company has a cost advantage in regard to its competitors.

4.1.3 Overall assessment of the risk and opportunity situation

Despite the COVID-19 pandemic, the overall view of the company's risk and opportunity situation remains essentially unchanged. Currently, there are no risks recognizable, that either alone or in combination with other risks could endanger the continued going concern of the company.

4.2 Outlook

4.2.1 General economic outlook

Due to the economic impact of the COVID-19 pandemic, the German government expects annual average growth in real gross domestic product (GDP) of 3.1 % in the remaining year of 2021, for 2022 a phase of recovery is predicted with a growth of 4 %.

4.2.2 Companies outlook

Taking into account the current order backlog and business situation, we expect revenue increase slightly in the financial year 2021/2022 and the following years, despite the current economic impacts of the COVID-19 pandemic. The company's business will primarily consist of follow-up orders and acquired contracts. We also plan to generate growth by extending our range of services and entering new markets. Profit for the year will increase slightly in comparison to the profit in the current year.

The company has good prospects in the financial year 2021/2022 as we plan to develop additional businesses activities in new areas and segments. We expect the profit/revenue ratio to remain at the same level due to the nature of our business model (cost-plus method). However, increased volumes of business and higher revenue mean that we expect profits to increase in the coming years.

We assume gradual growth in the future since the companies are under cost pressure. We continue to expect demand for outsourcing and offshoring as well as managed service to increase. The introduction of new technologies is often accompanied by a lack of technical skills, which TECH MAHINDRA can provide.

The predicted slightly increase in revenue and profit is based on an increased volume of business, which will result in higher operating costs.

The company has considered the possible effects that may result from COVID-19, a global pandemic, and does as of the date of this report not foresee any impact on its current business plan.

NOTES TO THE FINANCIAL STATEMENTS

AT DECEMBER 31, 2020 and 2019

1. NATURE OF OPERATIONS

Mad*Pow Media Solutions, LLC, “the company” is a consulting business that specializes in providing strategic user-centered design services and digital solutions to a diverse client base across various industries throughout the United States. Digital solutions comprise, but are not limited to, assisting clients with customer research, customer experience strategy and design, behavior change, marketing content strategy, mobile application and website development.

The company was converted from a New Hampshire Limited Liability company to a Delaware Limited liability company on July 29th, 2019. Tech Mahindra (Americas), Inc. acquired 65% of the shares of the company on July 31st, 2019. A further 11.66% was acquired during this year as stipulated by the stipulations of the initial purchase agreement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

B. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. REVENUE RECOGNITION

Revenue from consulting services contracts are recognized as the services are performed and the amounts are earned. The Company considers amounts to be earned once evidence of an arrangement has been obtained, services have been provided, fees are fixed or determinable, and collectability is reasonably assured.

The company further generates revenue by hosting conferences and only recognizes this revenue once the event is held.

Revenues from consulting services and conferences, together with all reimbursed costs for out of pocket expenses are presented on the statement of operations, net of allowances or adjustments for agreed changes to reimbursed costs.

D. COST OF REVENUE

This includes all direct costs for employee and contractors consisting of salaries and contract payments, payroll taxes, insurance costs as well as reimbursable costs such as travel, lodging or entertainment.

All costs associated with hosting conferences are capitalized to prepaid expenses and only recognized as cost of sales once the event has taken place.

E. SALES AND MARKETING COSTS

The Company expenses all costs for sales marketing and advertising as and when they are incurred. Sales and marketing costs, including direct advertising costs, for the twelve months ending December 31, 2020 and the five months ended December 31, 2019, were $88,230 and $152,035 respectively. The composition of these costs were detailed in the supplemental schedule II to the financial statements.

F. INCOME TAXES

A multi-member limited liability company is treated as a partnership for federal income tax purposes and is not subject to federal income taxes. The taxable income or loss of the company is included in the individual income tax returns of its members based upon their percentage of ownership. Consequently, no federal tax provision for income taxes is required in the accompanying financial statements.

The company pays state taxes to MA and NH, in addition to the state taxes that it pays on behalf of its members through composite tax returns. Accordingly, there is a state tax provision raised for composite taxes which is included in the financial statements when required.

The company accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The Company records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with all state jurisdictions where it operates.

G. CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts held by a financial institution in the United States of America. As of December 31, 2020 and 2019, the Company had $3,068,076 and $1,430,589 respectively with financial institutions in excess of the federally insured limit.

H. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 120 days and not subject to offsetting is a strong indicator that the receivable has potentially impaired. Management will critically assess each receivable overdue in excess of 120 days for impairment and then raise an allowance if deemed necessary. Bad debts are written off against the allowance when identified.

I. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

J. PROPERTY AND EQUIPMENT

Computers and equipment are recorded at cost less accumulated depreciation, however the depreciation for this category of assets is provided by applying the double declining balance method for the first three years of use of the asset and the straight-line method of the remaining balance for the following two years.

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided using the straight-line method and is generally based on the following useful lives:

- Furniture and fixtures – seven years;
- Software – three years;
- Leasehold improvements – lesser of remaining life of lease (including probable lease extensions) or estimated useful life of equipment.

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. When assets are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the appropriate accounts and any resulting gain or loss is reflected in operations.

The Company annually reviews the status of property and equipment held by the Company for any impairment of those assets. Any such impairment would result in a permanent reduction in the recorded value of the asset. No such impairments existed at December 31, 2020.

K. RELATED PARTIES

Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). Transactions involving related parties are carried out on an arm's length basis.

L. LEASES

The company determines if an arrangement is a lease at inception of the arrangement. These leases are classified as either an operating lease or a finance lease. Based on the evaluation of leases for the period ended December 31, 2020, no leases meet the criteria for classification as a finance lease. Operating leases are capitalized on the balance sheet through a right-of-use ("ROU") asset and a corresponding lease liability. ROU assets represent the company's right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease.

Operating leases are included in operating lease ROU assets, current operating lease liabilities, and long-term operating lease liabilities on the balance sheet. Operating lease ROU assets and liabilities are recognized at the commencement date of an arrangement based on the present value of lease payments over the lease term. The operating lease ROU asset also includes any lease payments made to the lessor prior to lease commencement, less any lease incentives, and initial direct costs incurred. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term.

The company enters into long-term contracts to lease office space in support of company operations and these have all been determined to represent operating leases.

3. ACCOUNTS RECEIVABLE, NET

At December 31, accounts receivable balances were as follows:

	2020	2019
Amounts due for services rendered and billed	**$2,553,989**	$3,902,276
Less: allowance for doubtful accounts	**(199,388)**	(242,733)
Amounts due for services rendered and billed, net	**2,354,601**	3,659,543
Amounts due for services rendered, not billed	**455,367**	315,428
Total accounts receivable, net	**$ 2,809,968**	$ 3,974,971

4. TRANSACTIONS WITH RELATED PARTIES

During the year, the Company had transactions with Tech Mahindra (Americas), Inc.("TMA"). At December 31, the Company had receivables due from TMA as follows:

	2020	2019
Beginning balance	**105,484**	-
Contract revenue - parent company		
Billed income	**1,353,824**	$21,103
Unbilled revenue	**129,880**	84,381
Receipts	**(1,285,136)**	-
Ending balance, due from	**$ 304,052**	$ 105,484

5. OPERATING LEASES

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (Topic 842) "Leases." Topic 842 supersedes the lease requirements in Accounting Standards Codification Topic 840, "Leases." Under Topic 842, lessees are required to recognize assets and liabilities on the balance sheet for most leases and provide enhanced disclosures. Leases will continue to be classified as either finance or operating.

The company adopted Topic 842 effective August 1, 2019. The most significant effects of Topic 842 were the recognition of right of use assets and of operating lease liabilities. We applied Topic 842 to all leases as of August 1, 2019. In the adoption of Topic 842, we carried forward the assessment from Topic 840 of whether our contracts contain or are leases, the classification of our leases, and remaining lease terms. The standard does not have a significant effect on our consolidated results of operations and cash flows.

On August 31, 2017 the Company entered into a building lease with Invesco IF IV U.S.3,LLC, for business use and occupancy of office space in Boston, Massachusetts. The lease was an extension of an existing lease dated June 8, 2012. The lease was extended beyond December 31, 2019 and is now effective until December 31, 2027. The new lease extension also stipulates the inclusion of additional floor space to that which was stipulated in the original lease. The lease is subject to an annual increase as stipulated in the agreement applied from April 1st, 2020. In addition to the rental payable the company will also be responsible to pay certain recoveries of operational costs and taxes. The company has accounted for this new lease at December 31, 2020 and 2019, in terms of the policies in Note 2L of the accounting policies disclosed above.

On September 5, 2018 the Company entered into a building lease with Wenberry Associates,LLC., for business use and occupancy of office space in Portsmouth, New Hampshire. The lease was an extension of an existing lease dated November 18, 2009. The lease was extended beyond December 31, 2018 and is now effective until December 31, 2023. The lease is subject to an annual increase at a rate equal to the Consumer Price Index for All Urban Consumers, but shall not exceed 3% in any year. In addition to the rental payable the company will also be responsible to pay certain recoveries of operational costs and taxes. The company has accounted for this new lease at December 31, 2020 and 2019, in terms of Note 2L of the accounting policies disclosed above.

Rent expense for all properties rented for the twelve months ended December 31, 2020 and the five months ended December 31, 2019 was $687,575 and $286,490 respectively. The future minimum lease commitments are as follows:

Years ending December 31,	**$**
2021	671,902
2022	685,916
2023	700,015
2024	548,600
2025	559,000
2026	569,400
2027	580,667

6. PROPERTY AND EQUIPMENT, NET

At December 31, property and equipment balances were as follows:

	2020	2019
Computers and equipment	**$ 967,892**	$ 931,016
Furniture	**291,062**	291,062
Leasehold improvements	**614,973**	605,465
Software	**137,385**	179,814
Less: accumulated depreciation	**(1,536,551)**	(1,425,245)
	$ 474,761	$ 582,112

The total depreciation expense recognized for the twelve months ending December 31, 2020 and for the five months ending December 31, 2019 was $183,409 and $94,397 respectively. The depreciation policies followed by the Company are disclosed in Note 2J above.

7. SHORT-TERM DEBT AND LINE OF CREDIT FACILITY

On June 2, 2012, the Company entered into a line of credit agreement for $750,000 with People’s United Bank (the “”Bank””). The line is collateralized by the assets of the Company and the balance outstanding on this line at December 31, 2019 was $550,000 and was fully repaid during the year ended December 31, 2020. Additionally, on August 20, 2015 the Company entered into an term loan agreement with the Bank for an amount of $250,000. The loan is collateralized by the assets of the Company and the balance outstanding at December 31, 2019 was $36,416 and was fully repaid during the year ended December 31, 2020.

	2020	2019
Opening Balance - Line of credit	**$ 550,000**	$ -
Proceeds	**-**	550,000
Interest	**2,957**	9,133
Repayments made	**(552,957)**	(9,133)
Balance at December 31, of outstanding line of credit	**$ -**	$ 550,000
Opening Balance - Term loan	**$ 36,416**	$ 58,677
Interest	**468**	852

	2020	2019
Repayments made	**(36,884)**	(23,113)
Balance at December 31, of outstanding term loan	**$ -**	$ 36,416
Total short term debt and line of credit	**$ -**	$ 586,416

8. INCOME TAXES

The company accounts for state income taxes under the provisions of the FASB ASC 740, Income Taxes, as noted in Note 2F the company does not accounts for Federal Income Taxes.

	2020	2019
Current state income tax expense consists of the following:		
Business enterprise tax	**$ 32,859**	$ 15,683
Other State taxes	**94,092**	-
	$ 126,951	$ 15,683
Deferred income tax (benefit) expense consists of the following:		
State	**$ 7,472**	$ 72,752
	7,472	72,752
Total current and deferred income tax (benefit) expense	**$ 134,423**	$ 88,435
Deferred tax liability consists of the following:		
State	**$(80,846)**	$(73,374)
	$(80,846)	$(73,374)

In the ordinary course of business there are transactions with affiliated companies that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

9. MEMBERS' EQUITY

On July 29, 2019, Tech Mahindra (Americas), Inc. ("TMA") entered into an agreement with the members of the Company whereby it acquired 65% of the shares in the company. Under this agreement TMA will purchase the balance of the shares over the next three years and thus purchased an additional 11.66% in the current year. At December 31, 2020 three individuals, resident in the State of New Hampshire ("minority shareholders") continue to hold the remaining minority interest in the Company.

10. COMMITMENTS AND CONTINGENCIES

CONTINGENT LIABILITY

The Company received notice from the State of New Hampshire Department of Revenue and Administration on February 18, 2020 of revised Business Tax Assessments based on the findings of their audit. The Company has subsequently appealed to the notice and are confident that their objection will be successful, however the Company cannot reasonably predict the ultimate outcome. The amount of the additional taxes levied for the fiscal years ending December 31, 2018, 2017 and 2016 were $ 15,017, $ 10,418 and $ 11,175 respectively.

11. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales and terms offered to customers vary according to the credit risk profiles of, and the invoicing conventions established in, the entity's markets. The contractual terms on invoices issued to customers vary and are payable upon receipt or immediate to within 120 days.

Aging analysis of gross trade receivables, is as follows:

	2020	2019
Less than 30 days	**$ 2,113,691**	$ 3,281,888
Between 30 and 60 days	**160,896**	278,539
Between 60 and 120 days	**80,014**	99,116
More than 120 days (provided for in full)	**199,388**	242,733
	$ 2,553,989	$ 3,902,276

The following are customer concentration for sales for the year ended December 31, 2020 and billed accounts receivable as at December 31, 2020.

Billed Revenue concentration for the 12 months ended December 31, 2020:

	Amount, $	**Concentration**
Customer A	2,462,821	15%
Customer B	1,825,634	11%
Customer C	1,380,800	9%
Customer D	1,353,824	9%
Customer E	1,072,663	7%

Billed accounts receivable concentrations as at December 31, 2020:

	Amount, $	**Concentration**
Customer A	549,306	22%
Customer F	315,974	12%
Customer H	288,312	11%
Customer J	240,919	9%
Customer K	239,885	9%

The following are customer concentration for sales for the five months ended December 31, 2019 and billed accounts receivable as at December 31, 2019.

Billed Revenue concentration for the five months ended December 31, 2019:

	Amount, $	**Concentration**
Customer B	2,267,749	29%
Customer I	910,669	12%
Customer H	609,572	8%
Customer A	493,951	6%
Customer J	475,349	6%

Billed accounts receivable concentrations as at December 31, 2019:

	Amount, $	**Concentration**
Customer B	882,550	23%
Customer L	838,138	21%
Customer A	350,846	9%
Customer H	319,184	8%
Customer M	236,483	6%

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company's floatable interest rate debt are considered reasonable estimates of fair value.

13. EMPLOYEE BENEFITS

DEFINED CONTRIBUTION PLANS

The Company sponsored defined contribution plans in which eligible participants may defer a fixed amount or a percentage of their eligible compensation, subject to limitations, pursuant to Section 401(k) of the Internal Revenue Code. The Company made discretionary matching contributions of eligible compensation. Contributions are discretionary and evaluated annually. Aggregate contributions charged to operations, including discretionary amounts, for the five months ending December 31, 2019 was $126,881 and for the twelve months ending December 31, 2020 was $290,644.

14. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through March 30, 2021. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

The CJS Solutions Group, LLC and Subsidiaries a Florida Limited Liability Company Jacksonville,Florida

We have audited the accompanying consolidated financial statements of The CJS Solutions Group, LLC. and its subsidiaries (collectively referred to as the "Company"), which comprise the consolidated balance sheets as of December 31, 2020and the related consolidated statements of operations and comprehensive loss, members' capital and cash flows for the year ended December 31, 2020 and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company, as of December 31, 2020, the results of operations and its cash flow for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other matters

As discussed in Note 8 to the financial statements, the Company has had numerous transactions with the related parties.

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Consolidated Supplemental Schedule of Expenses on page 113 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

AT DECEMBER 31, 2020 and 2019

1. NATURE OF OPERATIONS

The CJS Solutions Group, LLC (the “Parent”) and Subsidiaries (the “Company”) is a consulting firm that specializes in providing resources to plan, manage, build, optimize and generally assist in the implementation of electronic medical records systems (“EMR”) in hospitals and health care systems.

The consolidated financial statements of the Company includes The CJS Solutions Group, LLC d/b/a The HCI Group and its wholly owned subsidiary, HCI Group UK Ltd. (the “Subsidiary”) and its wholly owned subsidiaries, Healthcare Clinical Informatics Ltd., CJS Solutions Group Canada ULC, HCI Group DMCC and HCI Group Australia Pty Ltd. Refer to Note 13 below for details on closure of subsidiaries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF CONSOLIDATION

The accompanying consolidated financial statements reflect the consolidated results of the Parent and its subsidiaries for the period ended December 31, 2020. All significant intercompany accounts and transactions have been eliminated in consolidation.

B. BASIS OF ACCOUNTING

These consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

D. REVENUE RECOGNITION

Revenue from consulting services contracts is recognized as the services are performed and amounts are earned. The Company considers amounts to be earned once evidence of an arrangement has been obtained, services are provided, fees are fixed or determinable, and collectability is reasonably assured.

Revenues from these services and reimbursed costs for out of pocket expenses are presented on the statement of operations and comprehensive loss, net of allowances or adjustments for agreed changes to reimbursed costs.

E. COST OF REVENUE

Direct costs for employee or contractor placements consists of salaries and contract payments (mainly from hours), payroll taxes, insurance costs as well as reimbursable costs such as travel, lodging or entertainment.

F. ADVERTISING AND MARKETING

The Company expenses all advertising costs as incurred. Sales and Marketing costs incurred for period ended December 31, 2020, was $624,506, and for the period ended December 31, 2019, was $665,082.

G. INCOME TAXES

CJS, was formed as a Limited Liability Company. On May 5, 2017 management elected to have the entity file an income tax return as a corporation.

CJS accounts for income taxes using Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes. Under FASB ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under FASB ASC 740 the effect on the deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. CJS records valuation allowances against deferred tax assets as deemed necessary.

Per FASB ASC 740-10-20, the Company follows the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States of America. Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Company has analyzed tax positions taken for filing with the Internal Revenue Service (IRS) and all state jurisdictions where it operates.

In accordance with guidance in ASC 740-10-30-27, the Company uses a “separate return” method to allocate current and deferred taxes or benefits to members of the consolidated return group (“TMA and subsidiaries”) by applying ASC 740 to each member as if they were separate tax payers. Under the “separate return” method, the subsidiary is assumed to file a separate return with the taxing authority, thereby reporting its taxable income or loss and paying the applicable tax to or receiving the appropriate refund from the Parent.

For the foreign subsidiaries deferred tax assets are only recognized if it is probable that they will be used.

H. CASH

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

The Federal Deposit Insurance Corporation covers $250,000 for substantially all depository accounts held by a financial institution in the United States of America. As of December 31, 2020 and 2019, the Company had

$4,715,019 and $1,302,476 respectively with financial institutions in excess of the federally insured limit.

The Financial Services Compensation Scheme covers small businesses in the United Kingdom that hold deposits at member banks up to £85,000. As of December 31,2020 and 2019 such balances held in the United Kingdom exceeded the insured limits by £1,933,820 ($2,642,202) and £570,360 ($756,722) respectively.

I. ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract’s terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company’s specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days and not subject to offsetting is a strong indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

J. UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

K. PROPERTY AND EQUIPMENT

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is provided by the straight-line method and is generally based on the following lives:

- Computers and technology peripherals – five years;
- Furniture and fixtures – seven years;
- Leasehold improvements – lesser of remaining life of lease or estimated useful life of equipment.

Expenditures for maintenance and repairs are charged to income as incurred. Additions and betterments are capitalized. When assets are retired or otherwise disposed, the related cost and accumulated depreciation are removed from the appropriate accounts and any resulting gain or loss is reflected in operations.

The Company annually reviews the status of property and equipment held by the Company for any impairment of those assets. Any such impairment would result in a permanent reduction in the recorded value of the asset. No such impairments existed at December 31, 2020 and 2019.

L. FOREIGN EXCHANGE RATES

The Company translates the operations and balances of its foreign subsidiaries into U.S. Dollars. Assets and liabilities are translated into U.S. Dollars at year-end exchange rates. Income and expense items are translated at the average rates of exchange prevailing during the year. Translation adjustments are included in “Other Comprehensive Loss” and “Accumulated Other Comprehensive Loss”. Transactions in currencies other than the functional currency of the related subsidiary are converted at the foreign exchange rate on the date of the transaction. Gains and losses, which result from foreign currency transactions, are included in Other Expenses.

M. GOODWILL

Goodwill resulting from business combinations represents the excess of the fair value of the consideration transferred over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. During 2015, the Company elected the private company accounting alternatives provided in Accounting Standards Update (ASU) 2014-02, Intangibles – Goodwill and Other (Topic 350). Pursuant to these elections, the Company prospectively amortized goodwill on a straight-line basis over a ten-year period. Impairment testing will be performed at the entity level whenever events occur, or circumstances changes, which indicates that the fair value of the Company may be below its carrying amount.

N. IDENTIFIABLE INTANGIBLES

Identifiable definite lived intangibles are stated at fair value as of date of acquisition and are amortized over their estimated useful lives. The Company amortizes customer relationships on a straight-line basis over a six-year period. Under the provisions of (Topic 350) Intangibles - Goodwill and Other, identifiable intangible assets with definite lives are tested for impairment if conditions exist that indicate the asset might be impaired. The impairment assessments made at December 31, 2020 and 2019 did not result in any impairment charges.

O. RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise). The Company conducted business, involving a lease agreement with a provider in which an employee of the Company holds an interest. Transactions involving related parties are carried out on an arm's length basis.

P. LEASES

The company determines if an arrangement is a lease at inception of the arrangement. These leases are classified as either an operating lease or a finance lease. Based on the evaluation of leases for the period ended December 31, 2020, no leases meet the criteria for classification as a finance lease. Operating leases are capitalized on the consolidated balance sheet through a right-of-use ("ROU") asset and a corresponding lease liability. ROU assets represent the company's right to use an underlying asset for the lease term, and lease liabilities represent the obligation to make lease payments arising from the lease.

Operating leases are included in operating lease ROU assets, current operating lease liabilities, and long-term operating lease liabilities in our consolidated balance sheets. Operating lease ROU assets and liabilities are recognized at the commencement date of an arrangement based on the present value of lease payments over the lease term. The operating lease ROU asset also includes any lease payments made to the lessor prior to lease commencement, less any lease incentives, and initial direct costs incurred. Lease expense for operating lease payments is recognized on a straight-line basis over the lease term.

The company enters into long-term contracts to lease office space in support of company operations and these have all been determined to represent operating leases.

Q. CAPITAL WORK IN PROGRESS

Capital work-in-progress are costs incurred in the construction of the new corporate office lease space. Capital work-in-progress is stated at cost and not depreciated. Depreciation on capital work-in-progress commences when the assets are ready for their intended use and have been transferred to and disclosed under the fixed assets.

3. ACCOUNTS RECEIVABLE, NET

At December 31, 2020 and 2019, accounts receivable balances were as follows:

	2020	2019
Amounts due for services rendered and billed	**$ 12,989,402**	$ 33,840,212
Less: allowance for doubtful accounts	**(1,445,374)**	(89,731)
Amounts due for services rendered and billed, net	**11,544,028**	33,750,481
Amounts due for services rendered, not billed	**2,271,153**	10,467,569
Total accounts receivable, net	**$ 13,815,181**	$ 44,218,050

4. INCOME TAXES

CJS accounts for income taxes under the provisions of the FASB ASC 740, Income Taxes , as described in Note 2G above.

Current income tax (benefit) expense consists of the following:	2020	2019
Federal	**$ 1,747,735**	$ 1,191,404
State	**672,546**	1,142,668
	2,420,281	2,334,072
Deferred income tax (benefit) expense consists of the following:		
Federal	**(1,597,232)**	(1,264,167)
State	**(302,022)**	(1,059,547)
	(1,899,254)	(2,323,714)
Total current and deferred income tax (benefit) expense	**$ 521,027**	$ 10,358

	2020	2019
Deferred tax asset consists of the following:		
Federal	**5,304,851**	3,707,619
State	**1,540,764**	1,238,742
	$ 6,845,615	$ 4,946,361

As of December 31, 2020, CJS had utilized all available federal net operating losses (NOLs) available to be carried forward from prior years. CJS had utilized all available state net operating losses (NOLs) available to be carried forward from prior years. CJS expects to be able to utilize the entire deferred tax benefit, therefore, no valuation allowance has been recorded to reduce the asset.

In the ordinary course of business there are many transactions with affiliated companies that affect the calculation and estimation of the Company's tax liability. Although management believes that the Company's tax estimates are reasonable, there is no assurance that the final determination of tax liability will not be different from what is reflected in the Company's historical income tax provisions and accruals.

The Company does not anticipate any amount to be recognized related to the Company's uncertain tax position.

5. PROPERTY AND EQUIPMENT

	2020	2019
At December 31, 2020 and 2019, property and equipment balances were as follows:		
Computer and software	**$2,932,871**	$1,467,052
Furniture and equipment	**98,313**	248,560
Leasehold improvements	**360,248**	24,558
Office equipment	**8,946**	33,276
Less: accumulated depreciation	**(1,373,403)**	(1,189,698)
	$ 2,026,975	$ 583,748

Total depreciation expense for the year ending December 31, 2020 and 2019 was $839,076 and $432,046 respectively. Included in this depreciation amount is the depreciation of the Right-of-use asset relating to operating leases of $440,560 for the year ending December 31, 2020. The depreciation policies followed by the Company are disclosed in Note K.

6. INTANGIBLE ASSETS, NET

	2020	2019
At December 31, 2020 and 2019, intangible asset balances were as follows:		
Customer contract and related relationships	**$ 32,600,000**	$32,600,000
Less: accumulated amortization	**(19,863,799)**	(14,430,466)
	$ 12,736,201	$ 18,169,534

Amortization expense for each of the years ending December 31, 2020 and 2019 was $5,433,333. The amortization policies followed by the Company are described in Note N.

Amortization expense of intangible assets subject to amortization for the three years succeeding December 31, 2020 is as follows:

Years ending December 31,	$
2021	5,433,333
2022	5,433,333
2023	1,869,535
	12,736,201

7. GOODWILL, NET

The changes in the carrying amount of goodwill at December 31, 2020 and 2019 are as follows:

	2020	2019
Goodwill	**$ 59,510,430**	$ 59,510,430
Less: accumulated amortization	**(21,104,889)**	(15,431,610)
	$ 38,405,541	$ 44,078,820

Amortization expense for the years ending December 31, 2020 and 2019 was $5,673,279. The Company reviewed its goodwill as of December 31, 2020 and determined that no impairment of goodwill has occurred. The amortization policies followed by the Company are described in Note M.

Amortization expense of goodwill subject to amortization for the five years succeeding December 31, 2020 and thereafter is as follows:

Years ending December 31,	$
2021	5,673,279
2022	5,673,279
2023	5,673,279
2024	5,673,279
2025	5,673,279
Thereafter	10,039,146
	38,405,541

8. TRANSACTIONS WITH RELATED PARTIES

During the years ending December 31, 2020 and 2019, the Company had transactions with Tech Mahindra (Americas), Inc.("TMA"). At December 31, 2020 and 2019 the Company had payables due (to) from TMA as follows:

	2020	2019
Beginning balance, due (to)	**(1,372,729)**	(2,033,792)

Total amounts due from related parties	**16,801,824**	$ 316,074
	$ 16,765,486	$ (1,181,016)

9. SHORT-TERM DEBT AND LINE OF CREDIT FACILITY

On December 12, 2018 the Company entered into an uncommitted line of credit with JP Morgan Chase (the "Bank") which is renewed annually. The current maximum borrowing available under this uncommitted line is $37,500,000. The line is collateralized by the assets of the Company and is not committed and is recallable. The balance outstanding on this line of credit at December 31, 2020 was zero and at December 31, 2019 was $4,000,000. Interest accrues at 1) a variable rate equal to the Base Rate plus a margin offered by the Bank and accepted by the undersigned; 2) a floating rate equal to the Eurodollar rate applicable to such loan plus a margin offered by the bank and accepted by the undersigned or a fixed rate as offered per the Bank's discretion to the undersigned and the Company may accept the offered rate. The committed loan facility available at December 31, 2019 has been cancelled by the company as it no longer required. The balance at December 31, 2019 on the loan was $12,614,161.

The loan agreement contains certain restricting covenants. At December 31, 2020 the Company did comply with all covenants as per the loan agreement. Interest expense for years ending December 31, 2020 and 2019 were $822,416 and $190,186 respectively.

	2020	2019
Opening balance of outstanding committed loan	**12,614,161**	41,139,070
Movement of committed loan	**(12,614,161)**	(41,139,070)
Closing balance of outstanding committed loan	**-**	-
Opening balance of outstanding uncommitted loans	**4,000,000**	30,000,000
Proceeds from uncommitted loans	**37,500,000**	56,425,686
Repayment of uncommitted loans	**(41,500,000)**	(82,425,686)
Closing balance of outstanding uncommitted loans	**-**	4,000,000
	-	16,614,161

10. MEMBERS' EQUITY

The Company entered into an Agreement and Plan of Merger with Tech Mahindra HealthCare, LLC on March 6, 2017. Under the terms of the agreement, the Company was merged into a newly created merger subsidiary of Tech Mahindra Health Systems Holdings, LLC with the Company surviving the merger. The closing date of the merger was after the close of business on May 4, 2017. Tech Mahindra Healthcare Systems Holdings, LLC ("Holdco") entered into a Limited Liability Company Agreement of Tech Mahindra Healthcare LLC, dated April 7, 2017, as sole initial member. On May 4, 2017, Tech Mahindra (Americas) Inc. ("TMA"), acquired 84.7% holding in Tech Mahindra Holdco, a Delaware Limited Liability Company. On June 30, 2019 TMA acquired a further 4.07% from the minority holderd this was followed by a further purchase of an additional 4.08% on May 31, 2020 by TMA from the same minority shareholder. At December 31, 2020 TMA has 92.85% interest in the Company. An individual, resident of the State of Florida ("minority shareholder") continues to hold the remaining minority interest in Holdco.

11. EMPLOYEE BENEFITS

The Company has established a salary deferral plan under Section 401(k) of the Internal Revenue Code. The plan allows eligible employees to defer a portion of their compensation. Such deferrals accumulate on a tax deferred basis until the employee withdraws the funds. The Company, at its option, may match a portion of the employee's contribution. The Company has elected not to match a portion of employee's contribution at this time.

12. COMMITMENTS AND CONTINGENCIES

Real Estate Leases

In February 2016, the FASB issued Accounting Standards Update No. 2016-02 (Topic 842) "Leases." Topic 842 supersedes the lease requirements in Accounting Standards Codification Topic 840, "Leases." Under Topic 842, lessees are required to recognize assets and liabilities on the balance sheet for most leases and provide enhanced disclosures. Leases will continue to be classified as either finance or operating. The company adopted Topic 842 effective January 1, 2019. The most significant effects of Topic 842 were the recognition of right of use assets and of operating lease liabilities. We applied Topic 842 to all leases as of January 1, 2019. In the adoption of Topic 842, we carried forward the assessment from Topic 840 of whether our contracts contain or are leases, the classification of our leases, and remaining lease terms. The standard does not have a significant effect on our consolidated results of operations and cash flows.

On November 17, 2019 the company's holding company, Tech Mahindra (Americas), Inc. "TMA", has entered into a building lease with NortgateArinso, Inc. for business use and occupancy of office space by CJS Solutions Group ("CJS") in Jacksonville, Florida. The lease commenced on January 31, 2020 and is effective until July 30, 2025. The lease is subject to an annual increase of 3% applied from August 1st, 2020. In addition to the rental payable the company will also be responsible to pay Florida State Sales Tax to the landlord. The company has accounted for this new lease as at December 31, 2020, in terms of the policies set out in Note P of the accounting policies above.

Rent expense for the years ended December 31, 2020 and 2019 was $274,686 and $291,108 respectively. The future minimum lease commitments are as follows:

Years ending December 31,	$
2021	**289,300**
2022	**402,616**
2023	**548,623**
2024	**565,006**
2025	**335,274**

13. LITIGATION AND CONTINGENCIES

The Company is involved in various legal proceedings in the ordinary course of its business. Although management of the Company cannot predict the ultimate outcome of these proceedings excluding the settlement of the below class action with certainty, it believes that the ultimate resolution of the Company's proceedings, including any amounts it may be required to pay in excess of amounts reserved or covered by insurance, will not have a material effect on the Company's financial statements. The Company was named as a defendant in certain class action lawsuits and some pending lawsuits due to prior practices mainly related to overtime payments. The only known, likely and estimable potential liability payable is a settlement payment in the amount of $400,000.

In November 2019 the Company approved to close two insignificant subsidiaries, named HCI Group DMCC & HCI Group UK Limited. Subsequent to the approval there have been minimal activity on remaining assets and liabilities on the records of these abandoned subsidiaries other than the write-off of the intercompany loans due from these subsidiaries. The losses related to the write-offs are eliminated in the consolidation. These entitles were dissolved in January 2020.

On dissolution of HCI Group UK limited, two 100% subsidiaries of that company namely, HCI Group Australia Pty Ltd (Australian entity) & Healthcare Clinical Informatics (UK entity) are now 100% subsidiaries of CJS Solutions Group LLC (US entity).

14. CONCENTRATION OF CREDIT RISK

REVENUE AND ACCOUNTS RECEIVABLE

The majority of the Company's sales are credit sales. The following are customer concentration for sales for the years ended December 31, 2020 and 2019 and billed accounts receivable as at December 31, 2020 and 2019.

Revenue concentration for the year ended December 31, 2020:	**Amount, $**	**Concentration**
Cleveland Clinic Health System	22,641,191	20%
Seattle Children's Hospital	13,852,705	12%
Integris Health	10,553,534	9%
NYC Health & Hospital Corporation	8,848,848	8%
Tech Mahindra Limited	6,158,162	5%

Billed accounts receivable concentrations as at December 31, 2020:	**Amount, $**	**Concentration**
Cleveland Clinic Health System	3,051,607	26%
NYC Health & Hospital Corporation	1,560,032	14%
Mt Sinai Medical Center	1,053,504	9%
Modernizing Medicine	1,045,879	9%
Vancouver Coastal Health	566,441	5%

Revenue concentration for the year ended December 31, 2019:	Amount, $	Concentration
NYC Health & Hospital Corporation	74,959,725	45%
Cleveland Clinic Health System	17,589,232	11%
UCSF	11,033,957	7%
Seattle Children's Hospital	9,141,889	5%
Deaconess Health System	3,925,371	2%

Billed accounts receivable concentrations as at December 31, 2019:	Amount, $	Concentration
NYC Health & Hospital Corporation	12,982,085	38%
Cleveland Clinic Health System	3,791,981	11%
Deaconess Health System	2,714,425	8%
Seattle Children's Hospital	2,531,479	8%
Vancouver Coastal Health	1,499,680	4%

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined under Accounting Standards Codification ("ASC") 820, "Fair Value Measurements and Disclosures" ("ASC 820"), as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1–inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2–inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3–inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

The carrying amounts of cash, accounts receivable and accounts payable approximate fair value due to the short-term maturity of the instruments. The carrying amounts of the Company's floatable interest rate debt are considered reasonable estimates of fair value.

16. SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 14, 2021. No significant events occurred subsequent to the balance sheet date that would have a material impact on the financial statements.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

1. NATURE OF OPERATIONS

Objectwise ('OW'), based in Toronto, Canada specializes in enterprise project delivery by offering IT Staff Augmentation & Professional services and PEGA development services.

Key service offerings: Primarily staff augmentation and professional services. Resource skills include Cards & Payment SME, Pega Technology, & Blueprism Robotics.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. BASIS OF ACCOUNTING

These financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in Canada (Canadian GAAP). Revenue is recognized based on accrual method of accounting

B. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with Canadian Accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

C CASH AND CASH EQUIVALENTS

The Company considers all highly-liquid investments with maturities of three months or less to be cash or cash equivalents.

D ACCOUNTS RECEIVABLE AND ALLOWANCE FOR BAD DEBTS

Accounts receivable are the amounts owed on invoiced contractual agreements either in process or completed by the Company. Accounts receivable are considered delinquent when payment is not received under terms described within the individual contract's terms.

An allowance for doubtful accounts is provided for those balances considered to be uncollectible based upon historical experience and the Company's specific review of outstanding account balances. Company policy is that accounts overdue in excess of 365 days is an indicator that the receivable has potentially impaired. Bad debts are written off against the allowance when identified.

E UNBILLED RECEIVABLES

Unbilled receivables represent accrued revenue earned and recognized on projects for which billings have not yet been presented to the customer.

F RELATED PARTIES

All companies within the Group are considered to be related parties. Related parties are considered to be related if one party has the ability to control or jointly control the other party or exercise significant influence over the party in making financial and operational decisions. Key management personnel are also regarded as related parties. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise).

3 ACCOUNTS RECEIVABLE, NET

At March 31, 2021 and 2020, accounts receivable balances were as follows:

	March 31, 2021	**March 31, 2020**
Amounts due for services rendered and billed	1,061,307	801,787
Less: allowance for doubtful accounts	-	-
Amounts due for services rendered and billed, net	1,061,307	801,787
Amounts due for services rendered, not billed		
Total accounts receivable, net	**1,061,307**	**801,787**

4 TRANSACTIONS WITH PARENT COMPANY

During the period ended March 31, 2021 and 2020, the Company had transactions with Tech Mahindra Ltd.("TML"). At March 31, 2021 and 2020 the Company had payables due to TML as follows:

	March 31, 2021	March 31, 2020
Beginning balance, due to		
Cost of services from TML		
Reimbursements		
Payments to parent company		
Revenue from TML		
Ending balance, due to	**-**	**-**
Due (to) consists of:		
Amounts due to TML		
Amounts due from TML	(665,833)	-
	(665,833)	**-**

Amounts due to and receivable from TML are interest free and payable on demand.

5 LITIGATION AND CONTINGENCIES

The Company is not involved in any legal proceedings in the ordinary course of its business.

6 PROPERTY AND EQUIPMENT

	March 31, 2021	March 31, 2020
Computer and software	10,409	10,409
Furniture and Fixures	12,544	12,544

DIRECTORS' STATEMENT

We are pleased to submit this annual report to the member of the Company together with the audited financial statements for the financial year ended 31 March 2021.

In our opinion:

(a) the financial statements set out on pages 125 to 150 are drawn up so as to give a true and fair view of the financial position of the Company as at 31 March 2021 and the financial performance, changes in equity and cash flows of the Company for the year ended on that date in accordance with the provisions of the Singapore Companies Act, Chapter 50 and Singapore Financial Reporting Standards; and

(b) at the date of this statement, with continuing financial support from ultimate holding company, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised these financial statements for issue.

Directors

The directors in office at the date of this statement are as follows:

Manish Goenka

Ayush Keshan

Hrishikesh Mahesh Pandit

Directors' interests

According to the register kept by the Company for the purposes of Section 164 of the Companies Act, Chapter 50 (the Act), particulars of interests of directors who held office at the end of the financial year (including those held by their spouses and children) in shares, debentures, warrants and share options in the Company and in related corporations are as follows:

Name of director and corporation in which interests are held	**Holdings at beginning of the year**	**Holdings at end of the year**
Ultimate holding company		
Tech Mahindra Limited		
(Ordinary shares of Indian Rupees 5 each)		
Hrishikesh Mahesh Pandit	23	703
Ayush Keshan	114	1,114

Share options to subscribe for ordinary shares		
Manish Goenka	36,000	36,000
Ayush Keshan	3,950	10,900
Hrishikesh Mahesh Pandit	6,000	5,100

Except as disclosed in this statement, no director who held office at the end of the financial year had interests in shares, debentures, warrants or share options of the Company, or of related corporations, either at the beginning of the financial year or at the end of the financial year.

Except as disclosed under the 'Share options' section of this statement, neither at the end of, nor at any time during the financial year, was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

Share options

During the financial year, there were:

(i) no options granted by the Company to any person to take up unissued ordinary shares of the Company; and

(ii) no shares issued by virtue of any exercise of option to take up unissued shares of the Company.

As at the end of the financial year, there were no unissued shares of the Company under options.

Auditors

The auditors, KPMG LLP, have indicated their willingness to accept re-appointment.

On behalf of the Board of Directors

Manish Goenka
Director

Ayush Keshan
Director

INDEPENDENT AUDITORS' REPORT

Member of the Company

Tech Mahindra (Singapore) Pte. Limited

Report on the audit of the financial statements

We have audited the financial statements of Tech Mahindra (Singapore) Pte. Limited ('the Company'), which comprise the statement of financial position as at 31 March 2021, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 125 to 150.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 ('the Act') and Singapore Financial Reporting Standards ('FRSs') so as to give a true and fair view of the financial position of the Company as at 31 March 2021 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ('SSAs'). Our responsibilities under those standards are further described in the 'Auditors' responsibilities for the audit of the financial statements' section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ('ACRA Code') together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management is responsible for the other information contained in the annual report. Other information is defined as all information in the annual report other than the financial statements and our auditors' report thereon.

We have obtained all other information prior to the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and directors for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identify during our audit.

Report on other legal and regulatory requirements

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

NOTES TO THE FINANCIAL STATEMENTS

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Board of Directors on June June 23 ,2021.

1 Domicile and activities

Tech Mahindra (Singapore) Pte. Limited ('the Company') is incorporated in the Republic of Singapore. The address of the Company's registered office is 17, Changi Business Park Central 1, #06-01 Honeywell Building, Singapore 486073.

The principal activities of the Company are that providing consultancy and services relating to information technology and development of software solutions and products.

The Company is a wholly owned subsidiary of Tech Mahindra Limited, incorporated in India, which is also the ultimate holding company.

2 Basis of preparation

2.1 Going concern

The Company incurred a net loss of $4,342,178 (2020: $644,461) in the financial year ended 31 March 2021 and as at the date, the Company was in net current liabilities of $4,210,358 (2020: $27,666,493). Notwithstanding these, the financial statements of the Company have been prepared on a going concern basis, as the ultimate holding company, i.e. Tech Mahindra Limited, has undertaken to provide continuing financial support to the Company for at least 12 months from the date of this report, to enable it to continue its operations and meet its liabilities as and when they fall due. Management has assessed that the ultimate holding company has the ability to provide the financial support.

2.2 Statement of compliance

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards ('FRS').

2.3 Basis of measurement

The financial statements have been prepared on the historical cost basis except as otherwise described in the notes below.

2.4 Functional and presentation currency

These financial statements are presented in Singapore dollars, which is the Company's functional currency.

2.5 Use of estimates and judgements

The preparation of the financial statements in conformity with FRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are included in the following notes:

- Note 6 – measurement of recoverable amounts of investment in subsidiaries
- Note 8, 10 and 22 – measurement of expected credit loss (ECL) allowance for trade receivables and contract assets: key assumptions in determining the weighted-average loss rate.

Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

2.6 Changes in accounting policies

New standards and amendments

The Company has applied the following FRSs, amendments to and interpretations of FRS for the first time for the annual period beginning on 1 April 2020:

- Amendments to References to Conceptual Framework in FRS Standards
- Definition of a Business (Amendments to FRS 103)
- Definition of Material (Amendments to FRS 1 and FRS 8)
- Interest Rate Benchmark Reform (Amendments to FRS 109, FRS 39 and FRS 107)

The application of these amendments to standards and interpretations does not have a material effect on the financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements which addresses changes in accounting policies.

3.1 Foreign currency

(i) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on translation are generally recognised in profit or loss.

3.2 Subsidiaries

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Investments in subsidiaries are stated in the Company's statement of financial position at cost less accumulated impairment losses.

Consolidated financial statements for the Company and its subsidiaries have not been prepared as the Company is itself a wholly-owned subsidiary of Tech Mahindra Limited, which publishes consolidated financial statements which are available for public use. The registered address of Tech Mahindra Limited is Gateway Building, Apollo Bunder, Mumbai 400001.

3.3 Financial instruments

(i) Recognition and initial measurement

Non-derivative financial assets and financial liabilities

Trade receivables and debt investments issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Non-derivative financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held-for-trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Non-derivative financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Non-derivative financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Non-derivative financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are initially measured at fair value less directly attributable transaction costs. They are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognises a financial asset when:

- the contractual rights to the cash flows from the financial asset expire; or
- it transfers the rights to receive the contractual cash flows in a transaction in which either
    - substantially all of the risks and rewards of ownership of the financial asset are transferred; or
    - the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Transferred assets are not derecognised when the Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(v) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits with maturities of three months or less from the date of acquisition that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

(vi) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

3.4 Plant and equipment

(i) Recognition and measurement

Items of plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

If significant parts of an item of plant and equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately.

Depreciation is recognised as an expense in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of plant and equipment, unless it is included in the carrying amount of another asset. Land is not depreciated.

Depreciation is recognised from the date that the plant and equipment are installed and are ready for use, or in respect of internally constructed assets, from the date that the asset is completed and ready for use.

The estimated useful lives for the current and comparative years are as follows:

- Equipment 3 years
- Leasehold improvements 3 years or over the remaining term of lease period

Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

3.5 Intangible assets

Intangible assets acquired separately are reported at cost less accumulated amortisation (where they have finite useful lives) and accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in profit or loss in the year in which the expenditure is incurred.

The estimated useful life has been taken as follows:

- Software 5 years

Intangible assets are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

3.6 Impairment

(i) Non-derivative financial assets and contract assets

The Company recognises loss allowances for ECLs on:

- financial assets measured at amortised costs; and
- contract assets (as defined in FRS 115).

Loss allowances of the Company are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from default events that are possible within the 12 months after the reporting date (or for a shorter period if the expected life of the instrument is less than 12 months); or
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument or contract asset.

Simplified approach

The Company applies the simplified approach to provide for ECLs for all trade receivables (including lease receivables) and contract assets. The simplified approach requires the loss allowance to be measured at an amount equal to lifetime ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

General approach

The Company applies the general approach to provide for ECLs on all other financial instruments. Under the general approach, the loss allowance is measured at an amount equal to 12-month ECLs at initial recognition.

At each reporting date, the Company assesses whether the credit risk of a financial instrument has increased significantly since initial recognition. When credit risk has increased significantly since initial recognition, loss allowance is measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and includes forward-looking information.

If credit risk has not increased significantly since initial recognition or if the credit quality of the financial instruments improves such that there is no longer a significant increase in credit risk since initial recognition, loss allowance is measured at an amount equal to 12-month ECLs.

The Company considers a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before considering any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Company considers a contract asset to be in default when the customer is unlikely to pay its contractual obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are probability-weighted estimates of credit losses. Credit losses are measured at the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt investments at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Presentation of allowance for ECLs in the statement of financial position

Loss allowances for financial assets measured at amortised cost and contract assets are deducted from the gross carrying amount of these assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Non-financial assets

The carrying amounts of the Company's non-financial assets, other than investment property, inventories, contract assets and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit (CGU) exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The Company's corporate assets do not generate separate cash inflows and are utilised by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated to reduce the carrying amounts of the assets in the CGU (group of CGUs) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

3.7 Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

3.8 Revenue

Rendering of services

Revenue from rendering of services in the ordinary course of business is recognised when the Company satisfies a performance obligation (PO) by transferring control of a promised service to the customer. The amount of revenue recognised is the amount of the transaction price allocated to the satisfied PO.

The transaction price is allocated to each PO in the contract on the basis of the relative stand-alone selling prices of the promised services. The individual standalone selling price of a service that has not previously been sold on a stand-alone basis, or has a highly variable selling price, is determined based on the residual portion of the transaction price after allocating the transaction price to services with observable stand-alone selling prices. A discount or variable consideration is allocated to one or more, but not all, of the performance obligations if it relates specifically to those POs.

The transaction price is the amount of consideration in the contract to which the Company expects to be entitled in exchange for transferring the promised services. The transaction price may be fixed or variable and is adjusted for time value of money if the contract includes a significant financing component. Consideration payable to a customer is deducted from the transaction price if the Company does not receive a separate identifiable benefit from the customer. When consideration is variable, the estimated amount is included in the transaction price to the extent that it is highly probable that a significant reversal of the cumulative revenue will not occur when the uncertainty associated with the variable consideration is resolved.

Revenue may be recognised at a point in time or over time following the timing of satisfaction of the PO. If a PO is satisfied over time, revenue is recognised based on the percentage of completion reflecting the progress towards complete satisfaction of that PO.

3.9 Finance cost

Finance costs comprise interest expense on borrowings.

3.10 Employment benefits

(i) Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

(ii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(iii) Compensated absences (employee leave entitlement)

The Company provides for compensated absences subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or utilisation. The liability is accrued based on the number of days of unutilised leave at each balance sheet date. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method. Actuarial gains and losses are recognised in full in the statement of profit and loss in the period in which they occur. The Company also offers a short term benefit in the form of encashment of unutilised accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

3.11 Tax

Tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in OCI.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under FRS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. The measurement of deferred taxes reflects the tax consequences that would follow the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date, and reflects uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

3.1 Government grants

A conditional grant related to staff costs is recognised in profit or loss as a deduction of staff costs. Grants for expenses are recognised initially as deferred income at fair value when there is reasonable assurance that they will be received, and the Company will comply with the conditions associated with the grant. Grants that compensate the Company for expenses incurred are recognised in profit or loss as a deduction against expenses on a systematic basis in the same periods in which the expenses are recognised.

3.12 New standards and interpretations not yet adopted

A number of new standards, interpretations and amendments to standards are effective for annual periods beginning after 1 April 2020 and earlier application is permitted; however, the Company has not early adopted the new or amended standards and interpretations in preparing these financial statements.

The following new FRSs, interpretations and amendments to FRSs are not expected to have a significant impact on the Company's financial statements.

- FRS 117 Insurance Contracts
- Classification of Liabilities as Current or Non-current (Amendments to FRS 1)
- Covid-19-Related Rent Concessions (Amendment to FRS 116)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to FRS 110 and FRS 28)
- Reference to the Conceptual Framework (Amendments to FRS 103)
- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to FRS 16)
- Onerous Contracts – Costs of Fulfilling a Contract (Amendments to FRS 37)
- Annual Improvements to FRS(I)s 2018 – 2020

(A) Acquisition of Born Group Pte Ltd

In previous financial year, the Company acquired 100% stake in Born Group Pte. Limited (Born Group) on 26 November 2019 with a consideration of 112,633,477. Born Group is engaged in providing content production and commerce solutions services across USA, APAC and Europe.

Consideration transferred for the acquisition of Born Group

	2020
	$
Total consideration for 100% equity interest acquired	112,633,477
Less: Earnout consideration recognised as at acquisition date (note 13)	(32,134,506)
Consideration settled in cash, representing cash outflow on acquisition	**80,498,971**

consideration arrangement

As part of the acquisition agreement with the previous shareholders of Born Group, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Born Group based on the audited financial performance of Born Group Pte Ltd for the financial period year ended 31 December 2019. As at the acquisition date and 31 March 2021, the contingent consideration was determined at USD 21,500,000 (approximately $32,134,506) and recognised as “Other payables” (note 13).

Subsequent to acquisition date, Born Group’s actual financial performance exceeded the earnings target and the final settlement of earnout consideration amounting to $33,932,095 was paid to previous shareholders of Born Group in May 2020. The fair value change of earnout consideration resulted in a loss of $1,797,589 (difference between earnout consideration at acquisition date of $32,134,506 and actual earnout consideration of $33,932,095), which has been recognised in the statement of profit and loss.

Finance costs related to the acquisition

For the purpose of acquisition of Born Group, the Company had obtained a loan from its related company, i.e. Tech Mahindra (Americas) Inc on 1 November 2019 amounted to USD 62,000,000 (approximately $84,072,000) and the Company had fully repaid the loan on 10 December 2019. The loan was unsecured and bore interest rate of 2.84%. The interest expenses paid of the loan amounted to $515,290 had been recognised as “Finance costs” for the financial year ended 31 March 2020.

(B) Acquisition of Tenzing Limited

The Company acquired 100% stake in Tenzing Limited (“Tenzing Group”) on 23 October 2020. Tenzing is based in New Zealand and is a Technology Consulting Firm and Tenzing was acquired with a consideration of NZD 41,573,536 (approximately $39,328,258).

Consideration transferred for the acquisition of Tenzing Group

	2021
	$
Total consideration for 100% equity interest acquired	39,328,258
Less: Earnout consideration recognised as at acquisition date (note 13)	(11,029,100)
Consideration settled in cash, representing cash outflow on acquisition	**28,299,158**

Contingent consideration arrangement

As part of the acquisition agreement with the previous shareholders of Tenzing Group, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Tenzing Group based on the audited financial performance of Tenzing Group from the financial period year ended 31 March 2021 to 31 March 2023.

As at the acquisition date and 31 March 2021, the contingent consideration for above was determined at NZD 11,526,536 (approximately $11,029,100) and recognised as "Other payables" (note 13).

(C) Acquisition of Momenton Pty Limited

The Company acquired 100% stake in Momenton Pty. Limited (Momenton Group) in 23 October 2020. Momenton Group is based in Australia and is Digital Enterprise Technology Firm and it was acquired at consideration of AUD 9,005,507 (approximately $9,273,290).

As part of the acquisition agreement with the previous shareholders of Momenton Group, a contingent consideration has been agreed. Additional cash payments shall be payable to the previous shareholders of Momenton Group based on the audited financial performance of Momenton Group from the financial period year ended 31 March 2022 to 31 March 2024. Accordingly, no contingent consideration has been recognised for the financial year ended 31 March 2021.

(D) Impairment loss assessment

Investments in subsidiaries are stated at cost less impairment loss. The Company evaluates whether there is an indicator that an impairment may have occurred. The financial health of and near-term business outlook for the subsidiaries, such as industry performance and operating cash flows are considered. Any significant changes in the business environment and key input to the recoverable amount calculation may be seen as an indicator of impairment. Dividend income from the subsidiaries, under certain circumstances, may also be considered as an indicator of impairment. If any such indicator is present, the Company determines the amount of impairment loss based on the recoverable amount of the investment. The amount of any impairment loss identified is measured as the difference between the investment's or cash generating unit's carrying amount and recoverable amount representing the higher of value in use (VIU) and fair value less cost of disposal (FVLCD). In current and prior financial years, management assessed that there is no impairment loss on the investment in subsidiaries

7 Deferred tax assets

	2021	2020
	$	$
Deferred tax assets	1,270,290	719,003

The following are the deferred tax assets recognised by the Company during the year:

	At 1 April 2019	Recognised in profit/ (loss) (Note 20)	At 31 March 2020	Recognised in profit/ (loss) (Note 20)	At 31 March 2021
	$	$	$	$	$

	127,289	764,985
Holding company	356,266	2,945,167
	483,555	3,710,152

The movements in credit loss allowance are as follows:

	2021	2020
	$	$
At beginning of year	1,541,420	70,427
Impairment loss recognised in profit or loss during the year	22,657	1,479,460
Written off during the year	–	(8,467)
At end of year	1,564,077	1,541,420

The credit period on services rendered ranges from 30 to 60 days (2020: 30 to 60 days). No interest is charged on the outstanding balance.

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment loss for trade receivables are disclosed in Note 22.

Loss allowance for trade receivables is measured at an amount equal to lifetime expected credit losses (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

A trade receivable is written off when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery.

The following table details the risk profile of trade receivables from contracts with customers based on the Company's provision matrix. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Company's different customer base.

The Company has considered the possible effects that may result from COVID‑19, a global pandemic, on the carrying amount of trade and other receivables, unbilled revenue, intangible assets and investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

	Expected credit loss rate	Estimated total gross carrying amount at default	Lifetime ECL
	%	$	$
2021			
Not past due	–	8,753	–
Past due more than 30 days	–	37,878	–
Past due 31 – 60 days	–	–	–
Past due 61 – 90 days	–	3,893	–
Past due 91 – 365 days	–	76,765	–
More than 365 days	100	1,564,077	(1,564,077)
		1,691,366	**(1,564,077)**

	Expected credit loss rate	Estimated total gross carrying amount at default	Lifetime ECL
	%	$	$
2020			
Not past due	–	20,887	–
Past due more than 30 days	–	695,714	–
Past due 31 – 60 days	–	17,441	–
Past due 61 – 90 days	–	–	–
Past due 91 – 365 days	–	30,943	–
More than 365 days	100	1,541,420	(1,541,420)
		2,306,405	**(1,541,420)**

9 Contract assets

	2021	2020
	$	$
Unbilled software installation services	**17,700**	**48,061**

Payment for installation of software services is not due from the customer until the installation services are completed and therefore a contract asset is recognised over the period in which the installation services are performed to represent the Company's right to consideration for the services transferred to date.

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment losses for contract assets are disclosed in note 22.

Management estimates the loss allowance on amounts due from customers at an amount equal to lifetime ECL, taking into account the historical default experience and the future prospects of the relevant customers' industry. None of the amounts due from customers at the end of the reporting period is past due. Based on the Company's historical credit loss experience with the relevant customers, as well as available forward-looking information, the Company has assessed the expected credit loss rate on contract assets to be insignificant.

There has been no significant change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for the contract assets.

10 Other receivables and prepayments

	2021	2020
	$	$
Advance to employees	79,474	56,394
Less: Impairment loss	(79,474)	(53,072)
Advance to employees (net)	–	3,322
Loan to a related company	4,821,133	1,506,830
Less: Impairment loss on loan to related company	(4,821,133)	(1,506,830)
Loan to a related company (net)	–	–
Other receivables	1,351,058	64
Prepayments	303,805	405,097
	1,654,863	**408,483**

Movement in the credit loss allowance on other receivables and prepayments:

	Note	2021	2020
		$	$
At beginning of year		1,559,902	53,072
Charge to profit or loss	18	3,340,705	1,506,830
At end of year		**4,900,607**	**1,559,902**

Loan to a related company is unsecured and the interest rate on the loan is 1.26% (2020: 2.77%) per annum. The other receivables from fellow subsidiary are unsecured, non-interest bearing and receivable on demand.

Credit and market risks, and impairment losses

The Company's exposure to credit and currency risks, and impairment losses for other receivables are disclosed in note 22.

For the purpose of impairment assessment, other receivables is considered to have low credit risk as it is not due for payment at the end of the reporting period and there has been no significant increase in the risk of default on the receivables since initial recognition. Accordingly, for the purpose of impairment assessment for other receivables the loss allowance is measured at an amount equal to 12-month expected credit losses (ECL).

There has been no significant change in the estimation techniques or significant assumptions made during the current reporting period in assessing the loss allowance for other receivables.

Based on the Company's historical credit loss experience with the relevant counterparties, as well as available forward-looking information, the Company has assessed the expected credit loss rate on other receivables to be insignificant.

Loss allowance for advance to employees and loan to related Company is measured at an amount equal to 12-month expected credit losses. The ECL on advance to employees and loan to related Company is estimated by reference to past default experience and an analysis of the counterparty's current financial position. An allowance has been made for estimated irrecoverable amounts for advance to employees of $79,474 (2020: $53,072) and for loan to a related company of $4,821,133 (2020: $1,506,830).

11 Cash and cash equivalents

	2021	2020
	$	$
Cash at bank	**557,453**	**3,004,417**

12 Share capital

	2021	2020	2021	2020
	Number of shares		$	$
Ordinary shares, with no par value				
At 1 April	8,028,998	5,000	80,289,980	50,000
Issuance of shares	6,995,809	8,023,998	69,958,107	80,239,980
At 31 March	**15,024,807**	**8,028,998**	**150,248,087**	**80,289,980**

During the year, the Company issued 6,995,809 of ordinary shares at $10 per share to the holding company, resulting in increase of share capital by $69,958,107.

Capital management

The Company reviews its capital structure at least annually to ensure that the Company will be able to continue as a going concern. The capital structure of the Company comprises only of share capital and retained earnings. The Company's overall strategy remains unchanged from prior years.

The Company is not subject to externally imposed capital requirements.

13 Other payables

	2021	2020
	$	$
Accruals	392,442	610,635
Consideration payable	11,029,100	32,134,506
	11,421,542	**32,745,141**
Less: Non-current consideration payable	(7,010,029)	–
	4,411,513	**32,745,141**

The consideration payable relates to the earnout consideration in connection to the acquisition of Tenzing Group (2020: Born Group) (note 6).

Market and liquidity risks

The Company's exposures to currency risk and to liquidity risk related to other payables are disclosed in note 22.

14 Provisions

	2021	2020
	$	$
Provision for unutilised leave	251,559	317,462
Less: Non-current provision for unutilised leave	(86,769)	(110,700)
Current provision for unutilised leave	**164,790**	**206,762**

The Company calculates and records untilised leave (the "Leave Benefit Scheme") for its qualified employees. The amount recognised in the statement of financial position are determined as follows:

	2021	2020
	$	$
Present value of Leave Benefit Scheme	251,559	317,462
Represented by	:	
Current liabilities	164,790	206,762
Non-current liabilities	86,769	110,700
	251,559	**317,462**

Reconciliations of the present value of the Leave Benefit Scheme liabilities are as follows:

	2021	2020
	$	$
At beginning of the year	317,462	310,079
Provisions made during the year	28,105	78,112
Benefits paid	(94,008)	(70,729)
At end of the year	**251,559**	**317,462**

The cost of providing post-employment benefits is calculated by independent actuaries, Willis Tower Watson, using the Projected Unit Credit Method. The actuarial valuation was carried out using the following key assumptions:

	2021	2020
	$	$
Normal retirement age	60 years	60 years
Discount rate	1%	1.20%
Salary escalation rate	2.00% - 4.00%	2.00% - 4.00%
Withdrawal rate	0.1%-50%	0.1%-50%

15 Trade payables

	2021	2020
	$	**$**
Third parties	1,021	26,129
Holding company	2,309,774	1,569,299
	2,310,795	**1,595,428**

The average credit period on trade payables is 30 days (2020: 30 days). No interest is charged on the outstanding balance.

Market and liquidity risks

The Company's exposures to currency risk and to liquidity risk related to trade payables are disclosed in note 22.

16 Revenue

	2021	2020
	$	**$**
Service income – immediate holding company	4,596,616	8,662,366

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

Service income – immediate and ultimate holding company

Nature of goods or services	Service agreement with the immediate and ultimate holding company for reimbursement of costs incurred plus a mark-up ("cost-plus method")
When revenue is recognised	Revenue from services are recognised as performance obligation is satisfied over a period of time based on the stage of completion of the contract in case of third party contracts. Revenue from immediate and ultimate holding company is accrued according to the terms of the agreement with the immediate and ultimate holding company based on attributable costs incurred on date of accrual. .
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30 days.

Contract balances

The following table provides information about receivables and contract assets from contracts with customers.

	Note	2021	2020
		$	**$**
Trade receivables	8	483,555	3,710,152
Contract assets	9	17,700	48,061

Significant changes in the contract assets and the contract liabilities balances during the period are as follows.

	Contract assets	
	2021	**2020**
	$	**$**
Changes in measurement of progress	17,700	48,061
Contract asset reclassified to trade receivables	48,061	146,250

Significant judgements are used to estimate these total contract costs to complete. In making these estimates, management has relied on the expertise of project teams to determine the progress of the contracts and also on past experience of completed projects. The estimated total contract costs is reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

Transaction price allocated to the remaining performance obligations

Management expects that 100% of the transaction price allocated to the unsatisfied contracts as of 31 March 2021 will be recognised as revenue during the next reporting period.

21 Financial instruments

Financial risk management

Overview

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Management is responsible for developing and monitoring the Company's risk management policies. Management reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Board of Directors oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

Credit risk

The Company has adopted procedures in extending credit terms to customers and in monitoring its credit risk. The Company only grants credit to creditworthy counterparties.

At the end of the reporting period, 74% (2020: 79%) of the trade receivables are due from holding company. The risk management process includes assessing corresponding credit standing and monitoring of collections.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the Company's maximum exposure to credit risk.

Further details of credit risks on trade receivables, contract assets and other receivables are disclosed in Notes 8, 9 and 10 to the financial statements.

The Company places its cash with reputable financial institutions. The cash and cash equivalents are held with bank and financial institution counterparties with high credit ratings.

Impairment on cash and cash equivalents has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash and cash equivalents is negligible.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses (ECL)
Performing	The counterparty has a low risk of default and does not have any past-due amounts.	Trade receivable: Lifetime ECL – not credit impaired Other receivables: 12-month ECL
Doubtful	Amount is more than 1 year past due or there has been a significant increase in credit risk since initial recognition.	Lifetime ECL – not credit-impaired
In default	Amount is more than 1 year past due or there is evidence indicating the asset is credit-impaired.	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery.	Amount is written off

The table below details the credit quality of the Company's financial assets as well as maximum exposure to credit risk by credit risk rating grades:

	Note	Internal credit assessment	12-motnh or lifetime ECL	Gross carrying amount (i)	Loss allowance	Net carrying amount
				$	$	$
2021						
Trade receivables from third parties	8	(i)	Lifetime ECL (simplified approach)	1,691,366	(1,564,077)	127,289
Trade receivables from holding company	8	(i)	Lifetime ECL (simplified approach)	356,266	–	356,266
Contract assets	9	(i)	Lifetime ECL (simplified approach)	17,700	–	17,700
Loan to related company	10	(i)	12-month ECL	4,821,133	(4,821,133)	–
Other receivables	10	Performing	12-month ECL	1,430,532	(79,474)	1,351,058

	Note	Internal credit assessment	12-motnh or lifetime ECL	Gross carrying amount (i)	Loss allowance	Net carrying amount
				$	$	$
2019						
Trade receivables from third parties	8	(i)	Lifetime ECL (simplified approach)	2,306,405	(1,541,420)	764,985
Trade receivables from holding company	8	(i)	Lifetime ECL (simplified approach)	2,945,167	–	2,945,167
Contract assets	9	(i)	Lifetime ECL (simplified approach)	48,061	–	48,061
Loan to related company	10	(i)	12-month ECL	1,506,830	(1,506,830)	–
Other receivables	10	Performing	12-month ECL	56,458	(53,072)	3,386

(i) The Company determines the expected credit losses on these items by using a provision matrix, estimated based on historical credit loss experience on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions.

Liquidity risk

Liquidity risk is managed by matching the payment and receipt cycle. The Company's operations are financed mainly through equity and accumulated profits.

The following table summarises the Company's remaining contractual maturity for its non-derivative financial liabilities at the end of the reporting period based on undiscounted cash flows of financial instruments premised on the earlier of the contractual date or when the Company is expected to pay.

Particulars	Less than 1 year	1 to 5 years	Total
	US$	US$	US$
31 March 2021			
Trade and other payables	6,722,308	7,010,029	13,732,337
31 March 2020			
Trade and other payables	34,340,569	–	34,340,569

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

Interest rate risk

The Company does not have any interest bearing financial assets and liabilities except for its fixed deposits and loan to a related company. Fixed deposits and loan to related company are all short-term, hence, with the current interest rate level, any future variations in interest rates will not have a material impact on net profit.

No sensitivity analysis is prepared as the Company does not expect any material effect on the Company's profit or loss arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

Foreign exchange risk

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company has very minimal exposure to foreign exchange risk as most transactions are transacted in the functional currency which is in Singapore dollars. The Company does not hedge its exposure to foreign exchange risk as the risk is not expected to be significant.

Accounting classification and fair values

The carrying amounts of the financial assets and financial liabilities (including trade and other receivables, cash and cash equivalents and trade and other payables) recorded in the financial statements at amortised cost approximate their fair values due to the relatively short-term maturity of these financial instruments or re-pricing.

Categories of financial instruments

	Note	2021	2020
		$	$
Financial assets			
Trade receivables	8	483,555	3,710,152

AUDIT REPORT

All shareholders of Tech Mahindra (Beijing) IT Services Ltd.:

I. Audit Opinion

We have audited the financial statements of Tech Mahindra (Beijing) IT Services Limited. (hereinafter referred to as "Mahindra Company"), including the balance sheet as at December 31, 2020, the income statement, the cash flow statement and the relevant notes to the financial statements of year 2020.

In our opinion, the attached financial statements were prepared in accordance with the provisions of the accounting standards for enterprises in all major aspects, and fairly reflected the financial situation of Mahindra Company as at December 31, 2020, as well as the operating results and cash flow of the year 2020.

II. Basis of Forming Audit Opinions

We conducted the audit work in accordance with the auditing standards for Chinese Certified Public Accountant. The "Responsibility of Certified Public Accountant for Auditing Financial Statements" part of the audit report further elaborated our responsibilities under these standards. In accordance with the code of ethics for Certified Public Accountant in China, we were independent of Mahindra Company and have fulfilled our other ethical responsibilities. We believe that the audit evidence we have obtained was sufficient and appropriate and provided a basis for issuance of audit opinions.

III. Other Information

The management layer of Mahindra Company (hereinafter referred to as management) was responsible for other information. Other information included information covered in Mahindra Company's 2020 annual report, but not the financial statements and our audit report.

Our audit opinions on the financial statements didn't cover other information, nor did we publish any form of verification conclusions on other information.

In combination with our audit of the financial statements, it was our responsibility to read other information and, in the process, considering whether there was material inconsistency or seemed to be material misstatement between the other information and the financial statements or situation that we learned during the audit.

Based on the work we have performed, we should report the fact if we confirmed that there was a material misstatement in other information. In this respect, we had nothing needed to report.

IV. Responsibilities of Management and Those Charged with Governance

The management was responsible for preparing financial statements in accordance with the provisions of the accounting standards for enterprises to achieve fair reflection and to design, implement and maintain necessary internal control, so as to make the financial statements free from material misstatement caused by fraud or error.

In preparing the financial statements, management was responsible for assessing the continuing business ability of the Mahindra company, disclosing matters related to the continuing business (if applicable), and applying the continuing business assumption, unless management planned to liquidate the Mahindra company, terminate operations or have no other realistic options.

Those Charged with Governance was responsible for supervising the financial reporting process of Mahindra Company.

V. The Responsibility of Certified Public Accountants for Auditing Financial Statements

Our goal was to obtain reasonable assurance on whether the financial statements as a whole were free from material misstatement caused by fraud or error, and to issue an audit report containing audit opinions. Reasonable assurance was a high level of assurance, but it did not guarantee that the audit executed in accordance with the audit standards having a material misstatement can always be found. A misstatement may be caused by fraud or error, and was generally considered to be significant if it was reasonably expected that the misstatement, individually or collectively, may affect the economic decisions made by the users of the financial statements based on the financial statements.

In the process of performing the audit according to the audit standards, we exercised professional judgment and maintained professional skepticism. At the same time, we also carried out the following works.

(1) Identifying and assessing material misstatement risks in financial statements due to fraud or error, designing and implementing audit procedures to address these risks, and obtaining sufficient and appropriate audit evidence as the basis for the issuance of audit opinions. Since fraud may involve collusion, forgery, willful omission, misrepresentation or overriding internal control, the risk of a material misstatement resulting from failure to detect fraud was higher than the risk of a material misstatement resulting from failure to detect error.

(2) Understanding internal controls related to audit to design appropriate audit procedures.

(3) Evaluating the appropriateness of accounting policies adopted by management and the rationality of accounting estimates and relevant disclosures.

(4) Drawing conclusions about the appropriateness of management's use of the going concern assumption. At the same time, based on the audit evidence obtained, a conclusion can be drawn on whether there was significant uncertainty in matters or situations that may lead to significant doubts about the continuing operation ability of Mahindra Company. If we concluded that there was significant uncertainty, as the requirements of the audit standards, we should draw the attention of statement users to the relevant disclosures in the financial statements in the audit report; if the disclosure was insufficient, we should express a non-unqualified opinion. Our conclusions were based on information available as of the audit report date. However, future events or circumstances may cause the unsustainable operation of the Mahindra Company.

(5) Evaluating the overall presentation, structure and content (including disclosure) of the financial statements, and assessing whether the financial statements fairly reflected relevant transactions and events.

We made communication with governance layer on planned audit scope, time arrangement, major audit findings and other matters, including the internal control deficiencies of concern that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS 31 DEC. 2020

(The currency are presented in RMB except otherwise stated)

I. The Company's General Profile

As a wholly foreign-owned enterprises, Tech Mahindra (Beijing) IT Services Limited was invested and established by Tech Mahindra Limited. The Company was approved to be established by Beijing Municipal Government according to policy document SWZJZZ[2007]No.05422, obtained Enterprise's Legal Person Registration in the Industry and Commerce Administration Bureau of Beijing on Sep.24, 2007 with the Business License 91110105666903783P.The registered capital of the company is US$2,500,000.00.The Company's registered address is 2201 room, Building 8, No. 25 Ganluyuan nanli, Chaoyang District, Beijing. Legal representative: Mr. Jagdish Mitra.

Scope of Business: Technical services, technical advice, design, development, production and computer networking, telecommunications and electronic technology-related applications; product sales of assets.

II. Basis of Preparation

1 Basis of preparation

The financial statement is prepared under going concern assumption based on the actual transactions taking place which is required by ASBE (Accounting Standards for Business Enterprise) and its application guidelines, explanatory notes and other relevant regulations issued by the Ministry of Finance of PRC.

According to the relevant rules in the ASBE, accounting measurement of our company is based on accrual basis. This financial statement use historical cost as the measurement basis, except for the financial assets. If impairment is taking place, our company will account for the impairment according to relevant rules.

2 Going concern

This financial statement is presented under going concern assumption, our company has the ability to operate continuously at least 12 months from balance sheet date.

III. Compliance of Accounting Standards of Business Enterprises

The financial statements prepared by the Company are subject to requirements from the Accounting Standards and present fairly the Company's financial position, operation results, cash flow and other related information.

IV. Significant Accounting Policies and Accounting Estimates

1. Accounting period

The accounting period of the Company is from 1 January to 31 December.

2. Operating period

Normal operating period is the period from acquiring asset for processing to the realization of cash and cash equivalent. Our company use 12 months as an operating period and use this as a standard to categorize the liquidity of asset and liability.

3. Book-keeping Currency

The company's financial records and the financial statements are stated in Renminbi.

4. The categorization standard of cash and cash equivalent

Cash and cash equivalent in our company include cash, cash in bank that can be used at any time and investment we held which is short period, usually 3 months from purchase to maturity, strong liquidity, easy to transfer to any pre-determined amount of cash and low risk of value fluctuation.

5. Foreign exchange translation

(1) The translation method of foreign transaction

The foreign transaction in our company, in initial recognition, should be translated to presentation currency according to the exchange rate on the transaction date, however, the foreign currency exchange or other transactions involved foreign currency exchange business should be translated using actual exchange rate in the transaction.

(2) The translation method involving foreign currency monetary and non-monetary items

At balance sheet date, for foreign currency monetary items, we use exchange rate at balance sheet date, and for the exchange rate differences, we accounted for in profit and loss, except: a. foreign currency borrowing cost related to acquire asset that can be capitalized should be treated under borrowing cost capitalization rules; b. for foreign currency monetary items available for sale, apart from the exchange differences caused by other current amount changes than amortized cost that should be accounted for in other comprehensive income, other differences should also be accounted for in profit and loss

For foreign currency non-monetary items measured by historical cost, we still use presentation currency translated by the exchange rate at transaction date. For foreign currency non-monetary items measured by fair value, we use the exchange rate at the fair value determination date. The differences between the presentation currency after translation and the original presentation currency should be accounted for in profit and loss or other comprehensive income as fair value changes (including exchange rate changes.

(3) Translation method of foreign currency financial statements

When consolidated financial statements involve overseas operation, if the operation is foreign currency monetary items due to net investment in overseas operation, the exchange differences due to exchange rate fluctuation should be accounted for in other comprehensive income as foreign currency financial statements exchange differences; in the case of overseas operation disposal, the differences should be accounted for in the profit and loss

The foreign currency financial statement of overseas operation should be translated to Renminbi financial statements using the following method: for assets and liabilities in the Statement of Financial Position, we use exchange rate at balance sheet date; for shareholder's equity, apart from retained earnings, other items should use the exchange rate at the date when it is happened. For income and expenses items in the income statement, we use weighted average exchange rate at the transaction date. The opening balance of retained earnings is the ending balance of the previous year after translation; the ending balance of retained earnings is presented by calculation under profit distribution items after translation; the differences between total asset and total liability and equity should be accounted for in other comprehensive income as foreign currency financial statements exchange differences. When we dispose of overseas operation and lose control, the foreign currency financial statements exchange differences related to overseas operation presented under shareholder's equity in the Statement of Financial Position should be, all or in proportion according to the percentage of overseas operation disposed of, transferred into profit and loss.

For foreign currency cash flow, we use weighted average exchange rate at the date of cash inflow or outflow to translate and the differences should be presented in the Statement of cash flows as an adjusted item.

The opening balance and the actual amount of the previous period should be presented using the amount after translation of the financial statement of previous period.

When we dispose of all shareholder's equity of overseas operation or lose control due to disposal of partial investment or other reasons, the foreign currency financial statements exchange differences of shareholder's equity belongs to the parent company under shareholder's equity in the Statement of Financial Position should be transferred into profit and loss in full.

When we dispose partial investment or other reason that results of lower percentage of shareholding of overseas operation without losing control, the differences of foreign currency financial statement should be accounted for as minority shareholding rather than profit and loss. When the disposal of overseas operation is partial investment of associate or joint venture, the differences of foreign currency financial statement related to this operation should be transferred into profit and loss in proportion to the percentage of disposal.

6. Financial Instrument

A financial asset or financial liability is recognized when the Company becomes a party to a financial instrument contract.

(1) Classification, confirmation and measurement of financial assets

According to the business mode of managing financial assets and the contractual cash flow characteristics of financial assets, the Company divides financial assets into: Financial assets measured at amortized cost. Financial assets measured at fair value with changes included in other comprehensive income. Financial assets that are measured at fair value and whose movements are included in the current profits and losses.

Financial assets are measured at fair value at initial recognition. For financial assets measured at fair value and whose changes are included in current profits and losses, relevant transaction costs are directly included in current profits and losses. For other types of financial assets, relevant transaction costs are included in the initial recognition amount. Accounts receivable or notes receivable arising from the sale of products or the provision of labor services that do not contain or take into account significant financing components shall be initially recognized by the Company in accordance with the amount of consideration that the Company is expected to be entitled to receive.

Financial assets measured at amortized cost

The Company's business model of managing financial assets measured in amortized cost is aimed at collecting contractual cash flow, and the contractual cash flow characteristics of such financial assets are consistent with the basic lending arrangements, that is, the cash flow generated on a specific date is only the payment of principal and interest based on the unpaid principal amount. For such financial assets, the Company adopts the effective interest rate method and carries out subsequent measurement according to amortized cost. The profits or losses arising from amortization or impairment are included into the current profits and losses.

Financial assets measured at fair value with changes included in other comprehensive income

The Company's business model for managing such financial assets is to collect and sell contractual cash flow, and the contractual cash flow characteristics of such financial assets are consistent with the basic lending arrangements. The Company measures these financial assets at fair value and their changes are included in other comprehensive income, but impairment loss or gain, exchange gain or loss and interest income calculated according to the effective interest rate method are included into the current profit and loss.

In addition, the Company designates some non tradable equity instrument investments as financial assets measured at fair value with changes included in other comprehensive income. The Company shall record the relevant dividend income of such financial assets into the current profits and losses, and the change of fair value into other comprehensive income. When the financial asset is derecognized, the accumulated gains or losses previously included in other comprehensive income will be transferred from other comprehensive income to retained income and will not be included in current profits and losses.

Fair value through Profit and Loss Financial assets

The Company classifies the above financial assets measured at amortized cost and financial assets measured at fair value with changes included in other comprehensive income into financial assets measured at fair value with changes included in current profits and losses. In addition, during initial recognition, in order to eliminate or significantly reduce accounting mismatch, the Company designated part of financial assets as financial assets measured at fair value with changes included in current profit and loss. For such financial assets, the Company adopts fair value for subsequent measurement, and the changes in fair value are included into the current profit and loss.

(2) Classification, recognition and measurement of financial liabilities

Financial liabilities upon initial recognition are classified as financial liabilities which are measured at fair value and whose changes are included in current profits and losses and other financial liabilities. For the financial liabilities measured at fair value with the changes included into the current profits and losses, the relevant transaction costs are directly included into the current profits and losses, and the relevant transaction costs of other financial liabilities are included in the initial recognition amount.

Fair value through Profit and Loss Financial liabilities

Financial liabilities measured at fair value with changes included in current profits and losses, which include transactional financial liabilities (including derivatives belonging to financial liabilities) and financial liabilities designated to be measured at fair value with changes included in current profits and losses at initial recognition.

Trading financial liabilities (including derivatives belonging to financial liabilities) are subsequently measured according to their fair values. Except for those related to hedge accounting, changes in fair values are included in current profits and losses.

Financial liabilities designated to be measured at fair value with changes included in current profits and losses. Changes in the fair value of this liability caused by changes in the Company's own credit risk are included in other comprehensive income. When the liability is derecognized, the accumulated change in fair value caused by changes in its own credit risk included in other comprehensive income is transferred to retained earnings. Changes in fair value are accounted into current profits and losses. If the above-mentioned treatment of the impact of changes in the credit risk of these financial liabilities will cause or expand accounting mismatch in profits and losses, the Company will include all profits or losses of the financial liabilities (including the impact amount of changes in the credit risk of the enterprise itself) into the current profits and losses.

Other financial liabilities

Except for financial liabilities and financial guarantee contracts formed by the transfer of financial assets that do not meet the conditions for termination of recognition or continue to be involved in the transferred financial assets, other financial liabilities are classified as financial liabilities measured at amortized cost and subsequently measured at amortized cost. Gains or losses arising from termination of recognition or amortization are included in current profits and losses.

(3) Basis of Confirmation and Calculation of financial instruments

Financial assets shall be derecognized if they meet one of the following conditions: □ The termination of the contractual right to receive cash flow from the financial asset. □ The financial asset has been transferred, and almost all risks and rewards related to the ownership of the financial asset have been transferred to the transferee. □ The financial asset has been transferred. Although the enterprise has neither transferred nor retained almost all risks and rewards in the ownership of the financial asset, it has given up its control over the financial asset.

If the enterprise neither transfers nor retains almost all the risks and rewards of the ownership of the financial assets, and does not give up the control over the financial assets, the relevant financial assets shall be recognized according to the extent of continuous involvement in the transferred financial assets, and the relevant liabilities shall be recognized accordingly. The degree of continuous involvement in the transferred financial assets refers to the risk level faced by the enterprise due to the change in the value of the financial assets.

If the overall transfer of financial assets meets the conditions for termination of recognition, the difference between the book value of the transferred financial assets and the sum of the consideration received due to the transfer and the accumulated amount of changes in fair value originally included in other comprehensive income shall be included into the current profits and losses.

If the partial transfer of financial assets meets the conditions for termination of recognition, the book value of the transferred financial assets shall be apportioned according to its relative fair value between the derecognized part and the non derecognized part, and the difference between the sum of the consideration received due to the transfer and the accumulated change in fair value originally included in other comprehensive income that shall be apportioned to the derecognized part and the allocated aforesaid book amount shall be included into the current profits and losses.

For financial assets sold by the Company with recourse, or for endorsement and transfer of held financial assets, it is necessary to determine whether almost all risks and rewards in the ownership of the financial assets have been transferred. If almost all risks and rewards in the ownership of the financial asset have been transferred to the transferee, the recognition of the financial asset shall be terminated. If almost all risks and rewards on the ownership of a financial asset are retained, the recognition of the financial asset shall not be terminated. If almost all risks and rewards related to the ownership of financial assets have not been transferred or retained, it shall continue to judge whether the enterprise retains control over the assets and carry out accounting treatment according to the principles mentioned in the preceding paragraphs.

(4) Termination of recognition of financial liabilities

If the current obligation of the financial liability (or part thereof) has been relieved, the Company terminates the recognition of the financial liability (or part thereof). The Company (the borrower) and the lender sign an agreement to replace the original financial liabilities by assuming new financial liabilities. If the contract terms of the new financial liabilities and the original financial liabilities are substantially different, the original financial liabilities shall be derecognized and a new financial liability shall be recognized at the same time. If the Company makes any substantial modification to the contract terms of the original financial liability (or part thereof), the original financial liability shall be derecognized and a new financial liability shall be recognized in accordance with the modified terms.

If financial liabilities (or part thereof) are derecognized, the Company shall include the difference between its book value and the consideration paid (including transferred non-cash assets or liabilities assumed) into the current profits and losses.

(5) Offset of financial assets and financial liabilities

When the Company has the legal right to offset the recognized amount of financial assets and financial liabilities, and such legal right is currently enforceable, and the Company plans to settle the financial assets on a net basis or realize the financial assets and settle the financial liabilities at the same time, the financial assets and financial liabilities are listed in the balance sheet at a net amount after mutual offset. In addition, financial assets and financial liabilities shall be listed separately in the balance sheet and shall not be offset against each other.

(6) The fair value determination method of financial assets and financial liabilities

Fair value refers to the price that market participants can receive from selling an asset or pay to transfer a liability in an orderly transaction on the measurement date. Where there is an active market for financial instruments, the Company adopts quotations in the active market to determine their fair values. Quoted price in active market refers to the price easily obtained from exchanges, brokers, industry associations, pricing service agencies, etc. on a regular basis, and represents the price of market transactions actually occurred in fair trading. If there is no active market for financial instruments, the Company uses evaluation techniques to determine their fair values. Evaluation techniques include reference to prices used in recent market transactions by parties familiar with the situation and willing to trade, reference to current fair values of other financial instruments that are substantially the same, discounting cash flow technique, option pricing model, etc. In valuation, the Company adopts valuation techniques that are applicable under current circumstances and are supported by sufficient available data and other information, selects input values that are consistent with the characteristics of assets or liabilities considered by market participants in transactions related to assets or liabilities, and gives priority to the use of relevant observable input values as much as possible. If the relevant observable input value cannot be obtained or it is not impracticable to obtain it, the non-input value shall be used.

(7) Equity instruments

Equity instruments refer to contracts that can prove ownership of the Company's residual equity in assets after deducting all liabilities. The issuance (including refinancing), repurchase, sale or cancellation of equity instruments by the Company are treated as changes in equity, and transaction costs related to equity transactions are deducted from equity. The Company does not recognize changes in the fair value of equity instruments.

Dividends (including "interest" generated by instruments classified as equity instruments) distributed by the Company's equity instruments during their existence shall be treated as profit distribution.

7. Receivables

Receivables include notes receivables, trade receivables and other receivables, etc.

(1) Standards for confirming doubtful debt

- The death or bankruptcy of the debtor, whose receivables still cannot be recovered after the debt has been paid off by his/her bankruptcy assets or heritage.
- Debt still cannot be recovered after three years of overdue debt owed by the debtor.

(2) The measurement method we use is allowance method.

8. Inventory

(1) Classification of inventory: the inventory of this company includes the raw materials working in progress (WIP) inventory, semi-finished goods, turnover materials, finished goods, commodity stocks, etc.

(2) Valuation method of obtaining and delivering of inventory: the cost of inventory includes purchase cost, processing cost and other costs. FIFO (First In First Out) method should be used to value collection and delivering of the inventory.

