These financial statements have been prepared by the Company in accordance with the "Enterprise Accounting Standards".

Accounting Year

Calendar year from January 2020 to the end of December 2020.

Valuation Basis

The Company makes accounting recognition, measurement and report on the accrual basis.

Basis of Measurement

The elements of financial statements are measured by the Company on the basis of historical cost generally; and special notes will be given by the Company in the case of measurement on the basis of replacement cost, net realizable value, present value or fair value.

Recording Currency and Foreign Currency Translation

CNY is used by the Company as the recording currency. Transactions denominated in foreign currencies are stated after being translated into CNY at the market reference exchange rates promulgated by the People's Bank of China prevailing on the date on which the transactions took place, the balance in all foreign currency accounts and settlement accounts will be translated into CNY at the market reference exchange rates prevailing at the end of period, and the exchange gain or loss thus occurred will be taken to "Financial Expenses – Exchange Gain or Loss" other than those occurred during the establishment period which shall be taken to "Long-term Prepaid Expenses – Establishment Charge".

Recognition of Cash Equivalents

Investments held by the Company with short term, strong liquidity and less risk of value change which are easily converted into cash with known amount are recognized as cash equivalents.

Accounting Method for Bad Debts

The Company accounts bad debt loss by using allowance method, and makes provision for bad debts by using specific identification method.

The accounts receivable (1) that cannot be recovered due to the bankruptcy or death of the debtor after the liquidation of such debtor's property or legacy, or (2) that cannot be recovered as a result of the debtor's delay in performing its obligation of debt redemption over three years are recognized as bad debts.

Inventories

Inventories refer to the materials or goods held by the Company in the process of production and operation for sale or to be consumed in the process of production or rendering of service, including products in process and commodity stocks.

Accounting method for inventories: The inventories are measured at their actual costs at acquisition, including procurement costs, processing costs and other costs. The actual costs of delivered inventories are determined using first-in first-out method at delivery of inventories.

The perpetual inventory method is used by the Company as its inventory system. The Company checks inventories regularly, the gain from inventory profit and loss from inventory shortage are taken to the Profit and Loss of the current period.

Provision for Impairment of Inventories

At the end of the year, the provision for impairment of inventories is made or adjusted at the costs or net realizable value of inventories whichever is lower. The provision for impairment of inventories is made upon the single item of inventories.

Fixed Assets and Their Depreciation

Fixed assets refer to the tangible assets held for the purpose of producing products, rendering service, leasing or operating management with the useful life over one accounting year if it is probable that their associated economic benefits can flow to the enterprise and their costs can be measured reliably.

Fixed assets are measured initially at their costs. The Company makes depreciation for all fixed assets other than those to be used continuously after being depreciated fully and the land which will be valuated and stated separately. The depreciation is made using the straight line method.

The type, estimated useful life, estimated net residual value and annual depreciation rates of fixed assets of the Company are defined as follows:

Type of Assets	Estimated Useful Life (year)	Estimated Net Residual Value	Annual Depreciation Rate
Electronic equipment	3	10%	30%

Provision for Impairment of Fixed Assets

At the balance sheet date, the fixed assets are valuated at the lower of their book value or recoverable amount. In case the recoverable amount is lower than the book value, the book value of fixed assets is written down to the recoverable amount, and the write-down amount is recognized as the loss of impairment of assets and taken to the Profit and Loss of the current period while the provision for impairment of fixed assets is made accordingly. The loss of impairment of fixed assets will not be carried back in subsequent accounting periods once it has been recognized.

Long-term Prepaid Expenses

The long-term prepaid expenses of the Company refer to expenses that have been disbursed and will be amortized after normal production and operation over one year, mainly including establishment charge and costs of tools and appliances with useful life over one year. Other than establishment charge which is taken to Profit and Loss in a lump in the starting month of production and operation, all long-term prepaid expenses are amortized evenly within the estimated beneficial period, and taken to the Profit and Loss of each amortization period.

Revenues

1. **Sale of Goods**

   The revenues from sale of goods are recognized at the received or receivable contractual prices from the buyer when (1) the Company has transferred the significant risks and rewards of ownership of the goods to the buyer; (2) retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (3) the amount of revenues can be measured reliably; (4) it is probable that the economic benefits associated with the transaction can flow to the Company; and (5) the relevant costs incurred or to be incurred can be measured reliably.

2. **Rendering of Service**

   The revenues from rendering of service is recognized using percentage of completion method when the results of rendering of service can be estimated reliably at the balance sheet date.

3. **Transfer of the Right to the Use of Assets**

   The revenues from transfer of the right to the use of assets are recognized by the Company when the economic benefits associated with such transfer can flow to the Company and the amount of revenue can be measured reliably.

   Interest income is computed and determined according to the time of using cash & cash equivalents and the applicable interest rate. The amount of income from charge for use is computed and determined according to the time and method agreed in the relevant contract or agreement.

Income Tax

The income tax of the Company is accounted using tax payable method.

III. Taxes

Value added tax: The value added tax rate applicable to the Company in this year is 6%.

Income tax: The income tax rate applicable to the Company in this year is 25%.

Urban construction tax: The Urban construction tax rate applicable to the Company in this year is 5%.

AUDITOR'S CERTIFICATE FOR SATVEN GmbH, MUNICH

We have audited the annual financial statements - Tested to March 31, 2021, including the accounting of Satven GmbH, Stuttgart, for the financial period April 1, 2020 to March 31, 2021, comprising the balance sheet, profit and loss statement and notes. The accounting and the preparation of the annual financial statements in accordance with German commercial law are the responsibility of the Company's management. Our responsibility is to express an opinion on the basis of our audit, on the annual financial statements, including the accounting.

We conducted our audit in accordance with § 317 HGB promulgated by the Institute of Chartered Accountants (IDW) and German generally accepted auditing standards. Those standards require that we plan and perform that misstatements materially affecting the presentation of operations in the annual financial statements in accordance with generally accepted accounting of the assets, financial position and results, with reasonable assurance be detected. In the determination of audit procedures knowledge of the business activities and the economic and legal environment of the company and expectations as to possible misstatements are taken into account. During the audit, the effectiveness of the accounting- related internal control system and the evidence supporting the disclosures in the annual financial statements are examined primarily on a test basis. An audit also includes assessing the accounting principles used and significant estimates made by management. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, based on the findings of our audit, the annual financial statements comply with the legal requirements and give attention to the proper accounting give a true and fair view of the net assets, financial position and results of operations.

ACCOUNTANT'S COMPILATION REPORT

The financial statements of Dynacommerce Holding B.V. have been compiled by us using the information provided by you. The financial statements comprise the balance sheet as at 31 December 2020 and the profit and loss account for the year 2020 with the accompanying explanatory notes. These notes include a summary of the accounting policies which have been applied.

This compilation engagement has been performed by us in accordance with Dutch law, including the Dutch Standard 4410, "Compilation engagements", which is applicable to accountants. The standard requires us to assist you in the preparation and presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code. To this end we have applied our professional expertise in accounting and financial reporting.

In a compilation engagement, you are responsible for ensuring that you provide us with all relevant information and that this information is correct. Therefore, we have conducted our work, in accordance with the applicable regulations, on the assumption that you have fulfilled your responsibility. To conclude our work, we have read the financial statements as a whole to consider whether the financial statements as presented correspond with our understanding of Dynacommerce Holding B.V.

During this engagement we have complied with the relevant ethical requirements prescribed by the "Verordening Gedrags- en Beroepsregels Accountants" (VGBA). You and other users of these financial statements may therefore assume that we have conducted the engagement in a professional, competent and objective manner and with due care and integrity and that we will treat all information provided to us as confidential.

FISCAL POSITION

Fiscal unity

There is a group tax treatment (fiscal unity) for Dynacommerce Holding B.V. and her Dutch subsidiary for the corporate income tax.

The corporate income tax for the subsidiary is calculated as if the subsidiary is sole entity for the corporate income tax. Any dis- and advantages concerning the group tax treatment are taken into account with Dynacommerce Holding B.V. The corporate income tax payable by the subsidiary is registered into the current account with Dynacommerce Holding B.V.

Losses to be settled

As at December 31, 2020 the losses to be settled amount to € 11.287.579 The losses can be settled with future profits within a period of 6 years. Losses from the year 2018 or earlier can be settled up to 9 years.

Because the realisation of future tax profits is uncertain, the deferred tax asset in respect of the carry-forward of unused tax losses are not valuated.

Taxable amount and taxation financial year 2020

The fiscal result amounts € 1.400.307. There is no corporate income tax payment required regarding this result.

We trust to have been of service. We are available to provide further explanation should you have questions or comments.

Yours sincerely,

KOENEN EN CO

GENERAL NOTES TO THE FINANCIAL STATEMENTS

Activities

The activities of Dynacommerce Holding B.V. are fully focused on holding activities. On the date 31-3-2020 Dynalean B.V. has been merged with Dynacommerce B.V.

Business address

Dynacommerce Holding B.V. (registered under Chamber of Commerce number 66421470) is based at Stationsplein 5A 1 in Sittard.

Group relationships

Dynacommerce Holding B.V. settled in Sittard, The Netherlands, is the head of a group of legal persons. Dynacommerce B.V. is a 100% subsidiary of Tech Mahindra Limited, settled in Maharashtra, India, which is the head of the group and motherhood company of Dynacommerce Holding B.V.

The figures of Dynacommerce Holding B.V. are included in the financial statements of Tech Mahindra Limited.

Consolidation

Consolidated financial statements have not been drawn up on the grounds of the exemption pursuant to Sec on 2: 407 (2a) of the Dutch Civil Code.

Mergers and acquisitions

Legal merger

On August 10, 2020, the boards of Dynacommerce B.V. (acquiring company) and Dynalean B.V. (disappearing company) decided on a legal merger. In this context, the power of Dynalean B.V. as can be seen from the balance sheet as of March 31, 2020 is transferred under general title to Dynacommerce B.V. The assets and liabilities of Dynalean B.V. are included in the balance sheet of Dynacommerce B.V. at the book values as of April 1, 2020. The merger has a negative effect on Dynacommerce B.V.'s equity of € 1.552.345. The bases of appreciation used by Dynalean B.V. were the same as those used by Dynacommerce B.V.

GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the general determination of Chapter 9 Book 2 of the Dutch Civil Code.

Dynacommerce Holding B.V., Sittard

Valuation of assets and liabilities and determination of the result takes place under the historical cost convention. Unless mentioned otherwise, the relevant principle for the specific balance sheet item, assets and liabilities are presented at face value.

Income and expenses are accounted on accrual basis. Profit is only included when realized on balance sheet date. Liabilities and any losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.

Financial position

Although the financial position of the entity is still delicate, it has been decided to maintain the valuation bases for the time being on a going concern basis as the outlook for next years is positive. The entity has a negative equity as per balance sheet date.

Based on the financial position as per 31-12-2020 the ultimate parent Tech Mahindra Limited provided a letter of support concerning Dynacommerce Holding B.V. and Dynacommerce B.V. which states that Tech Mahindra Limited is willing and able to provide additional financial resources or financing to Dynacommerce Holding B.V and Dynacommerce B.V. This assistance will continue in the near future which will at least be for 12 months from the date of signing of the financial statements.

In addition, Tech Mahindra Limited confirmed that they will not immediately claim the receivables against Dynacommerce Holding B.V. and Dynacommerce B.V.

Estimates and assumptions

Dynacommerce Holding B.V. based its assumptions and estimates on circumstances and information available when the financial statements were prepared.

If it is necessary in order to provide the transparency required under art. 2:362 paragraph 1 of the Dutch Civil Code the nature of these estimates and judgments, including related assumptions, is disclosed in the notes to the relevant financial statement item.

PRINCIPLES FOR THE VALUATION OF ASSETS AND LIABILITIES

Tangible fixed assets

The tangible fixed assets are presented at the cost less the accumulated depreciation and, if applicable, the special impairments. The depreciation is based on the estimated economic lifespan and are calculated on the basis of a fixed percentage of the purchase price, taking into account a residual value, if any. Depreciation is provided from the date an asset comes into use. No depreciation is applied on grounds/land.

Financial fixed assets

Where significant influence is exercised participations in non-consolidated companies are valued under the net asset value method, but not lower than a nil value. This net asset value is based on the same accounting principles as applied by Dynacommerce Holding B.V.

When a participation has a value lower than nil, a provision is formed which is netted against the receivable from that group company or presented as a provision.

Long-term liabilities

Recorded interest-bearing loans and liabilities are valued at face value.

Current liabilities, accruals and deferred income

Upon initial recognition, the liabilities recorded are stated at fair value and then valued at amortized cost.

PRINCIPLES FOR THE DETERMINATION OF THE RESULT

General

Revenues from services are recognised in proportion to the services rendered. The cost price of these services is allocated to the same period.

The profit that can be allocated to the work in progress is determined on the basis of the part of the agreed upon fee for the contracted work that can be allocated, minus the costs that can be allocated to that part of the work in progress.

Determination of the result

The result is determined as the difference between net turnover and the costs of the reporting period regarding the previous mentioned principles of valuation. Benefits and charges are allocated to the year to which they relate. Profits are included only in so far as they have been realised on the balance sheet date. Losses which originate before the end of the year under report are taken into account if they became known before the preparation of the annual accounts.

Result after income taxes of the group companies

The result is the amount by which the carrying amount of the participation has changed since the previous financial statements as a result of the results achieved by the participation.

Tax

The corporate income tax is calculated at the applicable rate over the result of the financial year, taking into account any permanent differences between profit calculation in accordance with the financial statements and the fiscal result calculation.

In the financial statement of subsidiary, a tax charge is calculated based on the commercial result. The taxes owed by subsidiary is settled through the intercompany account with Dynacommerce Holding B.V.

DISCLOSURE ON BALANCE SHEET AS AT 31 DECEMBER 2020

RIGHTS AND LIABILITIES NOT INCLUDED IN THE BALANCE SHEET

Contingent liabilities

Group tax treatment

Dynacommerce Holding B.V. is the head of the fiscal unity which consist the entity Dynacommerce B.V. and Dynacommerce Holding B.V.

Multi -year financial obligations

Rent agreement

The company has rented an office space in a building located at the Stationsplein 5a, Sittard. The total rent amounts € 20.173 (included VAT) a month. The contract has a duration of initially 10 years and will be ending on December 31, 2027.

Rights

Tax losses available for set-off

As at balance sheet date a loss for set-off remains of € 11.287.579. According to the ruling tax law, these losses can be set-off against possible future fiscal profits. Based on the loss set-off there is a deferred tax asset of € 2.821.895 (25% of € 11.287.579). Since it is not certain that the tax losses can be applied for set-off against possible future fiscal profits, this deferred tax asset is not recognised on the balance sheet.

ACCOUNTANT‘S COMPILATION REPORT

The financial statements of Dynacommerce B.V. have been compiled by us using the information provided by you. The financial statements comprise the balance sheet as at 31 December 2020 and the profit and loss account for the year 2020 with the accompanying explanatory notes. These notes include a summary of the accounting policies which have been applied.

This compilation engagement has been performed by us in accordance with Dutch law, including the Dutch Standard 4410, “Compilation engagements”, which is applicable to accountants. The standard requires us to assist you in the preparation and presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code. To this end we have applied our professional expertise in accounting and financial reporting.

In a compilation engagement, you are responsible for ensuring that you provide us with all relevant information and that this information is correct. Therefore, we have conducted our work, in accordance with the applicable regulations, on the assumption that you have fulfilled your responsibility. To conclude our work, we have read the financial statements as a whole to consider whether the financial statements as presented correspond with our understanding of Dynacommerce B.V.

During this engagement we have complied with the relevant ethical requirements prescribed by the “Verordening Gedrags- en Beroepsregels Accountants” (VGBA). You and other users of these financial statements may therefore assume that we have conducted the engagement in a professional, competent and objective manner and with due care and integrity and that we will treat all information provided to us as confidential.

FISCAL POSITION

Fiscal unity

There is a group tax treatment (fiscal unity) for Dynacommerce Holding B.V. and her Dutch subsidiary for the corporate income tax.

The corporate income tax for the subsidiary is calculated as if the subsidiary is sole entity for the corporate income tax. Any dis- and advantages concerning the group tax treatment are taken into account with Dynacommerce B.V. The corporate income tax payable by the subsidiary is registered into the current account with Dynacommerce Holding B.V.

We trust to have been of service. We are available to provide further explanation should you have questions or comments.,

Yours sincerely,

KOENEN EN CO
Accountants

GENERAL NOTES TO THE FINANCIAL STATEMENTS

Activites

The activities of Dynacommerce B.V. are fully focused on end to end Omnius omnichannel solutions. On the date 31-3-2020 Dynalean B.V. is merged with Dynacommerce B.V. The platform, which previously was included in the balance sheet of Dynalean B.V., is now included in the balance sheet of Dynacommerce B.V.

Business address

Dynacommerce B.V. (registered under Chamber of Commerce number 60727853) having its legal seat at Stationsplein 5A 1 in Sittard.

Group Relationships

Dynacommerce B.V. is a 100% subsidiary of Dynacommerce Holding B.V., settled in Sittard, The Netherlands. The financial statements of Dynacommerce B.V. are included in the consolidated financial statements of Tech Mahindra Limited, settled in Maharashtra, India.

Mergers and acquisitions

Legal merger

On August 10, 2020, the boards of Dynacommerce B.V. (acquiring company) and Dynalean B.V. (disappearing company) decided on a legal merger. In this context, the power of Dynalean B.V. as can be seen from the balance sheet as of March 31, 2020 is transferred under general title to Dynacommerce B.V. The assets and liabilities of Dynalean B.V. are included in the balance sheet of Dynacommerce B.V. at the book values as of April 1, 2020. The merger has a negative effect on Dynacommerce B.V.'s equity of € 1.552.345. The bases of appreciation used by Dynalean B.V. were the same as those used by Dynacommerce B.V.

GENERAL ACCOUNTING PRINCIPLES FOR THE PREPARATION OF THE FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the general determination of Chapter 9 Book 2 of the Dutch Civil Code.

Valuation of assets and liabilities and determination of the result takes place under the historical cost convention. Unless mentioned otherwise, the relevant principle for the specific balance sheet item, assets and liabilities are presented at face value.

Income and expenses are accounted on accrual basis. Profit is only included when realized on balance sheet date. Liabilities and any losses originating before the end of the financial year are taken into account if they have become known before preparation of the financial statements.

Financial position

Although the financial position of the entity is still delicate, it has been decided to maintain the valuation bases for the time being on a going concern basis as the outlook for next years is positive. The entity has a negative equity as per balance sheet date.

Based on the financial position as per 31-12-2020 the ultimate parent Tech Mahindra Limited provided a letter of support concerning Dynacommerce Holding B.V. and Dynacommerce B.V. which states that Tech Mahindra Limited is willing and able to provide additional financial resources or financing to Dynacommerce Holding B.V and Dynacommerce B.V. This assistance will continue in the near future which will at least be for 12 months from the date of signing of the financial statements.

In addition, Tech Mahindra Limited confirmed that they will not immediately claim the receivables against Dynacommerce Holding B.V. and Dynacommerce B.V.

Estimates and assumptions

Dynacommerce B.V. based its assumptions and estimates on circumstances and information available when the financial statements were prepared.

If it is necessary in order to provide the transparency required under art. 2:362 paragraph 1 of the Dutch Civil Code the nature of these estimates and judgments, including related assumptions, is disclosed in the notes to the relevant financial statement item.

PRINCIPLES FOR THE VALUATION OF ASSETS AND LIABILITIES

Intangible fixed assets

Intangible fixed assets are presented at cost less accumulated amortization and, if applicable, less impairments. Amortization is charged as a fixed percentage of cost, as specified in more detail in the notes to the balance sheet. The useful life and the amortization method are reassessed at the end of each financial year. Depreciation in 3 years based on the portfolio of customers taken over.

Internal development costs for technology and software are recognized as an intangible asset if, and only if, all of the following have been demonstrated:

- The technical feasibility to complete the project;
- The intention to complete the intangible asset, and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development; and
- The cost of developing the asset can be measured reliably.

The amount initially recognized for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. All expenditures on research activities and development activities for which the recognition criteria listed above are not met are expensed in the income statement as incurred.

Receivables, prepayments and accrued income

Upon initial recognition the receivables are valued at fair value and then valued at amortized cost. The

fair value and amortized cost equal the face value. Provisions deemed necessary for possible bad

debt losses are deducted. These provisions are determined by individual assessment of the receivables.

Provisions

A provision is formed due to liabilities of which it is more likely than not that they will occur and the extent can be reasonably estimated.

Deferred tax liabilities

The deferred taxes result out of the temporary differences between the fiscal and commercial value of assets and liabilities. The provision is calculated against a tax rate of 25,00%.

The provisions have a predominantly long-term character.

Current liabilities, accruals and deferred income

Upon initial recognition, the liabilities recorded are stated at fair value and then valued at amortized cost.

PRINCIPLES FOR THE DETERMINATION OF THE RESULT

General

Revenues from services are recognised in proportion to the services rendered. The cost price of these services is allocated to the same period.

The profit that can be allocated to the work in progress is determined on the basis of the part of the agreed upon fee for the contracted work that can be allocated, minus the costs that can be allocated to that part of the work in progress.

Determination of the result

The result is determined as the difference between net turnover and the costs of the reporting period regarding the previous mentioned principles of valuation. Benefits and charges are allocated to the year to which they relate. Profits are included only in so far as they have been realised on the balance sheet date. Losses which originate before the end of the year under report are taken into account if they became known before the preparation of the annual accounts.

Net turnover

Net turnover means the revenues of the services provided in the year under report, after deduction of discounts and of the taxes charged over the turnover.

Revenues from services are recognized in proportion to the services rendered, based on the cost incurred in respect of the services performed up to balance sheet date, in proportion to the estimatedcosts of the aggregate services to be performed. The cost price of these services is allocated to the same period.

Tax

The corporate income tax is calculated at the applicable rate over the result of the financial year, taking into account any permanent differences between profit calculation in accordance with the financial statements and the fiscal result calculation.

The other company forming part of the fiscal unity for corporate income tax is charged as if they were separately liable for tax.

RIGHTS AND LIABILITIES NOT INCLUDED IN THE BALANCE SHEET

Contingent liabilities

Group tax treatment

Dynacommerce B.V. is part of a fiscal unity. The head of this fiscal unity is Dynacommerce Holding B.V.

Multi -year financial obligations

Operational lease

The company has operational lease-contracts for cars at the end of 2020 with total monthly payments of about € 2.840. Duration of the contracts is variable.

Rights

Tax losses available for set-off

As at balance sheet date a loss for set-off remains. According to the ruling tax law, these losses can be set-off against possible future fiscal profits. Since it is not certain that the tax losses can be applied for set-off against possible future fiscal profits, this deferred tax asset is not recognised on the balance sheet.

Add : Cash and cash balances		1,976,224	5,457,069
Total loans and receivables		**20,498,620**	**21,607,736**

(a) Trade receivables are non-interest bearing and are generally on 30-90 day terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

(b) Other receivables represents corporation tax receivables, advances recoverable from employees, client reimbursements and tax deducted at source recoverable.

(ç) Included in other receivables represent amount deposited in escrow account in accordance with the terms of Share Purchase Agreement (the “SPA”) dated 25 November 2019 entered between the Company’s holding company, i.e. Tech Mahindra (Singapore) Pte Limited (‘the Buyers’) and erstwhile shareholders (‘the Sellers’).). As per SPA, the Company, holds an escrow account for (a) the Indemnity Escrow Amount US$ 1,000,000 plus (b) the Seller Representative Expense Escrow Amount US$ 100,000. The escrow account is maintained to indemnify the Buyers for losses arising except on account of fraud or a breach of the fundamental representations up to fifteen months from the date of closing, subject to the limitations set forth in SPA. At the end of the fifteen months, the outstanding balance in escrow account will be released to the Sellers in accordance with the terms of the escrow agreement. Accordingly, a corresponding liability of US$ 1,100,000 has been recognised under ‘Trade and other payables’ as at 31 March 2021 (note 10).

Notes to Financial Statements For the period 1st Jan 2020 to 31st March 2021

*Trade receivables denominated in foreign currencies at 31 March are as follows:

	31-Mar-2021	31-Dec-2019
	US$	US$
Great Britain Pounds	1,144,109	1,160,126
Euro	474,182	340,385
Singapore Dollars	1,037,136	539,718
Australian Dollars	35,149	107,324
Swiss Franc	135,215	190,827
Japanese yen	18,741	-
Canadian Dollars	42,897	-
Malaysia Ringgits	646,416	1,581,781
Total amount denominated in foreign currencies	**3,533,844**	**3,920,162**

Trade receivables are non-interest bearing and are generally on 30-90 day terms. They are recognised at their original invoice amounts which represent their fair values on initial recognition.

At the end of the year, the ageing analysis of trade receivables is as follows:	US$	US$
Neither past due nor impaired	8,905,279	6,578,092
Past due but not impaired		
Lesser than 30 days	1,897,904	3,560,717
30 - 60 days	735,160	494,127
61 - 90 days	40,803	236,548
91 - 120 days	36,216	62,211
More than 121 days	348,128	150,894
Total Trade receivables	**11,963,490**	**11,082,589**

Receivables that are impaired

The Group's trade receivables that are impaired at the end of the reporting period and the movement of the allowance accounts used to record the impairment are as follows:

	31-Mar-2021	31-Dec-2019
	US$	US$
Trade receivables - nominal amounts	12,015,081	11,321,903
Less: Allowance for impairment	(51,591)	(239,314)
	11,963,490	**11,082,589**

7 Prepayments

The prepaid expenses comprise of remaining prepaid balances of insurance premium of employees and annual maintenance contracts whose benefits are consumed beyond this financial year.

8 Cash and bank balances

	31-Mar-2021	31-Dec-2019
	US$	US$
Cash at bank and on hand*	1,976,224	5,457,069
	1,976,224	**5,457,069**

* The cash at bank and on hand are primarily current account balances and does not earn any interest.

Cash at bank and on hand denominated in foreign currencies at 31 March are as follows:	31-Mar-2021	31-Dec-2019
	US$	US$
Great Britain Pounds	498,408	299,687
Singapore Dollars	116,902	25,592
Australian Dollar	-	120,471
Malaysian Ringgit	428,286	384,854
Japanese yen	66,820	888,417
Canadian Dollars	23,680	2,266
Total amount denominated in foreign currencies	**1,134,096**	**1,721,286**

For the purpose of the cash flow statement, cash and cash equivalents comprise the following at the end of the reporting year:

	31-Mar-2021	31-Dec-2019
	US$	US$
Cash at bank and on hand	1976224	5,457,069
Working capital loans	(4,000,000)	(1,487,674)
Cash and cash equivalents	**(2,023,776)**	**3,969,395**

9(a) Share capital

	Number of shares	US$
Fully paid ordinary shares with no par value		
As at 26th Nov 2019	266,205	47,979,909
At 31 December 2019	266,205	47,979,909
At 31 March 2021	266,205	47,979,909

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All shares rank equally with regard to the Company's residual assets.

Capital management

Capital includes debt and equity items as disclosed in the table below.

The primary objective of the Company's capital management is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholder and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to monitor and adjust the capital structure, the Company may adjust the amount of dividends paid to shareholder or issue new shares. In the event that the Company requires additional capital, monies would be infused by the shareholders to provide appropriate financial support to the Company.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, borrowings, convertible redeemable preference shares, trade and other payables, less cash and short-term deposits. Capital represents equity attributable to the owners of the Company less the fair value adjustment reserve..

	Note	31-Mar-2021	31-Dec-2019
		US$	US$
Trade and other payables	12	24,593,983	25,469,679

Equity attributable to owners of the Company (B)		10,106,409	8,364,759
Capital and net debt (C) = (A) + (B)		32,724,168	28,377,370
Gearing ratio (A)/(C)		**69%**	**71%**

No changes were made in the objective, policies or processes during the year ended 31 March 2021.

Notes to Financial Statements For the period 1st Jan 2020 to 31st March 2021

9(b) Retained earnings

	31-Mar-2021	31-Dec-2019
	US$	US$
As at 1st Jan 2020/As at 26th Nov 2019	(38,166,174)	(38,183,573)
Profit for the year, representing total comprehensive income for the year	1576089	17,399
Others	71057	-
At 31st March 2021/As at 31st Dec 2019	**(36,519,028)**	**(38,166,174)**

9(c) Foreign currency translation reserve

	31-Mar-2021	31-Dec-2019
	US$	US$
As at 1st Jan 2020/As at 26th Nov 2019	(1,448,976)	(1,539,289)
Exchange differences on translation of foreign operations	165,561	(90,313)
At 31st March 2021/As at 31st Dec 2019	**(1,283,415)**	**(1,448,976)**

The foreign currency translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

10 Borrowings (current)

		Interest rate	Maturity	US$
2021				
Working capital loan*	(a)	1.4% p.a	On demand	4,000,000
				4,000,000

		Interest rate	Maturity	US$
2019				
Working capital loan*	(a)	Prime rate + 1.5%	On demand	1,487,674
				1,487,674

* The Working capital loans forms part of the cash and cash equivalents as disclosed in Note 12.

Note:

(a) Working capital bank loan from JP Morgan bank, with the credit limit of USD 5 million, of which $4,000,000 drawdown as on 31-Mar-2021. This is secured against the book debts.

(a) Working capital bank loan from Western alliance bank, an Arizona corporation with the credit limit of USD 3 million. This is secured against the book debts.

11 Trade and other payables

	Note	31-Mar-2021	31-Dec-2019
		US$	US$
Trade payables	(a)	3,506,752	3,540,812
Contract liabilities	13(b)	2,494,964	2,047,326
Advance from customers		526,817	368,535
Current financial liabilities			-
Statutory dues payable		971,315	1,847,382
Payable to employees		2,162,110	3,974,212
Other payables	(b)	1,504,532	
Due to other related parties	('c) & 18 (b)	9,427,493	11,103,738
Total trade and other payables		**20,593,983**	**22,882,005**
Borrowings	10	4,000,000	1,487,674
Other payable		-	1,100,000
Total financial liabilities carried at amortised cost		**24,593,983**	**25,469,679**

Terms and conditions of the above financial liabilities:

(a) Trade payables are non-interest bearing and are normally settled on 30-day terms on average.

(b) Other payables are non-interest bearing and have an average term of 45 days. For explanations on the credit risk management processes (Note 23).

(c) Amounts due to related parties are trade related, unsecured, non-interest bearing, repayable on demand and are to be settled in cash.

Trade payables denominated in foreign currencies as at 31 March are as follows:

	31-Mar-2021	31-Dec-2019
	US$	US$
Great Britain Pounds	1,085,005	599,373
Singapore Dollar	11,260	66,640
Hong Kong Dollar	19,444	-
Euro	23,238	2,952
Indian Rupee	3,494,942	-
Japanese Yen	326	5,049
Hungarian Forint	65,857	16,648
Canadian Dollars	276,577	-
Total amount denominated in foreign currencies	**4,976,649**	**690,661**

13 Revenue

a) Disaggregation of revenue

	1 January 2020 to 31 March 2021	26-Nov 2019 to 31-Dec-2019
Rendering of services	US$	US$
Time and material	54,044,068	3,718,371
Fixed price	40,026,714	2,347,267
	94,070,782	**6,065,638**

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies:

Time and material

Nature of goods or services	Time and material
When revenue is recognised	Revenue is recognised over the implementation services period.
Significant payment terms	Invoices are issued to the customers according to their respective billing plans and are normally payable within 30-60 days.

Fixed price

Nature of goods or services	**Fixed price**
When revenue is recognised	Revenue from fixed price development contracts is recognised as performance obligations are satisfied. Where performance obligations are satisfied over time as work progresses, revenue is recognised progressively based on the percentage of completion method. The stage of completion is determined as the proportion of the total time cost expected to install the software services that has elapsed at the end of the reporting period (input method). Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered.
Significant payment terms	Invoices are issued to the customers after the services are performed and are normally payable within 30-60 days.

Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by geographical markets and timing of revenue recognition:

Revenue by Geography	**1 January 2020 to 31 March 2021**	**26-Nov 2019 to 31-Dec-2019**
	US $	US $
United States of America	47,251,559	3,316,747
United Kingdom	9,303,968	718,582
Indonesia	809,896	176,702
Japan	4,003,141	132,648
Switzerland	11,256,142	661,352
Singapore	6,018,073	334,411
Malaysia	3,425,104	457,516
India	4,496,952	
Canada	2,008,539	
Egypt	1,970,725	
Other countries	3,526,683	267,679
Total	**94,070,782**	**6,065,637**

b) Contract assets and contract liabilities

Information about receivables, contract assets and contract liabilities from contracts with customers is disclosed as follows:

	Note	**1 January 2020 to 31 March 2021**	**26-Nov 2019 to 31-Dec-2019**
		US $	**US $**
Receivables from contract with customers	6	11,963,490	11,082,589
Contract assets	6	4,804,551	3,302,892
Contract liabilities	11	2,494,964	2,047,326

Contract assets primarily relate to the Group's right to consideration for work completed but not yet billed at reporting date.

Contract liabilities primarily relate to the Group's obligation to transfer goods or services to customers for which the Group has received advances from customers or for which the Group has billed in advance before performance as required under the contract.

Significant changes in the contract assets and the contract liabilities balances during the period are as follows.

	Contract assets		Contract liabilities	
	31-Mar-2021	**31-Dec-2019**	**31-Mar-2021**	**31-Dec-2019**
	US$	**US$**	**US$**	**US$**
Revenue recognised from prior year balance	–	–	2,047,326	–
Cash received in advance and not recognised as revenue	–	–	2,494,964	2,047,326
Changes in measurement of progress	4,804,551	3,302,892	–	–
Contract asset reclassified to trade receivables	3302892	–	–	–

Significant judgements are used to estimate these total contract costs to complete. In making these estimates, management has relied on the expertise of project teams to determine the progress of the fixed price contracts and on past experience of completed projects. The estimated total contract costs are reviewed every reporting period and adjusted where necessary, with the corresponding effect of change being recognised prospectively from the date of change.

Transaction price allocated to the remaining performance obligations

The following table includes revenue expected to be recognised in the future related to performance obligations that are unsatisfied (or partially satisfied) at the reporting date.

31-Mar-21	**2022**	**2023**	**2024**	**Total**
	US$	**US$**	**US$**	**US$**
Time and material	24,292,000	18,992,300	9,833,000	53,117,300
Fixed price	7,301,000	2,850,000	324,000	10,475,000

31-Dec-19	**2020**	**2021**	**2022**	**Total**
	US$	**US$**	**US$**	**US$**
Time and material	17,038,145	5,934,816	5,934,816	28,907,777
Fixed price	4,956,993	3,074,240	3,074,240	11,105,473

Variable consideration that is constrained and therefore not included in the transaction price is excluded in the amount presented above.

Terms and conditions of transactions with related parties

Outstanding balances at the year-end are unsecured, interest free, repayable on demand, and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the period/year ended 31 March 2021 and 31 December 2019, the Company has not recorded any impairment of receivables relating to amounts owed by related parties. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

18 Fair value of assets and liabilities

The carrying amounts of total loans and receivables, and total financial liabilities carried at amortised cost are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the end of the reporting period.

Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

Level 1 – Quoted prices (unadjusted) in active market for identical assets or liabilities that the Group can access at the measurement date,

Level 2 – Inputs other that quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and

Level 3 – Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

19 Financial risk management objectives and policies

The Company's principal financial liabilities are comprised of convertible redeemable preference shares and trade and other payables. The main purpose of these financial liabilities is to finance and support the Company's operations. The Company has trade receivables, other receivables and cash balances that arise directly from its operations.

Financial risk factors

The Company's activities expose it to a variety of financial risks, market risk, credit risk and liquidity risk. The Company's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company currently does not hedge or use derivative financial instruments to mitigate foreign exchange related risk exposures. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers. The demographics of the customer including the default risk of the industry and country in which the customer operates also has an influence on credit risk assessment.

Market risk

Market risk is the risk that the fair value of future cash flows if a financial instrument will fluctuate because of changes in market prices. The principal market risk impacting the Company is currency risk. Financial instruments affected by market risk include deposits, accounts receivable, and accounts payable.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily for trade receivables). Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company has determined the default event on a financial asset to be when the counterparty fails to make contractual payments, within 60 days when they fall due, which are derived based on the Company's historical information.

To assess whether there is a significant increase in credit risk, the company compares the risk of a default occurring on the asset as at reporting date with the risk of default as at the date of initial recognition. The Company considers available reasonable and supportive forwarding-looking information which includes the following indicators:

- Actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the debtors ability to meet its obligations
- Significant changes in the expected performance and behaviour of the debtors, including changes in the payment status of debtors in the group and changes in the operating results of the debtors.

Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making contractual payment.

The Group determined that its financial assets are credit-impaired when:

- There is significant difficulty of the issuer or the debtors
- A breach of contract, such as a default or past due event
- It is becoming probable that the debtors will enter bankruptcy or other financial reorganisation

The Company categorises a loan or receivable for potential write-off when a debtor fails to make contractual payments more than 180 days past due. Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans and receivables have been written off, the company continues to engage enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The following are credit risk management practices and quantitative and qualitative information about amounts arising from expected credit losses for each class of financial assets:

Notes to Financial Statements For the period 1st Jan 2020 to 31st March 2021

(i) Non-trade Financial assets at amortised cost

The Company uses three categories of internal credit risk ratings for debt instruments and loans which reflect their credit risk and how the loss provision is determined for each of those categories. These internal credit risk ratings are determined through incorporating both qualitative and quantitative information specific to the counterparty and other external information that could affect the counterparty's behaviour.

The Company compute expected credit loss for this group of financial assets using the probability of default approach. In calculating the expected credit loss rates, the Company considers implied probability of default from external rating agencies where available and historical loss rates for each category of counterparty, and adjust for forward looking information such as forecast of economic condition, which has a bearing on default rates.

A summary of the Company's internal grading category in the computation of the Company's expected credit loss model for the debt instruments and loans is as follows:

Category	Definition of Category	Basis for recognition of expected credit loss provision
Grade I	Customers have a low risk of default and a strong capacity to meet contractual cash flows.	12 month expected credit losses
Grade II	Financial assets for which there is a significant increase in credit risk; as significant increase in credit risk is presumed if interest and/or principal repayments are 30 days past due.	Lifetime expected credit losses
Grade III	Interest and/or principal repayments are 60 days past due.	Lifetime expected credit losses

There are no significant changes to estimation techniques or assumptions made during the year. No loss allowance provision for other non-trade financial assets has been provided as management has assessed the impact to be not significant

The gross carrying amount of other non-trade financial asset at amortised cost without taking into account of any collaterals held or other credit enhancements which represents the maximum exposure to loss, is as follows:

Particulars		31-Mar-2021	31-Dec-2019
12 month ECL	Non-trade financial asset at amortised cost	1,519,078	665,186

The gross carrying amount of trade receivables and contract assets of the Group are disclosed in Note 6.

(ii) Trade receivables and contract assets:

The Company provides for lifetime expected credit losses for all trade receivables, and contract assets using a provision matrix. The provision rates are determined based on the Company's historical observed default rates analysed in accordance to days past due. The loss allowance provision as at 31 March 2021 and 31 December 2019 is determined as follows, the expected credit losses below also incorporate forward looking information such as forecast of economic conditions where the gross domestic product will deteriorate over the next year, leading to an increased number of defaults.

Summarised below is the information about the credit risk exposure on the Group's trade receivables and contract assets using provision matrix, grouped by geographical region:

Group

	Contract assets	Not due	0-90 days past due	91-180 days past due	Total
31 March 2021					
Gross carrying amount	4804551	8905279	2673867	435935	16,819,632
Loss allowance provision				-51591	(51,591)
31 December 2019					
Gross carrying amount	3,302,892	6,578,092	4,291,392	452,419	14,624,795
Loss allowance provision	(183,139.00)	-	-	(239,314)	(422,453)

Information regarding loss allowance movement of trade receivables and contract assets are disclosed in Note 6.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

Particulars	Neither past due nor impaired	Past due but not impaired	Total
As at 31-Mar-2021	US$	US$	US$
Trade receivables	8,905,279	3,058,211	11,963,490

INDEPENDENT AUDITORS' REPORT

To the Members of Born Commerce Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Born Commerce Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Board's report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
    c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.
    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B"

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would impact its financial position.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, no remuneration has been paid by the Company to its directors during the current year. Accordingly, the reporting under the provisions of Section 197 of the Act is not applicable. The Ministry of Corporate Affairs has not prescribed other details under Section 197 (16) which are required to be commented upon by us.

Annexure A to the Independent Auditors' report on the financial statements of Born Commerce Private Limited for the period ended 31 March 2021

With reference to the Annexure A referred to in paragraph 1 in Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March 2021, we report that:

(i) (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

(b) The Company has a regular program of physical verification of its fixed assets, by which all its property, plant equipment is verified once in 3 years. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and its nature of assets. In accordance with this program, all property, plant and equipment were physically verified by the management during the year ended 31 March 2019 and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the company, the Company does not own any immovable property. Accordingly, paragraph 3(i)(c) of the Order is not applicable.

(ii) The Company is a service company, primarily rendering information technology enabled services and does not hold any physical inventories. Thus, paragraph 3(ii) of the Order is not applicable to the Company.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3 (iii) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Act in respect of loans, guarantees, investments and securities, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted deposits in accordance with the provisions of section 73 to 76 or any other relevant provisions of the Act and the rules made thereunder. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable to the Company.

(vii) According to the information and explanation given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of accounts in respect of undisputed statutory dues including Provident fund, Employees State Insurance, Income Tax, Goods and Services Tax, Duty of Customs and other material statutory dues have generally been regularly deposited during the year by the Company with appropriate authorities. As explained to us, during the current year, the Company did not have any dues on account of cess.

According to the information and explanation given to us, no undisputed amounts payable in respect of Provident Fund, Employee's State Insurance, Income tax ,Goods and Service Tax, Duty of Customs and other statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable.

(viii) In our opinion and according to the information and explanation given to us, the Company has not defaulted in repayment of loans and borrowings to its banks. The Company did not have any outstanding loans or borrowings to any financial institutions, bank, government, or debenture holders during the year.

(ix) According to the information and explanation given to us, the Company has not raised money by way of initial public offer or further public offer (including debt instruments) or term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable to the Company.

(x) According to the information and explanation given to us, no fraud by the Company or no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) According to the information and explanation given to us and based on our examination of books and records of the Company, no managerial remuneration has been paid during the year the provisions of Section 197 of the Act read with Schedule V of the Act.

(xii) According to the information and explanation given to us, the Company is not a Nidhi company. Accordingly, paragraph 3 (xii) of the Order is not applicable to the Company.

(xiii) According to the information and explanation given to us and based on our examination of the records of the Company, all transactions with related parties are in accordance with the provisions of Section 177 and 188 of the Act, where applicable. The details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) According to information and explanation given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3 (xiv) of the Order is not applicable to the Company.

(xv) According to information and explanation given to us and based on our examination of the records of the Company, the Company has not entered non-cash transactions with directors or persons connected with them during the year. Accordingly, paragraph 3 (xv) of the Order is not applicable to the Company.

(xvi) According to information and explanation given to us, the Company is not required to register under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditors' report on the financial statements of Born Commerce Private Limited for the year ended 31 March 2021

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Opinion

We have audited the internal financial controls with reference to financial statements of Born Commerce Private Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS

(All amounts are in Rs. in Lacs, unless otherwise stated)

1 Company overview

Born Commerce Private Limited ('the Company') was incorporated on January 21, 2011, having its registered office at 2nd Floor, Hardy Tower, Ramanujan IT SEZ TRIL Infopark Ltd, Chennai. During the previous financial year, the Company was acquired by Tech Mahindra Limited. The Company is engaged in providing offshore production services (i.e) pre-media, digital media and e-commerce services to its group companies located outside India and sale to other external customers.

The Company would meet the defination of a Public Limited Company with effect from November 25, 2019 consequent to the acquisition by Tech Mahindra Limited.The Company is now a 100% subsidiary of Tech Mahindra Limited. Also refer note 34 on scheme of merger.

2 Significant accounting policies

2.1 Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 3 the Companies (Indian Accounting Standards) Rules, 2015 and the Companies (Indian Accounting Standards) Amendment Rules, 2016, and other relevant provisions of the Companies Act, 2013.

2.2 Basis for preparation of financial statements

The financial statements are prepared under the historical cost convention, on the accrual basis of accounting, except for certain financial instruments which are measured at fair values. The financial statements are presented in Indian rupees (Rs.) which is also the functional currency of the Company. The financial statements are presented in Indian rupees rounded off to the nearest lacs.

All assets and liabilities have been classified as current and non-current as per the criteria set out in Schedule III to the Act.

Details of the Company's accounting policies are included in paragraphs 2.4 to 2.14.

These financial statements were authorised and issued on 24 June 2021

2.3 Use of estimates and judgements

The preparation of financial statements in conformity with Ind AS in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amount of income and expenses during the period reported. Although these estimates are based upon management's best knowledge of current events and actions; actual results could differ from these estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to the accounting estimates are recognised prospectively in current and future periods.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are in respect of income taxes, provisions, defined benefit plan and compensated abscences, leases, revenue recognition, estimation uncertainties relating to the Covid-19 pandemic, these are discussed below.

i) Income Taxes

Significant judgements are involved in determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions. The policy for the same has been explained under Note 2.10.

ii) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.9

iii) Defined benefit plan and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.8

iv) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment, including assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease.

The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics. Refer note 2.11 for detailed accounting policies on leases

v) Revenue recognition

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or existence of enforceable right to payment for performance to date. The policy has been explained under Note 2.6.

vi) Estimation uncertainties relating to the Covid-19 pandemic

The Company has considered the possible effects that may result from Covid-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

2.4 Property, plant and equipment and Intangible assets

Property, plant and equipment and Intangible assets are stated at cost, less accumulated depreciation/amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

Intangible assets comprise of Computer software. Costs relating to Computer software, which are acquired, are capitalised and amortised on a straight-line basis over their useful lives.

Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Depreciation and amortisation is provided using the straight-line method using the rates arrived at, based on the useful lives estimated by the management, based on a technical assessment. The company has continued to retain the existing useful life, which are, in all cases either lower or equal to the useful lives as prescribed under part C of Schedule II of the Companies Act, 2013 and the company has maintained adequate technical assessment to justify the same.

Assets costing less than Rs. 5,000 each are depreciated fully in the year of acquisition.

The estimated useful lives of the assets are as under:

Asset	Life
Leasehold improvements	Estimated useful life (5 years) or lease term, whichever is lower
Computer & Accessories	
(i) Servers and networks	6 years
(ii) End user devices, such as, desktops, laptops, etc	3 years
Furniture and fixtures*	5 years
Office Equipment	5 years

*For the class of assets mentioned above, based on internal technical assessment the management believes that the useful lives as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

An item of property, plant & equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant & equipment and intangible asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

2.5 Impairment

Financial assets:

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the Company operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Non financial assets:

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the statement of profit and loss.

2.6 Revenue recognition

Revenue is recognised or performance obligation is satisfied upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services. Revenue from operations includes revenue earned from services rendered on cost plus basis, time and material basis, fixed price maintenance costs and fixed price development contracts.

Revenue from services rendered under the time & material contracts are recognised on output basis measured by efforts expended.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered.

Revenue on fixed price development contracts is recognised using the 'percentage of completion' method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability ("Unearned revenue") arises when there are billing in excess of revenue.

Dividend income is recorded when the right to receive payment is established.

Interest income is recognised using the effective interest method.

2.7 Foreign currency transactions

i. Initial recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversion

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction and non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when the values were determined.

iii. Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting the Company's monetary items at rates different from those at which they were initially recorded during the year are recognised as income or as expense in the year in which they arise.

2.8 Retirement and other employee benefits

i. Defined contribution plans

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

ii. Defined benefit plans

For defined benefit plans in the form of gratuity, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to the statement of profit and loss. Past service cost is recognised in the statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset."

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

iii. Compensated absences

Compensated absences other than short term in nature are provided for on the basis of an actuarial valuation made at the end of the financial year. The actuarial method used by the independent actuary for measuring the liability is the Projected Unit Credit Method.

Short term compensated absences are recognised at the undiscounted amount expected to be paid in exchange for the service rendered.

iv. Short term employee benefits

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

2.9 Provisions and contingencies

A provision is recognised when the Company has a present obligation resulting from past events and it is probable that an outflow of resources will be required to settle the obligation for which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate of the expenditure required to settle the obligation at the balance sheet date. Provisions are reviewed at each balance sheet date and adjusted to reflect current best estimates.

A disclosure for a contingent liability is made when there is a possible or a present obligation, resulting from past events and it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate cannot be made. Contingent assets are not recognised in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an economic benefit will arise, the asset and the related income are recognised in the period in which the change occurs.

2.10 Income taxes

Income tax comprises of current and deferred tax. Income tax expense is recognised in the statement of profit and loss except for the items directly recognised in equity or in other comprehensive income.

Current tax

The current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of Income-tax Act, 1961 ('Income-tax act') and any adjustment to taxes in respect of previous years.

Deferred tax

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant Company intends to settle its current tax assets and liabilities on a net basis.

2.11 Leases

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company recognises right of use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right of use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right of use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right of use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right of use asset. The estimated useful lives of right of use assets are determined on the same basis as those of property, plant and equipment. Right of use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right of use asset. Where the carrying amount of the right of use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.12 Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Non derivative financial instruments

Cash and Cash Equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income (‘FVOCI’)

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit and loss (‘FVTPL’)

Financial assets are measured at fair value through profit and loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.

Financial liabilities

Financial liabilities are measured at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amount approximate fair value to short-term maturity of these instruments.

De-recognition of financial instruments

The Company de-recognises a financial asset when the contractual rights to the cash flows from the financial assets expire or it transfers the financial assets and such transfer qualifies for de-recognition under Ind AS 109. A financial liability (or a part of financial liability) is de-recognised from the Company’s balance sheet when obligation specified in the contract is discharged or cancelled or expired.

Fair value of financial instruments

In determining the fair value of its financial instrument, the Company uses the methods and assumptions based on market conditions and risk existing at each reporting date. Methods of assessing fair value result in general approximation of value, and such value may never actually be realised. For all other financial instruments, the carrying amounts approximate the fair value due to short maturity of those instruments.

Basic earnings per share (EPS) is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares considered for computing Basic earnings per share and the weighted average number of equity shares which may be issued on conversion of dilutive potential equity shares into equity shares.

2.13 Recent pronouncements

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to:

a) Change in existing presentation requirements for certain items in the Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long-term borrowings, effect of prior period errors on Equity Share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The Company is currently evaluating the impact of these amendments.

b. Reconciliation for number of shares outstanding at the beginning and at the end of the reporting year is as given below:

Particulars	As at March 31, 2021	As at March 31, 2020
Number of shares outstanding at the beginning and at the end of the year	6,425,285	6,425,285

c. Rights, preferences and restrictions attached to shares

The Company has only one class of equity shares having par value of Rs. 10 each. Each holder of equity shares is entitled to one vote per share.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

d. Shares held by holding company and subsidiaries of holding company or ultimate holding company and its associates along with percentage of shareholding is as given below:

	As at March 31, 2021		
	No. of shares	**% held**	**% held**
Tech Mahindra Limited, the holding company	6,425,284	99.99%	99.99%
6,425,284 equity shares of Rs.10/- each			
Tech Mahindra Limited jointly with Manoj Bhat	1	0.00%	0.00%

e During the period of five years immediately preceding the balance sheet date, no equity shares were allotted as fully paid-up pursuant to contract without payment being received in cash.

f. During the financial year ended 2019-20, the Company was acquired by Tech Mahindra Limited through a Share Purchase Agreement (the "SPA") dated 25 November 2019. In accordance with this SPA, 100% of equity share capital was acquired by Tech Mahindra Limited.

13 Other Equity

Particulars	As at March 31, 2021	As at March 31, 2020
Retained earnings		
Balance at the beginning of the year	7,143	5,075
Profit for the year	2,352	2,065
Other comprehensive Income (net of tax)	(69)	3
Balance at the end of the year	**9,426**	**7,143**

14 Provisions - Non Current

	As at March 31, 2021	As at March 31, 2020
Provision for employee benefits		
Provision for gratuity	514	307
Provision for compensated absences	270	137
	784	**444**

15 Short-term borrowings (Secured)

	As at March 31, 2021	As at March 31, 2020
Working capital loan from bank*	-	338
	-	**338**

* During the current year the Company has closed the cash credit facility and obtained a NOC from the bank on Jan 6, 2021. It was secured against book debts and letter of awarness from the holding company. The borrowing carried an interest rate of 11% p.a and was repayable on demand.

16 Trade payables

Particulars	As at March 31, 2021	As at March 31, 2020
Trade payables		
- dues of micro enterprise and small enterprises	101	140
- dues of creditors other than micro enterprise and small enterprises	447	408
	548	**548**

17 Other Financial Liabilities - Current

	As at March 31, 2021	As at March 31, 2020
Dues to employees	1,027	669
	1,027	**669**

18 Provisions Current

	As at March 31, 2021	As at March 31, 2020
Provision for employee benefits		
- Gratuity	82	64
- Compensated absences	113	61
	195	**125**

19 Other Current Liabilities

	As at March 31, 2021	As at March 31, 2020
Deferred revenue	69	272
Statutory dues payable	314	194
	383	**466**

20 Revenue from operations

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Revenue from digital media and ecommerce services	19,759	16,634
	19,759	**16,634**

a. Disaggregation of revenue

Revenue disaggregation by geography is as follows:

Geography	Year ended March 31, 2021	Year ended March 31, 2020
India	978	824
Rest of the World	18,781	15,810
Total	**19,759**	**16,634**

Geographical revenue is allocated based on the location of the customer

Nature of relationship	Year ended March 31, 2021	Year ended March 31, 2020
Revenue from related parties	14,505	14,801
Revenue from third parties	5,254	1,833
Total	**19,759**	**16,634**

During the year ended Match 31, 2021, the following customers individually accounted for more than 10% of the revenue.

Born Group Inc

Born London Limited

Born Group Pte Limited

The Company has evaluated the impact of the COVID-19 pandemic, amongst other matters, resulting from (i) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts, (ii) termination or deferment of contracts by customers and (iii) customer disputes. The Company has concluded that the impact of the COVID-19 pandemic is not material based on these estimates.

b Remaining performance obligations

The remaining performance obligations disclosure provides the aggregate amount of the transaction price yet to be recognised as of the end of the reporting period and an explanation as to when the Company expects to recognise these amounts in revenue. Applying the practical expedient as given in Ind AS 115, the Company has not disclosed the remaining performance obligation for contracts where the entity has a right to consideration from a customer in an amount that corresponds directly with the value to the customer of the entity's performance completed to date, typically those contracts where invoicing is on time and material basis. Remaining performance obligation estimates are subject to change and are affected by several factors, including terminations, changes in scope of contracts, periodic revalidations, adjustments for revenue that has not materialized and adjustments for currency.

The aggregate value of performance obligations that are completely or partially unsatisfied as of March 31, 2021 other than those meeting the exclusion criteria mentioned above, is Rs. 4,407 . Out of this, the Company expects to recognise revenue of around 94% within the next one year and the remaining thereafter. This includes contracts that can be terminated for convenience without a substantive penalty since, based on current assessments the occurrence of the same is expected to be remote.

c. Contract assets and Liabilities

Changes in the contract assets balances during the year ended March 31, 2021 are as follows:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Contract Assets:		
Opening balance	37	50
Add: Revenue recognised during the year	1,651	294
Less : Invoiced during the year	(1,172)	(307)
Closing balance	**516**	**37**

Changes in the unearned revenue balances during the year ended March 31,2021 are as follows:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Unearned Revenue		
Opening balance	272	-
Less: Revenue recognised that was included in the unearned revenue at the beginning of the year		-
Add: Invoiced during the year (excluding revenue recognized during the year)	(202)	272
Closing balance	**70**	**272**

d. Contract Price

Reconciliation of revenue recognised in the statement of profit and loss with the contracted price:

The Company has recognized revenue of Rs. 19,759 which is not adjusted any discounts for the year ended March 31, 2021.

21 Other income

	124	**229**

25 Earnings per share:

Particulars	Year ended March 31, 2021	Year ended March 31, 2020
Profit after taxation	2,352	2,065
Weighted average Equity Shares outstanding as at the end of the year (in nos.)	6,425,285	6,425,285
Number of Equity Shares used as denominator for calculating Diluted Earnings Per Share	6,425,285	6,425,285
Nominal Value per Equity Share (in Rs.)	10	10
Earnings Per Share (Basic) (in Rs.)	36.61	32.14
Earnings Per Share (Diluted) (in Rs.)	36.61	32.14

26 Fair value measurement

The significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset and financial liability are disclosed in Note 2.12 to the financial statements.

I Financial instruments by category

The carrying value and fair value of financial instruments by categories as of March 31, 2021 were as follows:

Particulars	Amortised cost	FVTPL	FVOCI	Total carrying amount	Total fair value
Financial assets					
Trade receivables	6,875	-	-	6,875	6,875
Cash and cash equivalents	2,976	-	-	2,976	2,976
Others financial assets	1,729	-	-	1,729	1,729
Total	**11,580**	**-**	**-**	**11,580**	**11,580**
Financial liabilities					
Borrowings	-	-	-	-	-
Lease Liabilities	2,512	-	-	2,512	2,512
Trade payables	548	-	-	548	548
Other financial liabilities	1,027	-	-	1,027	1,027
Total	**4,087**	**-**	**-**	**4,087**	**4,087**

The carrying value and fair value of financial instruments by categories as of March 31, 2020 were as follows:

Particulars	Amortised cost	FVTPL	FVOCI	Total carrying amount	Total fair value
Financial assets					
Trade receivables	9,095	-	-	9,095	9,095
Cash and cash equivalents	78	-	-	78	78
Others financial assets	457	-	-	457	457
Total	**9,630**	**-**	**-**	**9,630**	**9,630**
Financial liabilities					
Borrowings	338	-	-	338	338
Lease Liabilities	3,195	-	-	3,195	3,195
Trade payables	548	-	-	548	548
Other financial liabilities	669	-	-	669	669
Total	**4,750**	**-**	**-**	**4,750**	**4,750**

Valuation technique:

Carrying amounts of trade receivables, cash and cash equivalents, loans, other financial assets, short-term bank borrowings, trade payables and other financial liabilities as at March 31, 2021 & March 31, 2020 approximates the fair value because of their short term nature.

II Financial instrument by hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

There are no financial instruments measured at FVTPL or FVOCI as on March 31, 2021 & March 31, 2020

III Financial Risk Management

The Company's activities expose it to the following risks arising from financial instruments:

a) Market risk

b) Credit risk

c) Liquidity risk

a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the fair value of financial instrument may result from changes in the foreign currency rate, interest rate and other market changes. The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

Foreign currency exchange rate risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company primarily is an export oriented unit and earns its revenue in foreign currency. Consequently, the Company is exposed to foreign exchange risk on its trade receivables and purchases from overseas suppliers in foreign currencies.

The following analysis has been worked out based on the net exposures of the Company as of the date of the balance sheet which could affect the statement of profit and loss.

The following table sets forth information relating to foreign currency exposure as at March 31, 2021:

Particulars	EUR	USD	Total
Financial assets			
Trade receivables	692	5,962	6,654

1% appreciation/depreciation of respective foreign currency with respect to functional currency of the Company would result in increase/decrease in Company's profit by Rs 67

The following table sets forth information relating to foreign currency exposure as at March 31, 2020:

Particulars	EUR	USD	Total
Financial assets			
Trade receivables	262	8,756	9,018

1% appreciation/depreciation of respective foreign currency with respect to functional currency of the Company would result in increase/decrease in Company's profit by Rs 91.

b) Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instruments or customer contract leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and unbilled revenue) and from its financing activities including cash and cash equivalents.

Trade receivables and unbilled revenue:

The credit risk is limited since primarily trade receivables and unbilled revenue pertain to revenue generated through related party transactions. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. . The maximum exposure to credit risk was Rs.11,580 & Rs. 9,630 as at March 31, 2021 & March 31, 2020 respectively, being the total of the carrying amount of trade receivables, cash and cash equivalents and other financial assets.

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each balance sheet date whether a financial asset is impaired. The Company recognises lifetime expected losses for trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. As on March 31, 2021, expected credit loss allowance is Rs. Nil. (March 31, 2020 : Rs. Nil)

Cash and cash equivalents:

Credit risk on cash and cash equivalents is limited as it is generally invested in deposits with banks and financial institutions in India with high credit ratings assigned by international and domestic credit rating agencies.

c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated through operations. The Company believes that its working capital is sufficient to meet its contractual outflows.

The following are the remaining contractual maturities of financial liabilities as at March 31, 2021:

Particulars	**Contractual cash flows**			
	< 1 year	**1-5 years**	**>5 Years**	**Total**
Trade payables	548	-	-	548
Borrowings	-	-	-	-
Lease Liabilities	637	1,875	-	2,512
Other financial liabilities	1,027	-	-	1,027

The following are the remaining contractual maturities of financial liabilities as at March 31, 2020:

Particulars	**Contractual cash flows**			
	< 1 year	**1-5 years**	**>5 Years**	**Total**
Trade payables	548	-	-	548
Borrowings	338	-	-	338
Lease Liabilities	771	2,705	203	3,679
Other financial liabilities	669	-	-	669

Capital management

The Company's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and maintain an optimal capital structure to reduce the cost of capital.

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholders value.

27 Leases

As a Lessee:

The total cash outflow for leases is Rs. 792 for the year ended March 31, 2021 and Rs. 730 for the year ended March 31,2020, including cash outflow for short term and low value leases.

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2021 on an undiscounted basis:

Particulars	**Not later than 1 year**	**Later than 1 year not later than 5 years**	**Later than 5 years**
Minimum Lease rentals payables	873	2,287	-

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2020 on an undiscounted basis:

Particulars	**Not later than 1 year**	**Later than 1 year not later than 5 years**	**Later than 5 years**
Minimum Lease rentals payables	771	2,705	203

28 Disclosure on cash and non-cash changes for liabilities arising from financing activities:

(Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended March 31, 2021:

Particulars	Opening balance	Cash flow	Non cash charges (Finance charges)	Closing balance

Particulars	As at March 31, 2021		As at March 31, 2020	
	Principal	Interest	Principal	Interest
Amount due to Vendor	101	-	140	-
Principle amounts paid (includes unpaid) beyond appointed date	1,041	-	972	-
Interest due and payable for the year	-	5	-	10
Interest accrued and remaining unpaid	-	16	-	11

Further interest due and payable even in the succeeding years, until such date when the interest dues

30 Segment reporting

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas and major customers.

Based on the 'management approach' as defined in Ind AS 108, the management evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments. Accordingly, information has been presented on business segments and geographic segments.

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker monitors the operating results of the Company's business as single segment.

Business segment:

The Company is engaged in the business of providing services connected to digital media and e-commerce. As the Company is engaged in only one business segment, the balance sheet as at March 31, 2021 and statement of profit and loss for the year ended then pertain to only one business segment.

Geographical segment:

Refer Note 20 for disaggregation of revenue based on geographies.

31 Related party disclosures

As required by Ind AS 24 - Related Party Disclosures, following are details of transactions during the year ended March 31, 2021 and outstanding balances as of that date with the related parties of the Company as defined in Ind AS 24.

a. Names of related parties and related party relationship

Related parties where control exists	
Ultimate Holding Company	Tech Mahindra Limited
Related parties with whom transactions have taken place	
Fellow subsidiaries	Born London Limited
	Born Group Inc., USA
	Born Japan Kabhushiki kaisha, Japan
	Born Group Pte limited, Singapore
	Born Digital SDN BHD, Malaysia

b. Related party transactions

Name of entity	Country of incorporation	Year	Sale / (Purchase) of services	Trade receivables / (payables)
Born Group Inc.	United States of America	March 31, 2021	4,717	1,691
		March 31, 2020	5,429	2,740
Born London Limited	United Kingdom	March 31, 2021	3,600	2,426
		March 31, 2020	3,827	3,180
Born Group Pte Limited	Singapore	March 31, 2021	4,377	1,673
		March 31, 2020	4,022	2,248

		March 31, 2020	1,436	488
Tech Mahindra Limited	India	March 31, 2021	255	48
		March 31, 2020	-	-

Remuneration to key managerial personnel

Name of key managerial personnel	As at March 31, 2021	As at March 31, 2020
Salary, bonus, contribution to provident fund and Reimbursement of expenses		
Prakash Gurumoorthy	-	599

Note : Mr. Prakash Gurumoorthy is not a director of the Company post its acquistion by Tech Mahindra Limited and neither does he hold a position which gives him the authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly as per Ind AS-24. Hence he is not included as a Key managerial person of the Company.

32 Employee benefit plans

a. Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund, which is a defined contribution plan. The company has no obligations other than to make specified contributions. These contributions are charged to the statement of profit and loss as they accrue. The amount recognised as an expense towards contribution to Provident Fund for the year aggregated to Rs. 583 (March 31, 2020: Rs. 458)..

b. Defined benefit plans:

The following table provides the disclosures in accordance with Ind AS 19 - Employee Benefits:

Particulars	As at March 31, 2021	As at March 31, 2020
Present value of defined benefit obligation	595	371
Fair value of plan assets	-	-
Liability recognised in balance sheet	**595**	**371**
Change in defined benefit obligation		
As at beginning of the year	371	282
Current service cost	123	100
Interest cost	19	18
Past service cost	-	-
Actuarial gains	98	(5)
Benefit payments	(16)	(24)
Balance as at end of the year	**595**	**371**

Particulars	As at March 31, 2021	As at March 31, 2020

Current service cost	123	100
Interest cost	19	18
Past service cost	-	-
Net gratuity cost included in employee benefit expense	**142**	**118**

Particulars	As at March 31, 2021	As at March 31, 2020
Other comprehensive income		
Opening amount recognised in OCI outside Profit & Loss Account	13	18
Actuarial gains		
- change in demographic assumptions	2	(28)
- change in financial assumptions	20	(6)
- experience variance (i.e. Actual experience vs assumptions)	76	29
Return on plan assets, excluding amount recognised in net interest expense		
Components of defined benefit costs recognised in other comprehensive income	**111**	**13**

Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

	As at March 31, 2021	As at March 31, 2020
Defined benefit obligation (Base)	595	371

Particulars	As at March 31, 2021		As at March 31, 2020	
	Increase	Decrease	Increase	Decrease
Discount rate (- / + 1%)	2.72	2.59	2.39	2.29
(% change compared to base due to sensitivity)				
Salary growth rate (- / + 1%)	2.61	2.53	2.34	2.27
(% change compared to base due to sensitivity)				

Projected benefits payable in future years from the date of reporting (valued on undiscounted basis):

1 year	81
2 to 5 years	341
6 to 10 years	209
More than 10 years	202

Principal assumptions	As at March 31, 2021	As at March 31, 2020
Discount rate	5.60%	5.65%
Salary escalation rate	7.25%	7.25%
Employee turnover	21.00%	24.00%
Mortality table	Indian Assured Lives Mortality (2012-14) Ult table	

33 The disclosures regarding details of specified bank notes held and transacted during 8 November 2016 to 30 December 2016 has not been made in these financial statements since the requirement does not pertain to the financial year ended 31 March 2021.

34 Proposed Scheme of Merger by Absorption

On January 29, 2021, the Board of Directors of the Company passed a resolution to consider and approve the Scheme of Merger by Absorption of the Company and Tech Mahindra Business Services Limited (Fellow Subsidiary) with its Holding Company i.e. Tech Mahindra Limited and their respective shareholders under the provisions of section 230 to 232 of the Companies Act, 2013. Accordingly, the Company has filed the application before Hon'ble National Company Law Tribunal (“”NCLT””), Chennai Bench. The appointed date under the proposed scheme is April 1, 2021. However, as the Hon'ble National Company Law Tribunal, Chennai Bench (‘NCLT’) is yet to approve the same, the Scheme is not yet effective.

Once this Scheme comes into effect, the Company will stand dissolved without winding-up. The entire business and whole of the Undertaking of the Company shall be and stand vested in or be deemed to have been vested in the Holding Company, as a going concern

BRIEF DESCRIPTION OF THE COMPANY'S WORKING DURING THE YEAR/STATE OF COMPANY'S AFFAIRS

Total Income for the year 2020-21 is Rs. 6,815 Mn as against Rs. 6,670 Mn in previous year.

In the concluded Financial Year, despite the challenging pandemic environment the company is able to achieve growth in revenue performance with growth in Digital Financial Services, Digital Business Support Solution and Consumer Value Management businesses. Although there are some region specific challenges faced in the order book compared to previous year especially in LatAm, Europe and SEA regions. We expect the order book to bounce back next year with increased traction and orders from the customers in the Company's products and solutions businesses in the Consumer

Value Management, Digital Financial Services and Digital Business Support Solution space and the Company expects that these will continue to exhibit high growth in the coming years.

Order book of our traditional products like MobiLytix, Mobiquity Pay® and DBSS continues to be strong. We have seen significant traction in the market for our MobiLytix product with several new customers. The Company's strategy of focusing on key accounts for cross-sell / up-sell of new products continues to produce good results. The company continues to invest in newer products such as FactoReal, YABX and a new NPI from FY22 onwards which are expected to contribute to revenue growth in coming years.

For the next Financial Year, the economic situation across the globe is expected to improve moderately as the countries expand their vaccination drives, the company is expected to grow from current levels on account of higher order book achievement, continued focus on the developing markets and in leveraging its existing customer relationships and also from the continued push for diversification into non-telco markets such as BFSI & retail industry through extension of its existing product portfolio as well as new products and services which is yielding good results.

Along with the continued investment in its existing product portfolio, the Company is also looking to grow inorganically in the coming years through some strategic acquisitions.

The Company continued to win prestigious awards and mentions over the last year. These include the Global Telecoms Award 2020 in the "Mobile Money Mastery" category for mobiquity Money - COVID-19 Response Solution, the World Communication Award 2020 for AsiaHawala powered by mobqiuity Money, the Telecoms World Middle East Award for the mobiquity® Money – COVID-19 Response Solution offering and the PayTech Awards 2020 in the 'Best Card Initiative' category. Other noteworthy awards include the 2020 CX Asia Excellence Award, the New Age Banking Awards 2020 and the Aegis Graham Bell Awards 2020, at all.

The Company has been regularly participating in international events to take its visibility outside India to greater heights and has been able to achieve significant recognition internationally and nationally.

Complete Annual Report and Annual Return of the company can be viewed / accessed at company's website at https://www.comviva.com

CHANGE IN THE NATURE OF BUSINESS, IF ANY:

There is no change in the nature of the business of the Company during the Financial Year 2020-21.

DIVIDEND

The Directors believe that there are tremendous growth opportunities for the Company and therefore the Company must invest in further expanding and strengthening its business operations. SECRETARIAL AUDIT REPORT

[Pursuant to Sect:lon 204 1 o the Coanies Act 2013 and Rule 9 the Companies
(Appointment and Remuneration of Managerial Personnel) Rules, 2014]

The Members
Comviva Technologies Limited
(CIN: U72200HR1999PLC041214)
5th, 7th & 8th Floor, Capital Cyberscape,
Sector-59, Golf Course Extension Road,
Gurugram, Haryana-122102

We have conducted the Secretarial Audit of the compliance of the applicable statutory provisions and the adherence to good corporate practices by **Comviva Technologies Limited** (hereinafter referred to as 'the Company'), having its Registered Office at **5th, 7th & 8th Floor, Capital Cyberscape, Sector-59, Golf Course Extension Road, Gurugram, Haryana-122102.** The Secretarial Audit was conducted in a manner that provided us a reasonable foundation for evaluating the corporate conducts/ statutory compliances and expressing our opinion thereon.

Based on our verification, to the extent possible due to the widespread of COVID – 19 pandemic, of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended March 31, 2021, complied with the statutory provisions listed hereunder and also that the Company has Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2021 according to the provisions of:

I. The Companies Act, 2013 ('the Act') and the rules made thereunder;

II. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder [Not Applicable as the Company has not listed any of its securities on any Stock Exchange];

   207 & 201, Suchet Chambers, 1224/5, Bank Street, Karol Bagh, New Delhi -110005 Phone: 9212221110, 011-4504 2509; www.rmgcs.com, E-Mail: info@rmgcs.com

III. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

IV. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Overseas Direct Investment;

V. The Company being an unlisted Company was not required to comply with any of the regulations and / or guidelines as prescribed by the Securities and Exchange Board of India in this regard under the Securities and Exchange Board of India Act, 1992, except following:-

   i. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client to the extent of Dematerialisation of Securities by the Company;

For the compliances of Labour Laws & other General Laws, our examination and reporting is based on the documents, records and files as produced and shown to us and the information and explanations as provided to us, by the officers and management of the Company and to the best of our judgment and understanding of the applicability of the different enactments upon the Company, in our opinion there are systems and processes in the Company to monitor and ensure compliance with applicable General laws and Labour Laws.

The compliance by the Company of applicable financial laws, like direct and indirect tax laws, has not been reviewed in this audit since the same have been subject to review by the statutory financial auditor and other designated professionals.

We have also examined compliance with the applicable clauses of the following:

1. Secretarial Standards with respect to Meetings of Board of Directors (SS-1) and General Meetings (SS-2) issued by the Institute of Company Secretaries of India. However, stricter adherence to the said standards needs to observed by the Company.

2. General Circular Nos.14/2020, 17/2020 and 20/2020 dated April 08, 2020, April 13, 2020 and May 05, 2020, respectively, issued by the Ministry of Corporate Affairs for conduct of Extra-Ordinary General Meetings/ Annual General Meetings through Video Conferencing (VC) or other audio-visual means (OAVM).

The Company convened its Annual General Meeting on July 20, 2020 through webex audio visual conference facility pursuant to MCA circulars and for passing the resolutions, stated in the notice for convening aforesaid meeting, with requisite majority voting was done through the registered e-mail ids of the shareholders of the Company.

3. Notification No. G.S.R 186 (E) dated March 19, 2020 read with Notification No. G.S.R 395 (E) dated June 23, 2020 issued by the Ministry of Corporate Affairs to conduct the Meetings of the Board or its committees through Video Conferencing (VC) or other audio-visual means (OAVM).

During the period under review, the Company has generally complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above.

We further report that the Board of Directors of the Company is constituted with proper balance of Non-executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act and consequently the committees were re-constituted, whenever required.

Notice(s) were given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent in advance to all Directors and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through, while the dissenting members' views, if any, are captured and recorded as part of the minutes.

As per the records, the Company filed all the forms, returns, documents and resolutions as were required to be filed with the Registrar of Companies and other authorities.

The Company has deposited an amount of Rs. 5,50,122/- (Rupees Five Lakh Fifty Thousand One Hundred and Twenty-Two Only), remaining unspent as on March 31, 2021 out of its total approved CSR obligation for the period under review, in a fund prescribed under Schedule VII of the Act, on April, 22, 2021, in accordance with Section 135(5) of the Act read with Rule 10 of the Companies (Corporate Social Responsibility Policy) Rules, 2014.

Annexure 3

POLICY ON NOMINATION AND REMUNERATION COMMITTEE

1. Objective

As a measure of good Corporate Governance and in compliance with the provisions of Section 178 of Companies Act 2013, following policies are formulated:

1.1. Policy on appointment and removal of Key Managerial Personnel and Senior Management;

1.2. Policy on Remuneration to the Key Managerial Personnel, Senior Management and other Employees

1.3. Policy on Directors Training

1.4. Policy on Evaluation of performance of the Board of Directors, Committees and individual Directors,

1.5. Policy on Board Diversity;

2. Definitions

The definitions of some of the key terms used in this Policy are given below.

“Board” means Board of Directors of the Company.

“Company” means the Comviva Technologies Limited.

“Committee(s)” means Committees of the Board for the time being in force as per the provisions of the Companies Act 2013.

“Employee” means employee of the Company whether employed in India or outside India including any whole time directors, KMPs & Senior Management who serve the company on a full-time basis and are not employed in any other entity except those which are the subsidiaries of the company or subsidiaries of its majority shareholder.

“HR’ means the Human Resource department of the Company.

“Key Managerial Personnel” and Senior Management (KMP) refers to:

(i) Chairman (CM);

(ii) Managing Director (MD), or Chief Executive Officer (CEO);

(iii) Chief Financial Officer (CFO); and

(iv) Company Secretary (CS)

“Nomination and Remuneration Committee” or “NRC” means Nomination and Remuneration Committee of Board of Directors of the Company for the time being in force.

“Senior Management” means an employee of the Company who is a member of its Core Management team, which includes CEO, CFO, Company Secretary, Product Unit Heads (for Business units higher than USD 20 million), Global Head of Sales, EVP- New Product Initiatives, Global Head of HR.

3. Constitution of the Nomination and Remuneration Committee The board has constituted the Nomination and Remuneration Committee on <DDMMYYYY>, in accordance with Companies Act 2013.

The board will have rights to reconstitute this committee from time to time.

4. Policy for appointment of the Board, KMPs & Senior Management

The committee shall look into the following matters:

- Make recommendations to the board on its composition and size to help ensure its effective working. It will do the following under each category of personnel:

4.1. Board Members

a) Identify and recommend to appointment or removal of such candidates who can be considered for the position of a director.

b) The NRC would decide this based on its discussions around qualifications, positive attributes and independence of the candidate being considered for directorship. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

4.2. KMPs

a) The authority to identify right candidates for the appointment of CFO and CS is vested with the CEO along with HR, who will facilitate in identifying the candidates internally or externally. NRC will consider the candidates proposed by the CEO and recommend to the Board for its consideration and appointment in accordance with the applicable provisions of the Act and Rules.

b) In case of CM / MD / CEO's appointment, NRC will initiate the process of identifying the new candidate, which can be an internal or external candidate, for the respective position. After identification and screening of the candidate, NRC will propose the candidature to the Board for its consideration and for appointment subject to the approval of the Shareholders and Regulatory Authority, if any.

c) The selection and removal would be based on the evaluations done during the selection /search process and would cover such parameters like: qualifications, positive attributes, experiences, etc. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

d) If a KMP is attracted with any disqualification as mentioned in any of the applicable Act, rules and regulations there-under or due to non-adherence to the applicable policies of the Company, the NRC may recommend to the Board with reasons recorded in writing, removal of a KMP subject to the compliance of the applicable statutory provisions.

4.3. Senior Management personnel

a) The Senior Management personnel are appointed and removed/relieved with the authority of CEO and HR. The selection and removal would be based on the evaluations done during the selection /search process and would cover such parameters like: qualifications, positive attributes, experiences, etc as per the recruitment policy prevailing at the time of selection. The decision may also be based on conditions as best suitable for the business in accordance with statutory conditions as may be applicable from time to time.

b) The details of the appointment made and the personnel removed/relieved during a quarter shall be presented to the Board as part of update on Corporate Governance.

To maintain effective performance and continuity, all attempts will be made to retain and maintain the right balance of expertise and experience at the senior management level through various measures of identification, hiring, training, grooming, performance feedback, compensation & benefits, promotions, etc and . The NRC may seek and review such efforts for any specific position/s as they may deem fit.

Subject to that there is no conflict of interest, Comviva CEO and HR Head will be authorized to approve employee requests for accepting –

1. any honorary positions in the Board of a Company (for no remuneration or a nominal remuneration); and/or
2. any non-significant minority stake capped up to 30%

In case the request is from the Comviva CEO, Comviva CFO or the Company Secretary, the same will be cleared by the NRC

5. Remuneration to KMPs, Senior Management personnel and Other Employees

The Company follows an extensive performance management system to review the performance of the employees / Senior Management and provide rewards on the basis of meritocracy.

The overall remuneration (Total compensation) to the employees (including Whole Time Director (CEO) CFO, CS and senior management) includes a fixed component (Guaranteed Pay) and a variable component (Performance Linked pay). The percentage of the variable component increases at hierarchy levels, as the Company believes employees at higher positions have a far greater impact and influence on the overall business result. Variable Pay program is covered by respective variable pay programs (like performance linked incentive programs as applicable for respective roles). Compensation offered is decided based on what is competitive and suitable to attract top talent peer group for such a role, while looking at company's ability to pay vis-à-vis its budget.

The initial remuneration for CEO or any whole time director will be proposed by the CM/MD to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The initial remuneration for KMPs – CFO and CS will be proposed by the CEO & HR to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The initial remuneration for the Senior Management personnel shall be proposed by HR and approved by CEO. Remuneration for the new employees other than KMPs and Senior Management Personnel will be decided by the HR and business /line managers at the time of hiring, depending upon the relevant job experience, last compensation, position details and role maturity fitment; philosophy of which has been captured in the compensation handbook of the company.

The Total compensation is reviewed at least once every year based on company's performance and compensation philosophy and program. Compensation Revision is based on the performance, potential and market positioning of the role as determined through hiring& /attrition related data, surveys and benchmarks.

The annual review of remuneration for CEO or any whole time director will be proposed by the CM/MD to the NRC. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

The annual remuneration for KMPs – CFO and CS will be proposed by the CEO & HR Head to the NRC consistent with the strategy of the Company and their Qualifications, Experience, Roles and Responsibilities. Pursuant to the provisions of section 203 of the Companies Act 2013 the Board shall approve the remuneration at the time of their appointment.

Annual Review of Remuneration (TCTC) for all employees (others than KMPs, but including senior management) will be decided by the HR, in consultation with CEO for all senior management position and along with concerned business unit head/managers as per performance management process & compensation philosophy and approved personnel cost budget. Performance Management Handbook applies to all employees including senior management, CFO and CS. CEO performance is evaluated by the CM/MD based on business goals as determined annually.

CEO and the HR Head may approve incentive programs as may be required for managing routine business requirements like joining or retention. Any plan covering shares or Stock Option grants to the employees shall be approved by the NRC based on the recommendation of CEO and Head of HR.

All remunerations to directors or CEO will be in accordance to Companies Act 2013 or changes to the same as applicable from time to time, including restatement of accounts due to fraud or non- compliance.

Sitting fee for Independent directors: Sitting fees will be paid to the independent directors for the committee and board meetings, as approved by the board from time to time. This will be subject to the maximum limits, if any, prescribed by the Companies Act 2013.

Refundability of excess remuneration: Any excess remuneration paid will have to be refunded back by the director in case of restatements and no such waivers will be permitted.

Commission or remuneration from holding or subsidiary company: The total commission paid for the services to this Company will include any remuneration paid from either the holding company or the subsidiary company.

6. Policy on Awareness Training to the Independent Directors

The Independent directors at the time of their co-option shall be provided with an orientation by at least one of the senior leaders. They will also be provided with the material/literature regarding the Company's business and its operations, governing documents, information on key personnel and financial information to familiarize them with the Company. The Board will brief them on their roles and responsibilities in the various Committees. The Quarterly Board Meetings will contain an agenda item on 'Business Updates' which provides development in the business strategy of the Company among others. The CM depending on the business need may also nominate Independent Directors for relevant external training programs. Independent Directors may request for any additional information as deemed fit for the successful discharge of their role.

7. Process for Performance Evaluation of the Board as a whole

The process will be initiated each year by the Chairman of the NRC or any other person as authorized by the NRC.

❖ The Board will carry out annual evaluation of its own performance through its adopted self- evaluation criteria. Board evaluation process will be initiated each year by the chairman of NRC and will be coordinated by the Chairman of NRC or any other person authorized by the NRC. Each Board member will get an evaluation form as given in Annexure – I in the first week of April of each year.

❖ Board members have the option to disclose his/her name on the evaluation form.

❖ Board members shall complete the form and return it to the authorized person within two weeks of receipt of the form.

❖ Only Chairman of the board and the authorized person appointed by the NRC to coordinate this activity will have access to individual evaluation form.

❖ Chairman of the Board, will arrange to tabulate the results and present summary report to the Board during the first Board Meeting of the financial year. The summary report will include score against each of the evaluation criteria & verbatim comments without any names. Sample template has been included in Annexure II. Report for each individual member will also be shared without names of those who gave the feedback.

- ❖ The Board will initiate discussion based on individual feedback, broad & common areas that are working well and those that need attention. The Board will then decide if changes in its governance practices and policies need to be made going forward.

7.1. Process for Performance Evaluation of the Committees:

The Board has adopted the evaluation criteria for Committees as mentioned in Annexure -III. Each Committee member will get an evaluation form as given in Annexure – III for the Committee(s) he/she is part of in the first week of April of each year.

- ❖ Committee Members have the option to disclose his/her name on the evaluation form.
- ❖ Committee Members shall complete the forms and return them to the authorized person within two weeks of receipt of the forms.
- ❖ Only Chairman of the board and the authorized person appointed by the NRC to coordinate this activity will have access to individual evaluation form
- ❖ The Chairman NRC, with the assistance of any person, will tabulate the results and share the summary report with the respective Committee in their first meeting of the financial year. The summary report will include score against each of the evaluation criteria & verbatim comments without any names. Sample summary report template has been included in Annexure – IV.
- ❖ Each Committee will initiate discussion basis individual feedback, broad & common areas that are working well and those that need attention.
- ❖ The Chairman of the respective Committee will also present the summary report to the Board during its first Board Meeting of each financial year.

7.2. Process for Performance Evaluation of individual directors including Independent Directors

- ❖ The NRC will carry out performance evaluation of individual directors through peer evaluation of each Board member.
- ❖ The Key areas of evaluation are Knowledge of business, Diligence and preparedness, Effective interaction with others, Constructive contribution to discussion and strategy, Concern for stakeholders, attentive to the internal controls mechanism, and ethical conduct issues as the evaluation criteria.
- ❖ In the first week of April of each year, each Board member will get evaluation form as given in Annexure – V for each of their colleagues on the Board. Each Board member will complete evaluation of each of their colleagues. Board member does not have to disclose his/her name on the evaluation form.
- ❖ During the first Board meeting of the financial year, separate envelopes indicating name of each Board Member will be circulated in which each Board member will place the completed evaluation sheet of the assessed member in their respective envelope. For example, there will be separate envelopes for Director A, Director B & so on and these envelopes will be circulated to all the Directors to place the evaluation form of the specific Director in the envelope indicating his/her name.
- ❖ Once all the evaluation forms are placed in designated envelopes, each Board member will be handed over their respective envelope and will have the opportunity to go through their own peer evaluation scores during the meeting itself.
- ❖ After going through their respective evaluation scores by their peers, the Board members will hand over their envelope to the Board chairperson during that meeting.
- ❖ Subsequently, the Board chairperson, will go through the contents of the envelope, and if necessary, will meet with each Director individually as part of the evaluation process to identify and discuss the outcome. The separate envelopes containing peer evaluation forms for each individual Director will remain with the Board chairperson and will be kept confidential.
- ❖ The NRC on the basis of evaluation scores of the concerned member shall recommend to the Board to extend or continue the term of appointment of the Board member. In case of the upcoming reappointment of any of the NRC member, the concerned member will not participate and others on the committee will be given access to all the available forms of the concerned member as detailed above to continue with the recommendation process.

8. Board's Diversity

A truly diverse Board will make good use of differences in the skills, regional and industry experience, background, race, gender and other distinctions. These differences will be considered in determining the optimum composition of the Board and when possible should be balanced appropriately. The Board appointments should be based on merit that complements and expands the skills, experience, expertise of the Board as a whole, taking into account knowledge, professional experience, qualifications,

gender, age, cultural, educational background, statutory / regulatory requirement and any other factors that might be relevant and applicable from time to time for it to function effectively.

NRC considers the functional diversities in determining the optimum composition of the Board.

9. Amendment

The Policies may be changed at any time by the Board on the recommendation of NRC. However, the NRC shall have the authority to change the Evaluation Form at any time during the year with the objective of seeking more inputs from the Individual Directors

In the event of any statement in the policy contradicting with law, the law will supersede as applicable from time to time.

Rajat Mukherjee

INDEPENDENT AUDITORS' REPORT

To the Members of Comviva Technologies Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Comviva Technologies Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2021, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information ('herein referred to as standalone financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 44 of the standalone financial statements, wherein the comparative information have been restated in accordance with the Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors, in relation to income tax balances

Our opinion is not modified in respect of this matter.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's Report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

   (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

(B) With respect to the other matters to be included in the Auditors’ Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its standalone financial statements - Refer Note 29 to the standalone financial statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(C) With respect to the matter to be included in the Auditors’ Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A referred to in our Independent Auditor's Report to the members of Comviva Technologies Limited on the standalone Ind AS Financial Statements for the year ended 31 March 2021.

(i) (a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment by which all fixed assets are verified once in a period of two years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. As informed to us, no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us, the Company does not hold any immovable property in its name. Accordingly, para 3(i)(c) of the order is not applicable to the Company.

(ii) According to the information and explanations given to us, the inventories, except stock lying with third parties, have been physically verified by the management at reasonable intervals during the year. In our opinion, the frequency of such verification is reasonable having regard to the size of the Company and nature of its business. For stocks lying with third parties as at the year-end, written confirmations have been obtained. As informed to us, the discrepancies noticed on comparison of physical verification of inventories with book records were not material and have been properly dealt with in the books of account.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to Companies, Firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph 3 (iii) of the Order is not applicable.

(iv) According to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Act in respect of grant of loans, making investments and providing guarantees or securities, as applicable.

(v) As per the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by the Reserve Bank of India and the provisions of Section 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, para 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under sub-section (1) of section 148 of the Act, for any of the business activities carried out by the Company.

(vii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident fund, Income-tax, Goods and Services Tax, Duty of customs, Cess and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Income-tax, Goods and Services Tax, Cess and other material statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they became payable.

(viii) (a) According to the information and explanations given to us, there are no dues of Income-tax, Sales- tax, Goods and Services Tax, Service tax, Duty of customs, Value added tax, Cess and other material statutory dues which have not been deposited on account of any dispute except as mentioned below. As mentioned above, the Company did not have any dues on account of Duty of Excise during the year.

Name of the Statute	Nature of dues	Financial year to which amount relates	Forum where dispute is pending	Amount (Rs. in million)	Amount paid under protest (Rs. in million)

* Net of Rs. 15 million being eligible Cenvat Credit set aside under protest.

((ix) According to the information and explanations given to us, there is no default existing at the balance sheet date in repayment of loans or borrowings to banks. The Company does not have any outstanding debentures, or loans or borrowings from any financial institution or government during the year.

(x) According to the information and explanations given to us and our examination of the records of the Company, the Company did not have any term loan outstanding during the year. Further, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year.

(xi) According to the information and explanations given to us, no fraud by the Company or fraud on the Company by its officers or employees has been noticed or reported during the year.

(xii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the managerial remuneration has been paid or provided by the Company in accordance with the provisions of Section 197 read with Schedule V of the Act.

(xiii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiv) According to the information and explanation given to us and on the basis of our examination of the records of the Company, all the transactions with related parties are in compliance with the provisions of Section 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the standalone Ind AS Financial Statements as required by the applicable accounting standards.

(xv) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.

(xvi) According to the information and explanations given to us, the Company has not entered into any non- cash transactions with directors or person connected with him as referred to in Section 192 of the Companies Act, 2013. Accordingly, paragraph 3 (xv) of the Order is not applicable.

(xvii) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3 (xvi) of the Order is not applicable.

Annexure B to the Independent Auditors' report on the standalone financial statements of Comviva Technologies Limited for the year ended 31 March 2021

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (j) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Comviva Technologies Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Emphasis of matter

We draw attention to Note 44 of the standalone financial statements, wherein the comparative information have been restated in accordance with the Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors, in relation to income tax balances.

Our opinion is not modified in respect of this matter.

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to standalone financial statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

* Restated (Refer Note 44)

Securities Premium :

The aggregate difference between the par value of shares and the subscription amount is recognised as share premium.

Capital Reserve :

Capital Reserve has been created pursuant to sales of Company's shares to Tech Mahindra Limited, acquired by ESOP trust from employees.

Retained Earnings:

Retained earnings represents the undistributed profits of the Company accumulated as on Balance Sheet date.

Cash Flow Hedging Reserve :

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

1. Company Overview

Comviva Technologies Limited ("the Company") is the global leader of mobility solutions and a part of Mahindra Group. With customer centricity, innovation and ethical corporate governance at its core, the company's offerings are broadly divided into three categories: Financial Solutions, Digital Systems and Growth Marketing. Its extensive portfolio of solutions spans digital financial services, customer value management, messaging and broadband solution and digital lifestyle services. The company strives to enable service providers to enhance customer experience, resolve real, on-ground challenges and leverage technology to transform the lives of customers. Comviva's solutions are deployed by over 130 mobile service providers and financial institutions in over 95 countries and enrich the lives of over two billion people to deliver a better future.

The Company is a subsidiary of Tech Mahindra Limited.

The standalone financial statements ('financial statement') for the year ended March 31, 2021 were approved by the Board of Directors and authorised for issue on April 22, 2021.

2. Significant Accounting Policies

2.1 Statement of Compliance

The standalone financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of financial statements

These standalone financial statements are presented in Indian rupees ("INR") which is also the Company's functional currency. All amounts have been reported in Indian Rupees Million, except for share and earnings per share data, unless otherwise stated. These standalone financial statements have been prepared on the historical cost basis and on accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these standalone financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The financials statements of Comviva ESOP trust has also been consolidated with Comviva Technologies Ltd. (India) financials.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Revenue Recognition

The Company applies the proportionate method for measurement of performance obligation in accounting for its fixed price development contracts. Use of the proportionate method requires the Company to estimate the efforts to date as a proportion of the total budgeted efforts. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity.

ii) Income taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. The policy for the same has been explained under Note 2.12.

iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The policy for the same has been explained under Note 2.4.

iv) Impairment of Investments

The Company reviews its carrying value of investments in subsidiaries and other entities at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

v) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.14.

2.4 Property, Plant & Equipment and Other Intangible assets

Property, Plant & Equipment and Other Intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, where the life of the assets has been assessed based on technical advice, considering the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

Type of Asset	Estimated useful life
Plant and Equipment (including Computers)	3 year
Plant and Equipment (Electrical Equipment)	5 year
Office Equipment	5 year
Furniture and Fixtures	5 year

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment and intangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Improvements to leased premises are amortized over their estimated useful life or period of the lease, whichever is shorter.

Assets costing up to Rs. 5,000 are fully depreciated in the year of purchase except when they are part of a larger capital investment programme.

Computer Software and hardware acquired for specific projects are amortized over the initial contract life of the project.

The cost of Software purchased for internal use is capitalized and depreciated in full in the month in which it is put to use.

Intellectual Property Right (IPR) is amortized over a period of 4 years.

2.5 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The company has elected to apply modified retrospective approach for transition to Ind AS 116.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its

interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease.

2.6 Impairment of Assets

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortized cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decrease can be related objectively to an event, the previously recognized impairment is reversed through Statement of profit and loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability when there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, the carrying amount of the asset or CGU is reduced to its recoverable amount. An impairment loss is recognized in the Statement of profit and loss.

2.7 Inventories

Inventories are stated at lower of cost or net realizable value. In determining the cost of materials, the weighted average cost method is used.

2.8 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered, revenue against these services recognised over the period of time using proportionate method for measuring performance obligation.

Revenue from the sale of distinct third party hardware is recognised at the point in time when risk and rewards is transferred to the customer.

The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Use of significant judgments in revenue recognition.

The Company's contracts with customers could include promises to transfer multiple products and services to a customer. The Company assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalisation. The assessment of this criteria requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Dividend income is recognized when the Group's right to receive dividend is established.

2.9 Foreign currency transactions

The functional currency of the company is Indian Rupees (INR).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the Statement of profit and loss.

2.10 Financial Instruments:

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized in Statement of profit and loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit and loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Investment in subsidiaries

Investment in subsidiaries is carried as per Ind AS 27.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Company designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy. The counter party to the Company's foreign currency forward contracts is generally a bank. The Company does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under hedging reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in hedging reserve are reclassified to profit or loss in the same period in which gains/losses on the item hedged are recognized in the Statement of Profit or Loss. However when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in hedging reserve are transferred from hedging reserve and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Any Profit or Loss arising on cancellation or renewal of such a forward exchange contract is recognized as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in hedging reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in hedging reserve is transferred to the Statement of Profit and Loss for the period.

iii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

2.11 Employee benefits

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for India location. Certain overseas branches of the company also provide for retirement benefit plans in accordance with local laws.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis. Full contribution is made to recognised provident fund with effect from September 1, 2020. Till August 31, 2020 a portion of the contribution was made to the approved provident fund trust managed by the Company while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

iii) Compensated absences:

The Company provides for the compensated absences subject to Company's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for India location and some branches of Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for other branches of Company.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is probable evidence that the Company will pay normal income tax in future.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.13 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.14 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.15 Provision for Warranty

The Company has an obligation by way of warranty to maintain the software during the period of warranty, which may vary from contract to contract. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost of service delivery. The Company estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

2.16 Research and Development

Research costs are recognized in the statement of profit and loss in the period it is incurred. Development costs are recognized in the statement of profit and loss in the period it is incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Company has an intention and ability to complete and use the asset and the costs can be measured reliably.

2.17 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the statement of profit and loss.

2.18 New accounting pronouncement to be adopted on or after April 1, 2021

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to:-

a) Change in existing presentation requirements for certain items in Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long term borrowings, effect of prior period errors on Equity Share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters, etc.

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions.

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel, etc.

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The amendments are extensive and the Company is evaluating the same.

During the year, the company has recognised the provision against expected fall of investment amounting to Rs. 43 million (March 31, 2020: Rs. 76 million) and company is in process of transfer of balance employees provident fund money from PF trust to RPFC.

c) Defined Benefit Plan - Gratuity

i) The Defined Benefit Plan comprises of Gratuity.

ii) Gratuity is a benefit to an employee based on 15 days last drawn salary for each completed year of service.

iii) The defined benefit plan is partially funded.

iv) Actuarial gains and losses in respect of defined benefit plans are recognised in other comprehensive income.

I] Changes in the present value of defined benefit obligation representing reconciliation of opening and closing balances thereof are as follows :

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Present Value of Defined Benefit Obligation as at the beginning of the year	**188**	161
Service Cost	**23**	22
Interest cost	**10**	10
Benefits Paid	**(30)**	(19)
Acquisition (gain)/loss	**(2)**	-
Actuarial (gain)/loss - experience	**(0)**	9
Actuarial (gain)/loss - demographic assumptions	**-**	(0)
Actuarial (gain)/loss - financial assumptions	**(12)**	5
Present Value of Defined Benefit Obligation as at the end of the year	**177**	188

II] Change in the fair value of plan assets representing reconciliation of opening and closing balances thereof are as follows :

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Opening fair value of plan assets as at the beginning of the year	**2**	5
Interest income on plan assets	**1**	0
Contributions by employer	**1**	4
Benefits Paid	**-**	(7)
Remeasurement- Return on plan assets excluding amount included in interest income	**(2)**	0
Closing fair value of plan assets as at end of the year	**2**	2

III] Reconciliation of Present Value of Defined Benefit Obligation and fair value of plan assets showing amount recognised in the Balance Sheet :

Net defined benefit Asset/(Liability)

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Net defined benefit asset/(liability) at end of prior period	**(186)**	(156)
Service Cost	**(23)**	(22)
Net interest on net defined benefit liability / (asset)	**(10)**	(10)
Actuarial gain/(loss)	**10**	(14)
Employer contribution	**1**	4
Acquisition gain	**2**	-
Benefits Paid (Net)	**30**	12
Net defined benefit Asset/(Liability) recognised in Balance Sheet	**(176)**	(186)

IV] Components of employer expenses recognised in the Statement of Profit and Loss:

Rs. in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Service Cost	**23**	22
Interest cost	**10**	10
Expected return on plan assets	**(0)**	(0)
Total expense recognised in the Statement of Profit & Loss	**33**	32

V] Components of employer expenses recognised in the other comprehensive income:

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Actuarial (gain)/loss due to DBO experience	**0**	(9)
Actuarial (gain)/loss - demographic assumptions	**-**	0
Actuarial (gain)/loss due to DBO assumption changes	**12**	(5)
Remeasurement- Return on plan assets excluding amount included in interest income	**(2)**	0
Actuarial gain/(loss) recognised in OCI	**10**	(14)

VI] Assumptions

Particulars	**As at March 31, 2021**	As at March 31, 2020
Discount Rate	**5.90%**	6.10%
Salary Escalation Rate	**6.00%**	6.50%
Employee Separation Rate	**17.00%**	17.00%

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the liabilities.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

c) Employee separation Rate: The assumption of Employee separation rate represents the company's expected experience of employee turnover.