(3) Measurement of net realizable value and measurement method of provision of obsolete inventory Net realizable value is the differences between the estimated selling price of the inventory and estimated future cost, selling expenses and relevant taxes. When measuring net realizable value, the foundation is the evidence obtained and take the purpose of holding the inventory and influence of post balance sheet events into consideration.

On balance sheet day, inventory is measured at lower of cost and net realizable value. When net realizable value is lower than cost, provision of obsolete inventory should be presented by the differences between cost and net realizable value of an individual inventory.

When provision is presented, it can be reversed back within the amount of the provision when the factor that influence the provision has disappeared so that net realizable value is higher than its cost, the reversal will be accounted for in the profit and loss.

(4) Inventory system of stock: the stock method of this company's inventory quantity is perpetual inventory system.

(5) The amortization method of low value consumables and packaging materials

Low-value consumables are amortized on a one-off basis/ partial amortization method when they are used; packaging materials are amortized on a one-off basis/ partial amortization method when they are used.

9. Held-for-sale assets

If the book value of a non-current asset or to-be-disposed portfolio is recovered by the Company mainly through sale activities (including the exchange of non-monetary assets with commercial nature, the same below), the non-current asset or to-be-disposed portfolio falls into held-for-sale category. The specific criteria: both of the following conditions shall be satisfied: a non-current asset or to-be-disposed portfolio can be sold immediately under the current conditions based on the practice of selling such asset or to-be-disposed portfolio in similar transactions; the Company has already decided on the sale plan and obtained confirmed purchase commitment; the sale is scheduled to be completed within one year. Among them, a Disposal Portfolio refers to a group of assets that will be disposed of as a whole through sale or other approaches in a transaction, and the liabilities directly associated with these assets transferred along with the assets in transaction. If the portfolio of assets or group of portfolios of assets is allocated goodwill acquired in business merger in accordance with Accounting Standards for Business Enterprises No. 8 - Asset Impairment, the Disposal Portfolio shall include the goodwill allocated to it.

In the event that the book value of a non-current asset or to-be-disposed portfolio that has been designated as held-for-sale category is higher than the net amount of fair value less sales expenses when the non-current asset or to-be-disposed portfolio is initially measured or measured on the balance sheet date, the book value shall be to the net amount of fair value minus sales expenses, and the written-down amount shall be recognized as asset impairment loss and included in current period profit or loss. The provision for impairment loss of the held-for-sale asset shall be accrued. For a Disposal Portfolio, the confirmed impairment loss shall deduct the book value of the goodwill in the Disposal Portfolio, then deduct the book value of the non-current assets determined by the measurement on a pro-rata basis in accordance with the applicable Accounting Standards for Business Enterprises No. 42 held-for-sale non-current assets, Disposal Portfolio and Termination of Operations (hereinafter referred to as the “Guide for Held-For-Sale”). In the event of an increase of the book value of the held-for-sale Disposal Portfolio minus sales expenses on the subsequent the balance sheet date, the amount previously written down shall be recovered and be reversed within the mount of the asset impairment loss recognized in the non-current assets measured by the measurement “Guide for Held-For-Sale” after being classified as held for sale asset, the reversal amount shall be included in the current period profit or loss, and the book value of all non-current assets (except for goodwill) determined by the measurement on a pro-rata basis in accordance with the applicable “Guide for Held-For-Sale” shall be increased on a pro-rata basis. The book value of the goodwill that has been deducted and the impairment loss of the assets recognized before the classification of the held-for-sale non-current assets in accordance with the applicable “Guide for Held-For-Sale” shall not be reversed.

In terms of the held-for-sale non-current assets or non-current assets in Disposal Portfolio, there is no accrual or amortization for depreciation, and the interest from and other expenses from the liabilities in held-for-sale Disposal Portfolio shall still be recognized.

When a non-current asset or Disposal Portfolio no longer meets the conditions for Held-For-Sale category, non-current asset or Disposal Portfolio will no longer be classified as Held-For-Sale category by the Company or the non-current asset will be removed from the Held-For-Sale Disposal Portfolio, and be measured based on one of the following two values, whichever is lower: (1) The book value before being classified as held-for-sale category adjusted based on the depreciation, amortization or impairment that should have be confirmed if it is not classified as held-for-sale category; (2) recoverable amount.

10. Long-term investment

The long-term equity investment refers to in this part refers to the long-term equity investment that the Company has control, joint control or significant influence on the invested entity. The long-term equity investment of the Company that does not have control, joint control or significant impact on the investee shall be accounted as a financial asset measured at fair value with its changes included into the current profits and losses. Among them, if it is non-transactional, the Company may choose to designate it as a financial asset measured at fair value and its changes are included in the accounting of other comprehensive income at the time of initial recognition. For details of its accounting policies, please refer to Note IV, 9 “Financial Instruments”.

Joint control refers to the control that the Company shares with other party/parties for an arrangement in accordance with relevant agreements, and relevant activities of the arrangement can only be decided based on the consensus of all parties sharing the control rights before making a decision. Significant Influence refers to power of the Company to participate in the decision-making of the financial and operating policies of the investee, but the Company cannot control or jointly control the development of these policies with other parties.

(1) Determination of investment cost

For a long-term equity investment obtained from a combination of businesses under the same control, the apportioned share of the book value in the final controller’s consolidated financial statements on the combination date in accordance with the shareholders’ equity shall be the initial investment cost of the long-term equity investment. The capital reserve shall be adjusted subject to the difference between the initial investment cost of the long-term equity investment and the cash paid, the non-cash assets transferred, and the book value of the debts assumed; if the capital reserve is insufficient for offsetting, the retained earnings shall be adjusted. Where the equity securities are issued as merger consideration, the apportioned share of the book value in the final controller's consolidated financial statements on the combination date in accordance with the shareholders' equity shall be the initial investment cost of the long-term equity investment, and the total par value of the issued shares is taken as the share capital. The capital reserve shall be adjusted subject to the difference between the initial investment cost of the long-term equity investment and the total par value of the shares issued; if the capital reserve is insufficient for offsetting, the retained earnings shall be adjusted. Where the equity of combined parties under the same control is obtained through multiple transactions and a business combination under the same control is formed finally, it shall be treated differentially based on whether it is a "package deal": if it belongs to a "package deal", all transactions will be treated as a transaction that obtains control. If it is not a "package deal", the apportioned share of the book value in the final controller's consolidated financial statements on the combination date in accordance with the shareholders' equity shall be the initial investment cost of the long-term equity investment. The capital reserve shall be adjusted subject to the difference between the initial investment cost of the long-term equity investment and the sum of the book value of long-term equity investment before combination date and the book value of the new consideration for the new share on the combination date. If the capital reserve is insufficient for offsetting, the retained earnings shall be adjusted. The equity investments that are held prior to the combination date and are recognized with equity recognized or as available-for-sale financial asset as other comprehensive income will not be given accounting treatment for the moment.

For a long-term equity investment obtained from a combination of businesses not under the same control, the initial investment cost of the long-term equity investment shall be based on the combination cost on the purchase date. The combination cost includes the assets paid by purchaser, the liabilities incurred or assumed, and the sum of the fair value of issued equity securities. Where the equity of combined parties not under the same control is obtained through multiple transactions and a business combination under the same control is formed finally, it shall be treated differentially based on whether it is a "package deal": if it belongs to a "package deal", all transactions will be treated as a transaction that obtains control. If it is not a "package deal", the initial investment cost of the long-term equity investment calculated by the cost method shall be calculated based on the sum of the book value of the equity investment in the original holder and the new investment cost. The original share holding that measured using equity method, the relevant other comprehensive income does temporarily not conduct accounting treatment. Intermediary expenses and other related expenses shall be recognized in current period profit or loss when incurred.

(2) Follow-up measurement and confirmation methods for profit and loss

The Equity Method shall be used to account for long-term equity investments that have joint control over the invested entity (except for those constituting joint operators) or have significant impact on the invested entity. In addition, the company's financial statements use the Cost Method to account for long-term equity investments, which can control the long-term equity investment of the investee.

a. Long-term equity investment based on Cost Method

When accounting with Cost Method, long-term equity investment is priced at the initial investment cost, and the cost of the long-term equity investment is adjusted by adding or recovering the investment. Except for the actual payment at the time of obtaining investment or the cash dividends or profits included in the consideration but not yet issued, the current investment income shall be recognized according to the cash dividends or profits declared by the investee.

b. Long-term equity investment accounted for by Equity Method

When accounting with Equity Method, if the initial investment cost of a long-term equity investment is greater than the fair value share of the identifiable net assets of the investee when investing, and the initial investment cost of the long-term equity investment shall not be adjusted; if the initial investment cost is less than the fair value share of the identifiable net assets of the investee when investing, the difference shall be included in the current profit and loss, and the cost of the long-term equity investment shall be adjusted

When accounting with Equity Method, the investment income and other comprehensive income are recognized separately according to the shares of the net profit or loss and other comprehensive income that should be enjoyed or shared, and the book value of the long-term equity investment should be adjusted at the same time. The book value of long-term equity investment is reduced accordingly by calculating the share that should be enjoyed according to the profit or cash dividend declared by the investee. The book value of long-term equity investment shall be adjusted and included in the capital reserve for other changes in the owner's rights and interests of the invested entity other than the net profit and loss, other comprehensive income and profit distribution. When confirming the share of the net profit and loss of the investee, the net profit of the investee shall be adjusted and confirmed on the basis of the fair value of the identifiable assets of the investee at the time of investment. If the accounting policies and periods adopted by the invested entity are inconsistent with the Company, the financial statements of the invested entity shall be adjusted in accordance with the accounting policies and periods of the Company, and the investment income and other comprehensive income shall be confirmed accordingly. For the transactions between the Company and the associates and joint ventures, the assets invested or sold do not constitute a business, and the unrealized gains and losses from internal transactions are offset against the portion of the Company that is attributable to the proportion of the shares, on this basis. investment profit and loss should be confirmed. However, the unrealized internal transaction losses incurred by the Company and the investee are not included in the impairment losses of the transferred assets. Where the assets invested by the Company into a joint venture or an associates constitute a business, if the investor obtains long-term equity investment but does not control, the fair value of the invested business shall be deemed as the initial investment cost of the new long-term equity investment, and the difference between the initial investment cost and the book value of the invested business is fully recognized in the current profits and losses. If the assets sold by the Company to a joint venture or an associate that constitute a business, the difference between the consideration value obtained and the book value of the business shall be fully recognized in the profits and losses of the current period.

When confirming the net loss that incurred by the investee should be shared, the book value of the long-term equity investment and other long-term equity that substantially constitutes the net investment of the investee are reduced to zero. In addition, if the Company has an obligation to bear additional losses to the investee, the estimated liabilities shall be recognized according to the estimated obligations and included in the current investment losses. If the investee achieves net profit in the following period, the Company shall resume recognizing the share of income after making up for the unrecognized share of loss.

For the long-term equity investment in the joint ventures and associates held by the Company for the first time before the implementation of the new accounting standards, if there is a debit balance of equity investments related to the investment, the current profits and losses shall be accounted for by the straight-line amortization of the original remaining period.

c. Acquisition of Minority Equity

In the preparation of the consolidated financial statements, if the difference between the long-term equity investment added by purchasing minority shares and the net assets share that should be continuously calculated by the subsidiary company from the purchase date (or the consolidation date) is calculated according to the proportion of newly added shares, the retained earnings shall be adjusted; and if the capital reserve is insufficient to offset, the retained earnings shall be adjusted.

d. Disposal of long-term equity investment

In the consolidated financial statements, the parent company partially of disposes of the long-term equity investment of the subsidiary without losing control, the difference of the corresponding net assets in the subsidiary between the disposal price and the disposal of the long-term equity investment is included in the shareholders' equity. it shall be treated in accordance with the relevant accounting policies described in "Notes on the preparation of consolidated financial statements" in Note IV.5 .

For the disposal of long-term equity investment in other cases, the difference between the book value of the disposed equity and the actual acquisition price shall be included in the current profits and losses.

If the long-term equity investment is accounted for by equity method, the remaining equity after disposal is still accounted for by equity method, when disposing, the other comprehensive income which were originally included in shareholder's rights and interests shall be accounted for on the same basis as the assets or liabilities directly disposed of by the investee. The owner's equity recognized as a result of changes in the owner's equity of the investee other than net profit or loss, other comprehensive income and profit distribution, it should be carried forward to the current profit and loss

For the long-term equity investment accounted by Cost Method, the remaining equity is still accounted by Cost Method after disposal, other comprehensive income that recognized by equity method accounting or financial instrument recognition and measurement criteria accounting before obtaining control over the investee shall be accounted for on the same basis as the assets or liabilities directly disposed of by the investee, and shall be settled to the current profit and loss in proportion. Changes of the net assets of investee in the owner's equity other than net profit or loss, other comprehensive income and profit distribution 's that recognized by equity method shall be settled to the current profit and loss in proportion.

Where the Company loses control over the investee due to disposal of part of its equity investment, when preparing individual financial statements, if the remaining equity after disposal can exercise joint control or exert significant influence on the investee, it shall be accounted for by equity method instead, and the remaining equity shall be adjusted by accounting by equity method when it is deemed to be acquired. If the remaining equity after disposal cannot be jointly controlled or exerts significant influence on the investee, it shall be accounted for according to the relevant provisions of the financial instrument recognition and measurement criteria, and the difference between the fair value and the book value on the date of loss of control. It is included in the current profit and loss. Before the Company obtains control over the investee, other comprehensive income recognized by equity method accounting or financial instrument recognition and measurement criteria is used to directly dispose of the relevant assets with the investee, accounting treatment based on the same basis as the investee directly disposes of related assets or liabilities when the control of the investee is lost, Accounting is treated on the same basis as the liabilities. Changes in the owner's equity other than net profit or loss, other comprehensive income and profit distribution of the investee's net assets recognized by the equity method are carried forward to the current profit or loss when the control of the investee is lost. Among them, the remaining equity after disposal is accounted for using the equity method. Where the remaining equity after disposal is accounted for by equity method, other comprehensive income and other owner's equity should be settled by proportion. If the remaining equity is accounted for using financial instrument recognition and measurement standard, all of other comprehensive income and other shareholder's equity should be settled.

If the Company loses its joint control or significant influence on the investee due to the disposal of part of the equity investment, the remaining equity after disposal shall be accounted for according to the financial instrument recognition and measurement criteria, and the difference between the fair value and the book value on the date of loss of joint control or significant influence is recognised in the current profit or loss. The other comprehensive income recognized in the original equity investment by the equity method is accounted for on the same basis as the investee's direct disposal of related assets or liabilities when the equity method is terminated, Owner's equity recognized as a result of changes in other owners' equity other than net profit or loss, other comprehensive income and profit distribution of the investee should be transferred to current investment income when terminating the equity method

The Company disposes of the equity investment in the subsidiaries step by step through multiple transactions until the loss of control. If the above-mentioned transactions are part of a package transaction, the transactions are treated as a transaction dealing with the equity investment of the subsidiary and losing control. The difference between the book value of each long-term equity investment corresponding to the disposal price and the disposal of the equity before loss of control is first recognized as other comprehensive income, and when the control is lost, it is transferred to the current profit and loss of loss of control.

11. Fixed Assets

(1) Confirmation conditions for fixed assets

Fixed Assets refer to tangible assets held for the purpose of producing goods, providing labor services, renting or operating management, and having a service life of more than one fiscal year. Fixed assets are recognized only when the economic benefits associated with them are likely to flow into the Company and their costs can be reliably measured. Fixed assets are initially measured at cost and taking into account the impact of projected abandonment costs.

(2) Categorization of fixed assets

Fixed assets can be divided into Property, Plant and Equipment, Transportation vehicle, Land, Office equipment, Electronic devices, etc.

(3) Initial Measurement of fixed asset

Fixed asset will be measured at historical cost.

(4) Depreciation methods for various types of fixed assets

a . Fixed assets are depreciated over their useful lives using the straight-line method from the month following the scheduled availability. The service life, estimated net residual value and annual depreciation rate of various fixed assets are as follows:

Category	Depreciation Method	Depreciation period (Year)	Residual rate(%)	Annual depreciation rate (%)
Electronic equipment	**straight-line depreciation**	**3**	**5**	**33.37**

b. The estimated net residual value refers to the expected state after the estimated useful life of the fixed assets has expired and is at the end of its useful life. The amount currently obtained by the Company from the disposal of the assets after deducting the estimated disposal expenses.

c. Impairment test method and Impairment provision method for fixed assets

For details of Impairment test method and impairment provision method for fixed assets, please refer to "Long-Term Asset Impairment".

d. Recognition basis and valuation method of fixed assets acquired by finance lease

A finance lease is a lease that transfers substantially all the risks and rewards associated with ownership of an asset, and its ownership may or may not be transferred. If it is reasonable to determine the ownership of the leased asset at the expiration of the lease term, the depreciation shall be calculated within the useful life of the leased asset; If it is not reasonable to determine the ownership of the leased asset at the expiration of the lease term, depreciation shall be calculated within a relatively short period of the lease term and the service life of the leased assets.

e. Others

The subsequent expenses related to fixed assets, if the economic benefits related to the fixed assets are likely to flow in and their costs can be reliably measured, are included in the cost of fixed assets and the book value of the replaced part should be terminated. The subsequent expenditures other than mentioned as above are recognized in profit or loss in the period in which they are incurred.

The fixed asset is derecognized when the fixed asset is in disposal or is not expected to generate economic benefits by using or disposal. The difference between the disposal income from the sale, transfer, retirement or damage of the fixed assets less the carrying amount and related taxes is recognized in profit or loss for the current period.

The Company reviews the useful life, estimated net residual value and depreciation method of fixed assets at least at the end of the year, and changes as an accounting estimate if changes occur.

12. Construction in progress

The cost of construction in progress is determined based on actual project expenditure, including various project expenditures incurred during the construction period, capitalized borrowing costs before the project reaches the expected usable status, and other related expenses. Construction in progress is carried forward to fixed assets when it is ready for its intended use.

For details of the impairment test method and impairment provision method for construction in progress, please refer to "Long-Term Asset Impairment".

13. Intangible Assets

(1) Intangible assets

Intangible assets refer to identifiable non-monetary assets without physical form owned or controlled by the Company.

Intangible assets are initially measured at cost. Expenditure related to intangible assets is included in the cost of intangible assets if the relevant economic benefits are likely to flow to the Company and its costs can be measured reliably. Expenditure on other items other than this is recognised in profit and loss when incurred.

The acquired land use rights are usually accounted for as intangible assets. The related land use rights and building construction costs of self-developed and constructed buildings are accounted for as intangible assets and fixed assets, respectively. In the case of purchased houses and buildings, the relevant price is distributed between the land use rights and the buildings. If it is difficult to allocate them reasonably, all of them are treated as fixed assets.

Since the intangible assets with limited useful life are available for use, the original value minus the estimated net residual value and the accumulated amount of impairment reserve shall be amortized by the straight-line method during their expected service life. Intangible assets with uncertain service life shall not be amortized.

At the end of the period, the useful life and amortization methods of intangible assets with limited useful life are reviewed, and if any change occurs, it is treated as a change of accounting estimate. In addition, the useful life of intangible assets with uncertain service life is also reviewed. If there is evidence that the period for which the intangible assets bring economic benefits to the enterprise is foreseeable, the useful life of intangible assets is estimated and amortized according to the amortization policy of intangible assets with limited useful life

(2) Research and development expenditure

The company's expenditure for internal research and development project is divided into research phase expenditure and development phase expenditure.

Expenditures for the research phase shall be recognized in profit or loss when incurred.

Expenditures for the development phase that meet the following conditions shall be recognized as intangible assets, and expenditures in the development stage that fail to meet the following conditions are included in current profit and loss:

a. It is technically feasible to complete the intangible asset to enable it to be used or sold.

b. The intent to complete the intangible asset and use or sell it;

c. The way in which intangible assets generate economic benefits, including the ability to prove that the products produced from the intangible assets having a market or the intangible assets having a market, and the intangible assets will be used internally, which can prove its usefulness;

d. sufficient technical, financial resources and other resources for supporting the development of the intangible assets and the ability to use or sell the intangible assets.

e. Expenditure attributable to the development phase of the intangible asset can be reliably measured.

(3) Impairment test method and Impairment provision method for intangible assets

For details of the impairment test method and impairment provision method, please refer to "Long-Term Asset Impairment".

14. Long-term deferred expenses

The long-term deferred expenses are all expenses that have occurred but shall be borne by the reporting period and subsequent periods with amortization period of more than one year. The company's long-term deferred expenses mainly include lease of land use right and renovation costs of factory building. Long-term deferred expenses are amortized on a straight-line basis over the estimated benefit period.

15. Long-term assets impairment

For fixed assets, construction in progress, intangible assets with limited useful life, investment property measured by cost model, and non-current non-financial assets such as long-term equity investments in subsidiaries, joint ventures and associates, the Company determines whether there is any indication of impairment on the balance sheet date. If there is any indication of impairment, the recoverable amount is estimated and the impairment test is carried out. Goodwill, intangible assets with uncertain service life and intangible assets that not yet ready for use are tested for impairment annually, regardless of whether there is any indication of impairment.

If the result of the impairment test indicates that the recoverable amount of the asset is lower than its book value, the impairment provision is made based on the difference and is included in the impairment loss. The recoverable amount is the higher of the fair value of the asset less the disposal expense and the present value of the estimated future cash flow of the asset. The fair value of assets is determined according to the sale agreement price in a fair transaction. If there is no sales agreement but there is an active market for the asset, the fair value is determined according to the buyer's bid for the asset; if there is neither sales agreement nor active market for assets, the fair value of assets shall be estimated based on the best information available. Asset disposal expenses include legal fee, taxes, transportation expenses and direct expenses incurred to make assets saleable. The present value of the estimated future cash flow of an asset is determined by the appropriate discount rate discounting and the estimated future cash flow generated by the asset during its continuous use and final disposal. The asset impairment provision is calculated and confirmed based on individual assets. If it is difficult to estimate the recoverable amount of an individual asset, the recoverable amount of the asset is determined by the asset group which the asset belongs to. An asset group is the smallest portfolio of assets that can generate cash inflows independently.

The book value of the goodwill listed separately in the financial statements is amortized into asset groups or portfolios that are expected to benefit from the synergies of business combinations when impairment tests are conducted. The test results show that the recoverable amount of the asset group or portfolio containing the assessed goodwill is lower than its book value, the corresponding impairment losses should be confirmed. The amount of impairment loss is first deducted from the book value of the goodwill amortized to the asset group or portfolio, and then deducted proportionally from the book value of other assets according to the proportion of the book value of assets other than goodwill in the asset group or portfolio.

Once the above asset impairment loss is confirmed, it will not be reversed to the part where the value is restored in the future period.

16. Employee Compensation

The Company's employee compensation mainly includes short-term employee remuneration, Post-employment Benefits, Termination Benefits and benefits for other long-term employee. Among them:

Short-term employees remuneration mainly includes wages, bonuses, allowances and subsidies, employee welfare fees, medical insurance premiums, maternity insurance premiums, work injury insurance premiums, housing fund, labor union funds, employee education funds, and non-monetary benefits. The Company recognizes the actual short-term employee's remuneration as a liability in the accounting period in which employees provide services to the Company and recognizes them in profit or loss or related asset costs. Non-monetary benefits are measured at fair value.

Post-employment Benefits mainly include basic retirement security, unemployment insurance, and annuities. The Post-employment Benefit Scheme includes a Defined Contribution Plan and a Defined Benefit Plan. If a Defined Contribution Plan is adopted, the corresponding amount of the deposit shall be included in the relevant asset cost or current profit and loss as incurred. (1) The Defined Contribution Plan is recognized as a liability based on a fixed fee paid to an independent fund and is included in the current profit and loss or related asset costs; (2) The Defined Benefit Plan is accounted for using the expected cumulative benefits unit method Specifically, the Company will convert the welfare obligation arising from the Defined Benefit Plan into the final value of the departure time according to the formula determined by the expected cumulative benefits unit method; then it is attributed to the employee's in-service period and is included in the current profit and loss or related asset cost.

If the labor relationship with the employee is terminated before the employee's labor contract expires, or if the employee is encouraged to accept the reduction voluntarily, when cannot withdrawing unilaterally the dismissal benefits provided by the termination of the labor relationship plan or the reduction proposal, and when confirming the costs associated with the restructuring involving the payment of the dismissal benefits, whichever is earlier, the Company will recognize the employee compensation liabilities arising from the dismissal benefits, and included in the current profit and loss. However, if the dismissal benefits are not expected to be fully paid within 12 months after the end of annual reporting period, they shall be treated in accordance with other long-term employee compensations.

The internal retirement plan for employees shall be treated in the same way as the above-mentioned dismissal benefits. The company will pay the internal retired staff the salary and the social insurance premiums from the employee's lay-off to normal retirement, and will include in the current profit and loss (dismissal benefits) when the conditions of the estimated liabilities are met.

If the other long-term employee benefits provided by the Company to the employees are in line with the Defined Contribution Plan, they shall be accounted for Defined Contribution Plan, and otherwise accounted for the Defined Benefit Plan.

17. Income

The company confirms the realization of the business revenue as per the following regulations, keeps accounts as per the realized income and records into the current profits and losses.

(1) Commodity Sales Revenue

When the main risks and rewards of commodity ownership is transferred to the buyer without retaining the continuing management rights usually associated with the ownership and without effectively controlling of the sold commodity, if the amount of revenue can be reliably measured, and the relevant economic benefits are likely flow into enterprise and the relevant costs incurred or will be incurred can be reliably measured, the sales revenue of commodities shall be confirmed.

(2) Income from labor services

In the case the results of the labor service transaction can be reliably estimated, the labor income provided is confirmed on the balance sheet date according to the percentage of completion method. The completion progress of the labor transaction is determined by the ratio of the completed work or the proportion of the labor service provided to the total labor service, or by the ratio of labor costs incurred to the estimated total cost.

Reliable estimates of results of the labor transactions provided mean that it can be simultaneously met a.) The amount of income can be measured reliably; b.) Relevant economic benefits are likely to flow into the enterprise; c.) The degree of completion of the transaction can be determined reliably, d.) The costs that have occurred and will occur in the transaction can be measured reliably.

(3) Revenue from charge for use

Revenue shall be recognized on an accrual basis in accordance with the relevant contract or agreement.

18. Government grants

Government grant refers to the company's acquisition of monetary and non-monetary assets from the government free of charge, excluding the capital invested by the government as an investor and enjoying the corresponding owner's rights and interests. Government grants include assets-related grants and revenue-related grants.

Government grants related to assets are recognized as deferred earnings and are divided into current profits and losses in a reasonable and systematic way during the service life of the assets concerned. The government grants related to revenue, which are used to compensate for the related cost or loss in the subsequent period, shall be recognized as deferred income, and shall be recognized in profit or loss in the period in which the related costs or losses are recognized; if it is used to compensate the related costs or losses that has occurred, it shall be directly recognized in the current profit and loss.

Government grants related to the daily activities of the Company shall be included in other income or cost deductions according to the nature of the economic business; government subsidies unrelated to daily activities shall be included in the non-operating revenues and expenses.

When the recognized government grants need to be returned, if there are relevant deferred earnings balances, the book balance of related deferred earnings shall be deducted, and the excess part shall be included in the current profits and losses or the book value of assets shall be adjusted, otherwise, the book value of assets shall be directly included in the current profits and losses.

19. Deferred Income Tax Assets / Deferred Income Tax Liabilities

(1) Current Income Tax

On the balance sheet date, the current income tax liabilities (or assets) formed in the current and previous periods are measured by the expected amount of income tax payable (or returned) in accordance with the provisions of the Tax Law. The amount of taxable income on which current income tax expenses are calculated is based on the corresponding adjustment of pre-tax accounting profits in the reporting period in accordance with the relevant tax laws.

(2) Deferred Income Tax Assets and Deferred Income Tax Liabilities

The difference between the book value of certain assets and liabilities and their tax basis, and the temporary difference between the book value of items that are not recognized as assets and liabilities but which can be determined as their tax basis according to the tax law, are confirmed by the balance sheet liability method.

Taxable temporary differences which related to the initial recognition of goodwill and the initial recognition of an asset or liability arising from a transaction that is neither a business combination nor an accounting profit or taxable income (or deductible loss), relevant deferred income tax liabilities shall not be recognized. In addition, for taxable temporary differences related to investments in subsidiaries, associates and joint ventures, if the Company is able to control the turnaround time of temporary differences, and the temporary difference is unlikely to be reversed in the foreseeable future, the related deferred income tax liabilities shall not be recognized. Except for the above exceptions, the Company recognizes all other deferred income tax liabilities arising from taxable temporary differences.

Taxable temporary differences which related to the initial recognition of an asset or liability arising from a transaction that is neither a business combination nor an accounting profit or taxable income (or deductible loss), relevant deferred income tax liabilities shall not be recognized. In addition, for taxable temporary differences related to investments in subsidiaries, associates and joint ventures, if the temporary difference is unlikely to be reversed in the foreseeable future, or the amount of taxable income used to offset the temporary difference is unlikely to be obtained in the future, the deferred income tax assets concerned shall not be recognized. Except for the above exceptions, the Company recognizes other deferred income tax assets that can offset temporary differences, subject to the amount of taxable income that is likely to be obtained to offset temporary differences.

For deductible losses and tax credits that can be carried forward in subsequent years, the corresponding deferred income tax assets are recognized to the extent that it is probable that the future taxable income shall be used to offset the deductible losses and tax credits.

On the balance sheet date, the deferred income tax assets and deferred income tax liabilities shall be measured at the applicable tax rates in the period in which the related assets are recovered or the related liabilities are recovered in accordance with the tax laws.

On the balance sheet date, the book value of deferred income tax assets is reviewed. and the book value of deferred income tax assets is written down if it is likely that sufficient taxable income will not be available to offset the benefits of deferred income tax assets in the future. When it is possible to obtain sufficient taxable income, the amount written down shall be reversed.

(3) Income tax expenses

Income tax expenses include current income tax and deferred income tax.

In addition to recognizing that the current income tax and deferred income tax related to other transactions and matters directly included in shareholder's rights and interests shall be recognized in other comprehensive income or shareholder's rights and interests, and the book value of adjusted goodwill from deferred income tax resulting from the merger of enterprises, the other current income tax and deferred income tax expenses or gains shall be recognized in profit or loss for the current period.

(4) Offset of Income Tax

When the company has legal rights to settle on a net basis, and intends to settle on a net basis or acquire assets and pay off liabilities at the same time, the company's current income tax assets and current income tax liabilities shall be presented on a net basis after the offset.

When it has the legal right to settle current income tax assets and current income tax liabilities on a net basis, and deferred income tax assets and deferred income tax liabilities are related to the income tax levied by the same tax administration department on the same tax payer or to different tax payers, but in the future, during each important period of deferred income tax assets and liabilities being reversed, the taxpayer involved intends to settle the current income tax assets and liabilities on a net basis, or acquire assets and pay off liabilities simultaneously, the deferred the income tax assets and deferred income tax liabilities of the Company shall be presented on a net basis after offset.

20. Changes in significant accounting policies and estimates

(1) Changes of accounting policies

There is no changes of accounting policies for the current year.

(2) Changes of significant accounting estimates

There is no significant accounting estimates this year.

V. Taxation

1. The company mainly taxes and tax rates

Tax	**Specific tax rate**
Value-added tax (VAT)	Taxable income is calculated as output tax at the rate of 6%, and VAT is calculated as the difference after deducting the input tax allowed to be deducted in the current period.
City construction tax	According to the actual payment of turnover tax 7%
Surcharge for education	According to the actual payment of turnover tax 3%
Local education surcharge	According to the actual payment of turnover tax 2%
Enterprise Income Tax	According to 25% of taxable income
Individual income tax	Excess progressivity

VI. Main Notes to the Financial Statements

The following notes (including notes of major items in the company's financial statements) refer to December 31, 2019 as the beginning of the year, December 31, 2020 as the end of the year, 2020 in the current period and 2019 in the previous period unless otherwise specified

DIRECTORS' REPORT

For the year ended 31 March 2021

In accordance with the Commercial Companies Law, we have the pleasure in presenting the financial statements of Tech Mahindra -Bahrain- LTD W.L.L ("the Company") for the year ended 31 March 2021 as set out on pages 185 to 197.

Financial highlights	**2021 BHD**	**2020 BHD**
Revenue	**136,108**	149,905
Gross profit	**45,403**	26,867
Total comprehensive income	**8,558**	9,409
Total equity	**398,123**	389,565

Representations and audit

The Company's activities for the year ended 31 March 2021 have been conducted in accordance with the Commercial Companies Law and other relevant statutes of the Kingdom of Bahrain.

There have been no events subsequent to 31 March 2021, which would materially modify the financial statements presented on pages 185 to 197.

The Company has maintained proper, complete accounting records and these, together with all other information and explanations, have been made freely available to the auditors KPMG Fakhro, who have expressed their willingness to continue in office for the audit of the year ending 31 March 2022.

On behalf of the Board of Directors

Hrishikesh Pandit
Director

Date: June 16, 2021

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDER

Tech Mahindra -Bahrain- LTD W.L.L
Kingdom of Bahrain

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Tech Mahindra -Bahrain- LTD W.L.L (the "Company") which comprise the statement of financial position as at 31 March 2021, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The board of directors is responsible for the other information. The other information obtained at the date of this auditors' report is the Director's report set out on page 182.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the board of directors for the financial statements

The board of directors is responsible for the preparation and fair presentation of the financial statements in accordance with IFRS, and for such internal control as the board of directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the board of directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other regulatory requirements

As required by the Commercial Companies Law, we report that:

- the Company has maintained proper accounting records and the financial statements are in agreement therewith;
- the financial information contained in the director's report is consistent with the financial statements.
- we are not aware of any violations during the year of the Commercial Companies Law or the terms of the Company's article of association that would have had a material adverse effect on the business of the Company or on its financial position; and
- satisfactory explanations and information have been provided to us by management in response to all our requests.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 REPORTING ENTITY

Tech Mahindra-Bahrain- LTD W.L.L (the "Company") was incorporated on November 3, 2009 as a Single Person Company in the Kingdom of Bahrain and registered with the Ministry of Industry, Commerce and Tourism under Commercial Registration number 73221-1. During the year, the legal status of the Company changed from a Single Person Company (SPC) to a With Limited Liability (W.L.L) entity subsequent to the issuance of Degree Law 20 of 2020 which acted to cover all SPC entities to WLL status automatically.

The Company is engaged in providing information technology services and telecommunication solutions.

The Company's registered office is in Manama, Kingdom of Bahrain. The Company is owned by Tech Mahindra Limited, India (the "Parent Company").

The Company's issued share capital consists of 500 ordinary shares at BD 100 each, issued and fully paid.

2 BASIS OF PREPARATION

a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and in conformity with the requirements of the Commercial Companies Law.

b) Basis of measurement

The financial statements have been prepared on the historical cost convention.

c) Functional and presentation currency

The financial statements are presented in Bahraini Dinars ("BD") being the functional currency of the Company.

d) New standards, amendments and interpretations effective from 1 January 2020

The following standards, amendments and interpretations, which became effective as of 1 January 2020, are relevant to the Company:

(i) Amendments to References to Conceptual Framework in IFRS Standards

The IASB has issued a revised Conceptual Framework which will be used in standard-setting decisions with immediate effect. No changes will be made to any of the current accounting standards. However, entities that rely on the Framework in determining their accounting policies for transactions, events or conditions that are not otherwise dealt with under the accounting standards will need to apply the revised Framework from 1 January 2020.

The adoption of this amendment had no significant impact on the financial statements.

(ii) Definition of Material (Amendments to IAS 1 and IAS 8)

The IASB has made amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors which use a consistent definition of materiality throughout International Financial Reporting Standards and the Conceptual Framework for Financial Reporting, clarify when information is material and incorporate some of the guidance in IAS 1 about immaterial information. In particular, the amendments clarify:

- that the reference to obscuring information addresses situations in which the effect is similar to omitting or misstating that information, and that an entity assesses materiality in the context of the financial statements as a whole, and
- the meaning of 'primary users of general- purpose financial statements' to whom those financial statements are directed, by defining them as 'existing and potential investors, lenders and other creditors' that must rely on general purpose financial statements for much of the financial information they need.

The adoption of this amendment had no significant impact on the financial statements.

e) New standards, amendments and interpretations issued but not yet effective

A number of new standards and amendments to standards are effective for annual periods beginning on or after 1 January 2020 and earlier application is permitted; however; the Company has not early applied the following new or amended standards in preparing these financial statements.

(i) Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. The amendments apply for annual reporting periods beginning on or after 1 January 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other components of equity, as appropriate. The comparatives are not restated.

The Company does not expect to have a significant impact on its financial statements.

(ii) Property, Plant and Equipment (PPE): Proceeds before Intended Use (Amendments to IAS 16)

In the process of making an item of PPE available for its intended use, a company may produce and sell items before starting production. Under the amendments, proceeds from selling items before the related item of PPE is available for use should be recognized in profit or loss, together with the costs of producing those items. IAS 2 Inventories should be applied in identifying and measuring these production costs.

Companies will therefore need to distinguish between:

- costs associated with producing and selling items before the item of PPE is available for use; and
- costs associated with making the item of PPE available for its intended use.

The amendments clarify that testing whether an item of PPE is functioning properly means assessing its technical and physical performance rather than assessing its financial performance – e.g. assessing whether the PPE has achieved a certain level of operating margin.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022, with earlier application permitted. The amendments apply retrospectively, but only to items of PPE made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

The Company does not expect to have a significant impact on its financial statements.

(iii) Classification of liabilities as current or non-current (Amendments to IAS 1)

Under existing IAS 1 requirements, companies classify a liability as current when they do not have an unconditional ‘right to defer’ settlement of the liability for at least twelve months after the end of the reporting period. As part of its amendments, the requirement for a right to be unconditional has been removed and instead, now requires that a right to defer settlement must have substance and exist at the end of the reporting period. This assessment may require management to exercise interpretive judgement.

The Company does not expect to have a significant impact on its financial statements.

f) COVID-19 impact

On 11 March 2020, the coronavirus (COVID-19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global economic slowdown with uncertainties in the economic environment. Global equity and commodity markets have also experienced great volatility and a significant drop in prices. The estimation uncertainty is associated with the extent and duration of the expected economic downturn and forecasts for key economic factors including GDP, employment, oil prices etc. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns.

Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures. The Government of Kingdom of Bahrain has announced various economic stimulus programmes (“Packages”) to support businesses in these challenging times. The Company and its customers are expected to get some benefits from these Packages that will help them sustain the impact of the crisis.

The pandemic as well as the resulting measures and policies are expected to have direct and/or knock-on impact on the Company. The management and the board of directors has been closely monitoring the potential impact of the COVID-19 developments on the Company’s operations and financial position; including possible loss of revenue, onerous contracts etc. The Company has also put in place contingency measures, which include but are not limited to enhancing and testing of business continuity plans including its liquidity requirements. Based on their assessment, the board of directors is of the view that the Company will continue as a going concern entity for the next 12 months from the date of this financial statements.

In preparing these financial statements, judgements made by management in applying the Company’s accounting policies and sources of estimation are subject to uncertainty regarding the potential impacts of the current economic volatility and these are considered to represent management’s best assessment based on available or observable information.

g) Use of estimates and management judgement

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Impairment of trade and other receivables

The Company measures expected credit loss for receivables that result from all possible default events over the expected life of the receivable. A financial asset is considered 'credit-impaired' when one or more events, that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

3 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting polices applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied by the Company and are consistent with those used in the previous period.

a) Revenue recognition

The Company recognises revenue when it transfers control of a product or service to a customer.

Revenue from contracts priced on a time and material basis is recognised when services are rendered. Revenue from fixed price contracts is recognised as performance obligation satisfied over a period of time based on the stage of completion of the contract the stage of completion determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations.

The Company has entered into a service agreement with the Parent Company for reimbursement of costs incurred plus a mark-up ("cost plus method") which forms part of the revenue.

The Company has pass through billing agreement with Parent Company where the Company bills the third-party customers on behalf of Parent company and revenue is recognised on net basis.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability ("Unearned revenue") arises when there are billing in excess of revenue.

b) Cash and cash equivalents

Cash and cash equivalents comprise bank balances and short-term deposits with original contractual maturity period of three months or less. These are carried at amortised cost.

c) Financial instruments

(i) Recognition and initial measurement

The financial instruments of the Company consist primarily of trade and other receivables, balance with a bank, trade and other payables, due from and to parent company. The Company recognises financial instruments initially on the trade date, which is the date when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt security; FVOCI – equity security; or FVTPL

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. Financial liabilities are subsequently measured at amortised cost using the effective interest method. Any gain or loss on de-recognition is also recognised in profit or loss.

(iii) De-recognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

On de-recognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(iv) Offsetting

Financial assets and liabilities are set off and the net amount presented in the statement of financial position, when and only when, the Company currently has a legally enforceable right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

(v) Impairment

The Company recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost. The Company measures loss allowances at an amount equal to lifetime ECLs, except for bank balances for which credit risk has not increased significantly since initial recognition.

Measurement of ECLs- Trade receivables

The Company measures expected credit loss for receivables that result from all possible default events over the expected life of the asset. This include receivables that have objective evidence of impairment at the reporting date. Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs.

Measurement of ECLs- Cash and bank balances (General approach)

Impairment on cash and cash equivalents has been measured on a 12-month expected loss basis and reflects the short maturities of the exposures. The Company considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

d) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment.

e) Trade and other payables

Trade and other payables expenses are recognised initially at fair value and subsequently stated at amortised cost.

f) Foreign Currencies

Transactions in foreign currencies are recognised in the functional currency at the rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates of exchange ruling at the reporting dates. All differences are taken to profit or loss.

g) Employee benefits

Provisions are made for end-of-service benefits to all expatriate employees. The entitlement to these benefits is based upon the employee's final salary and length of service. The expected costs of these benefits are accrued over the period of the employment.

For Bahraini employees, contributions are made to the Social Insurance Organisation based on a percentage of the employees' salaries. The Company's obligations are limited to these contributions, which are expensed when due.

h) Provision

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle such obligation.

i) Statutory reserve

In accordance with Commercial Companies Law, a minimum of 10% of the net profit is appropriated to a statutory reserve, until it reaches 50% of the paid-up share capital (excluding share premium). This reserve is not normally distributable except in certain circumstances.

j) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from equity.

k) Leases

At inception of a contract, the Company assesses whether a contract is, or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in IFRS 16.

As a Lessee

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognises a right-of-use asset (ROU) and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located. less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Co by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

i. fixed payments, including in-substance fixed payments;

ii. lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option. and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Company presents right-of-use assets in property, plant and equipment' and liability related to leases in Lease liabilities.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

4 TRADE AND OTHER RECEIVABLES

	31 March 2021	31 March 2020
Gross trade receivables	**66,810**	15,299

Miscellaneous expenses	**3,122**	3,303
	26,144	18,391

14 FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments include financial assets and financial liabilities. Financial assets of the Company include trade and other receivables and cash and bank balances.

The Company has exposure to the following risks from its use of financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the

Company's management of capital. The note also presents certain quantitative disclosures in addition to the disclosures throughout the financial statements.

The Board of Directors of the Parent have overall responsibility for the establishment and oversight of the Company's risk management framework.

The Parent's risk management framework ensures the Company's risk management. The Board of the Parent, which includes the Parent and its subsidiaries, oversees how the management monitors compliance with the Company's risk management framework and reviews its adequacy in relation to the risks faced by the Company.

a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The Company is principally exposed to credit risk on trade and other receivables and bank balances. The maximum credit risk is the carrying value of the assets.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	31 March 2021	31 March 2020
Trade and other receivables (i)	**189,452**	21,336
Bank balances (ii)	**396,985**	397,060
	586,437	418,396

(i) The Company gives a credit period of 30 days to its customers after which the receivables are classified as past due. Credit risk for trade receivables outstanding pertaining passthrough billing and credit risk rests with the Parent Company. The Company does not hold any collateral against the above receivables.

(ii) The Company limits its exposure to credit risk on bank balances by maintaining balances with banks having high credit ratings. Given these high credit ratings, the company does not expect any bank to fail to meet its obligations. Accordingly, there is no significant expected credit loss on bank and deposit balances as on 31 March 2020 (2019: Nil).

The ageing of the trade receivables at the reporting date was:

	31 March 2021			31 March 2020		
	Gross receivables	**Loss rate**	**Impairment**	**Gross receivables**	**Loss rate**	**Impairment**
Past due:						
91-180 days	51,521	-	-	-	-	-
181-365 days	-	-	-	12,221	-	-
More than 1 year	15,289	100%	15,289	3,078	100%	3,078
	66,810	**22.88%**	**15,289**	**15,299**	**20.12%**	**3,078**

The Company has specifically assessed the exposure of trade receivables and does not expect the customer to fail to meet its obligations. Accordingly, there is no expected credit loss on trade receivables as on 31 March 2021 (2020: Nil) on past due less than 1 year.

The Company has policy to make full provision on past due more than 1 year and accordingly all past due more than one has been fully provided as on 31 March 2021.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far possible, that it will always have sufficient liquidity to meet its /liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. All financial liabilities are payable within 6 months.

c) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. The Company is not exposed to any significant market risk on its financial instruments. Company's transactions primary denominated in Bahrain Dinar and the Company does not hold significant interest bearing financial assets or liabilities.

d) Capital Management

The Board's policy is to maintain a strong capital base to sustain the future development of the business. The Company is not exposed to externally imposed capital requirements. There were no significant changes in the Company's approach to capital management during the year.

e) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

Underlying the definition of fair value is a presumption that an enterprise is a going concern without any intention or need to liquidate, curtail materially the scale of its operations or undertake a transaction on adverse terms.

As on the reporting date, the fair value of the Company's financial assets and liabilities approximate their carrying values.

f) Categorisation of financial instruments

All financial assets and liabilities are classified "at amortised cost" as on 31 March 2021 and 31 March 2020.

15 COMPARATIVES

The corresponding figures have been regrouped where necessary to conform to the current year's presentation. The regrouping has not affected previously reported profit for the year or equity.

INDEPENDENT AUDITORS' REPORT

TO THE BOARD OF DIRECTORS OF TECH MAHINDRA (SHANGHAI) CO., LTD.

1. Opinion

We have audited the financial statements of Tech Mahindra (Shanghai) Co., Ltd. (the Company), which comprise the statement of financial position as at December 31, 2020, and the statement of comprehensive income, statement of changes in equity and statement of Cash Flows for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises".

2. Basis for Opinion

We conducted our audit in accordance with China Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises", and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with China Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

During the process of our audit in accordance with China Auditing Standards, we exercise professional judgment and maintain professional skepticism. We also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control, the risk of not finding a material misstatement resulting from fraud is higher than for one resulting from error.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, we shall not express unqualified opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the those Charged with Governance about planned scope and timing of the audit, as well as significant findings from the audit, including notable internal control weaknesses identified from the audit..

TECH MAHINDRA (SHANGHAI) CO., LTD.

NOTES TO FINANCIAL STATEMENTS OF 2020

(All amounts in RMB Yuan unless otherwise stated)

1 GENERAL INFORMATION OF THE COMPANY.

Tech Mahindra (Shanghai) Co., Ltd. ("the Company") is a limited liability company (wholly-owned foreign corporation) invested by Tech Mahindra Limited. Registered at China (Shanghai) Pilot Free Trade Zone Market Supervision Administration, the Company was established on December 23, 2002 and obtained the business license with Uniform Social Credit Code No. 91310115744229270H. Residential address of the Company is Room 23102, 23104, 23202, 23204, Pudong Software Park, No.498 Guoshoujing Road, China (Shanghai) Pilot Free Trade Zone and the registered capital is USD 16,900,000. The Company has an approved operating period of 20 years.

The approved business scope is: software designing, developing, production, testing and maintenance (including embedded system software, computer aid design, manufactory and engineering service softwares, enterprise resource solution softwares, enterprise integrating softwares, custom relationship management softwares etc.); sales of the self-produced products and related technical consulting services; providing outsourcing design, research and development services in the fields of machinery and electronics; providing comprehensive logistics solution design; wholesale, import & export and agency business(except auction) of electronic equipment, machinery and parts, steel products, computer hardwares and softwares, and providing related technical and auxiliary services. （Goods under state trade control are not included, and activities related to administrative permission should be operated with approval）

2 BASIS OF PREPARATION

The financial statements have been prepared in accordance with the Accounting Standards for Business Enterprises and "Accounting System for Business enterprises" as promulgated by the State of the People's Republic of China.

3 PRINCIPAL ACCOUNTING POLICIES

(a) Accounting period

The Company's accounting year starts on 1 January and ends on 31 December.

(b) Recording currency

The recording currency of the Company is the Renminbi (RMB).

(c) Basis of accounting and measurement bases

The Company follows the accrual basis of accounting. Assets are initially recorded at actual costs on acquisition and subsequently adjusted for impairment, if any.

(d) Foreign currency translation

Except for the accounting treatment of paid-in capital, foreign currency transactions are translated into RMB at the exchange rates stipulated by the People's Bank of China ("the stipulated exchange rates") on the transaction date of the month in which the transactions took place. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into RMB at the stipulated exchange rates at the balance sheet date. Exchange differences arising from these translations are expensed, except for those attributable to foreign currency borrowings that have been made specifically for the construction of fixed assets, which are capitalized as part of the fixed asset costs and those arising in the pre-operating period, which are recorded as long-term deferred expenses.

Contributions to paid-in capital made in foreign currencies are translated into the RMB denominated paid-in capital account at the stipulated exchange rates at the contribution dates. Exchange differences arising from foreign currency capital contribution should be recognized as capital surplus.

(e) Cash and cash equivalents

For the purposes of the cash flow statement, cash refers to all cash in hand and all deposits. Cash equivalents refer to short-term and highly-liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Receivables and provision for bad debts

Receivables comprise accounts receivable and other receivables. The provision method is used to account for potential bad debts identified by management. Receivables are presented at actual amounts net of provision for bad debts.

Accounts receivable

Accounts receivable comprises related party receivables and receivables from non-related parties.

The Company makes specific bad debts provision on an individual basis for accounts receivable that are distinctively different from any other receivable in recoverability. If there are indications that the balances cannot be recovered, the specific provision will be adjusted accordingly.

Other receivables

Specific provisions are made for other receivables on an individual basis.

Recognition criteria of bad debts loss

Where evidence exists that balances cannot be recovered due to the debtor's de-registration, bankruptcy, insolvent and death, etc., bad debts are recognized and corresponding provision for bad debts is written off after the approval of the Company's general manager or the board pursuant to the authorization policies established in the Company.

(g) Fixed assets and depreciation

Fixed assets are tangible assets that are used in production, including sales of goods, rendering of services and leases, or held for management purposes, which have useful lives of more than one year and have relatively high unit price.

Fixed assets purchased or constructed by the Company are recorded at cost.

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives. For the fixed assets being provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives.

The estimated useful lives, estimated residual values expressed as a percentage of cost and annual depreciation rates are as follows:

	Estimated Useful Lives	Estimated Residual Value	Annual Depreciation Rate
Computer	3 yrs	0%	33.33%
Network equipment	5 yrs	0%	20.00%
Offince equipment	3 / 5 yrs	0%	33.33% / 20.00%
Furniture	3 yrs	0%	33.33%

When fixed assets are sold, transferred, disposed of or damaged, gains and losses on disposal are determined by comparing the proceeds with the carrying amount of the assets, adjusted by related taxes and expenses, and are included in non-operating income or expenses.

The repair and maintenance expenses of fixed assets should be expensed directly for the current period. Subsequent expenditures for major reconstruction, expansion, improvement and renovation are capitalized when it is probable that future economic benefits in excess of the original assessment of performance will flow to the Company; the other subsequent expenditures should be recognized as costs or expenses for the current period. Capitalized expenditures arising from major reconstruction, expansion and improvement are depreciated using the straight-line method over the remaining useful lives of the fixed assets. The renovation expenses are depreciated using the straight-line method over the shorter of the interval of renovation and the estimated useful lives.

(h) Long-term deferred expenses

Long-term deferred expenses are expenses paid by an enterprise, for which the amortization period is more than one year (excluding one year), including land royalty and maintenance, etc. long-term deferred expenses should be amortized evenly over the respective beneficial periods and presented at an amount net of accumulated amortization.

Leasehold improvements

Leasehold improvements should be amortized evenly over the shorter of the lease term and the useful lives, and presented at an amount net of accumulated amortization.

(i) Impairment of assets

In addition to the recognition of provisions for impairment loss on receivables and inventories which have been described in their respective accounting policies, individual assets for which there are indications that the carrying values are higher than their recoverable amounts, arising from the occurrence of events or changes in circumstances, are reviewed for impairment. If the carrying value of such assets is higher than the recoverable amount, the excess is recognized as an impairment loss.

The recoverable amount of an individual asset is the higher of its net selling price and its value in use. The net selling price is the amount obtainable from the sale of the asset in an arm's length transaction between knowledgeable and will parties, after deducting any incremental direct disposal costs. Value in use is the present value of estimated future cash flows expected being derived from continuing use of the asset and from its disposal at the end of its useful life.

When there is an indication that the need for an impairment provision recorded in a prior period no longer exists or has decreased, the provision for impairment loss is reversed. The increased carrying amount of the assets should not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years.

(j) Borrowing costs

Borrowing costs, including interests and ancillary costs, incurred in connection with specific borrowings obtained for the acquisition or construction of fixed assets are capitalized as costs of the fixed assets when capital expenditures and borrowing costs are incurred and the activities have commenced to enable the assets to be ready for their intended use. The capitalization of borrowing costs ceases when the assets are ready for their intended use. Borrowing costs incurred thereafter are expensed.

(k) Revenue recognition

Revenue from the rendering of services shall be recognized at the time of service provided and consideration received or receivable.

Interest income should be measured based on the period between the acquisition date and the maturity date and the applicable interest rate.

Subsidy income shall be recognized at the time of receipt.

(l) Employee benefits

The full-time employees of the Company are entitled to staff welfare benefits under existing PRC legislation, including pension benefits, medical care, unemployment insurance, housing fund and other benefits.

The Company is required to accrue for these benefits based on certain percentages of the employees' salaries, subject to certain ceilings, in accordance with the relevant PRC regulations, these benefits are levied by the human resource and social security bodies. The contributions are expensed as incurred.

(m) Accounting for income taxes

The Company accounts for enterprise income taxes using the tax payable method. Under the tax payable method, tax expense is recognized based on current period taxable income and tax rates.

4 TAXATION

Major applicable taxes and tax rate for the Company:

Tax	Tax rate (%)	Tax base
General VAT taxpayer	13.6	Taxable sales
Enterprise income taxes	25	Payable turnover tax

INDEPENDENT AUDITORS' REPORT

TO TECH MAHINDRA (NANJING) CO., LTD.

1. Opinion

We have audited the financial statements of Tech Mahindra (Nanjing) CO., LTD. (the Company), which comprise the statement of financial position as at December 31, 2020, and the statement of comprehensive income, statement of changes in equity and statement of Cash Flows for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises".

2. Basis for Opinion

We conducted our audit in accordance with China Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with China Accounting Standards for Business Enterprises and the China "Accounting System for Business Enterprises", and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

4. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level assurance, but is not a guarantee that an audit conducted in accordance with China Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

During the process of our audit in accordance with China Auditing Standards, we exercise professional judgment and maintain professional skepticism. We also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control, the risk of not finding a material misstatement resulting from fraud is higher than for one resulting from error.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, we shall not express unqualified opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the those Charged with Governance about planned scope and timing of the audit, as well as significant findings from the audit, including notable internal control weaknesses identified from the audit.

NOTES TO FINANCIAL STATEMENTS OF 2020

(All amounts in RMB Yuan unless otherwise stated)

1 GENERAL INFORMATION OF THE COMPANY

Tech Mahindra (Nanjing) Co., Ltd.(Formerly Satyam Computer Services (Nanjing) Co., Ltd.) (”the Company”) is a wholly owned foreign enterprise invested by Tech Mahindra Limited. Registered at Nanjing Administration of Industry and Commerce, the Company was established on June 29,2007 and obtained the business license with Uniform Social Credit Code No.913201006606980458. Residential address of the Company is Suite 413-246, Business Building, Nanjing High-tech Industry Developing Zone and the registered capital is USD 7.65 million. The Company has an approved operating period of 50 years.

The approved business scope is: software designing, developing, writing, testing, maintenance (including embedded system software, computer aid design, manufacturing and engineering service software, enterprise resource planning software, enterprise integrating software, customer relationship management software etc.); sales of the self-produced products and related technical consulting. (Activities related to administrative permission should be operated with approval).

2 BASIS OF PREPARATION

The financial statements have been prepared in accordance with the Accounting Standards for Business Enterprises and “Accounting System for Business enterprises” as promulgated by the State of the People’s Republic of China.

3 PRINCIPAL ACCOUNTING POLICIES

(a) Accounting period

The company’s accounting year starts on 1 January and ends on 31 December.

(b) Recording currency

The recording currency of the Company is the Renminbi (RMB).

(c) Basis of accounting and measurement bases

The Company follows the accrual basis of accounting. Assets are initially recorded at actual costs on acquisition and subsequently adjusted for impairment, if any.

(d) Foreign currency translation

Except for the accounting treatment of paid-in capital, foreign currency transactions are translated into RMB at the exchange rates stipulated by the People’s Bank of China (“the stipulated exchange rates”) on the first day of the month in which the transactions took place. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated into RMB at the stipulated exchange rates at the balance sheet date. Exchange differences arising from these translations are expensed, except for those attributable to foreign currency borrowings that have been made specifically for the construction of fixed assets, which are capitalized as part of the fixed asset costs and those arising in the pre-operating period, which are recorded as long-term deferred expenses.

Contributions to paid-in capital made in foreign currencies are translated into the RMB denominated paid-in capital account at the stipulated exchange rates at the contribution dates. Exchange differences arising from foreign currency capital contribution should be recognized as capital surplus.

(e) Cash and cash equivalents

For the purposes of the cash flow statement, cash refers to all cash in hand and all deposits. Cash equivalents refer to short-term and highly-liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(f) Receivables and provision for bad debts

Receivables comprise accounts receivable and other receivables. The provision method is used to account for potential bad debts identified by management. Receivables are presented at actual amounts net of provision for bad debts.

Accounts receivable

Accounts receivable comprises related party receivables and receivables from non-related parties.

Other receivables

Specific provisions are made for other receivables on an individual basis.

Recognition criteria of bad debts loss

Where evidence exists that balances cannot be recovered due to the debtor's de-registration, bankruptcy, insolvent and death, etc., bad debts are recognized and corresponding provision for bad debts is written off after the approval of the Company's general manager or the board pursuant to the authorization policies established in the Company.

(g) Fixed assets and depreciation

Fixed assets are tangible assets that are used in production, including sales of goods, rendering of services and leases, or held for management purposes, which have useful lives of more than one year and have relatively high unit price.

Fixed assets purchased or constructed by the Company are recorded at cost.

Fixed assets are depreciated using the straight-line method to allocate the cost of the assets to their estimated residual values over their estimated useful lives. For the fixed assets being provided for impairment loss, the related depreciation charge is prospectively determined based upon the adjusted carrying amounts over their remaining useful lives.

(g) Fixed assets and depreciation(Continued)

The estimated useful lives, estimated residual values expressed as a percentage of cost and annual depreciation rates are as follows:

	Estimated Useful Lives	Estimated Residual Value	Annual Depreciation Rate
electronic equipment	2-7 yrs	0%	14.28-50%
office supplies	3-5 yrs	0%	20.00-33.33%
furniture	5 yrs	0%	20.00%

When fixed assets are sold, transferred, disposed of or damaged, gains and losses on disposal are determined by comparing the proceeds with the carrying amount of the assets, adjusted by related taxes and expenses, and are included in non-operating income or expenses.

(h) Long-term deferred expenses

Long-term deferred expenses are expenses paid by an enterprise, for which the amortization period is more than one year (excluding one year), including land royalty and maintenance, etc. long-term deferred expenses should be amortized evenly over the respective beneficial periods and presented at an amount net of accumulated amortization.

Leasehold improvements

Leasehold improvements should be amortized evenly over the shorter of the lease term and the useful lives of the leased asset, and presented at an amount net of accumulated amortization.

(i) Impairment of assets

In addition to the recognition of provisions for impairment loss on receivables and inventories which have been described in their respective accounting policies, individual assets for which there are indications that the carrying values are higher than their recoverable amounts, arising from the occurrence of events or changes in circumstances, are reviewed for impairment. If the carrying value of such assets is higher than the recoverable amount, the excess is recognized as an impairment loss.

The recoverable amount of an individual asset is the higher of its net selling price and its value in use. The net selling price is the amount obtainable from the sale of the asset in an arm's length transaction between knowledgeable and will parties, after deducting any incremental direct disposal costs. Value in use is the present value of estimated future cash flows expected being derived from continuing use of the asset and from its disposal at the end of its useful life.

When there is an indication that the need for an impairment provision recorded in a prior period no longer exists or has decreased, the provision for impairment loss is reversed. The increased carrying amount of the assets should not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years.

(j) Revenue recognition

Revenue from the sale of goods is recognized when significant risks and rewards of ownership of the goods are transferred to the buyer, the Company retains neither continuing managerial involvement nor effective control over the goods sold, and it is probable that the economic benefit associated with the transaction will flow to the Company and the relevant revenue and costs can be measured reliably.

Revenue from the rendering of services shall be recognized at the time of service provided and consideration received or receivable.

Interest income should be measured based on the period between the acquisition date and the maturity date and the applicable interest rate.

Subsidy income shall be recognized at the time of receipt.

(k) Employee benefits

The full-time employees of the Company are entitled to staff welfare benefits under existing PRC legislation, including pension benefits, medical care, unemployment insurance, housing fund and other benefits.

The Company is required to accrue for these benefits based on certain percentages of the employees' salaries, subject to certain ceilings, in accordance with the relevant PRC regulations, these benefits are levied by the human resource and social security bodies. The contributions are expensed as incurred.

(l) Accounting for income taxes

The Company accounts for enterprise income taxes using the tax payable method.Under the tax payable method, tax expense is recognized based on current period taxable income and tax rates.

4 TAXATION

Major applicable taxes and tax rate for the Company:

Tax	Tax rate (%)	Tax base
General VAT taxpayer	6	Taxable sales
Enterprise income taxes	25	Payable turnover tax
City maintenance tax	7	Payable turnover tax
Education surtax	3	Payable turnover tax
Local education surtax	2	Payable turnover tax

The company implements Cai Shui [2019] No. 13 standards for micro and small companies this year,the portion of annual taxable income not exceeding 1 million yuan shall be included in the taxable income at a reduced rate of 25%, and the enterprise income tax shall be paid at a 20% tax rate.The portion of annual taxable income exceeding 1 million yuan but not exceeding 3 million yuan shall be included in the taxable income at a reduced rate of 50% and the enterprise income tax shall be paid at a 20% tax rate.

INDEPENDENT AUDITORS' REPORT

To the Members of

TECH MAHINDRA NETHERLANDS B.V.

Report on the Audit of Special Purpose Financial Statements

Opinion

We have audited the special purpose financial statements of Tech Mahindra Netherlands B.V. ("the Company"), which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (together herein after referred to as "financial statements"). These financial statements have been prepared by the management as described in Note 2 to the financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, of the state of affairs of the Company as at 31 March 2021, and of its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date in accordance with Note 2 to the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as described in Note 2 to the financial statements. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Basis of Accounting and Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note 2 to the financial statements, which describes the basis of accounting. These financial statements are prepared to assist the Holding Company, Tech Mahindra Limited to comply with the requirements of Section 129 of the Act / in the preparation of their Consolidated Financial Statements. These financial statements are not the statutory financial statements of the Company. As a result, these financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted or circulated, or referred to, in correspondence or discussion, in whole or in part or distributed to anyone other than the purpose for which it has been issued without our prior written consent.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1 Corporate information

The Company was incorporated on November 24, 2015, with principal place of business at Maanplein 7, Gebouw 4, 2516 CK, Den Haag, Netherlands. The financial statements are expressed in Euro.

The principal activities of the Company are reselling of software licences from original equipment manufacturers (OEMs) and support services pertaining to resell of software licences.

The Company is a 100% subsidiary of Tech Mahindra Limited (India).

The financial statements of the Company for the year ended March 31, 2021 were authorised for issue by the Board of Directors on May 19, 2021.

2 Significant accounting policies:

2.1 Statement of Compliance:

The special purpose financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as amended from time to time.

2.2 Basis of preparation of financial statements

These financial statements have been presented in Euro (EUR) which is the functional currency of the Company. These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The financial statements have been prepared as per section 129 (1) of the Act to assist the Tech Mahindra Limited (Parent Company) for preparation of consolidated financial statements and for the purpose of compliance with the provision of section 129 and Section 136 read with Schedule III of the Companies Act, 2013.

2.3 Use of estimates

The preparation of financial statements requires the management of the Company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

2.4 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 Revenue recognition

Revenue is recognised upon transfer of control of promised services to the customers. The Company presents revenues net of indirect taxes in its statement of Profit and Loss.

Revenue from software licenses where the customer obtains a ‘right to use’ the licenses is recognised at the time the license is made available to the customer. Revenue from software licenses where the customer obtains a ‘right to access’ is recognised over the access period. The Company has applied the principles of Ind AS 115 to account for revenues for these performance obligations.

Revenue related to support services contracts are recognized ratably over the period in which services are provided.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability (“Unearned revenue”) arises when there are billing in excess of revenue..

2.7 Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.8 Foreign currency transactions

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognized in the profit or loss.

2.9 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at fair value through profit & loss [FVTPL]. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as Fair Value Through Profit or Loss (FVTPL). Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.10 Taxes on income

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the country.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

2.11 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

2.12 New Accounting Standards, Amendments to Existing Standards, Annual Improvements and Interpretations

The Ministry of Corporate Affairs (“”MCA””) notifies new standards or amendments to the existing standards. There are no such notifications that are applicable for the Company from FY 2020-21 onwards.

Earnings Per Share (Basic) (in Euro)	**4.10**	**2.71**
Earnings Per Share (Diluted) (in Euro)	**4.10**	**2.71**

18 Financial Instruments and Risk Review

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors. Following are the financial risk factors

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

(b) Credit Risk:

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables.

Trade Receivable

Trade receivables consists of a single customer in the previous year. Average credit period ranges from 30-60 days and no interest is charged on overdue receivables. The Company uses a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking experience. As there is no history of defaults, no allowance for doubtful trade receivables based on the expected credit loss model is made.

Amount in Euro

Particulars	**As at 31-Mar-2021**	As at 31-Mar-2020
Within the credit period	**425,158**	-
90-180 days past due	**-**	-
180- 365 days past due	**-**	-
More than 365 days past due	**-**	-

Cash and Bank Balances:

The Company maintains its cash and cash equivalents with bank having good reputation and high quality credit rating.

Credit Risk Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was EUR 246,393 and EUR 1,539,829 as of March 31, 2021 and March 31, 2020 respectively, being the total of the carrying amount of balances with banks and trade receivables.

Liquidity Risk:

Liquidity risk refers to the risk that the company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirement.

The table below provides details regarding the contractual maturities of significant financial liabilities as on March 31, 2021:

Amount in Euro

Particulars	**Less than 1 year**	**1-3 years**	**3-5 years**	**5 years and above**
Trade Payables	89,661	-	-	-
Other Financial Liabilities	-	-	-	-
Total	**89,661**	**-**	**-**	**-**

The table below provides details regarding the contractual maturities of significant financial liabilities as on March 31, 2020:

Amount in Euro

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above

Borrowings	-	-	-	-
Other Financial Liabilities	1,043,576			
Total	**1,094,351**	**-**	**-**	**-**

Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets:

Amount in Euro

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above
Non-derivative financial assets				
31-Mar-2021				
Trade Receivables	425,158			
Cash & cash equivalents	246,393	-	-	-
Total	**671,551**	**-**	**-**	**-**
Non-derivative financial assets				
31-Mar-2020				
Trade Receivables	-			
Cash & cash equivalents	1,539,829	-	-	-
Total	**1,539,829**	**-**	**-**	**-**

18A. Capital Management

The Company's capital management objectives are to ensure that company's ability to continue as a going concern and to provide an adequate return to shareholders by pricing services, commensurate with the level of risk.

The Company sets the amount of capital in proportion to its overall financing structure i.e. capital and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic condition and risks, characteristics of the underlying assets.

(a) The carrying value and fair value of financial instruments by categories as of March 31, 2021 is as follows:

Particulars			Amount in Euro
	Amortised cost	**Carrying value**	**Fair value**
Assets:			
Trade Receivables	425,158	425,158	425,158
Cash and cash equivalents	246,393	246,393	246,393
	671,551	**671,551**	**671,551**
Liabilities:			
Trade Payables	89,661	89,661	89,661
Other financial liabilities	-	-	-
	89,661	**89,661**	**89,661**

(b) The carrying value and fair value of financial instruments by categories as of March 31, 2020 is as follows:

Particulars			Amount in Euro
	Amortised cost	**Carrying value**	**Fair value**
Assets:			
Trade Receivables	-	-	-
Cash and cash equivalents	1,539,829	1,539,829	1,539,829
	1,539,829	**1,539,829**	**1,539,829**
Liabilities:			
Trade payables	50,775	50,775	50,775
Other financial liabilities	1,043,576	1,043,576	1,043,576
	1,094,351	**1,094,351**	**1,094,351**

19 Disclosures for Revenue from Contracts with Customers

(i) Disaggregation of revenue

Revenue disaggregation by nature is as follows:

Name	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Sale of Software Licences	**894,415**	1,203,242
Sale of Support Services	**2,384,712**	1,895,128
Total	**3,279,127**	**3,098,370**

(ii) Performance obligation

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognized as of the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. The Company has applied the practical expedient in paragraph 121 of Ind AS 115 and has not disclosed information about remaining performance obligations that have original expected duration of one year or less and where the company recognises revenue to the extent it has right to invoice.

(iii) Contract assets and liabilities

The contract assets primarily relate to Company's rights to consideration for work completed but not billed at the reporting date due to contractual terms. The contract assets are transferred to receivables when the rights become unconditional.

The contract liabilities primarily relate to the advance consideration received from customers. Revenue is recognized from the contract liability amounts as and when services are delivered and related performance obligations satisfied. The unused credit or balance is deferred until used by the customer or expired.

Significant changes in the contract liabilities balances during the year ended March 31, 2021 as follows:

Amoint in Euros

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Contarct Liabilities:		
Opening Balance	**1,253,086**	1,477,433
Less: Revenue recognized during the reporting period	**(1,489,182)**	(1,895,128)
Add: Invoiced during the period	**944,385**	1,670,781
Closing Balance	**708,289**	**1,253,086**

20 Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas and major customers.

Based on the 'management approach' as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

The Company is engaged in the business of re-selling of software licenses and related support services. As the Company is engaged in only one business segment, the balance sheet and statement of profit and loss pertain to only one business segment .

The Company has a single customer who is primarily located in the Netherlands. As the Company has only one geographical segment, the balance sheet and statement of profit and loss pertain to only one geographical segment.."

21 The Company had no contingent liabilities outstanding as on the balance sheet date.

22 The Company does not foresee any material impact on its revenue and customer's ability to pay due to the prolonged lock down and other impacts of the COVID-19 pandemic. However, the impact assessment of COVID-19 is a continuous process given the uncertainties associated with its nature and duration.

23 Previous year's figures have been regrouped/reclassified wherever necessary to correspond with the current year's classification/disclosure.

INDEPENDENT AUDITORS' REPORT

TO THE BOARD OF DIRECTORS

TECH MAHINDRA LIMITED

Report on the Audit of Special Purpose Financial Statements

Opinion

We have audited the special purpose financial statements of Tech Mahindra IT Services GmbH ("the Company"), which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (together herein after referred to as "financial statements"). These financial statements have been prepared by the management as described in Note 2 to the financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, of the state of affairs of the Company as at 31 March 2021, and of its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date in accordance with Note 2 to the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as described in Note 2 to the financial statements. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Basis of Accounting and Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note 2 to the financial statements, which describes the basis of accounting. These financial statements are prepared to assist the Holding Company, Tech Mahindra Limited to comply with the requirements of Section 129 of the Act / in the preparation of their Consolidated Financial Statements. These financial statements are not the statutory financial statements of the Company. As a result, these financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted or circulated, or referred to, in correspondence or discussion, in whole or in part or distributed to anyone other than the purpose for which it has been issued without our prior written consent.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1 Corporate information

The Company was incorporated on August 08, 2014, with principal place of business at Albertgasse 35, 1080 Vienna, Austria. The financial statements are expressed in Euro.

The principal activities of the Company are providing consultancy and services relating to information technology and development of software solutions and products for banking and finance industry which include activities such as retail,corporate,investment, wealth management and micro finance.

The Company's immediate holding company is Tech Mahindra GmbH, incorporated in Dusseldorf, Germany and ultimate parent company is Tech Mahindra Limited incorporated in India.

The special purpose financial statements of the Company for the year ended March 31, 2021 were authorised for issue by the Board of Directors on May 21, 2021.

2 Significant accounting policies:

2.1 Statement of Compliance

The special purpose financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as amended from time to time.

2.2 Basis of preparation of financial statements

These financial statements have been presented in Euro (EUR) which is the functional currency of the Company. These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The functional currency of the Company is EURO (EUR). The Financial statements have been prepared as per section 129 (1) of the Act to assist the Tech Mahindra Limited (Parent Company) for preparation of consolidated financial statements and for the purpose of compliance with the provision of section 129 and Section 136 read with Schedule III of the Companies Act, 2013 .

2.3 Use of estimates

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

2.4 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from cost plus contracts are recognised based on the terms of the contract over the service period. Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability arises when there is Company's obligation to transfer goods or services to a customer for which the entity has received consideration ("Advances from Customer") or the amount is due from the customer ("Unearned Revenue")

2.7 Leases

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019). Since the Company had no long term leased premises as on April 1, 2020, there was no effect of adoption of Ind AS 116 on the Company.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

2.8 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the profit or loss.

2.9 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in ‘other comprehensive income’, for investment in equity instruments which are not held for trading.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

2.10 Taxes on income

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the country.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

2.11 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.12 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

2.13 Recent Indian Accounting Standards (Ind AS):

The Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There are no such notifications that are applicable for the Company from April 1, 2021.

Earnings Per Share		
Earnings Per Share (Basic) (in Euro)	14	21
Earnings Per Share (Diluted) (in Euro)	14	21

19 Financial Instruments and Risk Review

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors.Following are the financial risk factors.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk

(b) Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables

Trade Receivable

Trade receivables consist of a single related party customer. Average credit period ranges from 20-30 days and no interest is charged on overdue receivables. The Company uses a practical expedient by computing the expected credit loss allowance for trade receivable based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking experience. As there is no history of defaults, no allowance for doubtful trade receivables based on the expected credit loss model is made.

Age of receivables

Amount in Euro

Particulars	As at 31-March-2021	As at 31-March-2020
Within the credit period	7,971	27,602
90-180 days past due	-	-
180- 365 days past due	-	-
More than 365 days past due	-	-

Cash and Bank Balances:

The Company maintains its cash and cash equivalents with bank having good reputation and high quality credit rating.

Credit Risk Exposure:

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was Eur 109,342 and EUR 115,417 as of March 31, 2021 and March 31, 2020 respectively, being the total of the carrying amount of balances with banks, trade receivables and other financial assets

Liquidity Risk:

Liquidity risk refers to the risk that the company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirement.

The table below provides details regarding the contractual maturities of significant financial liabilities as on March 31, 2021:

Amount in Euro

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above
Trade Payables	12,956		-	-
Other Financial Liabilities	-			
Total	**12,956**	**-**	**-**	**-**

The table below provides details regarding the contractual maturities of significant financial liabilities as on March 31, 2020:

Amount in Euro

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above
Trade Payables	15,898		-	-
Other Financial Liabilities	13,195			
Total	**29,093**	**-**	**-**	**-**

Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets:

Amount in Euro

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above
Non-derivative financial assets				
31-Mar-2021				
Trade Receivables	7,971

Cash & cash equivalents	78,408	-	-	-
Other financial assets	9,407			
Total	**115,417**	**-**	**-**	**-**

20A Capital Management

The Company's capital management objectives are to ensure that company's ability to continue as a going concern and to provide an adequate return to shareholders by pricing services, commensurate with the level of risk.

The company sets the amount of capital in proportion to its overall financing structure i.e. capital and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic condition and risks, characteristics of the underlying assets.

(a) The carrying value and fair value of financial instruments by categories as of March 31, 2021 is as follows:

Particulars			Amount in Euro
	Amortised cost	**Total carrying value**	**Total fair value**

21 Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas and major customers.

Based on the 'management approach' as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments

The Company is engaged in the business of providing consultancy and services relating to information technology and development of software solutions. As the Company is engaged in only one business segment, the balance sheet and statement of profit and loss pertain to only one business segment.

22 The Company had no contingent liabilities outstanding as on the balance sheet date.

23 The Company does not foresee any material impact on its revenue and customer’s ability to pay due to the prolonged lock down and other impacts of the COVID-19 pandemic. However, the impact assessment of COVID-19 is a continuous process given the uncertainties associated with its nature and duration

24 Previous year's figures have been regrouped/reclassified wherever necessary to correspond with the current year's classification/disclosure.

BOARD OF DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2021

TECH MAHINDRA NORWAY AS

Adress:, Capus T S, Martin Linges vei 25, 1364 Fornebu, 0219 Bærum

Organisation Number. 918 324 941

The Business

Tech Mahindra Norway AS provides information technology services and information technology enabled services to enterprises in Norway. The services include Digital Transformation, IT infrastructure services, IT consulting among other services. The Company's head office is located in Bærum, Norway.

Financial performance

Turnover for the financial Year ended March 31, 2021 was NOK 45 442 243 which is an increase of 20 % as compared to previous year. The net profit for the year was NOK 3 134 318 as compared to NOK 2 990 549 for the previous year. The total capital at the end of the year was NOK 10 846 063 as compared to NOK 7 711 745 in the previous year. The Board considers that the annual accounts give an accurate description of Tech Mahindra Norway AS's assets and liabilities, financial position and result.

A going concern

In accordance with the section 3-3 of the Accounting Act, we confirm that Tech Mahindra Norway AS meets the requirements for continuation as a going concern.

Risk Management

Risk management is a continuous process and an integrated part of the business. All managers are required to assume responsibility for risk management within their areas of responsibility and ensure that risk management is embedded in day-to-day business processes. When operating across multiple markets, it is exposed to a range of risks that may affect its business. The aim is to earn competitive returns at acceptable risk levels.

Commercial risks

Tech Mahindra Norway AS needs access to new customers that want to outsource IT-services.

Future development

The Company plans to be active in the Norwegian outsourcing market for the years to come. The Company will also provide IT-services locally to existing and future customers.

Financial risk

All financial risk is handled by its ultimate parent company, Tech Mahindra Limited.

Working environment

Management considers the work environment satisfactory and has not implemented any special projects in this area during financial year 2020-21. There have been no damages or accidents in 2020-21.

Equal opportunity

Tech Mahindra Norway AS has had 13 employees during the accounting year.

The Company is led by Gaurav Gupta, male manager and Mr Kishan Chuckun, Director. None of the staff is women.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Discrimination

The Company strives to offer equal opportunities to all, independent of gender and ethnic background.

The external environment

The Company does not engage in any activities which pollute the environment.

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tech Mahindra Norway AS showing a profit of NOK 3 134 317. The financial statements comprise the balance sheet as at 31 March 2021, the income statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements are prepared in accordance with law and regulations and give a true and fair view of the financial position of the Company as at 31 March 2021, and its financial performance for the year then ended in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway.

Basis for Opinion

We conducted our audit in accordance with laws, regulations, and auditing standards and practices generally accepted in Norway, including International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company as required by laws and regulations, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

Management is responsible for the other information. The other information comprises information in the annual report, except the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director (management) are responsible for the preparation in accordance with law and regulations, including a true and fair view of the financial statements in accordance with the Norwegian Accounting Act and accounting standards and practices generally accepted in Norway, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern. The financial statements use the going concern basis of accounting insofar as it is not likely that the enterprise will cease operations.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with laws, regulations, and auditing standards and practices generally accepted in Norway, including ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with laws, regulations, and auditing standards and practices generally accepted in Norway, including ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error. We design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves a true and fair view.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Opinion on the Board of Directors' report

Based on our audit of the financial statements as described above, it is our opinion that the information presented in the Board of Directors' report concerning the financial statements and the going concern assumption is consistent with the financial statements and complies with the law and regulations.

Opinion on Registration and Documentation

Based on our audit of the financial statements as described above, and control procedures we have considered necessary in accordance with the International Standard on Assurance Engagements (ISAE) 3000, Assurance Engagements Other than Audits or Reviews of Historical Financial Information, it is our opinion that management has fulfilled its duty to produce a proper and clearly set out registration and documentation of the Company's accounting information in accordance with the law and bookkeeping standards and practices generally accepted in Norway.

Board of Tech Mahindra Norway AS

Gaurav Gupta
Director

Kishan Kumar Chukun
Director

NOTE TO THE ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2021

Note 1 Accounting policies

The financial statements have been prepared in accordance with the Norwegian Accounting Act of 1998 and generally accepted accounting principles for small entities in Norway.

Valuation and classification of assets and liabilities

Assets intended for permanent ownership or use in the business are classified as non-current assets. Other assets are classified as current assets. Receivables due within one year are classified as current assets. The classification of current and non-current liabilities is based on the same criteria.

Current assets are valued at the lower of historical cost and fair value.

Fixed assets are carried at historical cost, but are written down to their recoverable amount if this is lower than thecarrying amount and the decline is expected to be permanent. Fixed assets with a limited economic life are depreciated in accordance with a reasonable depreciation schedule.

Foreign currency

All balance sheet items denominated in foreign currencies are translated into NOK at the exchange rate prevailing at the balance sheet date.

Receivables

Trade receivables and other receivables are carried at face value less an allowance for expected losses. An estimate is made for doubtful debts based on a review of all amounts outstanding at the balance sheet date.

Cash and cash equivalents

Cash and cash equivalents include cash, bank deposits and other monetary instruments with a maturity of less than three months at the date of purchase.

Pensions

The company has a defined contribution plan and pays fixed contributions to an insurance company. After the contribution has been made the company has no further commitment to pay contributions relating to employee service in the current and prior periods. When employee services are rendered, the company recognizes the contribution payable in exchange for that service as a liability after deducting any contribution already paid. Prepaid contributions are reflected as an asset (pension fund) to the degree the contribution can be refunded or will reduce future payments.

Revenues

Arising form delivery of services:

Revenue is recognised when the service is performed. Revenue is measured at the fair value of the consideration received or receivable.

Cost of sales and other expenses

In principle, cost of sales and other expenses are recognised in the same period as the revenue to which they relate. In instances where there is no clear connection between the expense and revenue, the apportionment is estimated. Other exceptions to the matching criteria are disclosed where appropriate.

Income taxes

Tax expenses are matched with operating income before tax. Tax related to equity transactions e.g. group contribution, is recognised directly in equity.

Tax expense consists of current income tax expense and change in net deferred tax. The tax expense is allocated to ordinary income and the effect of extraordinary items in accordance with the respective taxable income. Deferred tax liabilities and deferred tax assets are presented net in the balance sheet.

Change in presentation during the year and comparative figures

During financial year 2020, Management changed the presentation of revenue and other operating expenses, from ‘gross’ presentation to ‘net’ presentation. The Company and its Parent Company act as sub-contractors to Tech Mahindra Limited (the ‘Ultimate Parent Company’) with respect to revenue contracts with external customers, where the risks are borne by the Ultimate Parent Company. Remuneration for such sub-contracting activities is based on the reimbursement of costs incurred plus a mark-up in accordance with a service agreement with the Ultimate Parent Company. Until 2020, the revenue from external customers and equivalent sub-contracting charges from the Ultimate Parent Company were shown on a gross basis in the financial statements of the Company under ‘Revenue’ and ‘Other operating expenses’ respectively. During 2020, in order to be consistent with the presentation followed by the Parent Company, the revenue from external customers is changed to net presentation of such sub-contracting charges.

Leases

Leases are accounted for as financial or operational leases after a specific assessment by the individual deal. Operating assets in leases assessed as financial leases are capitalized in the balance sheet and depreciated as fixed assets fixed assets. The installment part of the lease obligation is shown as other long-term debt. The obligation is reduced by paid rent after deduction of calculated interest cost.

Note 2 Number of employees, benefits, loan to employees etc.

	2020/2021	2019/2020
Average number of employees during the year:	19	15

Equity at 31 March 2021	**30,000**	**-**	**10,846,063**	**10,876,063**

This year's change in equity:	Share capital	Other paid-in equity	Other equity	Total equity
Equity at 1 April 2019	30,000	-	4,721,196	4,751,196
Profit/(loss) of the year		-	2,990,549	2,990,549
Received/given group contribution		-	-	-
Equity at 31 March 2020	**30,000**	**-**	**7,711,745**	**7,741,745**

Note 9 Bank deposits

Bank deposits, cash etc. include restricted tax deduction funds of NOK 812,997.43 (March 2020: NOK 1,208,497).

Note 10 Subsequent events

The Company does not foresee any material impact on its revenue and customer's ability to pay due to the prolonged lock down and other impacts of the COVID-19 pandemic. However, the impact assessment of COVID-19 is a continuous process given the uncertainties associated with its nature and duration.

Note 11

Previous year numbers have been re-grouped or re-classified as required.

INDEPENDENT AUDITOR´S REPORT ON FINANCIAL STATEMENTS

Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Tech Mahindra Serviços de Informática S.A. (“the Company”) as at March 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with accounting practices adopted in Brazil and International Financial Reporting Standards (IFRSs). We have audited the financial statements of the Company, which comprise the statement of financial position as at March 31, 2021, and the statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

Basis for Opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company within the meaning of ethical requirements, applicable law, regulation and have fulfilled our other responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Going Concern

We draw attention to the financial statements, which indicates that the Company incurred a net loss of R$130,124 during the year ended March 31, 2021 and, as of that date, the Company’s current liabilities exceeded its total assets by R$98,275. These events or conditions, indicate that a material uncertainty exists that may cast significant doubt on the Company’s ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Going Concern Basis of Accounting

The Company’s financial statements have been prepared using the going concern basis of accounting. Management is responsible for assessing the Company’s ability to continue as a going concern, including whether the use of the going concern basis of accounting is appropriate. The use of the going concern basis of accounting is appropriate unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Management is also responsible for disclosing in the financial statements a material uncertainty of which management becomes aware related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. As part of our audit, we conclude regarding the appropriateness of management’s use of the going concern basis of accounting in the preparation of the financial statements in the context of the applicable financial reporting framework. We also conclude, based on the audit evidence obtained, whether a material uncCertainty exists related to events or conditions that may cast significant doubt on the entity’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor’s report to the disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. Our conclusions are based on information available to us at the date of the auditor’s report. However, future events or conditions may cause an entity to cease to continue as a going concern.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting practices adopted in Brazil and IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Management is responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and ISAs, we exercise professional judgment and maintain professional skepticism throughout the planning and performance of the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

We are required to communicate with Management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

São Paulo, April 23, 2021.