VII] Sensitivity analysis

Rs. in million

Particulars	As at March 31, 2021	As at March 31, 2020
A: Discount rate		
1. Effect on DBO due to 0.5% increase in discount rate	**(4)**	(4)
2. Effect on DBO due to 0.5% decrease in discount rate	**4**	4
B: Salary Escalation Rate		
1. Effect on DBO due to 0.5% increase in Salary escalation rate	**4**	4
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	**(3)**	(4)
C: Withdrawal Rate		
1. Effect on DBO due to 5% increase in withdrawal rate	**(1)**	(2)
2. Effect on DBO due to 5% decrease in withdrawal rate	**2**	3

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VIII] Expected benefit payments for the period ended (Rs. in million)

1. March 31, 2022	38
2. March 31, 2023	27
3. March 31, 2024	27
4. March 31, 2025	29
5. March 31, 2026	29
6. March 31, 2027 to March 31, 2030	127

IX] Expected employer contributions for the period ended March 31, 2022 (Rs. in million) -

X] Weighted average duration of defined benefit obligation 5 years

XI] Accrued benefit obligation as at March 31, 2021 (Rs. in million) 140

XII] Vested benefit obligation as at March 31, 2021 (Rs. in million) 158

XIII] Plan asset information:

Particulars	As at March 31, 2021	As at March 31, 2020
Schemes of insurance - conventional products	**100%**	100%

XIV] Description of Plan characteristics and associated risks:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest rate risk
2. Salary Inflation risk
3. Demographic risk

XV] Description of Funding arrangements and policies:

The Gratuity scheme of the company is partially funded by way of a separate irrevocable Trust and the company is expected to make regular contributions to the Trust. The fund is managed internally by the company and assets are invested in insurance funded arrangements.

For 1 Year	**69**	82
For 2 to 5 years	**215**	309
Above five year	**0**	13
Total	**284**	404

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019).

Impact of COVID-19

The leases that the company has entered with lessors towards properties used as delivery centres/sales offices are long term in nature and no changes in terms of those leases are expected due to the COVID-19.

Trade payables includes creditors for capital goods.

29 Contingent Liabilities and Commitments:

(i) Contingent Liabilities:

Rs. in million

Sr. No.	Particulars	**As at March 31, 2021**	As at March 31, 2020
1	Bank Guarantees	**126**	110
2	Corporate Guarantee*	**2,011**	2,080
3	Income tax matters (refer note I)	**907**	429
4	Indirect tax matters (refer note II)	**427**	427
5	Other claims against the company not acknowledged as debts (refer note III)	**48**	50

*Corporate Guarantee of USD 28 million (Rs.2,080 million) given to the bank for availing credit facility by Comviva Technologies B.V. (100% subsidiary of the company).

Note:

I Corporate Guarantee

The company has given a letter of comfort to bank for credit facilities availed by its subsidiary amounting to 2011 million and 2080 million as at March 31, 2021 and March 31, 2020. The Company has provided guarantees to third parties on behalf of its subsidiaries. The Company does not expect any outflow of resources in respect of the above.

II Income Tax Matter:

The Company has ongoing disputes with income tax authorities relating to tax treatment of certain items. The disputes relate to tax treatment of certain expenses claimed as deductions, computation and eligibility of tax incentives or allowances. The Company has contingent liability in respect of demands from direct tax authorities in India and other jurisdictions, which are being contested by the Company on appeal amounting 907 million and 429 million as at March 31, 2021 and March 31, 2020 respectively. The Company periodically receives notices and inquiries from income tax authorities related to the Company's operations in the jurisdictions it operates in. The Company has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution. The number of years that are subject to tax assessments varies depending on tax jurisdiction. The major tax jurisdictions of Comviva Technologies Limited include India and African countries. In India, tax filings from fiscal 2017 are generally subject to examination by the tax authorities. In African counties, the statute of limitation vary by state.

III Indirect Tax Matter:

The Company has ongoing disputes with tax authorities mainly relating to availment of input tax credit and indirect tax matters. The Company has demands amounting to 427 milion and 427 million as at March 31, 2021 and March 31, 2020, respectively from various indirect tax authorities which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

IV Other Claims:

Other claims aggregating INR 48 million and INR 50 million as at March 31, 2021 and March 31, 2020, respectively, against the Company have not been acknowledged as debt. The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

(ii) Commitments :

Assets				
Investments in mutual fund	490	490	-	-
Derivative financial instruments - foreign currency forward contracts	-	-	-	-
Liabilities				
Derivative financial instruments - foreign currency forward contracts	43	-	43	-

III] Financial Risk Management

Financial Risk Factors

The Company’s activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company’s primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Company is foreign exchange risk. The Company uses derivative financial instruments to mitigate foreign exchange related risk exposures. The Company’s exposure to credit risk is influenced mainly by the individual characteristic of each customer and the concentration of risk from the top few customers.

(i) Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Company exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

The company revenue is denominated majorly in USD and EUR. The majority of the costs are in Indian rupee. This exposes the Company to currency fluctuation risk. The Company holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace. These forward contracts period lies between 1 day to 1 year.

The following are the outstanding USD/EUR : INR currency exchange contracts entered into by the company which have been designated as cash flow hedges:

Currency	Amount outstanding as at March 31, 2021 in foreign currency	Fair value Gain/ (loss) in Rs.	Amount outstanding as at March 31, 2021 in Rs.	No. of Contracts
In USD	17.72 million	36 million	1364 million	12 Contracts
	(March 31, 2020: 13 mn)	(March 31, 2020: (42) mn)	(March 31, 2020: 999 mn)	(March 31, 2020: 9 Contracts)
In Euro	1.24 million	4 million	113 million	4 Contract
	(March 31, 2020: 0.5 mn)	(March 31, 2020: (0.42) mn)	(March 31, 2020: 41 mn)	(March 31, 2020: 1 Contract)

Impact of COVID-19

The company basis their assessment believes that the probability of occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The company has also considered the effect of change, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness.

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled revenue, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Company result in material concentration of credit risk.

Credit Risk Exposure

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was Rs. 5,440 million, Rs. 5,254 million as at March 31, 2021 and March 31, 2020 respectively, being the total of the carrying amount of trade receivables, unbilled revenue and other financial assets. In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company would have to pay if the guarantee is called on. Refer note 29 (i).

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Company assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. The Company recognises lifetime expected losses for all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The Company's exposure to customers is diversified. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. Movement in the expected credit loss allowance:

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Balance at the beginning of the year	**613**	475
Movement in the expected credit loss allowance on trade receivables calculated at lifetime expected credit losses.	**228**	138
Balance at the end of the year	**841**	613

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

Capital management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2021

Particulars	Less Than 1 Year	More Than 1 Year	Total
Borrowings	-	-	-

Less: Adjustment for penalties / liquidated damages	**-**	-
Revenue recognized in the statement of profit and loss for the period	**6,570**	6,297

Impact of COVID-19

The Company has evaluated the impact of the pandemic, amongst other matters, resulting from :

(i) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts, and

(ii) termination or deferment of contracts by customers.

The Company has concluded that the impact of the pandemic is not material based on these estimates.

40 Income Tax Expense

Tax expense in the statement of profit and loss comprises:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Current tax:		
-Tax expense related to current year	**614**	375
-Tax expense related to earlier year	**-**	121
Total Current tax	**614**	496
Deferred tax	**(93)**	153
Income tax expense recognised in profit or loss	**521**	649
Deferred tax asset in other comprehensive income	**8**	(8)
Total tax expense recognised in total comprehensive income	**529**	641

* Restated (Refer Note 44)

The tax expense for the period can be reconciled to the accounting profit as follows:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Profit before Tax	**1,954**	1,428
Effective Tax Rate	**26.67%**	45.45%
Tax expense recognised in profit or loss	**521**	649
Enacted tax rate	**25.17%**	25.170%
Income tax expense calculated at enacted rate	**492**	359
Deferred tax on account of write back of deferred tax asset - due to change in tax rates**	**-**	152
Effect of expenses/income that are not admissible in determining taxable profit	**8**	(4)
Effect of differential overseas tax rates	**12**	21
Prior period taxes (refer note 44)	**-**	101
Others	**9**	20
Income tax expense recognised in profit or loss	**521**	649

* Restated (Refer Note 44)

Note:

The tax rate used for the above reconciliations are the rates as applicable for the respective periods payable by corporate entities in India on taxable profits under the India tax laws.

**This includes the write back of MAT credit of Rs. 18 millions..

The Company has elected to exercise the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognised provision for income tax for the ended 31st March 2020 and re-measured the balance of net deferred tax assets, basis the rate prescribed in the aforesaid section and recognised the effect of change in the profit and loss account. The remeasurement has resulted in a write down of the net deferred tax assets pertaining to earlier years by ~INR 150 Mn which has been fully charged to the profit and Loss account.

41 Deferred Tax:

The following is the analysis of deferred tax assets presented in the balance sheet:

Rs. in million

42 Foreign Exchange Management Act,1999 disclosure :

As per press release of RBI pursuant to FEMA Regulations dated April 01, 2020, company is required to collect outstanding dues from customers outside India within 15 months of supply of goods or service made upto July 31, 2020 (March 31, 2020: 9 months) . If any Company is unable to collect the due amount within the stipulated timeline, it has to apply to RBI for extension. The Company has trade receivable amounting to Rs. 1,537 mn (March 31, 2020: 1,302 mn) outside India which has not been collected within the stipulated deadline. For these trade receivables, the Company has filed an extension request (ETX filing) with RBI through its authorised dealers.

Further, a Company is also required to pay the outstanding dues to vendors outside India within 9 months of receipt of goods or service. The trade payables outside India outstanding for more than 9 months are Rs. 126 mn (March 31, 2020: 77 mn). The Company is in process for filling.

43 Sale of investment in subsidiary

The Board of Directors of company in its meeting held on 26 July 2019, concluded and accordingly divested its investment in Terra group for a consideration of INR 660 Million. The company signed definite SPA with shareholders and subsequently the shareholding was divested on 2 March, 2020 in Terra Payment(Netherlands) B.V. and on 6 March, 2020 in Terra Payment services South Africa Pty. Ltd. Accordingly, company has recognised net gain of INR 473 Million pertaining to sale of such subsidiary.

Further, during March 31, 2021 as per Share purchase agreement entered into with the acquirer, the company was entitled to receive additional consideration, accordingly the company has recognised a gain of INR 730 Million on the completion of requisite milestone. This consideration has been subsequently realised on April 15, 2021.

INDEPENDENT AUDITORS' REPORT

To the Members of Comviva Technologies Limited

Report on the Audit of Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Comviva Technologies Limited (hereinafter referred to as the 'Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") which comprise the consolidated balance sheet as 31 March 2021, and the consolidated statement of profit and loss (including other comprehensive income) , consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements")

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries as were audited by the other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2021, of its consolidated profit and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Act. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 42 of the consolidated financial statements, wherein the comparative information have been restated in accordance with the Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors, in relation to income tax balances.

Our opinion is not modified in respect of this matter.

Other Information (or anther title if appropriate, such as "Information Other than the Consolidated Financial Statements and Auditors' Report Thereon")

The holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's director report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company. and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

Auditor’s Responsiblities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement whether due to fraud or error, and to issue an auditors’s report

that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management’s use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group (company and subsidiaries) as well as associates and joint ventures and joint operations to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group and its associates and joint ventures and joint operations to express an opinion on the consolidated financial statements, of which we are the independent auditors. We are responsible for the direction, supervision and performance of the audit of financial information of such entities. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled ‘Other Matters’ this audit report.

We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

(a) We did not audit the financial statements / financial information of 3 subsidiaries, whose financial statements/financial information reflect total assets (before consolidation adjustments) of Rs. 3051 million as at 31 March 2021, total revenues (before consolidation adjustments) of Rs 1780 million and net cash flows (before consolidation adjustments) amounting to Rs.(90) million for the year ended on that date, as considered in the consolidated financial statements. These financial statements/financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries is based solely on the audit reports of the other auditors.

Certain of these subsidiaries are located outside India whose financial statements and other financial information have been prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Company's management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's management. . Our opinion in so far as it relates to the balances and affairs of such subsidiaries located outside India is based on the report of other auditors and the conversion adjustments prepared by the management of the Company and audited by us.

(b) The financial statements/financial information of 11 subsidiaries, whose financial statements/financial information reflect total assets (before consolidation adjustments) of Rs. 1,079 million as at 31 March 2021, total revenues (before consolidation adjustments) of Rs. 837 million and net cash flows (before consolidation adjustments) amounting to Rs. 281 million for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements/financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

A. As required by Section 143(3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiaries as were audited by other auditors, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.

e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2021 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding Company is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 Of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, as noted in the 'Other Matters' paragraph:

i. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2021 on the consolidated financial position of the Group. Refer Note 30 to the consolidated financial statements.

ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2021.

iii. There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2021.

C. With respect to the matter to be included in the Audit Report under Section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid during the current year by the Holding Company to its directors is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director by the Holding Company is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A to the Independent Auditors' report on the consolidated financial statements of Comviva Technologies Limited for the period ended 31 March 2021

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of Comviva Technologies Limited (hereinafter referred to as "the holding Company") as of that date.

In our opinion, the Holding Company, have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Emphasis of matter

We draw attention to Note 42 of the consolidated financial statements, wherein the comparative information have been restated in accordance with the Ind AS 8 Accounting Policies, Changes in Accounting Estimates and Errors, in relation to income tax balances.

Our opinion is not modified in respect of this matter.

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the

criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act,2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness

Of the internal controls based on the assessed risk. The procedure selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Capital Reserve has been created pursuant to sales of Company's shares to Tech Mahindra Limited, acquired by ESOP trust from employees.

Retained Earnings:

Retained earnings represents the undistributed profits of the Company accumulated as on Balance Sheet date.

Foreign currency translation reserve :

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian rupees is recognised in other comprehensive income and is presented within equity in the foreign currency translation reserve.

Cash Flow Hedging Reserve :

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

1. Company Overview

Comviva Technologies Limited (“the Company”) is the global leader of mobility solutions and a part of Mahindra Group. With customer centricity, innovation and ethical corporate governance at its core, the company’s offerings are broadly divided into three categories: Financial Solutions, Digital Systems and Growth Marketing. Its extensive portfolio of solutions spans digital financial services, customer value management, messaging and broadband solution and digital lifestyle services. The company strives to enable service providers to enhance customer experience, resolve real, on-ground challenges and leverage technology to transform the lives of customers. Comviva’s solutions are deployed by over 130 mobile service providers and financial institutions in over 95 countries and enrich the lives of over two billion people to deliver a better future.

The Company is a subsidiary of Tech Mahindra Limited.

The consolidated financial statements for the year ended March 31, 2021 were approved by the Board of Directors and authorized for issue on April 22, 2021.

2. Significant Accounting Policies

2.1 Statement of Compliance

The consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of consolidated financial statements

The functional currency of the Company and its Indian subsidiaries is the Indian Rupee (“INR”). The functional currency of foreign subsidiaries is the currency of the primary economic environment in which the entity operates. These consolidated financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group’s normal operating cycle.

In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Basis of Consolidation:

The consolidated financial statements comprise the financial statements of Comviva Technologies Limited and its subsidiaries (the Company and its subsidiaries constitute “the Group”).

The Company consolidates all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity’s returns by using its power over the entity.

Subsidiaries are consolidated from the date control commences until the date control ceases.

The results of subsidiaries acquired, or sold, during the year are consolidated from the effective date of acquisition and up to the effective date of disposal, as appropriate.

All inter-company transactions, balances and income and expenses and cash flows are eliminated in full on consolidation.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

Particulars of Consolidation:

The consolidated financial statements present the consolidated accounts of the Group, which consists of accounts of the Company and its subsidiaries:

Investment in Subsidiaries:

Sr. No.	Name of the Subsidiary	Country of Incorporation	As at March 31, 2021	As at March 31, 2020
1	Comviva Technologies Nigeria Limited	Nigeria	100%	100%
2	Comviva Technologies Singapore Pte. Ltd.	Singapore	100%	100%
3	Comviva Technologies FZ-LLC	UAE, Dubai	100%	100%
4	Comviva Technologies B.V. and its subsidiaries:	Netherlands	100%	100%
	i. Comviva Technologies (Argentina) S.A. (0.04% held by Comviva Technologies limited)	Argentina	100%	100%
	ii. Comviva Technologies Do Brasil Indústria, Comércio, Importação E Exportação LTDA (Formerly known as ATS Advanced Technology Solutions Do Brasil Industria, Comercio, Importacao E Exportacao LTDA) (0.04% held by Comviva Technologies limited)	Brazil	100%	100%
	iii. Comviva Technologies Colombia S.A.S.	Colombia	100%	100%
	iv. Comviva Technologies Mexico, S. de R.L. de C.V.* (0.04% held by Comviva Technologies FZ LLC)	Mexico	100%	100%
	v. Comviva Technologies (Australia) Pty. Ltd. And its subsidiary	Australia	100%	100%
	a. Emagine International Pty. Ltd.	Australia	100%	100%
5	Comviva Technologies Madagascar Sarlu	Madagascar	100%	100%
6	YABX Technologies (Netherlands) BV**	Netherlands	100%	100%
7	Comviva Technologies USA Inc.	USA	100%	100%
8	Comviva Technologies Myanmar Ltd.	Myanmar	100%	100%
9	Comviva Technologies Cote D'ivorie***	Ivory Coast	100%	100%
10	Yabx India Private Limited	India	100%	-

* In February 2018, Comviva Technologies Mexico, S. de R.L. de C.V. was incorporated through Company's subsidiary Comviva Technologies B.V. whereas 0.04% is held by Comviva Technologies FZ-LLC and has not infused capital till March 31, 2021. The company was liquidated with effect from March 3, 2021. However, cancellation of the registration before the Mexican Tax Authorities is pending.

**, In June 2018, YABX Technologies (Netherlands) BV was incorporated as wholly owned subsidiary, however, capital has not been infused till March 31, 2021.

The Company also maintains an ESOP named "Comviva ESOP Trust" which is also consolidated in company financial statements.

***, The Company incorporated another wholly owned subsidiary named Comviva Technologies Cote D'ivorie in February 2020, however capital is not infused till March 31,2021 and no business in same was started.

2.4 Business Combinations:

a. Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of acquisition date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquire. Acquisition related costs are generally recognized in profit or loss as incurred.

b. Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

c. The interest of non-controlling shareholders is initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

d. When the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with Ind AS 109 Financial Instruments or Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognised in profit or loss.

e. Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill and intangible assets

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

Intangible assets purchased including acquired in business combination, are measured at cost or fair value as of the date of acquisition, as applicable, less accumulated amortization and accumulated impairment, if any.

Intangible assets are amortized on a straight line basis over its useful lives.

Intangible assets consist of acquired contract rights, rights under licensing agreement and software licenses and customer-related intangibles.

2.5 Use of Estimates:

The preparation of consolidated financial statements requires the management of the Group to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Revenue Recognition

The Group applies the proportionate method for measurement of performance obligation in accounting for its fixed price development contracts. Use of the proportionate method requires the Group to estimate the efforts to date as a proportion of the total budgeted efforts. Efforts have been used to measure progress towards completion as there is a direct relationship between input and productivity.

ii) Income taxes

Significant judgments are involved in determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions. The policy for the same has been explained under Note 2.16.

iii) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The policy for the same has been explained under Note 2.6.

iv) Provisions

Provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.18.

v) Impairment of Goodwill

The Group estimates the value in use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGU's represent the weighted- average cost of capital based on the historical market returns of comparable companies.

2.6 Property, Plant & Equipment and Other Intangible assets

Property, Plant & Equipment and Other Intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalized includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation / amortization on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life except in respect of the following categories of assets, where the life of the assets has been assessed as under based on technical advice, considering the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc..

Type of Asset	Estimated useful life
Plant and Equipment (including Computers)	3 year
Plant and Equipment (Electrical Equipment)	5 year
Office Equipment	5 year
Furniture and Fixtures	5 year

The estimated useful lives and residual values of the Property, Plant & Equipment and Other Intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of Property, Plant & Equipment and intangible assets is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

Improvements to leased premises are amortized over their estimated useful life or period of the lease, whichever is shorter.

Assets costing upto Rs. 5,000 are fully depreciated in the year of purchase except when they are part of a larger capital investment programme.

Computer Software and Hardware acquired for specific projects are amortized over the initial contract life of the project.

The cost of software purchased for internal use is capitalized and depreciated in full in the month in which it is put to use.

Intellectual Property Right (IPR) is amortized over a period of 4 years.

Customer relationships and contracts are amortized over a period of 3 years.

Licenses are amortized over a period of 2 years.

2.7 Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any re-measurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The Group has elected to apply modified retrospective approach for transition to Ind AS 116.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.8 Impairment of Assets

i) Financial assets

Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a Group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortized cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decrease can be related objectively to an event, the previously recognised impairment is reversed through profit or loss.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the profit or loss.

Goodwill

CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis of the carrying amount of each asset in the unit.

2.9 Inventories

Inventories are stated at lower of cost or net realizable value. In determining the cost of materials, the weighted average cost method is used.

2.10 Non – current assets (or disposal groups) held for sale

Non-current assets (or disposal groups) are classified as assets held for sale when their carrying amount is to be recovered principally through a sale transaction and a sale is considered highly probable. The sale is considered highly probable only when the asset or disposal group is available for immediate sale in its present condition, it is unlikely that the sale will be withdrawn and sale is expected within one year from the date of the classification. Disposal groups classified as held for sale are stated at the lower of carrying amount and fair value less costs to sell. Property, plant and equipment and intangible assets are not depreciated or amortized once classified as held for sale. Assets and liabilities classified as held for sale are presented separately in the balance sheet. If the criteria stated by IND AS 105 “Non-current Assets Held for Sale and Discontinued Operations” are no longer met, the disposal group ceases to be classified as held for sale. Non-current asset that ceases to be classified as held for sale are measured at the lower of:

i. It’s carrying amount before the asset was classified as held for sale, and

ii. It’s recoverable amount at the date when the disposal group ceases to be classified as held for sale.

2.11 Revenue recognition

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Group expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognized on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognized based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognized upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customization services rendered, revenue against these services recognized over the period of time using proportionate method for measuring performance obligation.

Revenue from the sale of distinct third party hardware is recognized at the point in time when risk and rewards is transferred to the customer.

The solutions offered by the Group may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Group is acting as the principal or as an agent of the customer. The Group recognizes revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue (“contract liability”) is recognized when there are billings in excess of revenues.

Use of significant judgments in revenue recognition.

The Group's contracts with customers could include promises to transfer multiple products and services to a customer. The Group assesses the products / services promised in a contract and identifies distinct performance obligations in the contract. Identification of distinct performance obligation involves judgement to determine the deliverables and the ability of the customer to benefit independently from such deliverables.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Group uses judgement to determine an appropriate standalone selling price for a performance obligation. The Group allocates the transaction price to each performance obligation on the basis of the relative stand-alone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Group uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.

Contract fulfilment costs are generally expensed as incurred except for certain software licence costs which meet the criteria for capitalization. The assessment of this criterion requires the application of judgement, in particular when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered

Dividend income is recognized when the Group's right to receive dividend is established.

2.12 Foreign currency transactions

(a) Presentation and functional currencies

The functional currency of Comviva Technologies Limited is Indian Rupees (INR) whereas the functional currency of foreign subsidiaries is the currency of their countries of domicile.

(b) Translation

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency (INR) using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the profit or loss.

(c) Adjustment due to hyperinflation

After July 1, 2018, the Argentine economy was considered, for purposes of IND AS 29 as hyperinflationary. The financial statements of the subsidiaries whose functional currency is the Argentine Peso have been restated.

The non-monetary items of the statement of financial position as well as the income statement, comprehensive incomes and cash flows of the group's entities, whose functional currency corresponds to a hyperinflationary economy, are adjusted for inflation and re-expressed in accordance with the variation of the consumer price index ("CPI"), at each presentation date of its financial statements. The re-expression of non-monetary items is made from the date of initial recognition in the statements of financial position and considering that the financial statements are prepared under the historical cost criterion.

Net losses or gains arising from the re-expression of non-monetary items and income and costs are recognized in the consolidated income statement under "Hyperinflation Adjustment on net monetary position".

Net gains and losses on the re-expression of opening balances due to the initial application of IND AS 29 are recognized in the consolidated retained earnings.

Re-expression due to hyperinflation will be recorded until the period in which the economy of the entity ceases to be considered as a hyperinflationary economy, at that time, the adjustments made by hyperinflation will be part of the cost of non-monetary assets and liabilities.

The comparative amounts in the consolidated financial statements of the Company are presented in a stable currency and are not adjusted for subsequent changes in the price level or exchange rates.

2.13 Foreign Operations:

For the purpose of these financial statements, the assets and liabilities of the Group's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognized in other comprehensive income and accumulated in equity.

2.14 Financial Instruments:

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derivative financial instruments and hedge accounting

The Group uses foreign currency forward contracts / options to hedge its risks associated with foreign currency fluctuations relating to certain forecasted transactions. The Group designates some of these as cash flow hedges applying the recognition and measurement principles set out in the Ind AS 109.

The use of foreign currency forward contracts / options is governed by the Group policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Group's risk management strategy. The counter party to the Group's foreign currency forward contracts is generally a bank. The Group does not use derivative financial instruments for speculative purposes.

Foreign currency forward contract/option derivative instruments are initially measured at fair value and are re-measured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognized in other comprehensive income and accumulated under Hedging Reserve and the ineffective portion is recognized immediately in the Statement of Profit and Loss.

Amounts previously recognized in other comprehensive income and accumulated in Hedging Reserve are reclassified to profit or loss in the same period in which gains/losses on the item hedged are recognized in the Statement of Profit or Loss. However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognized in other comprehensive income and accumulated in Hedging Reserve are transferred from Hedging Reserve and included in the initial measurement of the cost of the non-financial asset or non-financial liability.

Any Profit or Loss arising on cancellation or renewal of such a forward exchange contract is recognized as income or as expense in the period in which such cancellation or renewal occurs. Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognized in the Statement of Profit and Loss as they arise.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. Cumulative gain or loss on the hedging instrument classified in Hedging Reserve is retained there and is classified to Statement of Profit and Loss when the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognized in Hedging Reserve is transferred to the Statement of Profit and Loss for the period.

iii) De-recognition of financial instruments

The group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The group derecognizes financial liabilities when, and only when, the group's obligation is discharged, cancelled or have expired.

2.15 Employee benefits

i) Gratuity:

The group accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for India location. Certain overseas subsidiaries/ branches of the group also provide for retirement benefit plans in accordance with the local laws.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis. Full contribution is made to recognised provident fund with effect from September 1, 2020. Till August 31, 2020 a portion of the contribution was made to the approved provident fund trust managed by the Company while the remainder of the contribution is made to the government administered pension fund. The contributions to the trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

iii) Compensated absences:

The group provides for the compensated absences subject to group's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for India location and some branches of Company, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries and other branches of Company.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.16 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset is recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is probable evidence that the Group will pay normal income tax in future.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

2.17 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.18 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Group has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.19 Provision for Warranty

The Group has an obligation by way of warranty to maintain the software during the period of warranty, which may vary from contract to contract. Costs associated with such sale are accrued at the time when related revenues are recorded and included in cost of service delivery. The Group estimates such cost based on historical experience and the estimates are reviewed periodically for material changes in the assumptions.

2.20 Research and Development

Research costs are recognized in the statement of profit and loss in the period it is incurred. Development costs are recognized in the statement of profit and loss in the period it is incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete and use the asset and the costs can be measured reliably.

2.21 Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of cost of that asset. All other borrowing costs are charged to the statement of profit and loss.

2.22 Discontinued operations

A discontinued operation is a component of Group's business, the operations and cash flows of which can be clearly distinguished from those of the rest of the Group and which represents a separate major line of business or geographical area of operations and

i. Is part of a single coordinated plan to dispose of a separate major line of business or geographic area of operations; or

ii. Is a subsidiary acquired exclusively with a view to re-sale.

Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier.

When an operation is classified as a discontinued operation, the comparative statement of profit loss is re-presented as if the operation had been discontinued from the start of the comparative period.

2.23 Government grants:

Government grants are recognized when there is reasonable assurance that the Group will comply with the conditions attached to them and the grants will be received. Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the financial statements and transferred to profit or loss on a systematic and rational basis over the useful life of the related assets. Grants related to revenue are accounted for as other income in the period in which the related costs which Government intend to compensate are accounted for to the extent there is no uncertainty in receiving the same. Incentives which are in the nature of subsidies given by the Government which are based on the performance of the Group are recognized in the year of performance/eligibility in accordance with the related scheme. Government grants in the form of non-monetary assets, given at a concessional rate, are accounted for at their fair value.

2.24 New accounting pronouncement to be adopted on or after April 1, 2021

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to:-

a) Change in existing presentation requirements for certain items in Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long term borrowings, effect of prior period errors on Equity share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters, etc.

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions.

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel, etc.

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The amendments are extensive and the Company is evaluating the same..

Note 4A - Deferred tax assets (net) :

Deferred tax assets have been offset where they arise in the same taxing jurisdiction with a legal right to offset but not otherwise. Accordingly the net deferred tax assets have been disclosed in the Balance Sheet as follows:

Rs. in million

Particulars	As at	
	March 31, 2021	March 31,2020
Break up of deferred tax assets		
Provision for Employee benefits	**191**	149
Provision for Inventory and Trade receivables	**212**	155
Carried forward of business losses	**67**	59
Cash flow hedging reserve	**-**	3
Others	**89**	121
Break up of deferred tax liability		
Cash flow hedging reserve	**(2)**	-
Property, Plant & Equipment and Intangible assets	**(18)**	(54)
Total	**539**	433

‘Deferred tax assets in the Company have been recognised to the extent there are sufficient taxable temporary differences relating to the same taxation authority and the same taxable entity which are expected to reverse. For certain components of the Group, deferred tax assets on carry forward unused tax losses have been recognised to the extent of deferred tax liabilities on taxable temporary differences available. It is expected that any reversals of the deferred tax liability would be offset against the reversal of the deferred tax asset at respective entities.

Note 4B - Deferred tax liablities (net) :

Deferred tax assets and liabilities have been offset where they arise in the same taxing jurisdiction with a legal right to offset but not otherwise. Accordingly the net deferred tax (assets)/liability has been disclosed in the Balance Sheet as follows

During the year, the company has recognised the provision against expected fall of investment amounting to Rs. 43 million (March 31, 2020: Rs. 76 million) and company is in process of transfer of balance employees provident fund money from PF trust to RPFC.

c) Defined Benefit Plan - Gratuity

i) The Defined Benefit Plan comprises of Gratuity.

ii) Gratuity is a benefit to an employee based on 15 days last drawn salary for each completed year of service.

iii) The defined benefit plan is partially funded.

iv) Actuarial gains and losses in respect of defined benefit plans are recognised in other comprehensive income.

I] Changes in the present value of defined benefit obligation representing reconciliation of opening and closing balances thereof are as follows :

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Present Value of Defined Benefit Obligation as at the beginning of the year	**203**	170
Service Cost	**27**	27
Interest cost	**10**	10
Benefits Paid	**(33)**	(18)
Acquisition (gain)/loss	**-**	-
Actuarial (gain)/loss - experience	**(0)**	9
Actuarial (gain)/loss - demographic assumptions	**-**	(0)
Actuarial (gain)/loss - financial assumptions	**(12)**	5
Present Value of Defined Benefit Obligation as at the end of the year	**195**	203

II] Change in the fair value of plan assets representing reconciliation of opening and closing balances thereof are as follows :

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Opening fair value of plan assets	**2**	5
Interest income on plan assets	**0**	0
Contributions by employer	**1**	4
Benefits Paid	**-**	(7)
Remeasurement- Return on plan assets excluding amount included in interest income	**(2)**	0
Closing fair value of plan assets as at end of the year	**1**	2

III] Reconciliation of Present Value of Defined Benefit Obligation and fair value of plan assets showing amount recognised in the Balance Sheet :

Net defined benefit Asset/(Liability)

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Net defined benefit asset/(liability) at end of prior period	**(201)**	(165)
Service Cost	**(27)**	(27)
Net interest on net defined benefit liability/(asset)	**(10)**	(10)
Actuarial gain/(loss)	**10**	(14)
Employer contribution	**1**	4
Benefits Paid (Net)	**33**	11
Net defined benefit Asset/(Liability) recognised in Balance Sheet	**(194)**	(201)

IV] Components of employer expenses recognised in the Statement of Profit and Loss:

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Service Cost	**27**	27
Interest cost	**10**	10
Expected return on plan assets	**(0)**	(0)
Total expense recognised in the Statement of Profit & Loss	**37**	37

V] Components of employer expenses recognised in the other comprehensive income:

Particulars	**As at March 31, 2021**	As at March 31, 2020
Actuarial (Gain)/Loss due to DBO experience	**0**	(9)
Actuarial (gain)/loss - demographic assumptions	**-**	0
Actuarial (Gain)/Loss due to financial assumptions	**12**	(5)
Remeasurement- Return on plan assets excluding amount included in interest income	**(2)**	0
Actuarial (Gain)/Loss recognised in OCI	**10**	(14)

VI] Assumptions

Particulars	**As at March 31, 2021**	As at March 31, 2020
Discount Rate	**5.90%**	6.10%
Salary Escalation Rate	**6.00%***	6.50%
Employee Separation Rate	**17.00%**	17.00%

* Salary escalation rate till 30th Jun' 21 has been considered as nil

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the obligation.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

c) Employee separation Rate: The assumption of Employee separation rate represents the company's expectation of employee turnover.

VII] Sensitivity analysis

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
A: Discount rate		
1. Effect on DBO due to 0.5% increase in discount rate	**(4)**	(4)
2. Effect on DBO due to 0.5% decrease in discount rate	**4**	4
B: Salary Escalation Rate		
1. Effect on DBO due to 0.5% increase in Salary escalation rate	**4**	4
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	**(3)**	(4)
C: Withdrawal Rate		
1. Effect on DBO due to 5% increase in withdrawal rate	**(2)**	(2)
2. Effect on DBO due to 5% decrease in withdrawal rate	**2**	3

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VIII] Expected benefit payments for the period ended (Rs. in million)

1. March 31, 2022	38
2. March 31, 2023	27
3. March 31, 2024	28
4. March 31, 2025	30
5. March 31, 2026	29
6. March 31, 2027 to March 31, 2031	130

IX] Expected employer contributions for the period ended March 31, 2022 (Rs. in million)	-
X] Weighted average duration of defined benefit obligation	5 years
XI] Accrued benefit obligation as at March 31, 2021 (Rs. in million)	141
XII] Vested benefit obligation as at March 31, 2021 (Rs. in million)	159

XIII] Plan asset information:

Particulars	**As at March 31, 2021**	As at March 31, 2020
Schemes of insurance - conventional products	**100%**	100%

XIV] Description of Plan characteristics and associated risks:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest rate risk
2. Salary Inflation risk
3. Demographic risk

XV] Description of Funding arrangements and policies:

The Gratuity scheme of the company is partially funded by way of a separate irrevocable Trust and the company is expected to make regular contributions to the Trust. The fund is managed internally by the company and assets are invested in insurance funded arrangements.

Above five year	**-**	13
Total	**369**	556

ii) Present Value of Minimum Lease Payments

Rs. in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
For 1 Year	**82**	112
For 2 To 5 years	**245**	358
Above five year	**-**	13
Total	**327**	483

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019).

Impact of COVID-19

The leases that the company has entered with lessors towards properties used as delivery centres/sales offices are long term in nature and no changes in terms of those leases are expected due to the COVID-19.

28. Segment Information

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers.

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Group's chief operating decision maker is the Chief Executive Officer and Managing Director.

The group has identified geographic segment as reportable segment.

Geographical information on revenue is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized.

Information on reportable segments for the year ended March 31, 2021 is given below:

Operating Segments:

A) India

B) Rest of World

Rs. in million

Particulars	**For the year ended March 31, 2021**			For the year ended March 31, 2020		
	India	**Rest of the world**	**Total**	India	Rest of the world	Total
Revenue from operations	**1,041**	**7,410**	**8,451**	1,037	7,082	8,119
Total Segmental Revenue	**1,041**	**7,410**	**8,451**	1,037	7,082	8,119
Unallocable Expenses	**-**	**-**	**7,248**	-	-	7,733

* Restated (Refer Note 42)

Rs. in million

Statement of Segment Assets and Liabilities	**As at March 31, 2021**	As at March 31, 2020
Segment Assets		
Trade Receivables		
India	**550**	853
Rest of the World	**3,567**	3,866
Total Trade Receivables	**4,117**	4,719
Unallocated Assets	**7,452**	6,389
Total Assets	**12,307**	11,108
Segment Liabilities		
Unallocable Liabilities	**4,968**	5,417
Total Liabilities	**4,968**	5,417

Note:

Segregation of assets (except trade receivables), liabilities and other expenses into various geographic segments has not been done as the assets are used interchangeably between segments and Comviva is of the view that it is not practical to reasonably allocate liabilities and expenses to individual segments and an ad-hoc allocation will not be meaningful.

Information about major Customer:

Total revenue from rest of the world includes Rs. 3,612 million from top three customers (year ended March 31, 2020: Rs. 3,476 million from three customers)

** Employment benefits comprising gratuity, and compensated absences are not disclosed as these are determined for the company as a whole.

Figures in brackets ‘’[ ]” are for year ended March 31, 2020.

Trade payables includes creditors for capital goods.

30 Contingent Liabilities and Commitments:

(i) Contingent Liabilities:

Rs. in million

Sr. No.	Particulars	**As at March 31, 2021**	As at March 31, 2020
1	Bank Guarantees	**104**	110
2	Income tax matters (refer note I)	**920**	446
3	Indirect tax matters (refer note II)	**427**	426
4	Other claims against the company not acknowledged as debts (refer note III)	**48**	49

*Corporate Guarantee of USD 27.5 million (Rs.2,080 million) given to the bank for availing credit facility by Comviva Technologies B.V. (100% subsidiary of the company).

Note:

I Income Tax Matter:

The Company has ongoing disputes with income tax authorities relating to tax treatment of certain items. The disputes relate to tax treatment of certain expenses claimed as deductions, computation and eligibility of tax incentives or allowances. The Company has contingent liability in respect of demands from direct tax authorities in India and other jurisdictions, which are being contested by the Company on appeal amounting 920 million and 446 million as at March 31, 2021 and March 31, 2020 respectively. The Company periodically receives notices and inquiries from income tax authorities related to the Company’s operations in the jurisdictions it operates in. The Company has evaluated these notices and inquiries and has concluded that any consequent income tax claims or demands by the income tax authorities will not succeed on ultimate resolution. The number of years that are subject to tax assessments varies depending on tax jurisdiction. The major tax jurisdictions of Comviva Technologies Limited include India and African countries. In India, tax filings from fiscal 2017 are generally subject to examination by the tax authorities. In African counties, the statute of limitation vary by state.

II Indirect Tax Matter:

The Company has ongoing disputes with tax authorities mainly relating to availment of input tax credit and indirect tax matters. The Company has demands amounting to 427 million and 426 million as at March 31, 2021 and March 31, 2020, respectively from various indirect tax authorities which are being contested by the Company based on the management evaluation and on the advice of tax consultants.

III Other Claims:

Other claims aggregating INR 48 million and INR 49 million as at March 31, 2021 and March 31, 2020, respectively, against the Company have not been acknowledged as debt. The amounts assessed as contingent liability do not include interest that could be claimed by counter parties.

(ii) Commitments :

Rs. in million

Sr. No.	Particulars	**As at March 31, 2021**	As at March 31, 2020
1	Estimated amount of contracts remaining to be executed on capital account and not provided for	**102**	50

31. Financial Instruments

I] Financial instruments by category

The carrying value of financial instruments by categories as at March 31, 2021 were as follows:

Rs. in million

Particulars	Amortised cost*	Financial assets/ liabilities at fair value through profit or loss	Financial assets at fair value through OCI	Total carrying value
Assets:				
Cash and cash equivalents (refer note 9)	1,304	-	-	1,304
Other balances with banks (refer note 10)	100	-	-	100
Investment in mutual fund (refer note 7)	-	1,502	-	1,502
Trade receivables (refer note 8)	4,117	-	-	4,117
Other financial assets (refer note 11(i) and 11(ii))	1,587	31	10	1,628
Loan (refer note 12)	154	-	-	154
Total	**7,262**	**1,533**	**10**	**8,805**
Liabilities:				
Trade payables (refer note 18)	1,637	-	-	1,637
Borrowings (refer note 15)	1,425	-	-	1,425
Lease liabilities	327	-	-	327
Other financial liabilities (refer note 19(i) and 19(ii))	634	-	-	634
Total	**4,023**	**-**	**-**	**4,023**

*Fair value of amortised assets is same as carrying value

The carrying value of financial instruments by categories as at March 31, 2020 were as follows:

Rs. in million

Particulars	Amortised cost	Financial assets/ liabilities at fair value through profit or loss	Financial assets at fair value through OCI	Total carrying value
Assets:				
Cash and cash equivalents (refer note 9)	1,223	-	-	1,223
Other balances with banks (refer note 10)	108	-	-	108
Investment in mutual fund (Refer Note 6)	-	503	-	503
Trade receivables (refer note 8)	4,719	-	-	4,719
Other financial assets (refer note 11(i) and 11(ii))	1,066	-	-	1,066
Loan (refer note 12)	159	-	-	159
Total	**7,275**	**503**	**-**	**7,778**
Liabilities:				
Trade payables (refer note 18)	1,802	-	-	1,802
Borrowings (refer note 15)	1,703	-	-	1,703
Lease liabilities	483	-	-	483
Other financial liabilities (refer note 19(i) and 19(ii))	427	194	11	632
Total	**4,415**	**194**	**11**	**4,620**

II] Fair Value Hierarchy

The following table summarises financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2021:

Rs. in million

Particulars	**Fair value measurement as at end of the reporting period using**			
	As at March 31, 2021	**Level 1**	**Level 2**	**Level 3**
Assets				
Investments in mutual fund	1,502	1,502	-	-
Derivative financial assets	40	-	40	-
Liabilities				
Contingent Contractual Obligation	-	-	-	-
Derivative financial liabilities	-	-	-	-

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at March 31, 2020:

Rs. in million

Particulars	**Fair value measurement as at end of the reporting period using**			
	As at March 31, 2020	**Level 1**	**Level 2**	**Level 3**
Assets				
Investments in mutual fund	503	503	-	-
Derivative financial assets	-	-	-	-
Liabilities				
Contingent Contractual Obligation	163	-	-	163
Derivative financial liabilities	43	-	43	-

III] Financial Risk Management

Financial Risk Factors

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Group's primary focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The primary market risk to the Group is foreign exchange risk. The Group uses derivative financial instruments to mitigate foreign exchange related risk exposures.

(i) Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Group's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Foreign currency exchange rate risk

The Group revenue is denominated majorly in USD and EUR. The majority of the costs are in Indian rupee. This exposes the Group to currency fluctuation risk. The Group holds derivative financial instruments such as foreign currency forward contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts is a bank. These derivative financial instruments are valued based on quoted prices for similar assets and liabilities in active markets or inputs that are directly or indirectly observable in the marketplace. These forward contracts period lies between 1 day to 1 year.

The following are the outstanding USD/EUR : INR currency exchange contracts entered into by the company which have been designated as cash flow hedges:

Currency	Amount outstanding as at March 31, 2021 in foreign currency	Fair value Gain/ (loss) in Rs.	Amount outstanding as at March 31, 2021 in Rs.	No. of Contracts
In USD	17.72 million	36 million	1364 million	12 Contracts
	(March 31, 2020: 13 mn)	(March 31, 2020: (42) mn)	(March 31, 2020: 999 mn)	(March 31, 2020: 9 Contracts)
In Euro	1.24 million	4 million	113 million	4 Contract
	(March 31, 2020: 0.5 mn)	(March 31, 2020: (0.42) mn)	(March 31, 2020: 41 mn)	(March 31, 2020: 1 Contract)

* Fair value loss

Impact of COVID-19

The company basis their assessment believes that the probability of occurrence of their forecasted transactions is not impacted by COVID-19 pandemic. The company has also considered the effect of change, if any, in both counterparty credit risk and own credit risk while assessing hedge effectiveness and measuring hedge ineffectiveness.

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, unbilled revenue, investments, derivative financial instruments, cash and cash equivalents, bank deposits and other financial assets. None of the financial instruments of the Group result in material concentration of credit risk.

Credit Risk Exposure

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was Rs. 5,761 million, Rs. 5,739 million million as at March 31, 2021, March 31, 2020 respectively, being the total of the carrying amount of trade receivables, unbilled revenue and other financial assets. In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks provided by the Group. The Group's maximum exposure in this respect is the maximum amount the Group would have to pay if the guarantee is called on. Refer Note 29(i).

Trade receivable

Ind AS requires expected credit losses to be measured through a loss allowance. The Group assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired. The Group recognises lifetime expected losses for all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. Group's exposure to customers is diversified. The concentration of credit risk is limited due to the fact that the customer base is large and unrelated.

The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix. Movement in the Expected credit loss allowance:

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Balance at the beginning of the year	**638**	496
Movement in the expected credit loss allowance on trade receivables calculated at lifetime expected credit losses	**237**	142
Balance at the end of the year	**875**	638

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

Capital management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans.

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2021:

Particulars	**Less Than 1 Year**	**More Than 1 Year**
Borrowings	1,425	-
Trade Payables	1,637	-
Other financial liabilities	706	255

The table below provides details regarding the contractual maturities of significant financial liabilities as at March 31, 2020:

33 Provision for warranty:

The movement in the said provision is summarized below:

Rs. in million

Particulars	As at March 31, 2021	As at March 31, 2020
Opening Balance	10	7
Add: Additional provision made during the year	-	3
Add: Addition on Acquisition	-	-
Less: Provision reversed during the year	(1)	-
Closing balance	**9**	**10**

Note: Provision for warranty is estimated and made based on technical estimates of the management and is expected to be settled over the period of next year.

34 The Group has accounted as an expense of Rs. 16 million for the year ended March 31, 2021(year ended March 31, 2020: Rs. 23 million) pertaining to amortised cost of stock options granted to certain employees of the group granted by Tech Mahindra Limited, its holding company. This cost is being accounted as an employee benefits expense.

35 There are no non-wholly owned subsidiaries that have material non-controlling interests.

36 Allocation of goodwill by segments as at March 31, 2021 and March 31, 2020 is as follows:

Following is the summary of changes in carrying amount of goodwill:

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Balance at the beginning of year	**210**	399
Transfer during the year	**-**	(16)
Effect of foreign currency exchange differences	**14**	6
Impairment recognised during the year	**-**	(178)
Balance at the end of the year	**224**	210

Allocation of goodwill by segments as at March 31, 2021 and March 31, 2020 is as follows:

Rs. in million

Particulars	As at March 31, 2021	As at March 31, 2020
India	-	-
Rest of World	224	210
Total	**224**	210

Allocation of goodwill to cash-generating units:

In accordance with IND AS 36 “Impairment of Assets” the Group performed impairment testing of Goodwill assigned to each Cash Generating Unit (CGU) as at 31st March, 2021. The recoverable amount of CGU is determined based on a value in use calculation which uses cash flow projections based on financial budgets approved by the management covering a year and over and an applicable discount rate. Goodwill has been allocated for impairment testing purposes to their underlying geographical / segmental classification.

Based on the results of the Goodwill impairment test, the estimated value in use in all CGUs were higher than their respective carrying amount, hence impairment provision recorded during the current year is Nil (31st March, 2020 - INR 178 million). Management believes that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount.

Key assumptions used are as follows:

Budgeted Projections: The values assigned to the assumption reflect past experience and are consistent with the management’s plans for focusing operations in these markets. The management believes that the planned market share growth is reasonably achievable.

Price inflation: The values assigned to the key assumption are consistent with external sources of information.

37 Disclosures for revenue from contracts with customers

a) Disaggregation of revenue

Revenue disaggregation by reportable segments is as follows: Rs in million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
Licence Fee with Implementation and other services	**4,129**	4,134
Revenue sharing arrangements	**1,562**	1,811
Annual maintenance contract services	**1,896**	2,038
Income from sale of equipments and software (third party)	**864**	136
Total	**8,451**	8,119

Revenue disaggregation by geography is as follows:

Rs in million

Particulars	For the year ended March 31, 2021	For the year ended March 31, 2020
India	**1,041**	1,037
Rest of world	**7,410**	7,082
Total	**8,451**	8,119

b) Significant changes in the contract assets balances during the year ended March 31, 2021

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Opening balance at beginning of year	**371**	380
Add: Revenue recognised during year	**237**	401
Less: Invoiced during year	**(198)**	(359)
Add/Less: Translation loss/(gain)	**(0)**	(3)
Add/Less: Others (please specify)	**(52)**	(48)
Closing balance at end of year	**358**	371

c) Significant changes in the contract liabilities balances during the year ended March 31 2021:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Opening balance at beginning of year	**109**	132
Less: Revenue recognised during the year	**(84)**	(96)
Add: Invoiced during the year but not recognised as revenues	**16**	67
Add/Less: Translation loss/(gain)	**4**	6
Closing balance at end of year	**45**	109

d) The following table provides information in respect of amount of revenue recognised in the statement of profit and loss with the contracted price showing separately each of the adjustments made to the contract price:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020
Contracted transaction	**8,451**	8,119
Less: Adjustment for volume discount	**-**	-
Less: Adjustment for cash discount	**-**	-
Less: Adjustment for upfront discount	**-**	-
Less: Adjustment for penalties / liquidated damages	**-**	-
Revenue recognized in the statement of profit and loss	**8,451**	8,119

Impact of COVID-19

The Company has evaluated the impact of the pandemic, amongst other matters, resulting from :

(i) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts, and

(ii) termination or deferment of contracts by customers.

The Company has concluded that the impact of the pandemic is not material based on these estimates.

38 Income Tax Expense

Income tax expense in the statement of profit and loss comprises:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020*
Current tax:		
-Tax expense related to current year	**658**	429
-Tax expense related to earlier year	**-**	122
Total Current tax	**658**	551
Deferred tax	**(111)**	160
Income tax expense recognized in profit or loss	**547**	711
Deferred tax in other comprehensive income	**8**	(8)
Total tax expense recognized in total comprehensive income	**555**	703

* Restated (Refer Note 42)

The tax expense for the period can be reconciled to the accounting profit as follows:

Rs in million

Particulars	**For the year ended March 31, 2021**	For the year ended March 31, 2020*
Profit before tax - Continued operation	**2,269**	418
Profit before tax - discontinued operations	**-**	691
Effective Tax Rate	**24.12%**	64.17%
Enacted tax rate	**25.17%**	25.17%
Income tax expense calculated at Effective Tax Rate	**571**	279
Effect of differential overseas tax rates	**8**	27
Tax effect of losses in subsidiaries	**(32)**	208
Deferred tax on account of write back of deferred tax asset - due to change in tax rates^	**-**	152
Prior period taxes (refer note 42)	**-**	101
Others	**-**	(56)
Income tax expense recognised in profit or loss	**547**	711
Deferred tax in other comprehensive income	**8**	(8)
Income tax expense recognised in profit or loss	**555**	703

Note:

Note: The tax rate used for the above reconciliations are the rates as applicable for the respective periods payable by corporate entities in India on taxable profits under the Indian tax laws.

^During the period ended March 31, 2020 the Company has elected to exercise the option permitted under Section 115BAA of the Income Tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognised provision for income tax for the ended 31st March 2020 and re-measured the balance of net deferred tax assets, basis the rate prescribed in the aforesaid section and recognised the effect of change in the profit and loss account. The remeasurement has resulted in a write down of the net deferred tax assets pertaining to earlier years by Nil (March 31, 2020 INR 152 Mn) which has been fully charged to the profit and Loss account.

39 Deferred Tax:

The following is the analysis of Deferred tax assets presented in the Balance Sheet:

Rs. in million

Particulars	**As at March 31, 2021**	As at March 31, 2020
Deferred tax assets	**560**	484
Deferred tax liabilities	**(21)**	(51)
Deferred tax assets	**539**	433

Share Options

(a) Options to take up unissued shares During the financial year, no option to take up unissued shares of the company was granted.

(b) Options exercised During the financial year, there were no shares of the company issued by virtue of the exercise of an option to take up unissued shares.

(c) Unissued shares under option

At the end of the financial year, there were no unissued shares of the company under option.

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Acknowledgments:

Your Directors thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholders for the cooperation and assistance received from them

On behalf of the Board of Directors,.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDER OF COMVIVA TECHNOLOGIES FZ-LLC

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Comviva Technologies FZ-LLC, Dubai Internet City, Dubai – U.A.E. ('the Company'), which comprise the statement of financial position as at 31 March 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in the United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such

disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

We further report that the financial statements comply with the provisions of the Dubai Creative Clusters Private Companies Regulations 2016..

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. GENERAL INFORMATION

Comviva Technologies FZ-LLC ('the Company'), Dubai Internet City, Dubai, United Arab Emirates is a 100% subsidiary of Comviva Technologies Limited, India registered on 19 February 2012 with the Dubai Technology and Media Free Zone Authority, United Arab Emirates as a Free Zone Limited Liability Company. The registered address of the Company is premises - 1401 & 1408-1409, Floor No. 14, Al Shatha Tower, P.O. Box : 500583, Dubai, United Arab Emirates.

Management considers the parent and ultimate controlling party to be Comviva Technologies Limited, India.

The principal activity of the Company is to provide solutions for telecommunication and network.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND DISCLOSURES

2.1 Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are presented in Arab Emirates Dirhams (AED) and all values are rounded to the nearest Arab Emirates Dirham. The principal accounting policies adopted are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.2 Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards.

2.3 Adoption of new and revised International Financial Reporting Standards

The following new and revised Standards including amendments thereto and Interpretations which became effective for the current reporting period have been adopted, wherever applicable. Their adoption has not had any significant impact on the amounts reported in these financial statements but may affect the financial reporting for future transactions or arrangements.

Amendments to IFRS 3: Business Combinations - Amendments to clarify the definition of a Business

Amendments to IAS 1 and IAS 8: Amendments regarding the definition of Material

Amendments to revised Conceptual Framework for Financial Reporting

Amendments to IFRS 9, IAS 39 and IFRS 7: Amendments regarding interest rate benchmark reform

The following Standards, amendments thereto and interpretations have been issued prior 31 March 2021 but have not been applied in these financial statements as their effective dates of adoption are for future periods. It is anticipated that their adoption in the relevant accounting periods will have impact only on disclosures within the financial statements.

IFRS 17: Insurance Contracts - 1 January 2023

Amendment to IFRS 16 - COVID-19-Related Rent Concessions - 1 June 2020

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16- Interest Rate Benchmark Reform – Phase 2- 1 January 2021

Amendments to IAS 37- Onerous Contracts – Cost of Fulfilling a Contract- 1 January 2022

Amendments to IAS 16- Property, Plant and Equipment: Proceeds before Intended Use – 1 January 2022

Amendments to IFRS 3 - Reference to the Conceptual Framework – 1 January 2022

Annual Improvements to IFRS Standards 2018–2020- 1 January 2022

Amendments to IAS 1- Classification of Liabilities as Current or Non-current - 1 January 2023

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Date to be determined

2.4 Foreign currencies

(a) Functional and presentation currency

The financial statements are prepared and the items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in U.A.E. Dirhams, which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of outstanding amounts of such transactions and from the re-translation of monetary assets and liabilities denominated in foreign currencies at each reporting date are recognised in the profit or loss. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at that date.

Non-monetary items carried at fair value that are denominated in foreign currencies are re-translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

2.5 Property and equipment

Property and equipment is stated at cost less accumulated depreciation and identified impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items including installation costs.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenses are charged to the profit or loss during the reporting period in which they are incurred.

The depreciation is calculated on a straight-line basis over the estimated useful lives of the assets, as follows:

	Years
Computers	3
Furniture & fixtures	5
Network system	3
Office equipment	5

The assets' residual values and useful lives are reviewed at each reporting date, with the effect of any changes in estimates adjusted on a prospective basis. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The gains or losses arising on the disposal or retirement of an item of property and equipment is determined by comparing the disposal proceeds with the carrying amount of the asset and is recognised in profit or loss.

2.6 Leases

The Company as lessee

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amounts expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- the payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability and by reducing the carrying amount to reflect the lease payments made.

Right-of-use asset

The right-of-use asset comprises the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement day and any initial direct costs.

It is subsequently measured at cost less accumulated depreciation, impairment losses and adjusted for any remeasurement of lease liabilities.

Right-of-use asset is depreciated over the shorter period of lease term and useful life of the underlying asset. The useful life of the assets are 3 years.

The right-of-use asset is presented as a separate line in the statement of financial position. As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement.

2.7 Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined on weighted average basis and comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing them to their present location and condition. Net realisable value represents the estimate of the selling price in the ordinary course of business, less all estimated costs of marketing and costs necessary to make the sale.

2.8 Impairment of tangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

2.9 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) are initially measured at fair value plus or minus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets

A financial asset is classified as measured at: amortised cost; fair value through other comprehensive income (“FVOCI”) – debt investment; fair value through other comprehensive income (“FVOCI”) – equity investment; or fair value through profit or loss (“FVTPL”). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are; solely; payments of principal and interest on the outstanding principal amount.

The following accounting policies apply to the subsequent measurement of financial assets.

Financial assets at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method and is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment losses are recognised in profit or loss.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the sum of consideration paid and payable is recognised in profit or loss.

2.10 Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model which requires considerable judgement in selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period. IFRS 9 requires the Company to record an allowance for ECLs for all financial assets at amortised cost, debt investments at FVTOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than under IAS 39.

The Company has four types of financial assets that are subject to IFRS 9's expected credit loss model:

- Trade and other receivables (excluding contract assets, prepayments and advance to suppliers)
- Cash and cash equivalents
- Other current financial assets, and
- Due from related parties

While the above financial assets are subject to the impairment requirements of IFRS 9, the identified impairment loss is immaterial (except trade receivables).

Under IFRS 9, loss allowances are measured on either of the following bases:

12 month ECLs: these are ECLs that result from possible default within 12 months after the reporting date; and

Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instruments.

The Company has applied the standard's simplified approach for trade receivables and has calculated ECLs based on lifetime expected credit losses. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the financial assets and the economic environment.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The Company considers a financial asset in default when contractual payments are past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and bank deposits free of encumbrance with a maturity date of three months or less from the date of deposit and other short-term highly liquid investments with a maturity date of three months or less from the date of investment, net of temporary bank overdrafts.

2.12 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation. The expense relating to any provision is recognised in the profit or loss, net of any reimbursement.

2.13 Provision for employees' end of service benefits

Provision for employees' end of service benefits is made in accordance with the U.A.E. Labour Law, and is based on current remuneration and periods of service at the end of the reporting period.

2.14 Value Added Tax (VAT) payable/receivable

Value added tax (VAT) payable/receivable represents net VAT amount payable to or receivable from the U.A.E. Federal Tax Authority against the value added tax charged to the customers by the Company on its sales and services and the value added tax charged by the suppliers to the Company on its purchases and expenses as per the regulations of Federal Decree Law No. 8 and Cabinet Decision No. 52 of 2017 of United Arab Emirates.

2.15 Revenue recognition

The details of accounting policy in relation to the Company's recognition of revenue from sale of goods and rendering of services are set out below:

Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control, at a point in time or over time, requires judgement. The Company recognises revenue from sale of goods and rendering of services based on a five-step model as set out in IFRS 15:

Step 1. Identify the contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2. Identify the performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer goods or services to the customer.

Step 3. Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4. Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company will allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5. Recognise revenue when (or as) the Company satisfies a performance obligation.

The Company satisfies a performance obligation and recognises revenue over time, if one of the following criteria is met:

1. The customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs; or
2. The Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
3. The Company's performance does not create an asset with an alternative use to the Company and the Company has an enforceable right to payment for performance completed to date.

For performance obligations where one of the above conditions are not met, revenue is recognised at the point in time at which performance obligation is satisfied.

When the Company satisfies a performance obligation by delivering the promised goods or services, it creates a contract asset based on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised, this gives rise to a contract liability.

Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes and duty.

The impact of IFRS on the Company's accounting policies is not significant.

Revenue is recognised based on the following specific recognition criteria:

Sale of goods

Revenue (Net of discounts) from sale of goods (comprising of hardware and software) is recognized when all the significant risks and rewards of ownership of the goods have been passed to the buyer, usually on delivery of the goods or on final acceptance. Payment of the transaction price is due immediately when the customer purchases the goods and takes delivery.

Income from services

Revenue from fixed-price contracts are recognized as per the proportionate-completion method or completed contract method, as applicable provided that no further vendor obligations remain and collection is probable.

Revenue in respect of time-and-material contracts is recognized as and when the related services are rendered. Annual technical services revenue and revenue from fixed-price maintenance contracts are recognized proportionately over the period in which the services are rendered.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as contract receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms. Unearned revenue and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

Contracts with multiple performance obligations

Some contracts include multiple deliverables, such as the sale of equipment and related services. However, the installation is simple, could be performed by another party. It is therefore accounted for as a separate performance obligation. Where the contracts include multiple performance obligations, the transaction price will be allocated to each performance obligation based on the stand-alone selling prices. Company uses input method for recognizing revenue for service revenue.

Significant judgements about:

Timing of satisfaction of performance obligation

In making their judgement, the management considered the detailed criteria for the recognition of revenue set out in IFRS 15. The revenue is recognized when the Company has transferred control of the goods or completed provision of service to the customer.

Transaction price and the amounts allocated to performance obligations

Management estimates the stand-alone selling price at contract inception based on observable prices of the type of equipment likely to be provided and the services rendered in similar circumstances to similar customers. If a discount is granted, it is allocated to both performance obligations based on their relative stand-alone selling prices.

3. CRITICAL ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

a) Depreciation of property and equipment

Management assigns useful lives and residual values to property and equipment based on the intended use and the economic lives of those assets. Subsequent changes in circumstances could result in the actual useful lives or residual values differing from initial estimates. Where management determines that the useful life or residual value of an asset requires amendment, the net book amount in excess of the residual value is depreciated over the revised remaining useful life.

b) Impairment of non-financial assets

Assessments of net recoverable amounts of property and equipment and other non- financial assets are based on assumptions regarding future cash flows expected to be received from the related assets.

c) Inventory provisions

The Company reviews the carrying amounts of the inventories at each reporting date and assesses the likely realization proceeds taken into account, the age of inventory, estimated future demand for various items in the inventory and physical damage etc. Based on the assessment, adequate provisions are made.

d) Business model assessment

Classification and measurement of financial assets depends on the results of the Solely Payments of Principal and Interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks

that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

e) Significant increase in credit risk

ECL are measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL assets for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. IFRS 9 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

f) Calculation of loss allowance

When measuring ECL the Company uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

g) Lease term and useful lives of right-of-use asset

The Company's management determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

6. RELATED PARTY TRANSACTIONS AND BALANCES

Related parties include the shareholder, key management personnel/directors, fellow subsidiaries, associates, joint ventures and entities which are controlled directly or indirectly by the shareholder or directors or over which they exercise significant management influence. Balances and transactions between the Company and its related parties are described below. Transactions with related parties were entered into on terms as agreed by the management.

Management considers the parent and ultimate controlling party to be Comviva Technologies Limited, India.

During the year, the Company entered into the following transactions with related parties:

	31.03.2021 AED	31.03.2020 AED
Comviva Technologies Limited (Parent company)		
Purchases and direct expenses (Note 16)	**9,855,170**	4,430,526
Entities under common ownership and control		
Interest on loan to related parties (Note 17)	**242,909**	219,367
Loan given to a related party	**-**	11,446,854
Loan repaid by a related party	**2,586,429**	6,505,513
Lease payment to related party (Note 13)	**340,001**	80,000

Compensation of key managerial personnel

The key managerial remuneration represents the compensation paid or payable to key management for employee services. The key management includes directors and other members of senior management. The compensation of key management for the year is shown below:

	31.03.2021 AED	31.03.2020 AED
Salaries and allowances	**1,944,213**	876,678
End of service benefits	**73,679**	41,000
	2,017,892	917,678

The compensation for key managerial personnel is included in employee costs (Note 20).

The following balances were outstanding at the end of the reporting period :

Loan to related parties Entities under common ownership and control	31.03.2021 AED	31.03.2020 AED
Comviva Technologies Nigeria Limited	**1,539,620**	1,555,177

	1,750,530	1,637,181

Following are the balances due from/to related parties

Included in trade and other receivables (Note 7)	**3,419,300**	3,321,012
Included in trade and other payables (Note 14)	**11,866,677**	8,662,413
Lease liability (Note 13)	**178,564**	511,341

7. TRADE AND OTHER RECEIVABLES

	31.03.2021 AED	31.03.2020 AED
Trade receivables	**23,650,712**	21,778,164
Less : Allowance for impairment of trade receivables	**(1,147,643)**	(828,277)
	22,503,069	20,949,887
Contract assets	**9,941,712**	4,072,592
Prepayments	**989,193**	1,240,137
VAT receivable	**104,305**	-
Advance to suppliers	**70,644**	312,146
Refundable deposits	**33,604**	33,944
Advance to employees	**29,334**	61,615
	33,671,861	26,670,321

As at 31 March 2021, trade receivables with a nominal value of AED 1,147,643 (2020 : AED 828,277) were provided for as per the requirement under IFRS 9 expected credit loss model..

Movements in the allowance for impairment of trade receivables are as follows:

	31.03.2021 AED	31.03.2020 AED
Balance at the beginning of the year	**828,277**	453,744
Provision made during the year (Note 18)	**319,366**	374,533
Balance at the end of the year	**1,147,643**	828,277

Trade receivables are non-interest bearing and are generally on 30 days credit terms

The following table details the risk profile of trade receivables based on the Company's provision matrix. As the Company's historical credit loss experience does not show significantly different loss patterns for different customer segments, the provision for loss allowance based on past due status is not further distinguished between the Company's different customer base.

As at 31 March, the ageing analysis of trade receivables is as follows :

	Current AED	31 to 90 days AED	91 to 180 days AED	181 to 365 days AED	Above 365 days AED	Total AED
2021						
Gross receivables	6,183,626	6,847,443	4,591,717	664,114	5,363,812	23,650,712
Provision %	0.006%	0.007%	0.023%	0.046%	21.355%	6.143%
Provision	(345)	(479)	(1,046)	(307)	(1,145,466)	(1,147,643)

Insurance	**160,356**	164,421
Bank charges	**135,901**	102,907
Freight and forwarding charges	**127,991**	-
Exchange loss	**104,405**	763,700
Recruitment and visa charges	**112,584**	546,735
Depreciation on property and equipment (Note 4)	**104,054**	154,532
Travelling expenses	**102,967**	271,879
Communication	**93,106**	139,913
Legal and professional fees	**90,232**	165,369
Expenses on short term lease	**59,054**	73,767
Advertisement and sale promotion	**49,774**	102,979
Repairs and maintenance	**35,070**	45,988
Other expenses	**53,237**	124,996
	12,188,352	11,985,427

19. FINANCE COSTS

	31.03.2021 AED	31.03.2020 AED
Interest on lease liabilities (Note 14)	**7,224**	9,737

20. EMPLOYEE COSTS

	31.03.2021 AED	31.03.2020 AED
Salaries and allowances	**9,191,635**	7,194,339
End of service benefits (Note 12)	**193,575**	258,264
Other benefits	**329,246**	205,334
	9,714,456	7,657,937

The above employee costs include AED 2,017,892 (2020 : AED 917,678) compensation paid to key managerial personnel (Note 6).

The entire employee costs have been allocated to administrative and selling expenses (Note 19).

21. FINANCIAL INSTRUMENTS

The net carrying amounts of the financial assets and financial liabilities at the end of the reporting period are classified below:

	At amortised cost	
	31.03.2021 AED	31.03.2020 AED
Financial assets		
Trade and other receivables (excluding prepayments, contract receivables and advance to suppliers) (Note 7)	**22,670,312**	21,045,446
Loan to related parties (Note 6)	**5,441,297**	7,988,703
Due from related parties (Note 6)	**1,750,530**	1,637,181
Other current financial assets (Note 8)	**3,047,119**	2,478,551
Cash and cash equivalents (Note 9)	**1,655,402**	7,166,980
	34,564,660	40,316,861

	At amortised cost	
	31.03.2021 AED	31.03.2020 AED
Financial liabilities		
Trade and other payables (excluding advance from customers and contract liability) (Note 14)	**39,643,722**	34,854,518
Lease liability (Note 13)	**178,564**	511,341
	39,822,286	35,365,859

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2.9 to the financial statements.

22. CAPITAL RISK MANAGEMENT

The Company manages its capital to ensure that the Company will be able to continue as a going concern while providing maximum return to stakeholders through the optimisation of the debt and equity balance and to maintain an optimal capital structure to reduce the cost of capital. The Company's overall strategy on capital risk management remains unchanged from the previous year.

The capital structure of the Company consists of equity funds as presented in the statement of financial position. Debt comprises total amounts owing to third parties and related parties, net of cash and cash equivalents.

23. FINANCIAL RISK MANAGEMENT

Financial risk factors

The Company's activities expose to a variety of financial risks: market risk (including currency risk and interest rate risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

Risk management is carried out by the Company's management. The management identifies and evaluates financial risks on regular basis to minimise the adverse impact over the Company's operation.

(a) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risk : interest rate risk, currency risk and other price risk, such as equity risk and commodity price risk. The Company's activities are exposed primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

(i) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities, when revenue or expense are denominated in a different currency from the Company's functional currency which is United Arab Emirates Dirham (AED). The Company manages the risks through regular monitoring of the currency markets to determine appropriate action to minimise the exposure to the foreign currency risk.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the loan to related parties.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily for trade receivables and committed transactions) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

The Company deals only with highly reputed local and international banks. In respect of major customers, credit risk is managed by assessing the credit quality of these major customers, taking into account their financial position, past experience and other factors including regular follow up.

(c) Liquidity risks

Liquidity risk refers to the risk that an entity will encounter difficulty in meeting obligations associated with its financial liabilities at maturity date.

The Company manages the liquidity risk through risk management framework for the Company's short, medium and long-term funding and liquidity management requirements by maintaining adequate reserves, sufficient cash and cash equivalent to ensure funds are available to meet its commitments for liabilities as they fall due.

The table below analyses the Company's remaining contractual maturity for its financial liabilities based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. The contractual maturity is based on the earliest date on which the Company may be required to pay

.

As at 31 March 2021	Less than 1 year AED	Between 1 to 5 years AED	Total AED

24. IMPACT OF COVID-19

The outbreak of COVID-19 continues to evolve and therefore, it is challenging to predict the extent and duration of its business and economic impact at this stage. These conditions are considered non-adjusting events as at the reporting date. Considering the unprecedented nature of the crisis, a reliable estimate of its impact on economy in general and business in particular, cannot be made at the date of the authorization of these financial statements. The management is closely monitoring the situation and has prepared action plans to ensure continuity of its business operations. Following the analysis of different possible scenarios, the management has concluded that sufficient reserves are available in respect of the liquidity and also the equity base of the Company to guarantee continuity of its operations at the date of the authorization of these financial statements.

25. FAIR VALUE

The fair value of a particular asset or liability is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the financial assets and liabilities approximate their carrying amounts as reflected in these financial statements.

26. CONTINGENT LIABILITIES

As at the end of the reporting period the following contingent liabilities were outstanding :

	31.03.2021 AED	31.03.2020 AED
Letters of guarantee	**2,876,603**	2,382,037

27. COMPARATIVE FIGURES

The previous year figures have been reclassified and regrouped, wherever necessary, to conform with the current year presentation.

INDEPENDENT AUDITORS' REPORT

To the Members of Comviva Technologies B.V.

REPORT ON THE SPECIAL PURPOSE FINANCIAL STATEMENTS

Opinion

We have audited the special purpose financial statements of Comviva Technologies B.V. (the Company), which comprise the balance sheet as at March 31, 2021, and the income statement and notes to the financial statements, including a summary of significant accounting policies.

In our opinion and to the best of our information and according to the explanations given to us, the accompanying special purpose financial statements of the Company for the year ended March 31, 2021 are prepared in all material respects, in accordance with the International Financial Reporting Standard (IFRS) as adopted by European Union (EU) and relevant articles of Part 9 of Book 2 of the Dutch Civil Code.

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special purpose financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the special purpose financial statements as prescribed by International Federation of Accountants (IFAC), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 19 to the special purpose financial statements which states that the management has made an assessment of the impact of COVID-19 on the company's operations, financial performance and position as at and for the year ended March 31, 2021 and has concluded that there is no impact which is required to be recognised in the financial statements. Accordingly, no adjustments have been made to the financial statements.

Our opinion is not modified in respect of this matter.

Other Matter

We have relied on the scanned copies of the supporting documents for the purpose of issuing our opinion.

Our opinion is not modified in respect of above matter.

Basis of Accounting

We draw attention to Note 2 to the special purpose financial statements, which describes the basis of accounting.

Restriction on Distribution and Use

The financial statements are prepared to assist the Company in complying with the financial reporting provisions of Part 9 Book 2 of Dutch Civil Code. As a result, the financial statements may not be suitable for another purpose.

Our report is intended solely for the use of Board of Directors and current investors of the Company and should not be distributed to or used by any other parties. BDO India LLP shall not be liable to the Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Material Uncertainty

We draw attention to Note 18 of the Special Purpose Financial Statements which indicates that the company has incurred net loss of Euros 378,735 during the year ended March 31, 2021 and as of date has accumulated losses as on date Euros 3,501,480 which has substantially eroded the net worth of the company. These events or conditions indicate that material uncertainty exists that may cast significant doubt on Company's ability to continue as a going concern. However, as stated in the note, the company has received a letter of support from its Holding Company to provide necessary financial & operational support to enable the company to operate as going concern and pay its liabilities as & when they are due. In view of the above, the special purpose financial statements of the company have been prepared on going concern.

Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those charged with Governance for the Special Purpose Financial Statements

Management is responsible for the preparation and fair presentation of these special purpose financial statements that give a true and fair view in accordance with the International Financial Reporting Standard (IFRS) as adopted by European Union (EU) and relevant articles of Part 9 of Book 2 of the Dutch Civil Code and for such internal control as management determines is necessary to enable the preparation of the special purpose financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Special purpose financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those Charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

We give in "Annexure A" a detailed description of Auditor's responsibilities for Audit of the Special purpose financial statements.

For BDO India LLP

BDO India LLP

Place: Gurugram, India
Date: April 20, 2021

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE SPECIAL PURPOSE FINANCIAL STATEMENTS OF COMVIVA TECHNOLOGIES B.V.

Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the special purpose financial statements, including the disclosures, and whether the special purpose financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Note 17 - Other Notes :

Employees

The average number of employees during the year, converted to full-time equivalents, was as follows:

Average number of employees during the period	2019/20	2018/19
Active within the Netherlands	**1**	1

Note 18

The Company has incurred a net loss of Euros 378,735 during the year ended March 31, 2021 and as of that date has accumulated losses of Euros 3,501,480 which has substantially eroded the net worth of the Company. These events or conditions indicate that material uncertainty exists that may cast significant doubt on Company's ability to continue as a going concern. The Holding Company i.e. Comviva Technologies Limited has agreed to provide continuing financial support, if necessary, to the Company to meet its obligations as and when they become due. This enables Company to operate as a going concern and pay its liabilities as and when they are due. Based on the above, the special purpose financial statements have been prepared on going concern basis and no adjustments are made to the carrying value of assets and liabilities.

Note 19

The World Health Organization announced a global health emergency because of a new strain of coronavirus ("COVID-19") and classified its outbreak as a pandemic on March 11, 2020. This pandemic is creating disruption in global supply chain and adversely impacting most of the industries which has resulted in global slowdown.

The management has made an assessment of the impact of COVID-19 on the Company's operations, financial performance and position as at and for the year ended March 31, 2020 and has concluded that no there is no impact which is required to be recognised in the financial statements. Accordingly, no adjustments have been made to the financial statements.

PROFIT APPROPRIATION

Proposed appropriation of the results

The board of directors proposes, with the approval of the supervisory board, that the result for the financial year 2020/2021 amounting to € (3,78,735) should be transferred to reserves without payment of dividend.

1. GENERAL NOTES

Most important activities

The activities of Comviva Technologies B.V., having its legal seat at Amsterdam mainly consist of writing, producing, publishing of software and providing business support services.

Location actual activities

Comviva Technologies B.V. is located in Amsterdam and is registered at the chamber of commerce under number 63223767. The actual address is Maanplein 7 at ‘s Gravenhage.

Group structure

The Company forms part of the Mahindra Comviva Group of companies. The immediate parent company is Comviva Technologies Limited (CTL), India. The Company is ultimately owned by Tech Mahindra Ltd, India.

Exemption from consolidation

Because Comviva Technologies B.V. can also be classified as small after consolidation, consolidation has been dispensed pursuant to art. 407, sub 2, under a of book 2 of the Dutch Civil Code (‘Burgerlijk Wetboek’). The Company also avails itself of the facility of article 408, Book 2 of the Dutch Cicil Code. The annual accounts of the company and its subsidiaries are consolidated into the annual accounts of Comviva Technologies Limited India. Copies of the consolidated accounts are available at the Trade Register of the Chamber of commerce in Amsterdam. The consolidated accounts will be filed together with the final statements of the Company.

Going concern

The equity of Comviva Technologies B.V. amounts to € (3,501,480) as at March 31, 2021. It is financed in full with current liabilities, including current account funds provided by group entities and loans provided by banks. However company has obtained support letter from Holding Company – Comviva Technologies Limited - which confirms to provide Financial and Operating support to Comviva Technologies B. V. as the company requires for its continued operations for a period of not less than one year from the date of the financial statements of the Company for current year i.e. March 31, 2021 which includes continuous support to step down subsidiaries including but not limited to support in their operating expense/repayment of group balance and loss arising from impairment of the investments in subsidiaries, if any.

On the basis of support letter financial statements has been prepared on going concern basis.

Estimates

In applying the principles and policies for drawing up the financial statements, the directors of Comviva Technologies B.V. make different estimates and judgments that may be essential to the amounts disclosed in the financial statements. If it is necessary in order to provide the transparency required under Book 2, article 362, paragraph 1, the Dutch Civil Code the nature of these estimates and judgments, including related assumptions, is disclosed in the notes to the relevant financial statement item.

2. ACCOUNTING POLICIES

GENERAL

General policies

The financial statements are drawn up in accordance with the provisions of Title 9, Book 2, of the Dutch Civil Code and the Dutch Accounting Standards applicable to small legal entities, as published by the Dutch Accounting Standards Board (‘Raad voor de Jaarverslaggeving’).

Accounting policies for the valuation of assets and equity and liabilities

Assets and liabilities are generally valued at historical cost, production cost or at fair value at the time of acquisition. If no specific valuation principle has been stated, valuation is at historical cost. In the balance sheet, income statement and the cash flow statement, references are made to the notes.

Accounting policies for the income statement

The result is the difference between the realisable value of the goods/services provided and the costs and other charges during the year. The results on transactions are recognised in the year in which they are realised.

Foreign currency translation

Items included in the financial statements of Comviva Technologies B.V. are valued with due regard for the currency in the economic environment in which the company carries out most of its activities (the functional currency). The financial statements are denominated in euros; this is both the functional currency and presentation currency of Comviva Technologies B.V.

Financial instruments

Securities included in financial and current assets are stated at fair value, if these are related to securities held for trading or if they relate to equity instruments not held for trading, as well as derivatives of which the underlying object is listed on a stock exchange. All other on-balance financial instruments are carried at (amortised) cost. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. If no fair value can be readily and reliably established, fair value is approximated by deriving it from the fair value of components or of a comparable financial instrument, or by approximating fair value using valuation models and valuation techniques. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and/or option pricing models, making allowance for entity-specific inputs.

ACCOUNTING POLICIES FOR ASSETS

Intangible assets

Intangible fixed assets are stated at historical cost less amortisation. Impairments are taken into consideration; this is relevant in the event that the carrying amount of the asset (or of the cash generating unit to which the asset belongs) is higher than its realisable value.

Tangible assets

Land and buildings are valued at historical cost plus additional costs or production cost less straight line depreciation based on the expected useful life. Land is not depreciated. Impairments expected on the balance sheet date are taken into account. With regard to the determination as to whether a tangible fixed asset is subject to an impairment, please refer to the relevant section. Other tangible fixed assets are valued at historical cost or production cost including directly attributable costs, less straight-line depreciation based on the expected future life and impairments.

Financial assets

Due to the international structure of the group and the use of the consolidation exemption of Article 408, Book 2 of the Dutch Civil Code, participations are recognised at costs. If an asset qualifies as impaired, it is measured at its impaired value; any write offs are disclosed in the income statement. Receivables are valued at fair value and then valued at amortised cost, which equals the face value. The receivables of group companies are included in financial fixed assets, except for maturities less than 12 months after balance sheet date. They are then included in the current assets.

Receivables

Receivables are initially valued at the fair value of the consideration to be received, including transaction costs if material. Receivables are subsequently valued at the amortised cost price. Provisions for bad debts are deducted from the carrying amount of the receivable.

Cash and cash equivalents

Cash at banks and in hand represent cash in hand, bank balances and deposits with terms of less than twelve months. Overdrafts at banks are recognised as part of debts to lending institutions under current liabilities. Cash at banks and in hand is carried at nominal value.

ACCOUNTING POLICIES FOR EQUITY AND LIABILITIES

Current liabilities

On initial recognition current liabilities are recognised at fair value. After initial recognition current liabilities are recognised at the amortised cost price, being the amount received, taking into account premiums or discounts, less transaction costs. This usually is the nominal value.

ACCOUNTING POLICIES FOR THE INCOME STATEMENT

Net revenue

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue from time and material and job contracts is recognised on output basis measured by units delivered, efforts expended, number of transactions processed, etc.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

Revenue from the sale of distinct internally developed software and manufactured systems and third party software is recognised upfront at the point in time when the system / software is delivered to the customer. In cases where implementation and / or customisation services rendered, revenue against these services recognised over the period of time using proportionate method for measuring performance obligation.

Revenue from the sale of distinct third party hardware is recognised at the point in time when risk and rewards is transferred to the customer.

The solutions offered by the Company may include supply of third-party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognises revenue in the gross amount of consideration when it is acting as a principal and at net amount of consideration when it is acting as an agent. Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue (“contract liability”) is recognised when there is billings in excess of revenues.

Amortisation, depreciation and impairment

Intangible assets, including goodwill, are amortised and tangible fixed assets are depreciated over their estimated useful lives as from the moment that they are ready for use. Land and investment property are not depreciated.

Other operating expenses

Costs are determined on a historical basis and are attributed to the reporting year to which they relate.

Income tax expense

Tax on the result is calculated based on the result before tax in the income statement, taking account of the losses available for set-off from previous financial years (to the extent that they have not already been included in the deferred tax assets) and exempt profit components and after the addition of non-deductible costs. Due account is also taken of changes which occur in the deferred tax assets and deferred tax liabilities in respect of changes in the applicable tax rate.

To:

Management and Shareholders of

Comviva Technologido Brasil Indústria, Comércio, Importação e Exportação Ltda.

São Paulo - SP

Opinion

We have audited the financial statements of Comviva Technologies do Brasil Indústria, Comércio, Importação e Exportação Ltda., which comprise the balance sheet as of December 31st 2020 and the related income statements, changes in net equity and cash flow for the year then ended, as well as the corresponding explanatory notes, including a summary of the main accounting policies.

In our opinion, the financial statements referred above present fairly, in all material aspects, the equity and financial position of Comviva Technologies do Brasil Indústria, Comércio, Importação e Exportação Ltda. as of December 31st, 2020, and of its financial performance and its cash flows for the year then ended in accordance with the International Financial Reporting Standards- IFRS as issued by the International Accounting Standards Board (IASB) and accounting practices adopted in Brazil.

Basis for opinion Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in accordance with such standards, are described in the following section entitled "Responsibilities of the Auditor for the Audit of Financial Statements." We are independent in relation to the Company, in accordance with the relevant ethical principles set forth in the Code of Ethics for Professional Accountants and in the professional norms issued by the Federal Accounting Council, and we comply with the other ethical responsibilities according to these norms. We believe that the audit evidence we have obtained is sufficient and appropriate to substantiate our opinion.

Relevant uncertainty related to the Company's operational continuity.

We call attention to Note 1 to the financial statements, which indicates that the Company incurred a loss in the year R$ 3,289 thousands (R$ 2,233 thousands in 2020) and on that date the accumulated loss amounted to R$ 9,258 thousands (5,969 thousands in 2020). The settlement of its short-term liabilities as well as the reversal of the net worth scenario depends on the result of the measures adopted by management to improve the performance of its operations. The financial statements were prepared on the assumption of normal continuity of operations, which presuppose the realization and recovery of assets, as well as the settlement of obligations in the normal course of the Company's business, and do not include any adjustments that would be required in the presentation of its assets and liabilities, in the event of failure of the measures adopted to restore their financial balance. Our opinion is not qualified due to this matter.

Management and governance responsibilities of the financial statements

Management is responsible for the preparation of the financial statements in accordance with the accounting practices adopted in Brazil applicable to Small and Medium Enterprises – SMEs – and for the internal controls that it has determined to be necessary to enable the preparation of financial statements free from material misstatement, whether caused by fraud or error.

In the preparation of financial statements, management is responsible for evaluating the Company's ability to continue operating, disclosing, when applicable, matters related to its operational continuity and the use of this accounting basis in the preparation of the financial statements, unless Management intends to liquidate the Company or cease its operations, or has no realistic alternative to avoid closing the operations.

Those responsible for the governance of the Company are those responsible for supervising the process of preparing the financial statements.

Responsibilities of the Auditor for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error, and issue an audit report containing our opinion. Reasonable safety is a high level of safety, but not a guarantee that the audit conducted in accordance with Brazilian and international auditing standards always detect any relevant distortions. Distortions may be caused due to fraud or error and are considered relevant when, individually or together, they can influence, from a reasonable perspective, the economic decisions of users taken on the basis of said financial statements.

As part of the audit performed, in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. Besides that:

- We identify and evaluate the risks of material misstatement in the financial statements, whether caused by fraud or error; we plan and perform audit procedures in response to such risks, and we obtain audit evidence appropriate and sufficient to substantiate our opinion. The risk of not detecting material misstatement resulting from fraud is greater than that of error, since fraud may involve the act of circumventing internal controls, collusion, forgery, omission, or false intentional representations.
- We obtain an understanding of the internal controls relevant to the audit to plan appropriate audit procedures in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- We evaluate the adequacy of the accounting policies used and the reasonableness of the

  accounting estimates and respective disclosures made by management.
- We conclude on the adequacy of management's use of the accounting basis for operational continuity and, based on the audit evidence obtained, whether there is a material uncertainty regarding events or conditions that may raise significant doubt regarding the capacity for operational continuity from the company. If we conclude that there is material uncertainty, we should draw attention in our audit report to the respective disclosures in the financial statements or include any change in our opinion if the disclosures are inadequate. Our findings are based on audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to no longer remain in operational continuity.
- Evaluate the overall presentation, structure and content of the financial statements, including the

  disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those responsible for governance regarding, inter alia, the planned scope,

  timing of the audit and significant audit findings, including any significant weaknesses in internal controls that we have identified during our work.

The accompanying notes are an integral part of these financial statements.

1. The Company information

The Company located at Alameda Santos nº 2441, 2º andar – Cerqueira Cesar is engaged in assembly of equipment for radiotelephony, telephony, IT communications and in general; sales, import and export of machinery, tools, implements and accessories for radiotelephony, telephony, IT communication and in general; development, programming, implementation and maintenance of software; IT consulting service; equipment rent; and representation of domestic and foreign companies by its own or third-party behalf.

Operational ongoing of the Company

The financial statements were prepared on the assumption of normal continuity of operations, which presuppose the realization and recovery of assets, as well as the settlement of obligations in the normal course of the Company's business, and do not include any adjustments that would be required in the presentation of its assets and liabilities, in the event of failure of the measures adopted to restore their financial balance. Management has a reasonable expectation that the Company will have sufficient resources to continue operating for the foreseeable future and, therefore, based on its judgment, concluded that the remaining uncertainty is not material.

2. Presentation of the financial statements and significant accounting practices

Basis of presentation

The financial statements were prepared as per the Brazilian Accounting Regulations, according to NBC TG 1000 - Accounting for small and medium-scale enterprises, [Brazilian] Resolution 1,255/09 of the [Brazilian] Federal Accounting Council = CFC, as well as, when applicable, according to the other CFC Resolutions relative to the CPC decisions, and when applicable, other regulations of the [Brazilian] Stockholders Act, including changes defined by [Brazilian] Acts 11,638/07 and 11,941/09, and NBC Regulation 19.41 - Accounting for Small and Medium-Scale Enterprises - CPC PME (IFRS for SME of IASB)

Functional currency and presentation currency

The financial statements are presented in Brazilian Reais, which is the functional currency of the Company, unless otherwise stated.

The financial statements were approved by the Company's management on April 05, 2021, considering the subsequent events occurred until this date which affected the disclosures of the mentioned financial statements.

Income (expenses) recognition

The result of the operations (income, costs and expenses) is calculated according to the accrual basis.

The income from the sale of products is registered soon after receiving the customer's acceptance, being registered the transfer of the good and its economic benefits.

The service incomes are acknowledged when the property risks and benefits are transferred to the client, and the income amount can be reasonably calculated.

The costs and expenses are acknowledged when there is reduction of an asset or the registering of a liability and they can be reasonably calculated.

Accounting estimates

The financial statements were prepared based on several valuation criteria used in the accounting estimates. The accounting estimates used in the preparation of the financial statements were based on objective and subjective factors judged by Management to determine the appropriate amount to be recorded in the financial statements. Significant items subject to these estimates and assumptions include the valuation of financial assets at fair value, credit risk analysis to determine the allowance for doubtful accounts, the selection of useful lives of property, plant and equipment and intangible assets and their recoverability in operations, as well as the analysis of other risks to determine other provisions, including litigations.

The liquidation of transactions involving these estimates can result in amounts different from those registered in the financial statements due to the probabilistic treatment inherent to the estimate process. The Management supervises and revises periodically and timely these estimates and their premises.

Cash and cash equivalents

These include money in cash, bank deposits and financial investments.

Trade accounts receivable

Trade accounts receivable are initially recognized at the transaction value less the allowance for doubtful accounts. An allowance for doubtful accounts is recognized when conclusive evidence shows that the Company will not receive all amounts due according to the original conditions of accounts receivable.

Inventories

These are represented by hardware, software, spare parts, accessories and components valued at the lower value between average acquisition cost or net realizable value. The net realizable value is the estimated sales price over the normal course of operations, less cost of sales.

Fixed assets

The fixed assets items are calculated by the acquisition or building cost minus the recorverable taxes, accumulated depreciation, and losses due to the reduction of the recoverable amount (impairment), when applicable.

The cost of items registered as fixed assets include all those directly attributable to the acquisition or formation of such asset. The assets costs created by the Company include the cost of materials and salaries of the employees directly involved in the construction or formation of such assets. It includes any other costs directly attributable to the asset until it is ready to be used for the purposes defined by the Company, as well as the costs of demobilization of the asset items and restoration of the sites where such assets are installed, and costs of borrows in qualifiable assets.

The software purchase that is integral part an equipment functionality is capitalized as part of such asset.

Alienation gains and losses of an asset item are due to the difference calculated when comparing the alienation amount to the net amount resulting from the cost amount minus the residual amount and the accumulated depreciation of the asset, and are registered by the net amount of such difference directly in the period result.

Subsequent expenses are capitalized when it is probable that future benefits associated to the expenses will be received by the Company. Recurring maintenance and repair expenses are registered in the result. The depreciation is calculated based on the depreciable amount, which is the cost of an asset, or another amount that substitutes the cost, deduced from the residual amount.

The depreciation is registered in the result based on the linear method, which reflects more properly the pattern of consummation of future economic benefits incorporated to the assets.

Leased assets are depreciated based on the shortest period between the leasing period and their shelf lives, unless it is reasonably certain that the Enterprise shall obtain the property by the end of the lease period. Land is not depreciated.

The estimated shelf lives for the current period, as well as for the comparative period, are presented in the table below..

Fixed assets Description	% yearly depreciation rate
Furniture and Utensils	10
Computing Equipment	20
Vehicles	20
Machinery and Equipment	10
Brands and patents	10
Software	20

The depreciation methods, shelf lives and residual amounts are revised by the end of each financial period, and eventual adjustments are registered as change of accounting estimates.

There was no estimate change for the 2020 period for depreciation, shelf live and residual amounts of the fixed assets.

Impairment test

Management annually reviews the net book value of its main assets with the purpose of evaluating events or changes in economic, operating or technological circumstances that may indicate impairment. When this evidence is identified and the net book value exceeds recoverable value, an impairment charge is recognized writing the net book value down to recoverable value.

Other (current and non-current) assets and liabilities

An asset is recognized in balance sheet when it is likely that its future economic benefits will be generated in favor of the Company and its cost or value may be reliably measured. A liability is recognized in the balance sheet when the Company has a legal or recognized obligation as a result of a past event, and funds may be required to settle this liability. Provisions are recorded based on the best estimates of risks involved.

Assets and liabilities are classified as current when their realization or settlement is expected to occur in the following 12 months. Otherwise, they are stated as non-current.

Loans and financing

They are registered by their face value added of interest calculated “pro-rata dia” until the day of closing the accounting statements. The installments due within a period superior to 12 months are registered as non-circulating liability.

Provision for contingencies

When there are risks of contingencies, for accounting purposes of such risks the Enterprise management uses estimates and expectancies of their juridical consultants, considering some specific concepts, especially interpretations of the Section 21 of NBC-TG-1000 - Resolution 1255/09 of the [Brazilian] Accounting Federal Council - CFC about procedures relative to Provisions, Liabilities and Contingent Assets.

In these lines, as per Section 21 of NBC-TG-1000, in almost all cases it will be clear if a past event originated a current obligation. In rare cases, such as during a lawsuit, it can be discussed whether some events took place, or whether such events resulted in a current obligation. In this case the entity must decide if the current obligation exists on the balance date when considering all evidence available including, for instance, the evaluation of experts. The evidence considered includes any additional evidence given by events after the balance date.

Based on evidences the Enterprise adopts as policy of initial register only when:

a) it has an obligation on the date of financial statements as result of a past event;

b) it is likely (that is, more likely to exist than not) that it will be required the transfer of economic benefits for liquidation;

c) the amount of the obligation can be reliably calculated.

On December 31st, 2020 the Company has lawsuits in progress with the expectation of probable loss in the amount of R$ 46 thousand, according to note 11.

Use of estimative

Preparing the financial statements requires that the management uses estimates to register some transactions that affect assets and liabilities, income and expenses, as well as to publish some information of the accounting statements. The final results of such transactions and information, when effectively made in subsequent periods, can be different from the estimates.

The main estimates associated to the Enterprise accounting statements are reviewed annually,and are related to the provision for contingencies and estimates relative to the selection of shelf lives of the immobilized and intangible assets.

Present value

The management evaluates periodically the need of adjustments to a current amount of all short- and long-term assets and liabilities. The management understands that it is not applicable any adjustment to a current amount because their assets and liabilities do not include interests or additions.

Revenue Recognition

Revenue is the fair value of the consideration received or receivable for rendering services over the Company's normal course of activities. The revenue is stated net of taxes, returns, rebates and discounts. In general, gross income amount is equivalent to the value of the issued invoices.

Financial revenues

Financial revenue is recognized according to the elapsed time under the accrual basis, using the effective interest rate method.

Current and deferred income and social contribution taxes for the period

The current and deferred income and social contribution taxes are recognized as expense or revenue in income (loss) for the year, except when it refers to items recorded under other comprehensive income (loss), or directly in shareholders' equity; hypothesis in which current and deferred taxes are also recognized under other comprehensive income (loss) or directly in shareholders' equity, respectively.

Provisions

Provisions are recognized when: (i) the Company has a present or constructive obligation as a result of past events; (ii) it is probable that an outflow of funds is required to settle the obligation; and (iii) the amount can be reliably estimated. The provisions do not include future operating losses.

Financial instruments

Financial instruments are only recognized as from the date the Company becomes a party of the agreements of financial instruments. When recognized, they are initially recorded at fair value plus transactions costs directly attributable to its acquisition or issue (when applicable). Their later measurement happens at balance sheet date, according to the rules established for each type of classification of financial assets and liabilities.

Statement of cash flows

The statement of cash flows has been prepared by the indirect method and is presented in accordance with Technical Pronouncement CPC 03 - Statements of cash flows, issued by the Committee of Accounting Pronouncements (CPC) and reflects changes in cash for the years presented.

3. Cash and cashequivalents

Description	2020	2019
Cash	**9**	8
Bank accounts	**360**	630

11. Provision for contingencies

During the normal course of its business, the Company is exposed to certain contingencies and risks, which include tax, labor and civil proceedings under dispute. As of December 31, 2020, the Company has claims considered probable losses in the amount of R$ 46 thousand (R$ 607 thousand on December 31, 2019) related to labor proceedings.

The Company has claims considered possible losses in the amount of R$ 304 thousand related to labor proceedings amount already guaranteed in court.

Other contingencies may result from possible tax inspections, given that the Company's tax books are subject to review and approval by the competent authorities in federal, state or municipal levels, retroactively, for varying periods according to the legislation in effect.

12. Related-partytransactions

Description	**2020**	2019

Other financial expenses	**(219)**	(117)
Total financial expenses	**(2,864)**	(2,766)
Total financial income (loss)	**(2,230)**	(709)

18. Insurance coverage (unaudited)

The Company follows the policy of taking out insurance for civil liability, certain vehicles and other needs in amounts considered sufficient to cover possible losses, considering the nature of its activities and the risk level involved, Given the nature of the risk assumptions adopted, they are not part of the scope of an audit of financial statements and therefore were not reviewed by our independent auditors,

19. Financial Instruments

The Company enters into financial instruments transactions, aiming to finance its activities or invest its available funds, These risks are managed by designing conservative strategies aiming at liquidity, profitability and security, The control policy consists of a permanent tracking of contractual rates versus market rates in effect.

The Company restricts its exposure to credit risks associated to banks and cash and cash equivalents by making its investments with top-tier financial institutions and in short-term notes, Credit risks of accounts receivable are managed through specific standards of credit analysis and establishment of exposure limits per customer.

Financial instruments are recorded in balance sheet accounts and consist of cash and cash equivalents (Note 3), trade accounts receivable (Note 4) and trade accounts payable (Note 9), whose estimated market values are substantially similar to the respective book values.

For the year ended December 31, 2020, there were no transactions with derivatives.

20. Explanation added to the translation for the English version

The accompanying financial statements were translated into English from the original Portuguese version prepared for local purposes, Certain accounting practices applied by the Company that conform to those accounting practices adopted in Brazil may not conform to the generally accepted accounting principles in the countries where these financial statements may be used.

INDEPENDENT AUDITORS' REPORT

Financial Statements Report

I have audited the accompanying financial statements of **COMVIVA TECHNOLOGIES COLOMBIA SAS.**, which include the comparative statements of financial position as of December 31st 2020 and December 31st 2019, the income statement, the statement of changes in Owner equity, the statement of cash flows and the explanatory notes for the period ending on the above date, as well as a summary of relevant accounting policies and other explanatory information.

Management's responsibility regarding the financial statements

Management is responsible for the preparation and proper presentation of the financial statements in accordance with Decree 3022 of 2013, compiled in Single Regulatory Decree 2420 of 2015, which incorporates International Financial Reporting Standards for SMEs, and the internal control that Management deems necessary to allow for the preparation of financial statements free of material misstatement, due to fraud or error.

External Auditor´s responsibility regarding financial statements

My responsibility is to express an opinion regarding the attached financial statements, based on my audit. I have carried out the audit in accordance with Part 2, Title 1 of Single Regulatory Decree 2420 of 2015, which incorporates the International Standards on Auditing - ISA. These standards require that I comply with ethical requirements, as well as plan and execute the audit in order to obtain reasonable assurance about whether the financial statements are free from material misstatement or not.

An audit involves applying procedures to obtain audit evidence on the amounts and information disclosed in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement in the financial statements, due to fraud or error. When making these risk assessments, the auditor takes into account the internal control relevant to the preparation and faithful presentation of the financial statements by the Company, in order to design the appropriate audit procedures depending on the circumstances, and with the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the adequacy of the accounting policies applied, the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I consider that the evidence of audit I have obtained provides a sufficient and adequate basis for my opinion.

Unqualified opinion

In my opinion, the financial statements faithfully present, in all material aspects, the financial situation of Comviva Technologies Colombia S.A.S., as of December 31st, 2020 and 2019, as well as its results and cash flows for the year ended on the above date, in accordance with Decree 3022 of 2013, compiled in Single Regulatory Decree 2420 of 2015, modified by Decree 2270 de 2019, which incorporates International Financial Reporting Standards for SMEs.

Report on other legal and regulatory requirements

Additionally, article 209 of the code of Commerce sets forth the obligation to express as part of my role the compliance to legal, internal norms and adequate internal control.

To carry out this evaluation I complied with the requirement in Title 1, Part 2 of Reglamentary decree 2420 of 2015 and applied the principles incorporated in the NIEA 3000 protocol.

My work was carried out by applying tests to evaluate the degree of compliance with the legal and regulatory provisions by the entity's administration, as well as the operation of the internal control process, which is also the responsibility of the administration. For the purposes of evaluating legal and regulatory compliance, I used the following criteria:

- Legal norms that affect the activity of the entity;
- Statutes of the entity;
- Shareholders Assembly minutes
- Other relevant documentation.

For the evaluation of internal control, I used the COSO model as a criterion. This model is not mandatory for the company, but it is an internationally accepted benchmark for configuring an adequate internal control process.