NOTES TO FINANCIAL STATEMENTS AS OF MARCH 31, 2021 AND 2020

(In Thousands of Reais)

1. Operations

Tech Mahindra Serviços de Informática S.A. former Tech Mahindra Serviços de Informática S.A. ("Tech Mahindra" or "Company") is a closely held corporation and primarily engaged in rendering consulting services related to information technology, implementation of projects and selling software. The Company is located in São Paulo city.

On January 1st, 2017, Tech Mahindra Serviços de Informática S.A. incorporated Complex IT Solution Consultoria em Informática S.A.

2. Basis for preparation and presentation of financial statements

Authorization to complete these financial statements was given at the General Meeting held on April 23, 2021.

The financial statements were prepared in accordance with several assessment bases used in the accounting estimates. Accounting estimates involved in the preparation of the financial statements were based on both objective and subjective factors, and in line with management's judgment to determine the appropriate amounts to be recorded in the financial statements. Significant items subject to these estimates and assumptions include selection of useful lives of property and equipment and their recoverability on operations in operations, measurement of financial assets at fair value and under the present value method, credit risk analysis to determine the allowance for doubtful accounts, as well as other risk analysis to determine other provisions, including provision for contingencies.

Settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the probability treatment inherent to the estimation process. The Company reviews its estimates and assumptions at least once a year.

The financial statements were prepared in accordance with accounting practices adopted in Brazil, which comprise the Brazilian Corporation Laws, the standards issued by the Brazilian Securities and Exchange Commission (CVM), and pronouncements, interpretations and guidance issued by the Brazilian FASB (CPC), as well as in compliance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB).

3. Summary of significant accounting practices

3.1. Translation of foreign currency-denominated balances

3.1.1 Functional and reporting currency

The Company's functional currency is the Brazilian real, same currency for preparation and presentation of the financial statements.

3.1.2 Transactions denominated in foreign currency

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency (Real) using the exchange rate of balance sheet date. Gains and losses resulting from the restatement of these assets and liabilities due to exchange rate variation between transaction date and year end are recognized as financial income or financial expenses in the income statement.

3.2. Revenue recognition

Revenues are stated on the accrual basis of accounting. Revenue is recognized to the extent that it is probable that economic benefits will flow to the Company and when it can be reliably measured.

3.3. Taxation

3.3.1. Sales taxes

Sales and service revenues are subject to the taxes and social contributions below, at the following statutory rates:

- Social Contribution Tax on Gross Revenue for Social Integration Program (PIS) 0,65%;
- Social Contribution Tax on Gross Revenue for Social Security Financing (COFINS) 3,00%;
- Service tax (ISS) – 2% à 5%.

3.3.2. Current income and social contribution taxes

Taxable profit comprises income and social contribution taxes, Income tax is calculated at a rate of 15%, plus a surtax of 10% on taxable profit exceeding R$240 over 12 months, whereas social contribution tax is computed at a rate of 9% on taxable profit, both recognized on an accrual basis; therefore additions to book income of temporarily nondeductible expenses or exclusions of temporarily non-taxable income upon determination of current taxable profit generate deferred tax assets or liabilities.

Prepaid or recoverable taxes are stated in current or non-current assets, according to the forecast of realization thereof.

3.4. Cash and cash equivalents

These include cash, bank account balances and short-term investments redeemable within 90 days from the transaction dates, subject to insignificant risk of change in their market value. Short-term investments included in cash equivalents are mostly classified as “financial assets at fair value through profit or loss”.

3.5. Property & equipment

These are recorded at acquisition cost. Depreciation of assets is calculated on a straight-line basis and takes into consideration the estimated economic useful lives of assets.

A property and equipment item is written off when sold or when no future economic benefit is expected to arise from its use or sale. Gains or losses arising from de-recognition of an asset (measured as the difference between the net disposal proceeds and the carrying amount of the asset) are recognized in the statement of income in the period which the asset is derecognized.

The net book value and useful lives of the assets and the depreciation methods are reviewed at period end, and adjusted prospectively, when applicable.

After calculating net book value of property and equipment for financial statement purposes, the Company determines whether it is necessary to recognize additional loss of property and equipment value aggregated with other assets, such as investments and intangible assets in cash-generating units.

Due to changes in Brazilian accounting practices on the path to full convergence with international standards, first-time adopters of Accounting Pronouncements CPC 27 (IAS 16) and CPC 28 (IAS 40) may elect to make adjustments to their opening balances similarly to those allowed by international financial reporting standards, using the deemed cost concept as provided for in CPC 37 (IFRS 1) and CPC 43.

3.6. Intangible assets

Intangible assets acquired separately are measured at cost upon their initial recognition. After initial recognition, intangible assets are stated at cost, less accumulated amortization and impairment. Intangible assets are represented by goodwill related to acquisition of Complex IT Solution Consultoria em Informática S.A. and software. The useful life of intangible assets is considered finite or indefinite.

Finite intangible assets are amortized over their economic useful lives and are tested for impairment whenever there is any indication of impairment loss. The amortization period and method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates. Amortization of intangible assets with finite lives is recognized in the income statement in the expense category consistent with the use of the intangible asset.

Gains and losses arising from write-off of an intangible asset are measured as the difference between the net sales price and the book value of the asset, recognized in the income statement at the write-off of the asset.

3.7. Impairment of assets

Management annually reviews the net book value of assets in order to evaluate events or changes in economic, operating or technological circumstances that may indicate deterioration or impairment. When such evidence is identified and the net book value exceeds the recoverable value, a provision for impairment is setup, adjusting the net book value to the recoverable value.

The recoverable value of an asset or group of assets is defined as the higher of value in use or the net sales value.

In estimating the asset’s value in use, the estimated future cash flows are discounted to their present value, using a discount rate before taxes that reflects the weighted average cost of capital for the segment where the cash-generating unit operates. Whenever possible, the net sales value is determined based on firm sale agreements in transactions made on an arm’s length basis between knowledgeable and willing parties, adjusted by expenses attributed to asset sales or, when there is no firm sale agreement, based on the market price of an active market, or the most recent transaction price with similar assets.

3.8. Provisions

3.8.1 General

Provisions are recognized when the Company has a legal or constructive obligation due to a past event, it is probable that economic resources will be required to settle it and a reliable estimate of the obligation amount may be made. When the Company expects that the amount of a provision will be refunded, in full or in part, the refund is recognized as a separate asset, but only when the refund is virtually certain. The expense related to any provision is stated in the income statement, net of any refund.

3.8.2 Provision for litigation

The Company is a party in judicial and administrative proceedings. Provisions are set up for all judicial proceedings involving probable cash outlays to settle them and that may be reliably estimated, if applicable.

The assessment of the likelihood of loss includes analysis of available evidence, hierarchy of laws, available case law, recent court decisions and their relevance for the legislation in force, as well as the opinion of the Company's outside legal counsel.

These provisions are reviewed and adjusted to consider changes in circumstances, such as applicable statute-barring period, conclusions of tax audits or additional exposures found based on new issues or court decisions, if applicable.

The provision for contingencies is determined by management based on expected amount of loss involved by each contingency based on the opinion of the Company's legal advisors, for amounts considered sufficient to cover losses and risks, if applicable.

3.9. Financial instruments

The Company's financial instruments comprise trade accounts receivable, other receivables, trade accounts payable, other liabilities, financial instruments derivatives and related parties.

The instruments are only recognized as from the date the Company becomes a party to the contractual provisions of financial instruments.

They are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition or issue, excepting financial assets and liabilities classified as at fair value through profit or loss, when such costs are directly posted to income statement for the year. They are subsequently measured at each balance sheet date in accordance with the rules established for each type of classification of financial assets and liabilities.

3.9.1 Financial assets: These are classified in the following categories based on the purpose for which they were acquired or issued:

a) Financial assets at fair value through profit or loss: Include financial assets held for trading and financial assets initially recognized at fair value through profit or loss. Financial assets are classified as held for trading if acquired to be sold within short term.

The Company evaluated its financial assets at fair value through profit or loss since it intends to trade them within short term.

When the Company is unable to trade these financial assets as a consequence of market inactivity, and management intention of selling them in the near future changes significantly, the Company may opt to reclassify these financial assets in certain circumstances. The reclassification to loans and accounts receivable, available for sale or held to maturity depends on asset nature. This evaluation does not affect any financial assets classified as at fair value through profit or loss using the option of fair value upon presentation.

b) Loans and receivables: Loans and receivables are non-derivative financial assets, with fixed or determinable payments, not quoted in an active market. After initial measurement, these financial assets are stated at amortized cost, using effective interest rate method, less impairment loss. Trade accounts receivable and other receivables were classified in this category.

3.9.2 Financial liabilities: These are classified in the following categories based on the nature of financial instruments taken out or issued:

a) Financial liabilities at fair value through profit or loss: These include financial liabilities held for trading and liabilities designated upon initial recognition at fair value through profit or loss.

They are classified as held for trading when acquired with the objective of sale or repurchase in the short term. Derivative financial instruments are classified as held for trading. They are measured at fair value at every balance sheet date.

Interest, monetary restatement, exchange variation and variations resulting from fair value valuation are recognized in P&L when incurred in financial income or expenses.

b) Loans and financing: Non-derivative financial liabilities that are not usually traded before maturity.

After initial recognition, they are subsequently measured at amortized cost using the effective interest rate method. Interest, monetary and exchange variation, as applicable, are recognized in P&L when incurred, Trade accounts payable, other liabilities and related parties were classified in this category.

3.9.3 Market value: The market value of financial instruments actively traded in organized markets is determined based on quoted values in the market at balance sheet date, In case there is no active market, market value is determined through valuation techniques. These techniques include the use of recent market transactions between unrelated parties, reference to market value of similar financial instruments, analysis of discounted cash flows or other valuation models.

3.10. Present value adjustment of assets and liabilities

Non-current monetary assets and liabilities are adjusted at present value, and also current ones but only when the effect is considered significant in relation to the overall financial statements. Present value adjustment is calculated taking into consideration contractual cash flows and the express interest rate and, in certain cases, the implicit interest rate of the related assets and liabilities. As such, embedded interest in revenues, expenses and costs related to these assets and liabilities is discounted in order to be recognized on the accrual basis of accounting.

Subsequently, such interest is relocated in the lines of financial expenses and financial income in the income statement using the effective interest rate method in relation to the contractual cash flows. Applied implicit interest rates were determined based on assumptions and are considered accounting estimates.

3.11. Significant accounting judgments, estimates and assumptions

The Company's financial statements were prepared considering different valuation bases used in accounting estimates. The accounting estimates involved in the preparation of the individual and consolidated financial statements were based on objective and subjective factors, considering management's judgment to determine the appropriate amounts to be recorded in the financial statements.

Significant items subject to these estimates and assumptions include the selection of the useful life of property and equipment items and their recoverability in operations; the evaluation of financial assets at fair value; assessment of the credit risk for the determination of the allowance for doubtful accounts, as well as the analysis of other risks to determine other provisions, including the provisions for guarantees, realization of tax credits and contingencies. Settlement of transactions involving these estimates may result in amounts significantly different from those recorded in the financial statements due to the probabilistic treatment inherent to the estimate process. The Company periodically reviews its estimates and assumptions at least once a year.

3.11.1 Impairment of non-financial assets

Impairment loss exists when the carrying value of an asset or cash-generating unit exceeds its recoverable amount, which is the higher of fair value less cost to sell and value in use. The calculation of fair value less cost to sell is based on information available on sale transactions of similar assets or market price less additional costs to dispose of the asset.

3.11.2 Taxes

There are uncertainties regarding the interpretation of complex tax regulations and the amount and term of future taxable income. The long-term nature and the complexity of existing contractual instruments, differences between actual results and assumptions adopted, or future changes in these assumptions could require future adjustments in the already recorded revenue and tax expenses.

The Company sets up provisions, based on reasonable estimates of the possible consequences of audits by tax authorities in respective jurisdictions in which it operates.

The value of these provisions is based on various factors such as previous experience of tax audits and differing interpretations of tax regulations by the taxed entity and the respective tax authority. These differences of interpretation may arise on a wide variety of subjects depending on conditions prevailing in the Company's domicile.

Significant judgment from management is required to determine the value of deferred tax assets that can be recognized based on the probable term and level of future taxable income together with future tax planning strategies.

3.11.3 Provision for litigation

The Company recognizes provision for civil, tax and labor proceedings, as applicable. The assessment of the chances of loss includes analysis of available evidence, hierarchy of laws, available case law, recent court decisions and their relevance in the legal system, as well as the opinion of the Company's outside legal counsel. These provisions are reviewed and adjusted to consider changes in circumstances, such as applicable statute-barring period, conclusions of tax audits or additional exposures found based on new issues or court decisions.

3.12. Cash flow statements

Cash flow statements were prepared by the indirect method and are presented in accordance with CPC 03 (R2) – Cash Flow Statements, issued by Brazilian FASB (CPC).

3.13. Business combination and goodwill

When acquiring a business, the Company assesses the financial assets and financial liabilities assumed in order to classify and allocate them according to the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

Initially, goodwill is measured as the excess of the consideration transferred over the net assets acquired (net identifiable assets acquired and liabilities assumed). If the consideration is less than the fair value of net assets acquired, the difference is recognized as a gain in the income statement.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For purposes of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of Company´s cash generating units that are expected to benefit from the synergies of the combination.

4. **Cash and cash equivalents**

Tech Mahindra Limited	**15,211**	13,754
Total non-current liabilities	**15,211**	13,754

Remuneration of key management

Expenses related to remuneration of key management personnel of the Company, recognized in P&L an amount of R$4,241 at March 31, 2021 (R$4,143 at March 31, 2020).

11. Provision for contingencies

The Company, in the normal course of its operations, is a party to judicial proceedings. Management, based on information from its legal advisors and the analysis of judicial proceedings pending judgment, concluded and set up a provision amounting to R$63,933 (R$13,754 as of March 31, 2020) related to labour and tax causes classified as probable loss risk assessment.

12. Equity

As of March 31, 2021 and 2020, the capital is represented by 59,135,059 (Fifty nine million, one hundred thirty five thousand, fifty nine) shares related to social capital amounts to R$2.00 totalizing an amount of R$118,270,118.00 (One hundred and eighteen million, two hundred and seventy thousands, one hundred and eighteen reais) recorded as follows:

Shareholders	**Nº Quotas**	**%**
Tech Mahindra Limited	59,135,059	100,00
	59,135,059	**100,00**

13. Financial instrument and risk management

13.1 Risk management

As mentioned in Note 1, the Company primarily engaged in rendering consulting services related to information technology, implementation of projects and selling software.

The key market risks faced by the Company in the normal course of its businesses are as follows:

- Credit risk: arises from possible difficulty in settling accounts receivable from customers. This risk is managed by means of a credit analysis policy.
- Market risk: the Company is exposed to market risk that can impact your cash flow.
- • Liquidity risk: consists of the possibility of the Company not having sufficient funds to honor its commitments due to the different terms for settlement of its rights and obligations. The Company's liquidity and cash flow control is monitored by the Company's financial management department, to ensure that cash flow from operations and the previous funding, when necessary, are sufficient to meet its commitment schedule, not generating liquidity risks for the Company.

13.2 Financial instruments

(a) **Financial instruments**

We set out below a comparison between book value and fair value of the Company's financial instruments presented in the financial statements:

Financial assets	31.03.2021	31.03.2020	31.03.2021	31.03.2020
	Book value	Book value	**Fair value**	Fair value
Cash and cash equivalents	**627**	303	**627**	303
Trade accounts receivable	**33,341**	67,373	**33,341**	67,373
Taxes recoverable	**1,622**	1,277	**1,622**	1,277
Related parties	**2,583**	3,316	**2,583**	3,316
Financial instruments derivatives	**-**	730	**-**	730
Other receivables	**1,824**	2,830	**1,824**	2,830
	39,997	75,829	**39,997**	75,829

Financial liabilities	31.03.2021	31.03.2020	31.03.2021	31.03.2020
	Book value	Book value	**Fair value**	Fair value
Trade accounts payable	**1,115**	1,395	**1,115**	1,395
Salary and social charges	**7,165**	11,980	**7,165**	11,980
Taxes liabilities	**258**	466	**258**	466
Loans and financing	**8,070**	14,442	**8,070**	14,442
Related parties	**129,713**	109,063	**129,713**	109,063
Other liabilities	**16,377**	12,752	**16,377**	12,752
	162,698	150,098	**162,698**	150,098

(b) Derivatives

In accordance with the accounting policies as set out in CPC 48 (IFRS 9) all derivative financial instruments with hedging purposes are measured at fair value and recorded in the balance sheet against income for the year.

The derivative financial instruments held by the Company are intended to protect its future raw material purchases of the effects of changes in foreign currency, and are not used for speculative purposes. At March 31, 2021 and 2020, outstanding contracts Non-Deliverable Forwards (NDFs) were:

Type		**31.03.2021**	
	Nominal Amount	**Fair value (market value - R$)**	**Gain (Unrealized) 31.03.2020**
NDF – Assets			
Foreign currency – US$	-	-	-
Current assets			-
Non-current assets			-

Type		31.03.2020	
	Nominal Amount	Fair value (market value - R$)	Gain (Unrealized) 31.03.2019
NDF – Liabilities			
Foreign currency - US$	820	3,531	730
			730
Current assets			730
Non-current assets			-

The unrealized loss or gain represent the difference between the value of the instrument by the curve and fair value (market) and were recorded at March 31, 2021 and 2020 in the "Financial results" line.

14. Insurance coverage (unaudited)

At March 31, 2021 and 2020, insurance coverage taken out is considered sufficient by management to cover losses, if any. As these refer to immaterial amounts, they were not audited.

15. Capital management

Management's objective is to ensure reduced exposure to market risk in order to attain the growth and return objective.

Following the global management policy, in order to reduce any risks, the Company maintains relationships only with first tier financial institutions.

16. Earnings (losses) per unit of interest

Calculation of basic earnings (losses) per unit of interest is made by dividing net income (loss) for the year attributed to holders of the Company's units of interest by the weighted average number of units of interest available in the year ended.

The chart below sets out net income and units of interest used in the calculation of basic and diluted earnings per unit of interest:

	31.03.2021	31.03.2020
Basic and diluted earnings per unit of interest		
Numerator		
Loss for the year attributed to Company unit of interest holders (in thousands of reais)	**(130,124)**	(52,477)
Denominator (in units of interest)		
Weighted average number of units of interest	59,135,059	59,135,059
Basic and diluted earnings (losses) per units of interest (in R$)	**(2.200)**	(0.887)

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2021

The Directors present their strategic report for the year ended 31 March 2021.

Business review

At a group level Citisoft comprises Citisoft Plc, its UK trading entity, and Citisoft Inc, a subsidiary company conducting business in North America. Citisoft Inc has maintained the strong growth over the last few years and has achieved revenue in 2021 of US$ 19,318,031 and net income of US$ 839,121 (2020: Revenue: US$ 19,994,982 and Net Loss of US$ 270,706) respectively for the same year end. Citisoft group accounts, however, are consolidated at the parent company level so the accounts herein reflect Citisoft Plc on a stand-alone basis. The final results show a consolidation of its position given the circumstances that prevailed during the year to 31 March 2021.

Citisoft Plc had a relatively successful year, when considered in the context of prevailing market conditions and the ongoing COVID-19 pandemic. David Higgins joined the business as Managing Director in April 2020, followed by three additional full-time consultants – one at Director, and two at Principal level. This additional headcount increased both the profile of the business and added significant and diverse skill sets to the organisation aligned to current client demand. Throughout the year, this allowed the business to open meaningful dialogue with client prospects on topics and themes that were previously unsupportable.

Over the course of the year, Citisoft met with over 100 industry participant organisations, including asset managers, owners, service providers and software vendors. This activity served a dual purpose, firstly to re-establish the Citisoft brand, and second to reinvigorate the sales pipeline and to generate new business leads. Through this approach, and as well as consolidating our existing relationships with strategic clients, this achieved fee earning work with five new clients.

One year on, and with the COVID-19 pandemic still prevalent, the asset management industry continues to operate under a Business Continuity Planning scenario. With only a few notable exceptions, significant strategic change projects remain generally ‘on-hold’ and there are many examples of where clients have delayed project funding decisions pending the outcomes of the vaccine roll-out and impact on opening-up economies. Citisoft UK, whilst it has grown, remains small and nimble and this will allow it to support client near-term needs. At the same time, the business will continue to be re-positioned to win larger and more complex work once client investment spend is released. In order to do this, Citisoft has in-place plans to further expand its capabilities, in terms of number of consultants, functional capability and markets serviced.

Principal risks and uncertainties

The duration of the Covid-19 pandemic remains unknown, and whilst there continues to be a ‘build-up’ of demand for consulting services, the timings of the release of appropriate funding remains unknown. Citisoft’s plans to increase headcount can only occur on the same timeline as this demand.

As well as established competitors, there are a number of small start-up consultancies that have launched during the last 12 months in the UK. It is important that as the business grows, and looks to win scale projects, it does not lose work to these new organisations. The business must remain cognisant of fee pressures that may occur as a result of this trend.

Financial key performance indicators

We continued to take rigorous control of our cost base and operate as efficiently as possible. The main drivers of our business are utilisation and fee rates. During the last year, we held our rates for pre-existing client engagements, and with one exception where the client credential itself brought significant value, we have increased our daily rate levied.

Citisoft Plc and Citisoft Inc operates as a global firm and under the continued leadership of Paul Migliore as the Global CEO and Thomas Secaur as the Global COO. Significant progress has been made on our co-branding to develop a single global firm “Citisoft” in the marketplace. We believe that this business strategy will best serve our firm going forward in competing for and winning new client relationships.

Directors’ statement of compliance with duty to promote the success of the company

This statement is intended by the Board of Directors to set out how they have approached and met their responsibilities under s172(1)(a) to (f) of the Companies Act 2006 in the year ended 31 March 2021.

Stakeholders of the company include employees, shareholders, customers, suppliers, other creditors of the company and the community in which it operates.

The Directors, both individually and collectively, consider that they have acted in good faith to promote the success of the company for the benefit of its stakeholders as a whole (having regard to the matters set out in s172 of the Act) in the decisions taken during the year. In particular:

- To ensure the Board take account of the likely consequences of their decisions in the long-term, they receive regular and timely information on all the key areas of the business including Key Performance Indicators (KPIs), financial performance and operational matters. The company’s performance and progress is also reviewed regularly at Board.

- The company's employees are fundamental to the success of the business. The directors understand that it is critical to engage with the employees to understand their views and to ensure that all their interests are considered. To strengthen employee engagement, the directors promote and encourage all employees to raise any concerns or suggestions with senior management without hesitation.
- The company seeks to build long-term trusted relationships with its customers and suppliers and seeks regular feedback.
- In the current financial year, the company introduced a policy to make annual charitable donations to benefit the local community. The company's employees were engaged to assist in nominating the recipient charity. This is a policy that will continue to be built upon.
- The directors take environmental matters into consideration as part of their decision making and strive to be a responsible member of the local and wider community, minimising the company's impact on the environment wherever possible.
- The directors' intentions are always to behave responsibly toward all stakeholders and treat them fairly and equally, so that they all benefit from the long-term success of the company.

The directors have overall responsibility for determining the company's purpose, values and strategy and for ensuring high standards of governance. The primary aim of the directors is to promote the long-term sustainable success of the company, generating value for stakeholders and contributing to the wider society. Throughout the coming financial year, the Board will continue to review and challenge how the company can improve engagement with its employees and other stakeholders.

This report was approved by the board on May 13, 2021 and signed on its behalf.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors present their report and the financial statements for the year ended 31 March 2021.

Principal activity

The company's principal activity during the year continued to be that of providing advisory and delivery services to the asset management industry. Citisoft Plc ("Citisoft") is a UK based business consulting company with a wholly owned subsidiary, Citisoft Inc., operating in the United States of America and Canada. Citisoft operates worldwide from these three major financial jurisdictions with a primary focus on North America and the UK/EMEA.

Going concern

The company has sufficient financial resources together with a number of customers and suppliers across different geographic areas and industries. As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook resulting from the ongoing Covid-19 pandemic. The current economic conditions do create uncertainty over the level of demand for the company's services. However, with the expanded team within Citisoft Plc, current sales pipeline, and other continuing efforts to reinvigorate the UK practice, the company's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the company should be able to operate within the level of its current facilities. After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

Results and dividends

The profit for the year, after taxation, amounted to £62,334 (2020 – loss £47,099).

The results for the company for the year show a pre-tax profit of £77,119 (2020 – loss of £57,855) on a turnover of £1,581,444 (2020 - £966,382).

During the year under review, the Board of Directors of the company has not approved or paid any dividend from the profits of the company.

Company's policy for payment of creditors

It is a company policy that all suppliers are dealt with in accordance with its standard payment practice whereby all outstanding trade accounts are settled within the greater of the settlement terms advised by the supplier at the time of supply and 30 days following the month of purchase.

During the year the average credit taken from suppliers was 30 days (2020 - 30 days).

Engagement with suppliers, customers and others

During the year the company continued to strengthen its customer and supplier relationships, as ensuring that the company maintains a high-quality customer service is key to its long-term success. The company continues to build on its business relationships in all areas; to promote best practice, increase efficiencies, and secure long-term, sustainable success.

Directors

The directors who served during the year were:

V N Nair

L Chidambaram

B B Pal

P V Migliore

T J Secaur

Directors' responsibilities statement

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the company's financial statements and then apply them consistently;

- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' Report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Post balance sheet events

There have been no significant events since 31 March 2021 that need to be disclosed.

Auditors

Under section 487(2) of the Companies Act 2006, Kreston Reeves LLP will be deemed to have been reappointed as auditors 28 days after these financial statements were sent to members or 28 days after the latest date prescribed for filing the accounts with the registrar, whichever is earlier.

This report was approved by the board on May 13, 2021 and signed on its behalf.

P V Migliore

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF CITISOFT PLC

Opinion

We have audited the financial statements of Citisoft plc (the 'company') for the year ended 31 March 2021, which comprise the Statement of Income and Retained Earnings, the Balance Sheet and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our Auditors' Report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report or the Directors' Report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement set out on pages 300 to 301, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

The objectives of our audit are to identify and assess the risks of material misstatement of the financial statements due to fraud or error, obtain sufficient appropriate audit evidence regarding the assessed risks of material misstatement due to fraud or error and respond to those risks appropriately.

Based on our understanding of the company and our general commercial and industry sector experience, and through discussion with the directors and management (as required by auditing standards), we identified that the principal risks of non-compliance with areas of laws and regulations related to employment law and those that directly affect the financial statements including financial reporting and the Companies Act 2006 and taxation legislation. We considered the extent to which non-compliance might have a material effect on the financial statements. We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements, including the risk of override of controls, and determined that the principal risks were related to the posting of inappropriate journal entries to increase revenue or reduce expenditure. The potential effect of these laws and regulations on the financial statements varies considerably. Audit procedures performed by the engagement team included:

- Discussions with management and assessment of known or suspected instances of non-compliance with laws and regulations and fraud; and
- Assessment of identified fraud risk factors; and
- Performing analytical procedures to any unusual or unexpected relationships, including related party transactions, that may indicate risks of material misstatement due to fraud; and
- Confirmation of related parties with management, and review of transactions throughout the period to identify any previously undisclosed transactions with related parties outside the normal course of business; and
- Performing analytical procedures with automated data analytics tools to identify any unusual or unexpected relationships, including related party transactions, that may indicate risks of material misstatement due to fraud; and
- Identifying and testing journal entries, in particular any manual entries made at the year end for financial statement preparation.

There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it, even though we have properly planned and performed our audit in accordance with auditing standards. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditors' Report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an Auditors' Report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

P V Migliore
Director

Place: London

The notes on pages 307 to 314 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021.

1. General information

The company is a private company limited by share capital incorporated in United Kingdom.

The address of its registered office and principal place of business is:

63 Queen Victoria Street

London

EC4N 4UA

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The functional currency of the company is considered to be pounds sterling because that is the currency of the primary economic environment in which the company operates. The financial statements have been rounded to the nearest £.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Financial reporting standard 102 reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 11 Financial Instruments paragraphs 11.42, 11.44 to 11.45, 11.47, 11.48(a)(iii), 11.48(a)(iv), 11.48(b) and 11.48(c);
- the requirements of Section 12 Other Financial Instruments paragraphs 12.26 to 12.27, 12.29(a), 12.29(b) and 12.29A;
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Tech Mahindra Limited as at 31 March 2021 and these financial statements may be obtained from Tech Mahindra Limited at the address set out in note 17.

2.3 Going concern

After reviewing the company's forecasts and projections, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company therefore continues to adopt the going concern basis in preparing its financial statements.

2.4 Group accounts not prepared

The directors have satisfied themselves that the parent company, Tech Mahindra Limited, prepares group accounts in accordance with section 401(2) of the Companies Act 2006. The company has therefore taken advantage of the exemption provided by section 401(1) of the Companies Act 2006 not to prepare consolidated financial statements.

2.5 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Rendering of services

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

Unbilled revenue comprises of revenue recognised in relation to efforts incurred on time contracts not billed as of the period end where services are performed in accordance with agreed terms.

2.6 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

The estimated useful lives range as follows:

Office equipment	5	years straight-line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.7 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.8 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.9 Financial instruments

Financial assets, liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets and liabilities classified at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs). If an arrangement constitutes a financing transaction, the financial asset or liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the balance sheet when, and only when, there exists a legally enforceable right to set off the recognised amounts and the company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the conditions set out by FRS 102 to be classified as basic financial instruments are subsequently measured at amortised cost using the effective interest method.

Debt instruments that have no stated interest rate (and do not constitute a financing transaction) and are classified as payable or receivable within one year are initially measured at the undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

2.10 Impairment

Assets not measured at fair value are reviewed for any indication that the asset may be impaired at each balance sheet date. If such indication exists, the recoverable amount of the asset, or the asset’s cash generating unit, is estimated and compared to the carrying amount. Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in profit or loss unless the asset is carried at a revalued amount where the impairment loss is a revaluation decrease.

2.11 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.12 Foreign currency translation

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the initial transaction dates.

Non-monetary items measured in terms of historical cost in a foreign currency are not retranslated.

All foreign exchange gains and losses are included in profit or loss.

2.13 Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments.

2.14 Pensions

Defined contribution pension plan

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payment obligations.

The contributions are recognised as an expense in profit or loss when they fall due. Amounts not paid are shown in accruals as a liability in the Balance Sheet. The assets of the plan are held separately from the company in independently administered funds.

2.15 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.16 Employee benefits

When employees have rendered service to the company, short-term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the application of the company's accounting policies, which are described in note 2, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements

Impairment of financial assets

The company's management reviews periodically items classified as trade receivables to asses whether a provision for impairment should be recorded in profit or loss. Management estimates the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgement and uncertainty.

Impact of Covid-19

During the year the incidence of Covid-19 developed into a global pandemic. The directors have assessed the impact of Covid-19 on the business at the balance sheet date and consider that the company's assets are expected to realise their carrying value in the ordinary course of business and that all known liabilities have been included. The company has not experienced any adverse impact on the demand for its services which continue to be provided to its customers with minimal disruption. Despite the worldwide uncertainty caused by Covid-19, and its potential to impact the company, the directors are confident that due to the nature of the company's customer base and its current financial strength, any potential detrimental effect on its business is not expected to be significant, and, indeed, could result in further business opportunities.

4. Turnover

An analysis of turnover by class of business is as follows:

	2021	2020
	£	£
Rendering of services	**1,581,444**	966,382
	1,581,444	966,382

Analysis of turnover by country of destination:

	2021	2020
	£	£
United Kingdom	**126,380**	225,450
Europe	**247,800**	232,050
Rest of world	**1,207,264**	508,882
	1,581,444	966,382

5. Operating (loss)/profit

The operating (loss)/profit is stated after charging:

	2021	2020
	£	£
Exchange differences	**13,893**	3,860
Auditor's remuneration - The audit of the company's annual accounts	**9,000**	9,200
Auditor's remuneration - Other assurance and taxation services	**3,380**	6,562
Depreciation of tangible fixed assets	**1,451**	1,533

6. Employees

Staff costs were as follows:

	2021	2020
	£	£
Wages and salaries	**711,608**	270,709
Social security costs	**85,420**	30,140
Cost of defined contribution scheme	**83,882**	40,467
	880,910	341,316

The average monthly number of employees, including the directors who are also employees, during the year was as follows:

	2021	2020
	No.	No.
Delivery	**4**	2
Administration	**1**	1
Business development	**1**	-
	6	3

7. Interest receivable

	2021	2020
	£	£
Interest income on bank deposits	**498**	2,989
	498	2,989

8. Interest payable and similar expenses

	2021	2020
	£	£
Other interest payable	-	135
	-	135

9. Taxation

Corporation tax

	2021	2020
	£	£
Current tax on profits for the year	**14,785**	(10,756)
	14,785	(10,756)
Total current tax	**14,785**	(10,756)
Deferred tax		
Total deferred tax	-	-
Taxation on (loss)/profit on ordinary activities	**14,785**	(10,756)

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2020-higher than) the standard rate of corporation tax in the UK of 19% (2020-19%). The differences are explained below:

	2021	2020
	£	£
Profit/(loss) on ordinary activities before tax	**77,119**	(57,855)
Profit/(loss) on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2020-19%)	**14,653**	(10,992)
Effects of:		
Expenses not deductible for tax purposes, other than goodwill amortisation and impairment	**15**	368
Capital allowances for year in excess of depreciation	**117**	(700)
Non-taxable income	-	568
Total tax charge for the year	**14,785**	(10,756)

Factors that may affect future tax charges

There were no factors that may affect future tax charges.

10. Tangible fixed assets

	Office equipment
	£
Cost or valuation	
At 1 April 2020	**113,441**
Additions	**266**
At 31 March 2021	**113,707**
Depreciation	
At 1 April 2020	**109,384**
Charge for the year on owned assets	**1,451**
At 31 March 2021	**110,835**
Net book value	
At 31 March 2021	**2,872**
At 31 March 2020	**4,057**

11. Fixed asset investments

	Investments in subsidiary companies
	£
Cost or valuation	
At 1 April 2020	**505,793**
At 31 March 2021	**505,793**

Subsidiary undertaking

The following was a subsidiary undertaking of the company:

Name	Principal activity	Class of shares	Holding
Citisoft Inc*	Provision of management consultancy and implementation services to the asset management industry.	Ordinary	100%

*Citisoft Inc. is a company incorporated in the United States of America.

12. Debtors

	2021	2020
	£	£
Trade debtors	**55,650**	23,100
Amounts owed by group undertakings	**119,273**	109,967
Other debtors	**40,861**	33,782
Prepayments and accrued income	**31,632**	1,040
	247,416	167,889

13. Creditors: Amounts falling due within one year

	2021	2020
	£	£
Trade creditors	**54,528**	53,334
Amounts owed to group undertakings	**7,252**	21,757
Corporation tax	**9,285**	-
Other taxation and social security	**43,054**	9,871
Accruals and deferred income	**74,195**	26,064
	188,314	111,026

14. Share capital

Authorised, allotted, called up and fully paid	2021	2020
	£	£
8,430,752 (2020-8,430,752) Ordinary shares of £0.01 each	**84,308**	84,308

	112,410	112,410

Rights, preferences and restrictions

The rights attaching to the ordinary shares and to the A ordinary shares are identical. Both classes of shares rank pari passu.

15. Reserves

Share premium account

The share premium reserve contains the premium arising on issue of equity shares, net of issue expenses.

Profit and loss account

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

16. Related party transactions

The company has taken advantage of the exemption in Section 33 of FRS 102 from disclosing transactions with other wholly owned members of the group.

17. Controlling party

The company's immediate parent is Tech Mahindra Limited, incorporated in India.

The ultimate parent is Tech Mahindra Limited, incorporated in India.

The financial statements of Tech Mahindra Limited are available upon request from the Company Secretary at Rajiv Gandhi Infotech Park, Phase III, Pune, India.

DIRECTORS' REPORT

TO THE SHAREHOLDERS

This report together with the audited accounts of Citisoft, Inc. for the year ended March 31, 2021 is given below.

Review of Operations:

During the year under review, Citisoft, Inc. has recorded an income of US$ 19,318,031 and Profit /(loss) after tax was US$ 839,121 excluding affiliates revenue and cost of revenue. The Company continues to invest in strengthening its operations and administrative infrastructure to support anticipated growth in the coming years.

Dividends:

During the year under review, no dividend is recommended for the year ended 31st March, 2021.

Directors:

The directors who served during the year were as follows:

Mr. Vikram Nair

Mr. Lakshmanan Chidambaram

Mr. Thomas J. Secaur

Mr. Paul V. Migliore

Outlook for the current year:

Business has been encouraging in US and the Company is cautiously optimistic of the future.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder/s for the co-operation and assistance received from them.

Mr. Thomas J. Secaur
Director

INDEPENDENT AUDITOR'S REPORT

Board of Directors and Stockholders
Citisoft, Inc.
Boston, Massachusetts

Report on the Financial Statements

We have audited the accompanying financial statements of Citisoft, Inc., a Delaware corporation and wholly-owned subsidiary of Citisoft Plc, (the "Company"), which comprise the balance sheets as of March 31, 2021 and 2020, and the related statements of operations, comprehensive activity and statements of changes in stockholders' equity and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the overall reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Citisoft, Inc. as of March 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Note 1 – Nature of Business, Basis of Presentation, and Summary of Significant Accounting Policies

Nature of Business

Citisoft, Inc. (the "Company") was incorporated in Delaware on September 16, 2002 and provides consulting and information technology services to the investment and financial services industry. The Company is a wholly-owned subsidiary of Citisoft Plc, located in the United Kingdom, which is an affiliate of Tech Mahindra, a provider of information technology services, internet services, business process outsourcing and software development support. Tech Mahindra's principal office is located in Hyderabad, India. Tech Mahindra acquired a 75% interest in the Company's parent, Citisoft Plc, in April, 2005 and the remaining 25% was acquired in June, 2006. The Company provides services to customers throughout the United States and Canada. The breakout of sales for the years ending March 31, 2021 and 2020 is as follows:

		2021			2020	
Unites States	**$**	**15,097,837**	**73%**	$	16,298,671	79%
Canada		**5,559,437**	**27%**		4,340,008	21%

Basis of Presentation

The financial statements have been prepared by the Company to reflect the results of operations and financial position of Citisoft, Inc. as of and for the years ended March 31, 2021 and 2020. The financial statements include all inter-company transactions. Any eliminations of inter-company transactions are recorded during the consolidation of the Company's financial information with its parent company, Citisoft Plc, which have not been reflected in the accompanying financial statements.

Reclassifications

Certain prior year amounts have been reclassified for consistency with the current year presentation. These reclassifications had no effect on the reported results of operations.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Adopted Authoritative Guidance

During the year ended March 31, 2020, the Company adopted ASC Topic 606. "Revenue from Contracts with Customers", using the retrospective method. Management has analyzed the provisions of the FASB's ASC Topic 606 and have concluded that no changes are necessary to conform to the new standard.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable and investments. The carrying amounts of the Company's cash and cash equivalents, accounts receivable, accounts payable and investments approximate fair value due to their short-term nature.

Cash

The Company considers all highly liquid investments with an original maturity or remaining maturity of three months or less at the date of purchase to be cash equivalents. Cash and claims to cash that are restricted as to withdrawal or uses in the ordinary course of business are classified as deposits in the balance sheet at March 31, 2021 and 2020.

The Company places its temporary cash investments in high credit financial institutions. However, portions of temporary cash investments may exceed FDIC insured levels. Management monitors, on a regular basis, the financial condition of the financial institutions, along with their balances, to reduce the risk of balances exceeding FDIC insured limits.

Concentration of Credit Risk and Accounts Receivable

The Company grants credit to its customers during the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and generally requires no collateral from its customers. Accounts receivable balances are typically unsecured and are derived from revenues earned from customers primarily located in the United States of America. The Company monitors the creditworthiness of its customers to which it grants credit limits in the normal course of business, and its historical experience of potential credit losses which, when realized, have been within the range of management's expectations.

Management has reviewed accounts receivable and has determined that an allowance for doubtful accounts totaling $50,000 and $297,000 was warranted as of March 31, 2021 and 2020, respectively.

Investments

The Company's investments in marketable securities are reported in accordance with Accounting Standards Codification (ASC) Topic 320, "Investments – Debt and Equity Securities" (ASC 320). Under this standard, debt and equity securities are classified into one of the following three reporting categories: held to maturity securities, trading securities or available-for-sale securities. The Company has classified marketable securities as available-for-sale securities and are recorded at fair market value at year end with unrealized gains and losses being excluded from earnings and reflected as a component of other comprehensive income. The basis, on which cost is determined in computing realized gain or loss, is specific identification of the securities sold.

Property and Equipment

Property and equipment are stated at actual cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives which are three to five years for computer equipment, five years for furniture and fixtures and fifteen years for leasehold improvements. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred; significant renewals and betterments are capitalized.

At March 31, 2021 and 2020, property and equipment, at cost, and accumulated depreciation consisted of the following:

		2021		2020
Cost	$	**580,579**	$	562,345
Less: accumulated depreciation		**(448,346)**		(404,896)
Net book value	$	**132,233**	$	157,449

Depreciation expense for the years ended March 31, 2021 and 2020 amounted to $43,450 and $56,702, respectively.

Goodwill

Goodwill represents the difference between the purchase price and the fair value of assets and liabilities acquired in a business combination. The Company accounts for goodwill in accordance with Accounting Standards Codification Topic 350, "Intangible-Goodwill and Other" (ASC 350). ASC 350 states certain intangible assets are not subject to amortization but are tested for impairment annually.

The entire balance of goodwill at March 31, 2021 and 2020 is attributable to the 2002 acquisition of The Rowan Group, a Company organized by the three senior executives who continue to manage the marketing and management activities of the Company.

During the year ended March 31, 2020, the Company started amortizing goodwill on a straight line basis over a period of ten (10) years in accordance with ASC 350. For the years ended March 31, 2021 and 2020, amortization expense amounted to $54,664 and $54,663, respectively.

Accounting for the Impairment of Long-Lived Assets

The Company accounts for impairment or disposal of long-lived assets in accordance with Accounting Standards Codification Topic 360, "Property, Plant, and Equipment" (ASC 360). ASC 360 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the book value of the asset may not be recoverable. The Company evaluates at each balance sheet date whether events and circumstances have occurred that indicate possible impairment. Impairment is measured by comparing the undiscounted future cash flows for the carrying value of the assets held at the Company's location. If the total expected undiscounted future cash flows are less than the carrying amount of the asset, the Company records an impairment charge. Management believes no event has occurred that would impair the value of long-lived assets recorded in the accompanying financial statements.

Revenue Recognition

Revenues from the performance of time-and-material consulting projects are recognized as the services are performed. Revenues from fixed price engagements are recognized on the percentage of completion basis with revisions to estimates reflected in the period in which changes become known. Provision for losses on such engagements is made during the period in which a loss becomes probable and can be reasonably estimated.

In accordance with Accounting Standards Codification Topic 605, (ASC 605), "Revenue Recognition", the Company has accounted for reimbursements received for out-of-pocket expenses incurred as revenues in the statements of operations and comprehensive loss.

All contracts require the Company's clients to pay for out-of-pocket expenses, principally travel related expenses. Accordingly, revenue includes amounts billed for these costs and cost of revenue includes the related actual costs incurred.

The timing of revenue recognition is entirely over time as services are provided. Generally, billing occurs subsequent to revenue recognition, resulting in billed receivables, which have been recorded under accounts receivable, trade on the accompanying balance sheets.

Revenue by performance obligation for the years ended March 31, 2021 and 2020 is as follows:

Services Transferred Over Time	**2021**		2020	
	Consulting Revenue	**Consulting Revenue-Affiliates**	Consulting Revenue	Consulting Revenue-Affiliates
Strategic Assessment	$ **991,410**	$	1,992,262	$
Systems Strategy & Selection	**1,905,200**	**-**	1,665,695	-
Systems Implementation	**8,623,288**	**1,339,243**	9,328,585	643,787
Program & Project Management	**4,489,413**	**-**	3,408,085	-
Outsourcing Evaluation	**-**	**-**	295,875	-
Outsourcing Transition	**3,305,270**	**-**	1,289,824	-
Other Consulting Fees	**3,450**	**-**	2,014,566	-
	$ **19,318,031**	$ **1,339,243**	$ 19,994,892	$ 643,787

Advertising Costs

The Company expenses the costs of advertising as incurred. Advertising costs for the years ended March 31, 2021 and 2020 amounted to approximately $74,000 and $137,000, respectively, and are included in selling, general and administrative expenses in the accompanying statements of operations and comprehensive loss.

Variable Interest Entities

Variable Interest Entities (“VIE’s”) are entities to which the usual condition of consolidation (ownership of a majority voting interest) does not apply. This interpretation focuses on financial interests that indicate control. Variable interests are rights and obligations that convey economic gains or losses from changes in the values of the VIE’s assets and liabilities.

If a company holds a majority of the variable interests of an entity, it would be considered the primary beneficiary. The primary beneficiary would be required to include assets, liabilities and the results of operations of the VIE in its financial statements. Management has determined that no variable interest entities exist which would require disclosure or consolidation in the financial statements as of March 31, 2021 and 2020.

Income Taxes

Income taxes are accounted for in accordance with the provisions of Accounting Standards Codification Topic 740, “Income Taxes” (ASC 740). The provisions for deferred income tax expense or benefit represent the net change during the year in the Company’s deferred income tax assets or liabilities.

Deferred income tax assets represent the amount of taxes recoverable in future years (based on current tax laws) resulting from future net tax deductions arising from the temporary differences in the reporting of certain types of income and expense items for financial statement and income tax reporting purposes.

Deferred income tax liabilities represent the amount of taxes payable in future years (based on current tax laws) resulting from the future net taxable amounts arising from temporary differences in the reporting of certain types of income and expense items for financial statements and for income tax reporting purposes.

In accordance with ASU 2015-17 “Income Taxes: Balance Sheet Classification of Deferred Taxes,” the presentation of deferred income taxes is required to be presented as noncurrent in a classified balance sheet. Accordingly, the Company has classified the deferred tax assets and liabilities as noncurrent in the accompanying balance sheets.

The Company accounts for uncertain income tax positions under ASC 740. ASC 740 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return and also provides guidance on classification, interest and penalties, disclosure and transition.

As of March 31, 2021 and 2020, the Company had no material unrecognized tax benefits and no adjustments to liabilities or operations required under ASC 740. The Company’s practice was and continues to be to recognize interest and penalty expenses related to uncertain tax positions in income tax expense, which were zero for the years ended March 31, 2021 and 2020. Generally, the three preceding tax years are subject to examination by federal and state taxing authorities. There are no income tax examinations currently in process.

Note 2 – Investments

Investments are reported at fair value in accordance with the provisions of ASC Topic 820, "Fair Value Measurements and Disclosures" (ASC 820). ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that is based on the subjectivity of inputs to valuation techniques used to measure fair value. It distinguishes between observable inputs (Levels 1 & 2) which are either observable from market data or corroborated by observable market data and those that are unobservable (Level 3).

The Company did not have any level 2 or level 3 assets or liabilities as of March 31, 2021 and 2020. In addition, the Company did not have any transfers of assets and liabilities between levels 1, 2 and 3 during the years ending March 31, 2021 and 2020.

The following tabulation summarizes changes in relationships between the cost and fair values of marketable securities:

	Level 1		
	Aggregate Fair Value	Cost	Accumulated Holding Gain
March 31, 2020	$ 651,074	$ 530,000	$ 121,074
March 31, 2021	**$ 951,505**	**$ 530,000**	**$ 421,505**

Note 3 – Long-Term Debt

The Company entered into an agreement on May 1, 2020 under the Paycheck Protection Program ("PPP") to borrow $1,528,517. The PPP, established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), provides for loans to qualifying businesses for amounts up to 2.5 times of the average monthly payroll expenses of the qualifying business. The loans and accrued interest are forgivable after a period of eight or twenty four weeks as long as the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent and utilities, and maintains its payroll levels. The amount of loan forgiveness will be reduced, with exceptions, if the borrower terminates employees or reduces salaries by more than 25% during the eight or twenty four-week period.

The unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first six months. The Company intends to use the proceeds for purposes consistent with the PPP. While the Company believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan, forgiveness of the loan has been applied for but has not been approved and therefore could not be assured as of March 31, 2021.

Long-term debt consists of the following as of March 31, 2021:

	2021
Long-term debt	**$ 1,528,517**
Less current portion	**442,665**
Long-term debt, net of current portion	**$ 1,085,852**

Note 4 – Accrued Expenses

Accrued expenses as of March 31, 2021 and 2020 consisted of the following:

	2021	2020
Employee bonus and vacation	**$ 1,165,316**	$ 752,778
Executive plan benefit	**948,380**	590,657
Canadian tax accrued on sales and services	**130,062**	457,012
Payroll taxes	**64,873**	41,270
Professional fees	**34,140**	32,500
	$ 2,342,771	$ 1,874,217

Note 5– Income Taxes

The provision for (benefit from) income taxes for the years ended March 31, 2021 and 2020 is comprised of the following:

		2021		2020
Current (benefit)provision:				
Federal	**$**	**238,157**	$	(91,977)
State		**73,882**		(16,691)
Foreign		**77,700**		-
		389,739		(108,668)
Deferred provision (benefit):				
Federal		**19,797**		49,556
State		**10,474**		11,208
		30,271		60,764
Total	**$**	**420,010**	$	(47,904)

As of March 31, 2021 and 2020, net operating loss carryforwards for federal and state income tax purposes were either utilized in full or became available for carry-back to prior years with taxable income with a change in tax law.

Significant components of activities that gave rise to the deferred tax assets and liabilities included in the financial statements as of March 31, 2021 and 2020 are as follows:

		2021		2020
Deferred tax assets (liabilities) :				
Accrued expenses and allowance for doubtful accounts Net operating loss, other losses and charitable contribution	**$**	**214,579**	$	254,563
carryforward		**2,197**		15,480
		216,776		270,043
Depreciation and amortization		**(163,677)**		(186,673)
Net deferred tax assets	**$**	**53,099**	$	83,370

In assessing the reliability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon generating future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible.

As of March 31, 2021 and 2020, management believes a valuation allowance for any deferred tax assets is not necessary as the value of deferred tax assets are expected be realized through profitability in subsequent years.

Note 6 – Related Party Transactions

The Company obtained consulting support services and related expenses from its parent company, Citisoft Plc, during the years ended March 31, 2021 and 2020 totaling $1,339,243 and $643,787, respectively. These services were in turn billed to the Company's customers in the amounts at which it was invoiced by Citisoft Plc. At March 31, 2021 and 2020, the Company was indebted to its parent company Citisoft Plc in the amount of $164,549 and $136,392 in connection with consulting support services.

Note 7 – Contingencies and Commitments

Real Estate Lease Agreement

The Company has an operating lease for its office premises through May 31, 2021. The Company is contingently liable for the performance of certain customary obligations associated with office premise leases and that performance is secured by a collateralized letter of credit issued by the Company's primary bank. Management fully expects to comply with all of the related lease obligations and provisions. Total rent expense including maintenance costs for the years ended March 31, 2021 and 2020 amounted to approximately $274,000 and $269,000, respectively.

On November 1, 2020, the Company entered into a one year agreement to lease office space in Canada through October 31, 2021. Prior to this agreement, the Company was a tenant-at-will making monthly rental payments of approximately $2,000. For the years ended March 31, 2021 and 2020, total rent expense amounted to approximately $16,400 and $23,300, respectively.

The future minimum rental payments required under the real estate lease agreements as of March 31, 2021 amounted to approximately $58,000.

Note 8 – Common Stock

As of March 31, 2021 and 2020, the Company has authorized 1,000 shares of common stock with a $0.01 par value, of which 1,000 shares were issued and outstanding. All of the outstanding shares are held by the parent company, Citisoft Plc.

Note 9 – Significant Customers and Vendors

During the years ended March 31, 2021 and 2020, approximately $9,500,000 and $6,790,000 of the Company's sales, excluding amounts billed for consulting revenue by affiliate, were to three and two customers, respectively. Amounts due from these customers and included in accounts receivable, trade, at March 31, 2021 and 2020 amounted to approximately $1,029,000 and $838,000, respectively.

As of March 31, 2021 and 2020, the Company had incurred fees from one significant service provider amounting to approximately $338,000 and $411,600, respectively. Amounts due to this vendor and included in accounts payable, trade at March 31, 2020, amounted to approximately $19,950. There were no amounts due to this vendor and included in accounts payable, trade at March 31, 2021.

Note 10 – Retirement Plan

Supplemental Executive Retirement Plan

The Company has in effect a non-qualified deferred compensation arrangement for certain select employees. All contributions made by the Company is subject to a four (4) year vesting period starting on the date the contribution was made and will be allocated to each participant's individual account within the Plan's investment account. As of March 31, 2021 and 2020, there were no amounts contributed to the plan by the Company. Contributions accumulated under the Plan are invested in marketable securities and are carried at fair market value, which as of March 31, 2021 and 2020 amounted to $951,505 and $651,074, respectively, and is included in investments on the accompanying balance sheets. (See Note 2).

Corporate Owned Incentive Life Insurance Plan

The Company has in effect a Nonqualified Deferred Pension Life Insurance plan (the "Plan") for all eligible employees. Each employee participant may elect to defer compensation to the Plan pre-tax, subject to Internal Revenue Service limitations.

While the Company expects to continue the Plan indefinitely, it has reserved the right to modify, amend or terminate the Plan. In the event of termination, the entire amount contributed under the Plan must be applied to the payment of benefits to the participants or to their beneficiaries, as defined in the Plan, of each participant.

Note 11 – Supplemental Disclosure Cash Flow Information

Cash paid for income taxes during the years ended March 31, 2021 and 2020 consists of the following:

		2021		2020
Income taxes, net	**$**	**9,478**	$	13,156

Note 12 – Subsequent Event

During March 2020, the World Health Organization has declared the coronavirus ("COVID-19") outbreak to constitute a "Public Health Emergency of International Concern." The COVID-19 outbreak has caused widespread disruption across a range of industries. The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on the Company's employees, customers and vendors all of which are uncertain and cannot be predicted. While the Company expects this matter to negatively impact its operating results, at the date the financial statements were available to be issued, the related impact and duration cannot be reasonably estimated.

DIRECTORS REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors present their annual report and the audited financial statements for the year ended 31 March 2021.

The directors' report has been prepared in accordance with the special provisions applicable to companies entitled to the small companies exemption.

PRINCIPAL ACTIVITY

The company's principal activity is to provide IT Services to the Healthcare and Government sectors in the UK.

DIVIDENDS AND TRANSFERS TO RESERVES

No dividend was paid in the year. The directors do not recommend the payment of any final dividend in respect of the current financial year.

DIRECTORS

The directors who served throughout the year and to the date of this report, unless otherwise stated, were:

Sujit Baksi

Vikram Narayanan Nair

Vivek Agarwal

GOING CONCERN

The Board of Directors are of the opinion that company will get future contracts, as the directors are currently pursuing to secure prospective customers. The directors have also received confirmation from its parent company, Tech Mahindra Limited, that it will redeem part of preference shares and remaining portion will be converted into equity when it will be due. Based on these, the directors are of the opinion that going concern basis is appropriate

DIRECTORS' RESPONSIBILITIES STATEMENT

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland". Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to: select suitable accounting policies and then apply them consistently; make judgements and accounting estimates that are reasonable and prudent; and prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

Each of the persons who is a director at the date of approval of this annual report confirms that:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- the director has taken all the steps that he ought to have taken as a director to make himself aware of any relevant audit information and to establish that the company's auditor is aware of that information. This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006

COVID 2019

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Approved by the Board of Directors and signed on behalf of the Board

Vivek Agarwal

REPORT OF THE INDEPENDENT AUDITORS TO THE MEMBERS OF NTH DIMENSION LIMITED

Opinion

We have audited the financial statements of Nth Dimension Limited (the 'company') for the year ended 31 March 2021 which comprise the Profit and loss account, Balance Sheet, Statement of Changes in Equity and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The impact of uncertainties due to the COVID19 pandemic on our audit

Uncertainties related to the effects of COVID19 are relevant to understanding our audit of the financial statements. All audits assess and challenge the reasonableness of estimates made by the directors, and related disclosures and the appropriateness of the going concern basis of preparation of the financial statements. All of these depend on assessments of the future economic environment and the company's future prospects and performance.

COVID19 is one of the most significant public health, social and economic event and at the date of this report, its effects are subject to unprecedented levels of uncertainty of outcomes, with the full range of possible effects unknown. We applied a standardise firm-wide approach in response to that uncertainty when assessing the company's future prospects and performance. However, no audit should be expected to predict the unknowable factors or all possible future implications for the company and this is particularly the case in relation to COVID19.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information in the Report of the Directors, but does not include the financial statements and our Report of the Auditors thereon.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Report of the Directors for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Report of the Directors has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Report of the Directors.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to prepare the financial statements in accordance with the small companies regime and take advantage of the small companies' exemption from the requirement to prepare a Strategic Report or in preparing the Report of the Directors.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement set out on page 332, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a Report of the Auditors that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

- Enquiries of management, concerning the company's policies and procedures relating to:
    - Identifying, evaluating and complying with laws and regulations and whether they were aware of any instances of non-compliance
    - Detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud.
- Discussions among the engagement team regarding how and where fraud might occur in the financial statements and any potential indicators of fraud.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override.

We also obtained an understanding of the legal and regulatory frameworks that the company operates in.

As a result of performing the above, we did not identify any key audit matters related to the potential risk of fraud or non-compliance.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our Report of the Auditors.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in a Report of the Auditors and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. ACCOUNTING POLICIES

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and preceding period.

General information and basis of accounting

Nth Dimension Limited is a company incorporated in the United Kingdom under the Companies Act.

The company is a private company limited by shares and is registered in England and Wales under company number 09593983. The address of the registered office is given on page 331.

The average monthly number of employees (including executive directors) was 5 (2020: 8).

The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102 (FRS 102). "The Financial Reporting Standard applicable in the UK and Republic of Ireland" issued by the Financial Reporting Council.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents the amount receivable for services rendered net of discounts and value added taxes.

The Company recognises revenue when the significant risks and rewards of ownership are considered to have been transferred to the buyer, the amount of revenue can be measured reliably, and it is probable that future economic benefits will flow to the entity.

Revenue from the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the fair value of the consideration received or receivable. Where a contract has only been partially completed at the balance sheet date turnover represents the fair value of the service provided to date based on the stage of completion of the contract activity at the balance sheet date. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors due within one year.

Revenue in respect of service fee income is recognised on an accruals basis at the rate and term specified in the agreement, considering the certainty of realisation.

All revenue is derived from continuing operations within the United Kingdom.

Interest income

Interest income is recognised using the effective interest rate method.

Going concern

The Board of Directors are of the opinion that company will get future contracts, as the directors are currently pursuing to secure prospective customers. The directors have also received confirmation from its parent company, Tech Mahindra Limited, that it will redeem part of preference shares and remaining portion will be converted into equity when it will be due. Based on these, the financial statements have been prepared on a going concern basis.

Foreign currency translation

In preparing the financial statements, transactions in currencies other than the functional currency of the individual entities (foreign currencies) are recognised at the spot rate at the dates of the transactions, or at an average rate where this rate approximates the actual rate at the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

i. Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument

Financial assets and liabilities are only offset in the balance sheet when, and only when there exists a legally enforceable right to set off the recognised amounts and the Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the following conditions are subsequently measured at amortised cost using the effective interest method:

(a) The contractual return to the holder is (i) a fixed amount; (ii) a positive fixed rate or a positive variable rate; or (iii) a combination of a positive or a negative fixed rate and a positive variable rate.

(b) The contract may provide for repayments of the principal or the return to the holder (but not both) to be linked to a single relevant observable index of general price inflation of the currency in which the debt instrument is denominated, provided such links are not leveraged.

(c) The contract may provide for a determinable variation of the return to the holder during the life of the instrument, provided that (i) the new rate satisfies condition (a) and the variation is not contingent on future events other than (1) a change of a contractual variable rate; (2) to protect the holder against credit deterioration of the issuer; (3) changes in levies applied by a central bank or arising from changes in relevant taxation or law; or (ii) the new rate is a market rate of interest and satisfies condition (a).

(d) There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current year or prior period.

(e) Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in levies applied by a central bank or arising from changes in relevant taxation or law.

(f) Contractual provisions may permit the extension of the term of the debt instrument, provided that the return to the holder and any other contractual provisions applicable during the extended term satisfy the conditions of paragraphs (a) to (c).

Debt instruments that have no stated interest rate (and do not constitute financing transaction) and are classified as payable or receivable within one year are initially measured at an undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

With the exception of some hedging instruments, other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Commitments to make and receive loans which meet the conditions mentioned above are measured at cost (which may be nil) less impairment.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Company transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Company, despite having retained some, but not all, significant risks and rewards of ownership, has transferred control of the asset to another party.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss as described below.

Non-financial assets

An asset is impaired where there is objective evidence that, as a result of one or more events that occurred after initial recognition, the estimated recoverable value of the asset has been reduced. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use.

Where indicators exist for a decrease in impairment loss, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised

Financial assets

For financial assets carried at amortised cost, the amount of impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Share Capital

Ordinary shares are classified as equity. Mandatorily redeemable Preference shares are classified as liabilities.

Borrowings

Redeemable Preference shares

Preference shares which are mandatorily reedemable on a specific date are classified as liabilities. The dividends on these shares are taken to Profit and loss acccount as finance expense.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax liabilities are recognised for timing differences arising from investments in subsidiaries and associates, except where the Company is able to control the reversal of the timing difference and it is probable that it will not reverse in the foreseeable future.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference.

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Company intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred tax assets and liabilities are offset only if: a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and b) the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Pensions

The company operates a defined contribution pension scheme. Contributions are recognised in the profit and loss account in the year in which they become payable in accordance with the rules of the scheme.

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The directors consider the critical judgement to relate to the impairment of financial assets, in particular trade receivables. The Company's management reviews periodically items classified as trade receivables to assess whether a provision for impairment should be recorded in the profit or loss. Management estimates the amount and timing of future cash flows when determining the level of provisions required. Such estimates are necessarily based on assumptions about several factors involving varying degrees of judgement and uncertainty

3. (LOSS) PROFIT BEFORE TAXATION

	Year ended 31 March 2021 £	Year ended 31 March 2020 £
(Loss) profit before taxation is stated after charging:		
Auditor's remuneration for audit related assurance services	6,750	6,460
Foreign currency profit / (losses)	216	(31,428)

4. DEFERRED TAX ASSET

	Year ended 31 March 2021 £	Year ended 31 March 2020 £
At 1 April 2020	3,375	3,375
Deferred tax charged to profit and loss account for the year	-	-
At 31 March 2021	**3,375**	**3,375**

The amounts of deferred tax provided in the accounts are as follows:

	2021 £	2020 £
Temporary timing differences	**3,375**	3,375

5. DEBTORS

	2021 £	2020 £
Due within one year:		
Trade debtors	104,009	798,998
Amounts owed by group undertakings	1,800,098	-
Other debtors	19,875	9,830

Amounts owed to group undertakings	-	204,000
Redeemable preference shares **(Note 7)**	2,499,990	2,499,990
	2,499,990	**2,703,990**

Amounts owed to group undertakings are not secured against any assets. Amounts owed to group undertakings relate to £0 (2020: £ 204,000) for trading activities with the balance due to financing arrangements.

7 PREFERENCE SHARES

On 15 May 2017, the company filed with UK Companies House for allotment of 2,499,990 Preference Shares of £1 each, amounting to £ 2,499,990. The preference shares were issued to Tech Mahindra Limited, holding company. The preference shares were not paid up as on 31st March 2018. The preference shared were fully paid up on 5th July 2018.

The preference shares carry a fixed cumulative cash preferential dividend at annual rate of 3% of the issue price per preference share in issue and to be paid on 31 December. The shares may be redeemed by the Investor, upon serving of Investor Redemption notice to the company, on or after the date of the fifth anniversary of the issue.

8. RELATED PARTY DISCLOSURES

The company has taken advantage of the exemption granted to wholly owned subsidiaries not to disclose transactions with other wholly owned group companies under the provisions of Section 33 of FRS 102 “Related Party Disclosures”.

9. CONTINGENT LIABILITY

In March /April 2019, the dismissed employees of the company, have filed a case, of unfair dismissal against the company with the London Central Employment tribunal. They have claimed an amount to the tune of ~ £780,000 from the company towards compensation.

The directors of the company are of the view that the company had valid reasons of dismissal of the employees and as such do not acknowledge the claim as debt. The directors have decided to contest the claims as when the details of the proceedings are received.

Therefore, in the opinion of the directors, no provision is required in the accounts in respect of the amount of claim, legal costs and damages.

10. CONTROLLING PARTY

The immediate parent company and ultimate parent company is Tech Mahindra Limited, a Company incorporated in India. The registered address of Tech Mahindra Limited is Gateway Building, Apollo Bunder, Mumbai – 400 001, India.

The ultimate parent undertaking and the smallest and largest group to consolidate these financial statements is Tech Mahindra Limited. Copies of the Tech Mahindra Limited consolidated financial statements can be obtained at www.techmahindra.com or from the Company Secretary at Rajiv Gandhi Infotech Park, Phase III, Pune, India

Provision for Taxation	357,808,858	78,610,862
Deferred Taxes Charge/ (Credit)	7,650,690	36,625,717
Profit/ (Loss) after Tax	1,200,218,971	1,065,359,487
Profit /(Loss) Carried forward to Balance Sheet	1,200,218,971	1,065,359,487

DIVIDEND

The Board of Directors declared an Interim Dividend @ ₹ 900/- per equity share on the Face Value of ₹ 10/- during the financial year 2020-21. The dividend pay-out was ₹ 900 Mn. Your Directors are of the opinion that the said Interim Dividend be treated as final dividend for the financial year 2020-21.

TRANSFER OF UNCLAIMED DIVIDEND TO INVESTOR EDUCATION & PROTECTION FUND

Since there is no unpaid/unclaimed Dividend as on 31st March, 2021, the provisions of Section 125 of the Companies Act, 2013, read with rules framed there under, does not apply.

RESERVES

The Board does not propose to carry any amount to General Reserves of the Company.

BUSINESS OVERVIEW / STATE OF COMPANY'S AFFAIRS

The operational income during the financial year 2020-21 is ₹ 7,855 Mn against the previous year ₹ 7,634 Mn. The profit before tax is ₹ 1,566 Mn against the previous year ₹ 1,181 Mn.

The head count of the Company was 7801 in March 2021 vis a vis 7519 in March 2020.

During the year the Company has earned a mutual fund gain of ₹69 Mn. The Company invests all its surplus funds in debt (Liquid, Liquid Overnight schemes) funds which provide slightly better post tax yield than the traditional FDs or ICDs.

There are no changes in the nature of the business carried out by your Company during the period under review nor there any material changes or commitments affecting the financial position of the Company after the closure of the financial year of the Company and till the date of the subject Board Report.

MERGER SCHEME RELATED UPDATES

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Born Commerce Private Limited (Fellow Subsidiary) with its holding company Tech Mahindra Limited and their respective shareholders under the provisions of Section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal ("NCLT"), Mumbai. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Mumbai ('NCLT') is yet to approve the same, the Scheme is not yet effective.

There are no material orders passed by the regulators or courts or tribunals impacting the going concern status and operations of the Company.

Further no application against the Company has been filed or is pending under the Insolvency and Bankruptcy Code, 2016, nor the Company has done any one time settlement with any Bank or Financial institutions.

FIXED DEPOSITS

Your Company has not accepted any fixed deposits and, as such, no amount of principal or interest was outstanding as on the balance sheet date.

STATUTORY AUDITORS

The members at their meeting held on 12th July, 2018 appointed M/s B S R & Co. LLP, Chartered Accountants, [ICAI Firm Registration No. 101248W/W-100022] as the Statutory Auditors of the Company for the period of five years with effect from

Financial Year 2018-19 i.e. from the conclusion of the thirteen Annual General Meeting held in Financial year 2018-19 till the conclusion of the Annual General Meeting for the Financial Year 2022-23.

Pursuant to the amendment to Section 139 of the Companies Act, 2013 which was notified on May 7, 2018, ratification of appointment of Statutory Auditors at every AGM is no longer required.

There are no qualifications, reservation or adverse remark or disclaimer made in the audit report for the Financial Year 2020-21. Further there are no frauds reported by the auditors during the year under review.

The Company has received a certificate from M/s B S R & Co. LLP, Chartered Accountants to the effect that they are eligible in terms of Section 141 of the Companies Act, 2013 to act as statutory auditors of the Company.

SHARE CAPITAL

The Company has not issued any equity shares carrying differential rights, sweat equity shares, employee stock options nor provided money for purchase of its own shares by employees or by trustees for the benefit of employees during the financial year. The Company's paid up equity capital is ₹ 10,000,000/- comprising of 1,000,000 equity shares of Face Value ₹ 10/- each.

ANNUAL RETURN

Pursuant to the provisions of Section 134(3)(a) and Section 92(3) of the Act read with Rule 12 of the Companies (Management and Administration) Rules, 2014, the Annual Return of the Company for the Financial Year ended 31st March, 2021 is uploaded on the website of the Company and can be accessed at https://techmbs.in/about-tech-mahindra-business-services/compliance-and-policies

CORPORATE SOCIAL RESPONSIBILITY (CSR)

Your Company is committed to play its role as an enlightened corporate citizen. The CSR vision of the Company is "Empowerment through Education."

Pursuant to the guidelines prescribed under Section 135 of the Companies Act, 2013 your Board has formed a CORPORATE SOCIAL RESPONSIBILITY (CSR) Committee and the CSR Policy as recommended by the CSR Committee was also approved by the Board. The policy is uploaded on the web site of the Company.

The disclosures as per Companies (Corporate Social Responsibility Policy) Rules, 2014, as amended from time to time is forming part of the Board's report as **Annexure 1.**

DIRECTORS

Pursuant to the provisions of Section 152(6)(c) of the Companies Act 2013, Mr. Birendrakumar Sen, Director is liable to retire by rotation and being eligible offers himself for reappointment.

During the year Mr. Mahesh Kulkarni resigned from the post of Company Secretary of the Company on 31st January 2021.

BOARD AND COMMITTEES OF BOARD

The Ministry of Corporate Affairs by its Notification dated 13th July, 2017 amended Rule 6 of the Companies (Meetings of Board and its Powers) Rules, 2014 and Rule 4 of Companies (Appointment and Qualification of Directors) Rules, 2014. The provisions in respect of appointment of independent directors on the board of unlisted wholly owned subsidiary Company are no more applicable.

Also such unlisted wholly owned subsidiary Company need not constitute/have Audit Committee and Nomination & Remuneration Committee of the Board.

The CSR Committee of the Company comprises of following members Mr. Manoj Bhat, Mr. Birendra Sen and Ms. Suchitra Kerkar. During the Financial year 2020-21, 1 (One) meeting of the CSR Committee was held on 22nd April, 2020.

During the Financial Year 2020-21, 5 (five) Board meetings were held on 22.04.2020, 22.07.2020, 19.10.2020, 21.01.2021 and 29.01.2021. The Governance Policies comprising of Policy on Appointment and removal of Directors, Policy on Remuneration to the Directors and other Employees is available on the web site of the Company.

STATEMENT OF COMPLIANCE WITH APPLICABLE SECRETARIAL STANDARDS

Your Directors state that the Company has complied with the applicable Secretarial Standards during the year under review.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS UNDER SECTION 186

The Company has not given any loans or guarantees under Section 186 of the Companies Act, 2013. Investments made are within the limits provided under Section 186.

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

All transactions entered into with Related Parties as defined under the Companies Act, 2013 during the financial year were in the ordinary course of business and on an arm's length pricing basis and do not attract the provisions of Section 188 of the Companies Act, 2013. Suitable disclosure as required by the Accounting Standards (AS18) has been made in the notes to the Financial Statements. The particulars of related party transactions in prescribed **Form AOC -2** is annexed herewith as **Annexure 2**.

PARTICULARS OF EMPLOYEES

The information required under Rule 5(2) & of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 forms part of this Report. However, pursuant to first proviso to Section 136(1) of the Act, this Report is being sent to the Shareholders excluding the aforesaid information. Any shareholder interested in obtaining said information, may write to the Company Secretary at the Registered Office / Corporate Office of the Company and the said information is open for inspection at the Registered Office of the Company.

SECRETARIAL AUDIT REPORT

Pursuant to the provisions of Section 204 of the Companies Act, 2013 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Secretarial Audit Report given by Mr. Yogesh Kandalgaonkar, Practising Company Secretary, Pune is annexed with the Board's Report as **Annexure 3**. The Secretarial Audit report is unqualified and without any reservation or adverse remark.

COST RECORDS AND AUDIT

Maintenance of cost records and requirement of cost audit as prescribed under the provisions of Section 148(1) of the Companies Act, 2013 are not applicable for the business activities carried out by the Company.

RISK MANAGEMENT POLICY

The Company believes that it operates in a business environment that is characterized by increasing globalization of markets, intensifying competition and is exposed to multiple risks in the ordinary course of business. This is inevitable, as there can be no entrepreneurial activity without the acceptance of risks and associated profit opportunities.

The Company's risk management objectives are:

- Identify and manage existing and new risks in a planned and coordinated manner with the minimum of disruption and cost.
- Develop a "risk" culture that encourages all staff to identify risks and associated opportunities and to respond to them with effective action plans.

Risk identification refers not only to the systematic identification of risks but also to the identification of their root causes & impact. It is a continuous process for existing as well as new risks emerging out of evolving business dynamics.

The Company follows a process of identifying any risks and communicates the same to the Risk Management Oversight Committee (RMOC) through Risk Managers for monitoring.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

Your Company has an adequate system of internal controls commensurate with its size and the nature of its business. It ensures that transactions are authorized, recorded, and reported correctly apart from safeguarding its assets against loss from wastage, unauthorized use and disposition.

The internal control system is supplemented by well documented policies, guidelines and procedures. The Purpose of the internal audit is to provide independent and objective reviews on a continuous basis with assessments of the policies, business activities, operations, systems and controls followed within the Company to add value, improve processes and assist the organisation to achieve its goals and objectives. The Internal audit scope is prepared in accordance with the internal policy and processes as well as external regulatory and other compliances.

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to provisions of Section 134(5) of the Companies Act, 2013, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

(i) in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

(ii) the directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit of the Company for that period;

(iii) the directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(iv) the directors have prepared the annual accounts on a going concern basis;

(v) the directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

HUMAN RESOURCE MANAGEMENT

Employees are the core of our business and are our most valuable assets. Our Focus is to deliver Fantastic People Experience for all our employees. We are proud winners of three consecutive wins of the Gallup Great Workplace Awards. We are amongst the Top 40 organizations worldwide to be recognized for our cutting-edge Best People Practices.

We have successfully sustained and enhanced our organization's culture through employee initiatives such as Employee Assistance Program, Helping Hands, Diversity and Inclusive program, Gift a Leave, Fun Days, Celebration of Festivals, Focus on Development, Employee Growth Initiatives, Employee Surveys, monthly performance management incentives for advisors and contemporary learning and development initiatives. During 2020 we have taken several initiatives like Flexible Working, Reimbursement of Internet Allowance, Antigen Testing, Online Champaign to increase awareness on Covid 19, myths and precautions etc. and kept employee wellness as out top most priority.

During the year we have hired around 2778 employees, with around 99.96% sourced through internal channels, this having a very positive impact of an overall reduction in recruitment costs. Through our multipronged people management strategy we have been able to nurture talent and have created opportunities for both personal and professional growth across the organization and the group for our employees.

POLICY FOR PREVENTION OF SEXUAL HARASSMENT

The Company has in place an Anti-Sexual Harassment Policy in line with the requirements of The Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act; 2013.All employees (permanent, contractual, temporary, trainees) are covered under this policy.

Your Directors state that during the year under review, there were no cases filed pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION & FOREIGN EXCHANGE EARNINGS AND OUTGO

1. Conservation of Energy & Technology Absorption

The Company being in the service industry, the rules pertaining to conservation of energy does not apply to the Company. The Company is constantly acquiring new hardware and software solutions and upgrading its existing hardware and software to provide more and better services to its customers.

2. Foreign Exchange earnings and outgo

The foreign exchange earnings of your Company during the year were ₹ 7,855 Mn. (Previous Year - ₹7,634 Mn.) while the outgoings were ₹ 506 Mn. (Previous Year - ₹ 650 Mn).

ACKNOWLEDGEMENTS

Your Directors gratefully acknowledge the contributions made by employees towards the success of your Company. Your Directors are also thankful for the co-operation and assistance received from its customers, vendors, bankers, STPI, Excise authorities and other regulatory and governmental authorities in India and abroad and its shareholders.

ANNEXURE 3

Form No. MR-3
Secretarial Audit Report
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2021
[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Tech Mahindra Business Services Limited
Spectrum Towers, Mindspace Complex,
Off Link Road, Malad (West),
Mumbai 400064.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Tech Mahindra Business Services Limited (CIN: U72900MH2006PLC159149)**, (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the Financial Year ended on **31st March 2021** complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on **31st March 2021** according to the provisions of:

(i) The Companies Act, 2013 (the Act) and the Rules made thereunder;

(ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made thereunder (Not applicable to the Company during the audit period);

(iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder (The Company is an Unlisted Company and the shares of the Company are not in dematerialized form therefore provisions of the Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder are not applicable to the Company during the audit period);

(iv) Foreign Exchange Management Act, 1999 and the Rules and Regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings (Not applicable to the Company during the audit period);

(v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') are not applicable to the Company during the audit period as the Company is an unlisted Company:-

  (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

  (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;

  (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;

  (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;

  (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;

  (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with Client;

  (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009; and

  (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;

(vi) As informed to me, the Company has complied with the following laws applicable specifically to the Company during the audit period:

(a) the Information Technology Act, 2000;

(b) the Indian Telegraph Act, 1885.

I have also examined compliance with the applicable clauses of the following:

(i) Secretarial Standards (SS-1 and SS-2) issued by The Institute of Company Secretaries of India.

(ii) The Listing Agreements entered into by the Company with Stock Exchange(s) and The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. (Not applicable to the Company during the audit period as the Company is an unlisted Company.)

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors and Non-Executive Directors. There were no changes in the composition of the Board of Directors during the period under review.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, (one board meeting conducted at a shorter notice, for which all the directors consented unanimously), and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at the Board Meetings and Committee Meeting were carried out unanimously as recorded in the minutes of the respective meetings.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that during the audit period –

a. In accordance with the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013, the Board of Directors of the Company in its meeting held on 29th January 2021 approved the Scheme for Merger by Absorption of the Company (the “Transferor Company”) with its holding Company, Tech Mahindra Limited (“the Transferee Company”) and their respective Shareholders with Appointed Date as 1st April, 2021 subject to the approvals of Hon’ble National Company Law Tribunal (“NCLT”) Mumbai. The Transferor Company is a Wholly Owned Subsidiary of the Transferee Company.

This report is to be read with my letter of even date which is annexed as Annexure and forms an integral part of this report.

Annexure

To,
The Members,
Tech Mahindra Business Services Limited
Spectrum Towers, Mindspace Complex,
Off Link Road, Malad (West),
Mumbai 400064.

My report of even date is to be read along with this letter.

1. Maintenance of secretarial records is the responsibility of the Management of the Company. My responsibility is to express an opinion on these secretarial records based on audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test basis to ensure that correct facts are reflected in secretarial records. I believe that the process and practices, I followed provide a reasonable basis for my opinion.
3. I have not verified the correctness and appropriateness of financial records and books of accounts of the Company.
4. Wherever required, I have obtained the Management Representation about the compliance of laws, rules and regulations and happening of events, etc.
5. The compliance of the provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of Management. My examination was limited to the verification of procedures on test basis.
6. The Secretarial Audit report is neither an assurance as to the future viability of the Company nor of the efficacy or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT

To the Members of Tech Mahindra Business Services Limited

Report on the Audit of the Financial Statements Opinion

Opinion

We have audited the financial statements of Tech Mahindra Business Services Limited ("the Company"), which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditors' Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's Report, but does not include the financial statements and our auditors report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management's and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

    (A) As required by Section 143(3) of the Act, we report that:

    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

    c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

    e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

    (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its financial statements - Refer Note 23 to the financial statements;

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A to the Independent Auditors' report on the financial statements of Tech Mahindra Business Services Limited for the period ended 31 March 2021

With reference to the Annexure referred to in paragraph 1 in 'Report on Other Legal and Regulatory Requirements' of the Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March 2021, we report that:

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a regular program of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In accordance with the program, certain fixed assets were physically verified by the management during the year and no material discrepancies were noticed during such verification.

(c) According to the information and explanations given to us and on the basis of verification of records of the Company, the Company does not hold any immovable property. Accordingly, paragraph 3(i)(c) of the Order is not applicable to the Company.

(ii) The Company is a service company, primarily rendering call centre services. Accordingly, it does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable to the Company.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186, in respect of loans, investments, guarantees or security, as applicable.

(v) The Company has not accepted any deposits from the public in accordance with the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 of the Act and the rules made there under. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

(vi) In our opinion and according to information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act, for any of the services rendered by the Company. Accordingly, paragraph 3 (vi) of the Order is not applicable to the Company.

vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Employees' State Insurance, Goods and Services Tax, Customs Duty, Income Tax and other material statutory dues have been generally regularly deposited by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Goods and Services Tax, Customs Duty, Income Tax and other material statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable, except for the following:

Name of statute	**Nature of dues**	**Amount (₹ In Million)**	**Period to which the amount relates**	**Date of payment**
The Employees' Provident Fund and Miscellaneous Provisions Act, 1952	Employer and employee contribution to Provident fund	0.54	July 2017 to September 2020	Not paid

(b) According to the information and explanations given to us, there are no dues of Income Tax, Goods and Service Tax, Service Tax, Sales Tax, Value Added and Customs Duty Tax which have not been deposited with the appropriate authorities on account of any dispute, except for the following:

Name of statute	Nature of dues	Forum where dispute is pending	Amount unpaid (₹ In Million)	Period to which the amount relates
Income Tax Act, 1961	Income tax	Income Tax Appellate Tribunal	237	A.Y. 2009-10
Income Tax Act, 1961	Income tax	Income Tax Appellate Tribunal	377	A.Y. 2010-11
Income Tax Act, 1961	Income tax	Income Tax Appellate Tribunal	129	A.Y. 2011-12
Income Tax Act, 1961	Income tax	Income Tax Appellate Tribunal	17	A.Y. 2016-17
Income Tax Act, 1961	Income tax	Income Tax Appellate Tribunal	11	A.Y. 2017-18
Finance Act, 1994	Service tax	Commissioner of Service Tax	108*	F.Y. 2007-08 to 2017-18

* excluding interest but includes penalties

(viii) The Company has not taken any loans or borrowings from financial institutions, banks and government or has not issued any debentures. Hence reporting under clause 3 (viii) of the Order is not applicable to the Company.

(ix) In our opinion and according to the information and explanations given to us, the Company has not raised money by way of initial public offer or further public offer (including debt instruments) or term loans during the year. Accordingly, paragraph 3(ix) of the Order is not applicable to the Company.

(x) According to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanation given to us and based on our examination of the records of the Company, the Company has paid/provided managerial remuneration in accordance with requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company as per the Act. Accordingly, paragraph 3(xii) of the Order is not applicable to the Company.

(xiii) According to the information and explanations given to us, the provisions of Section 177 of the Act are not applicable to the Company. In our opinion and according to the information and explanation given to us and based on our examination of the records of the Company, all transactions with related parties are in compliance with Section 188 of the Act, where applicable, and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partially convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable to the Company.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with them during the year. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) In our opinion and according to the information and explanations given to us, the Company is not required to register under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditors' report on the financial statements of Tech Mahindra Business Services Limited for the period ended 31 March 2021.

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 1 (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Tech Mahindra Business Services Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate..

A description of the purposes of each reserve within equity:

1. Capital Redemption Reserve pertains to nominal value of Redeemable Non Convertible preference shares redeemed out of profits. The nominal value of shares was transferred to Capital Redemption Reserves.
2. Retained Earnings- This represents the undistributed profits of the Company accumulated at the year end.
3. Cash Flow Hedge Reserve pertains to the portion of the gain or loss on the hedging instrument that is determined to be an effective hedge recognised in other comprehensive income.
4. The Board of Directors at their board meeting held on January 21, 2021 approved the interim dividend of ₹ 900 per equity share, which was paid on January 25, 2021 amounting to ₹900 million (March 31, 2020 ₹600 million) of which tax was deducted amounting to TDS of ₹68 million as per the provisions of section 194 of the Income Tax Act, 1961 (Dividend Distribution Tax March 31, 2020 ₹123 million).

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

1. Corporate Information:

Tech Mahindra Business Services Limited (the 'Company') head quartered in Mumbai, Maharashtra, India provides voice based call centre services to 'Hutchison 3G UK Limited', 'TPG Telecom Limited' (formerly known as Vodafone Hutchison Australia Pty Limited), 'Hutchison 3G Ireland Limited' and Tech Mahindra Limited.

The Company was converted from a Private Limited Company to a Public Limited Company with effect from December 27, 2012 and the name has been changed from Hutchison Global Services Limited to Tech Mahindra Business Services Limited with effect from July 13, 2013.The Company is now a 100% subsidiary of Tech Mahindra Limited. Also refer note 36 on scheme of merger.

2. Significant accounting policies:

2.1 Statement of Compliance:

These financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016, and other relevant provisions of the Companies Act, 2013.

Details of the Company's accounting policies are included in paragraph 2.

These financial statements were authorised and issued on April 19, 2021.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared on the historical cost basis and on an accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on their value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these financials statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are not based on observable market data (unobservable inputs) Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimated and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Income taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. The policy for the same has been explained under Note 2.12.

ii) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.14.

iii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.10.

iv) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer note 2.5 for detailed accounting policies on leases.

2.4 Property, Plant & Equipment and Other Intangible Assets:

Property, plant & equipment and other intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes

a) material cost, freight, installation cost, non-refundable duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

b) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life that has been assessed as under based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Equipments	3 to 4 years
Computer Hardware	4 years
Office Equipment	3 to 4 years
Furniture and Fixtures	3 to 6 years
Vehicles	4 years
Leasehold Improvements	Lower of lease period or expected occupancy.

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Project specific intangible assets are amortized over their estimated useful lives on a straight line basis or over the period of the license/project period, whichever is lower.

2.5 Leases:

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee:

At the inception of a contract, the Company assesses whether a contract, is or contains a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

i. The contract involves the use of an identified asset- this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;

ii. The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period; and

iii. The Company has the right of direct the use of the asset. The Company has this right when it has the decision making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:

   a) The Company has the right to operate the asset; or

   b) The Company designed the asset in a way that predetermines how and for what purposes it will be used.

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost at inception which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located, less any lease incentives received.

The right-of-use assets is subsequently depreciated using the straight line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjustment for certain remeasurement of the lease liability. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date of the lease, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments included in the measurement of lease liability fixed payments, including in-substance fixed payments, amounts expected to be paid under a residual value guarantee and the exercise price under a purchase option that the Company is reasonably certain to exercise and penalties for early termination of a lease unless the Company is certain not to terminate early. The lease liability is measured at amortised cost using the effective interest method. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset, or is recorded in statement of profit or loss if the carrying amount of the right-of-use asset has been reduced to zero

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company has not restated comparative information, instead, the cumulative effect of initially applying this standard has been recognised as an adjustment to the opening balance of retained earnings as on April 1, 2019.