The internal control of an entity is a process carried out by those with corporate governance responsibility, management and other personnel, designated to provide reasonable assurance regarding the preparation of reliable financial information, compliance with legal and internal regulations, and the achievement of a high level of effectiveness and efficiency in operations.

An entity's internal control includes those policies and procedures that: (1) allow the maintenance of records that, in reasonable detail, accurately and faithfully reflect the transactions and the entity's assets disposition; (2) provide reasonable assurance that transactions are recorded with the necessary detail to allow the preparation of financial statements in accordance with the regulatory technical framework applicable to Group 2, which corresponds to the IFRS for SMEs, and that income and disbursements of the entity are being carried out only in accordance with the authorizations of the administration and those in charge of corporate governance.

This entity **COMVIVA TECHNOLOGIES COLOMBIA S.A.S.** which I audited, fully complied with the contributions to social security and workers compensation payments which were calculated from the monthly payroll in a timely manner.

Mail Correspondence, account vouchers, minutes and shareholders' register books are properly kept and preserved.

The actions put forth by the administrators of **COMVIVA TECHNOLOGIES COLOMBIA S.A.S.**

are aligned the statutes and instructions given by the general shareholders assembly. This Fiscal Reviewer audit report is generated on the 8th of March 2021.

Regards,

JOSE ANTONIO GONZALEZ CASTAÑEDA
Revisor Fiscal (Auditor Externo)

Its corporate purpose includes the following activities: 1.- The commercialization of computer and communication equipment, its parts or components, its peripherals and accessories, programs and supplies, consulting 2.- The development and control of software in computer systems, feasibility studies, analysis, design and programming of commercial, scientific and engineering applications, also allowing training in related activities. Based on its corporate purpose, the company may carry out the following activities: A) Administration of its own or third-party computer centers, B) Buying, selling, exchanging, exporting, importing and distributing all kinds of goods, raw materials and products related to the computing area, C) Enter into leasing contracts, 4.- Buy, dispose of or organize computer centers.

On going business hypothesis

When preparing the complete set of financial statements, **COMVIVA TECHNOLOGIES COLOMBIA** management evaluated its ability to continue as a going business. The financial statements presented are prepared on the assumption that it is fully active and will continue to function for the foreseeable future. For the time being there is no intention to liquidate it or to cease its operations, nor are there any uncertainties related to the operation of the business.

Note 2. BASIS FOR THE PRESENTATION OF THE FINANCIAL STATEMENTS

COMVIVA TECHNOLOGIES COLOMBIA presents its individual financial statements in accordance with the Financial Information Standards accepted in Colombia (NIF), established by Law 1314 of 2009 and regulated by Sole Regulatory Decree 2420 of 2015, which establishes the Regulatory Regime for the Financial Reporting preparations that make up group 2 comprising the International Financial Reporting Standard for Small and Medium Entities (IFRS for SMEs) issued by the International Accounting Standards Board (IASB) in its 2009 version and later updated to version 2015.

International financial reporting standards have two applicable reference frameworks: one for publicly traded companies, known as full IFRS, and another applicable to companies considered small and medium or private interest companies, known as IFRS for SMEs.

Based on the current characteristics of **COMVIVA TECHNOLOGIES COLOMBIA** and taking into account that:

a) **COMVIVA TECHNOLOGIES COLOMBIA** is not an issuer of liability or equity instruments in a public market, and therefore is not registered in the National Registry of Securities and Issuers -RNVE-

b) **COMVIVA TECHNOLOGIES COLOMBIA** is not a public interest entity according to Law 819 of 2003 article 17, and according to the definition these are entities that receive, manage or administer resources from the general public.

c) **COMVIVA TECHNOLOGIES COLOMBIA** is not the parent or subordinate of a national or foreign company, and does not carry out imports that represent more than 50% of the purchase operations.

d) **COMVIVA TECHNOLOGIES COLOMBIA**, has 21 direct employees

e) **COMVIVA TECHNOLOGIES COLOMBIA** has assets below the 30,000 SMLV threshold

COMVIVA TECHNOLOGIES COLOMBIA is classified in Group 2 and therefore must apply the IFRS for SMEs regulatory framework.

These financial statements correspond to the fifth annual financial statements presented in accordance with the IFRS SMEs; In preparing these financial statements, **COMVIVA TECHNOLOGIES COLOMBIA** has applied the accounting policies approved by the General Shareholders Meeting, and the significant accounting judgments, estimates and assumptions described in NOTE 3.

For the recognition of economic facts, the causation basis is applied. The economic facts are documented by means of internal and / or external sources, which comply with the requirements applicable to each case and adhere to the respective accounting vouchers, making their verification possible.

These financial statements have been prepared based on the historical cost model, with the exception of some financial assets that must be measured at fair value.

These financial statements are presented in Colombian pesos.

Note 3. SUMMARY OF THE MORE REPRESENTATIVE ACCOUNTING POLICIES

The quality policy for accounting and financial information is to issue "Individual General Purpose Financial Statements for external users that faithfully represent the economic reality in all its relevant aspects, also complying with the special standards issued by the authorities that exercise inspection, surveillance or control "

1.- Financial Assets

Financial assets within the scope of section 11 of the IFRS SMEs are classified as financial assets measured at fair value with a charge to results, financial assets measured at cost less impairment and financial assets measured at amortized cost.

All financial assets are initially recognized at fair value, and financial assets measured at cost and amortized cost are increased by transaction costs.

Financial assets classified as current assets are measured by the undiscounted amount of cash or other consideration expected to be received (net of impairment) unless the arrangement is, in effect, a financing transaction. If the arrangement constitutes a financing transaction, the entity will measure the financial asset at the present value of future payments discounted at a market interest rate for a similar debt instrument.

2.- Financial liabilities

Financial liabilities, in accordance with section 11, are classified as loans and accounts payable, or as derivatives designated as hedging instruments in an effective hedging relationship, as applicable. The Company determines the classification of financial liabilities at the time of its initial recognition.

All financial liabilities are initially recognized at their fair value, except in the case of loans and accounts payable accounted for at the transaction price where the directly attributable transaction costs are recognized. Likewise if the arrangement constitutes a financing transaction, the entity will measure the financial asset or financial liability at the present value of future payments discounted at a market interest rate for a similar debt instrument determined at initial recognition.

The Company's financial liabilities include accounts payable, financial derivatives and debts for loans received and other items that accrue interest.

Debt instruments such as financial obligations will be subsequently measured at amortized cost using the effective interest rate method.

3.- Revenue recognition from core/operational activities

Revenue from core activities originated from recoveries is recognized at the fair value of the received service/product, provided that the amount of the revenue can be measured reliably, it is probable that the benefits will be received, the degree of completion of the transaction and the costs incurred.

Income from interest on core business activities is recognized using the effective interest rate method in the item called financial income.

4.- Financial expenses for loans and debt operations

All borrowing costs are recognized in profit or loss in the period in which they are incurred using the effective interest rate method in an item called financial expenses.

5.- Income tax

The amounts originated from income tax represents the sum of the result from current tax and deferred taxes.

Current income tax assets and liabilities for the current period are measured as the amount that is expected to be recovered from the tax authorities or that would have to be paid. The tax rate and tax laws used to account for the amount are those in force, or nominally in force, as of the date of the report.

Current income tax related to items that are recognized directly in Owner Equity or in other comprehensive Results is recognized in the Statement of Changes in Owner Equity or in the Results Statement, respectively. The administration periodically evaluates the position adopted in the tax returns with respect to situations in which the applicable tax regulations are subject to interpretation and creates the required provisions in each case.

The estimate of the liability for income tax is calculated at the official rate of 32% for the year 2020, by the accounting causation method, on the highest value among the presumptive equivalent income of 0.5% of the taxable assets of the previous year or the net tax income. The asset or liability for income tax is presented net, after deducting the advances paid and the tax withholdings in favor.

Deferred income tax is recognized for temporary differences between the carrying amount of assets and liabilities and their corresponding tax bases. Deferred tax liabilities are recognized for all temporary differences that are expected to increase future taxable income. Deferred tax assets are recognized for all temporary differences that are expected to reduce future taxable profit, and any unused tax loss or unused excess presumptive income.

Deferred taxes are measured at the tax rate expected to be applied to temporary differences when they are reversed, based on the laws that have been approved or are about to be approved as of the date of the report. The book value of deferred tax assets is reviewed at each reporting date and is reduced to the extent that it is no longer probable that there will be sufficient taxable earnings to use all or part of the deferred tax asset. Unrecognized deferred tax assets are reviewed at each closing date and are recognized to the extent that it is probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax related to items recognized out of profit or loss is recognized in correlation with the underlying transaction, either in ORI or directly in Owner Equity. Deferred tax assets and liabilities are offset if there is an enforceable right to offset current tax assets and liabilities, and when deferred tax assets and liabilities are derived from income taxes corresponding to the same tax authority and fall on the same tax entity or taxpayer, or in different tax entities or taxpayers, but the Company intends to liquidate current tax assets and liabilities for their net amount, or simultaneously materialize its tax assets and liabilities.

7.- Property, plant and equipment

Property and equipment are recognized as assets when future economic benefits are derived from them and the cost can be reliably measured and presented at their acquisition costs, which do not exceed their recoverable amounts through future operations, less accumulated depreciation

Additions, renewals and improvements are recorded in the cost of the asset only if it is probable that the expected future economic benefits will be obtained and that these benefits can be reliably measured.

1.) Initial valuation and recognition.

The following goods recognized as Property, Plant and Equipment are subject to: Se reconoce como Propiedad, Planta y Equipo los bienes sujetos a:

- If their initial cost is less than ½ a Monthly Minimum Wage (SMLV) they are immediately recognized as an expense.
- If their initial cost is between ½ and 2 Monthly Minimum Wages (SMLV), it will be completely depreciated between the purchase date and December 31st of the same calendar year.

- If their initial cost is upwards of 2 Monthly Mínimum Wages (SMLV) it is recognized as an asset and depreciation will take place based on the accounting policy and general accounting principles.
- Construction, remodeling, habilitation and similar investments on third party property are recognized as Property, Plant and Equipment or intangibles and are subject to depreciation during the term of the rent/ lease contract, unless the cost of the later is less than the equivalent of one hundred and fifty (150) Monthly Minimum Wages in which case this will be recognized as an expense. If the contract term on third party property is less than the lifespan of the asset, then reconciliatory entries will be reflected in the general ledger.

2.) Subsequent measurement.

The entity will not appraise for Property, Plant and Equipment (NIC 16,29 y NIIF PYMES 17,15). However, in case an appraisal is needed for a specific need like a loan or collateral, this will be revealed in the notes to the financial statements.

The entity will only appraise Property, when Management deems necessary or at least every five (5) years.

8.- Depreciation Expenses

8.1. Depreciation is charged to distribute the cost of the assets minus their residual values throughout their estimated useful life, if this estimation is not available then the general market practice analyzed by the DIAN (tax authority) and the straight-line method is applied.

The following useful lives are used in the depreciation of property, plant and equipment:

Description	Useful Life	Method
Construction and buildings	30 to 60 years	linear
Machines and Equipment	10 years	linear
Office Equipment	10 years	linear
Computing and Communication Eq	5 years	linear
Transportation Equipment	5 years	linear
Medical Equipment	3 years	linear

Land has an indefinite useful life and therefore does not depreciate.

If there is any indication that there has been a significant change in the depreciation rate, useful life or residual value of an asset, the depreciation of that asset is revised prospectively to reflect the new expectations.

Repairs and preventive maintenance are recorded in the results for the year in an item called “maintenance expenses”.

8.2. In the case of completely depreciated assets that continue in use (NIC 16, 79b, NIIF 17.31); Totally depreciated assets, although in use, are written off. They can continue to be administered in some other information system off the books.

9. - Impairment of the value of non-financial assets

At each reporting date, property, plant and equipment, intangibles and investments measured at cost are reviewed to determine if there are indications that these assets have suffered an impairment loss. If there are indications of a possible impairment, the recoverable amount of any affected asset (or group of related assets) is estimated and compared with its carrying amount. If the estimated recoverable amount is less, the carrying amount is reduced to the estimated recoverable amount and an impairment loss is recognized in profit or loss.

10.- Value Impairment on financial assets

The Company will assess each year-end whether the financial assets or groups of financial assets are impaired. If there is objective evidence that an impairment loss has been incurred for the value of loans and receivables recorded at amortized cost, the amount of the loss is valued as the difference between the carrying amount of the asset and the present value of the assets. estimated future cash flows, discounted at the original effective interest rate of the financial asset (that is, the effective interest rate computed at the time of initial recognition). The book value of the asset is reduced through a provision account and the amount of the loss is recognized in the income statement for the year.

11.- Accounts receivable derived from operating activities

Sales are made under normal credit terms and the amounts of the accounts receivable do not accrue interest. When credit is extended beyond normal credit terms, accounts receivable are measured at amortized cost using the effective interest method. At the end of each reporting period, the carrying amounts of trade debtors and other accounts receivable are reviewed to determine if there is any objective evidence that they will not be recoverable. If so, an impairment loss is immediately recognized in profit or loss.

12.- Accounts payable derived from the normal operation activities

Accounts payable correspond to obligations based on normal credit conditions and do not accrue interest. The amounts of trade accounts payable denominated in foreign currency are converted into the functional currency using the exchange rate in effect on the date reported. Gains or losses from foreign currency exchange are included in other gains or losses.

13.- Employee benefits

The liability for obligations for employee benefits is related to what is established by the government for payments related to the entity's workers, which are considered as short-term benefits.

The cost of all employee benefits to which they are entitled as a result of services rendered to the entity during the reporting period are recognized as a liability, after deducting the amounts that have been paid directly to the employees. or as a contribution to a pension fund; If the amount paid exceeds the contributions to be made according to the services provided up to the date reported, that excess will be recognized as an asset to the extent that the advance payment will lead to a reduction in payments. to be made in the future or to a cash reimbursement and are recognized as an expense, unless they are recognized as part of the cost of an asset.

The Company records short-term benefits, such as salary, vacations, bonuses and others, on an accrual basis.

14.- Provisions

A provision liability is recognized only when there is a present obligation as a result of a past event and it is probable that you will have to dispose of economic resources to cancel the obligation, and the amount of the obligation can be reliably estimated. The liability is measured as the best estimate of the amount required to cancel the obligation on the date reported. Any adjustment to the amounts previously recognized will be recognized in results. When a provision is measured by the present value of the amount expected to be required to pay the obligation, a financial expense will be recognized in the results of the period in which it arises.

If the effect of the value of money over time is significant, provisions are discounted using a pre-tax interest rate that reflects, where appropriate, the specific risks of the liability. When discounted, the increase in the provision due to the passage of time is recorded as a financial expense.

Provisions for labor, legal and tax contingencies, contracts with third parties or others, depending on the circumstances, are estimated and recorded based on the opinion of the legal advisors, which are considered probable and reasonably quantifiable.

15.- Contingent Liabilities

A contingent liability is: (i) a possible obligation, arising as a result of past events and whose existence must be confirmed only by the occurrence, or in its case the non-occurrence, of one or more uncertain future events that are not entirely under control of the Company; or (ii) a present obligation, arising from past events, that has not been recognized in accounting because: (a) it is unlikely that an outflow of resources that incorporate economic benefits will be required to satisfy it; or (2) the amount of the obligation cannot be measured with sufficient reliability.

A contingent liability is not recognized in the financial statements, but is reported in notes, except in the event that the possibility of an eventual outflow of resources to settle it is remote. For each type of contingent liability at the respective closing dates of the periods reported, the Company discloses

(i) a brief description of the nature of the same and when possible, (ii) an estimate of its financial effects; (iii) an indication of uncertainties related to the amount or timing of the corresponding outflows of resources; and (iv) the possibility of obtaining eventual refunds.

16.- Contingent Assets

A contingent asset is an asset of a possible nature, arising from past events, the existence of which must be confirmed only by the occurrence, or in its case by the non-occurrence, of one or more uncertain events in the future, which are not entirely under the control of the Company.

A contingent asset is not recognized in the financial statements, but is reported in notes, but only in the event that the entry of economic benefits is probable. For each type of contingent asset at the respective closing dates of the periods reported, the Company discloses (i) a brief description of its nature and, when possible, (ii) an estimate of its financial effects. In accordance with section 21 of IFRS SMEs, the Company's policy is not to disclose in detail the information related to disputes with third parties related to situations involving provisions, contingent liabilities and contingent assets, to the extent that such information seriously damages the position of the company. In these cases, the Company provides information of a generic nature and explains the reasons that have led to such a decision.

17.- Cash and cash equivalents

They are considered cash equivalents, short-term, highly liquid and freely available investments that, without prior notice or relevant cost, can easily be converted into a certain amount of cash, are subject to a negligible risk of changes in value whose maturity maximum is three months from the date of acquisition and whose main destination is not that of investment or similar, but that of cancellation of short-term commitments.

Cash and short-term deposits in the statement of financial position include cash in banks and in cash and short-term deposits with an original maturity of three months or less.

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash and cash equivalents as defined above, net of outstanding bank overdrafts.

18.- Functional currency

The management of COMVIVA TECHNOLOGIES COLOMBIA considers that the Colombian peso is the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions, and for this reason, the financial statements are presented in Colombian pesos as their functional currency.

19.- Classification of current and non-current assets or liabilities

The Company presents its assets and liabilities in the statement of financial position according to its current or non-current classification.

An asset or liability is classified as current when:

- It is expected to be carried out, it is expected to pay it, or it is intended to consume it, in the normal course of business.
- It is expected to realize the asset or pay the liability, within the twelve months following the date of the year in which it is reported, or
- The asset is cash and cash equivalents.

The Company classifies the rest of its assets and liabilities as non-current

20.- Owners Equity

It is measured at the value of the cash or other resources received or to be received, net of the direct costs of issuance of the equity instruments, is made up of subscribed and paid-in capital, earnings for the year and accumulated earnings, and appreciation surplus.

21.- Cash Flow. -

a) The cash flow statement was done using the indirect method.

b) In addition to the Además de las fuentes y usos de inversión y financiación, relacionadas con los activos y los pasivos, se incluyen en esta categoría los siguientes conceptos (que no se clasifican como flujo de operación);

c) The following items are not classified as operating flows:

   i. Interest expense on loans to acquire eligible assets, whether they have been recognized as expenses or capitalized,

   ii. Dividends payed out,

   iii. Cash used for improvements on third party property, construction and commissioning

   iv. Capital payments on loans,

   v. Those from one time gains on the sale of fixed assets.

22.- Exchange rate differences. –

REGULATION: Art. 269, 285, y 288 ET

Art. 269. Asset value of assets in foreign currency. The value of assets in foreign currency are estimated in local currency at the time of their initial recognition at the representative market exchange rate, less credits or payments valued at the same representative market exchange rate of the initial recognition.

Art. 285. Liabilities in foreign currency. The value of liabilities in foreign currency are estimated in local currency at the time of their initial recognition at the representative market exchange rate, less credits or payments measured at the same representative market exchange rate of the initial recognition.

Art. 288. Adjustments due to exchange rate difference. Income, costs, deductions, assets and liabilities in foreign currency will be measured at the time of their initial recognition at the representative market exchange rate.

In accounting under IFRS, the exchange rate difference has two components:

1. Realized exchange rate difference: Which is the one determined between the date of origin of the asset or liability in foreign currency and the date on which the partial or total payment is received or made.
2. Mark to market or unrealized exchange rate difference: That corresponds to the one calculated with the balances of assets and liabilities in foreign currency that as of December 31 of each year remain with a balance.

COMVIVA TECHNOLOGIES COLOMBIA, By policy, it was defined that the mark to market will be made based on the last Thursday of each month, and the exchange rate difference with the TRM of that day is calculated, except for the annual closing of December 31 of each year, in which case the TRM of December 31st is used. December, and the annual closing of the INDIAN year that culminates on March 31st.

23.- Events that occurred after the accounting closure of the previous period:

23.1. Body that approves the financial statements (NIC 10.17; NIIF PYMES 32.9): The financial statements were authorized for publication by the General Assembly.

23.2. Approval date of the financial statements (NIC 10.17, 10.18; NIIF PYMES 32.9): The financial statements were approved on 01-04-2021 and do not reflect events that occurred after that date, as stated in the Management Letter to the External Auditors (statutory audit).

23.3. Inability of partners, shareholders or similar to change the figures in the financial statements (NIC 10.17, 10.18; NIIF PYMES 32.9): Once the financial statements are approved, the General Assembly does not have the power to make or order changes in the figures or other data that comprise them.

23.4. Post-closing events that do not involve adjustments (NIC 10.21, NIIF PYMES 32.10):

- There are no post-closing events that require significant adjustments or disclosures

Note 4.- COVID19 effects

On the impact of the coronavirus on the entity: “Note 4. Events that occurred after the reporting period On March 11, 2020, after the reporting period, the World Health Organization –WHO– declared the spread of COVID 19 as a pandemic. Subsequently, on March 12, 2020, the national government declared “National Health Emergency and Quarantine” as a consequence of the spread of COVID 19 in Colombia, issuing a series of provisions to contain its spread; such as: exceptional traffic restriction measures, the drastic reduction of activities and the issuance of economic regulations, among others; that are expected to significantly affect the country’s economic activity and markets in general. As of

the date of issuance of the financial statements, the duration of the aforementioned exceptional measures and its effects is unknown on the financial situation, the result of operations and cash flows of the entity. As these provisions are events subsequent to the reporting period, they are considered as subsequent events, which do not require adjustment and do not generate an impact on the recognition and measurement of assets and liabilities at the date of preparation of the financial statements. Likewise, the effects that these events could have on the financial situation, the result of the operations and cash flows of the entity in the future cannot be reasonably estimated.

Report on financial statements

Identification of the financial statements object of the audit

We have audited the attached financial statements of COMVIVA TECHNOLOGIES (ARGENTINA) S.A. (from now on, indistinctly mentioned "COMVIVA TECHNOLOGIES (ARGENTINA) S.A." or the "Partnership"), which consists of the statement of financial condition as of June 30th 2020, income statement, net worth development and cash flow of the ended fiscal year, as well as a summary of the significant accounting policies and other explanatory information included in notes 1 to 9 and annexes I to IV.

Figures and other information of the fiscal year ended on June, 30th 2019, restated in June of 2020 currency according to what was pointed out in note 1.2 to the attached financial statements, are part of the financial statements above mentioned and it´s presented to be exclusively interpreted related to the figures and the information of the current fiscal year.

Responsibilities of the Board of Directors in relation to financial statements

The Board of Directors of the Partnership is responsible for the preparation and fair presentation of the attached financial statements according to Argentine professional accounting standards and of the internal control needed to allow the preparation of financial statements free from significant misstatements.

Responsibility of auditors

Our responsibility entails expressing an opinion about the attached financial statements based on our audit. We have carried out our assessment in accordance with the audit standards of the Technical Resolution N° 37 of the Argentine Federation of Professional Councils of Economic Sciences. Such standards require that we comply with the ethical requirements, as well as plan and execute the audit to determine with reasonable certainty that the financial statements are free from significant misstatements.

An audit entails the application of procedures to obtain evidence about the figures and information submitted in the financial statements. The selected procedures depend on the professional judgement of the auditors, including risk assessment of significant misstatements in the financial statements. When risk assessing, the auditors take into account the corresponding internal control for the preparation and fair presentation by the Partnership of the financial statements, so as to design the proper audit procedures for the circumstances and not to express an opinion about the efficiency of the internal control of the Partnership. An audit also includes the assessment of the adequacy of the accounting policies applied and the reasonability of the accounting estimates made by the Board of Directors of the Partnership, as well as the assessment of the overall presentation of the financial statements.

We believe that the evidence that we have obtained is appropriate and sufficient to provide a basis for our audit opinion.

Opinion

In our opinion, the attached financial statements reasonably present, in all its significant aspects, the financial condition of COMVIVA TECHNOLOGIES (ARGENTINA) S.A. as of June 30th 2020, as well as its results, the evolution of its net worth and cash flow corresponding to the ended fiscal year on that date, according to the Argentine professional accounting standards

Other matters

The financial statements of the fiscal year ended on June 30th 2019 were audited by other professional, who has issued an unqualified report on October 22nd, 2019.

Report on other legal and regulatory requirements

a) As explained in note 9 the attached financial statements emerged from the accounting records of the Partnership maintained, in its formal aspects, in accordance with the legal standards, except that:

   i) the inventory and balance sheet book, the information of the fiscal year ended on June 30th 2020; and,

   ii) the journal, book entries of the month of June 2020.

b) As set forth in the financial statements of the Partnership, the receipt accrual liability as of June 30th 2020 in favor of the Argentine Integrated Social Security System under retirement payments and contributions amounted to 8,401,377, not claimable at that date.

c) We have applied the procedures on prevention of criminal assets laundering and financing of terrorism set forth in the Resolution N°420/11 of the Argentine Federation of Professional Councils of Economic Sciences.

NOTES TO FINANCIAL STATEMENTS FOR FISCAL YEAR ENDED JUNE, 30TH 2020

(presented comparatively for the fiscal year ended on June, 30th 2019.) (in pesos)

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

1.1 Accounting standards applied

These financial statements have been prepared and exposed according to the Technical Regulations and Interpretations of the Argentine Federation of Professional Councils of Economic Sciences (FACPCE), taken by the Argentine Federation of Professional Councils of Economic Sciences (C.P.C.E.C.A.B.A.), in force and applicable to entities not included in the public tender offer regime and which has not opted for the application of International Financial Reporting Standards (Argentine professional accounting standards).

1.2 Unit of measure

Financial statements have been prepared in constant currency recognizing the effects of inflation according to the corresponding generally accepted professional accounting standards.

In the restatement to reflect the variations in the currency purchasing power the adjustment method established by the Technical Resolution Nº 6, its amending and supplementing provisions were followed in the way it was approved and regulated by the Argentine Federation of Professional Councils of Economic Sciences

The index used for the restatement is the Consumer Price Index (CPI) published by the National Institute of Statistics and Censuses (INDEC), from January 1st 2017 and, backwards, Internal Index Wholesale Prices (IPIM) made by this Institute or, in its absence, consumer price index published by the General Directorate of Statistics and Census of the City of Buenos Aires. Index variations used to restate this financial statements have been of 42.76% in the fiscal year ended on June, 30th 2020 and of 55.75% in this fiscal year.

By Resolution C.D. N° 107/2018 of the CPCECABA, amended on April 3rd 2019 by Resolution C.D. N° 18/2019 of the CPCECABA, the second part of the resolution JG FACPCE N° 539/18 was approved, as indicated in the Annex of the mentioned Resolution of the CPCECABA, mandatorily applicable for the financial statements of fiscal years or intermediate periods closed as of December 31st 2018, inclusive, considering the possibilities of using certain simplifications as regards to the methodology established in the TR N° 6. In the CPCECABA standards different relevant aspects are also defined to apply the procedures of restatement of the financial statement figures.

The Partnership applied the inflation adjustment of the TR 6, with the following option granted by the Res. JG 539/18:

Option of determining and presenting financial performance and holding (including RECPAM) in one line

The Partnership exercised the option of the TR 6 and the Res. JG 539/18 of presenting the R.E.C.P.A.M. included in the financial performance and holding in only one line.

Non-opening of Financial performance and holding (RECPAM included) generates the impossibility of determining the real magnitude of the different components of the financial performance and holding, neither their nominal magnitude adjusted by inflation and the RECPAM effect on those results. This limitation also prevents the determination of certain financial ratios, as financial assets performance, the cost of debt, leverage, etc.

1.3 Comparative information

According to what was asked by the Argentine professional accounting standards, financial statements as of June 30th2020, with its notes and annexes, are presented comparatively with the figures of the fiscal year ended on June 30th 2019.

Certain amounts of the financial statements as of June 30th 2019 have been reclassified to adjust them to the corresponding presentation of the accounting standards as of June 30th 2020. The reclassifications performed do not imply modifications in the net worth as of June 30th 2019 nor in the operation results for the fiscal year ended on that date.

1.4 Main assessment criteria applied in the preparation of the accounting standards.

a) Monetary items:

Cash and banks, credits and debts are expressed at their nominal value at the end of each fiscal year

b) Assets and liabilities in foreign currency:

They have been assessed according to the suitable exchange rate or rate applied at the end of each fiscal year.

c) Other assets:

Supplies: Current replacement cost has been assessed at the end of each fiscal year, it does not exceed its recoverable value.

d) Fixed assets:

Acquisition cost: they have been valued at the acquisition cost restated according to what is mentioned in note 1.2.

Depreciations: fixed assets are depreciated following the straight-line method since the acquisition year, applying the aliquots estimated for each fixed asset, determined according to the estimated lives. The cumulative depreciations have been restated according to what is mentioned in note 1.2.

Fixed asset value does not exceed the estimated use value.

e) Capital stock, earnings allocated to reserves and unallocated earnings:

Net worth balances adjusted at the beginning of the fiscal year were updated at the end of the fiscal year according to what was mentioned in note 1.2.

Capital stock was restated in currency as at closing date, according to what was established in note

1.2. The difference with the nominal value is shown as "capital adjustment" in the net worth.

Unallocated earnings are restated in currency as at closing date, according to what was established in note 1.2.

The result of the fiscal year was obtained by the difference of the net worth at the beginning, the movements of their accounts, and the net worth at the end, measured in constant currency as of June 30th 2020.

f) Income tax:

The Partnership determines the accounting charge for income tax according to the method of the deferred tax which considers the effect of the temporary differences originated in the different measuring base of assets and liabilities according to the accounting and tax criteria, and of the existing tax loss carryforward and tax credits not used tax deductible of future taxable incomes, calculated considering the prevailing tax rate, and the governing one at the moment of the reversion.

On December, 29th 2017, Act N° 27,430 of the Tax Reform was published, which came into force the day after its publication. The tax reform introduces amendments in the Income Tax Act, including the reduction of the aliquot which levies retained company earnings of 35% to 25% as of January 1st 2020, with a transitional model for the two fiscal years starting on January, 1st 2018, where the aliquot will be 30%. The main accounting impact of the new standard is the measuring of assets and liabilities by deferred tax, as they have to be recognized applying the tax rate applied on the dates when the differences between book and tax values are reversed or used.

Likewise, by virtue of the amendments introduced by Acts N° 27.430 and N° 27.468 of Income Tax Act ("ITA"), the adjustment procedure for tax inflation considered in article 95 of the ITA (static and dynamic adjustments), in the fiscal year when variation percentage in the general level CPI accumulated in the thirty six (36) months before the end of the fiscal year liquidated, above one hundred percent (100%) shall be applicable for the fiscal years starting on January 1st 2018, Without limiting the foregoing, as regards to the first, second and third fiscal years since its entry into force, that procedure shall be applicable if the variation of this index, estimated from the beginning till the end of each of these fiscal years, is above fifty five percent (55%), a thirty percent (30%) and a fifteen percent (15%) for the first, second and third year of application, respectively. Nevertheless, the adjustment for tax inflation (positive or negative) that shall be applied regarding the first, second and third fiscal years starting on January 1st 2018 shall only be computable on a third part of the period of origin while the other two remaining thirds, in equal parts, shall be computable on the two immediately following tax periods.

The "Social Solidarity and Productive Reactivation Act N° 27.541" by means of which public emergency is declared in economic, financial, tax, administrative, social security, tariff, energy, health and social issues was published in the Official Gazette on December 23rd 2019. Within the amendments introduced, as regards to income tax, it suspended until the fiscal year starting on January 1st 2021 the reduction of 25% of the income tax aliquot, keeping the rate of 30%; and stablished that the adjustment for tax inflation, corresponding to the first and second fiscal years starting on January 2019, if applicable, shall be attributed 1/6 in this tax period and the remaining 5/6, in equal parts, in the immediately following 5 tax periods. The provisions do not preclude the calculation of the remaining thirds corresponding to the previous periods.

During the fiscal years finished on June 30th 2020 and 2019, CPI variation was of 42.76% and 55.75%, respectively. As a consequence, as the established variations were reached for both fiscal years (55% for the first and 30% for the second) the Partnership determined the income tax applying the provisions mentioned in the previous paragraphs.

Benefits Act N° 25,922

The Partnership is entitled to the benefits of Act N° 25,922 "Software Industry Promotion Act", published in the Official Gazette on September 9th 2004. Subjects adhering to this regime shall enjoy tax stability for ten years reaching all national taxes, meaning direct taxes, tax rates and contributions having those registered beneficiaries as taxable people. Tax stability means that subjects developing software production activities shall not see their national total tax burden increased when incorporating the Partnership to this general legal framework.

The beneficiaries of the regime of this act developing software development and investigation activities and/or processes of quality certification of software developed in the national territory and/or software export, shall be able to turn into a non-transferable tax credit certificate up to 70% of the employer contributions effectively paid on the total payroll of the company for social security systems and subsystems considered in Acts N° 19,032 (National Social Security Administration), 24,013 (National Employment Fund) and 24.241 (Retirement and Pension System). The beneficiaries could use those certificates to pay national taxes originated in the software industry, specially value added tax or other national taxes and their advanced payments, if applicable, excluding income tax.

Subjects adhering to the promotion regime established by this act will have a relief of 60% in the total amount of the income tax determined in each fiscal year, while investigation and development and/or quality certification processes and/or software exports expenditures are charged in the extent determined by the implementing authorities. The benefit only applies to the activities corresponding to the promotion regime.

Act N° 26.692, published in the Official Gazette on August 18 2011, made amendments to the software industry promotion act, and among others it extended its validity up to December 31st 2019.

Act N° 27,506 “Regime Of Promotion Of The Knowledge Economy”, which should replace software industry promotion Act with effect from January 1st 2020 was published in the Official Gazette on June 10th 2019. Nevertheless, afterwords the act was null and legally invalidated, and then amended for its approval with certain modifications on October 8th 2020, the regulations pending at the issuance date of this financial statements.

g) Cash flow statement:

Such statement is presented according to the indirect method, going from the net result of each fiscal year, adding or deducting, as appropriate, those entries involved in its determination, but that neither affected funds nor changes in assets and liabilities. Cash and banks and sales credits are considered concepts of “Cash and its equivalents” according to the following detail:

Category	**...2020...**	...2019...
Cash and banks	**31,430,540**	27,763,236
Sales credits (*)	**13,477,563**	17,310,859
Total cash and its equivalents	**44,908,103**	**45,074,095**

(*) Corresponds to “Cash to be deposited” due in less than 90 days.

h) Estimates:

The preparation of the financial statements, according to accounting standards in force, requires the Board of Directors of the Partnership to make estimates affecting the determination of the amounts of assets and liabilities and the disclosure of contingencies at the date of presenting the financial statements. The real amounts and results may defer from the estimates made for the preparation of the financial statements.

For other non-recoverable credits: it was constituted on the basis of an individual analysis of recoverability of receivables.

For deferred tax: it was constituted on the basis of the individual analysis of the probability of reversion of the items of the deferred tax.

For lawsuits and contingencies: it was constituted to cover possible claims and contingency situations that could create liabilities for the Partnership. The opinion of the legal advisers of the Partnership was considered in the estimates of amounts and likelihood of occurrence.

i) Results:

The income statements were restated in the currency as at closing date, according to what was established in note 1.2. The differences with their nominal values were included in the line “Financial performance and holding (includes RECPAM)” of the income statement.

2. COMPOSITION OF THE MAIN CATEGORIES OF THE FINANCIAL STATEMENTS.

The composition of the main categories of the financial statements are the following:

	...2020...	...2019...
2.a) Cash and banks		
Cash in local currency	**56,463**	731,029
Cash in foreign currency (Annex III)	**384,635**	94,175

Total	**12,071,914**	5,836,855
2.h) Financial debts		
Related parties (note 5)	**41,824,802**	34,070,703
Total	**41,824,802**	34,070,703
2.i) Net incomes for provision of services		
Incomes for provision of services (1)	**349,003,857**	369,378,538
Subtotal	**349,003,857**	369,378,538
Gross income tax	**(2,302,335)**	(4,021,594)
Total	**346,701,522**	365,356,944
(1) Incomes for provision of services		
Domestic market	**124,789,791**	215,009,573
Foreign market	**224,214,066**	154,368,965
Total	**349,003,857**	369,378,538
2.j) Other incomes and expenses, net		
Cost recovery	**97,965**	759,849
Other non-recoverable credits	**(8,585,943)**	(1,386,736)
Donations	**(48,534)**	(52,531)
Total	**(8,536,512)**	(679,418)

3. INCOME TAX

As of June, 30th 2020 and 2019, the Partnership determined a charge for income tax for the ended fiscal year on those dates as follows:

	...2020...	...2019...
Deferred income tax	**4,931,958**	-
Current income tax	**(1,824,265)**	(2,276,275)
Income tax	**3,107,693**	(2,276,275)

The conciliation between the charge to income registered in the income tax and the one resulting from applying the rate established by the standards in force at the accounting result of the fiscal year ended on June 30th 2020 and 2019 are the following:

	...2020...	...2019...
Result of the financial year before income tax	**(594,646)**	16,166,951
At tax rate (1)	**71,358**	(1,940,034)
Permanent differences (2)	**3,036,335**	(336,241)
Income tax	**3,107,693**	(2,276,275)

(1) The rate applied is of 12%, which has the reduction of 60%, resulting from the tax benefit in the Software Act according to what was mentioned in note 1.4.f.

(2) Includes the effect for rate change and the R.E.C.P.A.M.

Likewise, the composition of the net deferred tax as of June 30th 2020 and 2019 and the variations registered in the fiscal year ended on June 30th 2020 are the following:

	...2020...	Variations	...2019...
Asset / (Liability) for Deferred Tax			
Fixed assets	**(114,716)**	1,500,495	(1,615,211)
Salaries and payroll taxes	**16,039,332**	(3,131,937)	19,171,269
Provisions	**5,160,000**	5,160,000	-
Cumulative tax loss carryforward	**7,181,778**	(4,320,926)	11,502,704
Adjustment for tax inflation	**24,030,049**	6,630,406	17,399,643
Total	**52,296,443**	5,838,038	46,458,405
To the tax rate	**5,793,771**	218,762	5,575,009
Provision for deferred tax (Annex II)	**(861,813)**	4,713,196	(5,575,009)
Total	**4,931,958**	4,931,958	-

(1) The balance corresponds to specific tax loss carryforward of foreign source, which prescribe in the fiscal year of June 30th 2022.

(2) Estimated considering the reversion periods (see note 1.4.f)

(3) Includes the result for rate change and the R.E.C.P.A.M.

4. SOCIAL STOCK

As of June, 30th 2020 and 2019, capital stock amounted to 2,255,800, represented by 2,255,800 common, registered, non-transferable, with voting right per share and nominal value of $1 each. It was totally subscribed, integrated and registered before the Superintendence of Corporations.

5. PARTNERSHIPS SECTION 33 ACT N° 19,550 AND OTHER PARTIES RELATED

As of June 30th 2020 and 2019, the shareholding structure of the Partnership was the following:

	Shares (1)		
Shareholders	**Amount**	**Nominal value**	**% Share**
Comviva Technologies BV	2,255,010	2,255,010	99.96%
Comviva Technologies Ltd.	790	790	0.04%
Total	**2,255,800**	**2,255,800**	**100%**

(1) Common, registered, non-transferable shares, with voting right per share and nominal value of $1 each (note 4).

As of June 30th 2020 and 2019, the balance with related parties are the following:

	Sales credits (1)	Commercial Debt (1)	Financialdebts (1)
Comviva Technologies BV	156,590,521	57,022,329	41,824,802
Comviva Technologies Ltd.	1,218,546	-	-
Totals 2020	**157,809,067**	**57,022,329**	**41,824,802**
Totals 2019	**115,243,143**	**48,178,093**	**34,070,703**

(1) Correspond to balances in foreign currency (see Annex III)

As of June 30th 2020 and 2019, the transactions with related parties were the following:

	...2020...	...2019...
Incomes for provision of services:		
- Comviva Technologies BV	**174.010.475**	132,782,439
- Comviva Technologies Ltd.	**23,776,636**	-
Third parties services and supplies applied:		
- Comviva Technologies BV	**-**	19,894,945

6. GUARANTEES AND SURETIES IN FORCE

As of June 30th 2020 and 2019, the Partnership kept guarantees and liability insurance in favor of their customers and bank sureties, according to the following detail:

Type	**Currency of origin**	**...2020...**	...2019...
- Surety insurance	AR$	**1,643,885**	5,519,188
	U$S	**24,759**	45,201
- Liability insurance	U$S	**56,000,000**	41,000,000
- Bank sureties	U$S	**-**	56,511

7. BREAKDOWN BY FINANCING TERMS AND INTEREST RATES OF CREDITS AND DEBTS AS OF JUNE 30TH 2020

Terms	**Credits (1)**	**Debts (1)**
Without specified term	157,809,067	113,039,334
Due	411,000	-
Due up to three months	48,744,759	37,918,388
Due between three and six months	5,001,320	7,430,760
Due between six and nine months	-	762,967
Due between nine and twelve months	9,388,281	20,880,170
Due above twelve months	733,635	-
Total	**222,088,062**	**180,031,619**

(1) Neither do they accrue interests nor have adjustment clause except for: i) financial debts, accruing interests according to the conditions agreed with Comviva Technologies BV; and ii) payment facility plans included within the categories Salaries and payroll taxes of liabilities accruing interests a monthly rate of 2.5%.

8. RESTRICTIONS TO THE DISTRIBUTION OF CUMULATIVE RESULTS

According to the legal dispositions in force, 5% of the net income of the fiscal year should be appropriate to the legal reserve until it reaches 20% of the social stock. As of June 30th 2020, the amount of the legal reserve amounts to 709,973.

9. EFFECTS OF COVID-19 PANDEMIC IN THE ACTIVITIES OF THE PARTNERSHIP

On December 2019 the onset in China of a new coronavirus SARS-CoV-2 (known as “COVID-19”) was known, after December 31st 2019 it expanded practically all around the world. On March 11th 2020 the WHO declared the outbreak of COVID-19 as a pandemic. This emergency situation and the measures adopted in the different countries to face it have significantly affected the international economic activity with different impacts in each country affected and business sectors. The Partnership Board estimates that this situation will not have an adverse and significant effect on entity operations, as the activity of the Partnership has continued operating normally besides the different regulations established by the National Executive Power. Nevertheless, the future evolution of COVID-19 is very uncertain and cannot be predicted, as well as the measures needed to contain it and deal with its impact, and, therefore, the results, developments, and real commercial decisions can differ from the ones considered in the prospective declaration of the administrators about the impact of COVID-19 in the operations of the entity.

As a consequence of the above mentioned, at the date of issuance of this balance the transcription is pending:

i) the inventory and balance sheet book, the information of the fiscal year ended on June 30th 2020; and,

ii) the Journal, book entries of the month of June 2020.

COMVIVA TECHNOLOGIES MYANMAR LIMITED

(Incorporated in Republic of the Union of Myanmar)

CORPORATE INFORMATION

Directors:
Atul Madan (Resigned with effect from September 2020)
Neeraj Jain
Soe San Oo (Resigned with effect from March 15, 2020)

Registered Office:
MICT Park, Building(19), 6th Floor,
Room (704) Hlaing Township
Yangon Republic of the Union of Myanmar

Principal banker:
State Bank of India

Auditors:
JF Group – Certified Public Accountants & Auditors

DIRECTORS' REPORT

The Directors have pleasure in submitting their report and the audited financial statements of COMVIVA Technologies Myanmar Limited "(the Company)" for the financial period ended 30 September 2020 as per Myanmar Companies Law Section - 261.

DATE OF INCORPORATION

The Company was incorporated on 6 December 2019.

PRINCIPAL ACTIVITY

The principal activity of the Company is providing Integrated Value Added Services (VAS) to telecom companies in Myanmar.

RESULT FOR THE FINANCIAL PERIOD

	MMK
Profit for the financial period	216,708,749

DIVIDEND

No dividend was paid during the financial period and the Directors do not recommend the payment of any dividend for the current financial period.

RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the current financial period.

BAD DEBTS OR DOUBTFUL DEBTS

Before the statement of profit or loss and other comprehensive income and statement of financial position were made out, the Directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of allowance for doubtful debts, and satisfied themselves that there were no known bad debts and that allowance need not be made for doubtful debts.

As at the date of this report, the Directors are not aware of any circumstances which would render it necessary to write off bad debts or to make allowances for doubtful debts in the financial statements of the Company.

CURRENT ASSETS

Before the statement of profit or loss and other comprehensive income and statement of financial position were made out, the Directors took reasonable steps to ensure that for any current assets which were unlikely to be realised in the ordinary course of business, their values as shown in the accounting records of the Company have been written down to an amount expected if realised.

At the date of this report, the Directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Company misleading except as otherwise stated in the financial statements.

VALUATION METHOD

At the date of this report the Directors are not aware of any circumstance, which have arisen and which may render adherence to the existing method of valuation of assets or liabilities of the Company misleading or inappropriate.

CONTINGENT AND OTHER LIABILITIES

At the date of this report, there does not exist:

(i) any charge on the assets of the Company which has arisen since the end of the financial period which secures the liabilities of any other person, or

(ii) any contingent liability of the Company which has arisen since the end of the financial period.

No contingent or other liability has become enforceable, or is like to become enforceable, within the year of 12 months after the end of the financial period which, in the opinion of the Directors, will or may substantially affect the ability of the Company to meet its obligations when they fall due.

CHANGE OF CIRCUMSTANCES

At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or in the financial statements of the Company, which would render any amount stated in the financial statements as misleading.

ITEMS OF AN UNUSUAL NATURE

The results of the operations of the Company during the financial period were not, in the opinion of the Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect the substantially the results of the operations of the Company for the financial period for which this report is made.

SHARE CAPITAL

The Company issued shares during the financial period which is disclosed in Note 8 of the financial statements.

No option to take up unissued shares in the Company was granted during the financial period and there were no shares under options at the end of the financial period in respect of shares in the Company.

DIRECTORS OF THE COMPANY

The Directors who have held for office as at the date of this report are:

Atul Madan

Neeraj Jain

Soe San Oo

DIRECTORS' BENEFITS

During and at the end of the financial period, no arrangement subsisted to which the Company is a party, with the object or objects of enabling the Directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other corporate body.

The Directors have not received or become entitled to receive any benefit (other than a benefit stated in the financial statements) by reason of a contract made by the Company or a related corporation with the Director or with a firm of which the Director is a member, or with a member in which the Director has a substantial financial interest.

SIGNIFICANT EVENT DURING THE FINANCIAL PERIOD

Significant event during the financial period is disclosed in Note 17 to the financial statements.

DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMETNS

The Directors are responsible to ascertain that the financial statements give a true and fair view of the financial position of the Company as at 30 September 2020, and of its financial performance and cash flows for the financial period as at 30 September 2020. In preparing these financial statements, the Directors are required to:

(a) adopt appropriate accounting policies which are supported by reasonable judgements and estimates and then apply them consistently;

(b) comply with the disclosure requirements of the Myanmar Companies Law Section - 262 and Myanmar Financial Reporting Standards ("MFRSs") or, if there have been any departures in the interest of true and fair presentation, ensure that these have been appropriately disclosed, explained and quantified in the financial statements;

(c) maintain adequate accounting records and an effective system of internal controls;

(d) prepare the financial statements on a going concern basis unless it is in appropriate to assume that the Company will continue its operations in the foreseeable future; and

(e) control and direct effectively the Company in all material decisions affecting its operations and performance and ascertain that such decisions and/or instructions have been properly reflected in the financial statements.

The Directors confirm that they have complied with the above requirements in prepari**ng the financial statements.**

Signed on behalf of the Board,

Neeraj Jain	**Ankit Sharma**
Non-Executive Director	**Non-Executive Director**

Date: 29th December, 2020

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF COMVIVA TECHNOLOGIES MYANMAR LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of COMVIVA TECHNOLOGIES MYANMAR LIMITED "(the Company)", which comprise the statement of financial position of the Company as at 30 September 2020, and the statement of profit and loss and other comprehensive income, statement of changes in equity and statement of cash flows for the financial period then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 1156-1166.

In our opinion, the accompanying financial statements of the Company are properly drawn up in accordance with the provisions of the Myanmar Companies Law (the "Law") and Myanmar Financial Reporting Standards ("MFRS"), so as to give a true and fair view of the financial position of the Company as at 30 September 2020 and of the financial performance, changes in equity and cash flows of the Company for the financial period ended at 30 September 2020.

Basis for Opinion

We conducted our audit in accordance with Myanmar Standards on Auditing ("MSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company together with the ethical requirements that are relevant to our audit of the financial statements in Myanmar, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

The Directors of the company are responsible for the other information. The other information comprises the Directors' Report set out on pages 1148-1149.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Myanmar Companies Law Section 261 and 262 and MFRS, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Director's responsibilities include overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with MSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with MSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements, of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements of the Company, including the disclosures, and whether the financial statements of the Company represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

1. CORPORATE INFORMATION

COMVIVA Technologies Myanmar Limited was registered on 6 December 2019 as a limited liability company in the Republic of the Union of Myanmar.

The registered office and principal place of business of the Company is located MICT Park, Building 19, 6th floor, Room 704, Hlaing Township, Yangon, Republic of the Union of Myanmar.

As at 30 September 2020, the Company's holding company is COMVIVA Technologies Limited, which is incorporated in Republic of India.

The financial statements are presented in Myanmar Kyat ("MMK"), which is also the Company's functional currency.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors on (Signing date).

2. PRINCIPAL ACTIVITY

The principal activity of the Company is providing Integrated Value Added Services (VAS) to telecom companies in Myanmar.

3. BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with Myanmar Financial Reporting Standards ("MFRS") and the provisions of the Myanmar Companies Law (the "Law") in Republic of the Union of Myanmar.

The financial statements of the Company have been prepared under the historical cost convention except as otherwise stated in the financial statements.

The preparation of financial statements in conformity with MFRS requires the Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses and disclosure of contingent assets and contingent liabilities. In addition, the Directors are also required to exercise their judgement in the process of applying the accounting policies. The areas involving such judgements, estimates and assumptions are disclosed in Note 5 to the financial statements. Although these estimates and assumptions are based on the Directors' best knowledge of events and actions, actual results could differ from those estimates.

4. SIGNIFICANT ACCOUNTING POLICIES

4.1 Employee benefits

(a) Short term employee benefits

Wages, salaries, social security contributions, paid annual leave, paid sick leave, bonuses and non-monetary benefits are measured on an undiscounted basis and are expensed when employees rendered their services to the Company.

Short term accumulating compensated absences such as paid annual leave are recognised as an expense when employees render services that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur and they lapse if the current period's entitlement is not used in full and do not entitle employees to a cash payment for unused entitlement on leaving the Company.

Bonuses are recognised as an expense when there is present, legal or constructive obligation to make such payments, as a result of past events and when a reliable estimate can be made of the amount of the obligation.

(b) Termination benefits

Termination benefits are payments due to employees as a result of the termination of employment before the normal retirement date or an employee's decision to accept voluntary redundancy in exchange for those benefits. They are recognised as a liability and an expense when the Company has a detailed formal plan for termination with no realistic possibility of withdrawal. In the case of voluntary redundancy, the benefits are accounted for based on the number of employees expected to accept the offer.

Where termination benefits fall due more than 12 months after the end of reporting period, they are discounted to present value based on market yields at the end of reporting period.

4.2 Impairment of non-financial assets

The carrying amounts of assets, except for financial assets and inventories are reviewed at the end of each reporting year to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

The recoverable amount of an asset is estimated for an individual asset. Where it is not possible to estimate the recoverable amount of the individual asset, the impairment test is carried out on the cash generating unit ('CGU') to which the asset belongs.

The recoverable amount of an asset or CGU is the higher of its fair value less cost to sell and its value in use.

In estimating value in use, the estimated future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the future cash flow estimates have not been adjusted. An impairment loss is recognised in profit or loss when the carrying amount of the asset or the CGU, including intangible assets, exceeds the recoverable amount of the asset or the CGU. The total impairment losses are first allocated to goodwill if any, then on pro-rata basis to reduce the carrying amount of the assets of the CGU of the carrying amount of each asset in the CGU.

The impairment loss is recognised in profit or loss immediately.

An impairment loss for assets is reversed if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment loss was recognised.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Such reversals are recognised as income immediately in profit or loss.

4.3 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one enterprise and a financial liability or equity instrument of another enterprise.

A financial asset is any asset that is cash, an equity instrument of another enterprise, a contractual right to receive cash or another financial asset from another enterprise, or a contractual right to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially favorable to the Company.

A financial liability is any liability that is a contractual obligation to deliver cash or another financial asset to another enterprise, or a contractual obligation to exchange financial assets or financial liabilities with another enterprise under conditions that are potentially unfavorable to the Company.

Financial instruments are recognised on the statement of financial position when the Company has become a party to the contractual provisions of the instrument. At initial recognition, a financial instrument is recognised at fair value plus, in the case of a financial instrument not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issuance of the financial instrument.

An embedded derivative is separated from the host contract and accounted for as a derivative if, and only if the economic characteristics and risks of the embedded derivative is not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative meets the definition of a derivative, and the hybrid instrument is not measured at fair value through profit or loss.

(a) Financial assets

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss comprise financial assets that are held for trading (i.e. financial assets acquired principally for the purpose of resale in the near term), derivatives (both, freestanding and embedded) and financial assets that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial assets classified as at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as at fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial assets classified as at fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

However, derivatives that is linked to and must be settled by delivery of unquoted equity instruments that do not have a quoted market price in an active market are recognised at cost.

(ii) Held-to-maturity investments

Financial assets classified as held-to-maturity comprise non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the positive intention and ability to hold to maturity.

Subsequent to initial recognition, financial assets classified as held-to- maturity are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as held-to-maturity are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement: (continued)

(iii) Loans and receivables

Financial assets classified as loans and receivables comprise non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Subsequent to initial recognition, financial assets classified as loans and receivables are measured at amortised cost using the effective interest method. Gains or losses on financial assets classified as loans and receivables are recognised in profit or loss when the financial assets are derecognised or impaired, and through the amortisation process.

(iv) Available-for-sale financial assets

Financial assets classified as available-for-sale comprise non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss.

Subsequent to initial recognition, financial assets classified as available-for-sale are measured at fair value. Any gains or losses arising from changes in the fair value of financial assets classified as available-for-sale are recognised directly in other comprehensive income, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised, at which time the cumulative gains or losses previously recognised in other comprehensive income are recognised in profit or loss. However, interest calculated using the effective interest method is recognised in profit or loss whilst dividends on available-for-sale equity instruments are recognised in profit or loss when the right of the Company to receive payment is established. Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value with original maturities of three (3) months or less, and are used by the Company in the management of their short term commitments.

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised directly in other comprehensive income shall be recognised in profit or loss.

A financial asset is classified into the following four (4) categories after initial recognition for the purpose of subsequent measurement: (continued)

(v) Available-for-sale financial assets (continued)

A regular way purchase or sale is a purchase or sale of a financial asset under a contract whose terms require delivery of the asset within the time frame established generally by regulation or marketplace convention.

A regular way purchase or sale of financial assets shall be recognised and derecognised, as applicable, using trade date accounting.

(b) Financial liabilities

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. A financial liability is classified into the following two (2) categories after initial recognition for the purpose of subsequent measurement:

(i) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss comprise financial liabilities that are held for trading, derivatives (both, freestanding and embedded) and financial liabilities that were specifically designated into this classification upon initial recognition.

Subsequent to initial recognition, financial liabilities classified as at fair value through profit or loss are measured at fair value. Any gains or losses arising from changes in the fair value of financial liabilities classified as at fair value through profit or loss are recognised in profit or loss. Net gains or losses on financial liabilities classified as at fair value through profit or loss exclude foreign exchange gains and losses, interest and dividend income. Such income is recognised separately in profit or loss as components of other income or other operating losses.

(ii) Other financial liabilities

Financial liabilities classified as other financial liabilities comprise non- derivative financial liabilities that are neither held for trading nor initially designated as at fair value through profit or loss.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method. Gains or losses on other financial liabilities are recognised in profit or loss when the financial liabilities are derecognised and through the amortisation process.

A financial liability is derecognised when, and only when, it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between an existing borrower and lender of debt instruments with substantially different terms are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Any difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(c) Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Ordinary shares are classified as equity instruments.

Ordinary shares are recorded at the nominal value and proceeds in excess of the nominal value of shares issued, if any, are accounted for as share premium. Both ordinary shares and share premium are classified as equity. Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit. Otherwise, they are charged to profit or loss.

Interim dividends to shareholder are recognised in equity in the year in which they are declared. Final dividends are recognised upon the approval of shareholder in a general meeting

The Company measures a liability to distribute non-cash assets as a dividend to the owner of the Company at the fair value of the assets to be distributed. The carrying amount of the dividend is remeasured at the end of each reporting year and at the settlement date, with any changes recognised directly in equity as adjustments to the amount of the distribution. On settlement of the transaction, the Company recognises the difference, if any, between the carrying amounts of the assets distributed and the carrying amount of the liability in profit or loss.

(d) Impairment of financial assets

The Company assesses whether there is any objective evidence that a financial asset is impaired at the end of each reporting year.

Loans and receivables

The Company collectively considers factors such as the probability of bankruptcy or significant financial difficulties of the receivable, and default or significant delay in payment by the receivable, to determine whether there is objective evidence that an impairment loss on loans and receivables has occurred. Other objective evidence of impairment include historical collection rates determined on an individual basis and observable changes in national or local economic conditions that are directly correlated with the historical default rates of receivables.

If any such objective evidence exists, the amount of impairment loss is measured as the difference between the financial asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of loans and receivables are reduced through the use of an allowance account.

If in a subsequent year, the amount of the impairment loss decreases and it objectively relates to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of impairment reversed is recognised in profit or loss.

4.4 Income taxes

Income taxes include all domestic and international taxes on taxable profit and real property gains taxes payable on disposal of properties, if any. Taxes in the profit or loss and other comprehensive income comprise current tax and deferred tax.

(a) Current tax

Current tax expenses are determined according to the tax laws of the jurisdiction in which the Company operates and include all taxes based upon the taxable profit and real properties gains taxes payable on disposal of properties, if any.

(b) Deferred tax

Deferred tax is recognised in full using the liability method on temporary differences arising between the carrying amount of an asset or liability in the statement of financial position and its tax base.

Deferred tax is recognised for all temporary differences, unless the deferred tax arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits would be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised. The carrying amount of a deferred tax asset is reviewed at the end of each reporting year. If it is no longer probable that sufficient taxable profits would be available to allow the benefit of part or all of that deferred tax asset to be utilized, the carrying amount of the deferred tax asset would be reduced accordingly. When it becomes probable that sufficient taxable profits would be available, such reductions would be reversed to the extent of the taxable profits.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority on either:

(i) the same taxable entity; or

(ii) different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future year in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Deferred tax would be recognised as income or expense and included in profit or loss for the year unless the tax relates to items that are credited or charged, in the same or a different year, directly to equity, in which case the deferred tax would be charged or credited directly to equity.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on the announcement of tax rates and tax laws by the Government in the annual budgets which have the substantive effect of actual enactment by the end of each reporting year.

4.5 Provisions

Provisions are recognised when there is a present obligation, legal or constructive, as a result of a past event, and when it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, the amount of a provision would be discounted to its present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed at the end of each reporting year and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits would be required to settle the obligation, the provision will be reversed.

Provisions are not recognised for future operating losses. If the Company has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

4.6 Contingent liabilities and contingent assets

A contingent liability is a possible obligation that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

A contingent asset is a possible asset that arises from past events whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company. The Company does not recognise a contingent asset but discloses its existence where the inflows of economic benefits are probable, but not virtually certain.

4.7 Foreign currencies

Foreign currency translations and balances

Transactions in foreign currencies are converted into the functional currency at rates of exchange ruling at the transaction date. Monetary assets and liabilities in foreign currencies at the end of the reporting period are translated into the functional currency at rates of exchange ruling at that date. All exchange difference arising from the settlement of foreign currency transactions and from the translation of foreign currency monetary assets and liabilities are included in profit or loss in the period in which they arise. Non-monetary items initially denominated in foreign currencies, which are carried at historical cost are translated using the historical rate as of the date of acquisition, and non-monetary items which are carried at fair value are translated using the exchange rate that existed when the values were determined for presentation currency purposes.

4.8 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

In case of revenue sharing arrangement, revenue is recognized as per agreement subject to satisfaction of performance obligation.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

5.1 Changes in estimates

Estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Directors are of the opinion that there are no significant changes in estimates during the reporting period end and as at the end of the reporting period.

5.2 Critical judgements made in applying accounting policies

There are no critical judgements made by the management in the process of applying the Company's accounting policies that have the most significant effect on the amount recognised in these financial statements apart from those involving estimates, which are dealt with below.

5.3 Key sources of estimation uncertainty

The following are the key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(a) Tax expense

Significant judgement is involved in determining the Company's provision for income taxes. The Company will recognise liabilities for expected tax expenses based on an estimate of whether the taxes are due through management's interpretation of the various tax legislations. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the tax provision in the financial year in which such determination is made.

(b) Fair value measurements

Financial and non-financial assets and liabilities that are measured subsequent to initial recognition at fair value are grouped into Level 1 to Level 3 based on the degree which the fair value inputs are observable.

(i) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

(ii) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

(iii) Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The classification of an item into the above levels is based on the lowest level of the inputs used in the fair value measurement of the item. Transfers of items between levels are recognised in the year they occur.

The Company measures financial instruments at fair value as disclosed in Note 15 to the financial statements.

6. TRADE AND OTHER RECEIVABLES

	Amount in MMK
	30.9.2020 MMK
Trade receivables	196,003,070
Unbilled revenue	489,765,168
	685,768,238

(a) Trade receivables are non-interest bearing and the normal trade credit terms granted by the Company is 30 days from the date of invoice. They are recognised at their original invoice amounts, which represent their fair values on initial recognition.

(b) Trade receivables that are neither past due nor impaired are creditworthy receivables with good payment records with the Company. None of the trade receivables of the Company that are neither past due nor impaired have been renegotiated during the financial period.

(c) Information on financial risks of trade and other receivables is disclosed in Note 16 to the financial statements.

(d) All the trade and other receivables are denominated in MMK.

7. CASH AND BANK BALANCES

	Amount in MMK
	30.9.2020 MMK
Cash and bank balances	2,193,579,618
	2,193,579,618

(a) Cash and bank balances are denominated in the following currencies:

	Amount in MMK
	30.9.2020 MMK
Myanmar Kyats	2,088,655,576
United States dollar	104,924,042
	2,193,579,618

(b) Information on financial risks of cash and bank balances is disclosed in Note 16 to the financial statements.

8. SHARE CAPITAL

	30.9.2020	
	Number of shares	**Amount MMK**
Issued and fully paid-up ordinary shares:		
At the beginning of the period	-	-
Issued and paid up during the financial period	200,000	272,341,198
At end of the period	**200,000**	**272,341,198**

During the financial period, the Company issued initial ordinary shares 200,000 amounting MMK272,341,198. The owners of the Company are entitled to receive dividends as and when declared by the Company and is entitled to one (1) vote per ordinary share at meetings of the Company. All ordinary shares rank pari passu with regard to the residual assets of the Company

9. OTHER PAYABLES

	Amount in MMK **30.9.2020** **MMK**
Other payable	
- accrued expenses	566,876,371
- WHT payables	43,779,630
- other payables	1,707,405,658
	2,318,061,659

(a) All the other payables are denominated in MMK.

(b) Information on financial risks of other payables is disclosed in Note 16 to the financial statements.

10. REVENUE

	6.12.2019 to 30.9.2020 MMK
Service income	**2,612,183,815**

11. COST OF SALES

	6.12.2019 to 30.9.2020 MMK
Cost of sales	**1,970,995,754**

12. ADMINISTRATIVE EXPENSES

	6.12.2019 to 30.9.2020 MMK
Unrealised foreign exchange loss	5,078,408
Legal and professional charges	7,490,885
Bank charges	89,873
Cost allocation inter company	339,583,896
	352,243,062

13. TAX EXPENSE

	6.12.2019 to 30.9.2020 MMK
Tax expense	**72,236,250**

(a) Under the Republic of the Union of Myanmar Law on Taxation, the Company has an obligation to pay tax on profit at 25% of the taxable profit.

(b) The numerical reconciliation between the tax expense and the tax based on applicable tax rate is as follows:

	6.12.2019 to 30.9.2020 MMK
Profit before tax	288,944,999
Tax at Myanmar statutory tax rate of 25%	72,236,250
Tax effects in respect of:	-
Non-deductible expense	72,236,250

14. RELATED PARTY DISCLOSURES

(a) Identities of related parties

Parties are considered related to the Company if the Company has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control or common significant influence. Related parties can be individuals or other parties.

The Company has controlling related party relationship with its holding company.

Key management personnel comprises persons (including the Directors of the Company) having the authority and responsibility for planning, directing and controlling the activities of the Company directly and indirectly.

(b) The Company had the following transactions with related parties during the financial period:

	30.9.2020 MMK
Holding company	
Comviva Technologies Limited	
Cost allocation	**1,707,405,658**

Balances with related parties at the end of the reporting period are disclosed in Note 9 to the financial statements.

The related party transactions described above were carried out on negotiated commercial terms.

(c) Compensation of key management personnel

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Directors (whether executive or otherwise) of the Company.

There is no compensation of key management personnel during the financial year.

15. FINANCIAL INSTRUMENTS

(a) Capital management

The primary objective of the capital management of the Company is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholder, return capital to shareholder or issue new shares. No changes were made in the objectives, policies or processes during the period ended 30 September 2020.

The Company monitors and maintains a prudent level of total debts and to ensure compliance with any externally imposed capital requirements.

(b) Financial instruments

	30.9.2020 MMK
Trade and other receivables	
Trade and other receivables, net of prepayments	685,768,238
Cash and bank balances	2,193,579,618
	2,879,347,856

	30.9.2020 MMK
Other financial liabilities	
Trade and other payables, net of accrual	1,751,185,290

(c) Methods and assumptions used to estimate fair value

The fair values of financial instruments that are not carried at fair value are determined as follows:

- The carrying amounts of financial assets and financial liabilities, such as trade and other receivables, other payables and borrowings, are reasonable approximation of fair value, either due to their short-term nature or that they are floating instruments that are re- priced to market interest rates on or near the end of the reporting year.

16. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The financial risk management objective of the Company is to optimise value creation for shareholder whilst minimising the potential adverse impact arising from credit risk, liquidity risk and cash flow risk and foreign currency risk.

Financial risk management is carried out through risk review programmes, internal control systems and adherence to the financial risk management policies of the Company. The Board regularly reviews these risks and approves such policies that cover the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process. The exposure of the Company to financial risks and the management of its related exposures are as follows:

(a) Credit risk

Cash deposits and trade receivables could give rise to credit risk which requires the loss to be recognised if a counter party fails to perform as contracted. The counter parties are reputable financial institutions and organisations. It is the policy of the Company to monitor the financial standing of these counter parties on an ongoing basis to ensure that the Company is exposed to minimal credit risk.

The primary exposure of the Company to credit risk arises through its trade receivables. The trading terms of the Company with its customers are mainly on credit, except for new customers, where deposits in advance are normally required. The credit period is generally for a period of one month, extending up to two months for major customers. Each customer has a maximum credit limit and the Company seeks to maintain strict control over its outstanding receivables via a credit control department to minimise credit risk. Overdue balances are reviewed regularly by senior management.

Financial risk management is carried out through risk review programmes, internal control systems and adherence to the financial risk management policies of the Company. The Board regularly reviews these risks and approves such policies that cover the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process. The exposure of the Company to financial risks and the management of its related exposures are as follows: (continued)

Exposure to credit risk

At the end of each reporting year, the maximum exposure of the Company to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position.

Information regarding trade and other receivables is disclosed in Note 6 to the financial statements.

Credit risk concentration profile

As at the reporting date, trade receivable of the Company mainly comprises amounts owing from only one counterparties.

The Company determines concentrations of credit risk by monitoring the customers' profile of its trade receivables on an ongoing basis.

Financial assets that are neither past due nor impaired

Information regarding trade and other receivables that are neither past due nor impaired is disclosed in Note 6 to the financial statements.

(b) Liquidity and cash flow risk

The Company actively manages its debt maturity profile, operating cash flows and the availability of funding so as to ensure that all operating, investing and financing needs are met. In executing its liquidity risk management strategy, the Company measures and forecasts its cash commitments and maintains a level of cash and cash equivalents deemed adequate to finance the activities of the Company.

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in foreign exchange rates.

The Company is not significantly exposed to foreign currency risk as majority of the transactions, assets and liabilities of the Company are denominated in Myanmar Kyats. The Company is exposed to transactional currency risk primarily through borrowings and cash and bank balances that are denominated in a currency other than the functional currency of the operations to which they relate.

The currency giving rises to this risk is primarily USD. Foreign currency exposures in transactional currencies other than functional currency of the Company are kept to an acceptable level.

Financial risk management is carried out through risk review programmes, internal control systems and adherence to the financial risk management policies of the Company. The Board regularly reviews these risks and approves such policies that cover the management of these risks. The audit committee provides independent oversight to the effectiveness of the risk management process. The exposure of the Company to financial risks and the management of its related exposures are as follows:

Sensitivity analysis for foreign currency risk

The following table demonstrates the sensitivity analysis of the profit after tax of the Company to a reasonably possible change in the USD, exchange rates against the functional currency of the Company, with all other variables held constant.

		30.9.2020 MMK
MMK/USD	strengthened 3%	(2,360,791)
	weakened 3%	2,360,791

17. SIGNIFICANT EVENT DURING THE FINANCIAL PERIOD

The outbreak of Coronavirus Disease 2019 (COVID-19) in early 2020 has affected the business and economic environments of the Company and hence, may impact its performance and financial position in the future. However, given the unpredictability associated with the COVID-19 outbreak and any further contingency measures that may be put in place by the governments and various private corporations, the potential financial impact of the COVID-19 outbreak on the Company's 2021 financial statements could not be reasonably quantified at this juncture.

BRIEF DESCRIPTION OF THE COMPANY'S WORKING DURING THE YEAR/STATE OF COMPANY'S AFFAIRS

Total Income for the year 2020-21 is Rs. 155140.

Founded in 2020, Yabx (www.yabx.co) is a FinTech Venture of Comviva Technologies Limited (www.comviva.com), a global leader in Mobility Solutions. Comviva is a subsidiary of Tech Mahindra Limited and a part of the $21 billion Mahindra Group.

Yabx was established with a vision to simplify financial access to the 2 Bn+ unbanked population in the emerging markets of Africa, Asia, and Latin America, using the mobile phone device. The Company has an unparalleled edge to provide solutions that help achieve its core purpose of financial inclusion.

Yabx's mission is to create world-class innovative products that help improve the lives of people who do not have access to regular financial services by leveraging the digital footprints of an individual and providing tailor-made financial services.

The Company uses technology and analytics to reduce the cost of delivering financial services, thereby bringing banking to the unbanked. Yabx enables financial access for all those underserved who have limited credit history or income documents. Yabx does this with the help of their partners who are leading banks, MFIs, credit bureaus, Mobile Financial Providers, MNOs, and handset manufacturers.

Yabx team is led by industry experts and entrepreneurs who have a global experience in managing telecom operators and mobile wallet providers, coupled with strong capabilities in behavioral analytics and risk management.

Currently, Yabx operates in India (New Delhi & Bangalore), and Kenya (Nairobi).

INDEPENDENT AUDITORS' REPORT

To the Members of Yabx India Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Yabx India Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2021 and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's Report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. The auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide management with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. A) As required by Section 143(3) of the Act, we report that:

   i. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   ii. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   iii. The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   iv. In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   v. On the basis of the written representations received from the directors as on 31st March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

We draw attention to Note 16 (c) to the financial statements for the year ended 31 March 2021 according to which the managerial remuneration paid by the Company exceeded the prescribed limits under Section 197 read with Schedule V to the Companies Act, 2013 As per the provisions of the Act, the waiver for refund of excess remuneration paid has been approved by shareholders of the Company in the Extra -ordinary General Meeting held on 30 June 2021.The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A REFERRED TO IN OUR INDEPENDENT AUDITORS' REPORT

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of Yabx India Private Limited on the financial statements for the year ended 31 March 2021, we report the following:

(i) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no fixed assets held by the Company. Accordingly, paragraph 3(i)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no fixed assets held by the Company. Accordingly, paragraph 3(i)(b) of the Order is not applicable to the Company.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there is no immovable property held by the Company. Accordingly, paragraph 3(i)(c) of the Order is not applicable to the Company

(ii) According to the information and explanations given to us, during the current year, the Company did not hold any inventories. Therefore, the provision of paragraph 3(ii) of the order are not applicable.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, the provisions of clause 3 (iii) (a), (b) and (c) of the Order are not applicable to the Company.

(iv) In our opinion and according to the information and explanations given to us, there are no loans, guarantees, and securities given in respect of which provisions of section 185 and 186 of the Act, as amended are applicable and hence not commented upon. Moreover, in respect of the investments made by the Company, requirements of section 186 of the Companies Act, 2013 have been complied with.

(v) According to the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by the Reserve Bank of India, the provisions of section 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the provisions of clause 3(v) of the Order are not applicable to the Company.

(vi) According to ·the information and explanations given to us, the central Government has not prescribed the maintenance of cost records under sub-section (1) of section 148 of the Companies Act. 2013, for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable.

(vii) (a) According to the information and explanations given to us and based on our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Income Tax, Goods and Services tax, Cess and other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanation given to us, no undisputed amounts payable in respect of Provident Fund, Income Tax, Goods and Services tax, Cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of provident fund, income tax, cess and other statutory dues which have not been deposited by the Company with the appropriate authorities on account of any dispute as at 31 March 2021.

(viii) In our opinion and according to the information and explanations given to us, there are no loans and borrowings from financial institution, bank, government or dues to debenture holders during the year. Accordingly, paragraph 3(viii) of the Order is not applicable.

(ix) According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer / further public offer / debt instruments and term loans hence, reporting under clause 3(ix) of the order is not applicable to the Company and hence not commented upon.

(x) To the best of our knowledge and according to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) According to the information and explanations given to us and based on our examination of records of the Company, the managerial remuneration has paid / provided by the Company in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Act.

(xii) According to the information and explanations given to us, in our opinion, the Company is not a Nidhi Company as prescribed under Section 406 of the Act. Accordingly, clause 3(xii) of the Order is not applicable to the Company.

(xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 188 of Act where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the Company and accordingly reporting under clause 3(xiii) insofar as it relates to section 177 of the Act is not applicable to the Company and hence not commented upon.

(xiv) According to the information and explanation given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(xiv) of the Order is not applicable to the Company.

(xv) According to information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with them as referred to in Section 192 of the Act. Accordingly, clause 3(xv) of the Order is not applicable to the Company.

(xvi) According to the information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED MARCH 31, 2021

1. Company Overview

Yabx India Private Limited ("the Company" or "Yabx") is a FinTech Venture of and subsidiary of Comviva Technologies Limited ("Comviva"), a global leader in Mobility Solutions. Comviva is a subsidiary of Tech Mahindra and a part of the Mahindra Group.

Yabx was established with a vision to simplify financial access to more than 2 billion unbanked population in the emerging markets using the mobile phone device. The Company has an unparalleled edge to provide solutions that help achieve its core purpose of financial inclusion.

The financial statements ('financial statement') for the year ended March 31, 2021 were approved by the Board of Directors and authorised for issue on July 08, 2021.

2. Significant Accounting Policies

2.1 Statement of Compliance

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013, read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation of financial statements

These financial statements are presented in Indian rupees ("INR") which is also the Company's functional currency. All amounts have been reported in Indian Rupees, unless otherwise stated. This is being the first financial statement of the Company after incorporation, statement of profit and loss is prepared from the date of incorporation (July 15, 2020) to period ended 31 March, 2021. Also, no comparative numbers are applicable for the Company for the current period's financial statements.

These financial statements have been prepared on the historical cost basis and on accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 Inventories or value in use in Ind AS 36 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability. Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

2.3 Use of Estimates:

The preparation of financial statements requires the management of the company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

Critical accounting estimates

i) Provisions

Provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.9.

2.4 Financial Instruments:

Financial assets and liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognized in Statement of profit and loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit and loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on re-measurement recognized in Statement of profit and loss.

Financial liabilities

Financial liabilities maturing after one year are subsequently carried at amortized cost using the effective interest method.

For trade payables and other financial liabilities maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

2.5 Employee benefits

i) Gratuity:

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

ii) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Profit and Loss on accrual basis.

iii) Compensated absences:

The Company provides for the compensated absences subject to Company's certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in the Statement of Profit and Loss in the period in which they occur. Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognized as an actuarially determined liability at the present value of the defined benefit obligation at the balance sheet date.

iv) Other short term employee benefits:

Other short-term employee benefits such as performance incentives expected to be paid in exchange for the services rendered by employees, are recognized during the period when the employee renders the service.

2.6 Taxation:

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the income tax laws.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the income taxes or deferred taxes are recognized in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax asset are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

2.7 Employee Stock Option:

Stock-based compensation represents the cost related to stock-based awards granted to employees. The Company measures stock-based compensation cost at grant date, based on the estimated fair value of the award and recognizes the cost (net of estimated forfeitures) on a straight line basis over the requisite service period for each separately vesting portion of the award, as if award was in substance, multiple awards. The Company estimates the fair value of stock options. The cost is recorded under the head employee benefit expense in the statement of profit and loss with corresponding increase in "Employee stock option Reserve"

2.8 Earnings per share

Basic earnings/(loss) per share are calculated by dividing the net profit/(loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The Company does not have any potentially dilutive shares.

2.9 Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and Contingent assets are not recognized in the financial statements.

2.10 New accounting pronouncement to be adopted on or after April 1, 2021

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to:-

a) Change in existing presentation requirements for certain items in Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long term borrowings, effect of prior period errors on Equity Share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters, etc.

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions.

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel, etc.

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The Company is evaluating the impact of the amendments.

15. Employee Benefits

a) Defined Contribution Plan

Amounts recognised as an expense in the Statement of Profit and Loss in respect of defined contribution plan is Rs. 651,446.

b) Defined Benefit Plan - Gratuity

i) The Defined Benefit Plan comprises of Gratuity.

ii) Gratuity is a benefit to an employee based on 15 days last drawn salary for each completed year of service.

iii) The defined benefit plan is not funded.

iv) Actuarial gains and losses in respect of defined benefit plans are recognised in other comprehensive income.

I] Changes in the present value of defined benefit obligation representing reconciliation of opening and closing balances thereof are as follows :

Particulars	Amount in INR As at March 31, 2021
Present Value of Defined Benefit Obligation as at the beginning of the year	-
Service Cost	127,274
Interest cost	33,302
Benefits Paid	-
Transfer from parent entity*	2,216,627
Actuarial (gain)/loss - experience	(40,065)
Actuarial (gain)/loss - demographic assumptions	-
Actuarial (gain)/loss - financial assumptions	-
Present Value of Defined Benefit Obligation as at the end of the year	**2,337,138**

* Comviva Technologies Limited ('Parent') has transferred employees pertaining to YABX India during the current financial year, therefore corresponding gratuity liability has been transferred to the company.

II] Reconciliation of Present Value of Defined Benefit Obligation and fair value of plan assets showing amount recognised in the Balance Sheet :

Net defined benefit Asset/(Liability)

Particulars	Amount in INR As at March 31, 2021
Net defined benefit asset/(liability) at end of prior period	-
Service Cost	(127,274)
Net interest on net defined benefit liability / (asset)	(33,302)
Actuarial gain/(loss)	40,065
Employer contribution	-
Transfer from parent entity	(2,216,627)
Benefits Paid (Net)	-
Net defined benefit Asset/(Liability) recognised in Balance Sheet	**(2,337,138)**

III] Components of employer expenses recognised in the Statement of Profit and Loss:

Amount in INR

Particulars	For the period ended March 31, 2021
Service Cost	127,274
Interest cost	33,302
Expected return on plan assets	-
Net Actuarial (Gain)/ Loss	
Total expense recognised in the Statement of Profit & Loss	**160,576**

IV] Components of employer expenses recognised in the other comprehensive income:

Amount in INR

Particulars	For the period ended March 31, 2021
Actuarial (gain)/loss due to DBO experience	40,065
Actuarial (gain)/loss - demographic assumptions	-
Actuarial (gain)/loss due to DBO assumption changes	-
Remeasurement- Return on plan assets excluding amount included in interest income	-
Actuarial gain/(loss) recognised in OCI	**40,065**

V] Assumptions

Particulars	As at March 31, 2021
Discount Rate	5.90%
Salary Escalation Rate	6.00%
Employee Separation Rate	17.00%

a) Discount rate : It is based upon the market yields available on Government Bonds at the accounting date with a term that matches that of the liabilities.

b) Salary Escalation Rate: The estimates of future salary increases considered takes into account the inflation, seniority, promotion and other relevant factors.

c) Employee separation Rate: The assumption of Employee separation rate represents the company's expected experience of employee turnover.

VI] Sensitivity analysis

Particulars	As at March 31, 2021
A: Discount rate	
1. Effect on DBO due to 0.5% increase in discount rate	(63,527)
2. Effect on DBO due to 0.5% decrease in discount rate	66,804
B: Salary Escalation Rate	
1. Effect on DBO due to 0.5% increase in Salary escalation rate	59,497
2. Effect on DBO due to 0.5% decrease in Salary escalation rate	(48,146)
C: Withdrawal Rate	
1. Effect on DBO due to 5% increase in withdrawal rate	(111,012)
2. Effect on DBO due to 5% decrease in withdrawal rate	110,402

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directions, while the Plan's sensitivity to such changes can vary over time.

VII] Expected benefit payments for the period ended

1. March 31, 2022	282,059
2. March 31, 2023	284,683
3. March 31, 2024	419,675
4. March 31, 2025	589,212
5. March 31, 2026	663,996
6. March 31, 2027 to March 31, 2031	3,048,187

VIII] Expected employer contributions for the period ended March 31, 2022 -

IX] Weighted average duration of defined benefit obligation 5 years

X] Accrued benefit obligation as at March 31, 2021 1,800,303

XI] Vested benefit obligation as at March 31, 2021 1,433,349

XII] Plan asset information:

Particulars	As at March 31, 2021
Schemes of insurance - conventional products	100%

XIII] Description of Plan characteristics and associated risks:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

1. Interest rate risk
2. Salary Inflation risk
3. Demographic risk

16. Related Party Disclosure

Total	**11,560,826**	**-**	**-**	**11,560,826**
Liabilities:				
Trade payables (refer note 9)	544,560	-	-	544,560
Other financial liabilities (refer note 10(i))	2,835,262	-	-	2,835,262
Total	**3,379,822**	**-**	**-**	**3,379,822**

*Fair value of amortised assets is same as carrying value

II] Financial Risk Management

Financial Risk Factors

The Company's principal financial liabilities comprise trade payables and Employee related payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include cash and cash equivalent and dues from holding company that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Market risk

Market risk is the risk that the fair value or future cash flow of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in foreign currency exchange rates, interest rates, credit, liquidity and other market changes. Since presently, the Company is not having any borrowings there is no impact of fluctuations in interest on the Company.

(ii) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analysing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit. The Company is not exposed to significant credit risk from its operating activities as the operations of the Company not yet started.

(iii) Liquidity Risk

Liquidity risk refers to the risk that the Company cannot meet its financial obligation. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements.

Capital management

The Company's objective for capital management is to maximise shareholder value, safeguard business continuity and support the growth of the Company. The Company determines the capital requirement based on annual operating plans and long-term and other strategic investment plans.

21 Employee share-based payments

The company has a two different share based employee benefit program i.e. 2020 Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 that allows employees to acquire shares of the Company subject to vesting and performance conditions. A share option scheme for employees was approved on 15th September 2020 by the shareholders of the Company under which the employees of the Company were granted stock options that vest in a granted manner over a period of 3 years. An exercise price of INR 10 was fixed for this purpose.

These schemes have been awarded during the period ended 31 March 2021, whose details are given as under:-

Particulars	ESOP scheme 1	ESOP scheme 2
Maximum number of options granted under the plan	3,301,925	1,775,000
Method of settlement	Equity settled plans	Equity settled plans
Vesting period	3 years	1 years
Vesting conditions	Service period and performance based conditions	Service period

The vesting percentage basis period, of above schemes are as follows:-

Particulars	ESOP scheme 1	ESOP scheme 2
With in 1 year	20%	100%
1 to 2 years	40%	-
2 to 3 years	40%	-

Movement in respect of stock options granted to employees of the Company during the year and outstanding as at the year end is set out below:

ESOP scheme 1:-

	31-Mar-21	
Particulars	No. of options	Weighted average exercise price
Outstanding at beginning of the year	-	-
Options granted during the year	3,301,925	10
Exercised during the year	-	-
Outstanding at the end of the year	3,301,925	10
Exercisable at the end of the year	3,301,925	10

ESOP scheme 2:-

	31-Mar-21	
Particulars	No. of options	Weighted average exercise price
Outstanding at beginning of the year	-	-
Options granted during the year	1,775,000	10
Exercised during the year	-	-
Outstanding at the end of the year	1,775,000	10
Exercisable at the end of the year	1,775,000	10

The employee stock compensation cost for the Employee stock options plan – ESOP scheme 1 and ESOP scheme 2 has been computed by reference to the fair value of share options granted and amortized over each vesting period. For the period ended March 31, 2021, the Company has accounted for employee stock compensation cost (equity settled) amounting to Rs. 3,923,707.

	For the year ended March 31, 2021

Fair value of options	2.17 to 3.24	1.64
Exercised price	10	10
Expected Volatility (%)	32.39%	32.39%
Expected Life (in years)	2.00 to 3.71	1.04 to 2.04
Expected Dividend (%)	-	-
Risk free interest rate (%)	4.44 to 5.14	3.83 to 4.44

22 The Company has not started its operations and hence not required to disclose Segment Information as per Ind AS 108 on Operating Segments.

23 Based on the information available with the company, following creditors have been identified as "Supplier" within the meaning of Micro, Small and Medium Enterprises Development (MSMED) Act, 2006.

Disclosures under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED)

Dues to micro and small suppliers	**As at March 31, 2021**
The amounts remaining unpaid to micro and small suppliers as at the end of the year:	
Principal	-
Interest	-
The amounts of the payments made to micro, small and medium suppliers beyond the appointed day during each accounting year.	-
The amount of interest paid under the act beyond the appointed day during the year	-
The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED	-
The amount of interest accrued and remaining unpaid at the end of each accounting year.	-
The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purpose of disallowance as a deductible expenditure under the MSMED	-

The management has identified enterprises which have provided goods and services to the Company and which qualify under the definition of micro and small enterprises, as defined under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at March 31, 2021 has been made in the financial statements based on information received and available with the Company.

24 World Health Organisation (WHO) declared outbreak of Coronavirus Disease (COVID-19) a global pandemic on March 11, 2020. COVID-19 has impacted businesses across globe. The Company has not started its operations and hence does not have any impact on the financial statements of the Company on account of COVID - 19, however, the Company will closely monitor any material changes arising of future economic conditions and impact on its future business.

ANNEX OF ANNUAL ACCOUNTS MARCH 31ST 2021

GENERAL

Financial year

The company TECH MAHINDRA LUXEMBOURG SARL (R.CS B244350) was incorporated on May 27th, 2020 for an unlimited period, as Limited company. The registered office of the company is established in 27, rue de Luxembourg - 8077 Bertrange.

The company has the purpose of the Expansion of IT services and solutions.

The Company's financial year begins on the April 1st and closes on the March 31th.

According to the article n° 313 of the law modified of August 10th, 1915 on trading companies, the company is exempted to establish the consolidated accounts.

GENERAL PRINCIPLES

The annual accounts of the Company are drawn up in conformity with the Luxembourg legal and regulatory requirements and according to generally accepted accounting principles applicable in Luxembourg.

Note 01 Main rules of evaluation

Foreign currency translation

The Company maintains its accounts in Euro (EUR); the balance sheet and the account of profits and losses are expressed in this currency.

At the closing date of the balance sheet:

- Formation expenses as well as intangible, tangible and financial fixed assets expressed in another currency than the currency of the balance sheet are translated at the historical foreign exchange rate;
- Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historical exchange rate or the value determined on the basis of the exchange rates effective at the balance sheet date.

The unrealized exchanges losses are recorded in the profit and loss account. The realized exchange gains are recorded in the profit and loss account at the moment of their realization. Consequently, only realized exchange gains and losses and unrealized exchange losses are reflected in the profit and loss accounts.

Formation expenses

The formation expenses are taken in charge immediately or amortized on a linear basis over a period of 5 years.

Intangible assets

Intangible assets are accounted in their acquisition price, deduction made by the corrections values.

The corrections values are calculated in a linear way on basis of their estimated useful life's.

Tangible assets

The tangible assets are accounted in their acquisition price, deduction made by the corrections values.

The corrections values are calculated in a linear way on basis of their estimated useful life's.

Financial fixed assets

Participations in affiliated companies as well as participations and securities characterized as fixed assets are valued individually at the lower of acquisition cost or market value.

The determination of the market value is based on the financial statements of the companies to be valued and/or on other available information and documents.

Receivables itemized as financial fixed assets are valued at face value. A value adjustment is carried out whenever the estimated realizable value is lower than the face value.

Accounts receivable

Accounts receivable are valued at their nominal value. A value adjustment is carried out whenever the estimated realizable value is lower than the nominal value.

Stocks

The raw and consumable are estimated at the lowest acquisition price determined according to the method average prices.

Products in progress of manufacturing and finished products are estimated at the cost price which includes (according to the art. 61 (2)) the purchase price of the raw and consumable, the direct costs of production, as well as a share of the indirect expenses. A value adjustment is applied when the estimated value of realization is lower than the cost price.

Marketable securities

The acquisition cost of marketable securities is determined on basis of the method average prices (or FIFO or LIFO or similar method). A value adjustment is applied when the estimated value of realization is lower than the acquisition cost.

Provisions for risks and charges

Provisions shall be made at year end for the purpose of covering all and any foreseeable risk and expense. Provisions relating to previous years shall be received on a regular basis and taken into result when becoming without purpose.

The immune capital gains

The immune capital gains are accounted for their difference between the value of realization of fixed assets and the accounting net value. The capital gains are deducted from the purchase price of fixed assets acquired in re-use.

Subsidies of investment

The subsidies of investment are accounted as soon as the company considers, in best of its knowledge, their probable or unquestionable obtaining.

They are accounted under deduction of the deferred taxes.

Amount net turnover

Net amount of the turnover includes amounts resulting from the sale of products and from the service corresponding to the common activities of the company, the deduction made by reductions on sales, as well as by value-added tax and the others taxes were directly connected to the turnover.

Note 02 Receivables resulting from sales and services – Receivables connected companies – Receivables on companies with which the company has a link of participation – Others Receivables

	Total

TENZING LIMITED NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31ST MARCH 2021

1. Statement of Accounting Policies

Reporting Entity

The special purpose financial report presented here is for the entity Tenzing Limited and was authorised for issue in accordance with the annual directors resolution.

Basis of Preparation

These financial statements have been presented in accordance with the Special Purpose Framework for use by For-Profit Entities published by the Chartered Accountants of New Zealand and Australia.

The financial statements have been prepared for the entity's owners.

Historical Cost

These financial statements have been prepared on a historical cost basis, except where otherwise identified in the specific accounting policies which follow.

Changes in Accounting Policy

Policies have been applied on a basis consistent throughout the accounting period.

Exceptional Items

Exceptional items are large income and/or expense items that do not arise as a result of normal business operations and are not expected to recur. These are disclosed in the statement of profit or loss.

Where applicable the following specific accounting policies have been applied:

Revenue Recognition

Revenue is recognised at the fair value of consideration received or receivable for the sale of goods and services, to the extent that it is probable that the economic benefits will flow to the entity and revenue can be reliably measured.

Interest received is recognised as interest accrues, gross of refundable tax credits received.

Dividends are recognised on receipt, net of non-refundable tax credits.

Inventories and Work in Progress

Inventories, if any, are stated at the lower of cost (determined on a first-in-first-out basis) and net realisable value.

Work in Progress is valued at 80% of recorded time and cost.

Accounts Receivable

Accounts receivable are recognised at expected realisable value. Individual debts that are known to be uncollectable are written off in the period that they are identified.

Foreign Currencies

Transactions in foreign currencies are converted at the Australian rate of exchange ruling at the date of the transaction. At balance date foreign monetary assets and liabilities are translated at the closing rate and variations arising from these transactions are included in the statement of profit or loss.

Property, Plant and Equipment and Investment Property

Property, plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets, and includes the cost or replacements that are eligible for capitalisation when these are incurred.

Depreciation

Depreciation is calculated on a straight line or diminishing value basis over the estimated useful life of the assets using depreciation rates published by the Inland Revenue.

Leases

Finance leases which effectively transfer to the entity substantially all of the risk and rewards incidental to ownership of the leased item are capitalised. Lease payments are apportioned between finance charges and reduction of the lease liability. Finance charges are recognised as an expense in profit or loss. Operating lease payments where the lessors effectively retain substantially all the risk and benefits of ownership of the lease items, are recognised as an expense on a straight line basis over the lease term.

Income Tax

Income tax is accounted for using the taxes payable method. The income tax expense in profit or loss represents the estimated tax on profits for the current financial period.

Goods and Services Tax

All amounts are stated exclusive of goods and services tax (GST) except for accounts payable and accounts receivable which are stated inclusive of GST.

1. Statement of Accounting Policies

Reporting Entity

The special purpose financial report presented here is for the entity Tenzing Australia Limited and was authorised for issue in accordance with the annual directors resolution.

Basis of Preparation

These financial statements have been presented in accordance with the Special Purpose Framework for use by For-Profit Entities published by the Chartered Accountants of New Zealand and Australia.

The financial statements have been prepared for the entity's owners.

Historical Cost

These financial statements have been prepared on a historical cost basis, except where otherwise identified in the specific accounting policies which follow.

Changes in Accounting Policy

Policies have been applied on a basis consistent throughout the accounting period.

Where applicable the following specific accounting policies have been applied:

Revenue Recognition

Revenue is recognised at the fair value of consideration received or receivable for the sale of goods and services, to the extent that it is probable that the economic benefits will flow to the entity and revenue can be reliably measured.

Interest received is recognised as interest accrues, gross of refundable tax credits received.

Dividends are recognised on receipt, net of non-refundable tax credits.

Inventories and Work in Progress

Inventories, if any, are stated at the lower of cost (determined on a first-in-first-out basis) and net realisable value.

Work in Progress is valued at 80% of recorded time and cost.

Accounts Receivable

Accounts receivable are recognised at expected realisable value. Individual debts that are known to be uncollectable are written off in the period that they are identified.

Foreign Currencies

Transactions in foreign currencies are converted at the Australian rate of exchange ruling at the date of the transaction. At balance date foreign monetary assets and liabilities are translated at the closing rate and variations arising from these transactions are included in the statement of profit or loss.

Property, Plant and Equipment and Investment Property

Property, plant and equipment and investment property are stated at historical cost less any accumulated depreciation and impairment losses. Historical cost includes expenditure directly attributable to the acquisition of assets, and includes the cost or replacements that are eligible for capitalisation when these are incurred.

Depreciation

Depreciation is calculated on a straight line or diminishing value basis over the estimated useful life of the assets using depreciation rates published by the Inland Revenue.

Income Tax

Income tax is accounted for using the taxes payable method. The income tax expense in profit or loss represents the estimated tax on profits for the current financial period.

Goods and Services Tax

All amounts are stated exclusive of goods and services tax (GST) except for accounts payable and accounts receivable which are stated inclusive of GST.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31ST MARCH 21

Note 1: Summary of Significant Accounting Policies

The directors have prepared the financial statements on the basis that the company is a non-reporting entity because there are no users dependent on general purpose financial statements. The financial statements are therefore special purpose financial statements that have been prepared in order to meet the needs of members.

The financial statements have been prepared in accordance with the significant accounting policies disclosed below, which the directors have determined are appropriate to meet the needs of members. Such accounting policies are consistent with the previous period unless stated otherwise.

The financial statements have been prepared on an accrual basis and are based on historical costs unless otherwise stated in the notes. The amounts presented in the financial statements have been rounded to the nearest dollar. The accounting policies that have been adopted in the preparation of the statements are as follows:

(a) Income Tax

The income tax expense (income) for the year comprises current income tax expense (income). The company does not apply deferred tax.

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

(b) Loans and Receivables

Trade receivables are recognised initially at cost and are subsequently measured at cost less any provision for impairment. Most sales are made on the basis of normal credit terms and are not subject to interest. Where credit is extended beyond normal credit terms and is more than 12 months, receivables are discounted to their present value. At the end of each reporting period, the carrying amounts of trade and other receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Other receivables include loans granted by the Company and are discounted to present values using the interest rate inherent in the loan.

(c) Property, Plant and Equipment (PPE)

Property, plant and equipment are carried at cost, independent of directors' valuation. All assets, excluding freehold land and buildings, are depreciated over their useful lives to the company.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a revaluation reserve in shareholders' equity. Decreases that offset previous increases of the same asset are charged against fair value reserves directly in equity; all other decreases are charged to the income statement. Each year the difference between depreciation based on the revalued carrying amount of the assets charged to the income statement and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have not been discounted in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss during the financial period in which they are incurred.

(d) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reasonably measured.

Provisions recognised represent the best estimate of the amounts required to settle the obligation at reporting date.

(e) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

(f) Revenue and Other Income

Revenue is measured at the value of the consideration received or receivable after taking into account any trade discounts and volume rebates allowed. For this purpose, deferred consideration is not discounted to present values when recognising revenue.

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

Revenue recognised related to the provision of services is determined with reference to the stage of completion of the transaction at the reporting date and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable.

All revenue is stated net of the amount of goods and services tax (GST).

(g) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to the company, are classified as finance leases.

Finance leases are capitalised by recording an asset and a liability at the lower of the amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight-line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses on a straight-line basis over the lease term.

(h) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

(i) Trade and Other Payables

Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the company during the reporting period, which remain unpaid. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability.

Basic EPS (in ₹)	(20.10)	(17.36)
Diluted EPS (in ₹)	(18.98)	(15.34)

2. (a) REVIEW OF OPERATIONS (STANDALONE):

The company has made a loss of ₹166 million as compared to the loss of ₹ 91 million in previous year. This year loss is mainly due to provision for contingent consideration payment by Tech Mahindra Limited of ₹ 315 million is linked to the continuity of employment of ESOP holders and shareholders. Otherwise, the company is performing well and the management of the Company is confident of maintaining a steady progress in future also.

(b) REVIEW OF OPERATIONS (CONSOLIDATED):

The Group has made a loss of ₹58 million as compared to the loss of ₹48 million in previous year. This year loss is mainly due to provision for contingent consideration payable by Tech Mahindra Limited of ₹ 315 million is linked to the continuity of employment of ESOP holders and shareholders. Otherwise, the Group is performing well and the management of the Group is confident of maintaining a steady progress in future also.

3. SHARE CAPITAL:

The Authorised Share Capital of the Company is Rs. 4,00,00,000/- (Rupees Four Crores) divided into 40,00,000 Equity Shares of Rs. 10/- each. The Issued and paid-up Share Capital of the Company is increased from Rs. 2,81,61,070/- divided into 28,16,107 Equity Shares of Rs. 10/- each as on 31st March,2020 to Rs. 3,00,20,330/- divided into 30,02,033 Equity Shares of Rs. 10/- each as on 31st March,2021. The increase in Issued and Paid up Share capital during the year under review was 1,85,926 shares of Rs 10/- each on account of exercise of ESOP's by the employees of the Company.

4. DIVIDEND AND TRANSFER TO RESERVES:

Since the operations during the year resulted in Net Loss, declaration of dividend or transfer to General Reserves did not arise.

INDEPENDENT AUDITORS' REPORT

To the Members of Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited)

Report on the Audit of Consolidated Financial Statements Opinion

We have audited the consolidated financial statements of Tech Mahindra Cerium Private Limited (hereinafter referred to as the 'Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 March 2021, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2021, of its consolidated loss and other comprehensive income, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

The Holding Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the holding Company's Director's report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and based on the work done/ audit report of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company. and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operations are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates, joint ventures and joint operations is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on the internal financial controls with reference to the consolidated financial statements and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures and joint operations to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the consolidated financial statements of which we are the independent auditors. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in para (a) of the section titled 'Other Matters' in this audit report.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

(a) The financial statements/financial information of one subsidiary, whose financial statements/financial information reflect total assets (before consolidation adjustments) of Rs. 107.01 million as at 31 March 2021, total revenues (before consolidation adjustments) of Rs. 137.62 million and net cash flows (before consolidation adjustments) amounting to Rs. 31.26 million for the year ended on that date, as considered in the consolidated financial statements, have not been audited either by us or by other auditors. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid subsidiary, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information are not material to the Group.

(b) The financial statements of the Group for the year ended 31 March 2020 and the transition date balance sheet as at 1 April 2019 included in these consolidated financial statements are based on the previously issued statutory financial statements prepared in accordance with the standards notified under section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standard) Amendment Rules, 2016 i.e., Indian GAAP and audited by the predecessor auditor. The audit reports of the predecessor auditor on the financial statements for the year ended 31 March 2020 and 31 March 2019 dated 18 July 2020 and 03 September 2019 respectively expressed an unmodified opinion. We audited the transition adjustments for differences in accounting principles adopted by the Group on transition to Ind AS (refer Note 43 to the consolidated financial statements).