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application. The Company has elected relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review and excluded initial direct costs from measuring the right of use asset at the date of initial application. The Company has used hindsight when determining the lease term if the contract contains options to extend or terminate the lease. The Company has used a single discount rate to a portfolio of leases with similar characteristics.

On transition, the Company recognised a lease liability measured at the present value of the remaining lease payments discounted using the lessee's incremental borrowing rate at the date of initial application. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee's incremental borrowing rate as at April 1, 2019. Accordingly, a right-of-use asset of ₹ 981 million and a corresponding lease liability of ₹ 1,055 million has been recognized. The cumulative effect on transition in retained earnings net off taxes is ₹ 74 million. The principal portion of the lease payments have been disclosed under cash flow from financing activities. The lease payments for operating leases as per Ind AS 17 - Leases, were earlier reported under cash flow from operating activities. The weighted average incremental borrowing rate of 6.96% has been applied to lease liabilities recognised in the balance sheet at the date of initial application.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

The difference between the future minimum lease rental commitments towards non-cancellable operating leases and finance leases as at March 31, 2019 compared to the lease liability as accounted as at April 1, 2019 is primarily due to, to discounting of the lease liabilities as per the requirement of Ind AS 116.

Lease Modification

For lease modifications, the Company has adopted practical expedient given in the amendments to IND AS 116, notified by Ministry of Corporate Affairs on 24 July 2020.

2.6 Impairment of Assets:

i) Financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default

events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into account historical credit loss experience adjusted for forward looking information.

For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime expected credit loss.

ii) Non-financial assets

The Company assesses long-lived assets such as property, plant, equipment and acquired intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets. The recoverable amount of an asset or cash generating unit is the higher of its fair value less cost of disposal (FVLCD) and its value-in-use (VIU). The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples.

If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the impairment losses previously recognized are reversed such that the asset is recognized at its recoverable amount but not exceeding written down value which would have been reported if the impairment losses had not been recognized initially.

2.7 Revenue recognition:

Revenue from information technology and business process outsourcing services include revenue earned from services rendered on ‘time and material’ basis and time bound fixed price engagements.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If invoicing is not consistent with value delivered, revenue is recognized as the services are performed. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognised on a straight□line basis over the specified period unless some other method better represents the manner in which services are performed.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability arises when there is Company’s obligation to transfer goods or services to a customer for which the entity has received consideration (“Advances from Customer”) or the amount is due from the customer (“Unearned Revenue”).

Disaggregation of revenue is reported under segment reporting.

Deferred contract costs are incremental costs of obtaining a contract which are recognised as assets and amortised over the tenure of the contract.

Dividend income is recognized when the Company’s right to receive dividend is established. Interest income is recognized using effective interest rate method.

2.8 Foreign currency transactions:

The functional currency of the Company is Indian Rupees (₹).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the statement of profit or loss.

2.9 Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit or loss (FVTPL) on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized to profit or loss.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses on remeasurement recognized in profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method or at FVTPL. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities and forecasted cash flows denominated in foreign currency. The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109 Financial Instruments.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under Hedging Reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in hedging reserve are reclassified to profit or loss in the same period in which gains / losses on the item hedged are recognized in the Statement of Profit or Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in hedging reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.10 Employee Benefits:

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the balance sheet date using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognised in profit or loss in the period of a plan amendment.

ii) Provident Fund:

The eligible employees of the Company are entitled to receive the benefits of provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary which are charged to the statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company.

The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

iii) Superannuation and ESIC:

Superannuation fund and employees' state insurance scheme (ESI), which are defined contribution schemes, are charged to the statement of profit and loss on accrual basis.

iv) Compensated absences:

The Company provides for compensated absences subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized based on the actuarial valuation as at the balance sheet date.

Actuarial gains and losses are recognised in full in in the Statement of Profit and Loss in the period in which they occur.

The company also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

2.11 Borrowing costs:

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to the statement of profit and loss.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.13 Earnings per Share:

Basic earnings / (loss) per share are calculated by dividing the net profit / (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the balance sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.14 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

Contingent liabilities and contingent assets are not recognised in the financial statements.

2.15 Recent Pronouncement :

The Ministry of Corporate Affairs (“MCA”) notifies new standard or amendments to the existing standards. There are no such notifications that are applicable for the Company from FY 2020-21 onwards.

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to

a) Change in existing presentation requirements items in Balance sheet, for eg. lease liabilities, security deposits, current maturities of long-term borrowings, effect of prior period errors on Equity Share capital.

b) Additional disclosure requirements in specified formats, for eg. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters, etc.

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions.

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel, etc.

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The amendments are extensive and the Company is evaluating the same.

* The figures in bracket indicate demands paid under disputes.

**There are no adjustment/addition been made in the assessment order by the Assessing Officer.

The Assessing Officer has inadvertently erred in computing total income of the Company. Due to incorrect computation of income, a demand has been raised on the Company. The Company has filed petition for rectification u/s 154 of the Income tax Act, 1961 and also filed appeal to the Commissioner of Income tax (Appeals).

excluding interest component.

iii. The Company is subject to legal proceedings and claims, which have arisen in the ordinary course of business. The Company's management does not reasonably expect that these legal actions, when ultimately concluded and determined, will have a material and adverse effect on the Company's results of operations or financial condition other than those for which provisions are already recorded in the financials statement.

iv. Bank guarantee outstanding as at March 31, 2021: ₹ 7 million (March 31, 2020 ₹ 7 million)

24. Details of employee benefits as required by the Ind AS 19 – Employee Benefits are as under:

i. **Defined Contribution Plan**

Contribution to Defined Contribution Plans recognized as expenses for the Year ended are as under:

Amount in ₹ Million

Particulars	**For the year ended March 31, 2021**	**For the year ended March 31, 2020**
Employer's Contribution to Provident Fund	**119**	108
Employer's Contribution to Employee's State Insurance	**4**	4

In addition to above mentioned defined contribution plan the Company pays employer contribution in Ireland as per local laws.

ii. **Defined Benefit Plan**

The benefit plan comprises of Gratuity. The Gratuity plan is unfunded. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method. Actuarial gains and losses in respect of defined benefit plans are recognised in other comprehensive income.

a) **Changes in the present value of defined benefit obligation**

Amount in ₹ Million

Particulars	**For the year ended March 31, 2021**	**For the year ended March 31, 2020**
Defined benefit obligation at the beginning of the period	**186**	156
Interest cost	**12**	10
Current Service Cost	**18**	16
Benefit Paid	**(12)**	(24)
Actuarial (Gain)/ loss arising from changes in demographic assumptions	**0**	0
Actuarial (Gain)/ loss arising from changes in financial assumptions	**8**	5
Actuarial (Gain)/ loss arising from experience adjustments	**2**	23
Projected benefit obligation, at the year ended	**214**	186

b) **Components of expenses recognized in the Statement of Profit and Loss:**

Amount in ₹ Million

Particulars	**For the year ended March 31, 2021**	**For the year ended March 31, 2020**
Interest cost	**12**	10
Service cost	**18**	16
Total	**30**	26

c) **Components of expenses recognized in other comprehensive income**

Amount in ₹ Million

Particulars	**For the year ended March 31, 2021**	**For the year ended March 31, 2020**
Actuarial (Gain)/ loss arising from changes in demographic assumptions		0
Actuarial (Gain)/ loss arising from changes in financial assumptions	**8**	5
Actuarial (Gain)/ loss arising from experience adjustments	**2**	23
Total	**10**	28

d) **Actuarial Assumptions**

Particulars	As at	
	March 31, 2021	March 31, 2020
Discount Rate (per annum)	**5.4%**	6.3%
Salary Escalation Rate (per annum)	**7%**	7%
Attrition Rate	**0% to 58%**	0% to 58%
Mortality Rate	**Indian Assured Lives Mortality (2006-08) Ult**	Indian Assured Lives Mortality (2006-08) Ult

The estimates of future salary escalations considered in actuarial valuation, takes into account inflation, seniority, promotions and other relevant factors, such as demand and supply in the employment market.

e) The significant actuarial assumptions for the determination of the defined benefit obligations are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

If the discount rate increases (decreases) by 0.50%, the defined benefit obligations would decrease by 5 million (increase by 5 million) as of March 31, 2021

If the expected salary growth increases (decreases) by 0.50%, the defined benefit obligations would increase by 5 million (decrease by 5 million) as of March 31, 2021.

f) **Expected benefit payments for the year ended**

Amount in ₹ Million

March 31, 2022	59
March 31, 2023	44
March 31, 2024	34
March 31, 2025	26
March 31, 2026	22
March 31, 2027 to March 31, 2031	93

iii. The Code on Social Security 2020

The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent on 28th September 2020 and has been published in the Gazette of India. The effective date from which the changes are applicable is yet to be notified. The Ministry of Labour And Employment has issued draft rules under the Code on Social Security, 2020 on 13th November 2020 and invited suggestions. The Company will assess the impact and complete the evaluation once the rules are notified and will provide a disclosure of the impact in its financial statements in the period in which, the Code becomes effective and the related rules are notified.

25. Payment to auditors (net of taxes for which input credit is availed)

Amount in ₹ Million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Audit Fees (including quarterly audits)	**5**	4
For Other services	**0**	2
Total	**5**	6

26. Financial Instruments

The Company is exposed primarily to fluctuations in foreign currency exchange rates, credit risk and liquidity risk, which may impact the fair value of its financial instruments. The Company assesses the unpredictability of the financial environment and seeks to mitigate potential effects on the financial performance of the Company. The Company's Board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions

Financial instruments by category

The carrying value of financial instruments by categories as of March 31, 2021 are as follows:

Amount in ₹ Million

	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised Cost	Total Carrying Value	Total fair Value
Assets:

Total	**-**	**-**	**9**	**2,750**	**2,759**	**2,759**

Fair value hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level-2 – Inputs other than quoted prices included within level-1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level- 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data

Amount in ₹ Million

As at March 31, 2021	**Level 1**	**Level 2**	**Level 3**	**Total**

Financial Liabilities:				
Other Financial Liabilities	-	9	-	9
Total	**-**	**9**	**-**	**9**

Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms and conditions.

The Company's financial instruments that are subject to credit risk predominantly consist of trade receivables, unbilled revenue, mutual fund investment, forward contracts, cash and cash equivalent and other financial assets.

The Company invests only in debt mutual funds with top mutual funds houses having very good credit rating and having a good Assets under Management.

The credit terms agreed with the customer is 30-45 days and the average collection period of the Company is around 35 days. Over the last 10 years, the Company has never faced any credit default from its customers, it has always received full realization of all its invoices.

The counterparty for the forward contracts booked is normally a bank with a high quality credit rating. The Company books plain vanilla forward contract to protect its exchange rate risk.

Exposure to Credit Risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was ₹ 4,001 Million and ₹ 3,792 Million as of March 31, 2021 and March 31, 2020 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, other balance with banks, and other financial assets.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company would have to pay if the guarantee is called on.

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each Balance Sheet date whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. As on March 31, 2021 and March 31, 2020 expected credit loss provision is ₹ Nil.

Market Risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company exposure to market risk is primarily on account of foreign currency exchange rate risk and mutual fund price risk.

i. Foreign Currency Exposures

The Company's revenue is denominated in GBP, AUD, NZD, USD and EUR. The majority of the costs are in Indian Rupees. This exposes the company to currency fluctuation. The Company monitors and manages the financial risk relating to its operations by analysing its foreign exchange exposure by the level and extent of currency risks

Amount in ₹ Million

Particulars	Foreign Currency Amount		Indian Rupees Equivalent	
	As at March 31, 2021	As at March 31, 2020	**As at March 31, 2021**	As at March 31, 2020
Trade Payable	**USD 0**	USD 0	**27**	7
Trade Payable	**EUR 0**	EUR 0	**8**	15
Trade Payable	**GBP 0**	GBP 0	**30**	26
Trade Payable	**NZD -**	NZD 0	**-**	2
Trade Receivables	**AUD 6**	AUD 6	**328**	278
Trade Receivables	**EUR 1**	EUR 2	**75**	192
Trade Receivables	**GBP 9**	GBP 4	**863**	410
Trade Receivables	**NZD 1**	NZD 1	**36**	68

Forward Exchange / Contracts

The Company's revenue is denominated in GBP, AUD, NZD and EUR. The majority of the costs are in Indian Rupees. This exposes the Company to currency fluctuation.

The Company monitors and manages the financial risk relating to its operations by analysing its foreign exchange exposure by the level and extent of currency risks.

The Company uses derivative financial instruments governed by the policies approved by the Board such as forward to manage and mitigate its foreign currency exposure. The Company has a risk management policy approved and adopted by the Board, which is used to hedge forex fluctuation. The counterparty is generally a bank. The Company can enter into a contract for 1 day to 3 years depending on the nature of forex billing.

The following are outstanding currency exchange forward contracts, which have been designated as cash flow hedges as of:

As at March 31, 2021

Foreign Currency	Amount of contracts (In million)	Fair value (₹ in million) (Gain)/Loss
AUD / INR	**6**	**(2)**
EUR / INR	**4**	**(10)**
GBP / INR	**32**	**166**

As at March 31, 2020

Foreign Currency	Amount of contracts (In million)	Fair value (₹ in million) (Gain)/Loss
AUD / INR	6	(2)
EUR / INR	5	2
GBP / INR	8	4

The movement in Hedging Reserve for derivatives designated as Cash Flow Hedges is as follows:

Amount in ₹ Million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Credit /(Debit) balance at the beginning of the year	**11**	48
Changes in the fair value of the effective portion of cash flow Hedges	**(110)**	(56)
Tax impact on effective portion of outstanding cash flow hedges	**28**	19
Credit / (Debit) balance at the end of the year	**(71)**	11

Net loss on derivative instruments of ₹ 113 million recognized in Hedging Reserve as at March 31, 2021, is expected to be transferred to the statement of profit and loss by March 31, 2022.

Impact of COVID-19 (Global pandemic)

The Company basis their assessment believes that the probability of the occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The Company has also considered the effect of changes, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness. There is no impact on effectiveness of its hedges.

ii. Interest Rate Risk

The Company’s investment is primarily in Debt Mutual Funds, hence the Company is not significantly exposed to interest rate risk

iii. **Liquidity risk**

Liquidity risk refers to the risk that the Company cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

The Company has always generated sufficient cash flows from its operations to meet its financial obligations as and when they fall due.

As at March 31, 2021

Total	**9**	**-**	**-**	**-**	**9**

27. Disclosures for Revenue from Contracts with Customers

i. Performance obligations and remaining performance obligations

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognized as of the end of the reporting period and an explanation as to when the Company expects to recognize these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, and adjustments for revenue that has not materialized and adjustments for currency

The aggregate value of performance obligations that are completely or partially unsatisfied as of March 31, 2021, other than those meeting the exclusion criteria mentioned above, is ₹ 32,152 million. Out of this, the Company expects to recognize revenue of around 22% within the next one year and the remaining thereafter. This includes contracts that can be terminated for convenience without a substantive penalty since, based on current assessments the occurrence of the same is expected to be remote.

ii. Contract assets and liabilities

The contract assets primarily relate to Company's rights to consideration for work completed but not billed at the reporting date due to contractual terms. The contract assets are transferred to receivables when the rights become unconditional.

The contract liabilities primarily relate to the advance consideration received from customers. Revenue is recognized from the contract liability amounts as and when services are delivered and related performance obligations satisfied. The unused credit or balance is deferred until used by the customer or expired.

Significant changes in the contract liabilities balances during the year ended March 31, 2021 as follows:

Amount in ₹ Million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Contract liabilities:		
Opening Balance	**35**	39
Less: Revenue recognised during the reporting period	**(38)**	(35)
Add: Invoiced during the period but, not recognised as revenues	**126**	35
Add: Transaction loss/ (Gain)	**0**	(4)
Closing Balance	**123**	35

iii. **Contract Price**

The following table provides information in respect of amount of revenue recognized in the statement of profit and loss with the contracted price showing separately each of the adjustments made to the contract price:

Amount in ₹ Million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Contracted transaction for the year ended	**8,051**	7,806
Less: Adjustment for upfront discount and rebate	**(196)**	(172)
Revenue recognized in the statement of profit and loss for the year ended	**7,855**	7,634

28. Earnings Per Share is calculated as follows:

₹ in Million except earnings per share

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Net Profit attributable to shareholders	**1,200**	1,066
Equity Shares outstanding as at the end of the period (in nos.)	**1,000,000**	1,000,000
Weighted average Equity Shares outstanding as at the end of the period in nos.)	**1,000,000**	1,000,000
Weighted average number of Equity Shares used as denominator for calculating Basic Earnings Per Share	**1,000,000**	1,000,000
Number of Equity Shares used as denominator for calculating Diluted Earnings Per Share	**1,000,000**	1,000,000
Nominal Value per Equity Share (in ₹)	**10.00**	10.00
Earnings Per Share		
Earnings Per Share (Basic) (in ₹)	**1,200**	1,066
Earnings Per Share (Diluted) (in ₹)	**1,200**	1,066

29. Segment Reporting

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers.

Based on the "management approach" as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented business segments and geographic segments.

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker monitors the operating results of the Company's business as single segment.

Business Segment:

The Company is engaged in the business of providing voice based call centre services. As the Company is engaged in only one business segment, the Balance Sheet as at March 31, 2021, Statement of Profit, and Loss for the year ended then pertain to only one business segment.

Geographical Segments:

Amount in ₹ Million

Sr. No	Particulars	Within India	Outside India	Total
1	Segment revenue by location of customers	**23** [5]*	**7,832** [7,629]*	**7,855** [7,634]*
2	Carrying amount of segment asset (Gross)	**6,103** [6,595]*	**1,763** [1,294]*	**7,866** [7,889]*
3	Additions to tangible and intangible assets	**7,866** [7,889]*	**10** [17]*	**568** [762]*

*Figures in bracket refer to amount for the year ended March 31, 2020 for revenue and assets.

During the year ended March 31, 2021, three customers with total revenue of ₹ 7,832 million individually accounted for more than 10% of the revenue. Geographies contributed more than 10% of total revenue are as below:

Amount in ₹ Million

Sr. No	Countries	For the year ended March 31, 2021	For the year ended March 31, 2020
1	United Kingdom	**5,620**	4,778
2	Australia	**1,186**	1,587
3	Ireland	**1,026**	1,163
4	India	**23**	5
5	Rest of World	**-**	101

30. Related Party Disclosures

As required by Ind AS 24 - Related Party Disclosures, following are details of transactions during the year ended March 31, 2021 and outstanding balances as of that date with the related parties of the Company as defined in Ind AS 24:

Names of related parties and nature of relationship:

(iv) Interest paid to suppliers under MSMED Act (other than Section 16)	**-**	-
(v) Interest paid to suppliers under MSMED Act (Section 16)	**-**	-
(vi) Interest due and payable towards suppliers under MSMED Act for payments already made		
(vi) Interest accrued and remaining unpaid at the end of the year / year to suppliers under MSMED Act	**-**	-
Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified based on information collected by the Management. The auditors have relied upon this.		

36. Proposed Scheme of Merger by Absorption

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Born Commerce Private Limited (Fellow Subsidiary) with its Holding Company i.e. Tech Mahindra Limited and their respective shareholders under the provisions of section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal ("NCLT"), Mumbai. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Mumbai ('NCLT') is yet to approve the same, the Scheme is not yet effective.

Once this Scheme comes into effect, the Company will stand dissolved without winding-up. The entire business and whole of the Undertaking of the Company shall be and stand vested in or be deemed to have been vested in the Holding Company, as a going concern.

37. Previous year figures have been regrouped wherever necessary, to correspond with the current period's classification / disclosure.

BOARD OF DIRECTORS REPORT

The Board of Directors of Tech Mahindra Sweden AB, Stockholm, hereby issue the Annual Report for the financial year April 1, 2020 - March 31, 2021

The annual reports are stated in Swedish Kronor (SEK) and refer to the individual company Tech Mahindra Sweden AB.

Directors

The directors who served during the year were Mr. Kishan Kumar Chuckun, Mr. Gaurav Gupta, Mr. Rajesh Premraj Barwal – from 25th February 2021 and Mr. Meenakshi Sundaram Sankaralingam – upto 25th February 2021, vide Shareholders resolution dated 25th February 2021.

General Information about the business:

The company's business activities focus on providing consulting technology and outsourcing services to all the sectors.

In general, the company renders services to its parent company under Service Provider agreement. This form of transactions implies that the contracts are concluded between the parent company and the end customer. Sweden AB thereby acts as a sub-contractor for the parent company and does not bear any risks. The compensation for such services rendered is based on the reimbursement of cost incurred plus a mark-up.

The company's registered office is in Stockholm, Sweden.

Significant events during the financial year:

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and intangible assets. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established

AUDITOR'S REPORT

To the general meeting of the shareholders of Tech Mahindra Sweden AB, corp. id 559063-4043

REPORT ON THE ANNUAL ACCOUNTS

Opinions

We have audited the annual accounts of Tech Mahindra Sweden AB for the financial year 2020-04-01—2021-03-31.

In our opinion, the annual accounts have been prepared in accordance with the Annual Accounts Act, and present fairly, in all material respects, the financial position of Tech Mahindra Sweden AB as of 31 March 2021 and its financial performance for the year then ended in accordance with the Annual Accounts Act. The statutory administration report is consistent with the other parts of the annual accounts.

We therefore recommend that the general meeting of shareholders adopts the income statement and balance sheet.

Basis for Opinions

We conducted our audit in accordance with International Standards on Auditing (ISA) and generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of Tech Mahindra Sweden AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of the annual accounts and that they give a fair presentation in accordance with the Annual Accounts Act. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts The Board of Directors and the Managing Director are responsible for the assessment of the company's ability to continue as a going concern. They disclose, as applicable, matters related to going concern and using the going concern basis of accounting. The going concern basis of accounting is however not applied if the Board of Directors and the Managing Director intend to liquidate the company, to cease operations, or has no realistic alternative but to do so.

Auditor's responsibility

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and generally accepted auditing standards in Sweden will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the company's internal control relevant to our audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors and the Managing Director.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's, use of the going concern basis of accounting in preparing the annual accounts. We also draw a conclusion, based on the audit evidence obtained, as to whether any material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures

are inadequate, to modify our opinion about the annual accounts. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We must inform the Board of Directors of, among other matters, the planned scope and timing of the audit. We must also inform of significant audit findings during our audit, including any significant deficiencies in internal control that we identified.

Report on other legal and regulatory requirements

Opinions

In addition to our audit of the annual accounts, we have also audited the administration of the Board of Directors and the Managing Director of Tech Mahindra Sweden AB for the financial year 2020-04-01—2021-03-31 and the proposed appropriations of the company's profit or loss.

We recommend to the general meeting of shareholders that the profit be appropriated in accordance with the proposal in the statutory administration report and that the member of the Board of Directors and the Managing Director be discharged from liability for the financial year.

Basis for Opinions

We conducted the audit in accordance with generally accepted auditing standards in Sweden. Our responsibilities under those standards are further described in the Auditor's Responsibilities section. We are independent of Tech Mahindra Sweden AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors is responsible for the proposal for appropriations of the company's profit or loss. At the proposal of a dividend, this includes an assessment of whether the dividend is justifiable considering the requirements which the company's type of operations, size and risks place on the size of the company's equity, consolidation requirements, liquidity and position in general.

The Board of Directors is responsible for the company's organization and the administration of the company's affairs. This includes among other things continuous assessment of the company's financial situation and ensuring that the company's organization is designed so that the accounting, management of assets and the company's financial affairs otherwise are controlled in a reassuring manner.

The Managing Director shall manage the ongoing administration according to the Board of Directors' guidelines and instructions and among other matters take measures that are necessary to fulfill the company's accounting in accordance with law and handle the management of assets in a reassuring manner.

Auditor's responsibility

Our objective concerning the audit of the administration, and thereby our opinion about discharge from liability, is to obtain audit evidence to assess with a reasonable degree of assurance whether the member of the Board of Directors or the Managing Director in any material respect:

- has undertaken any action or been guilty of any omission which can give rise to liability to the company, or
- in any other way has acted in contravention of the Companies Act, the Annual Accounts Act or the Articles of Association.

Our objective concerning the audit of the proposed appropriations of the company's profit or loss, and thereby our opinion about this, is to assess with reasonable degree of assurance whether the proposal is in accordance with the Companies Act.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with generally accepted auditing standards in Sweden will always detect actions or omissions that can give rise to liability to the company, or that the proposed appropriations of the company's profit or loss are not in accordance with the Companies Act.

As part of an audit in accordance with generally accepted auditing standards in Sweden, we exercise professional judgment and maintain professional scepticism throughout the audit. The examination of the administration and the proposed appropriations of the company's profit or loss is based primarily on the audit of the accounts. Additional audit procedures performed are based on our professional judgment with starting point in risk and materiality. This means that we focus the examination on such actions, areas and relationships that are material for the operations and where deviations and violations would have particular importance for the company's situation. We examine and test decisions undertaken, support for decisions, actions taken and other circumstances that are relevant to our opinion concerning discharge from liability.

As a basis for our opinion on the Board of Directors' proposed appropriations of the company's profit or loss we examined whether the proposal is in accordance with the Companies Act.

Criticism

The company has failed several times to perform its obligations to make timely payments of taxes and fees

NOTES TO ACCOUNT FOR THE YEAR ENDED 31 MARCH 2021

Note 1 Accounting policies

The financial statements have been prepared in accordance with the Annual Accounts Act and general advice from Swedish Accounting Standards Board BFNAR 2012:1 Annual accounts and consolidated accounts.

The policies are unchanged compared with the previous year.

Revenue recognition

Revenue relates to income from sub-contracting activities relating to rendering of IT services on behalf of the Parent Company 'Tech Mahindra Limited'.

Revenue is recognised on the basis of reimbursement of costs incurred plus markup.

Revenue is measured at the fair value of the consideration received or receivable.

Receivables

Receivables are recorded in the amounts at which they are expected to be received.

Other assets, provisions & liabilities

Other assets, provisions & liabilities are recorded at cost of acquisition unless otherwise stated below.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and bank balances which are recognised at nominal value.

Tangible Fixed Assets

Tangible Fixed Assets are recorded at cost of acquisition less accumulated depreciation and any write downs.

The assets are depreciated on straight line basis over the estimated useful life apart from land, which is not depreciated.

The useful life is reviewed at every balance sheet date. The useful life of computers and laptops is 3 years.

Other expenses

Other expenses are recognised in the same period as the revenue to which they relate.

Income taxes

Current tax is income tax for the current financial year that refers to the year's taxable earnings.

Current tax is stated at the probable amount according to the tax rates and tax rules applicable on the Balance Sheet date.

Foreign currency translation

Monetary receivables and liabilities in foreign currencies have been restated at the closing rate.

Exchange differences arising on settlement or restatement of monetary items are recognised in the income statement in the financial year in which they occur, either as an operating item or a financial item, on the basis of the underlying business transaction.

Note 2 Number of employees, benefits, loan to employees etc.

	31-Mar-2021	31-Mar-2020
Average number of employees:	14	16
The average number of employees is based on hours worked related to normal working hours paid for by the company.		

Note 3 Personnel costs

Payroll costs	2020/2021	2019/2020
Wages and salaries	10,152,264	24,598,463
Social security tax	3,260,471	8,728,377

DIRECTORS' REPORT

Your Directors present their Report together with the audited accounts of vCustomer Philippines, Inc. (vCPI) for the year ended March 31, 2021.

Financial Results (PHP):

For the years ended	**March 31, 2021 PHP**	March 31, 2020 PHP
Revenue	**333,410,777**	396,719,029
Profit	**12,847,826**	26,330,390

Review of Operations:

For the fiscal year ended March 31, 2021, vCPI reported revenue amounted to PHP 333,410,777, an decrease of PHP 63,308,252 over the last reporting year ended March 31, 2020. Profit/Loss for the fiscal year ended March 31, 2021 amounted to PHP 12,847,826, 51% decrease over the last reporting year.

Future Plans and Appropriations:

vCPI made a reversal of the Appropriated Retained Earnings of PHP 285,000,000 intended for the expansion projects due to the completion of the said projects. Additional appropriation of PHP 296,000,000 from its current retained earnings as at March 31, 2021 to be used by the Company for its expansion projects, office renovation and equipment upgrade in the year 2021 until 2022. vCPI is expecting engagement of additional account/clients and increase and employee headcount.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, Government Authorities and the shareholder/s for the co-operation and assistance received from them.

REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Stockholders
vCustomer Philippines, Inc. and a Subsidiary
3rd Floor, eCommerce Plaza, Eastwood Cyberpark
Quezon City , Philippines

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of vCustomer Philippines, Inc. and a Subsidiary (the “Group”), which comprise the consolidated statements of financial position as at March 31, 2021 and 2020, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years then ended, and notes, including significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group’s consolidated financial reporting process.

Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors’ report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the

audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audits. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Reporting Entity

vCustomer Philippines, Inc. (the “Parent Company”) was registered with the Securities and Exchange Commission (SEC) on February 24, 2010. The primary purpose of the Parent Company is to carry on the business of providing services to customers in any part of the world through any and all medium of communication including internet and telephone including management services, solutions to business problems, web designing, customer relations, development/ production of software and software systems, data warehousing, data mining, processing and analysis of software and software systems, consultancy and advisory services in software and software systems, without operating as a public utility; to carry on the business of data processing and analysis including assimilation, sorting, processing and communication of data and graphs, development of computer analysis, software development, data preparation and verification, data analysis, data transmission and computation through the computer or other devices encompassing digital, analog and graphic processes and any other information technology; and, to undertake merchandising and logistics activities in the areas of electronic commerce as well as other forms of commerce and commercial transactions and to undertake the operation and management of e-mail services centers, customer response centers, computer education and training centers for the foregoing operations, loyalty incentive and motivation programs, direct marketing activities, database management, back office support and all internet and web related work.

The Parent Company is a wholly-owned subsidiary of Tech Mahindra Limited

(the “Ultimate Parent”), a corporation organized and existing under the laws of India. The Parent Company’s registered business address is at 3rd Floor, eCommerce Plaza, Eastwood Cyberpark, Quezon City.

The consolidated financial statements include the accounts of the Parent Company and its wholly-owned subsidiary, vCustomer Philippines (Cebu), Inc.

(the “Subsidiary”), which is incorporated in the Philippines (collectively referred to as (the “Group”). The Subsidiary is engaged in the same business as the Parent Company.

2. Basis of Preparation

Statement of Compliance

The consolidated financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council (FRSC), consist of PFRSs, Philippine Accounting Standards (PASs), and Philippine Interpretations.

Basis of Measurement

The consolidated financial statements have been prepared on a historical cost basis of accounting except for retirement benefits obligation which is recognized at the present value of the defined benefits obligation.

Functional and Presentational Currency

These consolidated financial statements are presented in Philippine Peso, the currency of the primary economic environment in which the Group operates. All amounts are recorded in the nearest peso, except when otherwise indicated.

Authorization for the Issuance of the Consolidated Financial Statements

The accompanying consolidated financial statements of the Group as of and for the year ended March 31, 2021 was authorized for issue by the Board of Directors (BOD) on May 12, 2021.

3. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

In the application of the Group’s accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management have made in the process of applying the entity ‘s accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements.

Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Group, the functional currency of the Group has determined to be the Philippine Peso.

The Philippine Peso is the currency of the primary economic environment in which the Group operates. It is the currency that mainly influences the Group's cost of operation, and in effect, its revenue.

Determination of the Term and Discount Rate of Lease Arrangements

Where the Group is the lessee, management is required to make judgments about whether an arrangement contains a lease, the lease term and the appropriate discount rate to calculate the present value of the lease payments.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases entered into by the Group as lessee, management uses the incremental borrowing rate, being the rate that the Group would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group uses an approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Group and makes adjustments specific to the lease.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if it is reasonably certain that the lease will be extended

(or not terminated) and, as such, included within lease liabilities.

The Group normally considers in the assessment whether there are significant penalties to terminate, significant remaining value of leasehold improvements and historical lease durations, the costs and business disruption for replacing the leased asset, enforceability of the option, and business and other developments.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Group becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and is within the lessee's control.

Key Sources of Estimation Uncertainties

The following are key estimates concerning the future and other key sources of estimation uncertainty as at end of reporting period that have the most significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Impairment of Property and Equipment

The Group assesses at the end of each reporting period whether there is any indication that its property and equipment is impaired. The factors that the Group considers important which could trigger an impairment review include the following:

§ significant underperformance relative to the expected historical or projected future operating results;

§ significant changes in the manner of use of the acquired assets or the strategy for overall business; and

§ significant negative industry or economic trends.

Management assessed that there are no indicators of impairment affecting the noncurrent financial assets as at March 31, 2021 and 2020.

As at March 31, 2021 and 2020, the carrying amount of property and equipment amounted to P200,154,240 and P271,415,546, respectively (see Note 9).

Estimating Retirement Benefits Obligation

The present value of the retirement benefits obligation depends on a number of assumptions that are determined on an actuarial basis. The assumptions used in determining the net cost (income) for retirement benefits include the discount rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefits liability. Other key assumptions include future salary, mortality and attrition. Additional information is disclosed in Note 18.

Retirement benefits obligation amounted to P49,852,901 and P28,302,129 as at March 31, 2021 and 2020, respectively (see Note 18).

Provisions and Contingencies

The recognition of provisions on claims requires estimates and judgment regarding the timing and the amount of outflow of resources. Assessment's supported by internal and external legal counsel, where appropriate, determines whether it is probable that an outflow of resources will be required to settle an obligation. If this is the case, the best estimate of the outflow of resources is recognized.

As at March 31, 2021 and 2020, the Group's provision for probable losses amounted to nil (see Note 11).

4. Adoption of Amendments to Standards and Interpretations

Adoption of Amendments to Standards and Interpretations

The Group has adopted the following new standards and amendments to standards starting April 1, 2020 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption of these new and amendments to standards did not have any significant impact on the Group's consolidated financial statements.

Effective January 1, 2020

- Amendments to References to Conceptual Framework in PFRS Standards sets out amendments to PFRS Standards, their accompanying documents and PFRS practice statements to reflect the issuance of the revised Conceptual Framework for Financial Reporting in 2018 (2018 Conceptual Framework). The 2018 Conceptual Framework includes:

  - a new chapter on measurement;
  - guidance on reporting financial performance;
  - improved definitions of an asset and a liability, and guidance supporting these definitions; and
  - clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.

  Some standards, their accompanying documents and PFRS practice statements contain references to, or quotations from, the International Accounting Standards Committee's Framework for the Preparation and Presentation of Financial Statements adopted by the IASB in 2001 or the Conceptual Framework for Financial Reporting issued in 2010. The amendments update some of those references and quotations so that they refer to the 2018 Conceptual Framework and makes other amendments to clarify which version of the Conceptual Framework is referred to in particular documents.

- Definition of Material (Amendments to PAS 1, Presentation of Financial Statements and PAS 8). The amendments refine the definition of material. The amended definition of material states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify the definition of material and its application by:

  (a) raising the threshold at which information becomes material by replacing the term 'could influence' with 'could reasonably be expected to influence';

  (b) including the concept of 'obscuring information' alongside the concept of 'omitting' and 'misstating' information in the definition;

  (c) clarifying that the users to which the definition refers are the primary users of general-purpose financial statements referred to in the Conceptual Framework;

  (d) clarifying the explanatory paragraphs accompanying the definition; and

  (e) aligning the wording of the definition of material across PFRS and other publications.

The amendments are expected to help entities make better materiality judgements without substantively changing existing requirements.

Standards Issued but Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after April 1, 2020. However, the Group has not early adopted the following new or amended standards in preparing these financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Group's financial statements.

Effective June 1, 2020

- COVID-19-Related Rent Concessions (Amendment to PFRS 16, Leases). The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of

  COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient applies if:

- the revised consideration is substantially the same or less than the original consideration;
- the reduction in lease payments relates to payments due on or before

June 30, 2021; and,

- no other substantive changes have been made to the terms of the lease.

Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

Effective January 1, 2022

- Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, Inventories.

  The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

  For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statements of comprehensive income (loss). This disclosure is not required if such proceeds and cost are presented separately in the statements of comprehensive income (loss).

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37 Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract - i.e. it comprises both incremental costs and an allocation of other direct costs.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

  - Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to four standards:
  - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Amendment to PFRS 9, Financial Instruments). The amendment clarifies that for the purpose of performing the '10 per cent' test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.
  - Lease Incentives (Amendment to Illustrative Examples accompanying

PFRS 16). The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

Effective January 1, 2023

- Classification of Liabilities as Current or Non-current (Amendments to PAS 1, Presentation of Financial Statements). To promote consistency in application and clarify the requirements on determining whether a liability is current or

non-current, the amendments:

- removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;
- clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and
- clarified that settlement of a liability includes transferring a company's own equity instruments to the counterparty, but conversion options that are classified as equity do not affect classification of the liability as current or non-current.

  The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

  Deferral of the local implementation of Amendments to PFRS 10, Consolidated Financial Statements and PAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to PFRS 10 and PAS 28). The amendments address an inconsistency between the requirements in PFRS 10 and in PAS 28, in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

  The amendments require that a full gain or loss is recognized when a transaction involves a business (whether it is housed in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

  Originally, the amendments apply prospectively for annual periods beginning on or after January 1, 2016 with early adoption permitted. However, on

  January 13, 2016, the FRSC decided to postpone the effective date of these amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

5. Significant Accounting Policies

The Group has consistently applied the accounting policies to all years presented in these consolidated financial statements, unless otherwise stated.

Consolidation

The consolidated financial statements incorporate the financial amounts of the Parent Company and its subsidiary. A subsidiary is an entity over which the Parent Company has control. The Parent Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. A subsidiary is fully consolidated from the date that control commences until the date that control ceases. All intra-group transactions, balances, income and expenses are eliminated upon consolidation. Unrealized losses on intragroup transactions are eliminated, unless the transaction provides evidence of an impairment of the assets transferred.

The significant accounting policies and practices applied in the preparation of these consolidated financial statements are set forth to facilitate the understanding of data presented in these consolidated financial statements. These policies have been consistently applied to all years presented unless otherwise stated.

Financial Instruments

Financial Assets

Financial assets are recognized when the Group becomes a party to the contractual provisions of a financial instrument. Financial assets are derecognized when the rights to receive cash flows from the financial assets expire, or if the Group transfers the financial asset to another party and does not retain control or substantially all risks and rewards of the asset. Purchases and sales of financial assets in the normal course of business are accounted for at settlement date (i.e., the date that the asset is delivered to or by the Group). At initial recognition, the Group measures its financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset

Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated as fair value through profit or loss, includes transaction costs.

After initial recognition, the Group classifies its financial assets as subsequently measured at either i) amortized cost,

ii) fair value through other comprehensive income or iii) fair value through profit or loss on the basis of both:

The Group's business model for managing the financial assets.

The contractual cash flow characteristics of the financial asset.

Subsequent to initial recognition, financial assets are measured as described below. At each balance sheet date, the Group assesses whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognizes a loss allowance for expected credit losses for financial assets measured at either amortized costs or at fair value through other comprehensive income. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12 months of expected credit losses.

If, at the reporting date, the credit risk on a financial instrument has increased significantly since initial recognition, the Group measures the loss allowance for the financial instrument at an amount equal to the lifetime expected credit losses. The Group always measures the loss allowance at an amount equal to lifetime expected credit losses.

Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both i) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value plus transaction cost directly attributable to the asset. After initial recognition, the carrying amount of the financial asset measured at amortized cost is determined using the effective interest method, less any impairment losses.

Financial assets at amortized cost are classified as current assets when the Group expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

Cash and cash equivalents, trade and other receivables and refundable deposits are generally included in this category.

Cash includes cash on hand, cash in banks and cash equivalents.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Group classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Financial Liabilities

Financial liabilities are recognized when the Group becomes a party to the contractual provisions of a financial instrument. Financial liabilities are derecognized when the Group's obligations specified in the contract expire or are discharged or cancelled.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group generally classifies all financial liabilities as subsequently measured at amortized cost.

Financial liabilities are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade and other payables and lease liabilities are generally included in this category.

Prepaid Expenses and Other Current Assets

Prepayments represent expenses not yet incurred but already paid in cash. Prepayments are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as they are consumed in operations or expire with the passage of time.

Other current assets pertain to resources controlled by the Group as a result of past events and from which future economic benefits are expected to flow to the Group.

Prepaid expenses and other current assets are classified in the statements of financial position as current asset when the cost of services related to the prepaid expenses and other current assets are expected to be incurred within one year or the Group's normal operating cycle, whichever is longer. Otherwise, prepayments are classified as non-current assets.

Property and Equipment

Property and equipment are initially measured at cost. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- ` any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

At the end of each reporting period, items of property and equipment are measured at cost less any subsequent accumulated depreciation and impairment losses.

Subsequent expenditures relating to an item of property and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Group. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

	Number of Years
Office equipment	5
Communication equipment	3
Furniture and fixtures	3
Leasehold improvements	3 or lease term, whichever is shorter

Leasehold improvements are amortized over the improvements' useful life of three years or when shorter, the term of the relevant lease.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

At the end of each reporting period, the Group assesses whether there is any indication that any of its property and equipment is impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognized as an expense.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Intangible Assets

Intangible Asset Acquired Separately

Intangible assets are initially measured at cost. Subsequent to initial recognition, intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over the estimated useful lives. The estimated useful life and the amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Share Capital

Ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Retained Earnings

Retained earnings and deficit represent accumulated profits and losses earned and incurred by the Group. Retained earnings and deficit may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Group will be required to settle the obligation through an outflow of resources embodying economic benefits, and the amount of the obligation can be estimated reliably.

The amount of the provision recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. A provision is measured using the cash flows estimated to settle the present obligation. Its carrying amount is the present value of those cash flows.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the consolidated financial statements but are disclosed when an inflow of economic benefits is probable.

Employee Benefits

Short-Term Benefits

The Group recognizes a liability, net of amounts already paid, and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Post-Employment Benefits

Defined Benefit Plan

The Group classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), are reflected immediately in the consolidated statements of financial position with a charge or credit recognized in OCI in the period in which they occur. Remeasurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefits liability or asset.

Defined benefits costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurements.

The Group presents the first two components of defined benefits costs in profit or loss in the line item 'retirement benefits costs. Curtailment gains and losses are accounted for as past service costs.

The retirement benefits obligation recognized in the consolidated statements of financial position represents the liability of the Group for its post-employment benefits.

Compensated Leave Credits

The Group's net obligation in respect of accumulated leaves is the amount of future benefit that employees have earned in return for their services in the current and prior periods. This benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

Revenue Recognition

The Group identifies each distinct performance obligation to transfer services. The Group recognizes revenue when (or as) it satisfies a performance obligation by transferring the control of services to the customer. The transaction price is the amount of consideration the Group expects to receive under the arrangement. The Group concluded that it is acting as principal for its revenue arrangement.

Sale of Services

The Group provides services assistance to its Parent Group in the ordinary course of business. Such services are recognized as a performance obligation satisfied over time.

Expense Recognition

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or increase of liabilities that result in decrease in equity, other than those relating to distributions to equity participants.

Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

As a Lessee

The Group recognizes a ROU assets and a lease liabilities at the lease commencement date. The ROU assets are initially measured at cost, which comprises the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove or restore the underlying asset or the site on which it is located, less any incentives received.

The ROU assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the ROU assets or the end of lease term. The estimated useful lives of the ROU assets are determined on the same basis as those of property and equipment. In addition, the ROU assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liabilities.

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rates as the discount rate.

Lease payments included in the measurement of the lease liabilities comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liabilities are measured at amortized cost using the effective interest method. This are remeasured if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised

in-substance fixed lease payment. When the lease liabilities are remeasured in this way, a corresponding adjustment is made to the carrying amount of the ROU assets or is recorded in profit or loss if the carrying amount of the ROU assets has been reduced to zero.

The ROU assets and lease liabilities are presented in the consolidated statements of financial position separately from other assets and liabilities, respectively.

Foreign Currency

Transactions in currencies other than Philippine peso are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated In foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on retranslation are included in profit or loss for the year.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are not retranslated.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Group and a related party, regardless of whether a price is charged.

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and operating decisions. Such relationship also exists between and/or among entities under common control with the reporting enterprises and their key management personnel, directors, or its stockholders. Related parties may be individuals or corporate entities. In considering each possible related party relationships, attention is directed to the substance of the relationship, and not merely the legal form.

Income Taxes

Income tax expense recognized in the consolidated statements of comprehensive income of the Group represents the current tax expense and deferred tax expense.

Under the Group’s registration with the PEZA pursuant to the provisions of

R.A. No. 7916, The Special Economic Zone Act of 1995, the Group is subject to 5% final tax on gross income from PEZA-registered activities in lieu of payment of national and local taxes.

Uncertainties related to taxes that are not income taxes are recognized and measured in accordance with PAS 37, Provisions, Contingent Liabilities and Contingent Assets unless they are dealt with specifically in another standard.

If there is uncertainty about an income tax treatment, then the Group considers whether it is probable that a tax authority will accept the Group’s tax treatment included in its tax filing. The underlying assumption in the assessment is that a tax authority will examine all amounts reported and will have full knowledge of all relevant information.

Current Tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group’s liability for current tax is calculated using 5% of gross income earned from registered activities. For income other than its registered activities, tax rate is 30% or exempt when the activities are included under income tax holiday.

Deferred Tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Events After the Reporting Period

The Group identifies events after the end of each reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the consolidated financial statements are authorized for issue. The consolidated financial statements of the Group are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the consolidated notes to financial statements when material.

6. Cash and Cash Equivalents

This account consists of:

	Note	2021	2020
Cash on hand		**P120,000**	P120,000
Cash in banks	21, 22	**25,251,401**	184,463,780
Time deposits	21, 22	**597,312,000**	227,610,000
		P622,683,401	P412,193,780

Interest income on cash in banks and time deposits amounted to P356,974 in 2021 and P386,049 in 2020.

7. Trade and Other Receivables

This account consists of:

	Note	2021	2020
Trade receivables	13, 21, 22	**P193,047,854**	P152,039,122
Advances to employees		**8,277,875**	3,146,182
Advances to suppliers		**4,137,221**	-
Other receivable	13, 21, 22	**5,761,596**	-
		P211,224,546	P155,185,304

Trade receivables have an average credit terms of 60 days.

8. Prepaid Expenses and Other Current Assets

This account consists of:

	2021	2020
Prepaid insurance	**P9,956,308**	P14,782,450
Prepaid management services	**2,405,605**	2,405,605
Others	**3,691,047**	3,887,150
	P16,052,960	P21,075,205

Prepaid insurance pertains to the unamortized payments for the Health Maintenance Organization (HMO) coverage of the Group's employees. As at March 31, 2021, the HMO coverage is until November 30, 2021 and the noncurrent portion amounting to P11,863,007 is presented under "Other noncurrent asset" account in the consolidated statements of financial position.

Prepaid management services pertain to the payments made in advance by the Parent Company to Cloudwave for services such as recording of calls, media storage, multimedia work routing, etc. As at March 31, 2021 and 2020, the noncurrent portion amounting to P400,934 and P3,005,358, respectively, is presented under "Other noncurrent assets" account in the consolidated statements of financial position

Others include payment for the Group's program management services, advance payment for maintenance, advertising, subscription, transportation and travel, and membership fees of the Group..

9. Property and Equipment

The movements in this account are as follows:

2021	Leasehold Improvements	Office Equipment	Communication Equipment	Furniture and Fixtures	Total
Cost					
Balance at beginning of year	P339,934,582	P268,140,221	P129,104,345	P24,625,102	P761,804,250
Additions during the year	497,506	27,830,988	27,382,184	-	55,710,678
Balance at end of year	340,432,088	295,971,209	156,486,529	24,625,102	817,514,928

The depreciation is presented as part of the following:

	Note	**2021**	2020
Cost of services	15	**P100,593,882**	P64,714,712
Operating expenses	16	**26,378,102**	10,576,806
		P126,971,984	P75,291,518

10. Intangible Assets

Intangible assets pertain to capitalized computer software. The movements in the intangible assets account are as follows:

	Note	**2021**	2020
Cost			
Balance at beginning and end of year		**P2,483,438**	P2,483,438
Additions during the year		**6,250,045**	-
Balance at beginning of year		**8,733,483**	2,483,438
Accumulated Depreciation			
Balance at beginning of year		**2,475,660**	2,248,959
Amortization during the year	15, 16	**327,209**	226,701
Balance at end of year		**2,802,869**	2,475,660
Net Carrying Value		**P5,930,614**	P7,778

The amortization is presented as part of the following:

	Note	**2021**	2020
Cost of service	15	**P264,305**	P147,605
Operating expense	16	**62,904**	79,096
		P327,209	P226,701

11. Refundable Deposits

This account consists of:

	Note	**2021**	2020
Rental deposits	17	**P35,444,273**	P40,246,548
Guaranty deposit		**27,267,629**	27,267,629
Utility deposits		**480,950**	475,480
		63,192,852	67,989,657

	Note	2021	2020
Allowance for probable losses		**(27,267,629)**	(27,267,629)
	21, 22	**35,925,223**	40,722,028
Current portion		**(568,000)**	(118,000)
Noncurrent portion		**P35,357,223**	P40,604,028

Guaranty deposit pertains to the surety bond made to Department of Labor and Employment - National Labor Regulations Commission.

12. Trade and Other Payables

This account consists of:

	Note	2021	2020
Trade payable	21, 22	**P20,631,898**	P35,211,571
Salaries payable	21, 22	**78,739,721**	66,195,754
Accrued expenses	21, 22	**27,181,659**	22,720,198
Payable to government agencies		**12,241,949**	7,802,240
Withholding taxes		**1,921,951**	5,125,911
Sales tax payable		**1,345,152**	169,641
		P142,062,330	P137,225,315

Trade payables are normally on a 30-to-90-day credit terms.

The Group derecognized portion of salaries payable relating to long-outstanding unclaimed last pay of separated employees which the legal right to claim prescribed amounting to P5,081,074 in 2021 and P12,669,644 in 2020. These are presented as “Others” under “Other income (charges)” in the consolidated statements of comprehensive income.

Accrued expenses consist of electricity, legal fees, security services, consultancy, outside services, provision for leave encashment, etc. which are individually insignificant.

13. Related Party Transactions

The summary of the Group’s transactions and outstanding balances with related parties as at and for the years ended March 31, 2021 and 2020 are as follows:

			Outstanding Balance			
Category/ Transaction	**Year**	**Note**	**Amount**	**Trade Receivables**	**Terms**	**Conditions**
Ultimate Parent						
Service revenue	2021	a, 7	P1,734,622,026	P193,047,854	60 days; non- interest bearing	Unsecured; no impairment
	2020	a, 7	1,440,158,143	152,039,122		
Affiliate						
Service revenue	2021	b, 7	81,899,187	-	On demand	Unsecured; no impairment
Refundable deposits	2021	c, 17	5,761,596	5,761,596		
				P198,809,450		
				P152,039,122		

a. The Group entered into Service Agreements with vCustomer Services LLC (vSLLC), a company incorporated under the laws of the United States of America (USA), an affiliate, for an indefinite period unless mutually terminated, to provide web-based support (chat, email, fax); telephone support (voice); directory assistance; eCRM database management, eCRM database mining; web-based self-help solutions; remote website administration; remote back office support; remote system administration and technical help desk services through contact center representatives and such other functions as may be required in relation to the performance of its support function. vSLLC was merged with Tech Mahindra (Americas), Inc., a subsidiary of Tech Mahindra Limited (TML), on February 2, 2015. Accordingly, billings were made to TML subsequently.

b. The Subsidiary also entered into an agreement with Tech Mahindra Philippines wherein all cost incurred by the former (cost and operating expenses) in relation to the service it renders to the latter will be billed at ten percent (10%) mark-up rate.

c. The Parent Company has a refundable deposit amounting to P5,761,596 related to the additional office space at Ecommerce Building which was cancelled on March 31, 2019. As at March 31, 2020, such refundable deposit is recognized as part of “Refundable deposits - net of current portion” in the consolidated statements of financial position (see Note 11). As at March 31, 2021, the refundable deposit was transferred to Tech Mahindra Philippines, an affiliate, which subsequently occupied the additional office space (see Note 17).

d. Compensation of key management for the years ended March 31, 2021 and 2020 is as follows:

	2021	2020
Salaries	**P80,315,116**	P79,252,401
Retirement benefits costs	**10,431,316**	11,373,216
Allowance	**1,856,598**	2,240,158
Other employee benefits	**20,745,157**	15,196,035
	P113,348,187	P108,061,810

Other employee benefits include 13th month pay, performance bonus, leave encashment and other short-term benefits.

There are no other related party transactions.

14. Equity

Components of share capital are as follows:

	2021	2020
Authorized 1,000,000, issued, fully paid and outstanding: 950,000 ordinary shares - P10 par value	**P9,500,000**	P9,500,000

On March 31, 2021, the BOD approved the additional appropriation of P785,000,000 from its current retained earnings as at March 31, 2021 to be used by the Group for its business expansion projects for the year 2021 until 2024. Also, on the same date, the BOD approved the reversal of the appropriated retained earnings in 2020 of P655,000,000 intended for the expansion projects.

On March 31, 2020, the BOD approved an additional appropriation of P655,000,000 from the current retained earnings as at March 31, 2020 for business expansion projects from 2020 until 2023. Also, on the same date, the BOD approved the reversal of the P561,000,000 appropriation in 2019.

17. Lease Agreements

Parent Company

Office Space

3rd Floor, Ecommerce Plaza Building

On June 12, 2008, vCustomer Services India Pvt. Ltd. (“vCustomer India”) entered into a lease agreement for office space located at 3rd Floor, eCommerce Plaza Building Eastwood City Cyberpark, 188 E. Rodriguez Jr. Avenue, Bagumbayan Quezon City. The lease term is 5 years from September 10, 2008 to September 10, 2013 with a free fitting out period of 3 months and an option to renew for an additional 2 lease terms of 5 years each.

Effective April 1, 2010 the vCustomer India subsequently assigned its rights and interest on the lease to the Parent Company

In 2013, the Parent Company renewed the lease for 5 years from September 10, 2013 to September 9, 2018 and renewed it further in 2018 for another five years from September 10, 2018 to September 9, 2023.

2nd Floor, Ecommerce Plaza Building

On September 15, 2018, the Parent Company entered into a lease agreement for an additional office space. The lease term is for 5 years from September 16, 2018 to November 15, 2023.

The Parent Company and the lessor mutually agreed to cancel this lease effective

March 31, 2019. As a result, the Parent Company derecognized the carrying amount of the leasehold improvements. Also, the Parent Company derecognized the related obligation to the lessor amounting to P5,000,000, which represents the cost of leasehold improvements that the Company would pay the lessor under the lease agreement. As at March 31, 2020, refundable deposits from the lease agreement amounted to P5,761,596 (see Note 12.). As at March 31, 2021, these refundable deposits were transferred to Tech Mahindra Philippines which subsequently occupied the additional office space (see Note 14).

Subsidiary

JESA Building, Cebu City

The Subsidiary entered into lease agreements for the corporate office unit it occupies in Cebu City. The lease term for the corporate office unit cover ten years with a free fitting out period of three months and an option to extend for another ten years. The lease term is from April 1, 2011 to March 31, 2021. Future payments under these lease agreements are subject to escalation rate of fifteen percent (15%) after the first five years. The Subsidiary entered into an extension of the lease contract for additional spaces in the same building starting May 1, 2014 up to March 31, 2021. Escalation of three percent (3%) per year is effective starting May 1, 2015. Rent free construction period is for two months.

During the quarter ended September 30, 2014, the Subsidiary entered into a new lease agreement to occupy additional office unit in the same building. The lease term for the unit is from July 1, 2014 to March 31, 2021 with a rent-free construction period from July 1, 2014 to August 31, 2014.

The lease agreements in JESA Building are renewable upon mutual agreement of both the lessor and the lessee.

EBLOC Tower 3, Cebu IT Park, Cebu City

In 2015, the Subsidiary entered into a lease agreement for the office unit and parking spaces for its expansion project located in EBLOC Tower 3, Cebu IT Park, Cebu City. The lease term for office unit is from January 6, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting January 1, 2016.

On the same year, the Subsidiary entered into a new lease agreement to occupy additional office unit and parking spaces in the same building. The lease term is from May 14, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting May 14, 2016.

Another lease agreement was entered by the Subsidiary on the same building for the lease of additional office units and parking spaces. The lease term is from October 15, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting October 15, 2016.

In 2019, the Subsidiary entered into a new lease agreement to occupy additional office unit and parking spaces located on the same building. The lease term is from June 15, 2019 to June 14, 2024. The lease payment is fixed for the entire duration of the lease.

The lease agreements in EBLOC Tower 3 are renewable upon mutual agreement of both the lessor and the lessee.

Filinvest Cebu, Cyberzone Tower 2, Cebu City

In 2019, the Subsidiary entered into a new lease agreement to occupy office units located in Filinvest Cebu, Cyberzone Tower 2, Cebu City. The lease term is from September 1, 2019 to August 31, 2025 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting September 1, 2020.

During the year, the Subsidiary also entered into two new lease agreements on the same building for the lease of additional office units. One lease agreement has a lease term from October 1, 2019 to August 31, 2025 while the other lease agreement has a lease term from December 1, 2019 to August 25, 2025. Both the lease agreements have free rent for the first three months of the actual handover date and escalation of five percent (5%) per year effective October 1, 2020 and December 1, 2020, respectively.

The Subsidiary will have the right to renew the lease for two (2) further five-year (5) lease terms by sending a written notice to the lessor not less than six (6) months prior to expiry of the initial term of these lease agreements.

The details of the Group's ROU assets and lease liabilities for these leases as shown below:

I. ROU Assets

The movements as at March 31, 2021 and 2020 are as follows:

	Note	**2021**	2020
Cost			
Balance at beginning of year	3	**P488,489,375**	P206,794,700
Additions during the year		**-**	281,694,675
Balance at end of year		**488,489,375**	488,489,375
Accumulated Amortization			
Balance at beginning of year		**82,700,745**	-
Amortization	15, 16	**105,376,339**	82,700,745
Balance at end of year		**188,077,084**	82,700,745
Net Carrying Value		**P300,412,291**	P405,788,630

II. Lease Liabilities

The movements in lease liabilities as at March 31, 2021 and 2020 are as follows

	Note	**2021**	2020
Balance at the beginning	3	**P436,873,575**	P240,946,899
Additions		**-**	281,694,675
Accretion of interest expense	3	**20,389,855**	17,699,304
Repayments		**(120,849,739)**	(103,467,303)
Net carrying value	3	**336,413,691**	436,873,575
Current portion		**107,301,957**	(91,657,165)
Noncurrent portion		**P229,111,734**	P345,216,410

III. Amounts in Profit or Loss

Amounts recognized in statement of comprehensive income are as follows:

	Note	**2021**	2020
Amortization on ROU assets	15, 16	**P105,376,339**	P82,700,745
Accretion of interest		**20,389,855**	17,699,304
Rent expense relating to short-term leases	16	**180,000**	180,000

IV. Future Minimum Lease Payments

The maturity analysis on the undiscounted lease liabilities as at March 31 is as follows:

	2021	2020
Maturity Analysis - Contractual Undiscounted Cash Flows		
Not more than 1 year	**P118,884,962**	P123,591,442
More than 1 year but less than 5 years	**273,679,565**	352,936,180
Total undiscounted lease liabilities at March 31, 2020	**P392,564,527**	P476,527,622

The Company also entered into lease agreements for residential condominium units to be used by its visitors. The lease term is 1 year, which is renewable upon mutual agreement and consent of both parties. The recognition exemption for right-of-use asset and lease liability is applied on these short-term leases.

There are no significant restrictions imposed by lease arrangements, such as those concerning dividends, additional debt and further leasing

18. Retirement Benefits

The Group does not have an established formal retirement plan as at March 31, 2021 and 2020. It recognizes retirement benefits costs in accordance with the minimum regulatory benefit under Republic Act No. 7641, which is a defined benefit type. In the absence of a formal established retirement plan, the retirement benefit obligation is not yet funded. Retirement benefits are based on employees' years of service and compensation levels during employment period. Actuarial valuations are made with sufficient regularity. The most recent actuarial valuation was made for the year ended March 31, 2021. The principal actuarial assumptions used to determine retirement benefits were as follows:

Regulatory Framework in which the Retirement Plan Operates

In accordance with the provisions of the RA 7641, the Group is required to pay eligible employees at least minimum regulatory benefit upon normal retirement, subject to age and service requirements.

Responsibilities of Trustee

Since the Group does not have a formal, trusteed Retirement Plan, there are no Trustees yet.

Description of Plan Characteristics and Associated Risks

The calculations were based on the provisions of the minimum mandated benefit under RA 7641. However, it should be noted that in the event a benefit claim arises, the benefit shall immediately be due and payable from the Group.

Amounts Recognized in the Consolidated Financial Statements

The principal actuarial assumptions used to determine retirement benefits were as follows:

	2021	2020
Discount rate	**4.50%**	5.00%
Salary increase rate	**6.00%**	6.00%

Maturity Profile of Expected Future Benefit Payments

The Group's expected future benefit payments is shown below:

	2021	2020
Beyond one year not later than 5 years	**P4,692,800**	P1,753,776
Beyond 5 years (6 to 10 years)	**29,934,700**	20,840,213

The movement of present value of defined benefits obligation (DBO) follows:

	2021	2020
Balance at beginning of year	**P28,302,129**	P9,805,355
Current service cost	**37,948,724**	14,305,811
Past service cost		11,807,414
Remeasurement gains/(losses):		
Actuarial gains arising from liability assumption changes	**5,076,300**	5,074,222
Actuarial gains arising from changes in financial assumptions		-
Actuarial loss arising from liability experience	**(18,628,811)**	(12,525,218)
Interest cost	**1,395,290**	1,087,216
Benefits paid	**(4,240,731)**	(1,252,671)
Balance at end of year	**P49,852,901**	P28,302,129

The retirement benefits costs recognized as part of “Cost of services” and “Operating expenses” accounts in the consolidated statement of comprehensive income for the years ended March 31, 2021 and 2020 were determined as follows

	Note	**2021**	2020
Current service cost		**P37,948,724**	P14,305,811
Interest cost		**784,234**	1,087,216
Past service cost		**611,056**	11,807,414
Component of retirement benefits costs recognized in profit or loss	15, 16	**P39,344,014**	P27,200,441

Retirement benefits costs are broken down as follows:

	Note	**2021**	2020
Cost of services	15	**P22,698,930**	P11,612,930
Operating expenses	16	**16,645,084**	15,587,511
		P39,344,014	P27,200,441

The movement of cumulative remeasurement gain presented in the consolidated statement of changes in equity follows:

	2021	2020
Balance at beginning of year	**P46,225,842**	P38,774,846
Actuarial gain (loss):		
Due to liability assumption changes	**(5,076,300)**	(5,074,222)
Due to liability experience	**18,628,811**	12,525,218
Balance at end of year	**P59,778,353**	P46,225,842

Amount, Timing and Uncertainty of Future Cash Flows

Sensitivity analysis on the defined benefit obligation is as follows:

2021		**Sensitivity Analysis**	**Effect on DBO**
Discount rate	**5.50%**	**1% increase**	**(15.42%)**
Discount rate	**3.50%**	**1% decrease**	**18.94%**
Salary increase rate	**7.00%**	**1% increase**	**18.46%**
Salary increase rate	**5.00%**	**1% decrease**	**(15.35%)**

2020		Sensitivity Analysis	Effect on DBO
Discount rate	6.00%	1% increase	(16.51%)
Discount rate	4.00%	1% decrease	21.01%
Salary increase rate	7.00%	1% increase	20.57%
Salary increase rate	5.00%	1% decrease	(16.51%)

Methods and Assumptions Used in Sensitivity Analysis

All other assumptions were kept constant in determining the sensitivity results above.

Changes Since Previous Period

There were no changes in the methods and assumptions used in preparing the sensitivity analysis.

Description of Asset-liability Matching Strategies

Since the DBO is still unfunded, there are no plan assets to match against the DBO.

Description of Funding Arrangements and Policies

Since the DBO is still unfunded, benefit claims under the DBO are paid directly by the Group when they become due.

Duration of Retirement Benefits Obligation

The average duration of the retirement benefit obligation is 26.90 years.

19. Income Taxes

Components of provision for income taxes charged to profit or loss are as follows:

	2021	2020
Current tax expense	**P13,715,474**	P15,717,900
Deferred tax expense (benefit)	**(67,884)**	(218,257)

*For the year ended March 31, 2021, the Company used the transitory rate of 26.25% provided by the Bureau of Internal Revenue (BIR) in its Revenue Regulations (RR) 5-2021 dated April 8, 2021. For the year ended March 31, 2020, the Company used 30% income tax rate

The tax rate used for the 2021 and 2020 reconciliation above is the 5% special rate whose tax base is the gross income under the PEZA registered activities. Any income earned outside the PEZA registered activities are subject to Regular Corporate Income Tax (RCIT).

Registration with Philippine Economic Zone Authority (PEZA)

PEZA Registration of Parent Company

On March 29, 2010, the Parent Company was registered with Philippine Economic Zone Authority (PEZA) as an Ecozone IT enterprise. The Parent Company is entitled to incentives granted to non-pioneer projects under Republic Act (RA) 7916, the Special Economic Zone Act of 1995, as amended, and the PEZA IT Guidelines, which include a 4-year corporate Income Tax Holiday (ITH) for the original project in the eCommerce Plaza Building effective from the date of start of commercial operations. After the lapse of ITH, the Parent Company is subject to a 5% Gross Income Tax (5% GIT) incentive, in lieu of all national and local taxes.

On December 28, 2011, the PEZA approved the Parent Company's application for the ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of November 1, 2012 to October 31, 2013.

Starting November 1, 2013, the Parent Company is subject to the 5% GIT incentive.

PEZA Registration of the Subsidiary

JESA Building, Cebu City (2nd, 4th, 5th and 6th Floors)

On February 8, 2011, the Subsidiary was registered with the PEZA as an Ecozone IT enterprise. The Subsidiary is entitled to incentives granted to non-pioneer projects under RA 7916 and the PEZA IT Guidelines, which include a 4-year corporate ITH for the original project in the JESA Building effective from the date of start of commercial operations. After the lapse of ITH, the Subsidiary is subject to a 5% GIT incentive, in lieu of all national and local taxes. The Subsidiary started its commercial operations on July 1, 2011 and enjoyed the ITH up to June 30, 2015.

On February 20, 2015, the PEZA approved the Subsidiary's application for the ITH extension based on NFEE criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of July 1, 2015 to June 30, 2016.

On October 18, 2016, the PEZA approved the Subsidiary's application for the additional ITH extension based on Capital Equipment to Labor Ratio (CELR) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The additional ITH extension covered the period of July 1, 2016 to June 30, 2017. Effective July 1, 2017, the Subsidiary's ITH lapsed.

Starting July 1, 2017, the JESA Building site is subject to the 5% GIT incentive.

EBLOC Tower 3, Cebu IT Park, Cebu City (7th, 8th and 9th Floors)

Under the Supplemental Agreement (SA) dated February 26, 2015, the PEZA approved a new non-pioneer project located at 7th and 8th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. The Subsidiary amended the SA dated August 17, 2015 to include the Subsidiary's application for its additional sales, customer, technical and shared service support activities at the 9th floor EBLOC Tower 3. On March 7, 2016, the entitlement to the 4-year ITH was validated and confirmed/approved. The Subsidiary started its commercial operations on April 1, 2015 and enjoyed the ITH up to March 31, 2019.

On September 05, 2019, PEZA approved the Subsidiary's application for ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of April 1, 2019 to March 31, 2020. On June 7, 2020, the Subsidiary received a cortication from PEZA that it has filed an application for the extension of ITH covering the period from April 1, 2020 to March 31, 2021. The Subsidiary is still waiting for the approval of the ITH extension from PEZA.

EBLOC Tower 3, Cebu IT Park, Cebu City (6th Floor)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Subsidiary's expansion project on sales support, customer support, technical support and shared service located at 6th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. On April 22, 2020, PEZA approved the date of Start of Commercial Operation (SCO) of its expansion project which gave the Subsidiary an ITH entitlement from September 1, 2019 to August 31, 2022. The Subsidiary is still waiting for the approval of its ITH Certificate of Entitlement from PEZA.

Filinvest Cebu, Cyberzone Tower 2, Cebu City (14th, 15th, 16th and 17th Floors)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Company's application for registration of new activity, particularly to engage in sales support, customer support, technical support and shared services at the 14th, 15th, 16th and 17th Floors of Filinvest Cebu Cyberzone Tower 2. The Subsidiary is still waiting for the approval of its SCO and its ITH Certificate of Entitlement from PEZA.

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

CREATE is an act reforming the corporate income tax and incentives system, amending for the purpose certain sections of Internal Revenue Code of 1997, as amended, and creating therein new title XIII, and for other purposes.

On March 26, 2021, the President of the Philippines has approved the CREATE Act, with nine (9) provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Group:

a) Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5million and with total assets not exceeding P100million. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.

b) Minimum corporate income tax (MCIT) rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.

c) The imposition of improperly accumulated earnings tax has been repealed.

d) Definition of reorganization for purposes of applying the tax-free exchange provision under Section 40(C)(2) is expanded. Prior BIR ruling or confirmation shall not be required for purposes of availing the tax exemption of the exchange.

e) Qualified export enterprises shall be entitled to 4 to 7 years income tax holiday (ITH) to be followed by 10 years 5% SCIT OR Enhanced Deductions (ED).

f) Qualified domestic market enterprises shall be entitled to 4 to 7 years ITH to be followed by 5 years ED.

g) Registered enterprises are exempt from customs duty on importation of capital equipment, raw materials, spare parts, or accessories directly and exclusively used in the registered project or activity.

h) VAT exemption on importation and VAT zero-rating on local purchases shall only apply to goods and services directly and exclusively used in the registered project or activity by a registered business enterprise (RBE).

i) For investments prior to effectivity of CREATE: RBEs granted only an ITH - continue with the availment of the ITH for the remaining period of the ITH. RBEs granted an ITH + 5% GIT or currently enjoying 5% GIT - allowed to avail of the 5% GIT for 10 years.

The measure is set to take effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation. After which, the implementing rules and regulation will be issued by the tax authority.

On April 8, 2021, the Bureau of Internal Revenue (BIR) issued the following implementing revenue regulations that are effective immediately upon publication:

- BIR Revenue Regulations (RR) No. 2-2021, Amending Certain Provisions of Revenue Regulations No. 2-98, As Amended, to Implement the Amendments Introduced by Republic Act No. 11534, or the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE), to the National Revenue Code of 1997, as Amended, Relative to the Final Tax on Certain Passive Income
- BIR RR No. 3-2021, Rules and Regulations Implementing Section 3 of Republic Act (RA). No. 11534, Otherwise Known as the "Corporate Recovery and Tax Incentives for Enterprises Act" or "CREATE", Amending Section 20 of the National Internal Revenue Code of 1997, As Amended
- BIR RR No. 4-2021, Implementing the Provisions on Value-Added Tax (VAT) and Percentage Tax Under Republic Act (RA) No. 11534, Otherwise Known as the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE) Which Further Amended the National Revenue Code of 1997, as Amended, as Implemented by Revenue Regulations (RR) No. 16-2005 (Consolidated Value-Added Tax Regulations of 2005), As Amended
- BIR RR No. 5-2021, Implementing the New Income Tax Rates on the Regular Income of Corporations, on Certain Passive Incomes, Including Additional Allowable Deductions from Gross Income of Persons Engaged in Business or Practice of Profession Pursuant to Republic Act (RA) No. 11534 or the "Corporate Recovery and Tax Incentives for Enterprises Act" (CREATE), Which Further Amended the National Revenue Code (NIRC) of 1997 The corporate income tax of the Group will be lowered from 30% to 25% for large corporations on which the Group would qualify effective July 1, 2020.

20. Deferred Tax Liability

The deferred tax recognized by the Group is composed of the following:

	Balance in 2021	**Charged to Profit or Loss**	**Balance in 2021**
Deferred Tax Liability			
Unrealized foreign exchange gain/(loss)	P68,379	(P67,884)	P495

	Balance in 2020	Charged to Profit or Loss	Balance in 2020
Deferred Tax Liability			
Unrealized foreign exchange gain	P286,636	(P218,257)	P68,379

Deferred tax assets arising from various provisions amounting to nil and P1,423,835 in 2021 and 2020, respectively, were not recognized by the Group as the Management does not expect that there will be sufficient taxable profits against which the assets can be utilized before their expiration.

21. Financial Risk Management

Financial Risk Management Objectives and Policies

The main purpose of the Group's financial instruments is to fund the Group's operations and to acquire and improve property and equipment. The main risks arising from the use of financial instruments are credit risk, liquidity risk and market risk which includes interest rate risk and foreign currency risk. These are summarized below:

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

With respect to credit risk arising from the Group's financial assets, which comprise of cash and cash equivalents, trade receivables and refundable deposits, the Group's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these Instruments.

The Group controls this risk through monitoring procedures and regular coordination with the debtors. Receivable balances are monitored on an ongoing basis with the result that its exposure to bad debts Is not significant.

The table below presents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained:

	Note	2021	2020
Cash in banks and time deposits	6	**P622,563,401**	P412,073,780
Trade receivables	7	**198,809,450**	152,039,122
Refundable deposits	11	**35,925,223**	67,989,657
		P857,298,074	P632,102,559

The Group does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

ECLs are a probability-weighted estimate of credit losses (i. e. the present value of all cash shortfalls) over the expected life of the financial instrument.

The Group's current credit risk grading framework comprises the following categories:

Categorv	Description	Basis for recognizing expected credit losses
Performing	The counterparty has a low risk of default and does not have anv past-due amounts	Lifetime ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk since initial recognition	Lifetime ECL- not credit- impaired
In default	Amount is >90 days past due or there is evidence indicate in the asset is credit-impaired	Lifetime ECL- credit impaired
Write-off	There is evidence indication that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off

The following table details the credit quality of the Group's financial assets and other items, as well as the Group's maximum credit exposure to credit risk by credit risk rating grades as at March 31, 2021 and 2020:

2021	Note	Internal Credit Rating	12 Months Lifetime ECL	Gross Carrying Amount	Less Allowance	Net Carrying Amount
Cash in banks and time deposits	6	Performing	12 Month ECL	P622,563,401	P -	P622,563,401
Trade receivables	7	Performing	Lifetime ECL	198,809,450	-	198,809,450
Refundable deposits	11	Performing	12 Month ECL	63,192,852	27,267,629	35,925,223
				884,565,703	P -	P857,298,074

*Excluding Cash on hand amounting P120,000 in 2021 and 2020.

2020	Note	Internal Credit Rating	12 Months Lifetime ECL	Gross Carrying Amount	Less Allowance	Net Carrying Amount
Cash in banks and time deposits	6	Performing	12 Month ECL	P412,073,780	P -	P412,073,780
Trade receivables	7	Performing	Lifetime ECL	152,039,122	-	152,039,122
Refundable deposits	11	Performing	12 Month ECL	67,989,657	27,267,629	40,722,028
				P632,102,559	P27,267,629	P604,834,930

*Excluding Cash on hand amounting P120,000 in 2021 and 2020

For trade and other receivables, the Group has applied the simplified approach in PFRS 9 to measure the loss allowance at lifetime ECL. The Group determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

Liquidity Risk

Liquidity is the risk arising from the shortage of funds due to unexpected events or transactions.

The Group seeks to manage its liquidity profile to be able to finance its capital expenditures and operations. The Group maintains a level of cash deemed sufficient to finance operations. To cover its financing requirements, the Group obtains advances from its related parties, when necessary. As part of its liquidity risk management, the Group regularly evaluates its project ed and actual cash flows.

The table below summarizes the maturity profile of the Group's financial assets and liabilities as at March 31, 2021 and 2020 on undiscounted contractual cash flows.

2021	Note	**On Demand**	**Due Within 30 Days**	**Due Within 1 Year**	**Due Beyond 1 Year but not More than 5 Years**	**Total**
Cash and cash equivalents	6	P25,251,401	P597,312,000	P -	P -	P622,563,401
Trade and other receivables	7	5,761,596	193,047,854	-	-	198,809,450
Refundable deposits	11	-	-	-	35,925,223	35,925,223
		P31,012,997	P790,359,854	P -	P35,925,223	P857,298,074
Trade and other payables*	12	P20,631,898	P105,921,380	P -	P -	P126,553,278
Lease liabilities	17	-	-	118,884,962	273,679,565	392,564,527
		P20,631,898	P105,921,380	P118,884,962	P273,679,565	P519,117,805

*Excluding non-financial liabilities amounting to P15,509,052

**Undiscounted

2020	Note	On Demand	Due Within 30 Days	Due Within 1 Year	Due Beyond 1 Year but not More than 5 Years	Total
Cash and cash equivalents	6	P184,463,780	P227,610,000	P -	P -	P412,073,780
Trade and other receivables	7	-	152,039,122	-	-	152,039,122
Refundable deposits	11	-	-	-	40,722,028	40,722,028
		P184,463,780	P379,649,122	P -	P40,722,028	P604,834,930
Trade and other payables*	12	P55,547,880	P68,579,643	P -	P -	P124,127,523
Lease liabilities	17	-	-	123,591,442	352,936,180	476,527,622
		P55,547,880	P68,579,643	P123,591,442	P352,936,180	P600,655,145

*Excluding non-financial liabilities amounting to P13,097,792.

**Undiscounted

Interest Rate Risk

Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The primary source of the Group's interest rate risk relates to cash in banks and lease liabilities. The interest rates on these assets is disclosed in Notes 6 and 17.

The Group has a policy in place in managing interest rate risk and is monitored on an ongoing basis.

Foreign Currency Risk

Foreign exchange risk arises when an investment's value changes due to variations in the currency exchange rate. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities that are denominated in a currency that is not the Group's functional currency. The Group undertakes certain transactions denominated in Philippine Peso. Hence, exposures to exchange rate fluctuations arise with respect to such transactions.

Significant fluctuation in the exchange rates could significantly affect the Group's financial position. The Group has a policy in place in managing foreign currency risk and is monitored on an ongoing basis.

The carrying amounts of the Group's foreign currency-denominated monetary assets and monetary liabilities at the end of each reporting period are as follows:

	2021	2020
Cash and cash equivalents	**P248,596,301**	P213,138,034
Trade receivables	**196,579,832**	149,174,531
Trade and other payables	**-**	(1,150,625)
Net exposure	**P445,166,133**	P361,161,940

The following table details the Group's sensitivity to a 5% increase and decrease in the functional currency of the Group against the relevant foreign currencies. The sensitivity rates used in reporting foreign currency risk internally to key management personnel is 5% in both years which represent Management's assessment of the reasonably possible change in foreign exchange rates based on historical trends. The sensitivity analysis includes all of the Group's foreign currency denominated monetary assets and liabilities. A positive number below indicates an increase in profit and other equity when the functional currency of the Group's weakens 5% in both years against the relevant currency. For a 5% in both years strengthening of the functional currency of the Group against the relevant currency, there would be an equal and opposite impact on the profit and other equity and the balances below would be negative.

	Effect on Income for the Year	
	2021	2020
Cash and cash equivalents	**P12,429,315**	P14,919,663
Trade receivables	**9,828,992**	10,442,217
Trade and other payables	**-**	(80,543)
	P22,258,307	P25,281,337

The above sensitivity analysis is applicable in determining the effect on equity of the changes in foreign exchange rates.

In Management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

22. Fair Value Information

The fair value of the Group's financial assets and liabilities:

		2021		2020	
	Note	**Carrying Amount**	**Fair Value**	Carrying Amount	Fair Value
Financial Assets					
Cash and cash equivalents	6	**P622,613,401**	**P622,613,401**	P412,073,780	P412,073,780
Trade and other receivables	7	**198,809,450**	**198,809,450**	152,039,122	152,039,122
Refundable deposits	11	**35,925,223**	**35,925,223**	40,722,028	40,722,028
		P857,418,074	**P857,418,074**	P604,834,930	P604,834,930
Financial Liabilities					
Trade and other payables	12	**P126,553,278**	**P126,553,278**	P133,402,900	P133,402,900
Lease liabilities		**336,413,691**	**336,413,691**	436,873,575	436,873,575
		P462,966,969	**P462,966,969**	P570,276,475	P570,276,475

The difference between the carrying amount of trade and other receivables and trade and other payables disclosed in the consolidated statements of financial position and the amount disclosed in this note pertains to advances to suppliers, officers and employees and government payables, respectively, since these are not considered as financial assets or liabilities.

The following summarizes the major methods and assumptions used in estimating the fair values of financial instruments:

Cash and Cash Equivalents, Trade and Other Receivables and Trade and Other Payables

The carrying amounts of approximate their fair values due mainly to the relatively short-term maturities of these financial instruments.

Refundable deposits

The carrying amount approximates it fair value as the effect of discounting is not considered material.

Lease Liabilities

The carrying amount approximates its fair value because the difference between the interest rate of this instrument and the prevailing market rate for a similar instrument is not considered significant.

23. Capital Risk Management

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business, maximize shareholder value, maintain various stakeholders' confidence and sustain future development of the business. The Group manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may issue stock dividend to shareholders, return or issue capital. No significant changes have been made in the capital management approach as they have been applied in previous years. The Group has not been subjected to externally imposed capital requirements. No major changes were made in the objectives, policies and procedures in 2021 and 2020.

The Group considers the following as its capital:

	2021	2020
Share capital	**P9,500,000**	P9,500,000
Additional paid-in capital	**156,044**	156,044
Retained earnings	**790,310,239**	659,074,652
Cumulative remeasurement gain on retirement benefits	**59,778,353**	46,225,842
	P859,744,636	P714,956,538

The debt to equity ratio at year-end was as follows:

	2021	2020
Debt	**P533,039,573**	P609,251,628
Equity	**859,744,636**	714,956,538
	0.61:1	0.85:1

24. Other Matters

On March 8, 2020, under Proclamation 922, the President of the Philippines (the “President”) has declared a state of public health emergency due to the spread of the Corona Virus Disease 2019 (COVID-19) in the country. As of report date, the country is still under various types of community quarantine to prevent the spread of COVID-19.

The Group was not significantly affected by these events as the Group is still able to continue its operations. The increase in expenses caused by the COVID 19 pandemic has no impact as the Group is under a cost-plus arrangement. The Management assessed that that business will continue to operate in the succeeding years.

Despite or amidst this event, the financial statements have been prepared on a going concern basis of accounting as of reporting date since the Group implemented all measures to mitigate the risks on their business operations.

VCUSTOMER PHILIPPINES (CEBU), INC.

DIRECTORS' REPORT

Your Directors present their Report together with the audited accounts of vCustomer Philippines (Cebu), Inc. (vCPCI) for the year ended March 31, 2021.

Financial Results (PHP):

For the years ended	**March 31, 2021 PHP**	March 31, 2020 PHP
Revenue	**1,483,110,436**	1,043,438,347
Profit	**118,387,761**	99,350,043

Review of Operations:

For the fiscal year ended March 31, 2021, vCPCI reported revenue amounted to PHP **1,483,110,436**, an increase of PHP **439,672,089** over the last reporting year ended March 31, 2020. Profit for the fiscal year ended March 31, 2021 amounted to PHP **118,387,761, 19**% increase over the last reporting year. Certain project of vCPCI is still entitled to Income Tax Holiday (ITH).

Future Plans and Appropriations:

vCPCI made a reversal of the Appropriated Retained Earnings of PHP **370,000,000** intended for the expansion projects. Additional appropriation of the amount of PHP **489,000,000** from its current retained earnings as at March 31, 2021 to be used by the Company for its expansion projects, office renovation and equipment upgrade in the year 2021 until 2022. vCPCI is expecting engagement of additional account/clients and increase and employee headcount.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, Government Authorities and the shareholder/s for the co-operation and assistance received from them.

REPORT OF INDEPENDENT AUDITORS

The Stockholders and Board of Directors
vCustomer Philippines (Cebu), Inc.
6th Floor EBLOC 3, Geonzon St. Cebu IT Park
Apas Lahug, Cebu City

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of vCustomer Philippines (Cebu), Inc. (the "Company"), a wholly owned subsidiary of vCustomer Philippines, Inc., which comprise the statements of financial position as at March 31, 2021 and 2020, statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes, including significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we

are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 24 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. Reporting Entity

vCustomer Philippines (Cebu), Inc. (the "Company") was incorporated on

January 20, 2011 primarily to carry on the business of providing services to customers in any part of the world through any and all medium of communication including internet and telephone including management services, solutions to business problems, web designing, customer relations, development/production of software and software systems, data warehousing , data mining, processing and analysis including assimilation, sorting, processing and communication of date ang graphs, development of computer system, software development, data preparation and verification, data analysis, data transmission and computation through the computer or other devices encompassing digital, analogue and graphic processes and any other medium and processes as may evolve and to deal on all areas relating to information technology; to undertake merchandising and logistic activities in the area of electronic commerce as well as other form of commerce and commercial transactions and to undertake the operation and management of e-mail services centers, customer response centers, computer education and centers for the foregoing operations, loyalty incentive and motivation programmes, direct marketing activities, database management, back office support and all internet and web related work; and in addition, to have shared resources and assets with other entities providing similar services.

The Company is a wholly owned subsidiary of vCustomer Philippines, Inc. (the "Parent Company"), a Company incorporated in the Philippines, and located at 3rd Floor eCommerce Plaza, Eastwood Cyberpark, Quezon City. The Parent Company is a wholly owned subsidiary of Tech Mahindra Limited (the "Ultimate Parent"), a corporation organized and existing under the laws of India.

In February 2021, Security and Exchange Commission (SEC) approved the Company's change of principal place of business or registered address from 90 General Maxilom Avenue, Cebu City to at 6th Floor EBLOC 3, Geonzon St. Cebu IT Park, Apas Lahug, Cebu City.

The Parent Company's registered principal office address is at 3rd Floor, eCommerce Plaza, Eastwood Cyberpark, Quezon City, Philippines.

Registration with the Philippine Economic Zone Authority (PEZA)

JESA Building, Cebu City (2nd, 4th, 5th and 6th Floors)

On February 8, 2011, the Company was registered with the Philippine Economic Zone Authority (PEZA) as an Ecozone IT enterprise. The Company is entitled to incentives granted to non-pioneer projects under Republic Act (RA) 7916, the Special Economic Zone Act of 1995, as amended, and the PEZA IT Guidelines, which include a 4-year corporate Income Tax Holiday (ITH) for the original project in the JESA Building effective from the date of start of commercial operations. After the lapse of ITH, the Company is subject to a 5% Gross Income Tax (5% GIT) incentive, in lieu of all national and local taxes. The Company started its commercial operations on July 1, 2011 and enjoyed the ITH up to June 30, 2015.

On February 20, 2015, the PEZA approved the Company's application for the ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6,

Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of July 1, 2015 to June 30, 2016.