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the financial statements/ financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

A. As required by Section 143(3) of the Act, based on our audit, as noted in the 'Other Matters' paragraph, we report, to the extent applicable, that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

   b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.

   c) The consolidated balance sheet, the consolidated statement of profit and loss (including other comprehensive income), the consolidated statement of changes in equity and the consolidated statement of cash flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.

   d) In our opinion, the aforesaid consolidated financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors of the Holding Company as on 31 March 2021 taken on record by the Board of Directors of the Holding Company, none of the directors of the Group companies is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiary companies and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

B. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us, as noted in the 'Other Matters' paragraph:

   i. There were no pending litigations as at 31 March 2021 which would impact the consolidated financial position of the Group.

   ii. The Group did not have any material foreseeable losses on long-term contracts including derivative contracts during the year ended 31 March 2021.

   iii. There are no amounts which are required to be transferred to the Investor Education and Protection Fund by the Holding Company or its subsidiary companies during the year ended 31 March 2021.

   iv. The disclosures in the consolidated financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in the financial statements since they do not pertain to the financial year ended 31 March 2021.

C. With respect to the matter to be included in the Auditor's report under section 197(16):

   In our opinion and according to the information and explanations given to us, the remuneration paid by the Holding Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 read with Schedule V to the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A to the Independent Auditors' report on the consolidated financial statements of Tech Mahindra Cerium Private Limited for the period ended 31 March 2021.

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph A (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Opinion

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2021, we have audited the internal financial controls with reference to consolidated financial statements of Tech Mahindra Cerium Private Limited (hereinafter referred to as "the Holding Company"), as of that date.

In our opinion, the Holding Company have, in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to consolidated financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The respective Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the criteria established by the respective Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of the internal controls based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

(All amounts are Indian Rupees in million except per share and number of shares data, and '0' represents amount less than million)

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 Corporate Information:

Tech Mahindra Cerium Private Limited (Formerly known as Cerium Systems Private Limited) was incorporated on 5th day of September 2013 as a Company with the limited liability under the Companies Act, 1956. The Company is engaged into providing design services in semi-conductor industry and embedded software services. The address of the registered office is No.527, 22nd Main, Sector-1, Agara, HSR Layout, Karnataka, Bangalore-560102. During the current financial year, the Company was acquired by Tech Mahindra Limited pursuant to a share purchase agreement dated 09 April 2020. Accordingly, as per the proviso to section 2(71) of the Companies Act, 2013, the Company is deemed to a public company.

The Board of Directors approved the Consolidated financial statements for the year ended 31 March 2021 and authorized for issue on 14 June 2021.

2 Significant accounting policies:

2.1 Statement of Compliance:

First-time adoption of Ind AS

These are the Group's first financial statements prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules as amended from time to time. These Ind AS fianancials prepared for the periods commencing from 1 April 2020 with restated comparative figures for the year ended 31 March 2020 in compliance with Ind AS. Accordingly, the Balance Sheet, in line with Ind AS transitional provisions, has been prepared as at 1 April 2019, the date of Group's transition to Ind AS.

2.2 Basis for preparation of Consolidated financial statements

These consolidated financial statements are presented in Indian rupees ("INR") which is also the Group's functional currency. All amounts have been reported in Indian Rupees except for share and earnings per share data, unless otherwise stated. These consolidated financial statements have been prepared on the historical cost basis and on an accrual basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Group takes into account the characteristics of the asset or liability that market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purpose in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 Share-based Payments, leasing transactions that are within the scope of Ind AS 116 Leases, and measurements that have some similarities to fair value but are not fair value, such as 'value in use', in Ind AS 36 Impairment of assets.

The consolidated financial statements comprise the financial statements of Cerium Systems Private Limited and its subsidiaries (the Group and its subsidiaries constitute "the Group"). The Group consolidates all entities which are controlled by it.

The Group establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity.

The consolidated financial statements of the Group companies are consolidated on a line-byline basis and intra-group balances, transactions including unrealized gain / loss from such transactions and cash flows are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group.

2.3 Use of Estimates:

The preparation of consolidated financial statements requires the management of the Group to make estimates and assumptions that affect the reported amounts of assets and liabilities on the date of consolidated financial statements, disclosure of contingent liabilities as at the date of the consolidated financial statements and the reported amounts of income and expenses during the reported period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Critical accounting estimates

i) Revenue Recognition

The Group applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Group to estimate the efforts or costs expended to date (input method) as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Group allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations. The Group exercises judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

ii) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.11.

iii) Other estimates

The share based compensation expense is determined based on the Group’s estimate of equity instruments that will eventually vest.

iv) Estimation uncertainties relating to the COVID-19 pandemic

The Group has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Group, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Group based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

2.4 Property, Plant & Equipment and Intangible assets:

Property, Plant & Equipment and intangible assets are stated at cost less accumulated depreciation/amortisation and net of impairment. Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Group and the cost of the item can be measured reliably.

The cost of property, plant and equipment not available for use as at each reporting date is disclosed under capital work in progress.

Depreciation on Property, Plant & Equipment (including assets taken on lease), other than freehold land, is charged based on the straight line method on the estimated useful life as prescribed in Schedule II to the Companies Act, 2013 except in respect of the certain categories of assets, where the life of the assets has been assessed based on internal technical estimate, considering the nature of the asset and estimated usage of the asset, the operating conditions of asset, past history of replacement, anticipated technological changes.

The estimated useful lives of assets are as follows:

Particulars	Life
Furniture and Fixtures	5 years
Vehicles	5 years
Computers	3 years
Office Equipments	5 years

The estimated useful life of intangible assets (software) is 1 to 4 years and these are amortized on a straight line basis. Project specific intangible assets are amortized over their estimated useful life on a straight line basis or over the period of the license/project period, whichever is lower.

The estimated useful life and residual values of Property, Plant & Equipment and Intangible assets are reviewed at the end of each reporting period.

Assets acquired under leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term.

An item of Property, Plant & Equipment and intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.5 Foreign Operations:

For the purpose of these consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

2.6 Leases:

At inception of the contract, the Group determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of- use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of- use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the consolidated statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Group recognises the amount of the re- measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.7 Impairment of Assets:

i) Financial assets

The Group applies the expected credit loss model for recognizing impairment loss on financial assets.

Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate.

Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is assessed at customer level separately. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case, those are measured at lifetime expected credit loss.

ii) Non Financial assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the consolidated statement of profit and loss.

2.8 Revenue recognition:

Revenue from business include revenue earned from services rendered on 'time and material' basis and fixed price development contracts.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognised as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognised as unbilled revenue.

Revenue on fixed price development contracts is recognised using the 'percentage of completion' method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Group does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognised only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the consolidated statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability (“Unearned revenue”) arises when there are billing in excess of revenue.

Fixed price development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The Group accounts for volume discount and pricing incentives to customers as a reduction based on ratable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress made by the customer towards earning the discount/incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognises the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Group recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the consolidated selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the consolidated selling price, or as a termination of the existing contract and creation of a new contract if not priced at the consolidated selling price.

The Group disaggregates revenue from contracts with customers by nature of services and geography verticals.

2.9 Foreign currency transactions:

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the date of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognised in the profit or loss.

2.10 Financial Instruments:

Financial assets and liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost using the effective interest method less impairment losses, if these financial assets are held within a business model whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial assets not measured at amortised cost are carried at fair value through profit or loss (FVTPL) on initial recognition, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in ‘other comprehensive income’, for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in ‘other comprehensive income’, subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL, are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss.

Investment in subsidiaries

Investment in subsidiaries is carried at cost less impairment as per Ind AS 27 Consolidated and Separate Financial Statements.

Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortised cost, the carrying amounts approximate fair values due to the short term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised in a business combination, or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit and loss.

ii) Derecognition of financial instruments

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the risk and rewards of transferred financial assets, the Group continues to recognise the financial asset and also recognises the borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligation are discharged, cancelled or have expired.

2.11 Employee Benefits

a. Defined benefit plans:

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's last drawn salary and the tenure of the employment.

b. Defined contribution plans:

i) Provident fund: The eligible employees of the Group are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Group make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the consolidated statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Group. The Group has no further obligations for future provident fund.

ii) Superannuation and ESIC: Contributions to Superannuation fund and employees' state insurance scheme (ESI), which are defined contribution schemes, are charged to the consolidated statement of profit and loss on an accrual basis. The Group has no further obligations for future superannuation fund benefits other than its annual contributions.

c. Compensated absences:

The Group provides for compensated absences and long term service awards subject to Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date and the awards are accrued based on number of years of service of an employee. It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognised in full in the Consolidated statement of profit and loss in the period in which they occur. The Group also off a short term benefi in the form of encashment of unavailed accumulated compensated absences above certain limits for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

d. Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for services rendered by employees, are recognised in the consolidated statement of profit and loss during the period when the employee renders the service.

2.12 Taxation:

Tax expense comprises of current tax and deferred tax. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period.

Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemptions in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying unit has a legally enforceable right and intends to settle the asset and liability on a net basis.

Deferred income taxes: Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be recovered or settled.

Deferred tax assets include Minimum Alternative Tax (MAT) paid in accordance with the tax laws in India. MAT credit is recognised for future economic benefits in the form of adjustment of future income tax liability and is considered as an asset if there is probable evidence that the Group will pay normal income tax.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

The Group recognises interest levied and penalties related to income tax assessments in interest expenses.

2.13 Employee Stock Option Plans:

Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. The equity instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The share based compensation expense is determined based on the Group's estimate of equity instruments that will eventually vest. The expense is recognised in the statement of profit and loss with a corresponding increase to the 'share option outstanding account', which is a component of equity.

2.14 Research and development:

Research costs are recognised as an expense in the consolidated statement of profit and loss in the period they are incurred. Development costs are recognised in the consolidated statement of profit and loss unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the Group has an intention and ability to complete the development project and use the asset and the costs can be measured reliably.

2.15 Earnings per Share:

Basic earnings per share is calculated by dividing the net profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period. For calculating diluted earnings per share, the net profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

2.16 Provisions and Contingent Liabilities:

A provision is recognised when the Group has a present obligation as a result of past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance costs.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.17 Recent pronouncements

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from 1 April 2021. The amendments primarily relate to:

a) Change in existing presentation requirements for certain items in the Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long-term borrowings, effect of prior period errors on Equity Share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency. The Group is currently evaluating the impact of these amendments.

Amended Employee Stock Option Plan 2020

The Group had instituted ‘Employee Stock Option Plan 2019’ (ESOP 2019) for eligible employees of the Group. ESOP 2019 was subsequently amended in its entirety through Amended Employee Stock Option Plan 2020 (“Amended ESOP Plan 2020”) dated 11 March, 2020.The vesting period for all the options issued shall be one year from the date of grant of options. Each option carries with it the right to purchase one equity share of the Group at the exercise price determined by the Group at the time of grant.

Details of activity of the ESOP scheme

	31-Mar-2021	31-Mar-2020
Options outstanding at the beginning of the year	**376,332**	322,186
Granted during the year	**-**	54,146
Forfeited / surrendered during the year	**-**	-
Exercised during the year	**185,926**	-
Lapsed during the year	**14,646**	-
Options outstanding at the end of year	**175,760**	376,332
Options exercisable at the end of the year	**175,760**	322,186

The weighted average remaining contractual life are as follows:

Range of Exercise Price	31-Mar-2021		31-Mar-2020	
	Weighted average contractual life (years)	No. of Options Outstanding	Weighted average contractual life (years)	No. of Options Outstanding
₹ 10	0.77	175,760	1.53	376,332

Fair value of each option is estimated on the date of grant using Black and Scholes option pricing model with following assumptions

	31-Mar-2021	31-Mar-2020
1. Exercise price (₹)	-	10.00
2. Fair value of options granted (₹)	-	652.00
3. Expected life of the option (years)	-	1.42 years -1.55 years
4. Risk free interest rate (%)	-	7.30% - 7.37%
5. Expected volatility (%)	-	41.05%
6. Dividend yield (%)	-	0.00%

During the year ended 31 March 2021, there were no options granted.

The Company recorded an employee compensation cost of 8.12 million (31 March 2020 : 228.65 million) in the Statement of Profit and Loss.

32 Transfer pricing :

The review is desired from the viewpoint of the Indian transfer pricing regulations as contained in section 92 to 92F of the Income Tax Act, 1961 read with Rules 10A to 10E of the Income Tax Rules, 1962. The objective of this study is to review the intra-group transactions of Tech Mahindra Cerium Private Limited with its AEs and to comment whether they adhere to the arm's length prInc.iple embodied in the Indian transfer pricing regulations. The Group uses Cost plus markup method.

Management believes that the Group's transactions with related parties post 31 March 2020 (last period up to which an Accountants' report has been submitted as required under the Inc.ome tax Act, 1961) continue to be at arm's length and that the transfer pricing legislation will not have any impact on these standalone financial statements, particularly on the amount of tax expense and that of provision for taxation.

33 Financial instruments - Fair values and risk management

Accounting classifications and fair values

The following tables shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

The carrying value and fair value of financial instruments by categories as of 31 March 2021 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	394	394	394
Trade receivables	-	178	178	178
Other financial assets	-	36	36	36
Total	**-**	**608**	**608**	**608**
Liabilities:				
Trade and other payables	-	-	-	-
Lease liabilities	-	51	51	51
Other financial liabilities	-	34	34	34
Total	**-**	**85**	**85**	**85**

The carrying value and fair value of financial instruments by categories as of 31 March 2020 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	55	55	55
Trade receivables	-	218	218	218
Other financial assets	-	10	10	10
Total	**-**	**283**	**283**	**283**

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Liabilities:				
Trade and other payables	-	-	-	-
Borrowings	-	25	25	25
Lease liabilities	-	23	23	23
Other financial liabilities	-	1	1	1
Total	**-**	**49**	**49**	**49**

The carrying value and fair value of financial instruments by categories as of 1 April 2019 is as follows:

	Fair value through P&L	Amortized cost	Total carrying value	Total Fair Value*
Assets:				
Cash and cash equivalents	-	49	49	49
Trade receivables	-	131	131	131
Loans	-	16	16	16
Other financial assets	-	20	20	20
Total	**-**	**216**	**216**	**216**
Liabilities:				
Trade and other payables	-	-	-	-
Borrowings	-	176	176	176
Lease liabilities	-	37	37	37
Other financial liabilities	-	19	19	19
Total	**-**	**232**	**232**	**232**

*The fair value of cash and cash equivalents, other balances with bank, trade receivables, loans, trade payables, borrowings and certain other financial assets and liabilities approximate their carrying amount largely due to the short term nature of these instruments.

Fair value Hierarchy:

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosure are required):

The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities at net market value.

Level-2 – Inputs other than quoted prices included within level□1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level-3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

A. Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risk. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentration of credit risk principally consist of trade receivables, investments, loans, cash and cash equivalents, other balances with banks and other financial assets. None of the financial instruments of the Group result in significant credit risk concentrations.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. The derivatives are entered into with banks and financial institutions with are high credit ratings.

a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was INR 608.56 million, INR.282.88 million, and INR 215.08 million as of 31 March 2021, 31 March 2020 and 1 April 2019 respectively, being the total of the carrying amount of trade receivables, investments, cash and cash equivalents, loans and other financial assets.

b) Trade receivable

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate. Details of concentration of revenue are included in Note 38. The management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information and in some cases bank references.

The Group limits its exposure to credit risk from trade receivables by establishing a maximum payment period. More than 95% of the Group's customers have been transacting with the Group for over three years, and none of these customers' balances are credit-impaired at the reporting date. In monitoring customer credit risk, customers are grouped according to their credit characteristics such as geographic location, industry, history with the Group and existence of previous financial difficulties.

At 31 March 2021, the carrying amount of the Group's most significant customer is 70.14 million (31 March 2020: INR 67.33 million; 1 April 2019: 41.33 million).

	As at		
	31-Mar-2021	**31-Mar-2020**	**1-Apr-2019**
Balance at the beginning of the year	**0**	-	-
Movement in the expected credit loss allowance on trade receivables and other financial assets:	**-**	0	-
Provided / (Reversed / Utilized) during the year (Net)	**-**	-	-
Balance at the end of the year	**0**	0	-

B. Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity and other market changes. The Group's exposure to market risk is primarily on account of foreign currency exchange currency risk.

a) Foreign Currency exchange rate risk

The fluctuation in foreign currency exchange rates may have impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar and Malaysian Ringgit against the respective functional currency of the Group.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the year are as follows:

		As at		
	Currency	**31-Mar-2021**	**31-Mar-2020**	**1-Apr-2019**
Trade Receivables	USD	**118**	141	89
Unbilled Revenue	USD	**117**	44	52
Cash and cash equivalents	USD	**0**	0	0
	MYR	**0**	0	-

		As at		
	Currency	**31-Mar-2021**	**31-Mar-2020**	**1-Apr-2019**
Payables (Trade and others)	USD	**-**	-	-

A reasonably possible strengthening by 1% of USD and MYR against the Indian Rupee as at 31 March 2021, 31 March 2020 and 1 April 2019 will affect the statement of profit and loss by the amounts shown below:

Currency	31-Mar-2021	31-Mar-2020	1-Apr-2019
USD	**2**	2	1
MYR	**0**	0	-

C. Liquidity Risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following are remaining contractual maturities of financial liabilities at the reporting date. The amount are gross and undiscounted and include contractual interest payments.

As at 31 March 2021

	Less than 1 year	1-5 years	More than 5 years	Total
Non Derivative Financial Liabilities				
Borrowings	-	-	-	-
Lease liabilities	28	30	-	58
Trade Payables	-	-	-	-
Other financial liabilities	8	26	-	34
Total	**36**	**56**	**-**	**92**

	Less than 1 year	1-5 years	More than 5 years	Total
Non Derivative Financial Liabilities				
Borrowings	153	23	-	176
Lease liabilities	18	91	-	109
Trade Payables	-	-	-	-
Other financial liabilities	19	-	-	19
Total	**190**	**114**	**-**	**304**

34 Post employment benefit plans

i) Defined Contribution Plans

The Company makes contributions to Provident Fund, Superannuation Fund and National Pension sheme Fund which are defined contribution plans for qualifying employees. Under these Schemes, the Company contributes a specified percentage of the payroll costs to the respective funds

The Company has recognized the following expense in the Statement of Profit and Loss :

22.77 million (31 March 2020: 17.11 million) for Provident Fund contributions.

0.11 million (31 March 2020: 0.15 million) for Labour welfare funds

ii) Defined Benefit Plan

In accordance with the Payment of Gratuity Act, 1972, applicable for Indian companies, the company operates a scheme of gratuity which is a defined benefit plan. The following table sets out the Changes in Defined Benefit Obligation ('DBO') in the Balance Sheet are as under:

	31-Mar-2021	31-Mar-2020
Present Value of Obligation	**35**	26
Fair Value of Plan Assets	**-**	-
Surplus / (Deficit)	**(35)**	(26)
Net Asset / (Liability)	**(35)**	(26)

Expenses Recognized during the period

Loss / (Gain) on settlement	**-**	-
Net Interest Cost / (Income) on the Net Defined Benefit Liability / (Asset)	**1**	2
Expenses Recognised in the Income Statement	**13**	**10**

Other Comprehensive Income

Particulars	For the year ending	
	31-Mar-2021	**31-Mar-2020**
Actuarial (gains) / losses		
- change in demographic assumptions	**-**	1
- change in financial assumptions	**0**	3
- experience variance (i.e. Actual experience vs assumptions)	**(4)**	(7)
-Components of defined benefit costs recognised in other comprehensive income	**(4)**	**(3)**

Financial Assumptions

	31-Mar-2021	**31-Mar-2020**
Discount rate (per annum)	**6.15%**	6.20%
Salary growth rate (per annum)	**4.00%**	4.00%

The discount rate indicated above reflects the estimated timing and currency of benefit payments.It is based on the yields / rates available on applicable bonds as on the current valuation date.

The salary growth rate indicated above is the Company's best estimate of an increase in salary of the employees in future years, determined considering the general trend in inflation, senority, promotions, past experience and other relevant factors such as demand and supply in employment market, etc.

Demographic Assumptions

	31-Mar-2021	**31-Mar-2020**
Mortality rate	**100% of IALM 2012-14**	100% of IALM 2012-14
Normal retirement age	**60 Years**	60 Years
Attrition / Withdrawal rate (per annum)	**15.60%**	15.60%

Attrition rate indicated above represents the Company's best estimate of employee turnover in future(other than on account of retirement,death or disablement) determined considering various factors such as nature of business, retention policy, industry factors, past experience, etc.

Sensitivity Analysis

Significant actuarial assumptions for the detemination of the defined benefit obligation are discount rate, expected salary increase and mortality. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period, while holding all other assumptions constant. The results of sensitivity analysis is given below:

	31-Mar-2021	**31-Mar-2020**
Defined Benefit Obligation (Base)	**35**	26

	31-Mar-2021		**31-Mar-2020**	
	Decrease	**Increase**	**Decrease**	**Increase**
Discount Rate (- / + 1%)	**37**	**33**	27	24
(% change compared to base due to sensitivity)	**6.7%**	**-6.0%**	6.9%	-6.2%
Salary Growth Rate (- / + 1%)	**33**	**37**	24	27
(% change compared to base due to sensitivity)	**-6.1%**	**6.7%**	-6.4%	7.0%
Attrition Rate (- / + 50% of attrition rates)	**36**	**33**	26	25
(% change compared to base due to sensitivity)	**1.8%**	**-6.0%**	0.9%	-0.9%
Mortality Rate (- / + 10% of mortality rates)	**35**	**35**	26	26
(% change compared to base due to sensitivity)	**0.0%**	**0.0%**	0.0%	0.0%

Please note that the sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. There is no change in the method of valuation for the prior period.

Effect of Plan on Entity's Future Cash Flows

a) Funding arrangements and Funding Policy

The scheme is managed on unfunded basis.

b) Expected Contribution during the next annual reporting period

Since the scheme is managed on unfunded basis, the next year contribution is taken as nil.

c) Maturity Profile of Defined Benefit Obligation

Weighted average duration (based on discounted cashflows)	6 years

Expected cash flows over the next (valued on undiscounted basis):

1 year	3
2 to 5 years	19
6 to 10 years	17
More than 10 years	16

35 Leases

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Group has applied Ind AS 116 using the modified retrospective approach, for initial application of the standard, the Group has recognised right-of-use assets and lease liabilities as at 1 April 2019, with a corresponding adjustment in equity (retained earnings) as on that date. Lease liabilities are measured by determining the present value of future lease payments on 1 April 2019, discounted at the incremental borrowing rate on that date. Right-of-use assets are calculated by arriving at the present value of leases on the commencement date considering the incremental borrowing rate on 1 April 2019.

For transition, the Group has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Group has used a single discount rate to a portfolio of leases with similar characteristics. The Group has used incremental borrowing rate of 12.30% p.a. as a discount rate to a portfolio of leases with similar characteristics.

As a lessee: Operating leases

The Group recognised a lease liability measured at the present value of the lease payments. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee's incremental borrowing rate as at 1st April, 2019. Accordingly, a right-of-use asset of Rs.35.32 Million and a corresponding lease liability of Rs.37.19 Million has been recognized. The cumulative effect on transition in retained earnings net off taxes is 1.43 Million (including impact of deferred tax of 0.44 Million). The principle portion of the lease payments have been disclosed under cash flow from financing activities. The average incremental borrowing rate of 12.30 % has been applied to lease liabilities recognised in the balance sheet at the date of initial application.

Lease agreements pertain to office premises taken on lease and license. The Group has applied Ind AS 116 using the modified retrospective approach. The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. On application of Ind AS 116, the nature of expenses have changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance cost for interest accrued on lease liability.

A. Right-of-use liabilities

	31-Mar-2021	31-Mar-2020	1-Apr-2019
Non Current	**28**	7	23
Current	**23**	16	14

B. Cash Flows

	31-Mar-2021	31-Mar-2020
Payment for Principal portion	**27**	15
Payment for Interest Portion	**6**	3
Total cash outflow for leases	**33**	18

C. Maturity analysis – contractual undiscounted cash flows of leases under the purview of Ind AS 116

	31-Mar-2021	31-Mar-2020	1-Apr-2019
Less than one year	**28**	33	18
One to five years	**30**	58	91
More than five years	**0**	0	0
Total undiscounted cash flows	**58**	91	109

Disclosure on cash and non-cash changes for liabilities arising from financing activities:

Mentioned below are the components of liabilities related to financing activities in cash flow for the year ended 31 March, 2021:

Particulars	Opening balance	Cash flow	Net Additions to lease liability	Closing Balance
Lease liability	23	(33)	62	52

36 Current Tax and Deferred Tax

The income tax expense for the year ended can be reconciled to the accounting profit as follows:

Particulars	31-Mar-2021	31-Mar-2020
Profit/(Loss) before tax	**11**	(62)
Enacted tax rate	**25.17%**	25.17%
Income tax expense calculated at enacted tax rate	**3**	(16)
Effect of expenses disallowed for tax purpose	**79**	12
Effect of income taxes related to prior years	**0**	0
Effect of tax on income at different rates	**(6)**	(10)
Others	**(6)**	1
Income tax expense recognised in statement of profit and loss	**70**	(13)

The tax rate used for the above reconciliation is the rate as applicable for the respective period payable by corporate entities in India on taxable profits under the Indian income tax laws.

Deferred Tax:

The following is the analysis of Deferred Tax Assets presented in the Balance Sheet:

	31-Mar-2021	31-Mar-2020
Deferred Tax Assets	**44**	27
Deferred Tax Liabilities	**(12)**	(5)
Deferred Tax Assets (Net)	**32**	22

The tax effect of significant temporary differences that has resulted in deferred tax assets are given below.

	As at 31st March, 2020	Recognised in Profit and loss	Recognised in OCI	As at 31st March, 2021

37 Earnings Per Share

Basic Earning per share

The calculation of basic earnings per share for the year ended 31 March 2021 was based on profit/(loss) attributable to equity shareholders of 59 Million (31st March, 2020 : 49 million), and the weighted average number of equity shares outstanding of 2,929,191 (31st March, 2020 : 2,816,107).

Diluted Earning per share

The calculation of basic earnings per share for the year ended 31 March 2021 was based on profit/(loss) attributable to equity shareholders of 59 Million (31st March, 2020 : 49 million), and the weighted average number of equity shares after adjustment for the effects of all dilutive potential equity 3,102,255 (31st March, 2020 : 3,186,667).

Particulars	**31-Mar-2021**	**31-Mar-2020**
Profit after taxation	**(59)**	(49)
No of Equity Shares outstanding as at year end	**3,002,033**	2,816,107
Weighted average Equity Shares outstanding as at year end	**2,929,191**	2,816,107
Add: Dilutive impact of employee stock options	**173,064**	370,560
No of Equity Shares for calculating Diluted Earnings Per Share	**3,102,255**	3,186,667
Nominal Value per Equity Share (in Rs.)	**10**	10
Earnings Per Share (Basic) (in Rs.)	**(20.10)**	(17.36)
Earnings Per Share (Diluted) (in Rs.)	**(18.98)**	(15.34)

38 Disclosures as per Ind AS 115 - Revenue from Contract with Customers

a. Disaggregation of revenue from contracts with customers

Set out below is the disaggregation of the Group's revenue from contracts with customers

Revenue for year ended 31 March 2021

Particulars	**Services**	**Total**
Customers	**2,098**	2,098
Total revenue from contracts with customers	**2,098**	2,098
Geographical Markets		
a. Americas	**634**	634
b. Rest of World	**1,464**	1,464
Total revenue from contracts with customers	**2,098**	2,098

Revenue for year ended 31 March 2020

Particulars	**Services**	**Total**
Customers	**1,549**	1,549
Total revenue from contracts with customers	**1,549**	1,549
Geographical Markets		
a. Americas	**826**	826
b. Rest of World	**723**	723
Total revenue from contracts with customers	**1,549**	1,549

b. Trade receivables and Contract balances:

Particulars	31-Mar-2021	31-Mar-2020
Trade Receivables	**178**	218
Contract assets	**116**	48
Unbilled revenue	**22**	3
Unearned Revenue	**4**	-

The Group classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time. Revenue for time and material contracts are recognized as related services are performed. Revenue for fixed price services contracts is recognized on percentage of completion basis over the period of the contract. Revenues in excess of billings is recorded as unbilled revenue and is classified as a financial asset for these cases as right to consideration is unconditional upon passage of time.

Revenue recognition for fixed price contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Invoicing in excess of earnings are classified as unearned revenue.

Trade receivables are non-interest bearing and generally have a credit period of 60 days.

Changes in contract assets	31-Mar-2021	31-Mar-2020
Balance at the beginning of the year	**48**	-
Revenue recognized net of invoices raised during the year	**68**	48
Balance at the end of the year	**116**	**48**

The unearned revenue primarily relate to the advance consideration received on contracts entered with customers for which no work is performed at the reporting date, and therefore revenue will be recognized when rights become unconditional.

Changes in contract assets	31-Mar-2021	31-Mar-2020
Balance at the beginning of the year	**-**	-
Revenue recognized net of unearned revenue for the year	**4**	0
Balance at the end of the year	**4**	**-**

Revenue recognized during the current year from:	31-Mar-2021	31-Mar-2020
Amounts included in contract liability at the beginning of the period	**-**	-
Performance obligations satisfied in previous periods	**-**	-

c. Performance Obligation

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially) satisfied performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognised corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts, or the performance obligation is part of a contract that has an original expected duration of one year or less. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of the estimates, economic factors (changes in currency rates, tax laws etc).

39 Estimation of uncertainties relating to the global health pandemic from COVID-19:

The World Health Organization in February 2020 declared COVID 19 as a pandemic. The pandemic has been rapidly spreading throughout the world, including India. Governments around the world including India have been taking significant measures to curb the spread of the virus including imposing mandatory lockdowns and restrictions in activities. Consequently, the Group's offices also had to be closed down for 5-6 days to get permission from the Government Authorities to start the business. The Group has also adopted measures to curb the spread of infection in order to protect the health of its employees and ensure business continuity with minimal disruption including remote working, maintaining social distancing, sanitization of work spaces etc. The Group is monitoring the situation closely taking into account directives from the Government.

Management believes that it has taken into account all the possible impacts of known events arising from COVID-19 pandemic and the resultant lockdown in the preparation of the financial statements including the assessment of recoverable values of its property, plant and equipment and intangible assets and the net realizable values of other assets. However, given the effect of these lockdowns on the overall economic activity in India , there is no material impact on the financial statements of the Group as per management assessment taking into the consideration of COVID-19 situation in present. The Group will continue to monitor any material changes to future economic conditions and consequential impact on its financial statements.

40 Segment Reporting

a) Business Segments:

The Company is engaged mainly in the business of VLSI & Embedded software services. As defined in Ind AS 108, the 'Chief Operating Decision Maker (CODM) considers entire business as single operating segment. The Company's operating divisions are managed from India. There is only one customer who accounts for more than 10% of the Company's revenue.

b) Geographical segments:

The geographical information analyses the Company's revenues by the Company's country of domicile (i.e. India) and outside India presenting geographical information, segment revenue has been on the geographic location of customers.

Particulars	31 March 2021			
		Outside India		
	India	USA	Others	Total
Revenue from customers	1,363	634	101	2,098

Particulars	31 March 2020			
		Outside India		
	India	USA	Others	Total
Revenue from customers	664	826	59	1,549

Management believes that it is currently not practical to bifurcate assets based on geographies. Hence, no disclosure is provided for the same.

42 Previous years figures have been regrouped / reclassified in line with the current year figures, wherever necessary.

43 First-time adoption of Ind AS

As stated in Note 2, these are the Group first consolidated financial Statements prepared in accordance with Ind AS. For the year ended 31 March 2020 the Group has prepared its financial statements in accordance with Companies (Accounting standard) Rules, 2006 notified under section 133 of the act and other relevant provision of the Act ('previous GAAP').

The accounting policies set out in Note 2 have been applied in preparing the financial statements for the year ended 31 March 2021, the comparative information presented in these financial statements for the year ended 31 March 2020 and in the preparation of an opening Ind AS balance sheet on the date of transition i.e. 1 April 2019 (the Group date of transition).

In preparing its consolidated Ind AS balance sheet as at 1 April 2019 and in presenting the comparative information for the year ended 31 March 2020, the Group has adjusted amounts reported previously in consolidated financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Group in restating its consolidated financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Group financial position, financial performance and cash flows.

Exemptions and exceptions availed

In preparing these consolidated financial statements, the Group has applied below mentioned Ind AS 101 optional exemptions and mandatory exceptions in the transition from previous GAAP to Ind AS.

A Optional Exceptions

A.1 Property plant and equipment and Intangible assets

As per Ind AS 101 an entity may elect to:

(i) measure an item of property, plant and equipment at the date of transition at its fair value and use that fair value as its deemed cost at that date

(ii) use a previous GAAP revaluation of an item of property, plant and equipment at or before the date of transition as deemed cost at the date of the revaluation, provided the revaluation was, at the date of the revaluation, broadly comparable to:

- fair value;
- or cost or depreciated cost under Ind AS adjusted to reflect, for example, changes in a general or specific price index.

The elections under (i) and (ii) above are also available for intangible assets that meets the recognition criteria in Ind AS 38, Intangible Assets, (including reliable measurement of original cost); and criteria in Ind AS 38 for revaluation (including the existence of an active market).

(iii) use carrying values of property, plant and equipment, intangible assets and investment properties as on the date of transition to Ind AS (which are measured in accordance with previous GAAP and after making adjustments relating to decommissioning liabilities prescribed under Ind AS 101) if there has been no change in its functional currency on the date of transition.

As permitted by Ind AS 101, the Group has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment. The same election has been made in respect of intangible assets also.

A.2 Investments in subsidiaries

In accordance with the exemption given in Ind AS 101, the Group has recorded investment in subsidiaries at deemed cost i.e. previous GAAP carrying amount, as on date of transition.

B Mandatory Exceptions

B.1 Estimates:

As per Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per Ind AS 101, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition (for preparing opening Ind AS balance sheet) or at the end of the comparative period (for presenting comparative information as per Ind AS).

The Group's estimates under Ind AS are consistent with the above requirement. Key estimates considered in preparation of the consolidated financial statements that were not required under the previous GAAP are listed below:

- Impairment of financial assets based on the expected credit loss model.
- Determination of the discounted value for financial instruments carried at amortised cost."

B.2 Derecognition of financial assets and liabilities

As per Ind AS 101, an entity should apply the derecognition requirements in Ind AS 109, Financial Instruments, prospectively for transactions occurring on or after the date of transition to Ind AS. However, an entity may apply the derecognition requirements retrospectively from a date chosen by it if the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions. The Group has elected to apply the derecognition principles of Ind AS 109 retrospectively as reliable information was available at the time of initially accounting for these transactions.

B.3 Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortised cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable. Accordingly, the Group has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortised cost has been done retrospectively except where the same is impracticable.

C Reconciliation of Equity, as previously reported under IGAAP to Ind-AS for earlier periods

The following reconciliations provide a quantification of the effect of differences arising from the transition from the previous Indian GAAP ("IGAAP") to IND AS in accordance with IND AS 101 and the notes explaining the significant differences there to:

1. Other Equity reconciliation as at 1 April 2019 and 31 March 2020
2. Balance Sheet Reconciliation as at 1 April 2019 and 31 March 2020
3. Reconciliation of Statement of Profit and Loss for the year ended 31 March 2020
4. Explanatory notes to the Balance Sheet and Statement of Profit and Loss Reconciliation

C.1 Other Equity reconciliation as at 1 April 2019 and 31 March 2020

Details the impact in other equity consequent to Ind AS transition adjustments:

- Income tax related to items that will not be reclassified to profit or loss	-	0	(1)	(1)
Exchange differences in translating the Financial Statements of Foreign Operations		(0)	(1)	(1)
	-	**2**	**-1**	**1**
Total comprehensive income for the year	**(52)**	**(1)**	**4**	**(48)**

* Notes:

1. Depreciation and Amortisation Expense for FY 2019-20 includes goodwill written off of Rs.0.075 million arised on acquisition of Cerium Systems Inc but in IND financials it was adjusted in opening retained earings as on the date of IND AS transition at 1 Apr 2019.
2. Prior period expense for FY 2019-20 presented under previous GAAP in respect of ESOP's amounting to Rs. 5.09 million has been now been restated with corresponding adjustment to opening balance of Share Option Outstanding Account grouped under Other Equity as at 01 April 2019.

C.4 Notes to the reconciliation:

a) Lease accounting in accordance with Ind AS 116:

Under previous GAAP, lease rentals were equalized and charged to P&L and classified under other expenses. However, under Ind AS 116, the Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date or in this case the date of transition. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the right-of-use liability adjusted for any lease payments made at or before the date of transition less, lease incentives received and any initial direct costs incurred. The Company measures the right-of-use liability at the present value of the lease payments that are not paid at the date of transition. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The company has used an incremental borrowing rate of 12.30% p.a. Further, any leases classified as finance leases have been reclassified as right-of-use asset as on the date of transition.

	31 March 2020	1 April 2019	FY 2019-20
Right-of-use asset recorded	**20**	35	-
Right-of-use liabilities (current) recorded	**16**	14	-
Right-of-use liabilities (non-current) recorded	**7**	23	-
Decrease in deferred tax liabilities	**(0)**	(0)	-
Decrease in Retained Earnings	**-**	1	-
Decrease in other expenses	**-**	-	(18)
Increase in depreciation	**-**	-	15
Increase in finance cost	**-**	-	3
Increase in deferred tax income	**-**	-	0

b) Remeasurement of defined benefit liability / asset:

Under Ind AS, remeasurement of defined benefit liability / asset are recognized in other comprehensive income. Under previous GAAP, the Company recognized remeasurement of defined benefit liability / asset in profit or loss.

	31 March 2020	1 April 2019	FY 2019-20
Increase in employee benefit expenses	**-**	-	2
Decrease in deferred tax charge	**-**	-	0
Increase in OCI - Remeasurement of defined benefit liability (asset)	**-**	-	(2)
Increase in OCI - Income tax	**-**	-	(0)

c) Financial instruments at amortized cost:

Under previous GAAP, all security deposits were carried at nominal values. Under Ind AS, security deposits are ‘financial assets’; those deposits bearing zero or below market rate interest are measured at amortised cost as at 01 April 2019, with a corresponding recognition of prepayments.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Lightbridge Communications Corporation

We have audited the accompanying consolidated financial statements of Lightbridge Communications Corporation (a Delaware corporation), its subsidiaries and its associate which comprise the consolidated balance sheet as of March 31, 2021 and 2020, and the related consolidated statement of operations, comprehensive (loss)/income, changes in shareholders' equity and cash flows for the years then ended and the related notes to the consolidated financial statements.

Management's Responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement. We did not audit the financial information of the component, LCC Acquisition Holdings B.V., a component of LCC Europe B.V. and of Leadcom Integrated Solutions International B.V. and its subsidiaries, which reflect total assets constituting $ 81.24 million and $ 83.66 million of consolidated total assets as of March 31, 2021 and 2020 respectively, and total revenues of $ 86.08 million and $ 83.03 million of consolidated total revenues for the year ended March 31, 2021 and 2020 respectively. Those statements/information were audited by other auditors, whose report has been furnished to us and our opinion, insofar as it relates to the amounts included, is based solely on the report of the other auditors.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Lightbridge Communications Corporation, its subsidiaries and its associate as of March 31, 2021 and 2020 and the results of their operations and their cash flows for years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2021 AND 2020

NOTE 1—DESCRIPTION OF OPERATIONS AND BASIS OF PRESENTATION

Lightbridge Communications Corporation ("LCC"), a Delaware corporation, was formed in March 2010 and is headquartered in Plano, Texas. Unless the context indicates otherwise, the term "Company" refers herein to LCC and its subsidiaries.

Effective January 1, 2015, LCC is a wholly owned subsidiary of Tech Mahindra (Americas), Inc., which is a wholly owned subsidiary of Tech Mahindra Limited ("Tech Mahindra").

LCC conducts business through its direct and indirect wholly owned subsidiaries that provide services in North America, Europe, Middle East and Africa, Latin America, and Asia.

The Company provides integrated end-to-end solutions for wireless voice and data communications networks with offerings ranging from high level technical consulting to system design and optimization services, ongoing operations and maintenance services, and deployment services. The Company uses initial opportunities to provide high-level technical consulting services to secure later-stage system design and network optimization contracts. Engagements to provide design services also create opportunities for the Company to propose on operations and maintenance projects including network optimization contracts as well as other services. The Company's technical consulting, system design and network optimization practices position it to capitalize on additional opportunities as new technologies are developed and wireless service providers upgrade their existing networks, deploy the latest available technologies, and respond to changes in how customers use wireless services.

The accompanying consolidated financial statements include the results of LCC and its direct and indirect wholly owned subsidiaries. Intercompany transactions and balances have been eliminated in the consolidated financial statements. Investments in entities in which the Company does not have majority ownership have been accounted for using the equity method of accounting.

During the year, LCC Telecom GmBH, erstwhile step-down subsidiary of LCC has been merged with Tech Mahindra GmbH effective October 02, 2020. As per draft scheme of merger, the appointed date of the merger would be April 01, 2020 without any exchange of sale consideration. The effect of the merger has been given in the current financial year and accordingly capital reserve amounting to USD 10.67 million has been recorded.

Shares of LCC Network Services B.V, erstwhile step-down subsidiary of Lightbridge Communications Corporation have been transferred to Tech Mahindra Limited effective March 31, 2021 for a consideration of EURO 1. The effect of the same has been given in the current financial year and accordingly capital reserve amounting to USD 1.36 million has been recorded.

Liquidity

As of March 31, 2021, the Company had an accumulated deficit of $ 289.65 million and the Company incurred a net loss of $ 2.07 million for the year ended March 31, 2021. The Company had cash inflow from operations of $ 44.69 million for the year ended March 31, 2021. As of March 31, 2021, the Company has approximately $ 71.62 million of short-term borrowings, the most significant of which are $ 42.24 million from Citibank N.A scheduled to mature in February 2022 with renewals at agreed intervals, $ 7.00 million from Notes issued to Tech Mahindra (Americas), Inc. scheduled to mature in September 2021 and $18.00 million from CJS Solutions Group LLC scheduled to mature at agreed intervals from September 2021 to January 2022. The borrowings under these facilities are guaranteed by Tech Mahindra Limited, the ultimate holding company or funded by its related parties. See Note 6, Borrowings. Management has prepared projections and believes that cash flows from operations, existing cash on hand, available cash under existing credit facilities, plus availability of cash, if needed, from Tech Mahindra Limited will be adequate to fund the Company's cash requirements for the foreseeable future. Accordingly, the financial statements for the year ended March 31, 2021 has been prepared on a going concern basis.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Significant accounting policies are as follows:

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Estimates are used in accounting for, among other things, revenue recognition on contracts, allowance for doubtful accounts, accrual of income taxes, recoverability of investments in affiliates, goodwill and other intangible assets, discounting of lease liability and the accrual of restructuring charges. Although these estimates are based upon management's best knowledge of current events and actions, actual amounts may differ from estimates.

Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents include all highly liquid investments purchased with original maturities of three months or less and include overnight repurchase agreements, short-term notes, and short-term money market funds. The Company places its cash and cash equivalents with high-quality financial institutions.

At March 31, 2021 and March 31, 2020, the Company had $ 24.4 million and $ 27.4 million of cash in foreign bank accounts, respectively.

Concentration of Credit Risk

Financial instruments that potentially expose the Company to concentration of credit risk consist primarily of trade receivables, cash and cash equivalents and restricted cash. The Company sells services globally. Generally, the Company does not require collateral or other security to support customer receivables. The Company performs ongoing credit evaluations of its customers' financial condition and maintains an allowance for doubtful accounts related to potential credit losses. The Company had the following significant concentrations of trade receivables from customers including within United States of America at March 31, 2021 and March 31, 2020:

	March 31,	
	2021	2020
	(In thousands)	
Middle East/Africa	$ 22,082	$ 18,875
Americas	10,015	13,532
Europe	3,723	4,357
Rest of the world	720	468

The Company's existing and potential customer base is diverse and includes domestic and foreign telecommunications carriers, equipment manufacturers and foreign enterprises. The Company derived approximately 70% and 67% of its revenues from ten customers for the year ended March 31, 2021 and 2020, respectively. The Company has approximately 62% and 67% of its accounts receivable (including unbilled revenue) from ten customers as of March 31, 2021 and 2020, respectively. Individually, one of these top ten customers comprised 17% and 17% of total revenue for the year ended March 31, 2021 and 2020 respectively. Individually, one of these top ten customers of the Company had net receivable balance (including unbilled revenue) at 14% and 14% of total receivables as of March 31, 2021 and 2020, respectively.

At times, the Company maintains cash balances in financial institutions, which may exceed federally insured limits. The Company has not experienced any losses in its accounts and believes it is not exposed to a significant credit risk on its cash and cash equivalents. As at March 31, 2021, the Company has $ 285,027 [2020: $NIL] as balances in excess of the federally insured amounts.

Although the Company believes that the diversity of its customer base may minimize the risk of incurring material losses due to concentrations of credit risk, the Company may be exposed to a declining customer base in periods of market downturns, severe competition, exchange rate fluctuations or other international developments.

Fair Value Measurements

The carrying amounts reported in the consolidated balance sheet for cash and cash equivalents, accounts receivable, notes payable, accounts payable and accrued expenses and certain other current liabilities approximate fair value due to the immediate to short-term maturity of these financial instruments.

The Company follows the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, for financial assets and liabilities measured on a recurring basis. ASC 820 applies to all financial assets and financial liabilities that are being measured and reported on a fair value basis. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Company uses various valuation approaches, including market, income and/or cost approaches. ASC 820, Fair Value Measurements and Disclosures establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Company.

Unobservable inputs are inputs that reflect the Company's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. Financial assets and liabilities which are recorded at fair value in the accompanying financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. The levels are directly related to the amount of subjectivity associated with the inputs to fair valuation of these assets and liabilities, and are as follows::

Level 1 –	Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuations of these products do not entail a significant degree of judgment.
Level 2 –	Inputs other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active. The Company's interest rate swaps are valued using level 2 inputs.
Level 3 –	Unobservable inputs that reflect the reporting entity's own assumptions.

Property, Equipment and Software

Property and equipment are stated at cost, less an allowance for depreciation and amortization.

Assets under capital lease obligations are recorded at lower of the present value of the minimum lease payments or the fair market value of the leased asset, at the inception of the lease.

Replacements and major improvements are capitalized; maintenance and repairs are charged to expense as incurred. Internally developed software costs are capitalized in accordance with ASC 350-40, Internal-Use Software.

Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets per the table below.

Computer and electronics	3 years
Software	3 years
Machinery and equipment	3 to 7 years
Furniture and office equipment	3 to 15 years
Office building	20 years
Leasehold improvements	Shorter of the term of the lease or estimated useful life
Vehicles	3 to 5 years

Expenditure for maintenance and repairs are expensed as incurred. When assets are retired or otherwise disposed of, the cost of the asset and related accumulated depreciation and amortization are eliminated from the financial records. Any gain or loss on disposal is credited or charged to the statement of operations.

Impairment of Long-Lived Assets

The Company's policy is to review its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable in accordance with ASC 360, Property Plant and Equipment. The Company recognizes an impairment loss when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. The measurement of the impairment losses to be recognized is based upon the difference between the fair value and the carrying amount of the assets.

Goodwill and Other Intangible Assets

Goodwill and other intangible assets acquired in a business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually in accordance with the provisions of ASC 350, Intangibles - Goodwill and Other (ASC 350). ASC 350 also requires that intangible assets with estimable useful lives be amortized over their respective estimated useful lives to their estimated residual values and reviewed for impairment. Goodwill represents the excess of cost over the fair value of identifiable net assets acquired. The Company tests goodwill for impairment on an annual basis as of March 31. In addition, goodwill and other intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable.

The goodwill and indefinite-lived intangibles impairment test consists of a two-step process, if necessary. The Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount as a basis for determining whether it is necessary to perform the two-step goodwill and indefinite-lived intangibles impairment test. The more likely than not threshold is defined as having a likelihood of more than 50 percent. This evaluation includes macroeconomic and industry and market specific considerations, financial performance indicators and measurements, and other factors. If, after assessing the totality of events or circumstances, the Company determines that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then performing the two-step impairment test is unnecessary, and goodwill and other indefinite-lived intangible assets are considered to be unimpaired. However, if based on the Company's qualitative assessment, it concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company will proceed with performing the two-step process. The Company performed a qualitative assessment as of March 31, 2021 and concluded that it was more likely than not that goodwill and indefinite-lived intangible assets were not impaired.

The first step of the impairment test involves comparing the fair value of the reporting unit to its net book value, including goodwill. If the net book value exceeds its fair value, then the Company would perform the second step of the goodwill impairment test to determine the amount of the impairment loss. The impairment loss would be calculated by comparing the implied fair value of the Company to its net book value. In calculating the implied fair value of the Company's goodwill, the fair value of the Company would be allocated to all of the other assets and liabilities based on their fair values. The excess of the fair value of the Company over the amount assigned to its other assets and liabilities is the implied fair value of goodwill. An impairment loss would be recognized when the carrying amount of goodwill exceeds its implied fair value. There have been no impairments of goodwill or indefinite-lived intangible assets recorded in the Company's consolidated statement of operations during the year ended March 31, 2021 and March 31, 2020.

Allowance for Doubtful Accounts

Accounts receivable from customers are generally due within 60-90 days and are stated at amounts due from customers, net of an allowance for doubtful accounts. The Company makes estimates of the probability of collection of accounts receivable by specifically analyzing customer balances, concentrations, credit-worthiness, current economic trends and changes in customer payment terms when evaluating the adequacy of the allowance for doubtful accounts. Accounts receivable are written off when they become uncollectible.

Revenue Recognition

The Company's principal sources of revenue are consulting, integration, operations and solutions.

Revenue is recognized upon transfer of control of contracted products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

The Company recognizes revenues from fixed-price contracts using the percentage-of-completion method and proportional performance method based on nature and terms of the contract with customers. Under proportional performance method, revenue from services is recognized in accounting periods in which the services are rendered, by reference to completion of the specific transaction, assessed on the basis of the actual service provided as a proportion of the total services to be provided. Depending on the nature of the contract, revenue is recognized based on the proportion of the contract term completed, or the specific services provided to date.

Under the percentage-of-completion method, revenues are recognized based on the ratio of individual contract costs incurred to date on a project compared with total estimated contract costs. The Company compares costs incurred to date to progress achieved against project milestones to determine if the percentage of completion is reasonable. Anticipated contract losses are recognized as soon as they become known and estimable.