On October 18, 2016, the PEZA approved the Company's application for the additional ITH extension based on Capital Equipment to Labor Ratio (CELR) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6, Paragraph A (6) of the PEZA Rules. The additional ITH extension covered the period of July 1, 2016 to June 30, 2017. Effective July 1, 2017, the Company's ITH lapsed.

Starting July 1, 2017, the JESA Building site is subject to the 5% GIT incentive.

EBLOC Tower 3, Cebu IT Park, Cebu City (7th, 8th and 9th Floors)

Under the Supplemental Agreement (SA) dated February 26, 2015, the PEZA approved a new non-pioneer project located at 7th and 8th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. The Company amended the SA dated August 17, 2015 to include the Company's application for its additional sales, customer, technical and shared service support activities at the 9th floor EBLOC Tower 3. On March 7, 2016, the entitlement to the 4-year ITH was validated and confirmed/approved. The Company started its commercial operations on April 1, 2015 and enjoyed the ITH up to March 31, 2019.

On September 05, 2019, PEZA approved the Company's application for ITH extension based on Net Foreign Exchange Earnings (NFEE) criterion in accordance with EPZA (now PEZA) General Circular No. 94-001 and Rule XV, Section 6,

Paragraph A (6) of the PEZA Rules. The ITH extension covered the period of April 1, 2019 to March 31, 2020. On June 7, 2020, the Company received a cortication from PEZA that it has filed an application for the extension of ITH covering the period from April 1, 2020 to March 31, 2021. The Company is still waiting for the approval of the ITH extension from PEZA.

EBLOC Tower 3, Cebu IT Park, Cebu City (6th Floor)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Company's expansion project on sales support, customer support, technical support and shared service located at 6th Floor, EBLOC Tower 3, Cebu IT Park, Cebu City. On April 22, 2020, PEZA approved the date of Start of Commercial Operation (SCO) of its expansion project which gave the Company an ITH entitlement from

September 1, 2019 to August 31, 2022. The Company is still waiting for the approval of its ITH Certificate of Entitlement from PEZA.

Filinvest Cebu, Cyberzone Tower 2, Cebu City (14th, 15th, 16th and 17th Floors)

Under Supplemental Agreement (SA) dated July 23, 2019, the PEZA approved the Company's application for registration of new activity, particularly to engage in sales support, customer support, technical support and shared services at the 14th, 15th, 16th and 17th Floors of Filinvest Cebu Cyberzone Tower 2. The Company is still waiting for the approval of its SCO and its ITH Certificate of Entitlement from PEZA.

2. Basis of Preparation

Statement of Compliance

The financial statements have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs). PFRSs are based on International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB). PFRSs which are issued by the Philippine Financial Reporting Standards Council (FRSC), consist of PFRSs, Philippine Accounting Standards (PASs), and Philippine Interpretations.

Basis of Measurement

The financial statements have been prepared on a historical cost basis of accounting except for retirement benefits obligation which is recognized at the present value of the defined benefits obligation.

Functional and Presentational Currency

These financial statements are presented in Philippine Peso, the currency of the primary economic environment in which the Company operates. All amounts are recorded in the nearest peso, except when otherwise indicated.

Authorization for the Issuance of the Financial Statements

The accompanying financial statements of the Company as of and for the year ended March 31, 2021 was authorized for issue by the Board of Directors (BOD) on May 12, 2021.

3. Adoption of New Standards, Amendments to Standards and Interpretations

Adoption of Amendments to Standards and Interpretations

The Company has adopted the following new standards and amendments to standards starting April 1, 2020 and accordingly, changed its accounting policies. Except as otherwise indicated, the adoption of these new and amendments to standards did not have any significant impact on the Company's financial statements.

These are as follows: Effective January 1, 2020

- Amendments to References to Conceptual Framework in PFRS Standards sets out amendments to PFRS Standards, their accompanying documents and PFRS practice statements to reflect the issuance of the revised Conceptual Framework for Financial Reporting in 2018 (2018 Conceptual Framework). The 2018 Conceptual Framework includes:
  - a new chapter on measurement;
  - guidance on reporting financial performance;
  - improved definitions of an asset and a liability, and guidance supporting these definitions; and
  - clarifications in important areas, such as the roles of stewardship, prudence and measurement uncertainty in financial reporting.

    Some standards, their accompanying documents and PFRS practice statements contain references to, or quotations from, the International Accounting Standards Committee's Framework for the Preparation and Presentation of Financial Statements adopted by the IASB in 2001 or the Conceptual Framework for Financial Reporting issued in 2010. The amendments update some of those references and quotations so that they refer to the 2018 Conceptual Framework and makes other amendments to clarify which version of the Conceptual Framework is referred to in particular documents.

- Definition of Material (Amendments to PAS 1, Presentation of Financial Statements and PAS 8). The amendments refine the definition of material. The amended definition of material states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence the decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify the definition of material and its application by:

  (a) raising the threshold at which information becomes material by replacing the term 'could influence' with 'could reasonably be expected to influence';

  (b) including the concept of 'obscuring information' alongside the concept of 'omitting' and 'misstating' information in the definition;

  (c) clarifying that the users to which the definition refers are the primary users of general-purpose financial statements referred to in the Conceptual Framework;

  (d) clarifying the explanatory paragraphs accompanying the definition; and

  (e) aligning the wording of the definition of material across PFRS and other publications.

  The amendments are expected to help entities make better materiality judgements without substantively changing existing requirements.

Standards Issued But Not Yet Adopted

A number of amendments to standards are effective for annual periods beginning after April 1, 2020. However, the Company has not early adopted the following new or amended standards in preparing these separate financial statements. Unless otherwise stated, none of these are expected to have a significant impact on the Company's separate financial statements.

Effective June 1, 2020

- COVID-19-Related Rent Concessions (Amendment to PFRS 16, Leases). The amendments introduce an optional practical expedient that simplifies how a lessee accounts for rent concessions that are a direct consequence of

  COVID-19. A lessee that applies the practical expedient is not required to assess whether eligible rent concessions are lease modifications, and accounts for them in accordance with other applicable guidance. The practical expedient applies if:

  - the revised consideration is substantially the same or less than the original consideration;
  - the reduction in lease payments relates to payments due on or before June 30, 2021; and,
  - no other substantive changes have been made to the terms of the lease.

    Lessees applying the practical expedient are required to disclose that fact, whether they have applied the practical expedient to all eligible rent concessions and, if not, the nature of the contracts to which they have applied the practical expedient; and the amount recognized in profit or loss for the reporting period arising from application of the practical expedient. No practical expedient is provided for lessors.

    The amendment is effective for annual reporting periods beginning on or after June 1, 2020. Earlier application is permitted. A lessee applies the amendments retrospectively, recognizing the cumulative effect of the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

Effective January 1, 2022

- Property, Plant and Equipment - Proceeds before Intended Use (Amendments to PAS 16, Property, Plant and Equipment). The amendments prohibit an entity from deducting from the cost of an item of property, plant and equipment the proceeds from selling items produced before that asset is available for use. The proceeds before intended use should be recognized in profit or loss, together with the costs of producing those items which are identified and measured in accordance with PAS 2, Inventories.

The amendments also clarify that testing whether an item of property, plant and equipment is functioning properly means assessing its technical and physical performance rather than assessing its financial performance.

For the sale of items that are not part of a company's ordinary activities, the amendments require the company to disclose separately the sales proceeds and related production cost recognized in profit or loss and specify the line items in which such proceeds and costs are included in the statements of comprehensive income (loss). This disclosure is not required if such proceeds and cost are presented separately in the statements of comprehensive income (loss).

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. Earlier application is permitted. The amendments apply retrospectively, but only to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented in the financial statements in which the company first applies the amendments.

- Onerous Contracts - Cost of Fulfilling a Contract (Amendment to PAS 37 Provisions, Contingent Liabilities and Contingent Assets). The amendments clarify that the cost of fulfilling a contract when assessing whether a contract is onerous includes all costs that relate directly to a contract - i.e. it comprises both incremental costs and an allocation of other direct costs.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognized as an opening balance adjustment to retained earnings or other component of equity, as appropriate. The comparatives are not restated. Earlier application is permitted.

- Annual Improvements to PFRS Standards 2018-2020. This cycle of improvements contains amendments to four standards:

  - Fees in the '10 per cent' Test for Derecognition of Financial Liabilities (Amendment to PFRS 9, Financial Instruments). The amendment clarifies that for the purpose of performing the '10 per cent' test for derecognition of financial liabilities, the fees paid net of fees received included in the discounted cash flows include only fees paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf.

  - Lease Incentives (Amendment to Illustrative Examples accompanying PFRS 16). The amendment deletes from the Illustrative Example 13 the reimbursement relating to leasehold improvements to remove the potential for confusion because the example had not explained clearly enough the conclusion as to whether the reimbursement would meet the definition of a lease incentive in PFRS 16.

Effective January 1, 2023

- Classification of Liabilities as Current or Non-current (Amendments to PAS 1, Presentation of Financial Statements). To promote consistency in application and clarify the requirements on determining whether a liability is current or

non-current, the amendments:

  - removed the requirement for a right to defer settlement of a liability for at least twelve months after the reporting period to be unconditional and instead requires that the right must have substance and exist at the end of the reporting period;

  - clarified that a right to defer settlement exists only if the company complies with conditions specified in the loan agreement at the end of the reporting period, even if the lender does not test compliance until a later date; and

  - clarified that settlement of a liability includes transferring a company's own equity instruments to the counterparty, but conversion options that are classified as equity do not affect classification of the liability as current or non-current.

    The amendments apply retrospectively for annual reporting periods beginning on or after January 1, 2023. Earlier application is permitted.

4. Significant Accounting Policies

The significant accounting policies and practices applied in the preparation of these financial statements are set forth to facilitate the understanding of data presented in the financial statements. These policies have been consistently applied to all years presented unless otherwise stated.

Financial Instruments

Financial Assets

Financial assets are recognized when the Company becomes a party to the contractual provisions of a financial instrument. Financial assets are derecognized when the rights to receive cash flows from the financial assets expire, or if the Company transfers the financial asset to another party and does not retain control or substantially all risks and rewards of the asset. Purchases and sales of financial assets in the normal course of business are accounted for at settlement date (i.e., the date that the asset is delivered to or by the Company). At initial recognition, the Company measures its financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset

Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in case of a liability). The initial measurement of financial instruments, except for those designated as fair value through profit or loss, includes transaction costs.

After initial recognition, the Company classifies its financial assets as subsequently measured at either i) amortized cost, ii) fair value through other comprehensive income or iii) fair value through profit or loss on the basis of both:

The Company's business model for managing the financial assets.

The contractual cash flow characteristics of the financial asset.

Subsequent to initial recognition, financial assets are measured as described below.

At each balance sheet date, the Company assesses whether there is objective evidence that a financial asset or a group of financial assets is impaired and recognizes a loss allowance for expected credit losses for financial assets measured at either amortized costs or at fair value through other comprehensive income. If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 months of expected credit losses.

If, at the reporting date, the credit risk on a financial instrument has increased significantly since initial recognition, the Company measures the loss allowance for the financial instrument at an amount equal to the lifetime expected credit losses. The Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both i) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and ii) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value plus transaction cost directly attributable to the asset. After initial recognition, the carrying amount of the financial asset measured at amortized cost is determined using the effective interest method, less any impairment losses.

Financial assets at amortized cost are classified as current assets when the Company expects to realize the asset within 12 months from reporting date. Otherwise, these are classified as noncurrent assets.

Cash and cash equivalents, trade and other receivables and refundable deposits are generally included in this category.

Cash includes cash on hand, cash in banks and cash equivalents.

Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. The Company classifies an investment as cash equivalent if that investment has a maturity of three months or less from the date of acquisition.

Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of a financial instrument. Financial liabilities are derecognized when the Company's obligations specified in the contract expire or are discharged or cancelled.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Company generally classifies all financial liabilities as subsequently measured at amortized cost.

Financial liabilities are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Trade and other payables and lease liabilities are generally included in this category.

Prepaid Expenses and Other Current Assets

Prepaid expenses represent expenses not yet incurred but already paid in cash. Prepaid expenses are initially recorded as assets and measured at the amount of cash paid. Subsequently, these are charged to profit or loss as they are consumed in operations or expire with the passage of time.

Other current assets pertain to resources controlled by the Company as a result of past events and from which future economic benefits are expected to flow to the Company.

Prepaid expenses and other current assets are classified in the statements of financial position as current asset when the cost of services related to the prepaid expenses and other current assets are expected to be incurred within one year or the Company's normal operating cycle, whichever is longer. Otherwise, prepaid expenses are classified as non-current assets.

Property and Equipment

Property and equipment are initially measured at cost. The cost of an item of property and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by Management.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

At the end of each reporting period, items of property and equipment are measured at cost less any subsequent accumulated depreciation and impairment losses.

Subsequent expenditures relating to an item of property and equipment that have already been recognized are added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the Company. All other subsequent expenditures are recognized as expenses in the period in which those are incurred.

Depreciation is computed on the straight-line method based on the estimated useful lives of the assets as follows:

	Number of Years
Office equipment	5
Communication equipment	3
Furniture and fixtures	3
Leasehold improvements	3 or lease term whichever is shorter

Leasehold improvements are amortized over the improvements' useful life of three years or when shorter, the term of the relevant lease.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

At the end of each reporting period, the Company assesses whether there is any indication that any of its property and equipment is impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset or cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. An impairment loss is recognized as an expense.

Impairment losses recognized in prior periods are assessed at the end of each reporting period for any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

Intangible Assets

Intangible Asset Acquired Separately

Intangible assets are initially measured at cost. Subsequent to initial recognition, intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over the estimated useful lives. The estimated useful life and the amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Share Capital

Ordinary shares is classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction from the proceeds, net of tax.

Retained Earnings

Retained earnings and deficit represent accumulated profits and losses earned and incurred by the Company. Retained earnings and deficit may also include effect of changes in accounting policy as may be required by the standard's transitional provisions.

Provisions

Provisions are recognized when the Company has a present obligation, either legal or constructive, as a result of a past event, it is probable that the Company will be required to settle the obligation through an outflow of resources embodying economic benefits, and the amount of the obligation can be estimated reliably.

The amount of the provision recognized is the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. A provision is measured using the cash flows estimated to settle the present obligation. Its carrying amount is the present value of those cash flows.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

Employee Benefits

Short-Term Benefits

The Company recognizes a liability, net of amounts already paid, and an expense for services rendered by employees during the accounting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

Post-Employment Benefits

Defined Benefit Plan

The Company classifies its retirement benefit as defined benefit plans. Under the defined benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), are reflected immediately in the statements of financial position with a charge or credit recognized in OCI in the period in which they occur. Remeasurement recognized in OCI is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefits liability or asset. Defined benefits costs are categorized as follows:

- Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- Net interest expense or income; and
- Remeasurements.

The Company presents the first two components of defined benefits costs in profit or loss in the line item ‘retirement benefits costs. Curtailment gains and losses are accounted for as past service costs.

The retirement benefits obligation recognized in the statements of financial position represents the liability of the Company for its post-employment benefits.

Compensated Leave Credits

The Company’s net obligation in respect of accumulated leaves is the amount of future benefit that employees have earned in return for their services in the current and prior periods. This benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

Revenue Recognition

The Company identifies each distinct performance obligation to transfer services. The Company recognizes revenue when (or as) it satisfies a performance obligation by transferring the control of services to the customer. The transaction price is the amount of consideration the Company expects to receive under the arrangement. The Company concluded that it is acting as principal for its revenue arrangement.

Sale of Services. The Company provides services assistance to its Parent Company in the ordinary course of business. Such services are recognized as a performance obligation satisfied over time.

Expense Recognition

Expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or increase of liabilities that result in decrease in equity, other than those relating to distributions to equity participants.

Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

As a Lessee

The Company recognizes a right-of-use assets and a lease liabilities at the lease commencement date. The right-of-use assets are initially measured at cost, which comprises the initial amount of the lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of costs to dismantle and remove or restore the underlying asset or the site on which it is located, less any incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the

right-of-use assets or the end of lease term. The estimated useful lives of the

right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use assets are periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liabilities.

The lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company’s incremental borrowing rate. Generally, the Company uses its incremental borrowing rates as the discount rate.

Lease payments included in the measurement of the lease liabilities comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liabilities are measured at amortized cost using the effective interest method. This are remeasured if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liabilities are remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets or is recorded in profit or loss if the carrying amount of the right-of-use assets has been reduced to zero.

The ROU assets and lease liabilities are presented in the statements of financial position separately from other assets and liabilities, respectively.

Foreign Currency

Transactions in currencies other than Philippine peso are recorded at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary assets and liabilities that are denominated In foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Gains and losses arising on retranslation are included in profit or loss for the year.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are not retranslated.

Related Party Transactions

A related party transaction is a transfer of resources, services or obligations between the Company and a related party, regardless of whether a price is charged.

Related party relationship exists when one party has the ability to control, directly or indirectly, through one or more intermediaries, the other party or exercise significant influence over the other party in making the financial and operating decisions. Such relationship also exists between and/or among entities under common control with the reporting enterprises and their key management personnel, directors, or its stockholders. Related parties may be individuals or corporate entities. In considering each possible related party relationships, attention is directed to the substance of the relationship, and not merely the legal form.

Income Taxes

Income tax expense recognized in the statements of comprehensive income of the Company represents the current tax expense and deferred tax expense.

Under the Company's registration with the PEZA pursuant to the provisions of Republic Act (R.A.) No. 7916, the Company is subject to 5% final tax on gross income from PEZA-registered activities in lieu of payment of national and local taxes.

Uncertainties related to taxes that are not income taxes are recognized and measured in accordance with PAS 37 unless they are dealt with specifically in another standard.

If there is uncertainty about an income tax treatment, then the Company considers whether it is probable that a tax authority will accept the Company's tax treatment included in its tax filing. The underlying assumption in the assessment is that a tax authority will examine all amounts reported and will have full knowledge of all relevant information.

Current Tax

The current tax expense is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statements of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using 5% of gross income earned from registered activities. For income other than its registered activities, tax rate is 30%. For income other than its registered activities, tax rate is 30% or exempt when the activities are included under income tax holiday.

Deferred Tax

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences, while deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events After the Reporting Period

The Company identifies events after the end of each reporting period as those events, both favorable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. The financial statements of the Company are adjusted to reflect those events that provide evidence of conditions that existed at the end of the reporting period. Non-adjusting events after the end of the reporting period are disclosed in the notes to financial statements when material.

5. Critical Accounting Judgments and Key Sources of Estimation Uncertainty

In the application of the Company's accounting policies, Management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on the historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Critical Judgments in Applying Accounting Policies

The following are the critical judgments, apart from those involving estimations, that Management have made in the process of applying the entity 's accounting policies and that have the most significant effect on the amounts recognized in the financial statements.

Functional Currency

Based on the economic substance of the underlying circumstances relevant to the Company, the functional currency of the Company has determined to be the Philippine Peso.

The Philippine Peso is the currency of the primary economic environment in which the Company operates. It is the currency that mainly influences the Company's cost of operation, and in effect, its revenue.

Determination of the Term and Discount Rate of Lease Arrangements

Where the Company is the lessee, management is required to make judgments about whether an arrangement contains a lease, the lease term and the appropriate discount rate to calculate the present value of the lease payments.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases entered into by the Company as lessee, management uses the incremental borrowing rate, being the rate that the Company would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses an approach that starts with a risk-free interest rate adjusted for credit risk for leases held by the Company and makes adjustments specific to the lease.

In determining the lease term, management considers all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if it is reasonably certain that the lease will be extended (or not terminated) and, as such, included within lease liabilities.

The Company normally considers in the assessment whether there are significant penalties to terminate, significant remaining value of leasehold improvements and historical lease durations, the costs and business disruption for replacing the leased asset, enforceability of the option, and business and other developments.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and is within the lessee's control.

Key Sources of Estimation Uncertainties

The following are key estimates concerning the future and other key sources of estimation uncertainty as at end of reporting period that have the most significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period.

Impairment of Property and Equipment

The Company assesses at the end of each reporting period whether there is any indication that its property and equipment is impaired. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to the expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

Management assessed that there are no indicators of impairment affecting the noncurrent financial assets as at March 31, 2020 and 2019.

As at March 31, 2021 and 2020, the carrying amount of property and equipment amounted to P181,050,826 and P259,542,684, respectively (see Note 9).

Estimating Retirement Benefits Obligation

The present value of the retirement benefits obligation depends on a number of assumptions that are determined on an actuarial basis. The assumptions used in determining the net cost (income) for retirement benefits include the discount rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the retirement benefits liability. Other key assumptions include future salary, mortality and attrition. Additional information is disclosed in Note 18

Retirement benefits obligation amounted to P28,827,200 and P12,471,980 and as at March 31, 2021 and 2020, respectively (see Note 18).

Provisions and Contingencies

The recognition of provisions on claims requires estimates and judgment regarding the timing and the amount of outflow of resources. Assessment by internal and external legal counsel, where appropriate, determines whether it is probable that an outflow of resources will be required to settle an obligation. If this is the case, the best estimate of the outflow of resources is recognized.

The Company has no provision for probable losses as at March 31,2021 and 2020.

6. Cash and Cash Equivalents

This account consists of:

	Note	2021	2020
Cash on hand		**P70,000**	P70,000
Cash in banks	21	**12,363,523**	79,918,615
Time deposits	21	**310,380,000**	55,522,000
	20	**P322,813,523**	P135,510,615

Interest income on cash in banks and time deposits amounted to P132,046 in 2021 and P164,691 in 2020.

7. Trade and Other Receivables

This account consists of:

	Note	2021	2020
Trade receivables	13, 20, 21	**P162,126,101**	P110,099,505
Advances to employees		**7,831,560**	2,124,688
Advances to suppliers		**4,137,221**	-
		P174,094,882	P112,224,193

Trade receivables have average credit terms of 60 days.

8. Prepaid Expenses and Other Current Assets

This account consists of:

	2021	2020
Prepaid insurance	**P6,921,458**	P11,611,873
Others	**2,309,106**	2,901,465
	P9,230,564	P14,513,338

Prepaid insurance pertains to the unamortized payments for the Health Maintenance Organization (HMO) coverage of the Company's employees until November 30, 2021. As at March 31, 2021 and 2020, the noncurrent portion amounting to nil and P7,169,348, respectively, is presented under "Other noncurrent asset" account in the statements of financial position.

Others consist of unamortized payments for maintenance fees and membership dues and advance payments for advertising.

9. Property and Equipment

The movements in this account are as follows:

2021	**Office Equipment**	**Communication Equipment**	**Leasehold Improvements**	**Furniture and Fixtures**	**Total**
Cost					
Balance at beginning of year	P225,706,298	P83,492,625	P314,585,282	P18,581,010	P642,365,215
Acquisitions	27,259,892	9,697,179	497,506	-	37,454,577
Balance at end of year	**252,966,190**	**93,189,804**	**315,082,788**	**18,581,010**	**679,819,792**
Accumulated Depreciation					
Balance at beginning of year	136,835,963	62,511,869	165,006,745	18,467,954	382,822,531
Depreciationand amortization	45,654,685	12,363,882	57,873,751	54,117	115,946,435
Balance at end of year	**182,490,648**	**74,875,751**	**222,880,496**	**18,522,071**	**498,768,966**
Net carrying value	**P70,475,542**	**P18,314,053**	**P92,202,292**	**P58,939**	**P181,050,826**

2020	Office Equipment	Communication Equipment	Leasehold Improvements	Furniture and Fixtures	Total
Cost					
Balance at beginning of year	P135,519,595	P67,321,561	P141,403,822	P18,469,510	P362,714,488
Acquisitions	90,186,703	16,171,064	173,181,460	111,500	279,650,727
Balance at end of year	**225,706,298**	**83,492,625**	**314,585,282**	**18,581,010**	**642,365,215**
Accumulated Depreciation					
Balance at beginning of year	105,984,933	53,014,935	141,335,126	18,184,981	318,519,975
Depreciationand amortization	30,851,030	9,496,934	23,671,619	282,973	64,302,556
Balance at end of year	**136,835,963**	**62,511,869**	**165,006,745**	**18,467,954**	**382,822,531**

The depreciation is presented as part of the following:

	Note	2021	2020
Cost of service	15	**P95,936,787**	P59,932,400
Operating expense	16	**20,009,648**	4,370,156
		P115,946,435	P64,302,556

10. Intangible Assets

Intangible assets pertain to capitalized computer software. The movements in this account are as follows:

	Note	2021	2020
Cost			
Beginning and end of year balance		**P680,468**	P680,468
Additions		**1,087,545**	-
		1,768,013	680,468
Amortization during the year			
Balance at beginning of year		**680,468**	522,100
Amortization	15,16	**319,431**	158,368
Balance at end of year		**999,899**	680,468
Net carrying value		**P768,114**	P -

The amortization is presented as part of the following:

	Note	2021	2020
Cost of service	15	**P264,305**	P147,605
Operating expense	16	**55,126**	10,763
		P319,431	P158,368

11. Refundable Deposits

This account consists of:

	Note	2021	2020
Rental deposits		**P28,790,668**	P28,281,347
Utilities deposits		**480,950**	475,480
Guaranty deposit		**27,267,629**	27,267,629
		56,539,247	56,024,456
Less allowance for probable losses		**27,267,629**	27,267,629
	20, 21	**P29,271,618**	P28,756,827

Guaranty deposit pertains to the surety bond made to Department of Labor and Employment - National Labor Regulations Commission.

12. Trade and Other Payables

This account consists of:

	Note	2021	2020
Trade payables	20, 21	**P19,766,266**	P21,374,203
Salaries payable	20, 21	**67,115,710**	50,602,170
Accrued expenses	20, 21	**21,900,955**	28,847,706
Payable to government agencies		**10,498,687**	5,865,193
Output VAT - net		**1,345,152**	-
Withholding taxes		**763,677**	3,616,169
		P121,390,447	P110,305,441

Trade payables are normally on a 30-to-90-day credit terms.

The Company derecognized portion of salaries payable relating to long-outstanding unclaimed last pay of separated employees, which the legal right to claim has prescribed amounting to P4,117,637 in 2021 and P10,114,897 in 2020. These are presented as “Others” under “Other income (charges)” in the statements of comprehensive income..

Accrued expenses consist of electricity, legal fees, security services, consultancy, outside services, provision for leave encashment, etc. which are individually insignificant.

13. Related Party Transactions

The summary of the Company’s transactions and outstanding balances with related parties as at and for the years ended March 31, 2021 and 2020 is as follows:

				Outstanding Balance		
Category/ Transaction	**Year**	**Note**	**Amount**	**Trade Receivables**	**Terms**	**Conditions**
Service Revenue						
Ultimate Parent	2021	a, 7	P1,401,211,249	P162,126,101	60 days;	Unsecured;
	2020	a, 7	1,043,438,347	110,099,505	non-interest bearing	no impairment
Affiliate	2021	b	81,899,187			
	2021			**P162,126,101**		
	2020			**P110,099,505**		

(a) The Company entered into a Service Agreement with vCustomer Services LLC (vSLLC), a Company incorporated under the laws of the United States of America (USA), an affiliate , for an indefinite period unless mutually terminated, to provide web-based support (chat, email, fax); telephony support (voice); directory assistance; eCRM database management, eCRM database mining; web-based self-help solutions; remote website administration; remote back office support; remote system administration and technical help desk services in the United States through contact center representatives and such other functions as may be required in relation to the performance of its support function

In consideration thereof, the Company bills vSLLC ten percent (10%) mark-up rate on all costs (cost and operating expenses) incurred by the Company in providing the services. Contract receivables are billed by the Company in US dollars on a periodical basis and are settled in the same currency. vSLLC was merged with Tech Mahindra (Americas), Inc., a subsidiary of Tech Mahindra Limited (TML), on February 2, 2015. Accordingly, billings were made to TML subsequently.

(b) Compensation of key management personnel for the years ended March 31, 2020 and 2019 is as follows:

	Note	2021	2020
Salaries		**P47,468,962**	P45,619,183
Retirement benefits costs	18	**5,594,601**	4,405,464
Allowance		**1,226,598**	1,585,158
Other employee benefits		**8,674,454**	9,745,430
		P62,964,615	P61,355,235

Other employee benefits include 13th month pay, performance bonus, leave encashment and other short-term benefits.

There are no other related party transactions.

14. Equity

Components of share capital are as follows:

	2021	2020
Authorized 1,000,000, issued, fully paid and outstanding: 950,000 ordinary shares - Php10 par value	**P9,500,000**	P9,500,000

On March 31, 2021, the Company's BOD approved the additional appropriation of P489,000,000 from its current retained earnings as at March 31, 2021 to be used by the Company for its business expansion projects for the year 2021 until 2024. Also, on the same date, the Company's BOD approved the reversal of the appropriated retained earnings in 2020 of P370,000,000 intended for the expansion projects.

On March 31, 2020, the Company's BOD approved the additional appropriation of P370,000,000 from its current retained earnings as at March 31, 2020 to be used by the Company for its business expansion projects for the year 2020 until 2023. Also, on the same date, the Company's BOD approved the reversal of the appropriated retained earnings in 2019 of P301,000,000 intended for the expansion projects.

15. Cost of Services

This account consists of:

		P30,210,933	P9,499,459

17. Lease Agreements

All of the Company's leases are long term.

JESA Building, Cebu City

The Company entered into lease agreements for the corporate office unit it occupies in Cebu City. The lease term for the corporate office unit cover ten years with a free fitting out period of three months and an option to extend for another ten years. The lease term is from April 1, 2011 to March 31, 2021. Future payments under these lease agreements are subject to escalation rate of fifteen percent (15%) after the first five years. The Company entered into an extension of the lease contract for additional spaces in the same building starting May 1, 2014 up to March 31, 2021. Escalation of three percent (3%) per year is effective starting May 1, 2015. Rent free construction period is for two months.

During the quarter ended September 30, 2014, the Company entered into a new lease agreement to occupy additional office unit in the same building. The lease term for the unit is from July 1, 2014 to March 31, 2021 with a rent-free construction period from July 1, 2014 to August 31, 2014.

The lease agreements in JESA Building are renewable upon mutual agreement of both the lessor and the lessee. As at March 31, 2021, the lease agreement in JESA Building was not renewed.

EBLOC Tower 3, Cebu IT Park, Cebu City

In 2015, the Company entered into a lease agreement for the office unit and parking spaces for its expansion project located in EBLOC Tower 3, Cebu IT Park, Cebu City. The lease term for office unit is from January 6, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting January 1, 2016.

On the same year, the Company entered into a new lease agreement to occupy additional office unit and parking spaces in the same building. The lease term is from May 14, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting May 14, 2016.

Another lease agreement was entered by the Company on the same building for the lease of additional office units and parking spaces. The lease term is from October 15, 2015 to January 5, 2023 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting October 15, 2016.

In 2019, the Company entered into a new lease agreement to occupy additional office unit and parking spaces located on the same building. The lease term is from June 15, 2019 to June 14, 2024. The lease payment is fixed for the entire duration of the lease.

The lease agreements in EBLOC Tower 3 are renewable upon mutual agreement of both the lessor and the lessee.

Filinvest Cebu, Cyberzone Tower 2, Cebu City

In 2019, the Company entered into a new lease agreement to occupy office units located in Filinvest Cebu, Cyberzone Tower 2, Cebu City. The lease term is from September 1, 2019 to August 31, 2025 with free rent for the first three months of the actual handover date. Escalation of five percent (5%) per year is effective starting September 1, 2020.

The Company also entered into two new lease agreements on the same building for the lease of additional office units. One lease agreement has a lease term from October 1, 2019 to August 31, 2025 while the other lease agreement has a lease term from December 1, 2019 to August 25, 2025. Both the lease agreements have free rent for the first three months of the actual handover date and escalation of five percent (5%) per year effective October 1, 2020 and December 1, 2020, respectively.

The Company will have the right to renew the lease for two (2) further five-year (5) lease terms by sending a written notice to the lessor not less than six (6) months prior to expiry of the initial term of these lease agreements.

The details of the Company's ROU assets and lease liabilities for these leases as shown below.

I. ROU Assets

The movements as at March 31, 2020 are as follows:

	Note	**2021**	2020
Cost			
Balance at beginning of year		**P402,117,877**	P120,423,202
Additions during the year		**-**	281,694,675
		402,117,877	402,117,877
Accumulated Amortization			
Balance at beginning of year		**63,264,496**	-
Amortization	15, 16	**85,926,620**	63,264,496
Balance at end of year		**149,191,116**	63,264,496
Net carrying value		**P252,926,761**	P338,853,381

II. Lease Liabilities

The movements in lease liabilities as at March 31, 2020 are as follows:

	Note	2021	2020
Balance at the beginning		**P363,494,823**	P151,356,347
Additions		**-**	281,694,675
Accretion of interest expense		**17,056,630**	13,579,695
Repayments		**(98,960,101)**	(83,135,894)
Carrying value		**281,591,352**	363,494,823
Less current portion		**87,803,978**	73,333,680
Noncurrent portion		**P193,787,374**	P290,161,143

III. Amounts in Profit or Loss

Amounts recognized in statements of comprehensive income are as follows:

	Note	2021	2020
Depreciation on right-of-use assets	15, 16	**P85,926,620**	P63,264,497
Accretion of interest expense		**17,056,630**	13,579,695
		P102,983,250	P76,844,192

IV. Future Minimum Lease Payments

The maturity analysis on the undiscounted lease liabilities is as follows:

	2021	2020
Maturity Analysis - Contractual Undiscounted Cash Flows		
Not more than 1 year	**P96,253,480**	P102,037,702
More than 1 year but less than 5 years	**237,745,187**	294,370,672
Total undiscounted lease liabilities	**P333,998,667**	P396,408,374

There is no short-term lease for the years ended March 31, 2021 and 2020.

18. Retirement Benefits Costs

The Company does not have an established formal retirement plan as at March 31, 2021 and 2020. It recognizes retirement benefits costs in accordance with the minimum regulatory benefit under Republic Act No. 7641, which is a defined benefit type. In the absence of a formal established retirement plan, the retirement benefit obligation is not yet funded. Retirement benefits are based on employees' years of service and compensation levels during employment period. Actuarial valuations are made with sufficient regularity. The most recent actuarial valuation was made for the year ended March 31, 2021. The principal actuarial assumptions used to determine retirement benefits were as follows:

Regulatory Framework in which the Retirement Plan Operates

In accordance with the provisions of the RA 7641, the Company is required to pay eligible employees at least minimum regulatory benefit upon normal retirement, subject to age and service requirements.

Responsibilities of Trustee

Since the Company does not have a formal, trusteed Retirement Plan, there are no Trustees yet.

Description of Plan Characteristics and Associated Risks

The calculations were based on the provisions of the minimum mandated benefit under RA 7641. However, it should be noted that in the event a benefit claim arises, the benefit shall immediately be due and payable from the Company.

Amounts Recognized in the Financial Statements

The principal actuarial assumptions used to determine retirement benefits were as follows:

	2021	2020
Discount rate	**4.25%**	5.00%
Salary increase rate	**6.00%**	6.00%

Maturity Profile of Expected Future Benefit Payments

The company's expected future benefit payment is shown below:

	2021	2020
Beyond five years (6 to 10 years)	**P24,446,200**	P16,252,490

The movements of the present value of defined benefit obligation (DBO) which is also the amount of retirement benefits obligation recognized in the statements of financial position is as follows:

	Note	2021	2020
Balance at beginning of year		**P12,471,980**	P3,485,321
Current service cost	15, 16	**29,336,292**	7,914,672
Interest cost	15, 16	**611,056**	471,440
Past service cost	15, 16	**-**	7,067,207
Benefits paid		**(2,290,543)**	(880,451)
Remeasurement gain		**(11,301,585)**	(5,586,209)
Balance at end of year		**P28,827,200**	P12,471,980

The retirement benefits cost recognized as part of "Cost of services" and "Operating expenses" accounts in the statements of comprehensive income for the years ended March 31, 2021 and 2020 were determined as follows

	Note	2021	2020
Current service cost		**P29,336,292**	P7,914,672
Past service cost		**-**	7,067,207
Interest cost		**611,056**	471,440
	15, 16	**P29,947,348**	P15,453,319

The retirement benefits costs are broken down as follows:

	Note	2021	2020
Costs of services	15	**P19,213,683**	P7,514,238
Operating expenses	16	**10,733,665**	7,939,081
		P29,947,348	P15,453,319

The movement of cumulative remeasurement gain presented in the statements of changes in equity follows:

	2021	2020
Balance at beginning of year	**P24,955,744**	P19,369,535
Actuarial gain (loss):		
Due to liability assumption changes	**(3,372,900)**	(2,266,735)
Due to liability experience	**14,674,485**	7,852,944
	11,301,585	5,586,209
Balance at the end of year	**P36,257,329**	P24,955,744

Amount, Timing and Uncertainty of Future Cash Flows

Sensitivity analysis on the defined benefits obligation is as follows:

2021		**Sensitivity Analysis**	**Effect on DBO**
Discount rate	**5.25%**	**1% increase**	**(15.16%)**
Discount rate	**3.25%**	**1% increase**	**19.28%**
Salary increase rate	**7.00%**	**1% increase**	**18.73%**
Salary increase rate	**5.00%**	**1% increase**	**15.07%**

2020		Sensitivity Analysis	Effect on BDO
Discount rate	6.00%	1% increase	(16.51%)
Discount rate	4.00%	1% decrease	21.01%
Salary increase rate	7.00%	1% increase	20.57%
Salary increase rate	5.00%	1% decrease	(16.51%)

Methods and Assumptions Used in Sensitivity Analysis

All other assumptions were kept constant in determining the sensitivity results above.

Changes since previous period

There were no changes in the methods and assumptions used in preparing the sensitivity analysis.

Description of Assets-liability Matching Strategies

Since the DBO is still unfunded, there are no plan assets to match against the DBO.

Description of Funding Arrangement and Policies

Since the DBO is still unfunded, benefit claims under the DBO are paid directly by the Company when they become due.

19. Income Taxes

The reconciliation of the income tax expense computed at the statutory income tax rate to the actual income tax expense as shown in the statements of comprehensive income for the years ended March 31 is as follows:

	2021	2020
Current income tax expense	**P4,478,631**	P5,785,680
Deferred tax expense	**(44,793)**	(110,411)
	P4,433,839	P5,675,269

The reconciliation of the income tax expense computed at the statutory income tax rate to the actual income tax expense as shown in the statements of comprehensive income for the years ended March 31 is as follows:

	2021	2020
Profit before income tax	**P122,821,599**	P105,135,722
Less: Other income subject to RCIT	**4,117,637**	10,114,897
Profit subject to GIT	**P118,703,962**	P95,020,825
Tax expense at 5%	**P5,935,198**	P4,751,041
Non-deductible expense	**24,545,308**	12,576,292
Movement on unrecognized DTA	**60,197**	416,153
Nontaxable income subject to final tax	**(6,602)**	(8,235)
Nontaxable income subject to tax holiday	**(27,181,142)**	(15,094,451)
Tax expense subject to 30% RCIT	**1,080,880**	3,034,469
Balance at end of year	**P4,433,839**	P5,675,269

*For the year ended March 31, 2021, the Company used the transitory rate of 26.25% provided by the Bureau of Internal Revenue (BIR) in its Revenue Regulations (RR) 5-2021 dated April 8, 2021. For the year ended March 31, 2020, the Company used 30% income tax rate.

The tax rate used for the 2021 and 2020 reconciliation above is the 5% special rate whose tax base is the gross income under the PEZA registered activities. Any income earned outside the PEZA registered activities are subject to Regular Corporate Income Tax (RCIT).

The deferred tax assets arising from various provisions and unrealized foreign exchange loss amounting to P60,197 in 2021 and P416,153 in 2020 were not recognized as the management does not expect that there will be sufficient taxable profits against which the assets can be utilized before the expiration

The deferred tax liability arising from the unrealized foreign exchange gains amounting to nil in 2021 and P44,793 in 2020 is recognized by the Company.

Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act.

CREATE is an act reforming the corporate income tax and incentives system, amending for the purpose certain sections of Internal Revenue Code of 1997, as amended, and creating therein new title XIII, and for other purposes.

On March 26, 2021, the President of the Philippines has approved the CREATE Act, with nine (9) provisions vetoed by the President. Below are the salient features of the Act that are relevant to the Company:

a) Corporate income tax rate is reduced from 30% to 20% for domestic corporations with net taxable income not exceeding P5 million and with total assets not exceeding P100 million. All other domestic corporations and resident foreign corporations will be subject to 25% income tax. Said reductions are effective July 1, 2020.

b) Minimum corporate income tax (MCIT) rate is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.

c) The imposition of improperly accumulated earnings tax has been repealed.

d) Definition of reorganization for purposes of applying the tax-free exchange provision under Section 40(C)(2) is expanded. Prior BIR ruling or confirmation shall not be required for purposes of availing the tax exemption of the exchange.

e) Qualified export enterprises shall be entitled to 4 to 7 years income tax holiday (ITH) to be followed by 10 years 5% SCIT OR Enhanced Deductions (ED).

f) Qualified domestic market enterprises shall be entitled to 4 to 7 years ITH to be followed by 5 years ED.

g) Registered enterprises are exempt from customs duty on importation of capital equipment, raw materials, spare parts, or accessories directly and exclusively used in the registered project or activity.

h) VAT exemption on importation and VAT zero-rating on local purchases shall only apply to goods and services directly and exclusively used in the registered project or activity by a registered business enterprise (RBE).

i) For investments prior to effectivity of CREATE: RBEs granted only an

   ITH - continue with the availment of the ITH for the remaining period of the ITH. RBEs granted an ITH + 5% GIT or currently enjoying 5% GIT - allowed to avail of the 5% GIT for 10 years.

   The measure is set to take effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation. After which, the implementing rules and regulation will be issued by the tax authority.

   On April 8, 2021, the Bureau of Internal Revenue (BIR) issued the following implementing revenue regulations that are effective immediately upon publication:

   - BIR Revenue Regulations (RR) No. 2-2021, Amending Certain Provisions of Revenue Regulations No. 2-98, As Amended, to Implement the Amendments Introduced by Republic Act No. 11534, or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), to the National Revenue Code of 1997, as Amended, Relative to the Final Tax on Certain Passive Income

   - BIR RR No. 3-2021, Rules and Regulations Implementing Section 3 of Republic Act (RA). No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” or “CREATE”, Amending Section 20 of the National Internal Revenue Code of 1997, As Amended

   - BIR RR No. 4-2021, Implementing the Provisions on Value-Added Tax (VAT) and Percentage Tax Under Republic Act (RA) No. 11534, Otherwise Known as the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE) Which Further Amended the National Revenue Code of 1997, as Amended, as Implemented by Revenue Regulations (RR) No. 16-2005 (Consolidated Value-Added Tax Regulations of 2005), As Amended

   - BIR RR No. 5-2021, Implementing the New Income Tax Rates on the Regular Income of Corporations, on Certain Passive Incomes, Including Additional Allowable Deductions from Gross Income of Persons Engaged in Business or Practice of Profession Pursuant to Republic Act (RA) No. 11534 or the “Corporate Recovery and Tax Incentives for Enterprises Act” (CREATE), Which Further Amended the National Revenue Code (NIRC) of 1997

The corporate income tax of the Company will be lowered from 30% to 25% for large corporations on which the Company would qualify effective July 1, 2020.

20. Fair Value Information

The fair value of Company's financial assets and liabilities:

	Note	**2021**		2020	
		Carrying Amount	**Fair Value**	Carrying Amount	Fair Value
Financial Assets					
Cash and cash equivalents	6	**P322,813,523**	**P322,813,523**	P135,510,615	P135,510,615
Trade receivables	7	**162,126,101**	**162,126,101**	110,099,505	110,099,505
Refundable deposits	11	**29,271,618**	**29,271,618**	28,756,827	28,756,827
		P514,211,242	**P514,211,242**	P274,366,947	P274,366,947
Financial Liabilities					
Trade and other payables*	12	**P108,782,931**	**P108,782,931**	P100,824,079	P100,824,079
Lease liabilities	17	**281,591,352**	**281,591,352**	363,494,823	363,494,823
		P390,374,283	**P390,374,283**	P464,318,902	P464,318,902

*Excluding non-financial liabilities amounting toP12,607,516 and P9,481,362 as at March 31, 2021 and 2020, respectively.

The difference between the carrying amount of trade and other receivables and trade and other payables disclosed in the statements of financial position and the amount disclosed in this note pertains to advances to officers and employees and government payables since these are not considered as financial assets or liabilities.

The following summarizes the major methods and assumptions used in estimating the fair values of financial instruments:

Cash and Cash Equivalents, Trade and Other Receivables and Trade and Other Payables

The carrying amounts approximate their fair values due mainly to the relatively short-term maturities of these financial instruments.

Refundable Deposits

The carrying amount approximates its fair value because it is stated at present value using an interest rate similar to the prevailing market rate for a similar instrument.

Lease Liabilities

The carrying amount approximates its fair value because the difference between the interest rate of this instrument and the prevailing market rate for a similar instrument is not considered significant.

21. Financial Risk Management

Financial Risk Management Objectives and Policies

The main purpose of the Company's financial instruments is to fund the Company's operation and to acquire and improve property and equipment. The main risks arising from the use of financial instruments are credit risk, liquidity risk and market risk which includes interest rate risk and foreign currency risk. These are summarized below::

Credit Risk

Credit risk is the risk that a counterparty will not meet its obligation under a financial instrument or customer contact, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily from cash and cash equivalents and receivables).

With respect to credit risk arising from the Company's financial assets, which comprise of cash and cash equivalents, trade receivables and refundable deposits, the Company's exposure to credit risk arises from default of the counterparty with a maximum exposure equal to the carrying amount of these instruments.

The Company controls this risk through monitoring procedure and regular coordination with the debtors. Receivable balances are monitored on an ongoing basis with the result that its exposure to bad debts is not significant.

The table below presents the Company's maximum exposure to credit risk without taking account of the value of any collateral obtained:

	Note	2021	2020
Cash and cash equivalents*	6	**P322,743,523**	P135,440,615
Trade receivables	7	**162,126,101**	110,099,505
Refundable deposits	11	**29,271,618**	28,756,827
		P514,141,242	P274,296,947

*Excluding Cash on hand amounting P70,000 in 2021 and 2020

The Company does not hold any collateral or other credit enhancements to cover its credit risks associated with its financial assets.

ECLs are a probability-weighted estimate of credit losses (i.e. the present value of all cash shortfalls) over the expected life of the financial instrument.

The Company's current credit risk grading framework comprises the following categories:

Category	Description	Basis for Recognizing ECL
Performing	The counterparty has a low risk of default and does not have any past-due amounts	Lifetime ECL
Doubtful	Amount is >30 days past due or there has been a significant increase in credit risk initial recognition	Lifetime ECL - not credit-impaired
In default	Amount is >90 days past due or there is evidence indicating the asset is credit-impaired	Lifetime ECL - credit-impaired
Write-off	There is evidence indication that the debtor is in severe financial difficulty and the Company has no realistic prospect of recovery	Amount is written-off

The following table details the credit quality of the Company's financial assets and other items, as well as the Company's maximum credit exposure to credit risk by credit risk rating grades as at March 31, 2021 and 2020:

2021	**Note**	**Internal Credit-rating**	**12m or Lifetime ECL**	**Gross Carrying Amount**	**Loss Allowance**	**Net Carrying Amount**
Cash and cash equivalents*	6	**Performing**	**12m ECL**	**P322,743,523**	**P -**	**P322,743,523**
Trade receivables	7	**Performing**	**Lifetime ECL**	**162,126,101**	**-**	**162,126,101**
Refundable deposits	11	**Performing**	**Lifetime ECL**	**56,539,247**	**27,267,629**	**29,271,618**
				P541,408,871	**P27,267,629**	**P514,141,242**

*Excluding Cash on hand amounting to P70,000

2020	Note	Internal Credit-rating	12m or Lifetime ECL	Gross Carrying Amount	Loss Allowance	Net Carrying Amount
Cash and cash equivalents*	6	Performing	12m ECL	P135,440,615	P -	P135,440,615
Trade receivables	7	Performing	Lifetime ECL	110,099,505	-	110,099,505
Refundable deposits	11	Performing	Lifetime ECL	56,024,456	27,267,629	28,756,827
				P301,564,576	P27,267,629	P274,296,947

*Excluding Cash on hand amounting to P70,000

For trade receivables, the Company has applied the simplified approach in PFRS 9 to measure the loss allowance at lifetime ECL. The Company determines the ECL on these items by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix.

Liquidity Risk

Liquidity pertains to the risk arising from the shortage of funds due to unexpected events or transactions.

The Company seeks to manage its liquidity profile to be able to finance its capital expenditures and operations. The Company maintains a level of cash deemed sufficient to finance operations. To cover its financing requirements, the Company obtains advances from its Parent Company, when necessary. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows.

The table below summarizes the maturity profile of the Company's financial assets and liabilities as at March 31, 2021 and 2020 on undiscounted contractual cash flows.

2021	**Note**	**On Demand**	**Due Within 30 Days**	**Due Within 1 Year**	**Due Beyond 1 Year but not More than 5 Years**	**Total**
Cash and cash equivalents	6	**P12,363,523**	**P310,380,000**	**P -**	**P -**	**P322,743,523**

*Excluding Cash on hand amounting to P70,000.

**Excluding non-financial liabilities amounting to P9,481,362..

Interest Rate Risk

Interest rate risk is the risk that the value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The primary source of the Company's interest rate risk relates to cash in banks and lease liabilities. The interest rates on these assets is disclosed in Notes 6 and 17.

The Company has a policy in place in managing interest rate risk and is monitored on an ongoing basis

Foreign Currency Risk

Foreign exchange risk arises when an investment 's value changes due to variations in the currency exchange rate. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities that are denominated in a currency that is not the Company's functional currency. The Company undertakes certain transactions denominated in Philippine Peso. Hence, exposures to exchange rate fluctuations arise with respect to such transactions.

Significant fluctuation in the exchange rates could significantly affect the Company's financial position. The Company has a policy in place in managing foreign currency risk and is monitored on an ongoing basis.

The carrying amounts of the Company's foreign currency-denominated monetary assets and monetary liabilities at the end of each reporting period are as follows:

	2021	2020
Cash and cash equivalents	**P147,463,505**	P62,473,756
Trade and other receivables	**162,126,101**	109,571,407
	309,589,606	172,045,163
Trade and other payables	**-**	(1,150,625)
Net exposure	**P309,589,606**	P170,894,538

The following table details the Company's sensitivity to the exchange rate fluctuation of U.S. Dollar against Philippine Peso. The sensitivity rates used in reporting foreign currency risk internally to key management personnel is 5% in 2021 and 2020 which represent Management's assessment of the reasonably possible change in foreign exchange rates based on historical trends. The sensitivity analysis includes only outstanding foreign currency-denominated monetary items as at the end of the reporting period. A negative number below indicates a decrease in profit when the US Dollar strengthen by 5% in 2021 and 2020 against the relevant currency. For a 5% in 2021 and 2020 increase of the US Dollars against Philippine Peso, there would be an equal and opposite impact on profit and the balances below would be negative.

	Effect on Profit Before Tax for the Year	
	2021	2020
Cash and cash equivalents	**P7,373,175**	P3,123,688
Trade and other receivables	**8,106,305**	5,478,570
Trade and other payables	**-**	(57,531)
	P15,479,480	P8,544,727

The above sensitivity analysis is applicable in determining the effect on equity of the changes in foreign exchange rates.

In Management 's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

22. Capital Risk Management

The primary objective of the Company's capital management is to ensure that it maintains healthy capital ratios in order to support its business, maximize shareholder value, maintain various stakeholders' confidence and sustain future development of the business. The Company manages its capital structure and makes adjustments to these ratios in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may issue stock dividend to shareholders, return or issue capital. No significant changes have been made in the capital management approach as they have been applied in previous years. The Company has not been subjected to externally imposed capital requirements. No major changes were made in the objectives, policies and procedures in 2021 and 2020.

The Company considers the following as its capital:

	2021	2020
Share capital	**P9,500,000**	P9,500,000
Retained earnings	**490,771,043**	372,383,282
Cumulative remeasurement gain on retirement benefits	**36,257,329**	24,955,744
	P536,528,372	P406,839,026

The debt to equity ratio at year-end was as follows:

	2021	2020
Debt	**P433,627,916**	P489,731,360
Equity	**536,528,372**	406,839,026
	0.81:1	1.20:1

23. Other Matter

On March 8, 2020, under Proclamation 922, the President of the Philippines (the "President") has declared a state of public health emergency due to the spread of the Corona Virus Disease 2019 (COVID-19) in the country. As of report date, the country is still under various types of community quarantine to prevent the spread of COVID-19.

The Company was not significantly affected by these events as the Company is still able to continue its operations using the work-from-home arrangement. The increase in expenses caused by the COVID 19 pandemic has no impact as the Company is under a cost-plus arrangement. The Management assessed that that business will still expand in the succeeding years.

Despite or amidst this event, the financial statements have been prepared on a going concern basis of accounting as of reporting date since the Company implemented all measures to mitigate the risks on their business operations.

24. Supplementary Information Required Under Revenue Regulations No. 15-2010 of the Bureau of Internal Revenue (BIR)

In addition to the disclosure mandated under PFRSs, and such other standards and/or conventions as may be adopted, companies are required by the BIR to provide in the notes to the separate financial statements, certain supplementary information for the taxable year. The amounts relating to such supplementary information may not necessarily be the same with those amounts disclosed in the separate financial statements which were prepared in accordance with PFRSs. Following are the tax information/disclosures required for the taxable year ended March 31, 2021:

A. VAT

	Amount
1. Output VAT	**P9,827,902**
Account title used:	
Basis of the Output VAT:	
Vatable sales	
Zero rated sales	**P81,899,187**
	1,401,211,248
	P1,483,110,435

In 2021, the Company has zero-rated sales amounting to P1,401,211,248. In accordance with pertinent tax laws and revenue regulations, zero-rated sale of services consists of export sales.

B. Withholding Taxes

	Amount
Compensation withholding taxes	**P21,002,004**
Expanded withholding taxes	**11,380,154**
Final withholding taxes	**-**
	P32,382,158

C. All Other Taxes (Local and National)

	Amount
Other taxes paid during the year recognized as	
"Taxes and licenses" account under Expenses	
Business tax	**P203,518**
BIR annual registration	**1,500**
	P205,018

D. Tax Assessments and Tax Cases

As at March 31, 2021, the Company has no pending tax court cases or tax assessment notices from the BIR.

Information on amounts of custom duties, tariff fees, excise taxes and documentary stamp taxes is not applicable since there are no transactions that the Company would be subjected to these taxes in 2021.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of Tech Mahindra Limited

Report on the Audit of Special Purpose Financial Statements

Opinion

We have audited the special purpose financial statements of PF Holdings B.V. ("the Company"), which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (together herein after referred to as "financial statements"). These financial statements have been prepared by the management as described in Note 2 to the financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, of the state of affairs of the Company as at 31 March 2021, and of its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date in accordance with Note 2 to the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as described in Note 2 to the financial statements. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are

reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Basis of Accounting and Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note 2 to the financial statements, which describes the basis of accounting. These financial statements are prepared to assist the Holding Company, Tech Mahindra Limited to comply with the requirements of Section 129 of the Act / in the preparation of their Consolidated Financial Statements. These financial statements are not the statutory financial statements of the Company. As a result, these financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted or circulated, or referred to, in correspondence or discussion, in whole or in part or distributed to anyone other than the purpose for which it has been issued without our prior written consent.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Note

1 Corporate information

The Company was incorporated on April 29, 2016. The principal place of business of the Company is at 2516, CK, The Hague, Maanplein, 20, The Netherlands. The financial statements are expressed in EURO (EUR).

The principal activities of the Company are financing of the acquisition and constitution of the subsidiary company and enabling the shareholders to fulfill the terms of acquisition in documents including the further capitalisation of the subsidiary and the proposed mandatory tender offer in relation to acquisition of public shareholding of the subsidiary.

The Company is a 60% subsidiary of Tech Mahindra Limited (India).

The financial statements of the Company for the year ended March 31, 2021 were authorised for issue by the Board of Directors on May 19, 2021.

2 Significant accounting policies:

2.1 Statement of Compliance:

The special purpose financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as amended from time to time.

2.2 Basis of preparation of financial statements

These financial statements have been presented in Euro (EUR) which is the functional currency of the Company. These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 Inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The Financial statements have been prepared as per section 129 (1) of the Act to assist the Tech Mahindra Limited (Parent Company) for preparation of consolidated financial statements and for the purpose of compliance with the provisions of section 129 and Section 136 read with Schedule III of the Companies Act, 2013

2.3 Use of estimates

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

2.4 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.5 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.6 Revenue recognition

Interest income is recognised using the effective interest rate method.

Dividend income is recognised when the Company's right to receive dividend is established.

2.7 Earnings per share

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.8 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognized in the profit or loss.

2.9 Financial Instruments:

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at fair value through profit and loss (FVTPL). Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.10 Taxes on income

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the country.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

2.11 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.

2.12 Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Separate Financial Statements.”

2.13 Financial Guarantee contracts

Financial guarantee contracts issued by the Company are initially measured at fair value and subsequently measured at the higher of the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 115.

2.14 Leases:

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019). Since the Company had no leased premises as on April 1, 2020, there was no effect of adoption of Ind AS 116 on the Company.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.”

2.15 Critical accounting estimates

Impairment testing

“Investments in subsidiary is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating units to which these pertain is less than its carrying value. The recoverable amount of Cash Generating Units (CGU) is higher of value-in-use and fair value less cost to dispose. The calculation of value in use of a cash generating unit involves use of significant estimates and assumptions which includes turnover and earnings multiples, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions. Investments in subsidiaries are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss. For the period ended March 31, 2021 no impairment has been charged in books.”

2.16 New Accounting Standards yet to be adopted

The Ministry of Corporate Affairs (“”MCA””) notifies new standard or amendments to the existing standards. There are no such notifications that are applicable for the Company from April 1, 2021.

Note 3 : Investments : Non Current

11 Financial Instruments and Risk Review

The Company’s activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors.Following are the financial risk factors.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes.

(b) Liquidity Risk:

Liquidity risk refers to the risk that the company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirement.

The table below provides details regarding the contractual maturities of significant financial liabilities as on March 31, 2021.

Particulars	Less than 1 year	1-3 years	3-5 years	5 years and above
Trade Payables	25,283	-	-	-
Financial liabilities	67,945			
Total	**93,228**	**-**	**-**	**-**

12 The Company has an investment in subsidiary ‘Pininfarina S.p.A. This investment is accounted for at cost less impairment. Management assesses the operations of the subsidiary, including the future projections, to identify indications of diminution, other than temporary, in the value of the investment recorded in the books of account.

In case impairment triggers are identified, the recoverable amount of the investment is estimated in order to determine the extent of the impairment loss. With respect to determination of recoverable amount of investment based on fair value less costs of disposal, the fair value measurement of the asset is determined using the market approach and is categorised as Level 1 in the fair value hierarchy. Estimates of future cash flows used in the value in use calculation are specific to the entity based on business plans and need not be the same as those of market participants.

The share price of the subsidiary and the relevant economic and market indicators in its country of operation, did not require to the Company to reassess recoverable amount of investment in the subsidiary, as on March 31, 2021.

Consequently, the Company has not recognized any impairment loss for the year ended March 31, 2021 (March 31, 2020: Euro 22,091,224).

13 The Company had no contingent liabilities outstanding as on the balance sheet date.

14 The Company is a holding company and accordingly, there are no separate business segments.

15 Previous year's figures have been regrouped/reclassified wherever necessary to correspond with the current year's classification/disclosure.

Market performance

In 2020, the global automotive market was negatively affected by two related factors:

- the difficulties that came to light in 2019, which continued into 2020, with falling sales volumes and the subsequent strong pressure on profitability throughout the automotive supply chain;
- the difficulties caused by the spread of the Coronavirus worldwide as from February 2020.

Specifically, car manufacturers, involved in major investments in new technologies (electric cars in particular), reduced their expenditure earmarked for the development of traditional cars. At the same time, the electric car sector's start-ups found it difficult to raise the funds necessary to develop new vehicles and were consequently forced to scale back their initial projects or abandon them. The difficulties caused by the spread of Covid-19 augmented this already tough situation. The development of new products slowed down again while almost all companies faced serious liquidity problems caused by the collapse of car sales that negatively affected the entire supply chain.

Pininfarina Group, the Coronavirus and the reference market

The group companies and their markets were affected by the combination of the above effects to different degrees.

The Chinese operations, run by Pininfarina Shanghai, were heavily affected by the public health emergency, especially in the first five months of the year. The situation has gradually improved starting from June, partly thanks to government incentives aimed at restoring normal conditions in the sector as quickly as possible.

Pininfarina Engineering S.r.l. saw a drastic contraction in its project development activities during the year and it also continued to find it difficult to agree contracts with sufficient profit margins to cover its costs, due to the reduction in international demand for its services (seen since the second half of 2019) and the concurrent drop in market prices. In October 2020, given the company's current and forecast inability to restore its financial position and financial performance and in order to prevent its financial deficit from worsening further, the subsidiary's quotaholders resolved to wind it up.

The German market, where Pininfarina Deutschland operates, saw a steady reduction in OEM's demand for engineering services as well as the delay/cancellation of projects that had already been approved. As a result of the drop in demand for services and in prices, which is considered to be a permanent rather than a temporary issue caused by the Coronavirus pandemic, the company rolled out a redundancy plan involving the gradual exit of about 20% of its workforce.

The architecture and industrial design sectors, managed by Pininfarina of America in the US market, have not been negatively affected by the Coronavirus.

During the year, Pininfarina S.p.A.'s performance differed depending on the service it rendered. Its wind tunnel activities were drastically curtailed due to the impossibility of carrying out tests in the presence of customers for most of the first half of the year (because of the lock-down in Italy) and subsequently due to the travel restrictions imposed by other countries or company policies adopted by customers. Workshop activities were also shuttered for a few months by the government measures. The situation is gradually improving although the operations remain significantly lower than before the pandemic.

Other operations, e.g., architecture, design and industrial design, were mostly not affected by the restrictions imposed by the Coronavirus pandemic compared to the related forecasts.

Covid-19 pandemic management measures

At the onset of the public health emergency, the parent, Pininfarina S.p.A., established a Covid-19 committee responsible for assessing and deciding on all of the measures to be taken by the group companies to address issues related to their workers' health and management of their business. Specifically, from February to May (and subsequently when necessary), the committee met on a bi-weekly basis, to define all the measures required to comply with the regulations issued from time to time by the government (sanitisation of the work premises, availability of personal protection equipment, organisation of video conferences, suspension of all business trips, specific rules for the use of the canteen, social distancing, etc.). With the start of the lock-down period (on different dates depending on the individual country) substantially all activities were continued remotely (the only exception being the activities in the workshops and the wind tunnel in Italy which were suspended). Following the reopening of the offices and facilities (May and June), the employees' presence in the office has been limited as much as possible, accounting for approximately 35% of the total workforce (Italian companies). In the second half of the year, remote working was encouraged as much as possible, depending on the activities to be carried out, involving an average of 25% of employees on a revolving basis.

The costs incurred by the Group to purchase materials and to comply with the public health emergency safety regulations amounted to approximately €0.1 million.

Cash flows

The Group's cash and cash equivalents rose by €8.4 million during the year, whereas its bank overdrafts fell by €2.3 million. The non-current bank loans and borrowings decreased by approximately €1.9 million.

As mentioned in the 2020 interim reports, Pininfarina S.p.A. signed a €20 million loan agreement with the Mahindra Group in February 2020 which increased the funds available for all its Group's potential requirements, including those possibly deriving from changes in the business imposed by the spread of the Coronavirus. The loan (never used) was replaced by an irrevocable capital injection from the majority shareholder for future capital increases disbursed in November 2020.

Thanks to the above capital injection, the parent's and Group's liquidity increased compared to the previous year end, despite the cash outflows principally caused by the redundancy and corporate reorganisation plans implemented in Italy.

Neither the parent, Pininfarina S.p.A., nor its subsidiary Pininfarina Engineering S.r.l. in liquidation availed themselves of the loans provided for by the measures approved by the Italian government to support companies or granted by banks. The subsidiary Pininfarina of America Corp. received a bank loan of roughly €0.2 million as part of the measures introduced by the Small Business Administration to tackle the effect of the pandemic in the United States.

Pininfarina S.p.A.'s financial debt

The parent has continued to meet its obligations, without undue distress, including those under the debt rescheduling agreement (2016-2025) with certain banks. Such agreement provides for just one financial covenant (consolidated equity at a minimum of €30 million), compliance with which is assessed at 31 March each year up until repayment of the loan. At 31 March 2020, the covenant had been complied with and, although irrelevant for contractual purposes, it is still complied with at the reporting date. Should the minimum equity threshold not be complied with, the agreement would not be automatically terminated, as it provides for specific remedies and the lending banks can also waive their right to take action. The Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

Pininfarina Group's financial performance and financial position

The Group recognised revenue of €67 million for 2020, a 26% decrease on the previous year regarding all companies/segments with the exception of the design and architecture services provided by Pininfarina of America on the US market.

The gross operating loss rose to €7.1 million from €1.7 million in 2019, due to the drop in revenue and sales prices caused by trends in the automotive segment, as mentioned above.

The operating loss came to €21.5 million compared to €19.4 million in 2019. In addition to the increase in the gross operating loss, the 2020 operating loss is due to the impairment losses of €1.8 million recognised on buildings and other assets as a result of the impairment test, in order to bring their carrying amount into line with their recoverable amount. Moreover, the Group made net accruals of €6.5 million to the restructuring provision and recognised other impairment losses of €5.2 million. These accruals and impairment losses were partially offset by the utilisation of the provision for losses to complete contracts (€3.1 million). In 2019, the Group reduced a facility's carrying amount to its fair value (by €4.0 million) and that of other assets to their recoverable amount (by €5.2 million).

Net financial expense increased to €1.9 million from €1.5 million for 2019. The worsening is mainly due to the fact that the parent did not recognise any financial income on investments of liquidity in 2020.

The Group recognised a tax expense of €1 million, principally due to the reversal of the deferred tax assets recognised by the Pininfarina Deutschland Group, compared to €2.2 million in the previous year, which was mostly affected by the reversal of the deferred tax assets recognised by the Italian companies in 2018.

As a result of the above, the Group recorded a loss for the year of €24.4 million compared to a loss of €23.1 million for the previous year.

Equity decreased by €4.8 million to €34.2 million at the reporting date, principally due to the positive difference between the loss for the year and the capital injection for future capital increases provided by the majority shareholder.

The net financial debt of €12 million at 31 December 2019 improved to a net financial position of €2.4 million at the reporting date, mainly due to the above-mentioned capital injection received from the Mahindra Group.

The workforce numbered 639 at the reporting date (31 December 2019: 672; -5%). A breakdown by business segment and by geographical segment is provided below.

Business segment

	Engineering	Design	General staff	TOTAL
2020	308	237	94	639
2019	344	220	108	672

Geographical segment

	Italy	Germany	China	USA	TOTAL
2020	373	215	38	13	639
2019	373	242	42	15	672

Support and relief measures

In accordance with ESMA recommendations (Public Statement 32-63-972 of 20 May 2020), the support and relief measures already enjoyed or that will be enjoyed by the Group are summarised below:

- in Italy, the Covid-19-government-sponsored lay-off scheme for 221 employees for a total of 52,570 hours;
- in Germany, the government-sponsored lay-off scheme (Kurzarbeit) for 65 workers for a total of 41,557 hours;
- in the US, the subsidiary Pininfarina of America Corp. received a loan of approximately €0.2 million, bearing interest at 1% p.a. and repayable in 18 monthly instalments starting from January 2021.

The Group plans to continue to use the social shock absorbers made available by the government in Italy.

Pininfarina S.p.A.

Significant events of the year

No other significant events took place during the year.

Human resources and the environment

During 2020:

- the Group implemented some procedures of the Covid-19-government-sponsored lay-off scheme;
- with reference to the Cambiano facility, the Group implemented two procedures as per Law decree no. 104 of 14 August 2020 offering termination benefits to a total of ten employees;
- with reference to the Bairo facility, the Group signed a trade union agreement before the relevant ministry for an extraordinary government-sponsored lay-off scheme due to discontinuation of activities for the entire year. In October 2020, it replaced it with a Covid-19-government-sponsored lay-off scheme;
- there were no deaths in the workplace and there was just one accident during the commute to/from work leading to occupational injury leave of less than 15 days. The procedure for an accident during the commute to/from work entailing occupational injury leave of more than 10 days that occurred in 2019 was reopened. The parent was not found liable for occupational diseases contracted by employees or former employees or mobbing;
- the parent reached agreements regarding remuneration issues with former employees and no cases were brought against the parent for financial and/or physiological damage (e.g., personal injuries, moral damage, hedonic damage, etc.).

After the start of its winding-up procedure at the end of October 2020, on 2 November 2020, Pininfarina Engineering S.r.l. in liquidation commenced a collective redundancy procedure for business discontinuation. After negotiations with the trade unions, an agreement was reached for a 12-month extraordinary government-sponsored lay-off scheme due to business discontinuation (until 31 October 2021) and the implementation of an accompanying social plan.

With reference to investments in safety in the workplace and the environment, the parent pays utmost attention to the continuous upgrading and/or improvement of operating layouts and machinery/equipment in line with relevant legislation. Expected investments for 2021 amount to roughly €750,000.

In general, protecting the environment and health and safety in the workplace are considered essential to achieve company objectives.

Further to the agreement (31 December 2009) to sell the Grugliasco facility to Sviluppo Investimenti Territorio S.r.l. (SIT), an environmental audit was carried out in 2011 on the site where the facility stands. It found that the hydrocarbons parameter in one small area exceeded the legal limit. The parent immediately commenced the reclamation procedures provided for by the environmental legislation. A dispute commenced with the Grugliasco local authorities during their approval of the risk analysis, as they requested that the analysis be extended to the entire facility, which they erroneously believed to be "abandoned". A hearing had been set for 18 November 2019 for the appeal pending before the Italian council of state. With its ruling no. 8170/2019, the council of state dismissed the appeal due to lack of interest, given Pininfarina S.p.A.'s willingness to become proactive, carrying out the reclamation activities as a non-accountable party (article 245 of Legislative decree no. 152/2006 as subsequently amended). Indeed, in 2018, Pininfarina S.p.A. had presented a site characterisation plan to the Grugliasco local authorities as an "interested" but not accountable party following the change in the facts and judicial grounds of the legal dispute. The local authorities approved the plan and calculated the costs to be borne by SIT for the activities that could have prevented the site's characterisation. The procedure is at an advanced stage. On 11 February 2020, executive order no. 106 was issued approving the site's risk assessment report with certain remedies, including the preparation of the reclamation operational plan to be sent to the local authorities. The remedies were implemented, including the filing of the operational plan on 17 December 2020.

In December 2019, SIT sued the parent before the Turin Court for alleged damage caused by the sale of the site in 2019 at an unfair price. The parent appeared in court requesting the dismissal of the claim. The case is currently pending.

Pininfarina S.p.A. has a 2015 UNI EN ISO 14001-certified environmental management system. A notified body carried out the periodic check of the system's compliance in the Italian facilities in 2020, finding it compliant.

Research

The Group did not carry out any research during the year, also considering the current economic conditions.

Going concern issues in the light of the Covid-19 pandemic

The estimated effects of Covid-19 for 2020

In 2020, the Group was affected by downturns in activities and/or cancellations of orders due to the Coronavirus (especially on the Chinese market and for certain services provided in Italy). The estimated effect of Covid-19 on consolidated revenue is a reduction of about €6.5 million compared to pre-Coronavirus forecasts. As mentioned above, the impact of the public health emergency on the various markets varies. Approximately 89% of the decrease is attributable to the Chinese market (where the lock-down affected most of the first half of the year), whereas roughly 11% is related to the Italian services offered to various markets and customers that the Group was unable to provide as a result of the lock-down period imposed in Italy, the border closures and certain customers' internal policies imposing a travel ban that all prevented the performance of commercial and operating activities. Taking into account the estimated effects already incurred in 2020, the outlook for the entire 2021 does not currently anticipate additional adverse impacts caused by Covid-19.

The decrease in revenue due to the Coronavirus, as detailed above, led to losses of approximately €2.2 million affecting the Group's operating loss for 2020 compared to the expected loss.

Group's performance, outlook and going concern issues

As mentioned earlier, the performance of the sectors/markets in which the Group operates is adversely affected by the simultaneous existence of two overlapping problems:

- the continuation of the negative economic cycle of the global automotive industry;
- the Covid-19 pandemic, which exacerbated the sluggish conditions of the Group's reference market, slowing down the acquisition of new contracts and/or reducing expected contract profit margins.

The impacts of the automotive sector's negative cycle on the Group's financial position and performance began in the second half of 2018 with an acceleration of this negative trend a year later. With the spread of the Covid-19 pandemic, starting from the end of the first quarter of 2020, the above trend was amplified and it is now generally accepted that a return to market conditions similar to the pre-Covid-19 period (more stable and profitable) will not occur in the next two/ three years.

In this environment of weak reference markets and given the expectations about their future performance, the parent is tackling three closely related issues:

- maintaining an appropriate level of liquidity for the Group's requirements;
- protecting the capitalisation level required by the law and bank agreements;
- creating the conditions for restoring profitability as soon as possible.

With reference to the liquidity issue, at the beginning of 2020, the parent received a €20 million loan from its majority shareholder, PF Holdings B.V., usable by the Group for any financial requirements. As discussed earlier, the loan (never used) was replaced by an irrevocable capital injection from the majority shareholder for future capital increases disbursed in November 2020. Thanks to the above capital injection, the parent's and Group's liquidity at the reporting date increased compared to the previous year end, despite the cash outflows principally caused by the redundancy and corporate reorganisation plans implemented in Italy. To further improve the Group's liquidity, the subsidiary Pininfarina Deutschland Holding GmbH sold one of its buildings for €5.1 million, €1 million of which was received in 2020, while the remainder was to be paid in February 2021. In December 2020, the German subsidiary used the proceeds from the sale to extinguish a short-term credit line. Considering the nature of the Group's customers, there are no particular collection issues as there are no past due amounts which may affect the Group's cash flows from operating activities. In the foreseeable future, the following should be taken into account: the parent's net financial position amounts to €4.7 million, comprising cash and cash equivalents and financial assets of €27.3 million and loans and borrowings of €3.7 million, whose current portion amounts to €3.7 million. The Group's net financial position amounts to €2.4 million at the reporting date. According to the 12-month cash budget prepared by the directors, the parent's and Group's financial resources at the reporting date are adequate to cover the expected operating cash outflows, which are expected to exceed inflows again in 2021, as well as the outlays necessary to complete the winding up procedure of Pininfarina Engineering S.r.l. in liquidation, to implement the parent's planned restructuring measures and to repay the current portion of loans and borrowings when they become due. The cash flow projections prepared by the directors take into account the potential proceeds from the possible subscription of the proposed capital increase, which are estimated to be an additional approximate €6 million, including from the market. In a worst-case scenario, without taking into account the as yet uncollected proceeds from the forthcoming capital increase, the Group's cash and cash equivalents are presently believed to be sufficient to meet the currently foreseeable financial requirements for the next 12 months.

In order to comply with the requirements of the Italian Civil Code governing share capital protection, the parent must monitor its equity at consolidation level closely. Indeed, the only financial covenant provided for by the existing debt restructuring agreement is a minimum level of €30 million. As mentioned earlier, in order to strengthen the parent's financial position, in November 2020, the majority shareholder, PF Holding BV, irrevocably injected €20 million into the parent for future capital increases. Specifically, the injection is necessary for the capital increase announced by the Board of Directors that should be carried out in the first half of 2021. Upon completion of the capital increase, the parent expects that its equity will increase by roughly €6 million in addition to the €20 million mentioned above, following the possible subscription of shares by the market. Considering the increase in equity resulting from the proposed capital increase, as well as the parent's and Group's forecast performance on a going concern basis, their capitalisation levels are suitable and sufficient to comply with the financial covenant at the next assessment date of 31 March 2021. Moreover, the Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

Based on the assessment dates planned for the 12 months after the reporting date, the Group's capitalisation level is deemed to be adequate, even in a worst-case scenario that does not consider the possible proceeds from the capital increase raised on the market.

In order to tackle their performance issues and return to a profit-making position, considering the market performance of the last two years and currently foreseeable outlook, the parent and the Group have adopted the following measures:

- winding-up of the subsidiary Pininfarina Engineering S.r.l., given the market conditions and its no longer sustainable performance. The procedure affected 135 employees;
- implementation of a redundancy plan for Pininfarina Deutschland GmbH, involving 46 people (approximately 20% of its workforce);
- reduction of the number of direct and indirect staff working at Pininfarina S.p.A. in 2020, in order to bring the professional skills and number of resources into line with the current market requirements;
- implementation of a plan to reduce operating expense and overheads for all group companies, also by increasing resort to outsourcing in some cases;
- development of new commercial projects to better enhance the potential of the group services to meet the continuous changes in market demand.

On 18 December 2020, via a referendum, the majority of the employees of Pininfarina Engineering S.r.l. in liquidation voted in favour of the proposed agreement with the company, which signed the related collective redundancy agreements with the relevant trade unions.

A restructuring provision has been recognised to fully cover the obligations reasonably foreseeable to date on the basis of the collective trade union agreements, the legal requirements, the individual agreements signed and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement.

As part of the redundancy plan for Pininfarina Deutschland GmbH, involving 46 people, the subsidiary has already signed most of the individual agreements stipulating the related financial terms.

Cost cutting will continue in the near future, in line with the ban on dismissals currently imposed by Italian legislation.

The current market situation, which reflects social difficulties that are well known throughout the world, is one of the most difficult in recent decades, particularly in the market sectors in which the Pininfarina Group operates. The demand for services continues to be strong in some segments (design-related activities) and much less so in others (pure engineering based on technical deliverables). There is a visible steady decline in the prices offered in all market segments. In order to deal with this situation, the parent is rapidly redirecting its available resources towards those activities considered most likely to generate profits. Indeed, upon completion of the cost containment and personnel redundancy plans mentioned above that the Group has already launched, together with the completion of the remaining planned measures, the parent and the Group will have a new strategic profile, focused on the design sector, which is considered to have greater potential in terms of profitability and volumes in the medium term.

The current dramatic pandemic situation and the turbulence in the automotive market are having a negative impact on the medium-term outlook. Nevertheless, the Group is making every effort to be ready to seize market opportunities, which will inevitably be better than the current ones, once the pandemic ends.

In this scenario, the directors have drawn up forward-looking scenarios, taking into account the estimated sales volumes on the basis of discussions with the main customers, the current order backlog and a prudent estimate of its changes in the medium term. The projected costs take into account the new post-restructuring cost positioning, the streamlining of internal resources aimed at eliminating inefficiency in the revised group structure and the use of outsourcing at competitive prices of part of the engineering activities in the design and engineering market served by the German subsidiary, as a means of further reducing costs and consequently increasing profit margins. These scenarios show that the restructuring and refocusing actions undertaken by the Group will still require the use of operating cash flows in the short term and that financial stability will be restored in the medium term, in tandem with an expected partial upswing in sales volumes, which are expected to remain at current levels at least in the near future. The Group's ability to continue as a going concern will require significant efforts in terms of sales volumes, cost containment and costs to win future contracts given the situation outlined above.

According to the directors, given the issues described above, there is significant uncertainty about the achievement of the production volumes and profitability goals underlying the projections, as they depend on the recovery of the markets in which the Group and the parent operate in the medium term and the success of the actions taken to create the conditions for them to return to financial stability. This uncertainty may cast material doubts as to their ability to continue as going concerns.

Notwithstanding the above, the directors deem that all measures to limit operating cash outflows and all possible measures to contain costs have been implemented. They have assessed existing and prospective projects based on commercial relationships with customers, which show that the pre-Coronavirus targets are achievable in the next few years, as well as the Group's available financial resources. After having carried out all relevant checks and evaluated the above uncertainty, management reasonably expects that the parent and the Group have sufficient resources available to continue their operations for the foreseeable future, as provided for by the IFRS. Due to the above reasons, the directors deem it correct to prepare this annual financial report on a going concern basis.

2020 performance by business segment

Design segment

In addition to the revenue from the automotive and non-automotive design activities of all kinds, this segment includes revenue from architecture services, royalties for the use of the Pininfarina trademark, revenue from aerodynamic and aeroacoustics services and the costs arising from the parent's property management. It recognised revenue of €44.6 million, down by roughly 18% on the €54.7 million recognised in 2019.

Its operating loss came to €6.2 million, a slight improvement compared to €14.1 million for 2019, mainly thanks to a decrease in impairment losses and accruals to provisions compared to the previous year. The segment recorded smaller volumes and profits from the Chinese operations and wind tunnel services (due to the spread of Covid-19) and smaller royalties for the Mahindra Group's use of the trademark, as contractually provided for.

Engineering segment

This segment, comprising the Italian and German engineering businesses, recognised revenue of €22.4 million (€35.7 million in 2019, down by 37%).

Its operating loss came to €10.2 million, compared to €5.3 million for 2019. The downturn is due to the general contraction in revenue in Italy and Germany and the related profitability issues that led to the decision to wind up Pininfarina Engineering S.r.l., as discussed earlier.

The parent does not hold shares of its ultimate parent; reference should be made to note 13 for details on treasury shares.

Reference should be made to the “Financial risk management” section for the disclosure required by article 2428.6-bis.a)/b) of the Italian Civil Code.

Related party transactions are detailed in the “Other information” section of the notes to the separate financial statements of Pininfarina S.p.A. and the consolidated financial statements of the Pininfarina Group.

Report on corporate governance and ownership structure

With reference to article 123-bis.3 of the Consolidated Finance Act, the information on the adoption of the codes of conduct (Report on corporate governance and ownership structure) is available in the “Investor Relations” section of the parent’s website (www.pininfarina.com) as well as through the other methods provided for by current legislation.

Remuneration report

With reference to article 84-quater of the Issuers’ Regulation, the remuneration report will be available in the “Investor Relations” section of the parent’s website (www.pininfarina.com) as well as through the other methods and within the timeline provided for by current legislation.

Consolidated non-financial statement

Pursuant to the obligation introduced by Legislative decree no. 254/2016 about the presentation of a consolidated non-financial statement, this statement is available in the “Investor Relations” section of the parent’s website (www.pininfarina.com) as well as through the other methods provided for by current legislation.

FINANCIAL PERFORMANCE AND FINANCIAL POSITION OF THE PININFARINA GROUP

Financial performance

Including the revenue from contract with customers and royalties, revenue decreased by €19.8 million to €65.5 million from €85.3 million in the previous year. The change in finished goods was a positive €11 thousand (negative €17 thousand in 2019). Other revenue and income dropped to €1.5 million from €5.1 million in the previous year and mainly comprise the lease income from a building in Germany.

2020 consolidated revenue decreased by 25.9% to €67 million from €90.4 million in the previous year. The decrease is mostly due to the reduced volumes in all segments, except for the design and architecture services provided to the US market. A breakdown of revenue by business segment is given later on. Net gains on the sale of non-current assets totalled €0.9 million in 2020 and mostly related to the sale of a building by Pininfarina Deutschland Holding GmbH.

Operating expense, including changes in inventories, came to €25.9 million (€37.1 million in 2019).

Value added fell by €11.2 million to €42.1 million from €53.3 million in the previous year.

Labour cost amounted to €49.1 million (€55 million in the previous year).

The gross operating loss amounted to €7.1 million, down significantly from the €1.7 million gross operating loss for the previous year, mainly due to the smaller contribution of the group companies following the drop in revenue and sales prices in the automotive segment.

Amortisation and depreciation amounted to €4.1 million with a decrease of €0.8 million (€4.9 million for 2019). Additions to/utilisation of provisions and impairment losses came to a negative €10.4 million (compared to a negative €12.7 million for 2019). Specifically, additions (net of utilisations and changes in estimates) were €3.5 million (€3.5 million for 2019) and impairment losses came to €6.9 million (€9.2 million in 2019).

The decrease in amortisation and depreciation is mainly related to the impairment losses recognised by the parent in 2019. Additions to provisions chiefly relate to the restructuring provision (€6.5 million), while impairment losses of €1.8 million resulted from the impairment test, in addition to the impairment loss of €5.2 million recognised on foreign withholding tax assets, net of the utilisation of the provision for losses to complete contracts (€3.1 million).

As a result, the Group recognised an operating loss of €21.5 million (€19.4 million in 2019).

Net financial expense increased to €1.9 million from €1.5 million in the previous year. The worsening is mainly due to the fact that, in 2019, the parent recognised a gain on current assets held for trading. The Group recognised an income tax expense of €1 million, principally due to the impairment of deferred tax assets in Germany, compared to €2.2 million in the previous year.

The loss for 2020 came to €24.4 million compared to €23.1 million for the previous year.

(*) Materials and services are net of utilisations of the provisions for product warranties and risks (€227 thousand and €60 thousand for 2019 and 2020, respectively).

(**) Labour cost is net of utilisations of the restructuring provision (€184.5 thousand and nil for 2019 and 2020, respectively).

As required by Consob resolution no. DEM/6064293 of 28 July 2006, a reconciliation of the data in the consolidated financial statements with those in the reclassified schedules is provided below:

- Materials and services include raw materials and components, other variable production costs, external variable engineering services, exchange gains and losses and other expenses.
- Amortisation and depreciation comprise amortisation of intangible assets and depreciation of property, plant and equipment and investment property.
- (Additions to)/utilisation of provisions and impairment losses include additions to/utilisation of provisions, impairment losses and inventory write-downs
- Net financial expense comprises net financial income (expense) and dividends.

Financial position

Net capital requirements at 31 December 2020 decreased by €19.2 million on the previous year end, mainly due to a reduction in net non-current assets and working capital requirements.

Specifically:

net non-current assets totalled €43 million, down by €10.2 million on 31 December 2019, comprising a decrease of €0.5 million in intangible assets (impairment losses of €0.6 million, additions of €0.1 million and amortisation of €0.1 million), of €7.5 million in property, plant and equipment (impairment losses of €1.8 million and reclassification of assets held for sale of €5.2 million, net of increases and depreciation for the year) and of €2.2 million in right-of-use assets (assets derecognised by Pininfarina Engineering S.r.l. in liquidation in accordance with IFRS 16, impairment losses of €0.2 million, in addition to depreciation and increases for the year);

working capital fell by €10 million to a negative €7.9 million from a positive €2.1 million at 31 December 2019;

post-employment benefits amounted to €3.2 million, down €1 million on the prior year end (€4.2 million), mostly due to the reclassification of the benefits of Pininfarina Engineering S.r.l. in liquidation to current liabilities;

capital requirements were funded by:

- a €4.8 million decrease in equity, which went from €39 million at 31 December 2019 to €34.2 million at 31 December 2020. The decrease is mainly attributable to the capital injection for future capital increases, net of the comprehensive expense for the year;
- net financial position of €2.4 million, up from the net financial debt of €12 million recognised at 31 December 2019, mainly due to the capital injection for future capital increases and working capital trends.

Reconciliation between the parent's loss and equity and consolidated loss and equity

The parent's loss and equity as at and for the year ended 31 December 2020 are reconciled with the Group's relevant figures below:

	Loss for the year		Equity

The "Net financial position" set out above is presented in accordance with the format recommended by Consob in Communication DEM no. 6064293 of 28 July 2006, implementing CESR (now ESMA) recommendation no. 05-04b. Because the purpose of this table is to show "Net financial debt", assets are shown with a minus sign and liabilities with a plus sign. On the contrary, in the "Net financial position" table provided on the previous page, assets are shown with a plus sign and liabilities with a minus sign.

The reason for the difference between the amount of the "Net financial position" on the previous page and on this page is that the latter does not include non-current loan assets. The total amount of these differences at the relevant reporting dates is shown below:

- At 31 December 2020: €550 thousand
- At 31 December 2019: €550 thousand

The net financial position at the reporting date comprises the effect of IFRS 16 (approximately €4.5 million).

OUTLOOK FOR 2021

Based on the current situation of the business sectors where the Pininfarina Group operates, its outlook for 2021 is revenue in line with 2020, along with an operating loss and a loss for the year.

Chief Executive Officer
Silvio Pietro Angori

Pursuant to Consob resolution no. 15519 of 27 July 2006, the impact of transactions with related parties, which are those with the ultimate parent, PF Holding B.V., the Mahindra group companies and the associates Goodmind S.r.l. and Signature S.r.l., are disclosed in notes 5, 7, 10 and 16 to the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

GENERAL INFORMATION

Foreword

The core business of the Pininfarina Group (the "Group") is based on the establishment of comprehensive partnerships with carmakers. Operating as a global partner enables it to work with customers through the entire process of developing new products, including design, planning, development, industrialisation and manufacturing, or to provide support separately during any one of these phases with the utmost flexibility.

Pininfarina S.p.A., the Group's parent, is listed on the Italian Stock Exchange. Its registered office is in Via Raimondo Montecuccoli 9, Turin. Market investors own 23.82% of its share capital, with the remaining 76.18% held by the following shareholders:

- PF Holdings BV 76.15%;
- treasury shares held by Pininfarina S.p.A. 0.03%.

At the reporting date, PF Holdings BV is controlled by Tech Mahindra Limited, which holds 60% of its share capital. Mahindra & Mahindra Limited holds the residual 40%.

Tech Mahindra Limited, an Indian company listed on the National Stock Exchange of Mumbai (India), is a public company, specialised in IT services and solutions. It is not controlled by any major shareholder. Mahindra & Mahindra Limited holds an investment of 26% therein at the reporting date. Mahindra & Mahindra Limited is a company incorporated under Indian law, with registered office in India, whose shares are listed on the Indian National Stock Exchange. It is specialised in the production of cars, commercial vehicles, buses and tractors.

Despite being directly controlled by PF Holdings BV, which is part of the Mahindra Group, Pininfarina S.p.A. is neither managed nor coordinated by PF Holdings BV pursuant to article 2497 and following articles of the Italian Civil Code. PF Holdings BV is simply a vehicle incorporated under Dutch law without an operating structure. There is no authorisation or reporting procedure in place that Pininfarina S.p.A. should follow in the relationships with its parent and, therefore, it has full autonomy to define its strategic and operating objectives, since it has (i) a structured organisation able to perform all business and corporate activities; (ii) its own distinct strategic and financial planning process and (iii) the ability to make proposals about how to conduct and develop its business.

A list of the group companies, with their complete name and address, is provided later on.

The consolidated financial statements are presented in Euros, the functional and presentation currency of the parent, where most of the activities and consolidated revenue are concentrated, and its main subsidiaries.

All amounts are presented in Euros, unless stated otherwise.

The Board of Directors approved these consolidated financial statements on 12 February 2021. They were authorised for publication according to the legal terms.

Basis of presentation

In accordance with IAS 1 - Presentation of Financial Statements, the consolidated financial statements have the same basis of presentation as that of the parent. They include the following:

- statement of financial position, in which current and non-current assets and liabilities are classified separately;
- statement of profit or loss and statement of comprehensive income, shown as two separate schedules in which costs are classified by nature;
- statement of cash flows, presented in accordance with the indirect method, as allowed by IAS 7 - Statement of cash flows;
- statement of changes in equity.
- notes to the consolidated financial statements.

  These schedules present the corresponding prior year annual figures for comparative purposes.

  Moreover, as required by Consob resolution no. 15519 of 28 July 2006, the Group presents the following information in separate schedules:

- net financial position, with a breakdown of the main components and balances with related parties;
- the effects of non-recurring events or transactions, i.e., those transactions or events that are not repeated frequently in the normal course of business.

Related party transactions are not presented in separate schedules because they are listed as separate items in the statement of financial position.

Pursuant to article 4.7 of Directive 2004/109/EC (the "transparency directive"), as amended by Directive 2013/50/EU, as of 1 January 2020, all annual consolidated financial reports shall be prepared in a single electronic reporting format. The regulatory technical standards prepared by ESMA (the European Securities and Markets Authority) are included in the Commission Delegated Regulation (EU) 2018/815 (regulatory technical standards on the specification of a single electronic reporting format, European Single Electronic Format "ESEF"). In 2020, partly as a result of the spread of the Covid-19 pandemic, discussions began within the European institutions on whether to postpone the enactment of the aforementioned regulation. On 11 December 2020, the European Parliament and the European Commission agreed to amend the transparency directive by giving member states the option to defer the use of the ESEF by one year.

The Regulation of the European Parliament and of the Council dated 11 February 2021, amending Regulation (EU) 2017/1129 as regards the EU recovery prospectus provides for, inter alia, an amendment to article 4.7 of the transparency directive. Under the above amended article, a member state may allow issuers to apply that reporting requirement for annual reporting periods beginning on or after 1 January 2021, provided that the member state notifies the Commission of its intention to allow such a delay within 21 days of the Regulation's publication date. Accordingly, it is expected to come into force before the end of March 2021.

In the light of above and taking into account the expected forthcoming enactment of an Italian law granting issuers such deferral option, the parent has not prepared its consolidated financial statements at 31 December 2020 using the ESEF.

Basis of preparation

These consolidated financial statements are prepared on a going concern basis, which the directors deemed appropriate.

These consolidated financial statements at 31 December 2020 comply with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union. They are also consistent with the regulations enacted to implement article 9 of Legislative decree no. 38/2005.

The term IFRS includes the International Financial Reporting Standards, the International Accounting Standards ("IAS") and all interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), previously called the Standing Interpretations Committee ("SIC"), endorsed by the European Commission as of the date of the Board of Directors' meeting convened to approve the consolidated financial statements and listed in the applicable regulations published by the European Union as of the above-mentioned date.

These consolidated financial statements are prepared in accordance with the general principle of historical cost, except for those items that, pursuant to the IFRS, shall be measured at fair value, as explained in the "Accounting policies" section.

The accounting policies adopted to prepare these consolidated financial statements at 31 December 2020 are the same as those used in 2019, except as noted in the following section.

New applicable standards

The new standards and/or amendments to existing standards applicable to periods beginning on or after 1 January 2020 are set out below:

— definition of material (amendments to IAS 1 and IAS 8);

— interest rate benchmark reform (amendments to IFRS 9, IAS 39 and IFRS 7);

— definition of a business (amendments to IFRS 3).

— amendments to references to the conceptual framework in IFRS standards.

The above amendments did not have a significant impact on these consolidated financial statements.

New standards or amendments:

— Covid-19-related rent concessions (amendment to IFRS 16);

— interest rate benchmark reform - phase 2 (amendments to IFRS 9, IAS 39, IFRS 7 and IFRS 16);

— onerous contracts – cost of fulfilling a contract (amendments to IAS 37);

— annual improvements to IFRS standards (2018-2020 cycle);

— property, plant and equipment: proceeds before intended use (amendments to IAS 16);

— reference to the conceptual framework (amendments to IFRS 3);

— classification of liabilities as current or non-current (amendments to IAS 1);

— IFRS 17 - Insurance contracts and amendments to IFRS 17 - Insurance contracts;

— sale or contribution of assets between an investor and its associate or joint venture (amendments to IFRS 10 and IAS 28);

— IFRS 14 - Regulatory deferral accounts.

The effects of the future application of the above standards or amendments are currently being assessed.

ACCOUNTING POLICIES

Consolidated financial statements

The consolidated financial statements include the financial statements of all subsidiaries from the date the group acquires control until such control ceases to exist. Joint ventures (if any) and associates are measured using the equity method.

Intragroup expenses, revenue, receivables, payables, gains and losses are eliminated in the consolidation process.

When necessary, the accounting policies of subsidiaries, associates and joint ventures are amended to make them consistent with those of the parent.

(a) Subsidiaries and business combinations

A list of the companies consolidated line by line is provided below:

Name	Registered office	Investment %	Held by	Currency	Share/ quota capital
Pininfarina of America Corp.	501 Brickell Key Drive, Suite 200, Miami FL 33131 USA	100%	Pininfarina S.p.A.	USD	10,000
Pininfarina Engineering S.r.l. in liquidation	Via Raimondo Montecuccoli 9, Turin, Italy	100%	Pininfarina S.p.A.	€	100,000
Pininfarina Deutschland Holding GmbH	Riedwiesenstr. 1, Leonberg, Germany	100%	Pininfarina Engineering S.r.l. in liquidation	€	3,100,000
Pininfarina Deutschland GmbH	Frankfurter Ring 81, Munich, Germany	100%	Pininfarina Deutschland Holding GmbH	€	25,000
Pininfarina Shanghai Co. Ltd	Unit 1, Building 3, Lane 56, Antuo Road, Anting, 201805, Jiading district, Shanghai, China	100%	Pininfarina S.p.A.	CNY	3,702,824

The reporting date of the subsidiaries is the same as that of the parent, Pininfarina S.p.A..

As discussed in the directors’ report, at their meeting of 26 October 2020, Pininfarina Engineering S.r.l.’s quotaholders resolved to wind it up.

(b) Acquisition/sale of equity investments subsequent to the acquisition of control

Acquisitions and sales of equity investments subsequent to the acquisition of control that do not result in a loss of control are accounted for as owner transactions.

In the case of acquisitions, the difference between the consideration paid and the pro rata interest in the carrying amount of the net assets acquired is recognised in equity. In the case of sales, the resulting gain or loss is also recognised directly in equity.

If the Group loses control or significant influence, the remaining non-controlling interest is remeasured at fair value and any positive or negative difference between its carrying amount and fair value is recognised in profit or loss.

(c) Associates

Associates are listed below:

Name	Registered office	Investment %	Held by	Currency	Quota capital
Goodmind S.r.l.	Corso Vittorio Emanuele II 12, Turin, Italy	20%	Pininfarina S.p.A.	€	20,000
Signature S.r.l.	Via Paolo Frisi 6, Ravenna, Italy	24%	Pininfarina S.p.A.	€	10,000

(d) Other companies

Investments in other companies that are available-for-sale financial assets are measured at fair value, if feasible, and any resulting gains or losses are recognised in equity until the investments are sold. At that point, fair value gains or losses accumulated in equity are immediately reclassified to profit or loss.

If the equity investments are not listed on a regulated market and their fair value cannot be reliably determined, they are measured at cost, adjusted for any impairment losses, which cannot be reversed.

Translation of foreign currency captions

(a) Presentation currency and translation of financial statements denominated in currencies other than the Euro

The Group's presentation currency is the Euro.

The table below lists the exchange rates used to translate financial statements denominated in functional currencies different from the presentation currency:

Euro vs currency	31.12.2020	2020	31.12.2019	2019
US dollar - USD	1.23	1.14	1.12	1.12
Chinese renminbi (yuan) - CNY	8.02	7.87	7.82	7.73

(b) Foreign currency assets, liabilities and transactions

Transactions carried out in currencies other than the Euro are initially translated at the exchange rate in force on the date of the transaction.

At the reporting date, monetary assets and liabilities denominated in foreign currencies are retranslated into Euros at the closing rate. All resulting exchange gains and losses are recognised in profit or loss, except for those stemming from foreign currency loans that hedge investments in foreign operations, which are recognised directly in equity, net of the related tax effects. When the equity investment is sold, the accumulated translation differences are reclassified to profit or loss.

Non-monetary items that are carried at historical cost are translated into Euros at the exchange rate in force when the underlying transaction was initially recognised. Non-monetary items that are carried at fair value are translated into Euros at the exchange rate in force on the measurement date.

None of the group companies operate in a hyperinflationary economy.

Use of judgements and estimates

In preparing these consolidated financial statements, management has made estimates and judgements, that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, revenue and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Any changes due to the revision of estimates are recognised prospectively.

The captions most affected by estimation uncertainties are contract revenue, investments in subsidiaries, deferred tax assets, provisions for risks and charges and trade receivables.

Investment property

Property held to earn rentals or for capital appreciation is classified as investment property and measured at purchase or production cost, including any related costs and net of accumulated depreciation and impairment losses.

Property, plant and equipment

Property, plant and equipment comprise items used in production, including those held under finance lease. They are recognised at purchase or production cost, net of accumulated depreciation and impairment losses (if any), except for land, which is not depreciated.

The cost includes all purchase-related outlays, i.e., those incurred to bring the asset to the place and conditions necessary for its operation.

Depreciation of buildings and other generic assets is calculated on a straight-line basis, in order to allocate their residual carrying amount over their estimated useful life.

The depreciation rates applied to each asset category are set out below:

Category	Useful life (years)	
	Bairo and San Giorgio facilities	Other facilities
Land	Indefinite	Indefinite
Buildings	50	33
Machinery	20	10
Plant	20	10
Machinery	-	5
Furniture and fixtures	10	8
Hardware	-	5
Other, including vehicles	-	5

Land is recognised separately and is not depreciated but tested for impairment whenever the Group identifies indicators that the carrying amount exceeds the recoverable amount. Subsequent costs are capitalised only if it is probable that they will generate future economic benefits and their amount can be determined reliably. Should a portion be replaced, its carrying amount is derecognised. Costs that do not meet these requirements are immediately recognised in profit or loss. The carrying amount and useful life of property, plant and equipment are reviewed at each reporting date and adjusted, if necessary, prospectively pursuant to paragraphs from 32 to 38 of IAS 8 - Accounting policies, changes in accounting estimates and errors. Gains and losses on the sale, calculated as the difference between the asset's carrying amount and sales price, are recognised in profit or loss. In these notes, impairment losses mean the losses recognised to adjust the assets' carrying amounts to their recoverable amount.

Government grants

Government grants are recognised at fair value only if the Group is reasonably certain that they will be disbursed and has met all conditions for their collection. They are recognised as revenue in proportion to the costs incurred. As required by paragraph 17 of IAS 20 - Accounting for government grants and disclosure of government assistance, grants related to assets are recognised as deferred income and reclassified to profit or loss in line with the depreciation pattern of the related asset.

Intangible assets

Intangible assets are identifiable non-monetary assets without physical substance. They are controlled by the Group and generate measurable future economic benefits. They are recognised at cost, calculated using the same criteria as for property, plant and equipment.

(a) Goodwill

Goodwill is the excess of the purchase price with respect to the acquisition-date fair value of the net assets acquired. It is not amortised, but is tested for impairment at least annually. Impairment testing allocates goodwill to the related cash-generating units, which are the smallest identifiable groups of assets that generate cash inflows that are largely independent of the cash inflows from other assets or groups of assets. If the carrying amount of the net assets of a cash-generating unit, including allocated goodwill, exceeds their recoverable amount, the identified impairment loss is firstly allocated to goodwill, up to its entire carrying amount. Any remaining impairment loss is then allocated pro rata to the carrying amount of the assets making up the cash-generating unit. Impairment losses recognised on goodwill cannot be reversed. Any negative goodwill is recognised as income in profit or loss.

(b) Software and other licences

Software and other similar licences are recognised as assets at cost, including that incurred to use them. They are amortised over their estimated useful life, which ranges between three and five years. Costs incurred to maintain software programs are immediately recognised in profit or loss. Those incurred to develop identifiable software that is controlled by the Group, which are very likely to produce future economic benefits exceeding the costs incurred, if any, are recognised as intangible assets and amortised over their useful life, which does not exceed three years.

(c) Research and development expenditure

Research expenditure, as defined by IAS 38 - Intangible assets, is expensed when incurred in accordance with IAS 38.54. Development expenditure is recognised as an intangible asset only if it can be measured reliably and if it is probable that the related project is likely to be successful, with reference to its technical feasibility, the availability of financial resources to complete it and its commercial penetration. Development expenditure that does not meet these requirements is expensed when incurred. This expense is never reclassified as an asset in subsequent years, if the requirements for its recognition as an asset are met after it is recognised in profit or loss. Development expenditure is amortised from when the related output is marketed over the estimated period during which it will generate economic benefits, which can never exceed five years. It is tested for impairment when the Group identifies indicators that its carrying amount exceeds its recoverable amount. The Group carries out development projects on behalf of third parties as part of both design, engineering and car manufacturing contracts and solely design and engineering contracts. Development expenditure incurred as part of design and engineering contracts sold to third parties is classified as a contractual cost under IAS 11 - Construction contracts and, accordingly, no intangible asset is recognised. Development expenditure related to design, engineering and manufacturing contracts which give the Group a total or partial guarantee that the investment made on behalf of a customer will be recovered is classified as a financial asset under IFRIC 4 - Determining whether an arrangement contains a lease, or, when the conditions for the application of this interpretation are not met, in the carrying amount of the specific equipment under property, plant and equipment.

(d) Other intangible assets

Other intangible assets acquired separately are recognised at cost. Those acquired as a result of a business combination are recognised at their acquisition-date fair value. After initial recognition, those with a finite useful life are subsequently measured at cost, adjusted for accumulated amortisation and impairment losses, whereas those with an indefinite useful life are measured at cost but not amortised. They are tested for impairment at least annually. Where possible, any changes are made prospectively pursuant to paragraphs from 32 to 38 of IAS 8 - Accounting policies, changes in accounting estimates and errors.

Impairment of non-financial assets

Intangible assets with an indefinite useful life, including goodwill, are tested for impairment at least annually and whenever there are indicators of impairment. Property, plant and equipment, investment property and intangible assets with a finite useful life are tested for impairment only if the Group identifies indicators that their carrying amount may exceed their recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use, which is calculated as the present value of the future cash flows expected to be derived from an asset, to be based on reasonable and supportable assumptions that represent management's best estimate of the future economic conditions. The discount rate used reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. This rate for the Group is the weighted average cost of capital ("WACC").

When the carrying amount of an asset exceeds its recoverable amount, the Group recognises the difference as an impairment loss in profit or loss. If the reasons for the impairment loss no longer exist in future years, the impairment loss is reversed to the extent of the pre-impairment carrying amount, less amortisation/depreciation. Impairment losses on goodwill can never be reversed. Cash-generating units are identified in line with the Group's organisational structure and business, by grouping those assets that are able to generate cash inflows independently, as required by IAS 36 - Impairment of assets; they are not larger than the two operating segments identified under IFRS 8 - Operating segments: 1) design; 2) engineering. In assessing the recoverable amount for impairment testing purposes, the Group makes reference to the fair value of owned real estate complexes, measured using the market valuations available at the Public Real Estate Registry Office and possibly appraisals prepared by independent experts.

Available-for-sale financial assets

Non-current assets, together with current and non-current assets included in disposal groups, whose carrying amount will be recovered through their sale rather than continuing use, are classified as held for sale. Assets held for sale and directly-associable liabilities are classified in the statement of financial position separately from the Group's other assets and liabilities, in accordance with paragraphs from 38 to 40 of IFRS 5 - Non-current assets held for sale and discontinued operations. Assets held for sale are not amortised or depreciated and are measured at the lower of their carrying amount and fair value less costs to sell. Any difference between the carrying amount and fair value less costs to sell is recognised in profit or loss as an impairment loss. Any subsequent improvement in fair value less costs to sell is recognised as a reversal to the extent of the impairment losses previously recognised, including those recognised prior to the classification of the asset as held for sale.

Investments in associates

Investments in associates are recognised in the consolidated financial statements using the equity method, as required by IAS 28 - Investments in associates and joint ventures and IFRS 11 - Joint arrangements. An associate is an entity in which the Group holds at least 20% of its voting rights and over which it exercises a significant influence but not control or joint control.

Under the equity method, the equity investment is recognised in the statement of financial position at cost, increased by subsequent changes in the Group's share of the associate's net assets.

Equity investments in other companies

The other equity investments (other than in subsidiaries and associates) are classified as non-current or current assets, depending on whether the Group intends to maintain the investment in its assets for a period longer or shorter than twelve months, respectively.

Equity investments in other companies are initially recognised at acquisition cost and subsequently measured at FVTPL, as required by IFRS 9.

In the absence of a principal active market, the Group identifies the investment's fair value as its acquisition cost, considering it as the most reliable input in accordance with IFRS 13.

Financial assets and liabilities

The Group initially measures financial assets at fair value plus, except in the case of financial assets that are not recognised at fair value through profit or loss, transaction costs.

IFRS 9 classifies financial assets into three main categories: at amortised cost, at fair value through other comprehensive income (FVOCI) and at fair value through profit or loss (FVTPL).

The classification is based on the business model adopted by the Group to manage the asset or the SPPI (solely payments of principal and interest) test, if the financial instruments' contractual cash flows solely comprise payments of principal and interest.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (FVOCI) – debt instrument; FVOCI – equity investment; or fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest – policy applicable from 1 January 2018

For the purposes of this assessment, "principal" is defined as the fair value of the financial asset on initial recognition. "Interest" is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and

– terms that limit the Group's claim to cash flows from specified assets (e.g., non-recourse features).

Financial assets: subsequent measurement and gains and losses – policy applicable from 1 January 2018

Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt instruments at FVOCI

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI

These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial liabilities: classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Financial expense

In accordance with IAS 23 - Borrowing costs, borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Otherwise, they are recognised in profit or loss on an accruals basis.

Inventories

Inventories are recognised at the lower of cost and net realisable value, which is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale. Under IAS 2 - Inventories, the cost is calculated using the FIFO ("first-in first-out") method. The cost of finished goods and semi-finished products includes design, raw materials and direct labour costs, other direct costs and other indirect costs that can be directly allocated to the production activity based on normal production capacity. This cost does not include borrowing costs. Based on the assets' expected future use and net realisable value, materials, finished goods, spare parts and other obsolete or slow-moving items are written down through an allowance account. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Cash and cash equivalents

Net cash and cash equivalents include cash-in-hand, on-demand bank deposits, other investments that may be sold within three months and bank overdrafts, which are recognised in the relevant caption under current liabilities. In accordance with paragraph 8 of IAS 7 - Statement of cash flows, the cash flow for the year is equal to the change in net cash and cash equivalents.

Share capital

Ordinary shares are classified in equity. There are no other share categories. Costs directly related to the issue of ordinary shares or options are recognised in equity. If a group company acquires the parent's shares, or if the parent itself repurchases its own shares within the limits established by article 2357 of the Italian Civil Code, the consideration paid, net of any transaction cost, is deducted from equity attributable to the owners of the parent until the treasury shares are cancelled, possibly assigned to employees or resold. The parent's share capital comprises 54,287,128 ordinary shares with a unit nominal amount of €1.

Employee benefits

(a) Pension plans

The Pininfarina Group's employees participate in defined contribution plans and defined benefit plans. The latter are a portion of the Italian post-employment benefits provided for by article 2120 of the Italian Civil Code and, therefore, do not comprise any plan assets. Defined contribution plans are formalised plans for post-employment benefits that require that the Group pay contributions to an insurance company or a pension fund. By doing this, the Group does not have any other legal or constructive obligation to pay additional contributions should the fund not have sufficient resources to pay all benefits accrued by employees over their current and past service periods when the benefits become due. These contributions paid in exchange for the service rendered by employees are recognised as an expense on an accruals basis. This category includes the payments made to the Cometa and Previp funds. Under defined benefit plans, the Group has a future obligation to pay the pension benefit to the employee upon termination of employment. The amount of the benefit depends on different factors, such as age, seniority and remuneration. The Group, therefore, takes on actuarial and investment risks arising from the plan. It calculates the present value of the plan liability and the service cost using the projected unit credit method, based on the actuarial calculation that uses demographic (mortality rate and turnover) and financial (discount rate and future salary and benefit increases) variables. The post-employment benefits of the Group's Italian employees are classified as follows pursuant to IAS 19 - Employee benefits:

- defined benefit plan for the portion vested prior to enactment of the Finance Act (Law no. 296 of 27 December 2006) and related implementing decrees;
- defined contribution plan for the portion accrued thereafter.

At the annual and half year reporting dates, the Group calculates the benefits using an actuarial valuation. The accumulated actuarial losses and gains arising from changes in estimates are recognised in a specific caption of comprehensive income. Any curtailment or extinguishment of a plan liability is immediately recognised in profit or loss.

(b) Incentives, bonuses and profit-participation plans

The Group recognises a cost and a liability for its obligations for incentives, bonuses and profit-participation plans. The liability is recognised when the Group has a legal or constructive obligation and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

(c) Termination benefits

The Group recognises a liability and personnel expense when it is demonstrably committed to terminating the employment of an employee or group of employees before the normal retirement date or provide termination benefits as a result of an offer made in order to encourage voluntary redundancy. The Group is demonstrably committed to a termination when, and only when, it has a detailed formal plan for the termination and is without realistic possibility of withdrawal.

(d) Share-based payments

The Group has granted additional benefits to its key management personnel in the form of equity-settled share based plans (e.g., stock options). Under IFRS 2 - Share-based payment, the fair value of the stock options calculated at the grant date using the Black & Scholes method is recognised as personnel expense in profit or loss on a straight-line basis over the vesting period, with a balancing entry recognised in equity.

The effects of the non-market vesting conditions are not considered in the fair value measurement of the options granted, but are taken into account in measuring the number of expected exercisable options.

The Group revises its estimates of expected exercisable options at each reporting date.

The resulting effects are recognised in profit or loss over the vesting period with a balancing entry recognised in equity.

When the options are exercised, the amounts received from employees, net of directly attributable transaction costs, increase the share capital to the extent of the nominal amount of the issued shares. The remainder increases the share premium reserve.

Provisions for risks and charges, contingent liabilities

The provisions for risks and charges include specific costs and losses whose existence is certain or probable but whose amount or due date is unknown at the reporting date. Provisions are recognised when all the following conditions are met: (i) the Group has a present obligation (legal or constructive) as a result of a past event; (ii) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; (iii) a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation or transfer it to third parties at the reporting date. Where the effect of the time value of money is material and the payment dates can be estimated reliably, the provision is discounted to present value. The Group recognises expected restructuring costs when a restructuring plan is formalised only if it has raised a valid expectation in those affected that it will carry out the restructuring. The liability accrued in the provisions for risks and charges is regularly adjusted for changes in estimated costs, expected timing and discount rates. Changes in estimates of provisions are recognised in the same income statement caption as the related addition. Disclosures about contingent liabilities, i.e.: (i) a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; (ii) a present obligation that arises from past events, whose amount cannot be measured reliably or whose settlement will probably not require an outflow of resources embodying economic benefits are provided in the notes.

Leases

At inception of a contract, the Group assesses whether a contract is or contains a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. For the purpose of this assessment, the Group applies IFRS 16.

i. Model for lessees

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for leases of buildings, the Group has elected not to separate non-lease components and instead accounts for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, including the initial measurement of the lease liability adjusted by lease payments made at or before the commencement date, increased by initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the underlying asset or the site on which it is located, net of any lease incentives received.

The right-of-use assets are subsequently depreciated on a straight-line basis from the commencement date over the lease term, unless their ownership is transferred to the Group at the end of the lease term or, considering the right-of-use assets, it is expected that the Group will exercise a purchase option. In that case, the right-of-use asset is depreciated over its estimated useful life, determined on the same basis as for property and equipment. Furthermore, the right-of-use assets are regularly tested for impairment and adjusted for remeasurement of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group’s incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group’s incremental borrowing rate is calculated based on interest rates obtained from various external financing sources adjusted to reflect the lease terms and the leased asset:

- fixed payments (including in-substance fixed payments);
- variable lease payments for leases depending on an index or a rate, initially measured by reference to an index or rate at the commencement date;
- amounts expected to be payable under residual value guarantees; and
- the price of a purchase option, which the Group is reasonably certain to exercise, lease payments due in the optional renewal period, if the Group is reasonably certain to exercise the option to extend the lease, and termination penalties unless the Group is reasonably certain not to cancel the lease before the end of the lease term.

The lease liability is measured at amortised cost using the effective interest method and is remeasured to reflect a change in an index or a rate used to determine lease payments, a change in the amount expected to be payable under residual value guarantees, a change in the assessment of whether a purchase, extension or termination option is reasonably certain to be exercised, or a revision of in-substance fixed payments.

When a lease liability is remeasured, the lessee adjusts the related right-of-use asset accordingly. If the carrying amount is decreased to zero, the lessee recognises the adjustment in profit or loss.

The Group presents right-of-use assets that do not meet the definition of investment property under “Right-of-use assets” and lease liabilities under “Lease liabilities” in the statement of financial position.

Short-term leases and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. It recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

ii. Model for lessors

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

At the inception of the lease, the Group determines whether each lease is a finance lease or an operating lease.

To this end, it makes an overall assessment of whether the lease transfers substantially all of the risks and rewards of ownership of the underlying asset. In this case, the lease is a finance lease; if not, it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the useful life of the underlying asset.

With regard to sub-leases, as intermediary lessor, the Group accounts for its interest in the head lease and the sub-lease separately. To this end, the Group classifies the sub-lease with reference to the right-of-use asset arising from the head lease, rather than the underlying asset. If the head lease is a short-term lease to which the Group applies the aforementioned exemption, the sub-lease is classified as an operating lease.

If a contract contains a lease component and one or more non-lease components, the Group applies IFRS 15 to allocate the contract consideration.

The Group applies the derecognition and impairment losses requirements of IFRS 9 to the net investment in a lease (reference should be made to note 45(R)(i)). It periodically revises the estimated unguaranteed residual values used in calculating the gross investment in the lease.

The Group recognises the lease payments associated with operating leases as income on a straight-line basis over the lease term under "Other revenue and income".

In general, the accounting policies applied by the Group as a lessor in the previous year did not differ significantly from the IFRS 16 requirements, except for the sub-lease entered into during the year, which has been classified as a finance lease.

Income taxes

(a) Current taxes

Current taxes are recognised by each group company on the basis of their estimated taxable profit using the tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date, taking into account any domestic tax consolidation arrangements, applicable exemptions and tax assets.

(b) Deferred taxes

Under IAS 12 - Income taxes, deferred taxes are calculated for all temporary differences between the assets' and liabilities' tax bases and carrying amounts, except in two cases: (i) goodwill arising from a business combination, (ii) the initial recognition of an asset or liability in a transaction which is not a business combination and affects neither accounting profit nor taxable profit (tax loss). Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are respectively classified as non-current assets and liabilities. They are offset at individual company level if related to taxes that can be legally offset. The resulting balance, if positive, is recognised as a deferred tax asset and, if negative, as a deferred tax liability. Current and deferred taxes related to transactions directly affecting equity are recognised in equity. The Group recognises deferred tax assets to the extent that it is probable that taxable profit will be available against which the temporary difference can be utilised. The carrying amount of a deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of that deferred tax asset to be utilised. Deferred taxes on undistributed profits of the group companies are recognised only if the company really intends to distribute such profits and, in any case, if there are no tax consolidation arrangements cancelling their taxation.

Revenue recognition

IFRS 15 requires an entity to recognise revenue at the amount of consideration to which it expects to be entitled in exchange for transferring promised goods or services to a customer.

Based on the above, IFRS 15 provides an articulated and detailed series of requirements that, as a whole, make up the new single model for the recognition of revenue from contracts with customers. The model provides for the following five steps:

- step 1 – identification of the contract;
- step 2 – identification of the performance obligations;
- step 3 – determination of the transaction price;
- step 4 – allocation of the transaction price to the performance obligations;

- step 5 – recognition of revenue when (or as) the entity satisfies the performance obligations.

Step 1 – identification of the contract

IFRS 15 defines a "contract" as an agreement between two or more parties that creates enforceable rights and obligations, specifying that enforceability of the rights and obligations in a contract is a matter of law. The contract may be approved in writing, orally or in accordance with other customary business practices.

Step 2 – identification of the performance obligations

At contract inception, an entity shall assess the goods or services promised in a contract with a customer and shall identify as a performance obligation each promise to transfer to the customer either:

a) a good or service (or a bundle of goods or services) that is distinct; or

b) a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

A contract may include promises to transfer more than one good or service to a customer. An entity shall assess the goods or services promised in order to identify which good or service (or bundle of goods or services) that is promised to a customer is distinct and may constitute a separate performance obligation.

A good or service that is promised to a customer is distinct if both of the following criteria are met:

a) the customer can benefit from the good or service either on its own or together with other resources that are readily available to the customer;

b) the entity's promise to transfer the good or service to the customer is separately identifiable from other promises in the contract.

If a promised good or service is not distinct, an entity shall combine that good or service with other promised goods or services until it identifies a bundle of goods or services that is distinct. In some cases, that would result in the entity accounting for all the goods or services promised in a contract as a single performance obligation.

Step 3 – determination of the transaction price

The transaction price is the amount of consideration to which an entity expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties (for example, some sales taxes).

The Group considers the terms of the contract and its customary business practices to determine the transaction price. The consideration may include fixed amounts, variable amounts, or both.

When determining the transaction price, the Group considers the effects of all of the following:

- variable consideration and constraining estimates of variable consideration;
- the existence of a significant financing component in the contract;
- non-cash consideration;
- consideration payable to a customer.

Step 4 – allocation of the transaction price to the performance obligations

The transaction price identified in step 3 is allocated to each performance obligation identified in step 2 on a relative stand-alone selling price basis.

Step 5 – recognition of revenue when (or as) the entity satisfies the performance obligations

An entity transfers control of a good or service over time and, therefore, satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

a) the customer simultaneously receives and consumes the benefits provided by the entity's performance as the entity performs;

b) the entity's performance creates or enhances an asset (for example, work in progress) that the customer controls as the asset is created or enhanced; or

c) the entity's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

The Group considers the terms of the contract, as well as any laws that apply to the contract, when evaluating whether it has an enforceable right to payment for performance completed to date.

When recognising revenue over time from the provision of design and engineering services, the Group measures the progress towards complete satisfaction of that performance obligation using the percentage of completion method on a cost-to cost-basis.

Incremental costs of obtaining contracts

An entity shall recognise as an asset the incremental costs of obtaining a contract with a customer if it expects to recover those costs.

The incremental costs of obtaining a contract are those costs that an entity incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained (for example, a sales commission).

As a practical expedient, the Group recognises the incremental costs of obtaining a contract as an expense when incurred if the amortisation period of the asset that the entity otherwise would have recognised is one year or less.

An asset recognised for incremental costs of obtaining a contract is amortised on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Contract assets and liabilities

An entity shall present the contract in the statement of financial position as a contract asset or a contract liability, depending on the relationship between the entity’s performance and the customer’s payment. An entity shall present any unconditional rights to consideration separately as a receivable.

If an entity performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, the entity shall present the contract as a contract asset, excluding any amounts presented as a receivable. A contract asset is an entity’s right to consideration in exchange for goods or services that the entity has transferred to a customer. The Group assesses a contract asset for impairment in accordance with IFRS 9.

If a customer pays consideration, or an entity has a right to an amount of consideration that is unconditional (i.e., a receivable), before the entity transfers a good or service to the customer, the entity shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is an entity’s obligation to transfer goods or services to a customer for which the entity has received consideration (or an amount of consideration is due) from the customer.

Licensing

A licence establishes a customer’s rights to the intellectual property of an entity.

If the promise to grant the licence is a separate performance obligation, an entity shall not apply the general revenue recognition model but the specific guidelines set out in Appendix B to the standard and described below.

- revenue shall be recognised at a point in time if the entity’s promise is to provide the customer with a right to use its intellectual property as it exists at the point in time at which the licence is granted;
- revenue shall be recognised over time if the entity’s promise is to provide the customer with a right to access its intellectual property as it exists throughout the licence period.

  Notwithstanding the nature of the licence (“right to use” or “right to access”), an entity shall recognise revenue for a sales-based or usage-based royalty promised in exchange for a licence of intellectual property only when (or as) the later of the following events occurs:

  a) the subsequent sale or usage occurs; and

  b) the performance obligation to which some or all of the royalty has been allocated has been satisfied (or partially satisfied).

Dividend distribution

The Group recognises a liability for dividends to be distributed when the distribution has been approved by the shareholders.

Earnings or losses per share

Basic earnings or losses per share are calculated by dividing the profit or loss for the year attributable to the owners of the parent’s ordinary shares by the weighted average number of ordinary shares outstanding during the year. Diluted earnings or losses per share are derived by adjusting the weighted average number of outstanding shares for all potential ordinary shares with a dilutive effect.

Events after the reporting date

The events after the reporting date are those events, favourable and unfavourable, that occur between the reporting date (31 December for the Group) and the date when the financial statements are authorised for issue. Two types of events can be identified: (i) those that provide evidence of conditions that existed at the reporting date and (ii) those that are indicative of conditions that arose after the reporting date.

In accordance with IAS 10 - Events after the reporting period, in the first case (i) the Group adjusts the carrying amounts for the events that occurred after the reporting date and in the second case (ii) the Group does not adjust the carrying amounts, but discloses the events held significant in the notes.

Reference should be made to the “Other information” section of the directors’ report for further details.

Statement of cash flows

The statement of cash flows is presented in accordance with the indirect method allowed by IAS 7 - Statement of cash flows.

Repayments of loans and receivables, recognised under IFRIC 4 - Determining whether an arrangement contains a lease, are recognised as cash flows from investing activities at the line “Repayment of loans and receivables - third parties”, in line with the definition of investing activities set out in IAS 7, with the Group’s financial position and net financial debt structures and in accordance with IAS 7.16-f.

ASSESSMENTS THAT AFFECT THE CONSOLIDATED FINANCIAL STATEMENTS

(a) Going concern

The estimated effects of Covid-19 for 2020

In 2020, the Group was affected by downturns in activities and/or cancellations of orders due to the Coronavirus (especially on the Chinese market and for certain services provided in Italy). The estimated effect of Covid-19 on consolidated revenue is a reduction of about €6.5 million compared to pre-Coronavirus forecasts. As mentioned above, the impact of the public health emergency on the various markets varies. Approximately 89% of the decrease is attributable to the Chinese market (where the lock-down affected most of the first half of the year), whereas roughly 11% is related to the Italian services offered to various markets and customers that the Group was unable to provide as a result of the lock-down period imposed in Italy, the border closures and certain customers’ internal policies imposing a travel ban that all prevented the performance of commercial and operating activities. Taking into account the estimated effects already incurred in 2020, the outlook for the entire 2021 does not currently anticipate additional adverse impacts caused by Covid-19.

The decrease in revenue due to the Coronavirus, as detailed above, led to losses of approximately €2.2 million affecting the Group’s operating loss for 2020 compared to the expected loss.

Group’s performance, outlook and going concern issues

As mentioned earlier, the performance of the sectors/markets in which the Group operates is adversely affected by the simultaneous existence of two overlapping problems:

- the continuation of the negative economic cycle of the global automotive industry;
- the Covid-19 pandemic, which exacerbated the sluggish conditions of the Group’s reference market, slowing down the acquisition of new contracts and/or reducing expected contract profit margins.

The impacts of the automotive sector’s negative cycle on the Group’s financial position and performance began in the second half of 2018 with an acceleration of this negative trend a year later. With the spread of the Covid-19 pandemic, starting from the end of the first quarter of 2020, the above trend was amplified and it is now generally accepted that a return to market conditions similar to the pre-Covid-19 period (more stable and profitable) will not occur in the next two/three years.

In this environment of weak reference markets and given the expectations about their future performance, the parent is tackling three closely related issues:

- maintaining an appropriate level of liquidity for the Group’s requirements;
- protecting the capitalisation level required by the law and bank agreements;
- creating the conditions for restoring profitability as soon as possible.

With reference to the liquidity issue, at the beginning of 2020, the parent received a €20 million loan from its majority shareholder, PF Holdings B.V., usable by the Group for any financial requirements. As discussed earlier, the loan (never used) was replaced by an irrevocable capital injection from the majority shareholder for future capital increases disbursed in November 2020. Thanks to the above capital injection, the parent’s and Group’s liquidity at the reporting date increased compared to the previous year end, despite the cash outflows principally caused by the redundancy and corporate reorganisation plans implemented in Italy. To further improve the Group’s liquidity, the subsidiary Pininfarina Deutschland Holding GmbH sold one of its buildings for €5.1 million, €1 million of which was received in 2020, while the remainder will be paid in February 2021. In December 2020, the German subsidiary used the proceeds from the sale to extinguish a short-term credit line. Considering the nature of the Group’s customers, there are no particular collection issues as there are no past due amounts which may affect the Group’s cash flows from operating activities.

In the foreseeable future, the following should be taken into account: the parent's net financial position amounts to €4.7 million, comprising cash and cash equivalents and financial assets of €27.3 million and loans and borrowings of €3.7 million, whose current portion amounts to €3.7 million. The Group's net financial position amounts to €2.4 million at the reporting date. According to the 12-month cash budget prepared by the directors, the parent's and Group's financial resources at the reporting date are adequate to cover the expected operating cash outflows, which are expected to exceed inflows again in 2021, as well as the outlays necessary to complete the winding up procedure of Pininfarina Engineering S.r.l. in liquidation, to implement the parent's planned restructuring measures and to repay the current portion of loans and borrowings when they become due. The cash flow projections prepared by the directors take into account the potential proceeds from the possible subscription of the proposed capital increase, which are estimated to be an additional approximate €6 million, including from the market. In a worst-case scenario, without taking into account the as yet uncollected proceeds from the forthcoming capital increase, the Group's cash and cash equivalents are presently believed to be sufficient to meet the currently foreseeable financial requirements for the next 12 months.

In order to comply with the requirements of the Italian Civil Code governing share capital protection, the parent must monitor its equity at consolidation level closely. Indeed, the only financial covenant provided for by the existing debt restructuring agreement is a minimum level of €30 million. As mentioned earlier, in order to strengthen the parent's financial position, in November 2020, the majority shareholder, PF Holding BV, irrevocably injected €20 million into the parent for future capital increases. Specifically, the injection is necessary for the capital increase announced by the Board of Directors that should be carried out in the first half of 2021. Upon completion of the capital increase, the parent expects that its equity will increase by roughly €6 million in addition to the €20 million mentioned above, following the possible subscription of shares by the market. Considering the increase in equity resulting from the proposed capital increase, as well as the parent's and Group's forecast performance on a going concern basis, their capitalisation levels are suitable and sufficient to comply with the financial covenant at the next assessment date of 31 March 2021. Moreover, the Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

Based on the assessment dates planned for the 12 months after the reporting date, the Group's capitalisation level is deemed to be adequate, even in a worst-case scenario that does not consider the possible proceeds from the capital increase raised on the market.

In order to tackle their performance issues and return to a profit-making position, considering the market performance of the last two years and currently foreseeable outlook, the parent and the Group have adopted the following measures:

- winding-up of the subsidiary Pininfarina Engineering S.r.l., given the market conditions and its no longer sustainable performance. The procedure affected 135 employees;
- implementation of a redundancy plan for Pininfarina Deutschland GmbH, involving 46 people (approximately 20% of its workforce);
- reduction of the number of direct and indirect staff working at Pininfarina S.p.A. in 2020, in order to bring the professional skills and number of resources into line with the current market requirements;
- implementation of a plan to reduce operating expense and overheads for all group companies, also by increasing resort to outsourcing in some cases;
- development of new commercial projects to better enhance the potential of the group services to meet the continuous changes in market demand.

On 18 December 2020, via a referendum, the majority of the employees of Pininfarina Engineering S.r.l. in liquidation voted in favour of the proposed agreement with the company, which signed the related collective redundancy agreements with the relevant trade unions.

A restructuring provision has been recognised to fully cover the obligations reasonably foreseeable to date on the basis of the collective trade union agreements, the legal requirements, the individual agreements signed and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement.

As part of the redundancy plan for Pininfarina Deutschland GmbH, involving 46 people, the subsidiary has already signed most of the individual agreements stipulating the related financial terms.

Cost cutting will continue in the near future, in line with the ban on dismissals currently imposed by Italian legislation.

The current market situation, which reflects social difficulties that are well known throughout the world, is one of the most difficult in recent decades, particularly in the market sectors in which the Pininfarina Group operates. The demand for services continues to be strong in some segments (design-related activities) and much less so in others (pure engineering based on technical deliverables). There is a visible steady decline in the prices offered in all market segments. In order to deal with this situation, the parent is rapidly redirecting its available resources towards those activities considered most likely to generate profits. Indeed, upon completion of the cost containment and personnel redundancy plans mentioned above that the Group has already launched, together with the completion of the remaining planned measures, the parent and the Group will have a new strategic profile, focused on the design sector, which is considered to have greater potential in terms of profitability and volumes in the medium term.

The current dramatic pandemic situation and the turbulence in the automotive market are having a negative impact on the medium-term outlook. Nevertheless, the Group is making every effort to be ready to seize market opportunities, which will inevitably be better than the current ones, once the pandemic ends.

In this scenario, the directors have drawn up forward-looking scenarios, taking into account the estimated sales volumes on the basis of discussions with the main customers, the current order backlog and a prudent estimate of its changes in the medium term. The projected costs take into account the new post-restructuring cost positioning, the streamlining of internal resources aimed at eliminating inefficiency in the revised group structure and the use of outsourcing at competitive prices of part of the engineering activities in the design and engineering market served by the German subsidiary, as a means of further reducing costs and consequently increasing profit margins. These scenarios show that the restructuring and refocusing actions undertaken by the Group will still require the use of operating cash flows in the short term and that financial stability will be restored in the medium term, in tandem with an expected partial upswing in sales volumes, which are expected to remain at current levels at least in the near future. The Group's ability to continue as a going concern will require significant efforts in terms of sales volumes, cost containment and costs to win future contracts given the situation outlined above.

According to the directors, given the issues described above, there is significant uncertainty about the achievement of the production volumes and profitability goals underlying the projections, as they depend on the recovery of the markets in which the Group and the parent operate in the medium term and the success of the actions taken to create the conditions for them to return to financial stability. This uncertainty may cast material doubts as to their ability to continue as going concerns.

Notwithstanding the above, the directors deem that all measures to limit operating cash outflows and all possible measures to contain costs have been implemented. They have assessed existing and prospective projects based on commercial relationships with customers, which show that the pre-Coronavirus targets are achievable in the next few years, as well as the Group's available financial resources. After having carried out all relevant checks and evaluated the above uncertainty, management reasonably expects that the parent and the Group have sufficient resources available to continue their operations for the foreseeable future, as provided for by the IFRS. Due to the above reasons, the directors deem it correct to prepare this annual financial report on a going concern basis.

(b) Additions to the provisions for risks and charges and contingent liabilities and contingent assets

Provisions for risks and charges are liabilities whose due date and amount are uncertain. The directors measure them based on the estimated costs to be incurred to extinguish the obligation at the reporting date.

Contingent liabilities and assets are not recognised in the financial statements in accordance with paragraphs 27 and 31, respectively, of IAS 37 - Provisions, contingent liabilities and contingent assets.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group, or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Where necessary, the directors make their estimates with the assistance of their legal advisors and experts.

(c) Impairment

The scope of the impairment test is to check whether the group companies' non-current assets are impaired.

In order to perform the impairment test, cash-generating units are identified, along with estimates of their value in use, any impairment losses and the assets attributable to them.

As a result of the non-recurring transactions carried out in 2018 and 2019, starting from 1 January 2019, the new reportable segments are the following:

- the design segment;
- the engineering segment.

The Group has adopted an impairment testing procedure pursuant to IAS 36, approved by the Board of Directors on 17 February 2020.

With regard to the design segment, the following CGUs/activities were identified to be tested for impairment:

- other design activities: all other activities related to the design segment, currently carried out by Pininfarina S.p.A.. Goodwill was allocated to this CGU;
- Pininfarina Shanghai Co. Ltd;
- Pininfarina of America Corp.;
- the wind tunnel;
- the building and other assets related to the Bairo Canavese production facility, which is waiting to be repurposed for production after the termination of a business lease on 31 December 2019;
- the building and other assets related to the San Giorgio production facility, currently idle;
- other minor buildings.

With regard to the engineering segment, the following CGUs/assets were identified:

- engineering Italy, comprising all assets and operations transferred to Pininfarina Engineering S.r.l. in liquidation (PF ENG) on 1 July 2018;
- engineering Germany, comprising all activities carried out by the German subsidiary Pininfarina Deutschland GmbH;
- buildings owned in Germany by the German subsidiary Pininfarina Deutschland Holding GmbH.

During the year, the parent appointed an independent expert, Mr. Fabrizio Bava, to draw up a report on impairment testing pursuant to IAS 36 for the purposes of the preparation of its separate and consolidated financial statements.

The directors identified the following CGUs and adopted the following approach for consolidated financial statements purposes:

- the other design activities CGU was tested for impairment as it recorded a loss for the year and the 2021 budget approved by the Board of Directors on 11 January 2021 forecasts further losses. Based on the above, one of the trigger events provided for by IAS 36.12 was identified, since evidence is available from internal reporting that “the economic performance of an asset is, or will be, worse than expected”;
- the carrying amount of the Bairo Canavese and San Giorgio Canavese CGUs (comprised of the related buildings) have been compared to the related fair values, based on updated appraisals;
- the carrying amount of the other buildings CGU was found to be higher than its fair value less costs to sell and, accordingly, a €0.1 million impairment loss has been recognised;
- no indicators of impairment have been identified for the other CGUs of the design segment;
- the engineering Italy CGU, relating to Pininfarina Engineering S.r.l. in liquidation, is being wound up and, therefore, will no longer generate future cash flows through continuing use. The parent has adjusted the carrying amount of the related intangible assets and property, plant and equipment to their realisable value;
- the engineering Germany CGU recorded a loss for the year. It was affected by a major restructuring process. Based on the above, one of the trigger events provided for by IAS 36.12 was identified, since evidence is available from internal reporting that “the economic performance of an asset is, or will be, worse than expected”.

The directors adopted the following approach to account for the parent’s equity investments in its separate financial statements:

- the investment in Pininfarina Engineering S.r.l. in liquidation was tested for impairment as was the related CGU. Pininfarina Engineering S.r.l. in liquidation’s equity value is equal to that of its investment in Pininfarina Deutschland GmbH;
- no specific triggers have been identified in relation to the other equity investments and, therefore, they have not been tested for impairment.

Cash flows are forecast by directors based on reasonable and supportable assumptions that represent their best estimate of the future economic conditions.

The discount rate used reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

In accordance with the Annual enforcement priorities issued by ESMA on 28 October 2020, the company considered the following when testing its assets for impairment:

- as disclosed in the relevant notes, the carrying amounts of the other design activities CGU are equal to the fair value of the Cambiano buildings, as confirmed by recent appraisals prepared by real estate experts;
- the Bairo and San Giorgio Canavese buildings are not used and their carrying amounts equal their fair value, as confirmed by recent appraisals prepared by real estate experts;
- the assets and liabilities of the engineering Italy CGU, which does not have a value in use as it is being wound up, have been measured at their net realisable value;
- as discussed in the relevant notes, the parent revisited the assumptions used for testing the engineering Germany CGU for impairment. In order to account for the high level of uncertainty in future estimates, the directors have prepared future cash flow projections on a prudent basis, considering a market recovery only in the medium term to three years, and maintained a zero growth rate to estimate the terminal value in their impairment testing model.

(d) Fair value measurement and hierarchy for financial instruments

Pursuant to IFRS 7 – Financial instruments: Disclosures, the classification of financial instruments at fair value is based on the quality of the inputs used for measurement purposes. The IFRS 7 classification is based on the following fair value hierarchy:

- Level 1: fair value is determined based on prices quoted on an active market for identical assets or liabilities. This category includes financial assets classified as “held for trading”, which are mainly government bonds and high-rating bonds.
- Level 2: fair value is determined based on inputs that, while different from the quoted prices used in Level 1, can be observed either directly or indirectly. These consolidated financial statements do not present any financial instruments of this type.
- Level 3: fair value is determined based on valuation models, the inputs of which are not based on observable market data. These consolidated financial statements do not present any financial instruments of this type.

(e) Current and deferred taxes

Current taxes are calculated on the basis of a best estimate of the tax expense for the year, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are measured on the basis of the parent’s and Group’s expectations on how the carrying amount of their assets and liabilities will be recovered/extinguished, subject to the probability that they will earn future taxable profit. Deferred tax assets and liabilities are measured on the basis of tax rates that are expected to be applicable when the assets will be realised or the liabilities will be extinguished, therefore based on tax rates or changes to tax laws that have been enacted by the reporting date.

(f) Italian post-employment benefits

Following the supplementary pension reform, the portion of Italian post-employment benefits vested before 1 January 2007 is considered to be a defined benefit under IAS 19 - Employee benefits. Under defined benefit plans, the amount of the benefit due to the employee upon termination of employment depends on different factors, such as age, seniority and remuneration. Despite being prudently estimated and based on internal historical figures, these estimated parameters may be subject to change.

The directors estimated the post-employment benefit obligation assisted by an independent expert included in the Italian Actuary Register.

(g) Stock option plans

The Group’s stock option plan is reserved for the parent’s key management personnel and is aimed at incentivising their achievement of the parent’s objectives and enhancing their loyalty to the parent.

The options are measured using the Black-Scholes valuation approach.

The directors calculated the carrying amounts relating to the stock option plan with the assistance of an independent expert

TYPES OF FINANCIAL INSTRUMENTS AND FAIR VALUE HIERARCHY

The financial instruments held by the Group include:

- cash and cash equivalents;
- current financial assets at fair value through profit or loss;
- non-current loan liabilities;
- trade receivables and payables, loans and receivables - related parties and contract assets and liabilities;

• other current financial assets and liabilities.

As required by IFRS 7, the table below lists the types of financial instruments included in the consolidated financial statements and shows the measurement criteria adopted:

	Financial instruments at fair value through: profit or loss	Financial instruments at fair value through: equity	Fair value hierarchy	Financial instruments at amortised cost	Equity investments at cost	Carrying amount at 31.12.2020	Carrying amount at 31.12.2019
Assets:							
Equity investments in other companies	-	-		-	252,017	252,017	252,017
Loans and receivables	-	-		550,000	-	550,000	550,000
Contract assets	-	-		4,575,923		4,575,923	4,616,785
Trade receivables and other assets	**-**	**-**		**20,951,458**	**-**	**20,951,458**	**40,004,096**
Liabilities:							
Contract liabilities	-	-		6,060,721	-	6,060,721	14,624,300
Other loans and borrowings	-	-		26,692,047	-	26,692,047	32,693,688
Trade payables and other liabilities	**-**	**-**		**18,399,554**	**-**	**18,399,554**	**21,323,952**

In addition, net cash and cash equivalents are measured at fair value which usually equals their nominal amount.

Pursuant to IFRS 7 – Financial instruments: Disclosures, the classification of financial instruments at fair value is based on the quality of the inputs used for measurement purposes. The IFRS 7 classification is based on the following fair value hierarchy:

- Level 1: fair value is determined based on prices quoted on an active market for identical assets or liabilities.
- Level 2: fair value is determined based on inputs that, while different from the quoted prices used in Level 1, can be observed either directly or indirectly. These consolidated financial statements do not present any financial instruments of this type.
- Level 3: fair value is determined based on valuation models, the inputs of which are not based on observable market data. These consolidated financial statements do not present any financial instruments of this type.

FINANCIAL RISK MANAGEMENT

Financial risk factors, as identified in IFRS 7 – Financial instruments: Disclosures, are described below:

- Market risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in market prices. Market risk includes the following other types of risk: currency risk, interest rate risk and price risk.
- Currency risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in exchange rates.
- Interest rate risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in interest rates.
- Price risk: the risk that the fair value or the future cash flows of a financial instrument could fluctuate as a result of changes in market prices (other than changes covered by the interest rate and currency risks), irrespective as to whether such fluctuations are determined by factors specific to the financial instrument or its issuer or by factors that affect all similar market-traded financial instruments.
- Credit risk: the risk that one of the parties causes the other party to incur a financial loss by failing to fulfil an obligation.
- Liquidity risk: the risk that an entity may be unable to fulfil obligations associated with financial liabilities.

(a) Currency risk

The Group entered into most of its financial instruments in Euros, which is its functional and presentation currency. Although it operates in an international environment, its exposure to fluctuations in exchange rates is limited to the following currencies against the Euro: US dollar (USD), and Chinese renminbi (CNY).

(b) Interest rate risk

The Restructuring Agreement signed by Pininfarina S.p.A. with the lending institutions, effective from 30 May 2016 to 31 December 2025, defined a fixed contractual interest rate of 0.25% per annum, based on a year of 360 days.

If the six-month Euribor exceeds 4% during an interest accruing period, the contractual interest rate will be increased by the difference between the actual six-month Euribor and 4%.

A breakdown of the Group's financial debt by fixed and variable interest rates is as follows:

	31.12.2020	**%**	31.12.2019	%
- Fixed rate	**22,052,198**	**99.6%**	23,948,046	90.7%
- Variable rate	**93,597**	**0.4%**	2,458,172	9.3%
Gross financial debt with third parties	**22,145,795**	**100.0%**	26,406,218	100.0%

(c) Price risk

The Group mainly carries out design and engineering activities, therefore it is not significantly exposed to price risk on the commodities it purchases.

(d) Credit risk

The Group is exposed to credit risk, defined as the probability of an impairment loss on exposures with a commercial or financial counterparty. With reference to commercial transactions, the Group's most significant projects have a limited number of counterparties, most of which may be qualified as of a primary credit standing. At group level, credit risk is especially concentrated in Asia (Iran, India and China).

Counterparty risk in the case of countries in which the Group does not usually undertake commercial transactions is analysed and assessed at the offering phase in order to identify and mitigate any solvency risk.

Despite the global Covid-19 pandemic, since it mainly operates with counterparties of high credit standing, the Group's credit risk on existing trade receivables has not significantly increased. Only the Chinese subsidiary Pininfarina Shanghai has recognised a specific loss allowance of €466 thousand for one of its exposures.

The Group operates in markets that are or have been recently affected by geopolitical or financial tensions. Specifically, the following exposures are considered to bear solvency risk::

	Iran
(€'000)	
Assets	3,040
Contract liabilities	1,468
Net exposure	**1,572**

Lastly, as disclosed in the specific section, the receivables related to certain contracts may remain unpaid, be renegotiated or cancelled. Specifically, in the reporting period, the Group recognised impairment losses on some of the Chinese subsidiary's receivables (€466 thousand).

Reference should be made to the relevant note for a breakdown of trade receivables by geographical segment.

(e) Liquidity risk

In brief, the Rescheduling Agreement effective as of 30 May 2016 entailed:

- settlement and extinguishment of 56.74% of the nominal amount of the parent's debt with the lending institutions that accepted this option, in addition to the interest accrued up to the effective date;
- the rescheduling of the nominal amount of the debt with the lending institutions that accepted this option, totalling €41.5 million, from 2016 to 2025;
- the application of a fixed interest rate of 0.25% per annum, based on a year of 360 days, increased by the difference between this rate and the six-month Euribor, should the latter exceed 4%.

The cash flows of the above-mentioned agreement have been determined on the basis of the 2016-2025 business plan that ensures the parent's financial stability.

Consequently, over the medium to long term, the liquidity risk is directly correlated to the achievement of the business plan targets.

A breakdown of the contractual amount of the Group's financial debt is set out below.

	Carrying amount 31.12.2020	Contractual cash flows	Of which: due within one year	Of which: due from one to five years	Of which: due after five years
Term financing	22,145,795	27,455,890	3,671,686	23,784,204	-
Other loans and borrowings - third parties	22,145,795	27,455,890	3,671,686	23,784,204	-

The Group holds net cash and cash equivalents of €28.5 million.

In February 2020, the parent signed a €20 million loan agreement with the Mahindra Group. The loan was replaced by an irrevocable capital injection from the majority shareholder for future capital increases disbursed in November 2020. As discussed in the "Going concern issues in the light of the Covid-19 pandemic" section, in the near future, also taking into account the as yet uncollected proceeds from the forthcoming capital increase, the company's cash and cash equivalents are believed to adequately meet the currently foreseeable financial requirements.

(f) Risk of default and debt covenants

This risk relates to the possibility that the new Rescheduling Agreement between Pininfarina S.p.A. and the lending institutions that came into force on 30 May 2016 may include acceleration clauses that would give rise to liquidity risk.

The Rescheduling Agreement requires that, as of the verification date of 31 March of each year, the financial covenant shall be at least equal to the minimum consolidated equity, i.e., €30 million. The covenant will be checked until the expiry of the loan in 2025.

The Mahindra Group provided a first demand surety to the lending institutions that is enforceable if Pininfarina S.p.A. fails to meet its obligations.

At 31 March 2020, the above-mentioned financial covenant was met and, although irrelevant for contractual purposes, it is still complied with at the reporting date. Should the minimum threshold be exceeded at 31 March 2021, the agreement would not be automatically terminated, as it provides for specific remedies and the lending banks can also waive their right to take action.

As discussed in the "Going concern" section of these notes, considering the increase in equity resulting from the proposed capital increase, as well as the parent's and Group's forecast performance on a going concern basis, their capitalisation levels are suitable and sufficient to comply with the financial covenant at the next assessment date of 31 March 2021. Moreover, the Mahindra Group has provided a surety that is enforceable if the parent fails to meet its obligations under the rescheduling agreement.

Based on the assessment dates planned for the 12 months after the reporting date, the Group's capitalisation level is deemed to be adequate, even in a worst-case scenario that does not consider the possible proceeds from the capital increase raised on the market.

(g) Business/market risk

The performance of the sectors/markets in which the Group operates is adversely affected by the simultaneous existence of two overlapping problems:

- the continuation of the negative economic cycle of the global automotive industry;
- the Covid-19 pandemic, which exacerbated the sluggish conditions of the Group's reference market, slowing down the acquisition of new contracts and/or reducing expected contract profit margins.

The impacts of the automotive sector's negative cycle on the Group's financial position and performance began in the second half of 2018 with an acceleration of this negative trend a year later. With the spread of the Covid-19 pandemic, starting from the end of the first quarter of 2020, the above trend was amplified and it is now generally accepted that a return to market conditions similar to the pre-Covid-19 period (more stable and profitable) will not occur in the next two/three years.

The current market situation, which reflects social difficulties that are well known throughout the world, is one of the most difficult in recent decades, particularly in the market sectors in which the company operates. The demand for services continues to be strong in some segments (design-related activities) and much less so in others (pure engineering based on technical deliverables). There is a visible steady decline in the prices offered in all market segments. In order to deal with this situation, the company is rapidly redirecting its available resources towards those activities considered most likely to generate profits. Indeed, upon completion of the cost containment and personnel redundancy plans mentioned above that the Group has already launched, together with the completion of the remaining planned measures, the company and the Group will have a new strategic profile, focused on the design sector, which is considered to have greater potential in terms of profitability and volumes in the medium term.

SEGMENT REPORTING

Identification of reportable segments

The Group has identified two reportable segments, as described below, which are its core business segments.

Operating segments are identified in accordance with paragraphs 5 to 10 of IFRS 8 – Operating segments.

Design segment

In addition to the revenue from the automotive and non-automotive design activities of all kinds, this segment includes revenue from architecture services, royalties for the use of the Pininfarina trademark, revenue from aerodynamic and aeroacoustics services and the costs arising from the parent’s property management.

The CGUs and assets comprised in the design segment are as follows:

- other design activities: all other activities related to the design segment, currently carried out by Pininfarina S.p.A.. Goodwill was allocated to this CGU;
- Pininfarina Shanghai Co. Ltd;
- Pininfarina of America Corp.;
- the wind tunnel;
- the building and other assets related to the Bairo Canavese production facility, which is waiting to be repurposed for production after the termination of a business lease on 31 December 2019;
- the building and other assets related to the San Giorgio production facility, currently idle;
- other minor buildings.

Engineering segment

This segment groups the automotive engineering services.

Its identified CGUs and assets are as follows:

- engineering Italy, comprising all assets and operations transferred to Pininfarina Engineering S.r.l. in liquidation on 1 July 2018;
- engineering Germany, comprising all activities carried out by the German subsidiary Pininfarina Deutschland GmbH;
- buildings owned in Germany by the German subsidiary Pininfarina Deutschland Holding GmbH.

The Group’s business segments are not affected by seasonal factors.

In accordance with IFRS 8.4, the Group presents segment reporting in its consolidated financial statements only.

Financial income and expense and income taxes are not allocated to the reporting segments because management makes the relevant decisions on an aggregate segment basis. Intra-segment transactions are carried out at market conditions.

Segment reporting at 31 December 2020 and 2019 is set out below. Amounts are in thousands of Euros.

	2020			2019		
	Design	**Engineering**	**Total**	Design	Engineering	Total
	A	**B**	**A + B**	A	B	A + B
Revenue	**47,074**	**29,705**	**76,779**	58,515	44,802	103,317
(Intra-segment revenue)	**(2,496)**	**(7,287)**	**(9,783)**	(3,784)	(9,135)	(12,919)
Revenue - third parties	**44,578**	**22,418**	**66,996**	54,731	35,667	90,398
Operating loss	**(10,750)**	**(10,798)**	**(21,548)**	(14,109)	(5,260)	(19,369)
Net financial expense			**(1,941)**			(1,469)
Dividends			**-**			-
Share of profit (loss) of equity-accounted investees	**13**	**-**	**13**	(2)	-	(2)
Loss before taxes	**-**	**-**	**(23,476)**	-	-	(20,840)
Income taxes	**-**	**-**	**(962)**	-	-	(2,235)

	2020			2019		
	Design	**Engineering**	**Total**	Design	Engineering	Total
	A	**B**	**A + B**	A	B	A + B
Loss from continuing operations	**-**	**-**	**(24,438)**	-	-	(23,075)
Other information required by IFRS 8:						
- Amortisation and depreciation	**(2,248)**	**(1,858)**	**(4,106)**	(3,018)	(1,901)	(4,918)
- Impairment losses	**(5,659)**	**(1,316)**	**(6,975)**	(9,271)	(18)	(9,289)
- Provisions/change in accounting estimates	**(285)**	**(3,110)**	**(3,396)**	(930)	(2,493)	(3,423)
- Net gains (losses) on the sale of non-current assets	**22**	**926**	**948**	(34)	-	(34)

The design and engineering segments are the operating segments whose operating results are regularly reviewed by the parent's chief operating decision maker to make decisions about resources to be allocated to the segments and assess their performance.

At the reporting date, there are two customers of the engineering segment that each make up more than 10% of the Group's total production revenue: approximately €10 million (14.9%) and around €7.5 million (11.2%), respectively.

Reference should be made to the directors' report for an analysis of the segments.

A breakdown of assets and liabilities by business segment is set out below:

	31 December 2020			31 December 2019		
	Design	**Engineering**	**Total**	Design	Engineering	Total
Assets	**110,187**	**32,225**	**142,412**	119,140	50,904	170,045
Elimination of intragroup assets	**(21,471)**	**(17,747)**	**(39,218)**	(28,118)	(20,411)	(48,529)
Liabilities	**62,363**	**18,544**	**80,907**	60,470	29,796	90,266
Elimination of intragroup liabilities	**(9,496)**	**(2,453)**	**(11,949)**	(1,011)	(6,741)	(7,752)
Of which: other information required by IFRS 8:						
- Equity-accounted investments	**615**	**-**	**615**	602	-	602
- Intangible assets	**5,450**	**141**	**5,590**	5,450	642	6,092
- Property, plant and equipment and investment property	**32,428**	**523**	**32,952**	33,546	6,935	40,481
- Assets held for sale	**-**	**5,156**	**5,156**	290	1,529	1,819
- Employees	**297**	**342**	**639**	289	383	672

Sales are broken down by geographical segment below:

	2020	2019
Italy	**8,811**	7,975
EU	**31,856**	41,256
Non-EU countries	**25,153**	34,579
Change in contract assets	**(334)**	1,491
Revenue from sales and services	**65,486**	85,301

NOTES TO THE CAPTIONS

1. Property, plant and equipment

The other design activities CGU, which comprises the parent's net invested capital excluding the assets relating to Bairo Canavese and San Giorgio Canavese, the wind tunnel, the other minor buildings and equity investments, was tested for impairment as it recorded a loss for the year and the 2021 budget approved by the Board of Directors on 11 January 2021 forecasts further losses. Based on the above, one of the trigger events provided for by IAS 36.12 was identified, since evidence is available from internal reporting that "the economic performance of an asset is, or will be, worse than expected".

The value in use of the CGU in question was determined using the unlevered discounted cash flow method by determining the post-tax cash flow based on the 2021-2023 projections approved by the Board of Directors on 1 February 2021, discounted using a WACC rate of 7.77%. On a prudent basis, the growth rate used to calculate the terminal value was maintained at zero.

Cash flows were forecast by directors, based on reasonable and supportable assumptions that represent their best estimate of the future economic conditions. The discount rate used reflects current market assessments, the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

The recoverable amount of the other design activities CGU's net invested assets tested for impairment at 31 December 2020 was lower than their carrying amount; therefore, an impairment loss was recognised. As required by IAS 36, the impairment loss was proportionally allocated to the CGU's assets, the main ones of which are the Cambiano land and buildings. Based on a recent appraisal dated December 2020, the fair value of these land and buildings, comprising the related plant, exceeds their carrying amount.

In accordance with IAS 36, the impairment loss was therefore attributed proportionally to the other assets belonging to the CGU, specifically:

- property, plant and equipment other than the Cambiano building were impaired by €0.2 million;
- intangible assets were impaired by €0.1 million;
- right-of-use assets were impaired by €0.2 million;

The engineering Italy CGU, relating to Pininfarina Engineering S.r.l. in liquidation, is being wound up. Accordingly, the parent has adjusted its non-current assets to reflect their realisable value.

The engineering Germany CGU was tested for impairment, without identifying any impairment losses on its consolidated net assets, also considering their modest contribution to the consolidated figures.

Changes in property, plant and equipment and an analysis of the items making up the captions are set out below.

	Land	Buildings	Total
Historical cost	12,001,743	64,715,778	76,717,521
Accumulated depreciation and impairment losses	(6,635,807)	(41,311,323)	(47,947,130)
Carrying amount at 31 December 2019	**5,365,936**	**23,404,455**	**28,770,391**
Additions	-	287,024	287,024
Depreciation	-	(1,069,343)	(1,069,343)
Impairment losses	-	(95,706)	(95,706)
Carrying amount at 31 December 2020	**5,365,936**	**22,526,430**	**27,892,366**
Of which:			
Historical cost	12,001,743	65,002,802	77,004,545
Accumulated depreciation and impairment losses	(6,635,807)	(42,476,372)	(49,112,179)

Land and buildings include the carrying amounts of real estate complexes, comprising the production facilities located in Via Castellamonte 6, Bairo Canavese (TO) and Strada provinciale per Caluso, San Giorgio Canavese (TO), the design and engineering site in Via Nazionale 30, Cambiano (TO) and a property in Beinasco (TO).

In early 2020, the Group sold the land close to the San Giorgio Canavese production facility, which had been reclassified to assets held for sale at the previous year end. The land was sold at a price equal to its carrying amount.

The Bairo Canavese production facility has not been used since 31 December 2019, when its lease ended, and has a carrying amount of €12 million, including land and building of €11.1 million and plant of €1 million. The Group compared its carrying amount to its fair value calculated considering the facility's appraised value. The carrying amount of the facility was found to be in line with the appraisal prepared in December 2020 and, therefore, the Group did not recognise any impairment loss.

The San Giorgio Canavese production facility has not been used since the end of 2015. The Group compared its carrying amount of €4.2 million to its fair value calculated considering the facility's appraised value. The carrying amount of the facility was found to be in line with the appraisal prepared in December 2020 and, therefore, the Group did not recognise any impairment loss.

Impairment losses on buildings relate to the other minor buildings CGU and, specifically, the impairment loss on the Beinasco (Turin) building for commercial use recognised to bring its carrying amount into line with its recoverable amount.

All land and buildings located in Italy are owned by Pininfarina S.p.A..

	Machinery	Plant	Total
Historical cost	7,081,027	85,754,264	92,835,291
Accumulated depreciation and impairment losses	(6,994,246)	(81,363,186)	(88,357,432)
Carrying amount at 31 December 2019	**86,781**	**4,391,078**	**4,477,859**
Additions	-	663,248	663,248
Depreciation	(10,109)	(706,603)	(716,712)
Impairment losses	-	(240,683)	(240,683)
Carrying amount at 31 December 2020	**76,672**	**4,107,040**	**4,183,712**
Of which:			
Historical cost	7,081,027	86,417,512	93,498,539
Accumulated depreciation and impairment losses	(7,004,355)	(82,310,472)	(89,314,827)

Plant and machinery at 31 December 2020 include plant and machinery based at the Cambiano facility and plant located at the Bairo Canavese facility, which comprises electricity and heating systems, whose carrying amounts are supported by the above-mentioned appraisal. Additions of the year are mainly due to air conditioning and heating systems installed at the Cambiano facility.

The impairment losses on "Plant" are those recognised by Pininfarina Engineering S.r.l. in liquidation to bring its assets' carrying amount into line with their realisable value after commencement of its winding up procedure.

	Furniture and fixtures	Hardware and software	Other assets	Total
Historical cost	3,996,533	6,979,554	1,298,915	12,275,002
Accumulated depreciation and impairment losses	(3,289,528)	(6,475,346)	(907,475)	(10,672,349)
Carrying amount at 31 December 2019	**707,005**	**504,208**	**391,440**	**1,602,653**
Additions	41,904	214,257	92,852	349,013
Disposals: Historical cost	-	-	(97,060)	(97,060)
Disposals: Acc. depreciation and imp. losses	-	-	80,437	80,437
Depreciation	(124,918)	(155,595)	(96,784)	(377,297)
Impairment losses	(71,691)	(411,466)	(268,552)	(751,709)
Reclassifications	(9,001)	(25,451)	(14,555)	(49,007)
Other changes	6,415	20,063	7,084	33,562
Carrying amount at 31 December 2020	**549,714**	**146,016**	**94,862**	**790,592**
Of which:				
Historical cost	4,029,436	7,168,360	1,280,152	12,477,948
Accumulated depreciation and impairment losses	(3,479,722)	(7,022,344)	(1,185,290)	(11,687,356)

The disposals relating to "Other assets" refer to the sale of a company car.

Additions to hardware and software for the year relate to the purchase of IT equipment for technological upgrading, mainly attributable to the parent.

The Group recognised impairment losses on all three categories of assets to bring the carrying amount of the other design activities CGU, pertaining to the parent, into line with its recoverable amount (€197,133) and that of Pininfarina Engineering S.r.l. in liquidation's assets into line with their realisable value (€172,149) after commencement of its winding up procedure.

2. Investment property/non-current assets held for sale

The Group's investment property consists of a building owned by Pininfarina Deutschland Holding GmbH in Renningen, near Stuttgart, Germany, which is leased to third parties and has been reclassified to non-current assets held for sale in accordance with IFRS 5.

In September, the subsidiary signed a letter of intent for the sale of such building for a consideration equal to its carrying amount and to be completed by the end of February 2021. It collected a deposit of €1,000,000 at the end of October 2021. Hence, it reclassified the building to non-current assets held for sale.

The building is mortgaged to secure a loan received by the German subsidiary (€52,465) and its bank overdraft (€41,132). Upon completion of the sale, the mortgage will be released.

	Land	Buildings	Total
Historical cost	4,918,589	11,085,256	16,003,845
Accumulated depreciation and impairment losses	-	(10,506,284)	(10,506,284)
Carrying amount at 31 December 2019	**4,918,589**	**578,972**	**5,497,561**
Reclassification: Historical cost	(4,918,589)	(11,085,256)	(16,003,845)
Reclassification: Acc. depreciation and imp. losses	-	10,848,263	10,848,263
Depreciation	-	(346,048)	(346,048)
Other changes	-	4,069	4,069
Carrying amount at 31 December 2020	**-**	**-**	**-**
Of which:			
Historical cost	-	-	-
Accumulated depreciation and impairment losses	-	-	-

3. Intangible assets

The carrying amount of intangible assets at 31 December 2020 slightly decreased to €5.6 million.

	Goodwill	Licences	Other	Total
Historical cost	1,043,495	7,245,674	8,195,119	16,484,288
Accumulated amortisation and impairment losses	(1,043,495)	(6,798,824)	(2,550,235)	(10,392,554)
Carrying amount at 31 December 2019	**-**	**446,850**	**5,644,884**	**6,091,734**
Additions	-	146,847	-	146,847
Amortisation	-	(123,917)	(50,858)	(174,775)
Impairment losses	-	(469,780)	-	(469,780)
Reclassifications	-	-	(3,850)	(3,850)
Carrying amount at 31 December 2020	**-**	**-**	**5,590,176**	**5,590,176**
Of which:				
Historical cost	1,043,495	7,392,521	8,191,269	16,627,285
Accumulated amortisation and impairment losses	(1,043,495)	(7,392,521)	(2,601,093)	(11,037,109)

The Group recognised impairment losses on its licences to bring the carrying amount of the other design activities CGU, pertaining to the parent, into line with its recoverable amount (€116,888) and that of Pininfarina Engineering S.r.l. in liquidation's assets into line with their realisable value (€352,892) after commencement of its winding up procedure.

"Other" includes the capitalisation of an advisory services agreement that the parent signed in connection with a long-term engineering contract.

The asset was recognised in 2018 at an amount equal to the liability with the supplier (see note 16) discounted on the basis of the payment plan agreed with it. Since the engineering contract has been suspended, the related asset's amortisation and contractual payments have also been suspended, pending developments in the end customer's situation.

4. Right-of-use assets and lease liabilities

This caption is required by IFRS 16 and shows the right to use the leased assets as per the leases signed by the group companies, mainly buildings housing their offices.

(a) Right-of-use assets

	2020		2019	
	Cars and other assets	**Land and buildings**	**Cars and other assets**	**Land and buildings**
Opening balance	**482,522**	**5,302,493**	695,153	6,167,833
Increase	**328,707**	**402,549**	382,125	233,105
Depreciation	**(328,699)**	**(1,093,486)**	(366,592)	(1,098,445)
Impairment losses	**(206,247)**	**-**	(228,163)	-
Derecognition of Pininfarina Engineering S.r.l. in liquidation	**(136,547)**	**(1,159,035)**	-	-
Reclassifications	**(30,799)**	**(4,118)**	-	-
Closing balance	**108,937**	**3,448,403**	482,522	5,302,493

The Group recognised impairment losses on its right-of-use assets to bring the carrying amount of the other design activities CGU into line with its recoverable amount.

Due to its winding up, Pininfarina Engineering S.r.l. in liquidation notified the lessors of the termination of the leases of offices and company cars.

Since the office lease will end on 31 March 2021, the subsidiary has derecognised the right-of-use assets and lease liabilities previously recognised under IFRS 16. It has also recognised all costs arising from the early termination of the lease in 2020.

The car leases will gradually end within the end of the second half of 2021. Therefore, the subsidiary has again applied the above accounting treatment.

(b) Amounts recognised in profit or loss

	2020	**2019**
Depreciation of right-of-use assets	**(1,422,185)**	(1,465,037)
Interest expense on lease liabilities	**(285,271)**	(320,890)
Impairment losses	**(1,501,829)**	(228,163)
Lease expenses for short-term leases or leases of low-value assets	**(99,808)**	(35,365)
Total	**(3,309,093)**	(2,049,456)

(c) Amounts recognised in the statement of cash flows

	2020	**2019**
Total cash flows for leases	**1,757,906**	1,600,768

(d) Lease liabilities

Lease liabilities are broken down by due date in the following table:

	Carrying amount 31.12.2019	**Contractual cash flows**	**Of which: due within one year**	**Of which: due from one to five years**	**Of which: due after five years**
Lease liabilities	4,546,252	4,544,920	1,906,054	2,638,866	-

5. Investments in associates

They include:

	31.12.2020	31.12.2019
Goodmind S.r.l.	**126,705**	119,001
Signature S.r.l.	**488,440**	483,141
Investments in associates	**615,145**	602,142

The increase is due to the group's share of their profit for the year.

6. Equity investments in other companies

Equity investments in other companies did not change from the previous year end and are as follows:

	31.12.2020
Midi Plc	**251,072**
Idroenergia Soc. Cons. a.r.l.	**516**
Volksbank Region Leonberg	**300**
Unionfidi S.c.r.l.p.A. Turin	**129**
Equity investments in other companies	**252,017**

7. Loans and receivables

This caption relates to the non-interest bearing loan disbursed by the parent to the associate Signature S.r.l. to support its start-up phase.

8. Inventories

Raw materials mainly consist of various materials used for the production of cars and prototypes at the Cambiano facility. Finished goods comprise Pininfarina-branded products and car spare parts manufactured by the Group, which are sold to carmakers.

The table below shows a breakdown of inventories and the allowance for inventory write-down:

	31.12.2020	31.12.2019
Raw materials	**590,275**	541,471
Allowance for inventory write-down	**(302,040)**	(331,075)
Finished goods	**121**	2,349
Finished goods at stores	**159,919**	146,936
Allowance for inventory write-down	**-**	-
Inventories	**448,275**	359,681

Allowance for raw material write-down	**2020**	**2019**
Opening balance	**331,075**	338,368
Additions	**-**	-
Utilisations	**(29,035)**	(7,293)
Other changes	**-**	-
Closing balance	**302,040**	331,075

The allowance for raw material write-down reflects the risk of obsolete and slow-moving items.

9. Contract assets and liabilities

Contract assets show the balance of gross contract work in progress less progress payments and advances.

The change for the year is due to the progress of certain design and engineering contracts from customers inside and outside the European Union.

Contract liabilities represent the Group’s obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from that customer.

Reference should be made to note 19. Revenue for a breakdown of contract assets and liabilities and related changes.

10. Trade receivables - third and related parties

The following table shows trade receivables at 31 December 2020 and 2019:

	31.12.2020	31.12.2019
Italy	**2,556,317**	2,827,605
EU	**2,469,335**	7,123,011
Non-EU countries	**9,313,475**	20,317,679
(Loss allowance)	**(798,015)**	(5,679,416)
Third parties	**13,541,112**	24,588,878

	31.12.2020	31.12.2019
Signature S.r.l.	**100,650**	48,800
Pininfarina Engineering S.r.l. in liquidation	**-**	139,175
Mahindra & Mahindra Group	**809,034**	113,940
Tech Mahindra Group	**117,225**	53,271
Automobili Pininfarina GmbH	**1,127,100**	652,816
Related parties	**2,154,009**	1,008,002
Trade receivables	**15,695,121**	25,596,880

The Group's main counterparties are top carmakers with a high credit rating. Since the receivables are not covered by insurance policies, the Group's maximum exposure to credit risk is equal to the carrying amount of the receivables less the loss allowance. The Group did not factor any receivables. Trade receivables are mostly denominated in Euros.

The decrease in trade receivables from third parties is due to a different type of invoicing plan being used compared to the previous year.

The increase in the loss allowance is due to the impairment losses and other changes prudently recognised by Pininfarina Shanghai on the receivable due from an Asian customer.

On the other hand, the decrease in the loss allowance is mainly due to utilisations by the parent and Pininfarina Engineering S.r.l. in liquidation of the impairment losses recognised on the receivables relating to a project for a Chinese customer in 2018.

Changes in the loss allowance are set out below:

	2020	2019
Opening balance	**5,679,416**	5,657,555
Additions	**372,713**	212,207
Utilisations	**(5,659,617)**	(190,346)
Other changes	**405,503**	-
Closing balance	**798,015**	5,679,416

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets from individual customers as at 31 December 2020.

	Net exposure	Loss allowance
Contract assets	4,575,923	-
Current (not past due)	6,666,038	2,952
1–30 days past due	1,847,352	1,029
31–60 days past due	1,341,680	1,108
61–90 days past due	112,849	-
91–120 days past due	-	-
More than 120 days past due	**2,829,751**	**792,926**

With respect to exposures not individually impaired, the Group defined a provisioning matrix based on its historical credit loss figures, adjusted by the counterparties' different credit ratings and business environments.

The net exposure column shows the trade receivables net of any advances and progress payments.

11. Other assets

The following table shows other assets at 31 December 2020 and 2019:

	31.12.2020	31.12.2019
VAT	**3,140,621**	7,645,797
Withholding taxes	**349,322**	5,033,890
IRAP (regional tax on production activities) paid on account	**553,727**	460,917
Prepayments and accrued income	**519,119**	706,014
Advances to suppliers	**84,462**	95,419
Amounts due from INAIL (the Italian Workers' Compensation Authority) and INPS (the Italian social security institution)	**11,839**	137,960

	31.12.2020	31.12.2019
Amounts due from employees	**221,415**	2,180
Other	**375,832**	325,039
Third parties	**5,256,337**	14,407,216
Related parties	**-**	-
Other assets	**5,256,337**	14,407,216

The VAT asset is mainly attributable to the parent. The decrease in the caption is due to the reimbursement of €5.1 million relating to 2018 and Q2 2019 received in March 2020 and the offsetting of the residual 2019 asset of €1 million against social security contributions, net of the increase for the first nine months of 2020. The parent received the reimbursement of the residual VAT asset relating to 2019 in October 2020.

The persisting crisis in the reference markets, exacerbated by the effects of the ongoing pandemic, as mentioned several times, has led to material uncertainty about the parent's and Group's ability to continue as going concerns. Reference should be made to the "Going concern" section for details and the directors' reasons for considering the uncertainty as resolvable. In this uncertain context, the Group fully impaired (€5.2 million) foreign withholdings, which are recoverable only through future taxable profits from operations carried out in their country of origin under relevant legislation. This does not alter the parent's right to use them should the conditions for their use arise in the future, since their time limit is 2028.

12. Cash and cash equivalents

The table below shows a breakdown of this caption and a comparison with the previous year-end corresponding figures:

	31.12.2020	31.12.2019
Cash in hand and cash equivalents	**8,821**	12,879
Short-term bank deposits	**28,520,350**	20,102,249
Cash and cash equivalents	**28,529,171**	20,115,128
(Bank overdrafts)	**(41,132)**	(2,368,172)
Net cash and cash equivalents	**28,488,039**	17,746,956

The increase in cash and cash equivalents is due to the capital injection for future capital increases received by the parent and working capital trends.

The bank overdrafts relate to the credit facilities drawn down by Pininfarina Deutschland GmbH, which reduced dramatically at the reporting date, partly thanks to the collection of the deposit for the future sale of a building (see note 2).

Reference should be made to the statement of cash flows for details of the cash flows for the year.

13. Equity

(a) Share capital

	31.12.2020		31.12.2019	
	Nominal amount	**No.**	Nominal amount	No.
Ordinary shares	**54,287,128**	**54,287,128**	54,287,128	54,287,128
(Treasury shares)	**(15,958)**	**(15,958)**	(15,958)	(15,958)
Share capital	**54,271,170**	**54,271,170**	54,271,170	54,271,170

The parent's share capital is comprised of 54,287,128 ordinary shares, with a unit nominal amount of €1. There are no other classes of shares.

Treasury shares are held in accordance with the limits imposed by article 2357 of the Italian Civil Code.

Detailed information about the parent's shareholders is provided in the "General information" section of these notes.

(b) Share premium reserve

This reserve is unchanged from the previous year end.

(c) Reserve for treasury shares

This reserve of €175,697, unchanged from the previous year end, is recognised in accordance with the provisions of article 2357 of the Italian Civil Code.

(d) Legal reserve

The legal reserve of €10,854,234, which pursuant to the provisions of article 2430 of the Italian Civil Code is available to cover any losses, is unchanged from the previous year end.

(e) Stock option reserve

Pursuant to article 114-bis of the Consolidated Finance Act, on 21 November 2016, the shareholders approved a stock option plan that provides for the free assignment of options for the subscription of ordinary shares to the parent's employees. The ratio is one share for each option. The plan aims at incentivising attainment of the parent's objectives and retaining employees. It provides that the maximum number of shares to be assigned to the beneficiaries is 2,225,925 and that the option's exercise price is €1.10 for each share. The plan term is seven years (2016-2023).

This reserve is unchanged from the previous year end.

The options are measured using the Black-Scholes valuation approach and the following assumptions:

1. Volatility: 80% (three-year average)
2. Risk-free rate: -0.41% (the average of the three instalments considered)
3. Dividends: no dividends are expected during the plan term
4. Average share price: €1.10
5. Vesting conditions: permanence of the employment agreement
6. Settlement method: equity instruments
7. Cost for the year: the plan costs were fully recognised from 2016 to 2019.
8. Carrying amount at the reporting date: €2,216,799

(f) Translation reserve

The translation reserve reflects the cumulative differences from the translation of financial statements of companies with functional currencies other than the Euro, which is the Group's presentation currency. These companies are Pininfarina Shanghai Co Ltd. and Pininfarina of America Corp..

(g) Other reserves

These reserves of €27,923,223 are unchanged from the previous year end.

(h) Losses carried forward

Losses carried forward totalled €38,695,810 at the reporting date, up by €23,234,419 from the 31 December 2019 figure. The increase is due to:

- the allocation of the loss for 2019 of €23,074,665;
- the effect of the adoption of IAS 19 (revised), quantified at €159,754.

The table reconciling the parent's loss and equity as at and for the year ended 31 December 2020 with the Group's relevant figures is provided in the directors' report, to which reference is made.

14. Loans and borrowings

(a) Rescheduling Agreement

The new Rescheduling Agreement (the "Agreement") between Pininfarina S.p.A. and its lending institutions became effective on 30 May 2016. Its effects are summarised below:

- settlement and extinguishment of 56.74% of the nominal amount of the parent's debt with the lending institutions that accepted this option, in addition to the interest accrued up to the effective date;
- the rescheduling of the nominal amount of the debt with the lending institutions that accepted this option, totalling €41.5 million, to 2025;
- the application of a fixed interest rate of 0.25% per annum, based on a year of 360 days, increased by the difference between this rate and the six-month Euribor, should the latter exceed 4%.

(b) Fair value of restructured debt

On 30 May 2015, the fair value of the restructured debt was determined by discounting the cash flows as per the Rescheduling Agreement to their present value using a 6.5% rate, determined with the assistance of a third-party financial advisor, as the sum of 1) the return on risk-free investments and 2) a credit spread attributed to Pininfarina S.p.A..

The table below summarises the changes in loans and borrowings:

	31.12.2019	Change in bank overdrafts	Unrealised interest	Repayment	Current/ non-current reclassification	31.12.2020
Other loans and borrowings	20,399,957	200,594	1,481,647	-	(3,608,089)	18,474,109
Non-current portion	**20,399,957**	**200,594**	**1,481,647**	**-**	**(3,608,089)**	**18,474,109**
Bank overdrafts	2,368,172	(2,327,040)	-	-	-	41,132
Other loans and borrowings	3,638,089	24,424	-	(3,640,048)	3,608,089	3,630,554
Current portion	6,006,261	(2,302,616)	-	(3,640,048)	3,608,089	3,671,686
Current and non-current portions	**26,406,218**	**(2,102,022)**	**1,481,647**	**(3,640,048)**	**-**	**22,145,795**

The decrease in bank overdrafts is due to the smaller use of its credit facilities by Pininfarina Deutschland GmbH.

Other loans and borrowings include the amounts due to the parent's lending institutions, parties to the Agreement, pursuant to the relevant loan and financing agreements.

A breakdown of the contractual cash flows by maturity is provided in paragraph (e) of the "Financial risk management" section.

A breakdown of changes by lender is set out below:

	31.12.2019	Increase	Unrealised interest	Repayment	31.12.2020
Intesa Sanpaolo S.p.A.	15,502,517		959,128	(2,316,237)	**14,145,408**
Banca Nazionale del Lavoro S.p.A.	912,529		56,457	(136,341)	**832,645**
Ubi Banca S.p.A. (formerly Banca Regionale Europea S.p.A.)	3,644,014		225,453	(544,456)	**3,325,011**
Selmabipiemme Leasing S.p.A.	3,888,986		240,609	(581,055)	**3,548,540**
Volksbank Region Leonberg (Germany)	90,000	24,424	-	(61,959)	**52,465**
Centennial Bank	-	200,594	-	-	**200,594**
Other loans and borrowings	24,038,046	225,018	1,481,647	(3,640,048)	**22,104,663**

Pininfarina Deutschland Holding GmbH has a €52,465 loan with Volksbank Region Leonberg (Germany).

Pininfarina of America received a loan of €200,594 (USD246,149) from Centennial Bank as part of the measures introduced by the Small Business Administration to tackle the effect of the Covid-19 pandemic. This loan bears fixed interest at 1%.

The Group's loans and borrowings are not subject to currency risk.

Reference should be made to the directors' report for more details on the net financial position (ESMA).

15. Post-employment benefits

Post-employment benefits show the present value of the obligation to employees under article 2120 of the Italian Civil Code. Following the changes introduced to Italian laws some years ago, benefits vested before 1 January 2007 are classified as defined benefit plans pursuant to IAS 19 - Employee benefits, while those accrued thereafter are classified as defined contribution plans.

Changes for the year are provided below:

	2020	2019
Opening post-employment benefits	**4,243,045**	4,778,297
Interest cost recognised in profit or loss	**13,531**	48,306
Current service cost recognised in profit or loss	**-**	-
Actuarial losses recognised in other comprehensive income	**159,754**	29,819
Payments	**(739,922)**	(849,427)
Pininfarina Engineering S.r.l.'s acquisition of a business unit	**-**	236,050
Transfer due to termination of Bairo plant's business lease	**830,629**	-
Other changes	**(139,698)**	-
Reclassification	**(1,127,938)**	-
Closing post-employment benefits	**3,239,401**	4,243,045

Following the early termination on 31 December 2019 of the business lease with Bluecar Italy S.r.l., 44 employment contracts (32 at the reporting date) and related post-employment benefits were transferred to Pininfarina S.p.A. on 1 January 2020.

Other changes show the effect of the non-application of IAS 19-R recognised by Pininfarina Engineering S.r.l. in liquidation when it commenced its winding up procedure.

The reclassification relates to the post-employment benefits of Pininfarina Engineering S.r.l. in liquidation that have been reclassified to other financial liabilities.

16. Trade payables, other financial liabilities and other liabilities

(a) Trade payables

	31.12.2020	31.12.2019
Third parties	**14,845,034**	19,193,148
Related parties	**560,460**	164,058
Other liabilities - third parties	**1,425,105**	280,442
Trade payables	**16,830,599**	19,637,648

Trade payables to third parties include roughly €5.8 million arising from an advisory services agreement that the parent signed in connection with a long-term contract.

The amount due under the agreement is recognised at the discounted value of the payment plan originally in place with the service provider.

Since the engineering contract to which the obligation refers has been suspended, the related liability has also been suspended, pending a development in the end customer’s situation.

The reporting-date balance comprises amounts that will be paid within twelve months of the reporting date, except for the trade payable described above, which will be settled over the term of the contract to which it relates.

(b) Other financial liabilities

	31.12.2020	31.12.2019
Wages and salaries payable	**6,234,200**	4,076,478
Social security charges payable	**961,593**	1,309,280
Other	**1,568,955**	1,686,304
Other financial liabilities	**8,764,748**	7,072,062

17. Provisions for risks and charges, contingent liabilities and litigation

(a) Provisions for risks and charges

Changes in provisions for risks and charges are set out below, with a comment on the main changes:

	31.12.2019	Additions	Utilisations	Releases	31.12.2020
Provision for product warranties	53,236	-	-	-	53,236
Restructuring provision	-	6,495,647	-	-	6,495,647
Other provisions	3,398,702	113,825	(871,809)	(2,402,143)	238,575
Provisions for risks and charges	**3,451,938**	**6,609,472**	**(871,809)**	**(2,402,143)**	**6,787,458**

The provision for product warranties, unchanged from the previous reporting date, represents the best estimate of the Group's contractual and legal obligations with regard to costs entailed by warranties provided on certain components of the vehicles it manufactured for a specific period, starting from the sale of the vehicles to end customers. The above-mentioned estimate was determined based on the Group's experience, specific contractual terms and product specifications and defect data generated by the statistical survey systems of the company's customers.

The restructuring provision reflects the best estimate of the liability for restructuring relating to the parent (€800,000), Pininfarina Deutschland GmbH (€998,271) and the winding up of Pininfarina Engineering S.r.l. in liquidation (€4,697,376). Specifically, the latter has been recognised to fully cover the obligations reasonably expected to date on the basis of the collective trade union agreements, the legal requirements, the individual agreements and, given the usual outcome of these procedures, the possible refusal to participate in the plan envisaged by the collective agreements by employees who oppose the agreement.

Other provisions are made up as follows:

	31.12.2019	Additions	Utilisations	Releases	31.12.2020
Provision for litigation with former employees	2,785	-	-	-	2,785
Provision for environmental surveys	60,070	-	(60,070)	-	-
Provision for losses to complete contracts	3,335,847	113,825	(811,739)	(2,402,143)	235,790
Other provisions	**3,398,702**	**113,825**	**(871,809)**	**(2,402,143)**	**238,575**

The provision for litigation with former employees covers liabilities arising from potential disputes with former employees.

The provision for environmental surveys reflects the best estimate of the parent's potential liabilities relating to this type of risk.

The provision for losses to complete contracts show the effects of the measurement of losses to complete long-term contracts.

(b) Contingent liabilities and litigation

There are no contingent liabilities or litigation to report at the reporting date.

18. Current and deferred taxes

(a) Deferred taxes

The table below provides a breakdown of deferred tax assets and liabilities:

	31.12.2020	31.12.2019
Deferred tax assets	**17,161**	839,071
(Deferred tax liabilities)	**-**	-
Net deferred tax assets	**17,161**	839,071

The net deferred tax assets relate to Pininfarina of America.

(b) Current taxes

Income taxes recognised in profit or loss are detailed below:

	2020	2019
Income taxes	**5,049**	(33,201)
IRAP (Regional tax on production activities)	**-**	-
Adjustment to prior year tax consolidation benefit	**-**	(12,918)
Addition to prior year provision	**(146,501)**	(8,767)
Current taxes	**(141,452)**	(54,886)
Change in deferred tax assets	**(820,326)**	(2,179,955)
Change in deferred tax liabilities	**-**	-
Deferred taxes	**(820,326)**	(2,179,955)
Income taxes	**(961,778)**	(2,234,841)

19. Revenue from sales and services

a) Revenue streams

The Group's revenue mainly relates to the provision of design and engineering services and sales of spare parts and prototypes.

	2020	2019
Sales - Italy	**1,065,663**	548,843
Sales - EU	**1,898,188**	986,946
Sales - Non-EU countries	**1,069,344**	574,068
Services - Italy	**6,862,513**	6,448,828
Services - EU	**29,830,307**	39,531,764
Services - Non-EU countries	**23,475,028**	31,743,413
Royalties - Italy	**919,670**	1,001,419
Royalties - EU	**134,213**	737,703
Royalties - Non-EU countries	**564,513**	2,237,301
Change in contract assets	**(333,791)**	1,490,931
Revenue from sales and services	**65,485,648**	85,301,216

Other sources of revenue include the following:

	2020	2019
Lease income	**637,750**	3,171,137
Rebilling	**176,256**	138,415
Prior year income	**512,703**	122,668
Insurance compensation	**3,536**	10,000
Grants for research and training	**47,254**	64,222
Sundry	**122,463**	1,607,175
Other revenue and income	**1,499,962**	5,113,617

"Sundry" for the previous year related to Pininfarina Engineering S.r.l. in liquidation's acquisition of a business unit.

Lease income mainly refers to the leases for the two buildings (one of which sold in early 2020) located in Germany, owned by Pininfarina Deutschland Holding GmbH. The decrease on the previous year is due to the termination of the parent's business lease.

Prior year income refers to prior year income and estimation differences, other than errors, resulting from the normal updating of estimates made in previous years.

b) Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by primary geographical market, major product and service lines and timing of revenue recognition. The table also includes a reconciliation of the disaggregated revenue with the Group's reportable segments:

	Design	Engineering	Total
Geographical market			
Italy	5,899,536	2,911,467	8,811,003
EU	16,121,251	15,734,301	31,855,552
Non-EU countries	22,556,960	3,772,850	26,329,811
Total	**44,577,747**	**22,418,618**	**66,996,365**
Major products/service lines			
Design services	42,643,050	-	42,643,050
Engineering services	-	21,224,202	21,224,202
Royalties	1,618,396	-	1,618,396
Lease income	-	637,750	637,750
Other	316,301	556,666	872,967
Total	**44,577,747**	**22,418,618**	**66,996,365**
Timing of revenue recognition			
Products transferred at a point in time	316,301	556,666	872,967
Products and services transferred over time	44,261,446	21,861,952	66,123,398
Total	**44,577,747**	**22,418,618**	**66,996,365**

c) Contract balances

The following table provides information about receivables, assets and liabilities from contracts with customers.

	31.12.2020	1.01.2020
Amounts included in trade receivables	**16,493,136**	31,276,296
Contract assets	**4,575,923**	4,616,785
Contract liabilities	**(6,060,721)**	(14,624,300)

The contract assets primarily relate to the company's rights to consideration for work completed but not billed at the reporting date on made-to-order products/services.

Contract assets were impaired by €871,809 during the year. They are reclassified to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customer.

Contract liabilities represent the Group's obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from that customer.

The smaller revenue recognised in 2020 from performance obligations satisfied (or partially satisfied) in previous years, mainly due to the changes in the estimate of the stage of completion of contracts, is €1.2 million.

The combined transaction price allocated to performance obligations still unsatisfied at the reporting date is €85.8 million. The Group expects that it will recognise roughly 24.6% of that amount as revenue in the following year.

No information is provided about remaining performance obligations at 31 December 2020 that have an original expected duration of one year or less, as allowed by IFRS 15.

Opening contract liabilities of €14.6 million have been reclassified to revenue during the year.

d) Performance obligations and revenue recognition policies

Revenue is measured based on the consideration specified in a contract with a customer.

The Group recognises revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Major products/service lines	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under IFRS 15
Design, engineering and operations services	The Group has determined that, for made-to-order products, the customer controls all of the work in progress as the products are being manufactured. This is because, under those contracts, products/services are made to a customer’s specifications and if a contract is terminated by the customer, then the Group is entitled to reimbursement of the costs incurred to date, including a reasonable margin. Invoices are issued according to contractual terms and are usually payable within 30 days. Uninvoiced amounts are presented as contract assets.	Revenue and associated costs are recognised over time - i.e., before the goods/services are made available at the customers’ premises. Progress is determined based on the cost-to-cost method. When incremental in accordance with IFRS 15, costs of obtaining a contract are recognised as assets and depreciated in line with the transfer of control over the related product/ service.
Architecture and design services	The Group has determined that revenue from design services is recognised at a point in time, because the contractual terms do not allow the Group to collect the consideration before the satisfaction of the performance obligation, even though the products/services are made to a customer’s specifications. Revenue is recognised when the work is delivered to and accepted by the customer, when the Group's right to payment becomes enforceable.	Revenue is recognised at a point in time, corresponding to the customer's acceptance. The Group applies the practical expedient provided for by the standard for incremental costs of obtaining a contract with a term of less than 12 months. Accordingly, these costs are recognised as an expense when incurred.
Royalties	The Group has determined that royalties are substantially related to the licence to use the Pininfarina trademark on designed products it manufactures. Even though customers do not control the trademark, they benefit therefrom. This shared benefit led the Group to believe that this is a right to access rather than use the trademark and, therefore, the related revenue is recognised over time.	Revenue is recognised over time
Lease income	The Group has determined that lease income arises from services whereby the customer simultaneously receives and uses the related benefits as the Group provides them. Accordingly, revenue from these performance obligations is recognised over time.	Revenue is recognised over time
Other	The Group determines the most appropriate recognition of other minor revenue on a case by case basis.	Revenue is recognised over time/at a point in time

20. Gains and losses on sale of non-current assets and equity investments

Gains relate to the sale of a building owned by Pininfarina Deutschland Holding GmbH and a company car by the parent.

The parent sold the land close to the San Giorgio Canavese facility at a price equal to its carrying amount.

21. Raw materials and components

Raw materials and components mainly include purchases of equipment and materials used for the design and engineering contracts and spare parts resold by the parent.

22. External variable engineering services

External variable engineering services mainly refer to design and technical services.

23. Wages, salaries and employee benefits

	2020	2019
Wages and salaries	**(37,265,306)**	(42,982,256)
Social security contributions	**(9,421,839)**	(10,620,611)
Independent contractors	**(1,101,112)**	-
Utilisation of restructuring provision	**-**	184,452
Blue collars, white collars and managers	**(47,788,257)**	(53,418,415)
Post-employment benefits - defined contribution plan	**(1,359,582)**	(1,577,448)
Wages, salaries and employee benefits	**(49,147,839)**	(54,995,863)

Post-employment benefits – defined contribution plan reflect the costs related to post-employment benefits both for defined benefit and defined contribution plans.

A breakdown of the actual number of employees at 31 December 2020 and the average number for the year is set out below, as per article 2427 of the Italian Civil Code, calculated by adding the number of employees at the beginning and end of the year and dividing the result by two.

	31.12.2020		31.12.2019	
	reporting date	**average**	reporting date	average
Managers	**29**	**29**	29	29
White collars	**576**	**617**	622	635
Blue collars	**34**	**42**	21	24
Total	**639**	**688**	672	688

The termination of a business lease involved the transfer of 32 employment contracts.

24. (Additions to)/utilisation of provisions and impairment losses

	2020	2019
Net impairment losses on loans and receivables	**(81,043)**	(220,521)
Revised estimate of the loss allowance	**-**	-
Additions to the restructuring provision	**(6,495,647)**	-
Additions to the provision for losses to complete contracts	**(113,825)**	(4,205,416)
Utilisation and revised estimates of provisions for risks and charges	**3,213,882**	962,233
Impairment losses on foreign withholding taxes	**(5,129,767)**	(32,217)
Impairment losses on property, plant and equipment	**(1,088,098)**	(7,337,064)
Impairment losses on intangible assets	**(469,780)**	(1,650,060)
Impairment losses on right-of-use assets	**(206,247)**	(228,163)
(Additions to)/utilisation of provisions and impairment losses	**(10,370,525)**	(12,711,208)

Net impairment losses on loans and receivables include the net losses recognised on receivables from a customer of the Chinese subsidiary.

Reference should be made to note 10 for details of impairment losses.

Reference should be made to note 17 for details of additions to the restructuring provision and provision for losses to complete contracts.

Impairment losses on receivables from subsidiaries relates to the parent's waiver of the amounts due from Pininfarina Engineering S.r.l. in liquidation (see note 7).

Reference should be made to notes 1, 3 and 4 for details of impairment losses on property, plant and equipment, intangible assets and right-of-use assets, respectively.

25. Other expenses

	2020	2019
Travel expenses	**(536,218)**	(1,626,399)
Leases	**(1,578,623)**	(1,245,141)
Directors' and statutory auditors' fees	**(662,593)**	(844,363)
Consulting and other services	**(3,666,414)**	(4,046,194)
Other personnel costs	**(917,420)**	(1,370,873)
Postal expenses	**(385,159)**	(397,753)
Cleaning and waste disposal services	**(324,083)**	(286,860)
Advertising	**(556,751)**	(1,016,876)
Indirect taxes	**(805,964)**	(785,650)
Insurance	**(486,000)**	(505,186)
Membership fees	**(132,454)**	(111,272)
Prior year expense	**(1,931)**	(39,508)
General services and other expenses	**(1,035,286)**	(1,002,711)
Other expenses	**(11,088,896)**	(13,278,786)

Consulting and other services mainly include IT, administrative and commercial consultancy fees.

General services and other expenses include costs for general services, guarantees and settlements in court.

Leases mainly refer to IT equipment under operating leases that are not covered by IFRS 16 either because they do not convey the right to use the asset or as a result of the application of the practical expedient to short-term or low value leases.

26. Net financial expense

	2020	2019
Interest and commission expense on credit facilities	**(141,653)**	(205,866)
Lease interest expense	**-**	-
Lease interest expense	**(285,270)**	(320,891)
Interest expense on loans and financing	**(1,561,032)**	(1,685,168)
Interest expense on trade payables	**-**	(78)
Financial expense	**(1,987,955)**	(2,212,003)
Bank interest income	**4,335**	4,042
Interest income on loans and receivables - third parties	**42,455**	53
Interest income on loans and receivables - related parties	**-**	-
Gains on assets held for trading	**-**	728,839
Financial income	**46,790**	732,934
Net financial expense	**(1,941,165)**	(1,479,069)

Interest and commission expense refers to interest paid on credit facilities and bank fees.

Lease interest expense relates to the amortised-cost measurement of lease liabilities under IFRS 16.

Interest expense on loans and financing of €1,561,032 comprises the effect of amortised-cost accounting (€1,481,647) and interest accrued under the existing Agreement (€77,693). The remainder relates to subsidiaries.

Bank interest income accrued on the current account credit balances.

Intragroup transactions include:

- Signature S.r.l.: loan agreement, purchases and sales of goods with Pininfarina S.p.A.;
- Tech Mahindra Ltd: services agreements with Pininfarina Engineering S.r.l. in liquidation, and Pininfarina Deutschland GmbH; services agreement in favor of Pininfarina Engineering S.r.l. in liquidation, Pininfarina Deutschland GmbH and Pininfarina of America Corp.;
- Tech Mahindra GmbH: lease agreement for equipped office premises and services agreements with Pininfarina Deutschland GmbH;
- Mahindra & Mahindra Ltd: brand licence agreement and design and engineering services agreements with Pininfarina S.p.A. and Pininfarina Engineering S.r.l. in liquidation, respectively;
- PT Mahindra Accelo Steel Indonesia: design services agreement with Pininfarina S.p.A.;
- Mahindra North America Technical Center: services agreement with Pininfarina Engineering S.r.l. in liquidation;
- Automobili Pininfarina GmbH: design and engineering services agreement with Pininfarina S.p.A..

In addition to the above figures:

- Studio Starclex - Studio Legale Associato Guglielmetti, related to Romina Guglielmetti (director of Pininfarina S.p.A.), provided legal assistance to the parent for €24,000.

  On 26 September 2018, Pininfarina Engineering S.r.l. in liquidation signed an engineering services agreement with Mahindra & Mahindra Ltd ("M&M") for the development of a project for the design of the upper body systems of the body shell, integration of the body shell with the main operating systems and achievement of the performance requested of a new Mahindra vehicle based on its new platform.

  Pininfarina Engineering S.r.l. in liquidation's fee for its services provided over roughly 16 months amounts to €10,583,172. This fee qualifies the transaction as a "major transaction" pursuant to the relevant legislation. The services provided are part of the company's "normal business activities" and are rendered on an arm's length basis. At the reporting date, services provided to the customer totalled €10,583,172 and the project had been concluded.

  The parent, Pininfarina S.p.A., signed five design and engineering services agreements with Automobili Pininfarina GmbH ("AP") on 29 June 2018, 26 March 2019, 31 May 2019, 22 July 2019 and 9 December 2019 respectively, for the development of a project for the design of the interior and exterior of a new car, the design of the upper body systems of the body shell, integration of the body shell with the main operating systems and achievement of the performance requested of a new AP vehicle based on its new platform.

  The parent will receive a total fee of €20,510,227 for its services to be provided under the above contracts from June 2018 to December 2020. This fee qualifies the transaction as a "major transaction" pursuant to the relevant legislation.

The services provided are part of the “company’s normal business activities” and are rendered “on an arm’s length basis. At the reporting date, services provided to the customer totalled €18,943,317, €4,681,684 of which in 2020.

On 25 July 2019, Pininfarina Engineering S.r.l. in liquidation signed an engineering services agreement with Mahindra & Mahindra Ltd (“M&M”) for the development of a project for the design of the upper body systems of the body shell, integration of the body shell with the main operating systems and achievement of the performance requested of a new Mahindra vehicle based on its new platform.

The subsidiary will receive a fee of €3,950,000 for its services to be provided over roughly 14 months. This fee qualifies the transaction as a “major transaction” pursuant to the relevant legislation. The services provided are part of the company’s “normal business activities” and are rendered on an arm’s length basis. At the reporting date, services provided to the customer totalled €3,950,000.

Directors’ and statutory auditors’ fees

The transactions identified as significant and non-recurring are as follows:

a) sale of a building located in Renningen, near Stuttgart, in Germany, by Pininfarina Deutschland Holding GmbH;

b) sale of the agricultural land close to the San Giorgio Canavese facility by the parent;

c) impairment losses on current assets of the other design activities CGU;

d) accruals to the restructuring provisions of Pininfarina S.p.A., Pininfarina Engineering S.r.l. in liquidation and Pininfarina Deutschland GmbH;

e) personnel expense for agreements reached by Pininfarina Engineering S.r.l. in liquidation in 2020;

f) impairment losses on assets of Pininfarina Engineering S.r.l. in liquidation;

g) non-application of IFRS 16 and IAS 19-R by Pininfarina Engineering S.r.l. in liquidation.

Atypical and unusual transactions

As required by Consob communication no. DEM/6064293 of 28 July 2006, the Pininfarina Group specifies that it did not carry out atypical or unusual transactions during the year, as defined in the above-mentioned Communication, according to which atypical and/or unusual transactions are transactions that, because of their significance/material amount, nature of the counterparty, subject, method used to determine the transfer price and timing of the event, could create doubts as to: the accuracy/completeness of the disclosure provided in the financial statements, the existence of a conflict of interest, the safeguarding of corporate assets and the protection of non-controlling investors.

Disclosure on the independent auditors' fees required by article 149-duodecies of the Issuers' Regulation

The 2020 fees for audit and non-audit services provided by KPMG and other entities of its network are detailed below, pursuant to article 149-duodecies of the Consob Issuers' Regulation.

Service provider	Service recipient	2020 fee

Chief Executive Officer
Silvio Pietro Angori
signed on the original

Statement on the consolidated financial statements pursuant to article 154-bis of Legislative decree no. 58/98

◊ The undersigned Silvio Pietro Angori, as CEO, and Gianfranco Albertini, as manager in charge of financial reporting of Pininfarina S.p.A., also considering the provisions of article 154-bis.3/4 of Legislative decree no. 58 of 24 February 1998, state that the administrative and accounting policies adopted for the preparation of the consolidated financial statements:

- are adequate in relation to the Group's characteristics and
- have been effectively applied during 2020.

◊ Moreover, they state that the consolidated financial statements as at and for the year ended 31 December 2020:

- have been prepared in accordance with the International Financial Reporting Standards endorsed by the European Community pursuant to Regulation (EC) no. 1606/2002 of the European Parliament and of the Council of 19 July 2002;
- are consistent with the accounting ledgers and records;
- are suitable to give a true and fair view of the financial position, financial performance and cash flows of the issuer and the group of companies included in the consolidation scope.

The directors' report includes a reliable analysis of the Group's performance and results of operations and the issuer's and consolidated companies' financial position and performance, as well as a description of the main risks and uncertainties to which they are exposed.

Independent auditors' report pursuant to article 14 of Legislative decree no. 39 of 27 January 2010 and article 10 of Regulation (EU) no. 537 of 16 April 2014

To the shareholders of
Pininfarina S.p.A.

Report on the audit of the consolidated financial statements

Opinion

We have audited the consolidated financial statements of the Pininfarina Group (the "group"), which comprise the statement of financial position as at 31 December 2020, the statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended and notes thereto, which include a summary of the significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Pininfarina Group as at 31 December 2020 and of its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standards endorsed by the European Union and the Italian regulations implementing article 9 of Legislative decree no. 38/05.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the "*Auditors' responsibilities for the audit of the consolidated financial statements*" section of our report. We are independent of Pininfarina S.p.A. (the "parent") in accordance with the ethics and independence rules and standards applicable in Italy to audits of financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty about going concern

We draw attention to that disclosed by the directors in the "Assessments that affect the consolidated financial statements (a) Going concern" section of the notes to the consolidated statements and the "Group's performance, outlook and going concern issues" section of the directors' report about events and circumstances that indicate that there is material uncertainty which would cast significant doubts about the group's ability to continue as a going concern and the reasons why the directors deemed it appropriate to prepare the consolidated financial statements at 31 December 2020 on a going concern basis.

Obtaining sufficient audit evidence supporting the parent's directors' use of the going concern basis of accounting was a key audit matter.

Our audit procedures included:

— analysing the process applied by the directors to assess the group's ability to continue as a going concern;

— understanding and assessing the reasonableness of the main assumptions underlying the 2021-2023 projections approved by the board of directors on 1 February 2021;

— understanding and analysing the 2021 expected cash flows prepared by the parent on the basis of the 2021 budget approved by the board of directors on 11 January 2021 and the underlying key assumptions;

— comparing the main assumptions underlying the projections to the group's historical data and external information, where available;

— analysing the main transactions that the group completed and commenced during the year, especially the winding up of Pininfarina Engineering S.r.l. and the restructuring of the subsidiary Pininfarina Deutschland GmbH;

— obtaining evidence supporting the capital injection for future capital increases made by the majority shareholder and checking its accounting treatment;

— analysing the minutes of the parent's internal bodies' meetings;

— checking the directors' calculations of the financial covenants provided for by the loan agreements;

— analysing the events after the reporting date that provide information useful for an assessment of the appropriateness of the use of the going concern basis of accounting to prepare the consolidated financial statements;

— obtaining written representations from the parent's directors in relation to future action plans and their viability;

— assessing the appropriateness of the disclosures provided in the notes about the going concern assumption.

We did not qualify our opinion in this respect.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in the audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to that described in the *Material uncertainty about going concern* section, we have identified the following key audit matters to report herein:

Estimate of the recoverable amount of non-current assets

Notes to the consolidated financial statements: note "Assessments that affect the consolidated financial statements, paragraph (c) Impairment", note 1 "Property, plant and equipment", note 3 "Intangible assets" and note 4 (a) "Right-of-use assets"

Key audit matter	Audit procedures addressing the key audit matter
The consolidated financial statements at 31 December 2020 include property, plant and equipment of €16.8 million, €14.8 million of which relating to the Cambiano building, intangible assets of €5.6 million and right-of-use assets of €3.6 million. Due to the persisting general negative performance of the reference automotive market and the concurrent effect of the COVID-19 pandemic, the group recognised an operating loss for the year. Moreover, it incurred restructuring costs, mainly as a result of the winding up of Pininfarina Engineering S.r.l. and the reduction in the employees of the German subsidiary Pininfarina Deutschland GmbH. According to the 2021 budget prepared by the directors, the difficult situation is expected to continue and certain trigger events that may indicate the existence of potential impairment losses have been identified. Accordingly, the directors tested the group's non-current assets for impairment to check whether the CGUs' carrying amount exceeded their recoverable amount. They estimated the recoverable amount based on the CGUs' value in use, calculated using the discounted cash flow model. They calculated the recoverable amount of the other design activities CGU by reference to the fair value of its assets, which are comprised of the Cambiano industrial facility. Impairment testing requires a high level of judgement, especially in relation to: — the expected cash flows derived from the 2021-2023 projections of the individual group companies approved by the board of directors on 1 February 2021, which are calculated	Our audit procedures included: — understanding the process adopted to prepare the impairment test approved by the parent's board of directors; — understanding the process adopted to prepare the CGUs' financial projections from which the expected cash flows used for impairment testing have been derived; — analysing the reasonableness of the assumptions used to prepare the financial projections and the assumptions underlying the Cambiano facility's fair value measurement, including by analysing the appraisal prepared by the external consultants engaged by the parent; — checking any discrepancies between the previous year forecast and actual figures, in order to check the accuracy of the estimation process; — comparing the expected cash flows used for impairment testing to those used for the financial projections and analysing the reasonableness of any discrepancies; — involving experts of the KPMG network in the assessment of the reasonableness of the impairment testing model and related assumptions, as well as the assumptions and valuations underlying the Cambiano facility's appraisal prepared by the parent's external consultants, including by

by taking into account the general economic performance and that of the companies' sector and the actual cash flows generated by the CGUs in recent years; — the financial parameters to be used to discount the above cash flows; — the key assumptions used to measure the Cambiano facility's fair value. For the above reasons, we believe that the recoverability of non-current assets is a key audit matter.	means of a comparison with external data and information; — assessing the appropriateness of the disclosures provided in the notes about non-current assets and the related impairment test.

Recoverability of the Bairo Canavese and San Giorgio Canavese industrial facilities

Notes to the consolidated financial statements: note "Assessments that affect the consolidated financial statements, paragraph (c) impairment" and note 1 "Property, plant and equipment"

Key audit matter	Audit procedures addressing the key audit matter
The caption "Property, plant and equipment" of the consolidated financial statements at 31 December 2020 include the carrying amounts of the discontinued Bairo Canavese and San Giorgio Canavese industrial facilities (€12 million and €4.2 million, respectively). The recoverability of the above facilities' carrying amounts is based on their fair value, which is in line with the most recent appraisals available to the parent. Measuring fair value entails a high level of judgement by the directors, especially in relation to the key underlying assumptions. For the above reasons, we believe that the recoverability of the industrial facilities mentioned above is a key audit matter.	Our audit procedures included: — analysing the method used to calculate the Bairo Canavese and San Giorgio Canavese industrial facilities' fair value; — analysing the reasonableness of the assumptions underlying the above industrial facilities' fair value measurement, including by analysing the appraisals prepared by the external consultants engaged by the parent; — involving experts of the KPMG network in the assessment of the reasonableness of the assumptions and valuations underlying the appraisals prepared by the parent's external consultants, including by means of a comparison with external data and information; — analysing the events after the reporting date that provide information useful for an assessment of the recoverability of the carrying amounts of those industrial facilities; — assessing the appropriateness of the disclosures provided in the notes about the recoverability of the carrying amounts of those industrial facilities.

Restructuring of the engineering segment

Notes to the consolidated financial statements: note "Assessments that affect the consolidated financial statements, paragraph (c) impairment", note "1. Property, plant and equipment", note 17 (a) "Provisions for risks and charges" and note 24 "(Additions to)/utilisation of provisions and impairment losses".

Key audit matter	Audit procedures addressing the key audit matter
The consolidated financial statements at 31 December 2020 include provisions for risks and charges of €6.8 million, mainly relating to the restructuring provision of €6.5 million. The restructuring provision mainly covers the liabilities, estimated by the directors with the assistance of the relevant internal departments, the parent's external consultants and considering the indications of Pininfarina Engineering S.r.l.'s liquidator, arising from the restructuring plan for the engineering segment launched in 2020. This plan has entailed: — the winding up of Pininfarina Engineering S.r.l. given that it has discontinued its operations; — a reduction in the employees of the German subsidiary Pininfarina Deutschland GmbH. Measuring such provision is a complex activity, with a high degree of uncertainty and subjectivity. For the above reasons, we believe that the measurement of the restructuring provision is a key audit matter.	Our audit procedures included: — analysing the accounting policies used by the directors to estimate the restructuring provision; — obtaining and analysing relevant documentation, such as collective agreements with the trade unions, individual agreements and minutes of the internal bodies' meetings; — analysing the reasonableness of the assumptions used to calculate Pininfarina Engineering S.r.l.'s winding up liabilities, including taking into account the liquidator's indications; — sending written requests for information to the consultants assisting the parent and the internal personnel department about the measurement of the winding up liabilities; — analysing the events after the reporting date that provide information useful for an assessment of the restructuring provision; — assessing the appropriateness of the disclosures provided in the notes.

Responsibilities of the parent's directors and board of statutory auditors ("Collegio Sindacale") for the consolidated financial statements

The directors are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with the International Financial Reporting Standards endorsed by the European Union and the Italian regulations implementing article 9 of Legislative decree no. 38/05 and, within the terms established by the Italian law, for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The directors are responsible for assessing the group's ability to continue as a going concern and for the appropriate use of the going concern basis in the preparation of the consolidated financial statements and for the adequacy of the related disclosures.

The use of this basis of accounting is appropriate unless the directors believe that the conditions for liquidating the parent or ceasing operations exist, or have no realistic alternative but to do so.

The *Collegio Sindacale* is responsible for overseeing, within the terms established by the Italian law, the group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA Italia will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA Italia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors;
- conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the group to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the

consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance, identified at the appropriate level required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with the ethics and independence rules and standards applicable in Italy and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are, therefore, the key audit matters. We describe these matters in our auditors' report.

Other information required by article 10 of Regulation (EU) no. 537/14

On 6 May 2013, the parent's shareholders appointed us to perform the statutory audit of its separate and consolidated financial statements as at and for the years ending from 31 December 2013 to 31 December 2021.

We declare that we did not provide the prohibited non-audit services referred to in article 5.1 of Regulation (EU) no. 537/14 and that we remained independent of the parent in conducting the statutory audit.

We confirm that the opinion on the consolidated financial statements expressed herein is consistent with the additional report to the *Collegio Sindacale*, in its capacity as audit committee, prepared in accordance with article 11 of the Regulation mentioned above.

Report on other legal and regulatory requirements

Opinion pursuant to article 14.2.e) of Legislative decree no. 39/10 and article 123-bis.4 of Legislative decree no. 58/98

The parent's directors are responsible for the preparation of the group's directors' report and report on corporate governance and ownership structure at 31 December 2020 and for the consistency of such reports with the related consolidated financial statements and their compliance with the applicable law.

We have performed the procedures required by Standard on Auditing (SA Italia) 720B in order to express an opinion on the consistency of the directors' report and the specific information presented in the report on corporate governance and ownership structure indicated by article 123-bis.4 of Legislative decree no. 58/98 with the group's consolidated financial statements at 31 December 2020 and their compliance with the applicable law and to state whether we have identified material misstatements.

In our opinion, the directors' report and the specific information presented in the report on corporate governance and ownership structure referred to above are consistent with the group's consolidated financial statements at 31 December 2020 and have been prepared in compliance with the applicable law.

With reference to the above statement required by article 14.2.e) of Legislative decree no. 39/10, based on our knowledge and understanding of the entity and its environment obtained through our audit, we have nothing to report.

Statement pursuant to article 4 of the Consob regulation implementing Legislative decree no. 254/16

The directors of Pininfarina S.p.A. are responsible for the preparation of a consolidated non-financial statement pursuant to Legislative decree no. 254/16. We have checked that the directors had approved such consolidated non-financial statement. In accordance with article 3.10 of Legislative decree no. 254/16, other auditors attested the compliance of the non-financial statement separately.

LEGAL REPRESENTATIVE

The legal representative of the Company during the year and at the date of this report was Mr. Srinivasa Raghavan Venugopal – Director.

AUDITORS

BDO Audit Services Co., Ltd was selected to audit the Financial Statements for the year ended 31 March 2021 of Tech Mahindra Vietnam Co., Ltd.

RESPONSIBILITIES OF THE BOARD OF DIRECTORS FOR THE FINANCIAL STATEMENTS

The Board of Directors of the Company is responsible for preparing the financial statements, which give a true and fair view of the Company's financial position as at 31 March 2021 as well as its operations results and its cash flows for the fiscal year then end. The Board of Directors believes there are no contingent events that may affect the going concern of the Company. In preparing the Financial Statements, the Board of Directors is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State applicable accounting principles that have been followed, any material deviations (if any) discovered and explained in the Financial Statements;
- Prepare the Financial Statements on going concern basis unless it is inappropriate to presume that the Company will continue in business;
- Design and implement effectively the internal control system in order to ensure that the preparation and presentation of the financial statements are free from material misstatements due to frauds or errors.

The Board of Directors is responsible for ensuring that accounting books are kept adequately to give a true and fair view of the financial position of the Company and to ensure that the accompanying financial statements of the Company were prepared in accordance with Vietnamese Accounting Standards, current Corporate Accounting System of Vietnam and relevant legal regulations. The Board of Directors is also responsible for safeguarding the Company's assets and hence for taking reasonable for the prevention and detection of fraud and other irregularities.

The Board of Directors confirms that it has complied with the above requirements in preparing financial statements.

According to the Board of Directors, the accompanying audited Financial Statements give a true and fair view of financial position of the Company as at 31 March 2021, operation results and cash flows for the fiscal year then ended.

Hanoi, June 30, 2021
For and on behalf of the Board of Directors

Srinivasa Raghavan Venugopal
Director

INDEPENDENT AUDITORS' REPORT

Financial Statements of Tech Mahindra Vietnam Co., Ltd for the fiscal year ended 31 March 2021

To: MEMBER OF COUNCIL AND THE BOARD OF DIRECTORS TECH MAHINDRA VIETNAM CO., LTD

We have audited the accompanying financial statements of Tech Mahindra Vietnam Co., Ltd dated 30 June 2021 including: Statement of Financial Position as at 31 March 2021, Statement of Income and Expenditure, Statement of Cash flow and Notes to the Financial Statements for the fiscal year then ended, which are set out on pages 575 to 587.

Responsibilities of the Board of Directors

The Board of Directors is responsible for the preparation and fair presentation of the Company's financial statements in accordance with Vietnamese accounting standards, Vietnamese Corporate accounting system and other prevailing legal regulations, and for such internal control as the Board of Director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or errors.

Responsibilities of auditors

Our responsibility is to express an opinion on these financial statements based on our audit. We have conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgments, including the assessment of the risks of material misstatements on the financial statements, whether due to fraud or errors. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion of auditors

In our opinion, in all material respects, the accompanying financial statements give a true and fair view of the financial position of Tech Mahindra Vietnam Co., Ltd as at 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and other prevailing legal regulations on preparation and presentation of the Financial Statements.

1. Accounting framework

The Company applies Vietnamese Corporate Accounting System issued accompanying with Circulars No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance, and Circular 53/2016 TT-BTC dated 21/03/2016 issued by the Ministry of Finance for modifying, supplementing some articles of Circular No.200/2014/TT-BTC.

Financial statements are prepared under historical cost principle and in accordance with Vietnamese Accounting Standards. The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

2. Declaration on compliance with accounting standard and accounting system

The Board of Directors ensures that the financial statements have been prepared and presented in accordance with the requirements of the Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System and other prevailing legal regulations guiding the preparation and presentation of financial statements.

IV. APPLICABLE ACCOUNTING POLICIES

1. Exchange rates applied in accounting system

- Commercial bank the Company selects to apply exchange rate in accounting is Citibank, N.A, Ha Noi Branch (Citibank);

- Exchange rates applied in transaction recording comprise:
  + Actual exchange rates at the time of incurred transaction:

  Shall be used to convert into currency recorded in accounting book for transaction of recording revenue, other income, operating expenses, other expenses, assets, other receivables, equity in cash, prepayments to buyers, payables, advance received from customers.

  In the case of sale of goods or provision of services related to revenue received in advance or receipts in advance from the buyer: Revenue, income corresponding to the amount received in advance will be applied at the actual transaction exchange rate at the time buyer's pre-emptive point.

  In case of buying assets related to prepaid transactions to sellers: The value of assets corresponding to the prepaid amount shall be the actual transaction exchange rates applicable at the time of advances to the sellers.

  + Specific identification actual accounting book exchange rates:

  Shall be used to convert transactions into the accounting currency for ones recorded for decrease in: Receivables, Advances from customers due to the transfer of products, goods, fixed asets, services, accepted volume, Collaterals, Prepaid expenses, Payables, Advances to suppliers for products, goods, fixed assets, services received, accepted volume.

  + Moving weighted average bookkeeping rate:

  Shall be used to convert into the currency recorded in accounting books in the Credit side of the cash accounts when making a payment in foreign currency.

- Actual exchange rates upon revaluation at the date of the financial statements:
  + For monetary items derived from foreign currencies classified as assets: applied exchange rate is exchange rate of buying of Citibank as at 31 March 2021. For foreign currency deposited in bank, the actual exchange rate upon revaluation is exchange rate of the bank where the Company opens foreign currency accounts.
  + For monetary items derived from foreign currencies classified as liabilities: applied exchange rate in revaluation is selling exchange rate announced by Citibank as at 31 March 2021.

  Exchange rate difference in the year and difference from revaluation of monetary items denominated in foreign currencies are recognized as financial income or expenses in the year.

2. Recognition of cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposit and time deposit, cash in transit and short-term investments with maturity of less than three months that can be easily transferred to cash without any risks in transferring at the date of the report. The identification of cash and cash equivalents is in accordance with Vietnam Accounting Standard No. 24 "Cash Flow Statement".

3. Recognition of receivables

The amounts of receivables shall be classified into trade receivables, other receivables following principles below:

- **Trade receivables:** include commercial receivables generating from purchase - sale related transactions;
- **Other receivables:** include non - commercial or non - trading receivables such as receivables from loans, deposits, dividends and profit distributed, payments entiled by third party, amounts that the entrusted party must collect for the entrusting party, receivables from lending the property, receivables for fines, compensations, assets awaiting resolution, and etc.

  Monitoring receivables

  Receivables shall be recorded specifically to original terms and remaining recovery terms as at the reporting date, original currencies and each object. At the financial statements' preparation date, receivables which have remaining recovery terms of less than 12 months or a business cycle are classified as current receivables, receivables which have remaining recovery terms of over 12 months or a business cycle are classified as non - current receivables.

  Allowance for doubtful debts

  The provision for doubtful debts represents amounts of outstanding receivables at the balance sheet date, which are doubtful of being recovered. Increases and decreases to the provision balance are recorded as general and administrative expense in the Income statement.

4. Recognition of Inventory

Inventories are determined based on the lower of cost and net realizable value. The price of inventories comprises all costs of purchases, costs of conversion and other costs directly related to bringing the inventories to the location and current status. The net realizable value is determined as the estimated selling price minus (-) the estimated costs to complete the product and the estimated costs necessary for consumption.

5. Recognition of prepaid expenses

Prepaid expenses are expenses which have actually incurred yet are related to operational outputs of many accounting periods and the transfer of these expenses to operating expenses of subsequent accounting periods.

Each prepaid expense incurred shall be recorded in details of maturity. As at the reporting date, prepaid expenses that have maturity of less than 12 months or a business cycle since the date of prepayment are classified as current prepaid expenses, expenses that have maturity of over 12 months or a business cycle since the date of prepayment are classified as non-current prepaid expenses.

6. Recognition of fixed assets and Depreciation

Tangible fixed assets

Fixed assets are stated at historical cost and accumulated depreciation.

The historical cost of tangible fixed asset comprises of its purchase price and any directly attributable costs to bring the tangible fixed assets into work condition for its intended use. The identification of the historical cost of each category of tangible fixed assets is in accordance with Vietnames Accounting Standard No. 03 on tangible fixed assets.

Costs incurred after initial recognition such as maintenance and repairs are charged to the income statement as incurred. In situations where can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of tangible fixed assets beyond its originally assessed standard of performance, the expenditure is capitalized as an additional cost of tangible assets.

When fixed assets are sold or proposed, their cost and accumulated depreciation are eliminated from the Balance sheet and any gain or loss arising from the disposal of fixed assets are accounted for in the income statement.

Depreciation of tangible assets and intangible assets is calculated using the straight-line method, in accordance with the Circular 45/2013/TT-BTC dated 25 April 2013 of the Finance Ministry and Circular 147/2016/TT-BTC dated 13 October 2016 of the Finance Ministry promulgating on management and use of fixed assets depreciation. Estimated useful lives of fixed assets are as follows:

Assets	Useful life
Machinery and equipment	07 years
Office Equipment	03 years

7. Recognition of payables

The amount of payable shall be classified into trade payable and other payables following principles below:

- **Trade payables:** include commercial payables arisen from purchases of goods, services or assets.
- **Other payables:** include non-commercial payable amounts, or payable amounts that are not related to trading in goods or services (such as payables by a third party, payables arising from borrowing assets, fines and compensation payable, assets awaiting resolution, payables on social insurance, health insurance, unemployment insurance, union funds and etc..).

Monitoring payables

Payables shall be specially recorded to original terms and remaining terms as at the reporting date, original currencies and each object. At Financial Statement's preparation date, payables that have remaining repayment terms of less than 12 months or a business cycle are classified as current payables, payables that have remaining repayment terms of over 12 months or a business cycle are classified as non-current payables.

Recognized payables shall be not lower than payable obligations.

8. Recognition of borrowings and finance lease liabilities

Borrowings and finance lease liabilities shall be specially recorded to each object, terms, original currencies. As at the consolidated financial statement's preparation date, borrowings and finance lease liabilities that have remaining repayment terms of less than 12 months or a business cycle are classified as current borrowings and finance lease, ones that have remaining repayment terms of over 12 months or a business cycle are classified as non-current borrowings and finance lease liabilities.

Recognition of borrowing expenses

Borrowing expenses include interest expenses and expenses directly relating to the borrowings (such as appraisal costs, audit costs, loan application cost and etc.).

Borrowing expenses are recognized as financial expenses during the period as incurred (except capitalization cases according to regulations in Vietnam Accounting Standards No. 16 “Borrowing expenses”).

9. Recognition of accrued expenses

Accrued expenses include expenses that have been recored into the operating cost, but not actually paid at the end of the fiscal year to ensure the consistency between revenues and expenses. Accrued expenses are recorded based on the reasonable estimation of amount payable for received goods and services including expenses for audit fee, tax and accounting service fee, and etc.

10. Recoginition of provision for liabilities

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. Recognized provision satisfies conditions in Vietnamese Accounting Standard 18 “Provision, contingent assets and liabilities”.

11. Recognition of owner’s equity

Recognition of owner’s equity

Owner’s equity is recognized under actual contribution of investors. The actual amount of contribution capital as at 31/03/2021 is 50,000 USD, which equivalent to 1,135,000,000 VND.

Recognition of retained earnings

Retained earnings reflect the business results (profit, loss) after corporate income tax and profit sharing situation or dealing with loss of the Company. Retained earnings shall be specifically recorded to the operational results of each financial year (previous year, current year) and to each profit sharing content (appropriated funds, additional investment capital of the owner, dividends, profits for shareholders and investors).

12. Recognition of revenue

Revenue from sales of goods

Revenue from sales of goods is recognized when the outcomes of such transactions can be reliably measured and the Company is able to obtain economic benefits from these transactions. Revenue is recognized when the majority of risks and benefits of ownership of the goods have been transferred to the buyer. No revenue is recognized if there are significant uncertainties regarding the recovery of the funds or the possible return of funds.

Revenue from rendering of services

Revenue from the rendering of services is recognized when the outcome of such transactions is reliably determined. When the contract result can be reliably determined, revenue will be recognized based on the level of completion of the work. The level of completion of work is determined by the percentage of number of working hours incurred up to the end of the accounting period in relation to the total estimated hours worked for each contract.

If the contract can not be reliably determined, revenue will only be recognized at the recoverable amount of the costs recognized.

Financial income

Financial income includes interest on deposits, loan interests, dividends and profits distributed, rental income and income from securities trading activities.

Interest on deposits and loan interest is recognized on the basis of the actual time and interest rate in each period, unless the possibility of recovering interest is uncertain.

13. Recognition of cost of goods sold

Cost of goods sold represent cost of goods/service provision in the year. Cost of goods sold is recognized on matching principle between revenue and expenses.

14. Recognition of financial expenses

Financial expenses include: expenses or losses related to borrowing expenses, exchange rate losses, bank fees.

Interest expenses (including accrued interests), losses on the exchange rate differences of the reporting period are fully recognized in the period.

15. Recognintion of Administrative expenses

General and administrative expenses are general management expenses, including salaries and social insurance, health insurance, trade union funds, unemployment insurance for administrative employees (salaries, wages, allowances and etc.); expenses for office supplies, labor tools; rental fee; outsourced services (electricity, water, telephone, fax, audit fee, tax and accounting service fees and etc).

16. Tax accounting principles

Current Corporate Income Tax

Current income tax expenses are determined on the basis of taxable income. Corporate income tax (CIT) applicable to the company is as follows:

Regarding taxable income from software manufacturing activities:

The CIT rate applicable for the Company is 10% of taxable income for 15 years from the operations commencement date and the standard CIT rate applies in subsequent years.

The Company is entitled to an exemption from CIT for 4 years commencing from the first year in which a taxable income is earned and a 50% reduction of the applicable CIT tax rate for the following 9 years. The Company's first year of taxable income is 2018, therefore, the Company is exempt from tax for software manufacturing operation.

Regarding taxable income from other activities:

The CIT rate applicable to the Company for income from other activities is 20% of taxable income.

Deferred tax

Deferred corporate income tax is the amount of income tax payable or refunded due to the temporary difference between the carrying amount of assets and liabilities for the purpose of preparing and presenting financial statements and the values used for tax calculation.

Other taxes: Other taxes are applied according to current tax regulations in Vietnam.

Tax reports of the Company will be subject to inspection of tax authorities. Since the application of laws and regulations on taxation for different transactions can be interpreted in many different ways, the amounts presented in the financial statements could be changed according to the final decision of the tax authorities.

VI ADDITIONAL INFORMATION FOR ITEMS ON THE STATEMENT OF INCOME AND EXPENDITURE

Following items are presented in Vietnam dong (VND).

1. Revenue from sales of goods and rending of services

	Current year	Previous year
Revenue from sales of goods	-	12,486,235,647
Revenue from rendering of services	312,852,117,133	73,709,600,255
Total	**312,852,117,133**	**86,195,835,902**

2. Cost of goods sold and services rendered

	Current year	Previous year
Cost of goods sold	-	9,512,946,865
Cost of service rendered	288,694,286,136	69,419,492,636
Total	**288,694,286,136**	**78,932,439,501**

3. Financial income

	Current year	Previous year
Bank interest	124,307,341	21,943,364
Gain on exchange rate difference	367,156,644	9,537,000
Total	**491,463,985**	**31,480,364**

4. Financial expenses

	Current year	Previous year
Loss on exchange rate difference	1,059,999,800	292,563,278
Interest expense	612,902,631	442,301,643
Total	**1,672,902,431**	**734,864,921**

5 General and administrative expenses

	Current year	Previous year
Administrative employee expenses	1,090,074,370	1,935,552,354
Depreciation expenses	19,725,456	-
Office supply expenses	195,813,384	2,582,469
Taxes, fees, and charges	10,682,115	2,000,000
External service expenses	3,108,029,744	1,616,267,526
Other monetary expenses	941,815,449	180,702,993
Provision for doubtful debt	2,697,000,000	-
Total	**8,063,140,518**	**3,737,105,342**

6. Production and operating expenses

	Current year	Previous year
Labour cost	23,296,485,255	19,679,818,530
Depreciation expenses	14,820,864,006	-
Tool and instrument cost	195,813,384	2,582,469
External services expenses	254,737,618,274	61,761,206,456
Other monetary expenses	1,009,645,735	1,225,937,388
Provision cost	2,697,000,000	-
Total	**296,757,426,654**	**82,669,544,843**

7. Current corporate income tax expense

The current tax payable is based on taxable profit for the year. The taxable profit of the Company for the year differs from the profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted by the balance sheet date.

Corporate Income tax in the year of the Company:

	Current year	Previous year
Net (loss)/profit before tax	**14,497,565,007**	**2,822,794,206**
Adjustment of (decrease)/increase in (loss)/profit	**-**	**7,149,443,575**
Adjustments of increase	-	7,149,443,575
Non-deductible interest expenses		442,301,643
Other non-deductible expenses	-	346,254,016
Provision for expenses	-	6,360,887,916
Adjusted pre-tax (loss)/profit without deducting loss in previous years	**14,497,565,007**	**9,972,237,781**
Estimated taxable income in current period	14,497,565,007	9,972,237,781
Current corporate income tax expense	**1,449,756,501**	**1,994,447,556**
Exempted corporate income tax (*)	1,449,756,501	-
Estimated Corporate Income Tax	**-**	**1,994,447,556**
At the beginning of year	**1,994,447,556**	**-**
Adjustment of previous year of corporate income tax	(1,345,615,102)	-
Corporate income tax paid during the year	616,628,917	-
At the end of year	**32,203,537**	**1,994,447,556**

Tax reports of the Company will be subject to inspection of tax authorities. Since the application of laws and regulations on taxation for different transactions can be interpreted in many different ways, the amounts presented in the financial statements could be changed according to the final decision of the tax authorities.

VII. OTHER INFORMATION

1. Related parties

Related parties

Parties are considered to be related if one party has the ability to control the other parties or exercise significant influence over the other party in making financial and operating decisions. Related parties comprise enterprises including parent company, subsidiaries, individual directly or indirectly through one or more intermediaries, control or are controlled by, or are under common control with, the reporting enterprise. Associates, individuals owning, directly or indirectly, an interest in the voting power of the reporting enterprise that give them significant influence over the enterprise, key management personnel, officers, close members of the family of an individual and associate, or the individual's associate are also considered as related parties.

During the fiscal year ended 31 March 2021, related parties of the Company are determined as following:

Related parties	Relationship
Tech Mahindra Limited	Parent Company
Tech Mahindra ICT Service (Malaysia)	Company in group
Mahindra Enginering Services (Europe) Limited	Company in group
Mr. Srinivasa Raghavan Venugopal	Director, Member of Member of Council
Mr. Manish Goenka	Chairman of Member of Council
Mr. Gautam Shirali	Member of Member of Council

Transaction with related parties

Significant transaction with related parties during the year as following:

In the year	Transaction	Current year	Previous year
Tech Mahindra Limited	SubconExp-Ring Fencing InterCo	111,013,714,974	25,559,174,147
	Revenue from rendering services	177,171,521,677	50,350,380,703
	Others	-	415,499,651
Tech Mahindra ICT Service (Malaysia) SDN.BHD	Interest expenses	439,260,571	442,301,643
Mahindra Enginering Services (Europe) Limited	Borrowings	91,680,000,000	-
	Interest expense	173,642,060	-
	Borrowings Paid	91,680,000,000	-
	Interest expense paid	173,642,060	-

Balances with related parties

Amount due to and from related parties as balance sheet date as following:

Related parties	Content	Current year	Previous year
Tech Mahindra Limited	Trade receivables	81,210,991,331	30,913,547,132
	Trade payables	168,616,313,137	26,103,154,115
	Other short-term payables	683,250,131	-
Tech Mahindra ICT Service	Short-term loans and finance lease liabilities	11,582,500,000	11,825,000,000
	Interest expense payables	989,905,698	550,645,127

Pricing policies for transactions between the Company and other related parties

Services provided by related parties are negotiated among parties involved.

2. Subsequent events after balance sheet date

There have been no significant events occuring after the balance sheet date which would require adjustments or disclosures to be made in the financial statements.

3. Comparative figures

Comparative figures are the figures in the financial statements for the fiscal year ended 31 March 2020 audited by BDO Audit Services Company Limited.

4. Going concern

At the date of the Financial Statements, there were no activities or events that have significant impact on going concern of the Company, therefore the Financial Statements were prepared on going concern basis.

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2021

Fair review of the business

During the year ended March 31, 2021 the loss before tax is £12,313,738 (2020 - profit before tax of £1,181,225) and the key results are as follows:

	2021	2020
	£	£
For the 12 month period ended March 31, 2021		
Revenue from operations		
Add: Interest income	548,932	378,299
Add: Other income	8,403	11,154
Total Revenue	**557,335**	**389,453**
Less: Interest payable	(2,482,881)	-
Less: Net exchange gain/(loss)	(1,719,357)	791,772
Less: Provision for Brazil loan and interest	(8,668,835)	-
Profit Before Tax	**(12,313,738)**	**1,181,225**

Preference Shares

During the year 46,961,578 Preference Shares of £1.00 each registered in the name of Tech Mahindra Ltd were re-classified as Ordinary Shares of £1.00 each and consequently a coupon became payable on these shares, which were also approved in the books amounting to £2,473,026.

Brazil loan

MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED (MES UK) has given a total loan amounting to £8,273,314 to Tech Mahindra Servicos De Informatica LTDA Brazil. Interest amounting to £395,521 is outstanding on the same. As a result of the financial conditions in that entity they are not capable of retuning the funds to MES UK, hence we have provided for the loss in our books.

COVID Impact

The pandemic has been rapidly spreading throughout the world, including the UK. Various governments have been taking significant measures to curb the spread of the virus including imposing mandatory lockdowns and restrictions in activities. Due to this, there has been adverse impact in foreign exchange currency rates across the globe and consequently MES UK has booked losses from June 2020. The management is of the opinion that the situation will steadily change in a positive way in the next coming years

This report was approved by the board on June 7, 2021 and signed on its behalf.

Vikram Nair
Director

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors present their report and the financial statements for the year ended 31 March 2021.

Directors' responsibilities statement

The directors are responsible for preparing the Strategic report, the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the Company's financial statements and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements and other information included in Directors' reports may differ from legislation in other jurisdictions.

Results and dividends

The loss for the year, after taxation, amounted to £12,313,738 (2020 - profit £956,792).

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who served during the year were:

Mr Lakshmanan Chidambaram - Appointed 25 November 2020

Mr Vikram Nair

Mr Belavadi Sathisha - Appointed 25 March 2021

Mr Arvind Malhotra - Resigned 25 November 2020

Disclosure of information to auditors

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Auditors

The auditors, MHA MacIntyre Hudson, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006.

This report was approved by the board on June 7, 2021 and signed on its behalf.

Vikram Nair
Director

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED

Opinion

We have audited the financial statements of Mahindra Engineering Services (Europe) Ltd (the 'Company') for the year ended 31 March 2021, which comprise the Statement of comprehensive income, the Statement of financial position, the Statement of changes in equity and the related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 March 2021 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the United Kingdom, including the Financial Reporting Council's Ethical Standard, and the provisions available for small entities, in the circumstances set out in note to the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our Auditors' report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' responsibilities statement set out on page 590, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- Discussions held with management and those charged with governance around any legal claim.
- Audit work performed over key risk areas identified such as management override and reviewing accounting estimates for bias.
- Review of financial statement disclosures to ensure accounting policies have been correctly followed.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our Auditors' report.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. General information

Mahindra Engineering Services (Europe) Limited is a private company limited by shares incorporated in England and Wales. The registered office is Atrium Court, The Ring, Bracknell, Berkshire, RG12 1BW.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Financial reporting standard 102 - reduced disclosure exemptions

The company has taken advantage of the following disclosure exemptions in preparing these financial statements, as permitted by the FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland":

- the requirements of Section 7 Statement of Cash Flows;
- the requirements of Section 3 Financial Statement Presentation paragraph 3.17(d);
- the requirements of Section 33 Related Party Disclosures paragraph 33.7.

This information is included in the consolidated financial statements of Tech Mahindra Limited as at 31 March 2021 and these financial statements may be obtained from Gateway Building, Apollo Sunder, Mumbai, Maharashtra, 400001, India.

2.3 Going concern

At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.

2.4 Foreign currency translation Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

2.5 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.6 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.7 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.8 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Investments in unlisted Company shares, whose market value can be reliably determined, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the Statement of comprehensive income for the period. Where market value cannot be reliably determined, such investments are stated at historic cost less impairment.

Investments in listed company shares are remeasured to market value at each Statement of financial position date. Gains and losses on remeasurement are recognised in profit or loss for the period.

2.9 Associates and joint ventures

Associates and Joint Ventures are held at cost less impairment.

2.10 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.11 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.12 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.13 Financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

In the application of company's accounting policies, the directors are required to make judgments, esimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

4. Operating (loss)/profit

The operating (loss)/profit is stated after charging:	2021 £	2020 £
Exchange differences	**1,710,152**	**(802,818)**

Exchange differences recognised in profit or loss during the year, except for those arising on financial instruments measured at fair value through profit or loss, amounted to £2,719,610 (2020: (£802,818)).

5. Auditors' remuneration

The Company has taken advantage of the exemption not to disclose amounts paid for non audit services as these are disclosed in the group accounts of the parent Company.

	As of 31. 3. 2021
Place of keeping the Annual Report:	Company Secretariat
Companies on which the reporting company exercises decisive influence:	None

TC INTER-INFORMATICS a.s. is a supplier for engineering services in the field of engineering. It is a 100 % subsidiary of MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED, which is a member of the Tech Mahindra Group.

As part of the merger, TC INTER-INFORMATICS a.s. became the successor company to the company Inter-Informatics, spol. s r.o. which ceased to exist by this merger.

The date of the merger is April 1, 2020.

The sole shareholder of the successor company before the decisive date of the merger was Inter-Informatics, spol. s r.o..

Since 1 March 2021, when the merger was registered in the Commercial Register, MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED has been the sole shareholder.

The company's strategy is based on the overall Group's strategy:

NBy providing comprehensive solutions in the field of engineering services to help customers improve their market position (e.g. by transferring new knowledge and experience, reducing costs, accelerating and streamlining internal processes).

REPORT ON THE COMPANY BUSINESS ACTIVITIES AND MANAGEMENT

Past and projected developments and prospect for the next period

After successfully settling negative liabilities from the period prior to the acquisition, gradual stabfllzation of teams, use of processes, capacities and knowledge within the Tech Mahindra Group, all activities of the company were directed towards further deepening of cooperation with existing customers and launching new business opportunities.

Unfortunately, further commercial development was prevented by the global pandemic caused by the Covid-19 virus, which had a direct impact mainly on the sector of aviation.

It should be stressed that, as regards the fulfilment of commitments and the timeliness of deliveries, the market situation caused by the Covid-19 pandemic had no negative Impact on the company. The company's employees use only software and hardware equipment for their work, and without any downtime, the work was swiftly transferred to work from home mode, the so-called Home Office.

From the point of view of sales, the situation was negatively affected only in the aviation sector, but since the company is strategically focused on three business areas, it was able to optimally compensate for these aviation outages.

The Involvement and use of the spare capacities of aviation designers in other areas, i.e. for projects in rail and general engineering, has been and is still taking place in the form of intensive training of aviation employees.

The result was successful involvement of these spare capacities in the physical and successful implementatlon of projects outside the aviation sector.

In parallel, we managed to reduce costs (reduction of the number of employees, temporary decrease of the salary for TOP management, etc.), completely cancel some obligations (accommodation-rental in Buxtehude, Germany, decrease of SW Catla VS licenses) or negotiate better conditions for renting premises of headquarters in Prague.

Another important milestone In this period was the opening and successful Implementation of the national merger, in which Inter-Informatics, s.r.o. merged as the company being merged with TC INTER-INFORMATICS a.s., as the successor company.

The reason for carrying out this national merger was that the Inter-Informatics Group, to which both companies belonged, was undergoing the revision of the corporate structure at global level with the main aim of simplifying and rationalising organisation, functionality and governance.

The date of the legal effects of the merger was 1 March 2021, when as a result of the merger the assets of the company Inter-Informatics, s.r.o. were transferred to the successor company TC INTER-INFORMATICS a.s..

As a result of this merger, the reciprocal trade relatlons were not affected in any way and all contracts concluded so far with the merging company remained in force.

At the same time as the merger, the members of the Board of Directors of the company changed.

For the upcoming new flnanclal period, a new business plan has been created that takes into account the main factors of growth, new areas of business interest and the necessary knowledge and capacities to ensure implementation.

In line with the new business plan, two main performance indicators of the company, i.e. Revenue and Ebitda, have been set by the owner as the new target for the financial year 2021.

The company anticipates a further increase in orders in Rail + Machinery areas that have not been negatively affected by Covid situation.

At the same time, after the successful implementation of the project by the parent Tech Mahindra Limited

for koda Auto (development of a new SUV for the Indian market), it started negotiations to expand cooperation with TC INTER-INFORMATICS a.s. for the technical development department at koda Auto in Mladii Boleslav.

As part of the marketing campaign, the company responds to the market situation, uses its local presence and expands Its competencies.

Together with the parent company, it plans to create a local delivery centre with capacity of knowledge in the field of Electrical Engineering & Embedded Electronics & Programming &Communications with direct coordination from its headquarters in India.

In the upcoming period, the company expects a gradual increase In orders also In the Aerospace area, especially with the strategic customer Airbus Group (implementation activities for the Airbus Group customer were not Interrupted even during the pandemic).

With the gradual increase in the needs of Airbus or Boeing manufacturers, we expect a re start of cooperation with suppliers of these manufacturers as well as our customers such as Safran Group in Herborn, Germany, or Pilsen, and Bucher Group in Fallanden, Switzerland.

Cooperation with the traditional Aero Vodochody Aerospace customer also successfully continues without significant outages.

We plan to further compensate for this outage of orders in aviation by extending the scope of our existing supply activities, i.e. in addition to activities within our DOA authorisation for engineering services; we plan to supplement them with our own production or to find partners with the so-called POA authorisation for the aviation industry. We have already started this business plan, focusing our choice on small and medium-sized producers in Europe.

The management of TC INTER-INFORMATICS a.s. here expresses Its thanks and appreciation to all employees for the work done in the past period and at the same time for their trust and loyalty to the company.

INDEPENDENT AUDITOR'S REPORT

To the shareholders of TC INTER-INFORMATICS a.s.

Opinion

We have audited the accompanying financial statements of TC INTER-INFORMATICS a.s. (hereinafter also the "Company") prepared in accordance with accounting principles generally accepted in the Czech Republic, which is comprised of the balance sheet as at 31 March 2021, the income statement, statement of changes in equity and cash flow statement for the period from 1 April 2020 to 31 March 2021 and notes to the financial statements, including a summary of significant accounting policies, and other explanatory information. For details of the Company, see the introductory part of the notes to the financial statements.

In our opinion, the financial statements give a true and fair view of the financial position of TC INTER-INFORMATICS a.s. as at 31 March 2021, of its financial performance and its cash flows for the period from 1 April 2020 to 31 March 2021 in accordance with accounting principles generally accepted in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application clauses. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw your attention to the point the Equity: "TC INTER-INFORMATICS a.s. reports as of 31 March 2021 negative equity in the amount of CZK -12,401 thousand (as of 1 April 2020: CZK - 5,000 thousand). The Parent company is preparing a capitalisation of a part of provided loan in amount of EUR 1,000 thousand (CZK 26,245 thousand) to increase equity funds. The financial statements have been prepared under going concern assumption." Our opinion is not modified with regard to this matter.

Other Information

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Report other than the financial statements and auditor's report thereon. The Statutory Body is responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge about the Company obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law and regulation, in particular, whether the other information complies with law and regulation in terms of formal requirements and procedure for preparing the other information in the context of materiality, i.e. whether any non-compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law and regulation.

In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement of fact. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement of fact.

Responsibilities of the Company's Statutory bodies for the Financial Statements

Statutory bodies are responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the Czech Republic and for such internal control as Statutory bodies determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Statutory bodies are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Statutory bodies either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the above mentioned laws and regulations will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the statutory bodies.
- Conclude on the appropriateness of the Statutory bodies' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the statutory bodies regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

In Prague, May 20, 2021.

1. DESCRIPTION OF THE COMPANY

TC INTER-INFORMATICS a.s. is a joint stock company seated at Kolčavka 3/75, 190 00 Praha 9,

Czech Republic, identification number 270 70 115. The Company was incorporated following its registration in the Register of Companies held by the Court in Prague on 23 June 2003, section B, part 8494.

The principal activities of the Company are production, trade and services not stated in

Annexes 1 to 3 in Entrepreneurs Act.

These financial statements are prepared as individual financial statements.

The company complies with the Commercial Act in its entirety.

There are no agreements between shareholders stipulating control without respect to the share on share capital.

There is no profit transfer agreement either agreement to perform control.

These financial statements are presented in thousands of Czech crowns (CZK ‘000), unless stated otherwise.

The following table shows individuals and legal entities with an equity interest greater than 20 percent and the amount of their equity interest:

Shareholder	% on share capital
MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED	100 %
Total	**100 %**

Changes and amendments made in the period from 1 April 2020 to 31 March 2021 at the Register of Companies:

The company is the successor company to the merger with the merging company Inter-Informatics, spol. s r.o. The decisive date of the merger is 1 April 2020. The opening balance sheet has been prepared as of this date. The data from this opening balance sheet are comparable data in the company’s balance sheet. The income statement for the current accounting period contains the income and expenses of both participating companies. For this reason, the data on income and expenses of the successor company for the previous accounting period are not comparable and are therefore not reported in the column “previous accounting period” in the profit and loss statement. For a similar reason, the notes to the financial statements do not contain comparable data for the previous accounting period.

The sole shareholder of the successor company before the decisive date was the merging company. MAHINDRA ENGINEERING SERVICES (EUROPE) LIMITED has been the sole shareholder since March 1, 2021, when the merger was registered in the Commercial Register.

Board of Directors and Supervisory Board at 31 March 2021

	Function	Name
Board of Directors	Chairman	Belavadi Krishna Rao Sathisha
	Member	Venkateswara Rao Gajjala
	Member	Karel Kollert

Rajesh Ethakur Plakkote was removed from the position of a member of the Board of Directors on February 24, 2021. His position was deleted in the Commercial Register on March 23, 2021.

2. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company’s accounting books and records are maintained and the financial statements were prepared in accordance with the Accounting Act 563/1991 Coll., as amended; the Regulation 500/2002 Coll. which provides implementation guidance on certain provisions of the Accounting Act for reporting entities that are businesses maintaining double-entry accounting records, as amended; and Czech Accounting Standards for Businesses, as amended.

Financial statements are prepared as of 31 March 2021 and for the period from 1 April 2020 to 31 March 2021 (hereinafter “year 2020”).

3. ACCOUNTING PRINCIPLES AND POLICIES AND THEIR CHANGES

The company used the following measurement basis during preparation of financial statements for 2020:

a) Intangible fixed assets

Intangible fixed assets are measured at costs that include cost of purchase and other costs associated with the acquisition.

Internally generated intangibles are measured at internal costs incurred.

Intangibles with cost exceeding CZK 60 thousand in 2020 are amortized to expenses.

Method of amortization - the company amortizes intangibles in accordance with Income Tax Act.

Capital expenditure increases the cost of intangible assets. Repairs and maintenance expenditure is expensed when incurred.

Provisioning

Provisions were made against impaired/obsolete intangible fixed assets based on the results of the inventory taking, to the extent that the valuation temporarily does not correspond with the actual balance.

b) Tangible fixed assets

Tangible fixed assets are measured at costs that include cost of purchase and other costs associated with the acquisition.

Tangibles with cost exceeding CZK 20 thousand in 2020 are depreciated.

Method of depreciation – the company depreciates tangibles in accordance with Income Tax Act.

Capital expenditure increases the cost of tangible assets. Repairs and maintenance expenditure is expensed when incurred.

c) Cash

Cash consists of stamps, cash in hand and cash at bank. Cash is measured at nominal value.

d) Inventory

Inventory is accounted for under method B.

Work is measured at costs incurred. Costs incurred are measured at actual costs determined by the entity. Costs incurred include direct costs and may include also attributable indirect costs related to the period.

e) Receivables

Upon origination, receivables are stated at their nominal value as subsequently reduced by appropriate provisions for doubtful and bad amounts. Receivables acquired for consideration or as an investment to the equity are stated at cost less provisions for doubtful and uncollectible amounts.

The Company recognizes provisions for receivables based on ageing analysis and individual assessment.

Estimated receivables are measured based on best professional estimates and judgements.

f) Equity

Share capital is recognized in the amount registered at the Commercial Register of the City Court of Prague. Contributions exceeding share capital are recognized as other capital funds. They consist of monetary contributions exceeding the amount of share capital.

The company can create other capital funds based on the resolution of annual meeting.

g) Liabilities

Long-term and current liabilities are measured at nominal values.

Estimated liabilities are measured based on best professional estimates and judgements.

h) Reserves

Reserves to cover liabilities and expenditure the nature of which is clearly defined and which are either likely to be incurred or certain to be incurred as of the balance sheet date but uncertain as to their amount or as to the date on which they will arise.

The company creates reserves for known risks for which a future probable liability is assumed, in particular a restructuring reserve, a reserve for outstanding vacation days and anniversaries, a reserve for repairs under warranty.

i) Leasing

Lease repayments are expensed as incurred. The initial lump-sum payment related to leases is amortised and expensed over the lease period.

j) Foreign currency translation

Assets and liabilities acquired for foreign currency are measured at Czech crowns at an exchange rate ruling at the date of the transaction. Monetary items were translated as of the balance sheet using Czech National Bank exchange rates.

All exchange gains and losses are recognized as financial income or financial expenses in the income statement.

k) Accounting for revenue and expenses

Revenue and expenses are recognized on an accrual basis in the period to which they relate.

l) Income tax

Tax expense is calculated using the actual tax rate and accounting profit increased or decreased by temporarily or permanently non-deductible expenses and non-taxable income. Further the tax base is adjusted for gifts, other items like tax losses, research and development incentives and tax reliefs.

Deferred tax represents tax impact of temporary differences between carrying amounts of assets and liabilities and their tax bases taking into account the moment of realization. In accordance with the prudence principle the entity does not recognize deferred tax assets.

m) Subsequent events

The impact of events occurring between the balance sheet date and the date of preparation of financial statements is recognized if these events provided additional information about transactions existing at balance sheet date.

The impact of significant events occurring between the balance sheet date and the date of preparation of financial statements is disclosed in the notes to the financial statements if these events relate to transactions occurring after the balance sheet date.

4. Fixed assets

a) Intangible non-current assets (CZK thousand)

As of 31 March 2021	1 707

There are no receivables more due in more than 5 years.

Estimated receivables consist mainly of expected refund of German VAT, unbilled services.

7. Prepayments

Prepayments include mostly rent of licences, rent of hardware, training. They are expensed in a period they relate to.

8. Equity

Share capital consists of 51 shares fully paid up with a nominal value of CZK 500,000 each. Other capital funds in the amount of CZK 129,977 thousand as of 31 March 2021 represent contributions beside share capital (as of 1 April 2020: CZK 129,977 thousand).

The Company reports as of 31 March 2021 negative equity in the amount of CZK -12,401 thousand (as of 1 April 2020: CZK - 5,000 thousand). The Parent company is preparing a capitalisation of a part of provided loan in amount of EUR 1,000 thousand (CZK 26,245 thousand) to increase equity funds. The financial statements have been prepared under going concern assumption.

As at the date of the consolidated financial statements, ie as at 31 March 2020, the Group has a negative equity of CZK 3,040 thousand. The Group, in cooperation with its shareholder, plans to resolve this fact by increasing its capital funds. The consolidated financial statements have been therefore prepared under going concern assumption.

9. Provisions

	Balance b/f 1 April 2020	Additions	Release	Balance c/f 31 March 2020

NOTES TO FINANCIAL STATEMENT.

NOTE 1 - DESCRIPTION OF OPERATIONS AND BASIS OF PRESENTATION

Tech Mahindra Communications Japan Co. Ltd ("TMCJ" or "the Company") incorporated in Japan in 2006 under the name K Vision. On March 14, 2019, Tech Mahindra Limited ("Tech Mahindra"), incorporated in India, through its subsidiary, Mahindra Engineering Services (Europe) Limited, incorporated in the United Kingdom, completed the acquisition of the shares of the Company.

The Company is supplying all the elements required for the establishment and deployment of communication networks and provides related construction services in Japan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in Japan ("JGAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Cash and cash equivalents:

Cash and cash equivalents consist of certain highly liquid investments with maturities of three months or less at the date of purchase and consist of money market funds.

Trade receivables:

The Company believes that the concentration of credit risk in its trade receivables is mitigated by the Company's credit evaluation process, relatively short collection terms, and dispersion of its customer base. Management evaluates the collectability of trade receivables based on a combination of factors. Management regularly analyzes significant customers accounts, and, when management becomes aware of a specific customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position, a specific reserve for bad debts is recorded to reduce the related receivable to the amount management reasonably believes is collectible. Reserves for doubtful accounts for all other customers are also recorded based on a variety of factors including the length of time the receivables are past due, the financial health of the customer, macroeconomic considerations, and historical experience. If circumstances related to specific customer change, estimates of the recoverability of receivables could be further adjusted or the related receivables could be written off to the allowance as uncollectible. The Company has not experienced significant losses on trade receivables from any particular customer or geographic region.

Property and equipment:

Property and equipment are stated at cost and are being depreciated using straight-line and accelerated methods over the estimated useful lives of the related assets.

Fair value of financial instruments:

The fair value of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities, and other short-term liabilities approximate the carrying value due to their short-term, highly liquid nature. The carrying amounts of long-term debt approximate fair value, based on interest rates currently available for similar terms and maturities.

Income taxes:

Deferred income tax assets and liabilities are recognized on the differences between the financial statement and tax basis of assets and liabilities and on net operating loss carryovers using enacted tax rates. A valuation allowance is provided to offset deferred income tax assets if, based on available evidence, it is more likely than not that a portion of the deferred income tax assets will not be realized.

Accounting Principles

Cash accounting is being followed as per standard accounting practices followed in Japan. Last year Balance sheet figures has been recasted accordingly.

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors present the strategic report for the year ended 31 March 2021.

Fair review of the business

As an award-winning digital agency, the last financial year saw the business to continue consolidate and focus on re-building its income.

Despite the pandemic revenue only fell by £224k. Cost saving controls were put in place early on in the year to ensure the business remained a going concern. In addition, the business utilised Coronavirus Job Retention Scheme.

With this in mind, BIO has continued to develop revenue pillars to drive the business forward over the next few years. North America continues to operate as a prominent business hub in order to capitalise on Tech Mahindra clients within the region.

As part of the Tech Mahindra Group, the company has also continued to invest in joint initiatives with the other Tech Mahindra Group companies. The company has also continued to invest in the infrastructure of the business in order to support the business plan to accelerate growth in the future.

The agency continues to work with blue chip clients including: Smith & Nephew, Scotia Bank, Verizon, IWG. The work undertaken being both local as well as global engagements.

Principal risks and uncertainties

Rate cards can present a challenge when competing for business. The offshore function of BIO, set up in conjunction with the wider Tech Mahindra Group, continues to be utilised to remain competitive.

Employees

The company continues to foster an open culture with its staff and works hard to keep everyone informed on company plans. Monthly staff meetings are held to keep everyone updated on progress and regular social activities are organised to ensure that as the business grows, the culture is still maintained which is an important facet of the agencies ongoing success. Regular anonymous staff surveys are completed in order for everyone to give honest feedback and to continue to improve how the agency operates as a business.

Key performance indicators

The business is managed by monitoring its key performance indicators which span across each facet of the business covering financials, new business conversion, clients and retention, employee engagement and its marketing strategy. These KPI’s are tracked on a quarterly basis to ensure the agency is performing consistently across all pillars of the business.

Covid-19

The company continues to monitor the possible effects that may result from Covid-19, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established. In addition to this, the parent company has expressed its intention to continue to support the business for at least 12 months following the approval of these financial statements.

As a result of this assessment, the directors consider it reasonable to continue to adopt the going concern basis of accounting for the preparation of these financial statements.

Future developments

As part of an overall strategy of entity consolidation, there are preliminary plans underway to transfer the BIO business on a going concern basis to another entity (Born London Ltd) within the Tech Mahindra Group in 2021. BIO will continue to operate as a standalone brand and managed as a separate business unit and it will not impact the day to day business operations.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors present their annual report and financial statements for the year ended 31 March 2021.

Principal activities

The principal activity of the company is that of provision of strategic, creative and technical consultancy and delivery to create digitial business change for premium brand clients.

Results and dividends

The results for the year are set out on page 633.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Vikram Nair	
Peter Veash	(Resigned 16 October 2020)
Vivek Agarwal	

Auditor

Saffery Champness LLP have expressed their willingness to continue in office.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

Matters covered in the strategic report

The company has chosen in accordance with Companies Act 2006, s. 414C(11) to set out in the company's strategic report information required by Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008, Sch. 7 to be contained in the directors' report. It has done so in respect of future developments and financial risk management.

On behalf of the board

INDEPENDENT AUDITOR'S REPORT

To the members of The BIO Agency Limited

Opinion

We have audited the financial statements of The BIO Agency Limited (the 'company') for the year ended 31 March 2021 which comprise the statement of comprehensive income, the statement of financial position, the statement of changes in equity, the statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2021 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The specific procedures for this engagement and the extent to which these are capable of detecting irregularities, including fraud are detailed below.

Identifying and assessing risks related to irregularities:

We assessed the susceptibility of the company's financial statements to material misstatement and how fraud might occur, including through discussions with the directors, discussions within our audit team planning meeting, updating our record of internal controls and ensuring these controls operated as intended. We evaluated possible incentives and opportunities for fraudulent manipulation of the financial statements. We identified laws and regulations that are of significance in the context of the company by discussions with directors and by updating our understanding of the sector in which the company operates.

Laws and regulations of direct significance in the context of the company include The Companies Act 2006 and UK Tax legislation.

Audit response to risks identified

We considered the extent of compliance with these laws and regulations as part of our audit procedures on the related financial statement items including a review of financial statement disclosures. We reviewed the company's records of breaches of laws and regulations, minutes of meetings and correspondence with relevant authorities to identify potential material misstatements arising. We discussed the company's policies and procedures for compliance with laws and regulations with members of management responsible for compliance.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed..

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

Company information

The BIO Agency Limited is a private company limited by shares incorporated in England and Wales. The registered office is 90-92 Pentonville Road, London, N1 9HS.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (“FRS 102”) and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

1.2 Change in accounting estimate

During the year, the estimated useful economic life for the leasehold improvement assets was revised to reflect the intention for the company to move premises post year end ahead of the end of the lease. As a result, the assets have been fully depreciated as at 31 March 2021.

1.3 Going concern

The company continues to monitor the possible effects that may result Covid-19 on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established. In addition to this, the parent company has expressed its intention to continue to support the business for at least 12 months following the approval of these financial statements.

As a result of this assessment, the directors consider it reasonable to continue to adopt the going concern basis of accounting for the preparation of these financial statements.

1.4 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts. Revenue is recognised on an accrual basis when goods and services are provided to a customer in relation to a contract.

1.5 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Land and buildings Leasehold   10 years on a straight line basis

Leasehold improvements   1 year on a straight line basis

Fixtures, fittings & equipment   4 years on a straight line basis

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

The estimated useful economic lives of leasehold improvement assets have been adjusted for the year ended 31 March 2021 to one year. This is to reflect the companies intention to terminate the lease post year end therefore the assets are considered to be fully depreciated.

1.6 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.7 Cash at bank and in hand

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.8 Financial instruments

The company has elected to apply the provisions of Section 11 ‘Basic Financial Instruments’ and Section 12 ‘Other Financial Instruments Issues’ of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company’s statement of financial position when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Other financial assets

Other financial assets, including investments in equity instruments which are not subsidiaries, associates or joint ventures, are initially measured at fair value, which is normally the transaction price. Such assets are subsequently carried at fair value and the changes in fair value are recognised in profit or loss, except that investments in equity instruments that are not publicly traded and whose fair values cannot be measured reliably are measured at cost less impairment.

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset’s original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Other financial liabilities

Other financial liabilities, including debt instruments that do not meet the definition of a basic financial instrument, are measured at fair value through profit or loss.

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments. Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless hedge accounting is applied and the hedge is a cash flow hedge.

Debt instruments that do not meet the conditions in FRS 102 paragraph 11.9 are subsequently measured at fair value through profit or loss. Debt instruments may be designated as being measured at fair value through profit or loss to eliminate or reduce an accounting mismatch or if the instruments are measured and their performance evaluated on a fair value basis in accordance with a documented risk management or investment strategy.

Derecognition of financial liabilities

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled.

1.9 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.10 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Where items recognised in other comprehensive income or equity are chargeable to or deductible for tax purposes, the resulting current or deferred tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.12 Retirement benefits

The company operates a defined contribution pension scheme. Contributions are recognised in the profit and loss account in the period in which they become payable in accordance with the rules of the scheme.

1.13 Leases

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leases asset are consumed.

1.14 Government grants

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

1.15 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

2 Critical accounting judgements and key sources of estimation uncertainty

In the application of the company's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Key sources of estimation uncertainty

Deferred tax asset

As at the year end, there were deferred tax assets arising from capital allowances. Due to the uncertainty as to when sufficient profit will be made in order to utilise these losses, no deferred tax asset has been recognised at the year end in respect of tax losses carried forward.

3 Turnover and other revenue

An analysis of the company's turnover is as follows:

	2021 £	2020 £
Other significant revenue		
Interest income	284	11,951
Grants received	87,271	-

Turnover analysed by geographical market

	2021	2020
	£	£
United Kingdom	3,623,018	3,105,161
USA	-	32,601
Canada	589,341	1,239,177
Europe	-	59,042
	4,212,359	**4,435,981**

Grants received relate to the Government furlough scheme. No conditions or contingencies are attached to the government grant and amounts do not require to be repaid.

4 Operating loss

	2021	2020
	£	£
Operating loss for the period is stated after charging/(crediting):		
Exchange differences apart from those arising on financial instruments measured at fair value through profit or loss	13,332	(68,239)
Government grants	(87,271)	-
Fees payable to the company's auditor for the audit of the company's financial statements	26,000	26,000
Depreciation of owned tangible fixed assets	599,551	160,772
Profit on disposal of tangible fixed assets	(30)	(1,178)
Operating lease charges	212,493	694,970

5 Employees

The average monthly number of persons (including directors) employed by the company during the year was:

	2021	2020
	Number	Number
Average monthly number of employees	26	32

Their aggregate remuneration comprised:		
Wages and salaries	1,966,099	2,492,140
Social security costs	212,358	357,010
Pension costs	57,730	82,187
	2,236,187	**2,931,337**

6 Interest receivable and similar income

	2021	2020
	£	£
Interest income		
Interest on bank deposits	284	11,951
Investment income includes the following:		
Interest on financial assets not measured at fair value through profit or loss	284	11,951

7 Interest payable and similar expenses

	2021	2020
	£	£
Interest on financial liabilities measured at amortised cost:		
Interest payable to group undertakings	14,271	-
Other finance costs:		
Other interest	-	(1,080)
	14,271	**(1,080)**

8 Taxation

	2021	2020
	£	£
Current tax		
Adjustments in resect of prior periods for reserach and development tax credits	(403,897)	(272,389)
Deferred tax		
Origination and reversal of timing differences	-	27,933
Total tax charge	**(403,897)**	**(244,456)**

The actual credit for the year can be reconciled to the expected credit for the year based on the profit or loss and the standard rate of tax as follows:

	2021	2020
	£	£
Loss before taxation	(2,142,591)	(3,138,154)
Expected tax credit based on the standard rate of corporation tax in the UK of 19.00% (2020: 19.00%)	(407,092)	(596,249)
Tax effect of expenses that are not deductible in determining taxable profit	5,609	14,550
Tax effect of utilisation of tax losses not previously recognised	48,497	-
Unutilised tax losses carried forward	-	576,289
Change in unrecognised deferred tax assets	53,521	-
Group relief	296,648	-
Depreciation on assets not qualifying for tax allowances	-	4,359
Research and development tax credit	(452,394)	(272,389)
Other non-reversing timing differences	-	1,051
Fixed asset diferences	51,314	-
Deferred tax movement	-	27,933
Tax expense for the period	(403,897)	(244,456)

9 Tangible fixed assets

	Land and buildings Leasehold	Fixtures, fittings & equipment	Total
	£	£	£
Cost			
At 1 April 2020	**732,953**	**649,706**	**1,382,659**
Additions	-	3,731	3,731
Disposals	-	(3,689)	(3,689)
At 31 March 2021	**732,953**	**649,748**	**1,382,701**
Depreciation and impairment			
At 1 April 2020	**194,830**	**535,504**	**730,334**
Depreciation charged in the year	538,123	61,428	599,551
Eliminated in respect of disposals	-	(2,960)	(2,960)
At 31 March 2021	**732,953**	**593,972**	**1,326,925**
Carrying amount			
At 31 March 2021	**-**	**55,776**	**55,776**
At 31 March 2020	**538,123**	**114,202**	**652,325**

Capitalised website development costs have been fully depreciated during the year and are included within Fixtures, fittings & equipment.

During the year, the estimated useful economic life for the leasehold improvement assets was revised to reflect the intention for the company to move premises post year end ahead of the end of the lease. As a result, the assets have been fully depreciated as at 31 March 2021.

10 Debtors

	2021	2020
	£	£
Amounts falling due within one year:		
Trade debtors	479,384	277,460
Corporation tax recoverable	125,000	426,276
Amount due from parent undertaking	-	746,400
Other debtors	3,042,227	544,416
Prepayments and accrued income	1,270,518	6,388,582
	4,917,129	**8,383,134**
Amounts falling due after one year:		
Deferred tax asset (note 12)	-	771
Total debtors	**4,917,129**	**8,383,905**

11 Creditors: amounts falling due within one year

	2021	2020
	£	£
Trade creditors	518,291	456,908
Amounts owed to group undertakings	99,779	1,100,700
Taxation and social security	1,104,625	134,830
Other creditors	18,638	37,804
Accruals and deferred income	256,780	1,063,686
	1,998,113	**2,793,928**

12 Deferred taxation

Deferred tax assets and liabilities are offset where the company has a legally enforceable right to do so. The following is the analysis of the deferred tax balances (after offset) for financial reporting purposes:

	Liabilities		Assets	
	2021	2020	2021	2020
	£	£	£	£
Balances:				
Accelerated capital allowances	26,585	27,356	-	-
Short term timing differences as a result of provisions	-	-	-	771
	26,585	**27,356**	**-**	**771**

There were no deferred tax movements in the year.

13 Retirement benefit schemes

	2021	2020
	£	£
Defined contribution schemes		
Charge to profit or loss in respect of defined contribution schemes	57,730	82,187

The company operates a defined contribution pension scheme for all qualifying employees. The assets of the scheme are held separately from those of the company in an independently administered fund.

14 Share capital

Ordinary share capital Issued and fully paid

	2021	2020	2021	2020
	£	£	£	£
A Ordinary Shares of 0.5p each	102,000	102,000	510	510
B Ordinary Shares of 0.5p each	18,000	18,000	90	90
	120,000	120,000	600	600

The Ordinary A shares have attached to them no voting or capital distribution (including on winding up) rights and carry no right to dividends except at the discretion of the Ordinary B shareholders. They do not confer any rights of redemption.

The Ordinary B shares have attached to them full voting, dividend and capital distribution (including on winding up) rights. They do not confer any rights of redemption.

15 Operating lease commitments Lessee

Lessee

Operating lease payments represent rentals payable by the company for premises and equipment.

At the reporting end date the company had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

	2021	2020
	£	£
Within one year	114,480	857,012
Between two and five years	-	3,430,662
In over five years	-	1,884,511
	114,480	6,172,185

16 Events after the reporting date

Post year end, the company surrendered the current lease for the Wilson Street office. This resulted in a surrender premium of approximately £815,874 of which the majority was covered by the rent deposit held of £515,000. The company also incurred legal fees of £78,000.

As part of an overall strategy of entity consolidation, there are preliminary plans underway to transfer the BIO business on a going concern basis to another entity (Born London Ltd) within the Tech Mahindra Group in 2021. BIO will continue to operate as a standalone brand and managed as a separate business unit and it will not impact the day to day business operations.

17 Related party transactions

Remuneration of key management personnel

The remuneration of key management personnel, who are also directors, is as follows:

	2021	2020
	£	£
Aggregate compensation	431,153	300,000

The amounts above are in relation to the highest paid director.

No guarantees have been given or received.

During the year, The BIO Agency Limited performed and billed for services to the value of £6,968,972 (2020: £2,360,762) for Tech Mahindra Limited, the controlling entity. At the year end, The BIO Agency Limited was owed £3 (2020: £746,400) by Tech Mahindra Limited in relation to billed services. At the year end the unbilled value of services provided to Tech Mahindra Limited is £220,225 (2020: £5,457,179) and is recorded as accrued income.

During the year, The BIO Agency Limited performed and billed for services to the value of £680,435 (2020: £nil) for Target Group Limited, an entity under common control. At the year end, The BIO Agency Limited was owed £214,355 (2020: £nil) by Target Group Limited.

During the year, The BIO Agency Limited incurred expenditure to the value of £99,779 (2020: £350,700) from Tech Mahindra Limited. At the year end £99,779 (2019: £350,700) is recorded as amounts due to parent undertaking. At the year end the unbilled value of expenditure provided by Tech Mahindra Limited on behalf the BIO Agency Limited is £66,000 (2020: £nil) and is recorded as accrued expenses.

During the year, The BIO Agency Limited paid £764,271 to Mahindra Engineering Services (Europe) Limited, an entity under common control in respect of previously made loan between two companies. This made up of a £750,000 repayment of the capital borrowed and £14,271 of interest. The loan was fully repaid prior to the year end.

During the year, The BIO Agency Limited was owed £2,500,000 by Mahindra Engineering Services (Europe) Limited, an entity under common control. This was in respect of a short-term loan provided which is interest bearing and repayable on demand.

18 Ultimate controlling party

The company is controlled by Tech Mahindra Limited, a listed company incorporated in India. Tech Mahindra's group accounts are available from their registered office at 63 Queen Victoria Street, London EC4N 4UA.

DIRECTORS' REPORT

Dear Members,

Your Directors have the pleasure in presenting the Twenty First Annual Report together with audited Statement of Accounts of the Company for the year ended March 31, 2021.

The Company's Standalone financial results for the year under review along with previous year's results are presented hereunder:

Financial Highlights

Rs. in Millions

Particulars	2020-21	2019-20
Income	3,370.74	3,809.91
Other Income	171.63	171.74
Total Income	3,542.36	3,981.65
Operating Profit (EBITDA)	4,23.03	575.89
Operating Margin	12.55%	15.12%
Depreciation	85.69	78.18
EBT	508.09	669.45
Net Income (PAT)	375.84	474.78
Current Tax	108.07	174.78
Tax relating to earlier years	2.30	1.29
Deferred Tax	21.88	18.60
Cash & Cash Equivalent	233.50	254.49
Long Term Debt	-	-
Capital Expenditure	72.75	107.46

Business Overview

During the year under review, the Company secured business orders from 12 new Customers.

- Added one of the Top-10 OEMs in China
- Added a Korean OEM as a customer in Germany
- Expanded business to USA engineering operations for a large Japanese OEM
- Expanded business to German operations for a Top-15 Global Tier-1

The Company continued to enjoy 99% repeat business based on its quality of services and value addition.

The Company collaborated with TechM to achieve Diamond Supplier status with ZF Friedrichshafen AG (ZF), which was part of ZF's supplier consolidation initiative.

The top 15 customers accounted for 92% of the Company's revenues in FY21.

The Company revenue reduced by 19% in FY21 (Compared to FY20) in USD terms and 14.76 % in Rupee terms due to heavy headwinds experienced by the global automotive industry in FY21 as given below:

- Cancellation of programs.
- Closure of several onsite positions at very short notice in USA, Germany, China and Japan
- Partial working hours in Q1 FY21 & Q2 FY21 for several onsite positions in USA and Germany
- Travel restrictions
- Non issuance of new visas due to closure of embassies of major countries
- Continued pressure on rates at offshore and onsite due to budget cuts by customers.

Automotive Industry is one of the worst affected markets worldwide due to Covid lockdowns and other restrictions as several plants and development centres were shuttered for long periods of time. Overall vehicle sales reduced by about 15 % globally and it may take another 2 to 3 years for the industry to bounce back to its peak volume of 2019.

The Company had taken several measures such as work from home and converting onsite engagements to offshore to minimize the impact. The Company achieved 86% WFH with about 85% productivity within a short period of lockdown announcement. The company also focused on optimizing its operations and costs to maintain profitability in these troubled times. Some of the measures are:

- Reduced C&B costs by Rs. 26.4 crores through removal of variable pay across all levels, introduction of Virtual Pool Policy (VPP), headcount rationalization, and changes to the leave policy.
- Availing government benefits in Germany and Japan for associates on bench.
- Reduced SG&A by Rs. 14.3 crores through reduction in rent and optimization of other costs.

The Company continued its focus on new technology areas through its 3- Box initiatives to lay foundation of growth for FY22 and beyond as below:

- Mechatronics business grew to 150+ associates catering to all regions.
- Initiated projects in Machine Learning to optimize CAE simulation efforts.
- Developed Proof-of-Concepts in the areas of Infotainment Systems, Battery Management Systems, Telematics, and V2X Connectivity.
- Developed competencies in Electric Vehicle Battery Thermal Management & Structural studies
- Developing competencies in system modeling and simulation
- Business from a new-age Michigan-based EV OEM almost doubled to $3.5M in FY21. Expected to increase further in FY22.
- Initiated Styling related work for a UK based sports car manufacturer with a dedicated ODC at Satven Hyderabad.
- Initiated Proof-of-Concept with a large OEM in the area of Augmented Reality / Virtual Reality (AR/VR) in the manufacturing engineering area.
- Initiated a new concept design of Steering wheel Control panel with Touch and Force sensing with a large Tier-1 customer.
- Satven's associates co-authored 7 patents along with customers in FY21.

The Company received a special memento from BMW congratulating Satven on completing 20 years and thanking Satven for the support provided over the years.

The Company was awarded TISAX Assessment Level-3 by KPMG AG, Germany. This assessment is valid till June 2023. The Company also achieved compliance to GDPR regulations as audited by Deloitte, and received ISO 27001:2013 certificate for its Chennai location.

The Company continues to invest in its associates when it comes to their Training & Development and is also actively supporting EHSMS (Environment, Health & Safety Management Systems) initiatives across various locations.

During the year under review, 136 Associates were added globally. Associate attrition (voluntary) during the year was 9%. The Company continues to adopt various industry leading retention measures, such as Associate Engagement Initiatives, Implementation of Rewards & Recognition schemes and unique People Development Initiatives. The Company conducted several training programs in the areas of soft skills and technical domains covering more than 2438 associates in FY21.

Several of the Company's engineers received Achievement and Champion awards directly from customer senior leadership teams.

Marketing & Communication

The Company participated in various Industry Events to increase its visibility in the Automotive Market and also understand technology trends.

- Technical paper on 'Effects of Foot Angle on Human Fatigue in the Automotive Foot Controls' was published by Satven Team during the 5th International Conference on Human Interaction & Emerging Technologies (IHIET-2021) Paris, France conducted virtually on 4th March 2021.
- Consumer Electronics Show (CES) 2021: Satven was one of the exhibitors in the Consumer Electronics Show 2021 conducted virtually from the 11th to 14th of Jan. 2021. Several Automotive OEMs and Tier-1s participated in this show and visited Satven's stall to understand the Company's capabilities in the Mechanical, Mechatronics, and Digital Manufacturing spaces.
- The 14th Automotive World 2022 conference was held both physically and virtually in Tokyo, Japan from the 20th to the 22nd of Jan. 2021. Satven had a physical (stall) and virtual presence (presentations) at this conference.

- Satven was a Silver Sponsor of the NASSCOM Design & Engineering Summit which was conducted virtually during the 23rd and 24th of September 2020.
- Satven was one of the sponsors of the SMARTecIndia 2020 conference organized by ASSOCHAM from the 25th of September till the 1st of October 2020. This conference focussed on Smart Technologies used in Energy, Smart Mobility, Electric Vehicle, BFSI, Home Solutions, Fintech, Health, Education, MSMEs, among others.
- One of Satven's Powertrain specialists joined the first ever SAE International WCX Digital Summit which took place from June 16 to 18 2020. He presented insights on his SAE technical paper 'New Seven Speed DCT transaxle and effect of angular positioning of shaft in layout' to the expert group.

Academia Connect Initiatives

The Company initiated various Academia connect activities as listed below:

- Collaborating with Hiroshima University, Japan to improve the performance of battery pack using Data Driven PID control method.
- Initiated work with IIT Hyderabad in collaboration with ITSEV Japan (a consultancy specializing in EV battery development) in the area of EV battery testing and performance improvement.

Future Prospects

For long term sustenance and growth, the Company plans to develop more Offsite Engineering Centers in developed markets and expand presence in Mexico, China, Vietnam, Canada, Italy, France, among others. This coupled with several upcoming and niche solution areas, such as,

- **Mechatronics :**
  - Infotainment systems
  - Model based design
  - SIL & HIL testing and automation
  - Functional safety
  - Hardware & Software for BCS Switches
  - Autosar
- **Electric Vehicles**
  - EV - Full vehicle : Battery & BMS systems
  - EV - Subsystems : Motors, Transmission
  - EV crashworthiness and Noise & Vibration
- **Autonomous Driving**
  - ADAS - Sensors, Radar, Lidar
- **IoT (Industry 4.0)**
  - A.I. driven services / Machine Learning
- **Automation CAD & CAE**
- **Turnkey Projects (end-to-end solutions, Program Management)**
  - Turnkey Projects - Interiors/Exteriors
  - Turnkey Projects – BIW
  - Turnkey Projects - Lighting
  - Turnkey Projects - Seating
  - Turnkey Projects - Factory Layout and Plant Throughput optimization
- **Active Safety**
  - New advancements in Occupant safety (Passive safety vs Active Safety)
- **Light Weight technologies**
- **CAE**

- Model Based Design / Development
- Virtual Validation - Verification to validation
- SFE to all OEMs
- Buzz Squeak and Rattle (BSR) Studies and High Frequency NVH
- Electromagnetic simulation
- Thermal Management
- Frontal, Rear, Side Crash / PedPro compliance for new regulations and for implementation on new variants

- **Digital Manufacturing**
  - AR / VR - Future areas for Digital Manufacturing
  - Robot Offline Programming

will propel the growth of the Company and this will put the Company on right path towards supporting Autonomous and Electric Cars development in FY22 and beyond.

Auditors

M/s. M. Bhaskara Rao & Co, Chartered Accountants, Hyderabad were appointed as Statutory Auditors of the Company for a period of five (5) years from the conclusion of 19th AGM held on 23rd July, 2019, on such remuneration as may be determined by the Board of Directors.

The members may note that the Ministry of Corporate Affairs vide notification dated May 07, 2018, has done away with the requirement of yearly ratification of appointment of Statutory Auditors, at the AGM.

For and on behalf of the Board of Directors

Mr. Jayaraman Ganapathy
Director

Place: Hyderabad
Date: April 16, 2021

ANNEXURE 'A'

Directors' Responsibility Statement

To the Members,

We, the Directors of Satyam Venture Engineering Services Private Limited, confirm the following:

i. that in the preparation of the Annual Accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;

ii. that the Directors had selected such Accounting Policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the Financial Year and of the profit of the Company for that period;

iii. that the Directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

iv. That the Directors had prepared the Annual Accounts on a going concern basis.

v. The Company has devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

For and on behalf of the Board of Directors

Mr. Jayaraman Ganapathy
Director

Place: Hyderabad
Date: April 16, 2021

ANNEXURE B

Nomination and Remuneration Policy

1. OBJECTIVE

In compliance with the provisions of Section 178 of Companies Act 2013, following policies are formalized:

1. Policy on appointment and removal of Directors, Key Managerial Personnel and Senior Management Personnel;
2. Policy on Remuneration to the Directors, Key Managerial Personnel, Senior Management Personnel and other Employees
3. Policy on Evaluation of performance of the individual Directors.

2. DEFINITIONS

The definitions of some of the key terms used in this Policy are given below.

"**Board**" means Board of Directors of the Company.

"**Company**" means **Satyam Venture Engineering Services Private Limited**.

"**Committee(s)**" means Committees of the Board for the time being in force.

"**Employee**" means employee of the Company whether employed in India or outside India.

"**HR**' means the Human Resource department of the Company.

"**Key Managerial Personnel" means KMP defined under section 2(51) of the Companies Act, 2013 i.e. Chief Executive Officer (CEO), Chief Financial Officer (CFO) and Company Secretary (CS)**.

"Nomination and Remuneration Committee" (NRC) means Nomination and Remuneration Committee of Board of Directors of the Company for the time being in force.

"**Senior Management Personnel**" means personnel of the company who are members of its core management team comprising of the HODs excluding Board of Directors & KMP. HODs refers to Heads of HR, Sales & Marketing, Commercial, Corporate Services, Legal, Delivery Heads, ERP & Quality.

3. POLICY FOR APPOINTMENT AND REMOVAL OF DIRECTORS, KEY MANAGERIAL PERSONNEL (KMP) AND SENIOR MANAGEMENT PERSONNEL

3.1 Directors

- The NRC determines the criteria for appointment to the Board and is vested with the authority to identify candidates for appointment to the Board of Directors. In evaluating the suitability of individual Board member, the NRC will take into account multiple factors, including general understanding of the business, education, professional background, personal achievements, professional ethics and integrity.
- Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate member. Upon receipt of the consent, the new Director will be co-opted by the Board in accordance with the applicable provisions of the Companies Act 2013 and Rules made there under.

3.2 Key Managerial Personnel (KMP)

- The NRC determines the criteria for appointment of KMP and is vested with the authority to identify candidates for appointment of KMP. In evaluating the suitability of individual KMP, the NRC will take into account multiple factors, including general understanding of the business, education, professional background & experience, personal achievements, professional ethics, integrity and applicable statutory / regulatory requirements.
- Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate Personnel.

3.3 Senior Management Personnel

- The CEO determines the criteria for appointment of the Senior Management Personnel supported by HR and is also vested with the authority to appoint Senior Management Personnel. In evaluating the suitability of Senior Management Personnel, the CEO will take into account multiple factors, including general understanding of the business, education, professional background & experience, personal achievements, professional ethics and integrity.

  The details of the appointment (s) made and the personnel removed / relieved during a quarter shall be presented to the Board.

3.4 Removal of Board of Directors

If a Director is attracted with any disqualification as mentioned in any of the applicable Act, rules and regulations thereunder or due to non-adherence to the applicable policies of the company, the NRC may recommend to the Board for removal of a Director.

4. REMUNERATION TO DIRECTORS, KEY MANAGERIAL PERSONNEL & SENIOR MANAGEMENT PERSONNEL :

4.1 Directors:

The sitting fee for the Board and Committee meetings will be recommended by NRC to the Board.

The members on the Board, who are employees of the Holding Company, will not be paid any sitting fee for the Board and Committee meetings.

However, if necessary, NRC may recommend to the Board for such payments to any of the Directors.

4.2 Remuneration to Key Managerial Personnel & Senior Management Personnel

4.2 (a) Key Managerial Personnel:

- The initial remuneration of KMP (excluding C.E.O.) will be approved by the Board of Directors based on the recommendations of NRC. Subsequent revision will be made by C.E.O.
- The initial remuneration of C.E.O. will be approved by the Board of Directors based on the recommendations of NRC. Subsequent revision will be made by NRC.

4.2 (b) Senior Management Personnel:

- CEO supported by HR, to review and consider revision of the remuneration of Senior Management Personnel from time to time. The Company follows an extensive Performance Management System to review the performance of the Senior Management Personnel and provide rewards on the basis of meritocracy.
- CEO shall make a presentation to the NRC on the proposed annual increments based on the performance of the company, general trends in the Industry etc. the annual performance appraisal process of the employees conducted by the Human Resources department. Eligible employees will be rewarded with the annual increment. Before taking the proposal to the NRC, the CEO shall obtain the approval of Chairman of NRC.
- However, if any internal candidate is deputed by Holding Company from their rolls for any of these positions, the remuneration for such candidate(s) will be fixed by the holding company.

5. EVALATION FRAMEWORK

1. Performance Evaluation Individual Board members including Independent Directors:

- Evaluation for the Individual Directors, including Independent Directors will be carried out in the first month of each financial year i.e. April. The process will be initiated each year by the chairman of NRC assisted by the Company Secretary or any other person authorized by the NRC. Each Board Member will get an evaluation forms as given in Annexure-I & II in the first week of April of each year. The members shall complete the form and return it to the Chairman of NRC.

ANNEXURE 'C'

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

1. **Brief outline on CSR Policy of the Company:**

   The CSR vision of the Company is "Community Development through Education".

   The Board of Directors of the Company laid down the CSR Policy, covering the Objectives, Focus Areas, Governance Structure and Monitoring & Reporting Framework among others. Subsequently the CSR Policy as recommended by the CSR Committee was approved by the Board.

   The policy is available at https://satyamventure.com/csr/

   The Company's social initiatives are carried out by Tech Mahindra Foundation and Mahindra Educational Institutions, Section 8 (erstwhile Section 25) Companies promoted by the Company.

ANNEXURE 'F'

FORM No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED MARCH 31, 2021

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

SATYAM VENTURE ENGINEERING SERVICES PRIVATE LIMITED

1-8-301-306, 3rd Floor

Ashoka My Home Chambers

Secunderabad, Telangana- 500003

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by SATYAM VENTURE ENGINEERING SERVICES PRIVATE LIMITED (CIN:U72200AP2000PTC033213) (hereinafter called the "Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the company and also the information provided by the company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the period covering the financial year ended on 31st March, 2021 complied with the Statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2021, according to the provisions of:

i) The Companies Act, 2013 (the Act) and the rules made there under;

ii) The Secretarial Standards issue by the Institute of Company Secretaries of India.

iii) Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investments, Overseas Direct Investments and External commercial Borrowings, as applicable to the Company.

iv) The Depositories Act, 1996 and the Regulations and Bye-law framed there under;

v) Regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 are not applicable to the Company as the Company's Equity Shares are not listed in any Stock Exchanges in India

I further report that:

The Company was not required to comply with the following laws/regulations/agreements/ guidelines and consequently not required to maintain any books, papers, minutes books or other records or file any form / returns under:

a) The Securities Contracts (Regulation) Act, 1956(SCRA) and the rules made there under;

b) Listing agreement , since the company is not listed entity

Management has identified and made internal control mechanism for complying the following laws and other laws as being specifically applicable to the Company:

i. Employee State Insurance Act, 1948

ii. The Employee Provident Fund and Miscellaneous Provisions Act, 1952

iii. The Payment of Bonus Act, 1965

iv. The Payment of Gratuity Act, 1972

v. The Contract Labour(Regulation and Abolition) Act, 1970

vi. The Maternity Benefits Act, 1961

vii. The Income Tax Act, 1961

viii. Shops and Establishments Act, 1948

ix. The Environment (Protection) Act, 1986

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

a) The Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the year under review were carried out in the compliance with the provisions of the Act.

b) Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarification on the agenda items before the meeting and for meaningful participation at the meeting.

c) Shareholders of the company have not adopted financial statements at Annual General Meeting held on 17/07/2020 and the same was recorded as part of the Annual General Meeting minutes. The provisional un-adopted financial statements are filed with Registrar of Companies, Hyderabad.

d) There were Related Party transactions which in the opinion of the management, are within the Arm's Length basis and in the normal course business, approved by Audit Committee and Board of Directors of the Company.

e) As per the minutes of the Board Meetings and Committee Meetings, all the decision of the Board and Committee thereof were carried out with requisite majority.

Based on the information received and records maintained, I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines..

Note: This report is to be read with our letter of even date which is annexed as "**ANNEXURE 1**" and forms an integral part if this report.

“ANNEXURE 1”

To,

The Member,
SATYAM VENTURE ENGINEERING SERVICESPRIVATE LIMITED
1-8-301-306, 3rd Floor
Ashoka My Home Chambers
Secunderabad, Telangana- 500003

Report of even date is to be read along with this letter.

1. Maintenance of Secretarial records is the responsibility of the management of the Company. My responsibility is to express an opinion on these secretarial records produced for audit.
2. I have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the Secretarial records. The verification was done on test basis to ensure that correct facts are reflected in Secretarial records. I believe that the processes and practices, I followed provide a reasonable basis for my opinion.
3. I have not verified the correctness and appropriateness of financial records and books of accounts of the Company.
4. Wherever required, I have obtained the Management representation about compliance of laws, rules and regulations and happenings of events etc.
5. The compliance of provisions of Corporate and other applicable laws, rules, regulations, standards is the responsibility of the management. My examination was limited to the verification of procedures on test basis.
6. Secretarial Audit Report is neither an assurance as to the future viability of the Company nor of efficacy or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Satyam Venture Engineering Services Private Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Financial Statements of **Satyam Venture Engineering Services Private Limited** ("the Company"), which comprise the Balance Sheet as at 31 March 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (here after referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, the profit and total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules issued thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following notes in the standalone financial statements:

a) Note 29.2 regarding reckoning of Rs.24,974.00 Lakhs as contingent liability, towards any possible charge that may arise in respect of ongoing dispute between the promoters, for the period from 01 April 2012 to 31 March 2021 based on legal advice and for reasons stated in the said note notwithstanding the status of litigation between the promoters on various issues relating to the Shareholders Agreement, the outcome of which is not determinable at this stage.

b) Note 30 regarding drawing up of accounts for the year incorporating opening balances based on the financial statements of earlier years which have not been adopted by the shareholders.

Our opinion is not modified in respect of these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Directors Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

c. the Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;

d. in our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the rules issued thereunder;

e. the matter relating to contingent liability described in paragraph (a) under the Emphasis of Matters above, in our opinion, may have an adverse effect on the functioning of the Company;

f. on the basis of written representations received from the directors as on 31 March 2021, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021, from being appointed as a director in terms of Section 164 (2) of the Act;

g. with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure B'; and

h. with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company.

i. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. the Company has disclosed the impact of all pending litigations on its financial position in its standalone financial statements - Refer note 29 to the standalone financial statements;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021, except for the contingent liability described under note 29.2 for which provision is not made since the matters involving these litigations are sub-judice at present, the impact of these pending litigations on its financial position could not be stated in the standalone financial statements.; and

   iii. there are no amounts which were required to be transferred to the Investor Education and Protection Fund during the year ended 31 March 2021.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) According to the information and explanations given to us, the fixed assets have been physically verified during the year by the Management in accordance with a programme of verification, which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals having regard to the size of the Company and the nature of their assets, the discrepancies noticed on such verification were not material and have been properly dealt with in the books of account.

(c) The Company does not have any immovable properties.

(ii) The Company is a service company, primarily rendering engineering services. It did not deal in any inventory during the year and accordingly, paragraph 3(ii) of the Order is not applicable to the Company.

(iii) According to the information and explanations given to us, the Company has not granted any loans secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act and accordingly paragraph 3(iii) of the Order are not applicable, at present.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 185 and 186 of the Act, in respect of grant of loans, investments made and providing guarantees and securities, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposits to which the directions issued by the Reserve Bank of India and provisions of Section 73 to Section 76 or any other relevant provision of the Act and the Rules framed there under, where applicable, during the year.

(vi) In our opinion and according to the information and explanations given to us, the Central Government has not prescribed maintenance of cost records under Section 148(1)(d) of the Act for the Company.

(vii) According to the information and explanations given to us and according to the books and records as produced and examined by us in accordance with the generally accepted auditing practices in India, in respect of statutory dues:

(a) The Company is generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, customs duty, excise duty, goods and service tax, value added tax, cess and any other material statutory dues applicable to it with the appropriate authorities during the year;

(b) There were no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, sales tax, service tax, customs duty, excise duty, goods and service tax, value added tax and cess which were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable; and

(c) Details of dues of income tax, provident fund and service tax which have not been deposited as on 31 March 2021 on account of disputes are given below:

Statute	**Nature of dues**	**Forum where dispute is pending**	**Period to which the amount relates**	**Amount involved** (Rupees in Lakhs)
Income Tax Act 1961	Income Tax	Income Tax Appellate Tribunal	AY 2014-15, 2016-17 and 2017-18	1032.36
Finance Act, 1994	Service tax and penalty	CESTAT	2007-08 to 2016-17	888.95
Employees Provident Fund & Miscellaneous Provisions Act,1952	Provident Fund	Central Government Industrial Tribunal Cum Labour Court	2014-15 and 2015-16	125.96

(viii) The Company does not have any loans or borrowings from any financial institutions, banks, government or debenture holders during the year; accordingly, paragraph 3(viii) of the Order is not applicable.

(ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable.

(x) During the course of our examination of the books and other records of the Company carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year, nor have we been informed of such case by the management.

(xi) According to the information and explanations given to us and based on our examination of the records of the Company, the provisions of Section 197 of the Companies Act, 2013 are not applicable to the Company Accordingly, paragraph 3 (xi) of the Order is not applicable.

(xii) According to the information and explanations given to us and based on our examination of the records, the Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) According to the information and explanations given to us and based on the records of the Company examined by us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, during the year the Company has not entered into non-cash transactions with directors or directors of its holding company or persons connected with them and hence provisions of Section 192 of the Act, are not applicable.

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act 1934.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

We have audited the internal financial controls over financial reporting of **Satyam Venture Engineering Services Private Limited** ("the Company") as of 31 March 2021, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

All amounts are Rupees in lakhs unless otherwise stated

1. Corporate Information

Satyam Venture Engineering Services Private Limited (“the Company”) was incorporated in March 2000 as a 50:50 joint venture between erstwhile Satyam Computer Services Limited (SCSL) and Venture Global Engineering LLC. SCSL was merged with Tech Mahindra Limited in the year 2013, consequent to a scheme of amalgamation and arrangement as approved by the then Hon’ble High Court of Judicature Andhra Pradesh and Hon’ble High Court of Bombay.

The Company provides engineering services such as product design, tool design and computer aided engineering simulation services to automotive industry across the globe, through its Indian operations and through its foreign branches in USA, Germany, Canada, United Kingdom, Japan and Mexico. The standalone financial statements reflect the results of its operations carried on by Indian operations and overseas branches.

The financial statements for the year ended 31 March 2021 were approved by the Board of Directors and authorised to issue on 16 April 2021.

2. Significant accounting policies:

2.1 Statement of Compliance:

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India on accrual basis under the historical cost convention, except for certain financial instruments which are measured at fair value. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these standalone financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Use of Estimates:

The preparation of these standalone financial statements requires the management of the Company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the financial statements.

2.4 Property, Plant & Equipment and Other Intangible assets:

Property, Plant & Equipment and Other intangible assets are stated at actual cost less accumulated depreciation/ amorisation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortisation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as assessed based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Machinery (including Computers)	3 years
Office Equipment	3 years
Furniture, Fixtures and Interiors	3 years
Vehicles	3 years
Intangible Assets – Software	License period or 3 years whichever is lower

The estimated useful lives and residual values of the tangible and intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

2.5 Leases:

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee :

The Company assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves:

(a) the use of an identified asset,

(b) the right to obtain substantially all the economic benefits from use of the identified asset, and

(c) the right to direct the use of the identified asset.

The Company at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right- of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets.

For lease liabilities at inception, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

The Company recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

2.6 Impairment of Assets:

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortised cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decreases can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss

2.7 Revenue recognition:

Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for engineering services with customers, the company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The company accounts for volume discounts and pricing incentives , if any, to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time .

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

2.8 Foreign currency transactions:

The functional currency of the Company is Indian Rupees (INR).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities of foreign operations are restated into the functional currency using exchange rates prevailing on the date of the Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

2.9 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortised cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost as per Ind AS 27 in Separate Financial Statements.

Financial liabilities

Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these forward contracts / options as hedge instruments and account for as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/ option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and accumulated under effective portion of cash flow hedges and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are reclassified to the Statement of Profit or Loss in the same period in which gains/ losses on the item hedged are recognised in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are transferred from effective portion of cash flow hedges and included in the initial measurement of the cost of the nonfinancial asset or non-financial liability.

Profit or loss arising on cancellation or renewal of a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in effective portion of cash flow hedges is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in effective portion of cash flow hedges is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.11 Employee Benefits:

a) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company. Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur.

b) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary which are charged to the Statement of Profit and Loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company. The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

c) Compensated absences:

The Company provides for the encashment of leave subject to Company's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for the Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries. The Company does not expect the difference on account of varying methods to be material.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised based on actuarial valuation as at the Balance Sheet date.

Actuarial gains and losses are recognised in full in the Statement of Profit and Loss in the period in which they occur.

The Company also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

d) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised during the period when the employee renders the service.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.13 Earnings per Share:

Basic earnings/ (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued if any, during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless issued at a later date.

2.14 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets are not recognized in the financial statements.

3. Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statement.

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future , and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Useful lives of property, plant and equipment:

The company reviews the estimated useful lives of property plant and equipment at the end of each reporting period. During the current year, there has been no change in life considered for the assets.

Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for the financial reporting purposes.

In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1inputs are not available, the Company engages third party qualified valuers to perform the valuation . Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Chief Executive Officer reports to the board of fluctuations in the fair value of the assets and liabilities.

Provision for doubtful receivables:

The Company has adopted Expected credit loss model for provisioning of receivables,apart from this the company also monitors long outstanding balances and make additional provision where required.

Provision for employee benefits:

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period . These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

Provision for taxes:

Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/ recovered for uncertain tax positions.

10.3 Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of statement of financial position whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for trade receivables (other than receivables from related parties) that do not constitute a financing transaction. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Before accepting any new customer, the Company assesses the potential customer's credit quality..

The Average credit period on Sale of Services 60 days .

Age of Trade Receivables

Age of receivables	**As at 31 March 2021**	**As at 31 March 2020**
a) Within the credit period	5,494.57	6,698.82
b) less than 180 days past due	1,324.42	1,020.90
c) More than 180 days past due	19.65	19.94
d) More than 1 year	3.18	53.70

10.4 Movement in the allowance for expected credit loss

v	Others [Refer Note 29.2]	24,974.00	21,463.40

29.1 Disputed income tax matters

The income tax appeals for assessment years from 2002-03 to 2009-10 have been decided by the Hon'ble Income Tax Appellate Tribunal ("ITAT") in favour of the Company. Consequential orders determining the refund due have been received up to assessment years 2008-09 necessary adjustments have been made to reflect reversal of tax provision created for these years and the advance tax in the financial statements.

For AY 2010-11 and 2011-12 the Hon'ble ITAT remanded case back to the Transfer Pricing Officer for fresh adjudication. For AY 2009-10, the TPO/AO passed consequential orders giving the relief per the ITAT order. However, new issue which was not part of original proceedings, has led to a new demand. The issue relating to TP adjustment of commission had been decided in favour of the Company in earlier years and hence, no provision for tax is made in respect of the demand raised. The Company had filed appeal before Hon'ble CIT. The consequential order for AY 11-12 is awaited.

For AY 2012-13, the assessment was reopened u/s147 w.r.t. reversal of commission paid for FY 2006-07 to 2011-12 to the profit and loss account. The reversal consisted commission disallowed in earlier years by the Company and offered to tax for AY 2010-11 and AY 2011-12. CIT has given relief to this extent which resulted in refund. Both the Company and the department are in appeal before the Hon'ble ITAT.

For AY 2016-17 and 2017-18, the matters relate to TP adjustment of ITES and Interest, disallowance of reimbursement of expenses to certain residents and non-residents for non-deduction of TDS. The first issue was decided in favour of the Company and the second issue is remanded back. The consequential orders were passed accordingly. The Company will be filing appeal against the issue decided against the Company.

In respect of other assessment years, the Company is in appeal before the Hon'ble ITAT as the matters were decided against the Company by DRP. The disallowances relate to denial of internal comparable and interest chargeable on the outstanding amount from associate enterprise. No additional provision is considered as the issues are covered in favour of the Company.

29.2 Contingent Liability - Others

The Company was promoted as 50:50 Joint Venture by Satyam Computer Services Ltd ("Satyam") and Venture Global Engineering LLC US ("Venture"). The joint venture partners entered into a Shareholders' Agreement (SHA) dated October 20, 1999 that provided for a royalty payment from the Company to both the joint venture partners in terms of a separate Royalty Agreement to be entered into between the Company and the joint venture partners. The Royalty Agreement was not entered into between the Company and the joint venture partners as envisaged in the SHA.

The Company and joint venture partners entered into separate Sales Commission Agreements that provided for payment of sales commission to the joint venture partners as per terms and conditions contained in the said agreements. In line with the provisions contained therein, the Company has been accruing and paying commission to its joint venture partners up to the year 2005-06.

During the year 2005-06, Satyam commenced arbitration proceedings against Venture in the London Court of International Arbitration ("LCIA") by invoking the arbitration clause in the SHA. Satyam's claims were upheld by the LCIA in its award dated April 2006 ("the Award"). Since then both the joint venture partners have raised numerous claims against each other resulting in multiple legal proceedings both in India and the USA that are still ongoing.

On January 7, 2009, the then Chairman of Satyam vide his letter addressed to then existing Board of Directors of Satyam, the stock exchanges and SEBI admitted to several financial irregularities in Satyam. Consequent to a global bidding process to take over the management of Satyam, M/s Venturbay Consultants Private Limited (the successful bidder) took over the management of Satyam.

Notwithstanding the dispute, the Company under its erstwhile management, continued to accrue the sales commission in its books. The newly reconstituted Board approved the accounts of the Company for the years 2008-09, 2009-10 and 2010-11, with continued accrual of sales commission. This was based on a view taken by the newly constituted Board that the matter is sub-judice that was corroborated by legal opinion and continued as prudent measure.

During the meetings held in 2011-12, the Board discussed the need to accrue the sales commission, as Venture did not render any services to the Company either during the year or during the past many years since the dispute. Further, in so far as the Company was concerned, Venture had not, till that point of time, claimed any amounts towards sales commission. The Board also took note of the fact (based on an updated legal opinion) that the issue of sales commission is not a disputed matter before the Courts either in India or in USA and not sub judice, as per original view.

Under the circumstances, the Board took the view on May 14, 2012 when the financial statements for the year ended March 31, 2012 was tabled for approval, that the accrual of sales commission from FY 05-06 to FY 10-11 of Rs.3,594.07 Lakhs be written back as other income in the Statement of Profit and Loss and the sales commission for the period from April 2011- December 2011 be reversed. However, as a prudent measure, the Board directed that the Company provide an amount of Rs.5,291.41 Lakhs as a provision for contingency, covering the period from FY 05-06 to FY 11-12 which in its opinion would be adequate to cover any possible outflow that may arise in respect of the aforesaid matter and adjustments to the financial statements if any, to be made on final disposal of legal proceedings.

Subsequent to the adoption of accounts by the Board, the Company was served a suit filed by Venture before the City Civil Court, Secunderabad inter alia seeking a direction to the Company to pay sales commission that it was entitled to under the Shareholders Agreement. In the said suit, two ex-parte orders were passed by the City Civil Court , directing the Company, Venture and Satyam to maintain status quo with regard to transfer of 50% shares of Venture and with regard to taking major decisions which are prejudicial to interest of Venture . The Company has challenged the ex-parte orders of the City Civil Court Secunderabad, before the Hon'ble High Court of Andhra Pradesh ("the High Court").

In a related development, the City Civil Court, Hyderabad set aside the Award in January 2012, against which Satyam has filed an appeal before the High Court.

The High Court by its Judgement dated August 23, 2013 has allowed the appeals filed by the Company and set aside the ex-parte interim orders against the Company. The High Court has also set aside the Order of the City Civil Court, Hyderabad setting aside the Award and upheld the Award in favour of Satyam. The High Court as an interim measure ordered status quo with regard to transfer of shares, originally given by Supreme Court to be maintained for four (4) weeks which was extended for a further period of 3 weeks by High Court on 19th September, 2013

Venture filed an SLP before the Supreme Court of India which was heard by the Apex Court on 21st October, 2013 and Supreme Court as an interim measure ordered status quo with regard to transfer of shares. TechM has filed a Special leave Petition before the Supreme Court of India challenging the judgement of the High Court only on the limited issue as to whether the Civil Court has jurisdiction to entertain VGE's challenge to the Award. The Hon'ble Bench of Supreme Court, in view of the difference of opinion by an order dated November 1, 2017 has directed the registry to place the SLP's before the Chief Justice of India for appropriate further course of action.

The Company has not modified the provision for contingencies amounting to Rs.5,291.41 Lakhs as on 31 March 2012. The Company has also disclosed an amount of Rs.24,974.00 Lakhs [31 March 2020: Rs.21,463.40 Lakhs] as contingent liability, to cover any possible charge that may arise in respect of the above said matter, in the financial statements for the year ended 31 March 2021 by way of abundant caution notwithstanding the Board's view that there is no need to accrue sales commission since Venture did not provide any services to the Company.

30. Preparation of financial statements:

At the Annual General Meetings of the Company, one of the shareholders abstained from voting on the resolution for adoption of audited financial statements as at and for the years ended 31 March 2012 to 2020. In terms of Article 66 of the Articles of Association of the Company, the adoption of audited financial statements requires unanimous consent of both the shareholders of the Company. Therefore, the said financials have not been approved by the shareholders.

The financial statements as at and for the year ended 31 March 2021 have been drawn up incorporating the opening balances based on above said financial statements which have not been adopted by the Shareholders. Adjustments required, if any, will be made in accounts as and when determined.

31. Employee benefit plans

31.1 Defined Contribution Plan

The Company makes contributions to Provident and other Fund which is a defined contribution plans for qualifying employees. Under these Scheme, the Company contributes a specified percentage of the payroll costs to the respective funds. The Company has recognized Rs.486.49 Lakhs [31 March 2020 : Rs.537.51 Lakhs] as an expense in the Statement of Profit and Loss.

31.2 Defined Benefit Plan

The gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design means the risks commonly affecting the liabilities and the financial results are expected to:

a) Interest rate risk : the defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

b) Salary inflation risk : Higher than expected increases in salary will increase the defined benefit obligation

c) For example, as plan is open to new entrants, an increase in membership will increase the defined benefit obligation. Also, the plan only provides benefits upon completion of a vesting criteria. Therefore, if turnover rates increase, then the liability will tend to fall as fewer employees reach vesting period.

I The Principal Assumptions used for the purposes of the actuarial valuation as follows

	Details	**31/Mar/2021**	**31/Mar/2020**
1	Discount Rate(s)	6.30%	7.00%

II Disclosure of defined benefit cost :

	Details	**Year ended 31 March 2021**	**Year ended 31 March 2020**
A	**Amounts Recognised in statement of Profit & Loss**		
1	Current Service Cost	253.50	195.23
2	Past service cost - plan amendments	-	-
3	Curtailment cost / (credit)	-	-
4	Settlement cost / (credit)	-	-
5	Service Cost	253.50	195.23
6	Net interest on net defined benefit liability / (asset)	90.69	77.35
7	Immediate recognition of (gains)/losses - other long term employee benefit plans	-	-
8	Cost of Termination Benefits	-	-
9	Cost recognised in P&L	344.19	272.59
B	**Amounts Recognised in Other Comprehensive Income (OCI)**		
1	Actuarial (gain)loss due to DBO experience	(42.88)	(40.29)
2	Actuarial (gain)loss due to DBO assumption changes	(266.47)	106.52
3	Actuarial (gain)loss arising during the period	(309.35)	66.23
4	Return on plan assets (Greater)/Less than discount rate	-	-
5	Actuarial (gains)/losses recognised in OCI	(309.35)	66.23
6	Adjustment for limit on net asset	-	-
7	Cumulative Actuarial (Gain)/ Loss Recognised via OCI at Prior Period End	-	-
8	Cumulative Actuarial (Gain)/ Loss Recognized via OCI at Current Period End	(309.35)	66.23
C	**Defined benefit cost**		
1	Service Cost	253.50	195.23
2	Net interest on net defined benefit liability / (asset)	90.69	77.35
3	Actuarial (gains)/losses recognised in OCI	(309.35)	66.23
4	Immediate recognition or (gains)/losses - other long term employee benefit plans	-	-
5	Defined Benefit Cost	34.84	338.82

III Changes in benefit obligation and assets

	Details	Year ended 31 March 2021	Year ended 31 March 2020
A.	**Changes in defined benefit obligation:**		
1	Defined benefit obligation(DBO) at the end of prior period	1,325.92	1,048.48
2	Current service cost	253.50	195.23
3	Interest cost on the DBO	90.69	77.35
4	Curtailment (credit)/ cost	-	-
5	Settlement (credit)/ cost	-	-
6	Past service cost - plan amendments	-	-
7	Acquisitions (credit)/ cost	-	-
8	Actuarial (gain)/loss - experience	(42.88)	(40.29)
9	Actuarial (gain)/loss - demographic assumptions	(269.19)	-
10	Actuarial (gain)/loss - financial assumptions	2.72	106.52
11	Benefits paid directly by the Company	(60.76)	(61.38)
12	Benefits paid from plan assets	-	-
13	DBO at end of current period	1,300.00	1,325.92
B.	**Changes in fair value of assets:**		
1	Fair value of assets at end of prior period	-	-
2	Acquisition adjustment	-	-
3	Interest income on plan assets	-	-
4	Employer contributions	-	-
5	Return on plan assets greater/(lesser) than discount rate	-	-
6	Benefits paid	-	-
7	Fair Value of assets at the end of current period	-	-

IV Additional Disclosures

		31 March 2021	31 March 2020
A.	**Expected benefit payments for the period ending**		
	2022 (PY 2021)	151.14	165.40
	2023 (PY 2022)	142.69	20.10
	2024 (PY 2023)	150.63	31.06
	2025 (PY 2024)	178.97	32.70
	2026 (PY 2025)	206.94	63.65
	2027 to 2031(PY 2026 to 2030)	1,056.82	619.19
B.	**Current and Non current breakup**		
	Current liability	146.60	159.90
	Non current liability	1,153.41	1,166.03
	Total Liability	**1,300.00**	**1,325.92**

V Sensitivity Analysis

	Details	As at 31 March 2021	As at 31 March 2020
A	**Discount rate**		
	Discount rate as at period end	6.30%	7.00%
	Effect on DBO due to 0.5% increase in discount rate	(47.00)	(89.68)
	Effect on DBO due to 0.5% decrease in discount rate	50.33	99.62

	Details	As at 31 March 2021	As at 31 March 2020
B	**Salary escalation rate**		
	Salary escalation rate as at period end	4% for first year, 9% Thereafter	9.00%
	Effect on DBO due to 0.5% increase in salary escalation rate	50.34	95.70
	Effect on DBO due to 0.5% decrease in salary escalation rate	(47.60)	(87.79)
C	**Withdrawal Rate**		
	Withdrawal rate as at year end		21 - 44 years 2% 45 - 57 years 1%
	Withdrawal rate as at year end		
	For Offshore Employees:		
	Withdrawal Rate Service: 0-10	10.00%	
	Withdrawal Rate Service: >10	15.00%	
	Onsite Employees:	10.00%	
	Effect on DBO due to 5% increase in withdrawal rate	(76.81)	(140.12)
	Effect on DBO due to 5% decrease in withdrawal rate	133.11	74.19

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

34. Segment Information

34.1 Based on the assessment of the chief operating decision maker ('CODM'), for the purpose of resource allocation and assessment of segment performance, the Company has only one business segment viz, engineering services.

34.2 Geographical information

The Company operates in seven principal geographical areas - India (country of domicile), United States of America (USA), Europe, Canada, Australia, South Africa and Asia Pacific comprising of China, Japan, Mexico and Singapore

The Company's revenue and Non-Current Assets from continuing operations from customers by location of operations are detailed below:

	Revenue		Non-Current Assets	
	Year ended 31 March 2021	Year ended 31 March 2020	As at 31 March 2021	As at 31 March 2020
India	**12,769.02**	**14,564.46**	**9,004.44**	**9,156.39**
USA	12,066.54	12,520.10	293.24	346.58
Europe	2,657.85	3,114.01	118.94	21.00
Asia Pacific	5,488.92	7,143.55	966.25	799.31
Canada	8.77	24.82	-	-
Australia	-	93.93	-	-
Other	716.26	638.25	2.04	2.40

34.3 Information about major customers

Revenue arising from sales of Automotive Engineering Services consits of about 60 customers base and out of them 10 customers contribute 80% of revenue.

35 Financial Instruments

Capital Management

Equity share capital and other equity are considered for the purpose of Company's capital management. The Company manages its capital so as to safeguard its ability to continue as a going concern. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Financial Risk Management

The Company's activities are exposed to liquidity and market risks. The Company's senior management has the overall responsibility for establishing and governing the company's risk management frame work. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the board annually.

Financial Instruments by category

TThe carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	2,335.02	2,335.02	2,335.02
Other balances with banks	-	-	-	5,982.21	5,982.21	5,982.21
Trade receivables	-	-	-	6,841.82	6,841.82	6,841.82
Investments (Other than in subsidiaries)	9,528.62	-	-	-	9,528.62	9,528.62
Other financial assets	-	-	10.66	5,125.02	5,135.68	5,135.68
Total	**9,528.62**	**-**	**10.66**	**20,284.07**	**29,823.35**	**29,823.35**

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Liabilities						
Trade and other payables	-	-	-	546.54	546.54	546.54
Other financial liabilities	-	-	0.42	410.38	410.80	410.80
Total	**-**	**-**	**0.42**	**956.92**	**957.34**	**957.34**

The carrying value and fair value of financial instruments by categories as of 31 March 2020 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	2,544.91	2,544.91	2,544.91
Other balances with banks	-	-	-	5,151.21	5,151.21	5,151.21
Trade receivables	-	-	-	7,739.17	7,739.17	7,739.17
Investments (Other than in subsidiaries)	5,677.67	-	-	-	5,677.67	5,677.67
Other financial assets	-	-	-	5,085.86	5,085.86	5,085.86
Total	**5,677.67**	**-**	**-**	**20,521.15**	**26,198.82**	**26,198.82**
Liabilities					-	-
Trade and other payables	-	-	-	841.69	841.69	841.69
Other financial liabilities	-	-	-	7.92	7.92	7.92
Total	**-**	**-**	**-**	**849.61**	**849.61**	**849.61**

The fair value of cash and cash equivalents, other balances with bank, trade receivables, unbilled revenues, trade payables, and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value hierarchy

The following table summarises financial asses and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within level -1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Particulars	As at 31 March 2021			As at 31 March 2020		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets						
Mutual fund investments	9,528.62	-	-	5,677.67	-	-
Equity shares	-	-	943.67	-	-	943.67
Derivative financial assets	-	10.66	-	-	-	-
Total	**9,528.62**	**10.66**	**943.67**	**5,677.67**	**-**	**943.67**
Financial Liabilities						
Derivative financial liabilities	-	0.42	-	-	-	-
Total	**-**	**0.42**	**-**	**-**	**-**	**-**

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

The Company has several balances in foreign currency and consequently the company is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affect on the results of the Company, and may fluctuate substantially in the future. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities based on gross exposure and the unhedged foreign currency exposures outstanding at the end of reporting period is as under::

	Assets		Liabilities	
Currency	**As at 31 March 2021**	**As at 31 March 2020**	**As at 31 March 2021**	**As at 31 March 2020**
USD	3,725.82	5,231.96	574.00	460.03
JPY	1,130.25	2,326.62	251.81	409.24
Euro	782.44	958.27	45.09	138.76
CNY	99.45	96.66	-	-
GBP	146.64	244.70	12.60	59.31
Others	312.58	415.47	41.59	87.28

Forward Exchange Contracts

The Company enters into foreign exchange forward contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. Forward exchange contracts in USD exposure are USD to INR and for EUR exposure are EUR to INR. These contracts are for a period of two years.

The following are the various outstanding foreign currency to Indian currency forward contracts (Sell) entered into be the company which has been designated as cash flow hedges:

		Amount outstanding in Foreign currency		Fair Value Gain / (Loss)	
	Currency	**As at 31 March 2021**	**As at 31 March 2020**	**As at 31 March 2021**	**As at 31 March 2020**
Type of cover					
Forward	USD to INR	1.60	-	0.20	-
	EUR to INR	3.79	-	10.03	-

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars	**As at 31 March 2021**	**As at 31 March 2020**
Credit / (Debit) balance at the beginning of the year	-	-
Gain / (loss) net transferred to income statement on occurrence of forecasted hedge transaction	-	-
Changes in fair value of effective portion of cash flow derivative occurred during the year	-	-
Changes in fair value of effective portion of outstanding cash flow derivative	10.24	-
Tax impact on effective portion of outstanding cash flow derivative	-2.58	-
Credit/(Debit) balance at the end of the year	7.66	-

Credit Risk Management

Credit Risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The maximum exposure of the financial assets represents trade receivables.

Credit risk on trade receivables is limited as the customers of the Company mainly consists of the entities having a strong credit worthiness. For doubtful receivables the Company uses a provision matrix to compute the expected credit loss allowances for trade receivables. The provision matrix takes into account ageing of accounts receivables and the company's historical experience of the customers and financial conditions of the customers.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily are investment in liquid mutual fund units issued by institutions with high credit ratings.

Liquidity Risk Management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments.

	As at 31 March 2021		As at 31 March 2020	
	Accounts payable and acceptances	**Other financial liabilities**	**Accounts payable and acceptances**	**Other financial liabilities**
Carrying amount	546.54	410.80	841.69	759.29
upto 1 year	546.54	410.80	841.69	759.29
More than 1 year	-	0.42	-	-
Total contracted cash flows	546.54	411.22	841.69	759.29

The table below provides details of financial assets:

	As at 31 March 2021	**As at 31 March 2020**
Trade receivables	6,841.82	7,739.17
Other financial assets	5,135.68	5,085.86

36. Pursuant to the order from Ministry of Corporate Affairs, Serious Fraud Investigation Office (SFIO) vide its letter dated January 9, 2009 carried out inspection of books of accounts and other records of the Company under Section 209A of the Act. Consequent to inspection, SFIO has filed a complaint in Economic Offences Court, Hyderabad ("the trial court") against the Company and the then directors. The Company has filed a writ petition in the Hon'ble High court of judicature at Hyderabad to quash the complaint of SFIO. The Hon'ble High Court has directed the trial court not to insist the appearance of directors for examination.

The Management at this juncture, does not foresee adjustments, if any, to be made in the financial statements of the Company.

37. Assessment of impact of Novel Corona Virus Disease (COVID 19)

As at the date of these Financial Statements, COVID 19 had spread across most of the world including India, China, Japan, Germany, UK, Mexico and the United States of America where the company has its operations. In assessing the recoverability of receivables including unbilled receivables, financial assets and contract costs and certain investments, the Company has considered internal and external information up to the date of approval of these financial statements. Considering the nature of these assets, while some delays are expected in the collection, the Company expects to recover the carrying amount of these assets. Debtors realisation is good during the period, Apr-20 to Mar-21. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions. Considering the Company's present liquidity position and its customer / vendor relationships, the management of the Company is of the opinion that it would be able to discharge its obligations. However, the Company expects that revenues for FY22 may be impacted.

38. Earning per share

The earnings and weighted average number of equity shares used in the calculation of basic earnings per share are as follow.

	Year ended 31 March 2021	Year ended 31 March 2020
Profit for the year attributable to owners of the Company	3,758.40	4,747.77
Earnings used in the calculation of basic earnings per share	3,758.40	4,747.77
Weighted average number of equity shares outstanding during the year	7,088,960	7,088,960
Face Value of Equity Shares - Rs.	10	10
Basic and Diluted Earnings per Share *	53.02	66.97

* The Company has no potential dilutive instruments

39. Corporate social responsibility

	Year ended 31 March 2021	Year ended 31 March 2020
Average net profit of the company for last three financial years	3,362.02	3,234.51
Prescribed CSR expenditure to be spent (2% of the average net profits)	67.30	64.69
Amount spent during the period on		
i) Construction / acquisition of any asset	-	-
ii) On purposes other than above	67.30	64.70

INDEPENDENT AUDITOR'S REPORT

To the Members of
Satyam Venture Engineering Services Private Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of **Satyam Venture Engineering Services Private Limited** ("the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the Consolidated Balance Sheet as at 31 March 2021, the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement, for the year then ended, and notes to the consolidated financial statements, including a summary of the significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2021, the consolidated profit, the consolidated total comprehensive income, the consolidated changes in equity and its consolidated cash flows and for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India ("ICAI") and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to the following notes in the consolidated financial statements:

a) Note 29.2 regarding reckoning of Rs.24,974 Lakhs as contingent liability, towards any possible charge that may arise in respect of ongoing dispute between the promoters, for the period from 01 April 2012 to 31 March 2021 based on legal advice and for reasons stated in the said note notwithstanding the status of litigation between the promoters on various issues relating to the Shareholders Agreement, the outcome of which is not determinable at this stage; and

b) Note 30 regarding drawing up of accounts for the year incorporating opening balances based on the financial statements of earlier years which have not been adopted by the shareholders.

Our opinion is not modified in respect of these matters.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Directors Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in the terms of the requirements of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor’s Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

We did not audit the financial statements of two subsidiaries whose financial statements reflect total assets of Rs.1,726.40 Lakhs and net assets of Rs.1,544.70 Lakhs as at 31 March 2021, total revenues of Rs.1,328.77 lakhs and net cash inflows amounting to Rs.53.93 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, insofar as it relates the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by Section143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

   (a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;

   (b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;

   (c) the Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;

   (d) in our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the rules issued thereunder;

   (e) the matter relating to contingent liability described in paragraph (a) under the Emphasis of Matters above, in our opinion, may have an adverse effect on the functioning of the Group;

   (f) on the basis of written representations received from the directors of the Holding Company as on 31 March 2021, and taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies incorporated in India is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164 (2) of the Act;

   (g) with respect to the adequacy of the internal financial controls over financial reporting of the Holding Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

   (h) with respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company.

   (i) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and the other financial information of subsidiaries, as noted in the 'Other matter' paragraph:

      i. the consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer note 29 to the consolidated financial statements;

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2021 except for the contingent liability described under note 29.2 for which provision is not made since the matters involving these litigations are sub-judice at present, the impact of these pending litigations on its financial position could not be stated in the Consolidated Financial Statements.; and

      iii. there are no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2021..

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 1(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Satyam Venture Engineering Services Private Limited)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls over financial reporting of Satyam Venture Engineering Services Private Limited ("the Holding Company"). The subsidiary companies are companies incorporated outside India.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Holding Company, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Holding Company, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Hyderabad, 16 April 2021

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

All amounts are Rupees in lakhs unless otherwise stated

1. Corporate Information

Satyam Venture Engineering Services Private Limited ("the Company") was incorporated in March 2000 as a 50:50 joint venture between erstwhile Satyam Computer Services Limited (SCSL) and Venture Global Engineering LLC. SCSL was merged with Tech Mahindra Limited in the year 2013,consequent to a scheme of amalgamation and arrangement as approved by the Hon'ble High Court of Judicature Andhra Pradesh and Hon'ble High Court of Bombay.

The Company provides engineering services such as product design, tool design and computer aided engineering simulation services to automotive industry across the globe, through its Indian operations and through its foreign branches in USA, Germany, Canada, United Kingdom,Japan and Mexico.

The Consolidated financial statements reflect the results of its operations carried on by Indian operations, overseas branches and its subsidiaries incorporated in China and Germany, collectively referred to as the "Group".

The financial statements for the year ended 31 March 2021 were approved by the Board of Directors and authorised to issue on 16 April 2021.

2. Significant accounting policies:

2.1 Statement of Compliance:

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter.

2.2 Basis for preparation of financial statements:

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India on accrual basis under the historical cost convention, except for certain financial instruments which are measured at fair value. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Basis of Consolidation:

The Company consolidates all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity.

Subsidiaries are consolidated from the date control commences until the date control ceases.

The results of subsidiaries acquired, or sold, during the year are consolidated from the effective date of acquisition and up to the effective date of disposal, as appropriate.

All inter-company transactions, balances and income and expenses are eliminated in full on consolidation.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the Company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

2.4 Use of Estimates:

The preparation of financial statements requires the management of the Group to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the financial statements.

2.5 Property, Plant & Equipment and Other Intangible assets:

Property, Plant & Equipment and Other intangible assets are stated at actual cost less accumulated depreciation/ amorisation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortisation on Property, Plant & Equipment and other intangible assets including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as assessed based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Plant and Machinery (including Computers)	3 years
Office Equipment	3 years
Furniture, Fixtures and Interiors	3 years
Vehicles	3 years
Intangible Assets – Software	License period or 3 years whichever is lower

The estimated useful lives and residual values of the tangible and intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

2.6 Leases:

The Group evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Group as a lessee :

The Parent and its subsidiaries assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves:

(a) the use of an identified asset,

(b) the right to obtain substantially all the economic benefits from use of the identified asset, and

(c) the right to direct the use of the identified asset.

The Group at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right- of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The Group applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets.

For lease liabilities at inception, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate.

The Group recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognizes any remaining amount of the re-measurement in statement of profit and loss.

For short-term and low value leases, the Group recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

2.7 Impairment of Assets:

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortised cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decreases can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss

2.8 Revenue recognition:

Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services are either on a time bound fixed price or on a time-and-material basis.

Revenue on time-and-material contracts are recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as unearned revenues).

In arrangements for engineering services with customers, the company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering engineering services and other related services as distinct performance obligations. For allocating the transaction price, the company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price.

For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The company accounts for volume discounts and pricing incentives, if any, to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer's future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

The company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related service are performed. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time .

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non financial asset as the contractual right to consideration is dependent on completion of contractual milestones

Invoicing in excess of earnings are classified as unearned revenue

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

2.9 Foreign currency transactions:

The functional currency of the Company and its Indian subsidiaries is Indian Rupees (INR) whereas the functional currency of foreign subsidiaries is the currency of their countries of domicile.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of the Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

2.10 Foreign Operations:

For the purpose of these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

2.11 Financial Instruments

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortised cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss

Financial liabilities

Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these forward contracts / options as hedge instruments and account for as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/ option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and accumulated under effective portion of cash flow hedges and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Amounts previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are reclassified to the Statement of Profit or Loss in the same period in which gains/ losses on the item hedged are recognised in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in effective portion of cash flow hedges are transferred from effective portion of cash flow hedges and included in the initial measurement of the cost of the nonfinancial asset or non-financial liability.

Profit or loss arising on cancellation or renewal of a forward exchange contract is recognised as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in effective portion of cash flow hedges is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in effective portion of cash flow hedges is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged,cancelled or have expired.

2.12 Employee Benefits:

a) Gratuity:

The Group accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company and its Indian subsidiaries.

Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur.

b) Provident fund:

The eligible employees of the Company and its Indian subsidiaries are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company and its Indian subsidiaries make monthly contributions at a specified percentage of the covered employees' salary which are charged to the Statement of Profit and Loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company and its Indian subsidiaries.

The Company and its Indian subsidiaries has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

c) Compensated absences:

The Group provides for the encashment of leave subject to Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for the Company and its Indian subsidiaries, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries. The Company does not expect the difference on account of varying methods to be material.

The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised based on actuarial valuation as at the Balance Sheet date.

Actuarial gains and losses are recognised in full in the Statement of Profit and Loss in the period in which they occur.

The Group also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is being provided for in the books at actual cost.

d) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised during the period when the employee renders the service.

2.13 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Group recognises interest levied and penalties related to income tax assessments in income tax expenses.

2.14 Earnings per Share:

Basic earnings/ (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued if any, during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed to be converted as of the beginning of the period, unless issued at a later date.

2.15 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets are not recognized in the financial statements.

3 Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company’s accounting policies and that have the most significant effect on the amounts recognised in the financial statement.

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future , and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

Useful lives of property, plant and equipment:

The company reviews the estimated useful lives of property plant and equipment at the end of each reporting period. During the current year, there has been no change in life considered for the assets.

Fair value measurements and valuation processes:

Some of the Company’s assets and liabilities are measured at fair value for the financial reporting purposes.

In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1inputs are not available, the Company engages third party qualified valuers to perform the valuation . Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Chief Executive Officer reports to the board of fluctuations in the fair value of the assets and liabilities.

Provision for doubtful receivables:

The Company has adopted expected credit loss model for provisioning of receivables,apart from this the company also monitors long outstanding balances and make additional provision where required.

Provision for employee benefits:

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period . These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

Provision for taxes:

Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/ recovered for uncertain tax positions.

10.3 Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for trade receivables (other than receivables from realted parties) that do not constitute a financing transaction. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Before accepting any new customer, the Company assesses the potential customer's credit quality.

The Average credit period on Sale of Services 60 days .

	As at 31 March 2021	As at 31 March 2020
Age of Trade Receivables		
Age of receivables

v	Others [Refer Note 29.2]	24,974.00	21,463.40

29.1 Disputed income tax matters

The income tax appeals for assessment years from 2002-03 to 2009-10 have been decided by the Hon'ble Income Tax Appellate Tribunal ("ITAT") in favour of the Company. Consequential orders determining the refund due have been received up to assessment years 2008-09 necessary adjustments have been made to reflect reversal of tax provision created for these years and the advance tax in the financial statements.

For AY 2010-11 and 2011-12 the Hon'ble ITAT remanded case back to the Transfer Pricing Officer for fresh adjudication. For AY 2009-10, the TPO/AO passed consequential orders giving the relief per the ITAT order. However, new issue which was not part of original proceedings, has led to a new demand. The issue relating to TP adjustment of commission had been decided in favour of the Company in earlier years and hence, no provision for tax is made in respect of the demand raised. The Company had filed appeal before Hon'ble CIT. The consequential order for AY 11-12 is awaited.

For AY 2012-13, the assessment was reopened u/s147 w.r.t. reversal of commission paid for FY 2006-07 to 2011-12 to the profit and loss account. The reversal consisted commission disallowed in earlier years by the Company and offered to tax for AY 2010-11 and AY 2011-12. CIT has given relief to this extent which resulted in refund. Both the Company and the department are in appeal before the Hon'ble ITAT.

For AY 2016-17 and 2017-18, the matters relate to TP adjustment of ITES and Interest, disallowance of reimbursement of expenses to certain residents and non-residents for non-deduction of TDS. The first issue was decided in favour of the Company and the second issue is remanded back. The consequential orders were passed accordingly. The Company will be filing appeal against the issue decided against the Company.

In respect of other assessment years, the Company is in appeal before the Hon'ble ITAT as the matters were decided against the Company by DRP. The disallowances relate to denial of internal comparable and interest chargeable on the outstanding amount from associate enterprise. No additional provision is considered as the issues are covered in favour of the Company.

29.2 Contingent Liability - Others

The Company was promoted as 50:50 Joint Venture by Satyam Computer Services Ltd ("Satyam") and Venture Global Engineering LLC US ("Venture"). The joint venture partners entered into a Shareholders' Agreement (SHA) dated October 20, 1999 that provided for a royalty payment from the Company to both the joint venture partners in terms of a separate Royalty Agreement to be entered into between the Company and the joint venture partners. The Royalty Agreement was not entered into between the Company and the joint venture partners as envisaged in the SHA.

The Company and joint venture partners entered into separate Sales Commission Agreements that provided for payment of sales commission to the joint venture partners as per terms and conditions contained in the said agreements. In line with the provisions contained therein, the Company has been accruing and paying commission to its joint venture partners up to the year 2005-06.

During the year 2005-06, Satyam commenced arbitration proceedings against Venture in the London Court of International Arbitration ("LCIA") by invoking the arbitration clause in the SHA. Satyam's claims were upheld by the LCIA in its award dated April 2006 ("the Award"). Since then both the joint venture partners have raised numerous claims against each other resulting in multiple legal proceedings both in India and the USA that are still ongoing.

On January 7, 2009, the then Chairman of Satyam vide his letter addressed to then existing Board of Directors of Satyam, the stock exchanges and SEBI admitted to several financial irregularities in Satyam. Consequent to a global bidding process to take over the management of Satyam, M/s Venturbay Consultants Private Limited (the successful bidder) took over the management of Satyam.

Notwithstanding the dispute, the Company under its erstwhile management, continued to accrue the sales commission in its books. The newly reconstituted Board approved the accounts of the Company for the years 2008-09, 2009-10 and 2010-11, with continued accrual of sales commission. This was based on a view taken by the newly constituted Board that the matter is sub-judice that was corroborated by legal opinion and continued as prudent measure.

During the meetings held in 2011-12, the Board discussed the need to accrue the sales commission, as Venture did not render any services to the Company either during the year or during the past many years since the dispute. Further, in so far as the Company was concerned, Venture had not, till that point of time, claimed any amounts towards sales commission. The Board also took note of the fact (based on an updated legal opinion) that the issue of sales commission is not a disputed matter before the Courts either in India or in USA and not sub judice, as per original view.

Under the circumstances, the Board took the view on May 14, 2012 when the financial statements for the year ended March 31, 2012 was tabled for approval, that the accrual of sales commission from FY 05-06 to FY 10-11 of Rs.3,594.07 be written back as other income in the Statement of Profit and Loss and the sales commission for the period from April 2011- December 2011 be reversed. However, as a prudent measure, the Board directed that the Company provide an amount of Rs.5,291.42 Lakhs as a provision for contingency, covering the period from FY 05-06 to FY 11-12 which in its opinion would be adequate to cover any possible outflow that may arise in respect of the aforesaid matter and adjustments to the financial statements if any, to be made on final disposal of legal proceedings.

Subsequent to the adoption of accounts by the Board, the Company was served a suit filed by Venture before the City Civil Court, Secunderabad inter alia seeking a direction to the Company to pay sales commission that it was entitled to under the Shareholders Agreement. In the said suit, two ex-parte orders were passed by the City Civil Court , directing the Company, Venture and Satyam to maintain status quo with regard to transfer of 50% shares of Venture and with regard to taking major decisions which are prejudicial to interest of Venture . The Company has challenged the ex-parte orders of the City Civil Court Secunderabad, before the Hon'ble High Court of Andhra Pradesh ("the High Court").

In a related development, the City Civil Court, Hyderabad set aside the Award in January 2012, against which Satyam has filed an appeal before the High Court.

The High Court by its Judgement dated August 23, 2013 has allowed the appeals filed by the Company and set aside the ex-parte interim orders against the Company. The High Court has also set aside the Order of the City Civil Court, Hyderabad setting aside the Award and upheld the Award in favour of Satyam. The High Court as an interim measure ordered status quo with regard to transfer of shares, originally given by Supreme Court to be maintained for four (4) weeks which was extended for a further period of 3 weeks by High Court on 19th September, 2013

Venture filed an SLP before the Supreme Court of India which was heard by the Apex Court on 21st October, 2013 and Supreme Court as an interim measure ordered status quo with regard to transfer of shares. TechM has filed a Special leave Petition before the Supreme Court of India challenging the judgement of the High Court only on the limited issue as to whether the Civil Court has jurisdiction to entertain VGE's challenge to the Award. The Hon'ble Bench of Supreme Court, in view of the difference of opinion by an order dated November 1, 2017 has directed the registry to place the SLP's before the Chief Justice of India for appropriate further course of action.

The Company has not modified the provision for contingencies amounting to Rs.5,291.41 Lakhs as on 31 March 2012. The Company has also disclosed an amount of Rs.24,974.00 Lakhs [31 March 2020: Rs.21,463.40 Lakhs] as contingent liability, to cover any possible charge that may arise in respect of the above said matter, in the financial statements for the year ended 31 March 2021 by way of abundant caution notwithstanding the Board's view that there is no need to accrue sales commission since Venture did not provide any services to the Company.

30. Preparation of financial statements:

At the Annual General Meetings of the Company, one of the shareholders abstained from voting on the resolution for adoption of audited financial statements as at and for the years ended 31 March 2012 to 2020. In terms of Article 66 of the Articles of Association of the Company, the adoption of audited financial statements requires unanimous consent of both the shareholders of the Company. Therefore, the said financials have not been approved by the shareholders.

The financial statements as at and for the year ended 31 March 2021 have been drawn up incorporating the opening balances based on above said financial statements which have not been adopted by the Shareholders. Adjustments required, if any, will be made in accounts as and when determined.

Australia	-	93.93	-	-
Other	716.26	638.25	2.04	2.40

34.3 Information about major customers

Revenue arising from sales of Automotive Engineering Services and consists of 60 customers base and out of them 10 customers contribute 80% of revenue.

35 Financial Instruments

35.1 Capital Management

Equity share capital and other equity are considered for the purpose of Company's capital management. The Company manages its capital so as to safeguard its ability to continue as a going concern. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

Financial Risk Management

The Company's activities are exposed to liquidity and market risks. The Company's senior management has the overall responsibility for establishing and governing the company's risk management frame work. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the board annually.

Financial Instruments by category

The carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	3,438.02	3,438.02	3,438.02
Other balances with banks	-	-	-	5,982.21	5,982.21	5,982.21
Trade receivables	-	-	-	7,113.41	7,113.41	7,113.41
Investments (Other than in subsidiaries)	9,528.62	-	-	-	9,528.62	9,528.62
Other financial assets	-	-	10.66	5,206.55	5,217.20	5,217.20
Total	**9,528.62**	**-**	**10.66**	**21,740.19**	**31,279.47**	**31,279.47**
Liabilities					-	-
Trade and other payables	-	-	-	605.35	605.35	605.35
Other financial liabilities	-	-	0.42	412.43	412.85	412.85
Total	**-**	**-**	**0.42**	**1,017.78**	**1,018.20**	**1,018.20**

The carrying value and fair value of financial instruments by categories as of 31 March 2020 is as follows:

Particulars	Fair value through P&L	Fair value through OCI	Derivative instruments in hedging relationship	Amortised cost	Total carrying value	Total fair value*
Assets						
Cash and cash equivalents	-	-	-	3,593.98	3,593.98	3,593.98
Other balances with banks	-	-	-	5,151.21	5,151.21	5,151.21
Trade receivables	-	-	-	8,150.51	8,150.51	8,150.51
Investments (Other than in subsidiaries)	5,677.67	-	-	-	5,677.67	5,677.67
Other financial assets	-	-	-	5,275.92	5,275.92	5,275.92
Total	**5,677.67**	**-**	**-**	**22,171.62**	**27,849.29**	**27,849.29**
Liabilities					-	-
Trade and other payables	-	-	-	967.22	967.22	967.22
Other financial liabilities	-	-	-	7.92	7.92	7.92
Total	**-**	**-**	**-**	**975.14**	**975.14**	**975.14**

The fair value of cash and cash equivalents, other balances with bank, trade receivables, unbilled revenues, trade payables, and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required):

The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within level -1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Particulars	As at 31 March 2021			As at 31 March 2020		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Financial assets						
Mutual fund investments	9,528.62	-	-	5,677.67	-	-

Total	**9,528.62**	**10.66**	**-**	**5,677.67**	**-**	**-**
Financial Liabilities						
Derivative financial liabilities	-	0.42	-	-	-	-
Total	**-**	**0.42**	**-**	**-**	**-**	**-**

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

The Company has several balances in foreign currency and consequently the company is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affect on the results of the Company, and may fluctuate substantially in the future. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities based on gross exposure and the unhedged foreign currency exposures outstanding at the end of reporting period is as under:

	Assets		Liabilities	
Currency	**As at 31 March 2021**	**As at 31 March 2020**	**As at 31 March 2021**	**As at 31 March 2020**
USD	3,725.82	5,231.96	574.00	460.03
JPY	1,130.25	2,326.62	251.81	409.24
Euro	1,045.27	1,749.77	209.39	402.06
CNY	1,121.56	970.67	115.19	117.58
GBP	146.64	244.70	12.60	59.31
Others	312.58	415.47	41.59	87.28

Forward Exchange Contracts

The Company enters into foreign exchange forward contracts to offset the foreign currency risk arising from the amounts denominated in currencies other than the Indian Rupee. The counter party to the Company's foreign currency Forward Contracts is generally a bank. These contracts are entered into to hedge the foreign currency risks of certain forecasted transactions. Forward exchange contracts in USD exposure are USD to INR and for EUR exposure are EUR to INR. These contracts are for a period of two years.

The following are the various outstanding foreign currency to Indian currency forward contracts (Sell) entered into be the company which has been designated as cash flow hedges:

	Currency	Amount outstanding in Foreign currency		Fair Value Gain / (Loss)	
		As at 31 March 2021	As at 31 March 2020	As at 31 March 2021	As at 31 March 2020
Type of cover					
Forward	USD to INR	1.60	-	0.20	-
	EUR to INR	3.79	-	10.03	-

The movement in hedging reserve for derivatives designated as Cash Flow Hedges is as follows:

Particulars	As at 31 March 2021	As at 31 March 2020
Credit / (Debit) balance at the beginning of the year	-	-
Gain / (loss) net transferred to income statement on occurrence of forecasted hedge transaction	-	-
Changes in fair value of effective portion of cash flow derivative occurred during the year	-	-
Changes in fair value of effective portion of outstanding cash flow derivative	10.24	-
Tax impact on effective portion of outstanding cash flow derivative	(2.58)	-
Credit/(Debit) balance at the end of the year	7.66	-

Credit Risk Management

Credit Risk refers to the risk for a counter party default on its contractual obligation resulting a financial loss to the Group. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The maximum exposure of the financial assets represents trade receivables.

Credit risk on trade receivables is limited as the customers of the Company mainly consists of the entities having a strong credit worthiness. For doubtful receivables the Company uses a provision matrix to compute the expected credit loss allowances for trade receivables. The provision matrix takes into account ageing of accounts receivables and the company's historical experience of the customers and financial conditions of the customers.

Credit risk on cash and cash equivalents is limited as the Company generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily are investment in liquid mutual fund units issued by institutions with high credit ratings.

Liquidity Risk Management

The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of financial liabilities including estimated interest payments.

	As at 31 March 2021		As at 31 March 2020	
	Accounts payable and acceptances	**Other financial liabilities**	**Accounts payable and acceptances**	**Other financial liabilities**
"Carrying amount"	605.35	412.85	967.22	764.26
upto 1 year	605.35	412.85	967.22	764.26
More than 1 year	-	0.42	-	-
Total contracted cash flows	605.35	413.27	967.22	764.26

The table below provides details of financial assets:

	As at 31 March 2021	**As at 31 March 2020**
Trade receivables	7,113.41	8,150.51
Other financial assets	5,217.20	5,275.92

36. Pursuant to the order from Ministry of Corporate Affairs, Serious Fraud Investigation Office (SFIO) vide its letter dated January 9, 2009 carried out inspection of books of accounts and other records of the Company under Section 209A of the Act. Consequent to inspection, SFIO has filed a complaint in Economic Offences Court, Hyderabad ("the trial court") against the Company and the then directors. The Company has filed a writ petition in the Hon'ble High court of judicature at Hyderabad to quash the complaint of SFIO. The Hon'ble High Court has directed the trial court not to insist the appearance of directors for examination.

The Management at this juncture, does not foresee adjustments, if any, to be made in the financial statements of the Company.

37. Assessment of impact of Novel Corona Virus Disease (COVID 19)

As at the date of these Financial Statements, COVID 19 had spread across most of the world including India, China, Japan, Germany, UK, Mexico and the United States of America where the company has its operations. In assessing the recoverability of receivables including unbilled receivables, financial assets and contract costs and certain investments, the Company has considered internal and external information up to the date of approval of these financial statements. Considering the nature of these assets, while some delays are expected in the collection, the Company expects to recover the carrying amount of these assets. Debtors realisation is good during the period, Apr-20 to Mar-21. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions. Considering the Company's present liquidity position and its customer / vendor relationships, the management of the Company is of the opinion that it would be able to discharge its obligations. However, the Company expects that revenues for FY22 may be impacted.

38. Earning per share

The earnings and weighted average number of equity shares used in the calculation of basic earnings per share are as follow.

	Year ended 31 March 2021	**Year ended 31 March 2020**
Profit for the year attributable to owners of the Company	3,778.79	4,884.66
Earnings used in the calculation of basic earnings per share	3,778.79	4,884.66
Weighted average number of equity shares outstanding during the period	7,088,960	7,088,960
Face Value of Equity Shares - Rs.	10	10
Basic and Diluted Earnings per Share *	53.31	68.91

* The Company has no potential dilutive instruments

39. Corporate social responsibility

	Year ended 31 March 2021	Year ended 31 March 2020
Average net profit of the company for last three financial years	3,365.00	3,234.51
Prescribed CSR expenditure to be spent (2% of the average net profits)	67.30	64.69
Amount spent during the period on		
i) Construction / acquisition of any asset	-	-
ii) On purposes other than above	67.30	64.70

Review of Operations:

During the year under review, your company recorded an income of CNY 62,18,205 (Equivalent to INR 6,94,60,456). Profit after tax was CNY 7,89,056 (Equivalent to INR 88,14,155). The Company continues to invest in strengthening its marketing infrastructure in China.

Directors:

During the year Mr. P V. Krishnakumar was a director on the Board.

Outlook for the current year:

Business has been encouraging in China and the Company is cautiously optimistic of the future.

Acknowledgements:

Your Directors gratefully acknowledge the contributions made by the employees towards the success of the Company. Your Directors also thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholder/s for the co-operation and assistance received from them.

P. V. Krishnakumar
Director

Shanghai, June 30, 2021.

AUDITORS' REPORT

HRTKSZ(2021) No. ******

I. Audit Opinion

We have audited the attached financial statements of Satyam-Venture Engineering Services (Shanghai) Co., Ltd. (hereinafter referred to as "Your Company"), including balance sheet as of December 31, 2020, annual income statement, cash flow statement and notes to financial statements for the year from January 2020 to the end of December 2020.

In our opinion, attached financial statements are prepared in accordance with the Accounting Standard for Business Enterprises in all material respects. They fairly and honestly represent Your Company's financial position as of December 31, 2020 and the operation results and the cash flow for the year from January 2020 to the end of December 2020.

II. Basis for Audit Opinion

We have concluded the auditing work in accordance with the Independent Auditing Standards for the Certified Public Accountant. Our responsibilities under these standards are further elaborated in the section of the auditor's report, entitled "CPA's Responsibility to Audit Financial Statements". In accordance with the China Code of Ethics for Certified Public Accountants, we are independent of your company and have performed other duties in respect of professional ethics. We are confident that the obtained audit evidence is sufficient and appropriate, which forms a firm basis for giving our audit opinion.

III. Responsibilities of the Management for the Financial Statements

The Management are obliged to prepare the financial statements in accordance with the Accounting Standard for Business Enterprises and achieve fair presentation of the financial statements and to design, implement and maintain necessary internal control in order to ensure that there is no material misstatement due to fraud or errors.

In preparing the financial statements, management is responsible for assessing your ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless your company either intends to liquidate or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing your financial reporting process.

IV. Certified Public Accountants' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the audit standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. In addition, we also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of management's use of the going concern basis of accounting. And based on the audit evidence obtained, conclude whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that there is a significant uncertainty, the auditing standards require us to draw the attention of the users of the statements to the relevant disclosures in the financial statements in the audit report. If the disclosures are not sufficient, we should issue a modified opinion. Our conclusion is based on the information available up to the date of the auditor's report. However, future events or circumstances may cause you to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