The Company recognizes revenues on time and materials contracts as the services are performed i.e. based on time / efforts spent.

In deployment projects, the Company generally receives purchase orders for individual cell sites based on agreed upon fixed prices for types of standard cell sites. Non-standard services related to a cell site are priced on a variable basis using either agreed upon rates per hour or a rate schedule for such non-standard services. Deployment of cell sites may take up to several months and revenues and costs are recognized on a percentage of completion basis based upon the Company's engineering estimates.

Contract assets are recognized when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (under current assets) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue is recognized when there is billing in excess of revenues, under current liabilities. The billing schedules agreed with customers include periodic performance -based payments and / or milestone - based progress payments. Invoices are payable within contractually agreed credit period.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

Use of significant estimates and judgements

The Company uses the expected cost- plus margin approach to allocate the transaction price to each distinct performance obligation.

Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended are used to measure progress towards completion as there is a direct relationship between input and productivity.

The Company uses significant judgements while determining the transaction price allocated to performance obligations using the expected cost-plus margin approach.

Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Disaggregation of revenue:

The Company disaggregates revenue from contracts with customers by geography and contract-type, as it believes it best depicts how the nature, amount, timing and uncertainty of revenue and cash flows are affected by industry, market and other economic factors. Revenues are attributed to geographic regions based upon client location.

The following tables set forth reported revenue by geography and contract type:

(In thousands)

Geographic Location	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Middle East / Africa	112,784	109,616
Americas	44,880	76,280
Europe	24,913	29,460
Rest of the world	7,672	3,195
Total	**190,249**	**218,551**

Type of Contract	**Year ended 31 March 2021**	**Year ended 31 March 2020**
Fixed Price	130,697	154,044
Time and Materials	59,552	64,507
Total	**190,249**	**218,551**

Income Taxes

Income taxes are determined in accordance with ASC 740, Income Taxes. Under this guidance, temporary differences arise as a result of the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

The Company recognizes the financial statement effect of an income tax position when it is more likely than not, based on technical merits, that the position will be sustained upon examination by a taxing authority. Recognized tax positions are initially and subsequently measured as the largest amount of tax benefit that is more likely than not of being realized upon ultimate settlement with the relevant taxing authority. The Company has chosen to treat interest and penalties related to uncertain tax liabilities as income tax expense and as an increase to the income tax liability. For the year ended March 31, 2021 and March 31, 2020, the Company did not record any interest or penalties related to uncertain tax positions.

As a subsidiary of Tech Mahindra (Americas), Inc., with whom the Company files consolidated federal and state returns, the Company calculates the provision for income taxes by using a “benefits-for-loss” method. Under this method, the Company and its subsidiaries are assumed to file a separate return with the tax authority, thereby reporting the taxable income or loss and paying the applicable tax to or receiving the appropriate refund from Tech Mahindra (Americas), Inc. as if the Company and all of its subsidiaries were separate taxpayers, except that the net operating losses (or other current or deferred tax attributes) are characterized as realized (or realizable) by the Company and its subsidiaries when those tax attributes are realized by the consolidated group even if the Company and its subsidiaries would not otherwise have realized the attributes on a stand-alone basis. The Company’s intercompany tax-related receivable from Tech Mahindra (Americas), Inc. are $2.7 million and $32.8 million at March 31, 2021 and March 31, 2020, respectively.

Certain of the Company’s international operations are subject to local income taxation. Currently, the Company is subject to taxation on income from certain operations in Europe, Latin America, Africa, the Middle East and the non-U.S. portions of North America where the Company has subsidiaries, has established branch offices or has performed significant services that constitute a “permanent establishment” for tax reporting purposes. The foreign taxes paid or accrued by the Company may represent a potential credit for the Company against U.K. or U.S. federal income taxes.

Foreign Currency Translation

The Company's foreign operations are subject to exchange rate fluctuations and foreign currency transaction costs. The majority of the Company's foreign transactions are denominated in Euro and Saudi Riyals.

The financial statements of the Company's foreign subsidiaries have been translated into U.S. dollars in accordance with ASC 830-30, Translation of Financial Statements. For foreign operations with the local currency as the functional currency, assets and liabilities denominated in non-U.S. dollar functional currencies are translated using the period-end spot exchange rates. Revenues and expenses are translated at monthly-average exchange rates. Capital accounts are translated at historical exchange rates. The current period effects of translating operations with a functional currency other than the reporting currency are reported within the statement of comprehensive income (loss) with accumulated effects presented as a component of accumulated other comprehensive income (loss) within the consolidated statement of changes in shareholders' equity. The determination of functional currency is based on the subsidiary's relative financial and operational independence from the Company's US based parent.

The Company is also subject to foreign currency transaction gains or losses due to inter-company payables and receivables denominated in foreign currency. For the year ended March 31, 2021 and March 31, 2020, these balances generated a foreign exchange loss of $ 0.16 million and loss of $2.5 million, respectively. These amounts are included in other income/(expense) in the consolidated statement of operations.

Other Comprehensive Income/(Loss)

Comprehensive income/(loss) is defined as net income/(loss) plus the changes in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. Other comprehensive income/(loss) refers to revenues, expenses, gains and losses that under U.S. GAAP are included in comprehensive income/(loss), but excluded from net income (loss).

Derivative Instruments

The Company records derivatives at fair value. The designation of a derivative instrument as a hedge and its ability to meet the hedge accounting criteria determine how the Company reflects the change in fair value of the derivative instrument within its consolidated financial statements. A derivative qualifies for hedge accounting if, at inception, the Company expects that the derivative will be highly effective in offsetting the underlying hedged cash flows and the Company fulfills the hedge documentation standards at the time it enters into the derivative contract.

The Company designates a hedge as a cash flow hedge based on the exposure it is hedging. For the effective portion of qualifying cash flow hedges, the Company records changes in fair value in other comprehensive income/(loss) ("OCI"). The Company reviews the effectiveness of its hedging instruments quarterly. The Company manages its exposure to the interest fluctuation risk by monitoring available financing alternatives, as well as through development and application of credit granting policies. As a matter of policy, the Company only enters into transactions that it believes will be highly effective at offsetting the underlying risk, and the Company does not use derivatives for trading or speculative purposes.

Factoring of Accounts Receivable

The Company is party to accounts receivable factoring agreements with financial institutions in Europe, Middle East and Africa jurisdiction whereby the Company may sell eligible accounts receivable. The Company accounts for these programs under ASC 860, Transfers and Servicing which requires that transferred assets have been isolated from the transferor, the transferee obtains the right to transfer or exchange the asset and the transferor does not maintain effective control over the transferred assets through an agreement that both entitles and obligates the transferor to repurchase or redeem the assets transferred in order to qualify as a sale. Some of the Company's factoring arrangements do not meet all of the criteria for sale accounting, thus those factoring arrangements are accounted for as secured borrowings (See Note 6, Borrowings).

Leases:

Effective April 1, 2019, the Company has early adopted, with modified retrospective application, Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-02, "Leases (Topic 842)" (ASC 842), which replaces existing lease accounting rules (ASC 840) with a comprehensive lease measurement and recognition standard and expanded disclosure.

This update requires the recognition of lease assets and lease liabilities on the balance sheet for all lease obligations and disclosing key information about leasing arrangements. This update requires the recognition of lease assets and lease liabilities by lessees for arrangements that are classified as operating leases. The Company's operating leases resulted in the recognition of additional assets and the corresponding liabilities on its Consolidated Balance Sheet.

The Company determines whether an arrangement is a lease at contract inception by establishing if the contract conveys the right to control the use of identified property, plant and equipment for a period of time in exchange for consideration.

Right of Use (ROU) Assets and Lease Liabilities for operating leases are separately disclosed under non-current assets, current liabilities and non-current liabilities in the consolidated balance sheet as at March 31, 2021 and March 31, 2020. The

ROU Assets represent the right to use an underlying asset for the lease term and lease liabilities represent an obligation to make lease payments arising from the lease. Commitments under finance leases are not significant, and are included in Property, plant and equipment, current liabilities, and non-current liabilities in the consolidated balance sheet as at March 31, 2021 and March 31, 2020.

The key change upon adoption of the standard was balance sheet recognition, given that operating lease was recognized as lease expense in the statement of operations under historical accounting. Using the modified retrospective transition method of adoption, the Company did not adjust the balance sheet for comparative periods.

NOTE 3—ACCOUNTS RECEIVABLE

The Company is party to various long-term contracts for which significant revenues are recognized on the percentage-of-completion method. Certain of these contracts have large amounts of unbilled receivables associated with them and will be performed over a period of more than one year.

The Company is party to a factoring agreement (the “HSBC Agreement”) with HSBC FACTORING France (“HSBC”) whereby the Company’s French subsidiary may sell its eligible accounts receivable to HSBC on a revolving basis up to a maximum of 2.00 million Euros. Under the terms of the HSBC Agreement, accounts receivables are sold to HSBC with recourse at 90% of their face value, less interest of EONIA plus 1.5% and a commission of 0.45%. Transfers of accounts receivable were approximately 0.49 million and 0.79 million Euros (approximately $0.58 million and $ 0.87 million) as of March 31, 2021 and March 31, 2020, respectively, which is included within lines of credit in the consolidated balance sheets. As of March 31, 2021, and March 31, 2020, the Company had unutilized limit of 1.51 million and 1.21 million Euros (approximately $1.78 million and $1.34 million), respectively, available under the HSBC Agreement.

The Company is party to a factoring agreement (the “Bankinter Agreement”) with Bankinter S.A., (“Bankinter”) whereby the Company’s Spanish subsidiary may sell its eligible accounts receivable to Bankinter on a revolving basis up to a maximum of 0.50 million Euros. Under the terms of the Bankinter Agreement, accounts receivables are sold to Bankinter without recourse at 100% of their face value less interest of EURIBOR plus 2.5% and a commission of 0.50%. Transfers of accounts receivable were NIL Euros and NIL Euros ($ NIL and $ NIL), as of March 31, 2021 and March 31, 2020, respectively. As of March 31, 2021, and March 31, 2020, the Company had unutilized limits of 0.50 million Euros and 0.50 million Euros (approximately $0.58 million and $0.55 million), respectively, available under the Bankinter Agreement.

NOTE 4—PROPERTY AND EQUIPMENT

At March 31, 2021 and 2020, property and equipment consisted of the following:

	March 31,	
	2021	2020
	(In thousands)	
Computer and electronics	$ 2,766	$ 2,555
Machinery and equipment	13,500	13,271
Furniture and office equipment	3,257	3,138
Office building	2,340	2,340
Leasehold improvements	3,845	3,806
Vehicles	4,919	5,777
Property and equipment	30,627	30,887
Less: accumulated depreciation and amortization	(26,652)	(24,668)
Property and equipment, net	**$ 3,975**	**$ 6,219**

Property and equipment include vehicles and machinery and equipment under capital lease amounting to $4.8 million and $5.6 million as of March 31, 2021 and March 31, 2020 respectively. Accumulated depreciation for vehicles and machinery and equipment under capital lease amounted to $3.8 million and $3.8 million as of March 31, 2021 and March 31, 2020 respectively.

Depreciation and amortization expense related to property and equipment for the year ended March 31, 2021 and 2020 was $3.4 million and $4.5 million, respectively.

NOTE 5—GOODWILL AND INTANGIBLE ASSETS

As of March 31, 2021 and 2020 intangible assets consisted of the following:

	March 31,	
	2021	2020
	(In thousands)	
Goodwill	$ 3,443	$ 3,443
Other intangible assets:		
Customer relationships	33,816	33,728
Backlog	308	308
Trade names	6,689	6,689
Patents	48	48
Software	4,471	4,047
Total other intangible assets	**45,332**	**44,820**
Less: Accumulated amortization		
Customer relationships	(27,528)	(24,919)
Backlog	(308)	(308)
Trade names	(4,664)	(4,040)
Patents	(48)	(48)
Software	(4,139)	(3,513)
Accumulated amortization	(36,687)	(32,828)
Other intangible assets, net	**$ 8,645**	**$ 11,992**

The Company reviews its definite-lived intangible assets for impairment, in accordance with ASC 350 — Intangibles — Goodwill and Other. The result of this review identified no impairment of the intangible assets as of March 31, 2021 and 2020.

Amortization expense related to intangibles was $3.5 million and $4.4 million for the year ended March 31, 2021 and 2020, respectively. The weighted average amortization period is 12 years for customer relationships; 10 years for patents; 10 years for trade names; 1.5 years for backlog and 4 years for software.

The following summarizes expected amortization expense for each of the five succeeding years (In thousands):

March 31, 2022		3,295
March 31, 2023		2,370
March 31, 2024		2,179
March 31, 2025		584
March 31, 2026		58
Thereafter		159
	$	**8,645**

NOTE 6—BORROWINGS

Unsecured Credit Facilities

In March 2015, the Company entered into a $50.0 million uncommitted line of credit agreement with Citibank, N.A ("Citibank") which allows borrowing up to $50.0 million until March 1, 2016. The loan has been extended from time to time with most recent extension till February 2022. The facility accrues interest at a rate of LIBOR plus 0.65% from December 2017, and further reduced to LIBOR plus 0.60% from December 2019. Amendment 4 to the agreement was signed on December 5, 2019 to facilitate a Euro line of credit not exceeding EURO 31 Million against aforementioned $50 million line of credit. The USD line of credit was decreased by $16.9M (equivalent of EURO 15 million) and a separate EURO 15 million line of credit was obtained. Amendment 6 to the agreement adds a new Section 21 that if a Transition Event occurred, then the applicable LIBOR Replacement (SOFR) will replace the Screen Rate. The facility is an unsecured facility.

In April 2016, the Company entered into an agreement with Citibank for additional credit facility, which allowed borrowing up to $30.0 million until April 15, 2018. An amendment was signed on March 21, 2018 to facilitate 8.6 million Euro line of credit within aforementioned $30 million line of credit ($29 million funded line and $1 million non-funded line). Amendment 4 to the agreement was signed on September 11, 2019 increasing the EURO line of credit to 11.6 million Euros. The agreement was further extended till February 2022. The facility accrued interest at a rate of LIBOR plus 0.95% till December 2017 and at a rate of LIBOR plus 0.80% post December 2017. Tech Mahindra serves as a guarantor for the facilities.

As of March 31, 2021, $ 36.72 million and $5.52 million were drawn against the two Citibank facilities mentioned above. Total interest expense on the said facility was $0.79 million and $1.86 million for the year ended March 31, 2021 and 2020, respectively.

In March 2015, the Company received a $ 40.00 million line of credit from JPMorgan Chase Bank, N.A. ("JPMorgan") under which it could have borrowings until February 29, 2016. The line of credit was increased to $48.0 million in September 2015. The maturity was extended from time to time with most recent extension till December 2020. Each loan issued under the promissory note matures no later than twelve months from the date of the loan. The facility accrues interest at a rate of the greater of (i) the Prime Rate, (ii) Federal Funds Effective Rate plus 0.5%, (iii) the Eurodollar Rate for a one-month period plus 1.0%. The facility is an unsecured facility. Tech Mahindra Limited serves as a guarantor for the facility.

As of March 31, 2021, there is no amount drawn against the JPMorgan facility. Total interest expense on the facility was $ 0.18 million and $ 0.89 million for the year ended March 31, 2021 and 2020, respectively. The entire $ 48.00 million was repaid in May 2020.

In September 2020, the Company entered into an agreement with Tech Mahindra (Americas) Inc. for loan facility, which allowed borrowing up to $ 50.00 million until September 29, 2021. $ 32.00 million was advanced and in January 2021, $ 27.00 million was repaid. Further, in March, 2021, $ 2.00 million was advanced. The Company accrued and paid interest at a rate of LIBOR plus 105 BPS (1.31925% p.a.). The total outstanding Principal amount is $ 7.00 million with no outstanding interest at March 31, 2021.

In September 2020, the Company entered into an agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 10.00 million until September 30, 2021. $ 4.30 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 100 BPS (1.36% p.a.). There is no outstanding interest at March 31, 2021. In December, 2020, the Company entered into an additional agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 20 million until December 2021. $ 9.00 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 80 BPS (1.04% p.a.). There is no outstanding interest at March 31, 2021. In January 2021, the Company entered into a third agreement with CJS Solutions Group LLC for loan facility, which allowed borrowing up to $ 20.00 million until January 2022. $ 6.70 million was advanced and the Company accrued and paid interest at a rate of LIBOR plus 80 BPS (1.00188% p.a.). There is no outstanding interest at March 31, 2021. In March 2021, $ 2.00 million was repaid and the total outstanding borrowings from CJS Solutions Group LLC at March 31, 2021 is $18.00 million.

The aggregate maturities (inclusive of interest accrued and due) of all borrowings as of March 31, 2021 are as follows (In thousands):

2022	$ 71,622
2023	5
	$ 71,627

As of March 31, 2021 and 2020, the total outstanding borrowings, as discussed above, are as follows:

	2021	2020
	(In thousands)	
Citibank line of credit, including accrued interest	$ 42,243	$ 76,017
JP Morgan line of credit, including accrued interest	-	31,313
Tech Mahindra (Americas) Inc.	7,000	-
CJS Solutions Group LLC	18,000	-
Accounts receivable (factoring arrangements) (See Note 3)	-	307
Other credit facilities	4,384	5,981
	$ 71,627	**$ 113,618**

The Company entered into multiple interest rate swaps agreements with JP Morgan and Citibank to reduce exposure to interest rate fluctuations on its variable rate debt. Upon proper qualifications, these contracts are accounted for as cash flow hedges under current accounting standards. All derivative financial instruments are reported at fair value within the consolidated balance sheet. Changes in the fair value of derivative instruments designated as cash flow hedges approximated profit of $ 0.85 million and loss of $ 2.71 million for the year ended March 31, 2021 and 2020, respectively and are recorded in accumulated other comprehensive income/(loss), a component of shareholder's equity, to the extent they are deemed effective. Based on the criteria established by current accounting standards, all the Company's cash flow hedge contracts are deemed to be highly effective.

The Company's interest rate swap arrangements with renewals at quarterly intervals as of March 31, 2021 are as follows:

Banking Institution		Notional Amount	Variable Rate Received	Fixed Rate Paid	Contract Commencement Date	Contract Maturity Date
JP Morgan	$	60,000,000	3 - months LIBOR	0.944%	04-Mar-20	04-Mar-25
JP Morgan	$	36,000,000	3 - months LIBOR	0.670%	04-Jan-21	02-Jan-25
Citi Bank	$	15,000,000	3 - months LIBOR	2.339%	10-Feb-20	10-May-22
Citi Bank	$	15,000,000	3 - months LIBOR	1.856%	13-Jan-20	11-Jul-22

NOTE 7—RESTRUCTURING CHARGE

The Company's restructuring activities are undertaken as necessary to execute management's strategy and streamline operations, consolidate and ultimately achieve net cost reductions. During the year ended March 31, 2021 and March 31, 2020 the Company implemented an integration and restructuring plan encompassing various entities within the Americas, Europe, and Middle East regions. It recorded restructuring charges totaling USD 1.5 million and USD 1.7 million as a result of staff and office space optimization and one-time cost incurred in this respect during the year ended March 31, 2021 and March 31, 2020 respectively.

A reconciliation of the amount towards restructuring activities for the years ended March 31, 2021 and March 31, 2020 is as follows:

	(In thousands)
	Severance
Accrued restructuring as of March 31, 2019	$ 1,353
Restructuring charge	$ 1,704
Payments/adjustments against the provision:	
Payments for severance	$ (1,229)
Accrued Restructuring as of March 31, 2020	$ 1,828
Restructuring charge	$ 1,494

	(In thousands)
	Severance
Payments/adjustments against the provision:	
Payments for severance	$ (3,322)
Accrued Restructuring as of March 31, 2021	-

At March 31, 2021 and 2020, the accrued restructuring charge was classified as follows:

	March 31,	
	2021	**2020**
	(In thousands)	
Accrued restructuring, current	$ ---	$ ---
Accrued restructuring, noncurrent	---	1,828
	$ ---	**$ 1,828**

Management expects to finance its restructuring programs through cash generated from its ongoing operations or through cash available under its existing credit facilities, subject to the applicable covenants. Management does not expect the execution of these programs to have an adverse effect on its liquidity position.

NOTE 8—INCOME TAXES

As a result of Tech Mahindra Group's acquisition of the Company in January 2015, the Company had filed its final consolidated federal income tax return which includes all of its US subsidiaries, for year ended December 31, 2014. The Company with all of its subsidiaries and associate became part of Tech Mahindra Group and a subsidiary of Tech Mahindra (Americas), Inc. and accordingly a group consolidated federal income tax return for Tech Mahindra (Americas), Inc. is filed after incorporating the details of the Company including its US subsidiaries, starting with period ended March 31, 2015.

The Company has subsidiaries that file tax returns in several foreign jurisdictions. LCC and its subsidiaries also file tax returns in local tax jurisdictions in many of the countries in which they do business. Many of the Company's subsidiaries' tax returns have been examined through various dates. Generally, the Company is currently open to audit under the statute of limitations by the Internal Revenue Service for the years ending March 31, 2017 to March 31, 2020. In addition, the Company is currently open to audit under the statute of limitations in various foreign jurisdictions for the tax years between 2011 and 2020.

The provision for income taxes for the year ended March 31, 2021 and March 31, 2020 consisted of the following

(Figures in thousands):

	March 31,2021	**March 31, 2020**
Current:		
Federal	509	(173)
State	61	22
Foreign	2,928	2,097
Total Current	**3,498**	**1,946**
Deferred:		
Federal	122	(340)
State	-	(169)
Foreign	(542)	(1,639)
Total Deferred	**(420)**	**1,130**
Total	**3,078**	**3,076**

Deferred income taxes, net includes the following components as of March 31, 2021 and March 31, 2020

	March 31, 2021	March 31, 2020
	(In Thousands)	
Deferred taxes:		
Gross deferred tax assets*	24,523	38,224
Less: valuation allowance	(22,693)	(19,673)
Deferred tax assets, net of valuation allowance	1,830	18,551
Gross deferred tax liabilities	2,143	2,740
Net deferred tax assets/(liabilities)	**(313)**	**15,811**

* Includes receivable of $ nil ($ 16.21 million as at March 31, 2020) from Tech Mahindra (Americas), Inc. using a "benefit-for-loss" method based on consolidated tax return filed by Tech Mahindra (Americas), Inc.

The Company believes that the deferred tax assets are realisable based on the Company's financial results for the year ended March 31, 2021 and March 31, 2020, projected future taxable income and tax planning strategies. The Company's deferred tax assets are primarily comprised of net operating losses of USD 21.76 million and USD 34.20 million at March 31, 2021 and March 31, 2020 respectively. The Company's deferred tax liabilities are primarily related to intangible assets recorded on the acquisition of Leadcom.

Pursuant to Section 382 of the Internal Revenue Code, the Company underwent an ownership change for tax purposes (i.e., a more than 50% change in stock ownership in aggregated 5% shareholder) as a result of the acquisition by Tech Mahindra (Americas), Inc.

The Company has U.S. operating loss carryforwards of USD 34.91 million as of March 31, 2021 which expire beginning in 2029. Entire amount of USD 34.91 million will be utilised within the period of Sec 382 limitation. The Company also has USD 85.38 million of foreign net operating loss carryforwards, some of which can be carried forward indefinitely, subject to certain restrictions.

Foreign income tax expense is generated from business conducted in countries where the Company has subsidiaries or has established branch offices or has performed significant services that constitute a "permanent establishment" for tax reporting purposes. Foreign income tax also includes withholding tax on projects in countries where the Company does not have a registered presence.

The Company has made no provision for deferred U.S. income taxes or additional foreign taxes on any unremitted earnings of its controlled foreign subsidiaries because the Company considers these earnings to be permanently reinvested.

In determining the income tax valuation allowances, management considers whether it is unlikely that any portion of the deferred tax assets will be realized. Based on the Company's financial results for the year ended March 31, 2021 and March 31, 2020, projected future taxable income and tax planning strategies, the Company increased its valuation allowance on foreign and domestic net operating loss carry-forwards and other deferred tax assets by $2.29 million during the year ended March 31, 2021.

As a subsidiary of Tech Mahindra (Americas), Inc., with whom the Company files consolidated federal and state returns, the Company calculates the provision for income taxes by using a "benefits-for-loss" method. The Company's intercompany tax-related receivable from Tech Mahindra (Americas), Inc. are $2.7 million (nil towards deferred tax) and $32.8 million (including $16.21 million towards deferred tax) at March 31, 2021 and March 31, 2020 respectively.

NOTE 9 - LEASES

The Company is a party to operating and finance lease agreements primarily for office facilities, warehouses, residential premises and vehicles expiring on various dates between 2021 and 2029. Some of the operating leases include one or more options to renew. The exercise of these renewal options is at Company's sole discretion. Renewal options were included in the calculations of the operating lease ROU assets and operating lease liabilities when it is reasonably certain that such options will be exercised.

A. Components of lease costs for the year ended March 31, 2021 included in the Statement of operations are as follows:

(In thousands)

Particulars	March 31, 2021
Operating lease cost	2,558
Finance lease cost:	
Depreciation of right-of-use assets	1,046
Interest on lease liabilities	87
Short term lease cost	1,483
Sub-lease income	(590)
Total lease cost	**4,845**

B. Cash paid for amounts included in measurement of lease liability:

(In thousands)

Particulars	March 31, 2021
Operating cash flow towards finance leases	367
Operating cash flow towards operating leases	2,282
Financing cash flow towards finance leases	1,015
Right of use assets recognised in exchange for new finance lease liabilities	496
Right of use assets recognised in exchange for new operating lease liabilities	2,555

C. Components of lease assets and liabilities as at March 31, 2021 included in the Balance Sheet are as follows:

(In thousands)

Particulars – assets	March 31, 2021
Operating lease right-of-use assets	8,324
Finance leases:	
Property and equipment, at cost	4,795
Accumulated depreciation	3,796
Property and equipment, net	999

(In thousands)

Particulars – liabilities	March 31, 2021
Operating lease:	
Current	2,118
Non-current	6,869
Finance lease:	
Current	751
Non-current	57

D. Weighted Average Remaining Lease term and Discount Rate:

Particulars	LCC (excluding Leadcom)	Leadcom	Average*
Weighted-Average Remaining Lease Term:			
Operating leases	6.09 years	5.40 years	5.75 years
Finance leases	1.75 years	0.90 years	1.33 years
Weighted-Average Discount Rate:			
Operating leases	2.22%	6.20%	4.21%
Finance leases	0.91%	7.30%	4.10%

* Average has been derived by considering weighted average of LCC and Leadcom data.

E. The following table provides the schedule of maturities of operating and finance lease liabilities, under the New Lease Standard, as of March 31, 2021:

(In thousands)

Particulars – Operating leases	**March 31, 2021**
2021-2022	2,186
2022-2023	1,795
2023-2024	1,370
2024-2025	1,231
2025-2026	1,282
Thereafter	1,914
Total lease payments	**9,778**
Less: Imputed Interest	791
Net	**8,987**

(In thousands)

Particulars – Finance leases	**March 31, 2021**
2021-2022	772
2022-2023	59
Total lease payments	**831**
Less: Imputed Interest	23
Net	**808**

NOTE 10—HEALTH AND RETIREMENT PLANS

April 2020 to March 2021

Defined contribution plan

The Company's foreign subsidiaries participate in separate defined contribution retirement plans for which the Group made contributions on behalf of employees amounting to $2.2 million and $2.7 million for the year ended March 31, 2021 and 2020, respectively.

Defined benefit plan

The amount recognized in the consolidated statement of operations related to gratuity plans were approximately $2.7 million and $2.6 million for the year ended March 31, 2021 and March 31, 2020, respectively.

The following table sets out the unfunded status of the Gratuity Scheme.

(In thousands)

	Year ended March 31, 2021	**Year ended March 31, 2020**
Change in the benefit obligation		
Projected Benefit Obligation ("PBO") at the beginning of the year	7,601	6,632
Service cost	1,683	2,005
Interest cost	267	297
Actuarial loss/(gain)	794	281
Benefits paid	(2,616)	(1,505)
Exchange loss/(gain)	9	(109)
PBO at the end of the year	**7,738**	**7,601**

The expected benefit payments during the next 10 years are given below:

(In thousands)

Financial Year Expected benefit payments	As at March 31, 2021
2021-22	1,066
2022-23	923
2023-24	977
2024-25	1,024
2025-26	1,076
2026-31	5,040

The assumptions used to determine net benefit cost were as follows:

	Year ended March 31,2021	Year ended March 31, 2020
Discount rate (p.a.)	2.1% to 6%	4% to 4.7%
Rate of increase in compensation levels	2% to 5%	2% to 5%

The Group evaluates these assumptions annually based on its long-term plans of growth and industry standards. The discount rates are based on market yields at the end of the reporting period on government bonds.

The Company's US group health benefits are self-insured for claims up to $0.35 million, per participant per plan year (individual stop loss) under the Tech Mahindra stop loss policy. It carries aggregate reinsurance capped at approximately $50.2 million for the entire Tech Mahindra population, depending on the number of participants during the year and actual monthly enrollments.

Characteristics of the Company's non-US health benefits vary by region.

NOTE 11—SHAREHOLDERS' EQUITY

As of March 31, 2021, all of the outstanding common stock issued by the Company are wholly owned by Tech Mahindra Americas, Inc.

NOTE 13—INVESTMENTS IN OTHER ENTITIES

The Company accounts for the investment in Djazatech using the equity method and recognizes its 49% share of Djazatech's profits and losses. The Company has created provision towards this investment during the year ended March 31, 2018. Further, the Company's share of losses of this associate exceeds its interest in the associate; hence, the Company has discontinued recognizing its share of further losses.

NOTE 14—COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is a party to various litigation matters and claims that are normal in the course of operations and while the results of such litigation matters and claims cannot be predicted with certainty, the Company believes that it is not reasonably possible that the final outcome of such matters will have a material adverse impact on the consolidated financial position, results of operations or cash flows of the Company.

As per ASC 450 "Contingencies", loss contingencies towards Income tax liability that may arise in respect of matters in appeal as at March 31, 2021 and 2020 is $ 4.27 million and $ 3.44 million respectively. Guarantees outstanding as at March 31, 2021 and 2020 are $0.07 million and $0.20 million respectively.

NOTE 15 - Estimation uncertainty relating to the global health pandemic - COVID-19

In January 2020, the World Health Organization has declared the outbreak of a novel coronavirus (COVID-19) as a "Public Health Emergency of International Concern", which continues to spread throughout the world and has adversely impacted global commercial activity and contributed to significant declines and volatility in financial markets. The coronavirus outbreak and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the coronavirus outbreak. The impact of COVID-19 on the business operations of the Company, including the duration, cannot be reasonably ascertained at this point in time, however, considering the fact that the Company's services have been classified as essential services, the management does not anticipate any material adverse impact on the business, results of operations, financial position and cash flows in the financial year ending 31 March 2022.

NOTE 16—SUBSEQUENT EVENTS

The Company evaluated its financial statements for subsequent events through June 17, 2021, the date the financial statements were available to be issued. The Company is not aware of any additional subsequent events which would require recognition or disclosure in the financial statements.

AUDITORS

At the 4th Annual General Meeting of the Company held on 30.09.2019, K.Vijayaraghavan& Associates LLP, Hyderabad, (Firm's Regn.No: 004718S), were appointed as Statutory Auditors of the Company to hold office for five consecutive years till the conclusion of the 9th Annual General Meeting of the Company in the calendar year 2024.

Further they confirmed that they are not disqualified to continue as Statutory Auditors.

AUDITORS' REPORT

There are no qualifications or reservations or adverse remarks in the Auditor's Report which require any clarification/ explanation. The Notes on financial statements are self-explanatory and needs no further explanation.

COMPLIANCE WITH INDIAN ACCOUNTING STANDARDS (Ind AS)

The company being the wholly owned subsidiary of a Listed Company has adopted the Indian Accounting Standards (In AS) notified under Section 133 of the Companies Act,2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act, as such the financial statements are prepared accordingly.

The financial statements up to year ended 31st March, 2021 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act.

These financial statements are the second financial statements of the Company under Ind AS.

LOANS, GUARANTEES AND INVESTMENTS

Your Directors confirm that there were no loans, guarantees or investments made by the Company under section 186 of the Companies Act, 2013 during the year under review and hence the said provision is not applicable.

RELATED PARTY TRANSACTIONS

Your Directors confirm that all contracts or arrangements entered by the company during the financial year with related parties were in the ordinary course of business and on an arm's length basis as disclosed in Form No. AOC- 2 as per Annexure-1 and is attached to this Report.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE OUTGO

A. Conservation of Energy, Technology Absorption

The particulars as required under the provisions of Section 134(3) (m) of the Companies Act, 2013 in respect of conservation of energy have not been furnished considering the nature of activities undertaken by the company are service in nature during the year under review. Your company, however, has taken significant measures to reduce energy consumption by using energy efficient computers and by using energy efficient equipment. Energy conservation is a consistent focus area for your company both from a cost control and a social responsibility perspective and further the company has not imported any technology during the period under review

	2020-2021	2019-2020
B. Foreign Exchange earnings	Rs.65,88,47,668/-	Rs. 63,06,81,437/-
C. Foreign Exchange outgo- Travelling Expenses	NIL	NIL

DEPOSITS

Your Directors, report that the company has neither accepted nor renewed any deposits covered under Chapter V of the Act during the year under review.

RISK MANAGEMENT

The Company does not have any Risk Management Policy.

CORPORATE SOCIAL RESPONSIBILITY

INDEPENDENT AUDITORS' REPORT

To the Members of Zen3 Infosolutions Private Limited, Hyderabad

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Zen3 Infosolutions Private Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2021, the Statement of Profit and Loss (including comprehensive income) and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its statement of profit and loss and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than Standalone Financials Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the management representation letter, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

(a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

(c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

(e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

3. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account

   (d) In our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS")

   (e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors are disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164(2) of the Act.

   (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company does not have any pending litigations which would impact its financial position;

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE AUDITORS' REPORT

The Annexure referred to in our Independent Auditor's Report to the members of Zen3 Infosolutions Private Limited on the standalone financial statements for the year ended March 31, 2021, we report that:

i. (a) The company has maintained proper records showing full particulars including quantitative details and situation of its fixed assets

(b) The Company has a regular programme of physical verification of its fixed assets by which fixed assets are verified in a phased manner over a period of one year. In accordance with this programme, entire fixed assets were verified during the year and no material discrepancies were noticed on such verification. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.

(c) According to the information and explanation given to us and on the basis of examination of the records of the company, the Company does not hold any immovable properties.

ii. Due to the nature of business, the Company does not hold any physical inventories and accordingly the provisions of paragraph 3(ii) of the Order is not applicable to the company.

iii. According to the information and explanations given to us and on the basis of our examination of the books of account, the Company has not granted loans, secured or unsecured, to parties listed in the register maintained under Section 189 of the Act. Accordingly, the provisions of paragraph 3(iii) of the Order is not applicable to the Company.

iv. In our opinion and according to the information and explanations given to us, the company has complied with the provisions of Section 185 and 186 of the Act, with respect to investments and providing guarantees and securities.

v. The Company has not accepted any deposits from the public and hence the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and rules framed thereunder are not applicable to the Company.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Companies Act, 2013, for any of the services rendered by the Company.

vii. (a) According to the records of the company, undisputed statutory dues including Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Goods and Service Tax, Cess and any other statutory dues have generally been regularly deposited with the appropriate authorities.

According to the information and explanation given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Goods and Service Tax, Cess and any other statutory dues were in arrears as at 31st of March 2021 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no material statutory dues in respect of Income-tax, Sales-tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Goods and Service Tax, Cess and any other material statutory dues which have not been deposited with the appropriate authorities on account of any dispute

viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of dues to bank or debenture holders as at the balance sheet date.

ix. According to the information and explanation given to us the company has not raised any money by the way of initial public offer or further public offer and the term loans have been applied for the purpose for which they were raised.

x. According to the information and the explanation given to us and based on the audit procedures performed, we report that no fraud on or by the Company has been noticed or reported during the year, nor have we been informed of such case by the management.

xi. As the Company is a Private Limited Company, the provisions of paragraph 3(xi) of the Order are not applicable to the Company.

xii. In our opinion and according to the information and explanation given to us, the company is not a Nidhi company. Accordingly paragraph 3(xii) is not applicable to the company.

xiii. According to the information and the explanation given to us and based on the examination of the records of the company, transactions with the related parties are in compliance with the sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. According to the information and the explanation given to us and based on the examination of the records of the company, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year

xv. According to the information and the explanation given to us and based on the examination of the records of the company, the company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) is not applicable

xvi. The company is not required to be registered under Section 45-IA of Reserve Bank of India act, 1934 and accordingly the provisions of the paragraph 3(xiv) of the Order is not applicable to the company.

ANNEXURE B TO THE AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Zen3 Infosolutions Private Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Zen3 Infosolutions Private Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ACCOUNTING POLICIES

(Amount expressed in ₹ unless otherwise stated)

Company Overview and Significant Accounting Policies

1 Company Overview

Zen3 Infosolution Private Limited is a private limited company domiciled in India and incorporated under the provisions of the Companies Act, 2013 on 28th December, 2015. The Company is a leading software solutions group developing innovative solutions for media, travel and technology industries. It has a domain expertise in big data, machine learning and content solutions. The Company services customers in UK, US and India. It has technology professionals working in various worldwide locations delivering innovative digital media and technology solutions.

2 Significant Accounting Policies

2.1 Compliance Statement

The Company has adopted all the Ind AS standards and the adoption was carried out in accordance with Ind AS 101-First time adoption of Indian Accounting Standards. The transition was carried out from Indian Accounting Principles generally accepted in India as prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (IGAAP), which was the previous GAAP.

2.2 Basis for preparation of Financial Statements

"The financial statements have been prepared in Indian Rupees(INR) which is also the company's functional currency. These statements are prepared in accordance with Indian Accounting Standards (referred to as Ind AS) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 (`Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or are vision to an existing accounting standard requires a change in the accounting policy hitherto in use."

2.3 Previous Year Comparative Figures

The company has voluntarily adopted Ind ASs, in accordance with Ind ASs notified under the Companies Act, 2013 from the FY 2019-20 onward. However, the company has chosen to present the comparative information in accordance with previous GAAP and confirms that there is no prominent impact as a result of which, except for those labelled specifically.

2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Critical accounting estimates

a. Revenue Recognition

Revenue is recognized upon completion of Milestones described in customer agreements.

When the outcome of a transaction involving the rendering of service can be estimated reliably, the revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of the reporting period.

b. Income taxes

Significant judgements are involved in determining the tax provisions. Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets - unrecognized or recognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

c. Property, Plant and Equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

d. Impairment

The company assesses at each balance sheet date whether there is any indication that an asset including intangible may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

e. Provisions

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimate of the obligation.

f. Defined Benefit Plans and Compensated Absences

Provision for Gratuity and Leave Encashment are made on the basis of actuarial valuation carried out on the Balance Sheet date by an Independent Actuary. An actuarial valuation involves making various assumptions like discount rate, mortality rates and these may differ from actual developments in future. A defined benefit obligation is highly sensitive to changes in such assumptions. These assumptions are reviewed at each reporting date.

2.5 Property, Plant & Equipment and Intangibles

a. Property, Plant & Equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably. Repairs and maintenance costs are recognized in net profit in the Statement of Profit and Loss when incurred. The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset and the resultant gains or losses are recognized in the Statement of Profit and Loss. Assets to be disposed off are reported at the lower of the carrying value or the fair value less cost to sell.

Depreciation on assets is provided using the written down value method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on fixed assets added / disposed off during the year is provided on pro-rata basis with reference to the date of addition / disposal.

The Company has estimated the residual value to be 5% of the value of the assset.

The useful lives and residual values of company's assets are determined by management at the time the asset is acquired and reviewed periodically, including at each financial year end

b. Intangibles:

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, from the date that they are available for use. The estimated useful life of an identifiable intangible asset is as under:

- Goodwill is amortised over a period of 10 years.
- SAP Upgrade License/ Implementation fees is amortised over a period of 24 months.
- Intangible assets on account of R&D Projects amortised over a period of 36 months."

The company uses a presumption that the useful life of an intangible asset will not exceed three years from the date when the asset is acquired.

Research costs are expensed as incurred. Software product development costs are expensed as incurred unless technical and commercial feasibility of the project is demonstrated, future economic benefits are probable, the company has an intention and ability to complete and use or sell the software and the costs can be measured reliably. The costs which can be capitalized include the cost of material, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use. Research and development costs and software development costs incurred under contractual arrangements with customers are accounted as expenses in the Statement of Profit and Loss.

Amortization methods and useful lives are reviewed periodically including at each financial year end.

2.6 Impairment of Assets:

a. Financial Assets:

Expected Credit Losses:

The Management is of the view that all the monies receivable against sales will be received in full. The revenue policy has been revised from the current year whereby all the invoices are booked only after receipt of the customers' confirmation. Accordingly, no expected credit loss has been recognized.

b. Non Financial Assets

The company estimates the recoverable amount of the asset in case any indications exists that Plant, Property & Equipment and Intangibles may be impaired . Such assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, the impairment to be recognized in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

2.7 Revenue Recognition:

a. Revenue from Operations

The company has adopted IND AS 115 using the modified retrospective method. The adoption of this standard did not have a significant impact on the financial statements of the company.

Revenue includes the gross inflows of economic benefits received and receivable by the company on its own account. Amounts collected on behalf of third parties such as sales taxes, goods and services taxes and value added taxes are excluded from revenue. Excise duty is included in "Gross Revenue" and is shown separately in profit and loss statement.

I. Measurement:

Revenue is measured at the fair value of consideration received or receivable.

II. Recognition

Revenue is disclosed inclusive of excise duty and net of returns, trade allowances, rebates, value added taxes and amounts collected on behalf of third parties.

Revenue from operations comprises of Income earned from DTA Services and Software Development Services.

Revenue from software services primarily consists of services performed on a contract basis. The related revenue is recognized upon completion of Milestones described in customer agreements."

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

When the outcome of a transaction involving the rendering of service can be estimated reliably, the revenue associated with the transaction shall be recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

(i) The amount of revenue can be measured reliably;

(ii) It is probable that economic benefits will flow to the company;

(iii) The stage of completion of the transaction at the end of the reporting period can be measured reliably; and

(iv) The costs incurred or to be incurred in respect of the transaction can be measured reliably."

When the outcome of a transaction involving the rendering of service cannot be estimated reliably, revenue shall be recognised only to the extent of the expenses recognised that are recoverable.

b. Other income

Other income is comprised primarily of interest income, dividend income and rental income. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

2.8 Foreign Currency Transactions:

The functional currency of the company is the Indian rupee. These financial statements are presented in Indian Rupees.

Foreign currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the balance sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss.

Liabilities and Assets in foreign currency are recognized in accounts as per the following governing principles:

(I) Non monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined.

(II) Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled.

(III) Revenue, expense and cash flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction."

2.9 Financial Instruments

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities, that are not at fair value through profit or loss, are added to the fair value on initial recognition. Regular way purchase and sale of financial assets are accounted for at trade date.

Financial assets carried at amortised cost

A financial asset is subsequently measured at amortised cost if it is held with in a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. Further, in cases where the Company has made an irrevocable election based on its business model, for its investments which are classified as equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

Financial assets at fair value through profit and loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturity of three months or less when purchased, to be cash and cash equivalents.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing with in one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.10. Employee Benefits:

The company has adopted IND AS 19-Employee Benefits, and has disclosed employee benefits accordingly through profit and loss statement and other comprehensive income.

Short-term employee benefits including salaries, social security contributions, short term compensated absences (such as paid annual leave) where the absences are expected to occur within twelve months after the end of the period in which the employees render the related employee service, profit sharing and bonuses payable within twelve months after the end of the period in which the employees render the related services and non monetary benefits (such as medical care) for current employees are estimated and measured on an undiscounted basis.

a. Defined Benefit Plans:

The company provides for gratuity in accordance with the Payment of Gratuity Act, 1972, a defined benefit retirement plan (the Plan) covering all employees. The plan, subject to the provisions of the above Act, provides a lump sum payment to eligible employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. Gratuity liability is accrued and provided for on the basis of an actuarial valuation on projected unit credit method made at the end of each financial year. Actuarial gains/losses are immediately taken to profit and loss account and are not deferred.

Remeasurement, comprising actuarial gains and losses, the effect of changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediatley in balance sheet with a charge or credit recognized in the other comprehensive income in the period in which they occur.

b. Defined Contribution Plans:

Company's contributions paid/payable during the year are recognized in the Profit and Loss Account.

(i) Provident Fund: The eligible employees of the company are entitled to receive the benefits of Provident Fund, a defined contribution plan, in which both the employees and the Company make monthly contributions at a specified percentage of the covered employees' salary. Provident fund is administered through Regional Provident Fund Commissioner. The Company has no further obligations for future provident fund.

(ii) Employee State Insurance: The eligible employees of the Company are entitled to receive the benefits of Employee State Insurance, a defined contribution plan, in which both the employees and Company make monthly contributions at a specified percentage of the covered eemployees' salary.

c. Compensated Absences:

Hitherto compensated absences were considered to be long term in nature and was valued by an independent actuary and consequent to permanent change in leave policy of the company, compensated absences became short term in nature, liability against which is arrived at by estimating the liability to be discharged based on actual unused leave balances at Balance sheet date. Quantification of the change in the policy cannot be precisely estimated and hence not disclosed.

2.11 Taxation:

Income tax comprises current and deferred tax. It is recognised in profit and loss account except to the extent it is related to business combinations or to an item recognised directly in equity or other comprehensive income.

a. Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustments to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates and tax laws enacted or substantially enacted by the reporting date.

Tax on income for the year is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961, and based on expected outcome of assessments/appeals. As a prudence practice, MAT credit is not recognized as assets in the books in the year of occurrence and in the year of set off of MAT credit, net current tax expenses is only disclosed.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is intended to realize the asset and settle the liability on a net basis or simultaneously."

b. Deferred Tax

Deferred tax is recognised for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax liability is not recognised for:

- Temporary differences arising on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- Temporary differences related to investment in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of temporary differences and it is probable that they will not reverse in the foreseeable future; and
- Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets - unrecognized or recognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax assets and deferred tax liabilities are offset only if there is a legally enforceable right to set off the current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different taxable entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously."

2.12 Research and Development

Revenue expenditure on research and development is charged under respective heads of account in the year in which it is incurred. Capital expenditure on research and development is included as a part of Property, Plant and Equipment.

2.13 Earnings per share

Basic earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

2.14 Provisions and Contingencies

A provision is recognized if, as a result of a past event, the company has a present legal or constructive obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimate of the obligation. When the company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset only when reimbursement is virtually certain.

A disclosure for contingent liability is made in the notes to accounts when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Contingent assets are neither recognised nor disclosed in the financial statements.

2.15 Leases

The Company has adopted Ind AS 116 “”Leases”” with the date of initial application being April 1, 2019. Ind AS 116 replaces Ind AS 17 “”Leases”” and related interpretation and guidance. On transition to Ind AS 116, Right-of—use assets as at April 1, 2019 for leases previously classified as operating leases were recognised and measured with cumulative effect of initially applying this standard as an adjustment to the opening balance of retained earnings as at April 1, 2019. As a result, the comparative information has not been restated. The Company has discounted lease payments using the incremental borrowing rate as at April 1, 2019 for measuring the lease liability.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

The Company's lease asset classes primarily consist of leases for building premises. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹6.14 crore and a lease liability of ₹6.27 crore. The cumulative effect of applying the standard, amounting to ₹0.13 crore was debited to retained earnings. The effect of this adoption is insignificant on the profit before tax, profit for the period and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application
3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17."

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 11.2%

SBI's current interest rate for term loans has been taken for computation purposes as the Company does not have an implicit interest rate

2.16 Government Grant

Capital investment subsidy not specifically related to any fixed asset is credited to a specific reserve upon receipt and retained till the requisite conditions are fulfilled. On fulfillment of such conditions, the subsidy is transferred to Capital Reserve.

2.17 Borrowing Costs

Borrowing costs are interest and other costs that an entity incurs in connection with the borrowing of funds. The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of that asset. The Company recognises other borrowing costs as an expense in the period in which it incurs them.

2.18 Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the Company's Board of Directors.

2.19 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature,any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Tech Mahindra Arabia Limited

Opinion

We have audited the financial statements of Tech Mahindra Arabia Limited ("the Company"), which comprise the statement of financial position as at 31 March 2021, the statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes to the financial statements, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2021, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standard for Small and Medium-sized Entities (IFRS for SMEs) that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organization for Chartered and Professional Accountants (SOCPA).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the professional code of conduct and ethics that are endorsed in the Kingdom of Saudi Arabia that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the IFRS for SMEs that are endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by SOCPA, the applicable requirements of the Regulations for Companies, Company's Articles of Association and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, the Board of Directors, are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. 'Reasonable assurance' is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, then

we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit of Tech Mahindra Arabia Limited.

NOTES TO THE FIANANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

(Expressed in Saudi Arabian Riyals)

1 CORPORATE INFORMATION

Tech Mahindra Arabia Limited (the "Company") is a limited liability Company registered in the Kingdom of Saudi Arabia under Commercial Registration number 2051061101 dated 16 Dhul-al-Qa'dah 1436H (corresponding to 31 August 2015G). The Company's principal activity is to provide services of application development and management, network services, business process outsourcing, information technology-enabled services, system integration, IT networking, IT security and supply of products (hardware, software and structured cabling).

The Company's registered office is in Al Khobar, Kingdom of Saudi Arabia.

2 BASIS OF PREPARATION

a) Statement of compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards for Small and Medium Sized Entities ("IFRS for SMEs") as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by Saudi Organization for Chartered and Professional Accountants ("SOCPA").

b) Basis of measurement

The accompanying financial statements have been prepared under the historical cost convention on the accrual basis of accounting except otherwise stated in notes to the financial statements.

c) Going concern

At 31 March 2021 the accumulated losses of the company exceeded 50% of the Company's share capital due to which the applicable requirements of the Regulations for the Companies became applicable. The Company submitted a request to the Ministry of the Commerce to publish an announcement about that on the Ministry's website, including the amount of losses, their percentage of the capital and the main reasons that led to such losses. The shareholders of the Company have passed a resolution dated 9 June 2021 to continue the business and provide the necessary financial support to the Company to enable it to meet its financial obligation as and when they fall due. The Company has completed all the actions required under the applicable requirements of the Regulations for Companies within the stipulated deadline.

d) Functional and presentation currency

These financial statements are presented in Saudi Arabian Riyals (SAR), which is the functional and reporting currency of the Company.

e) Significant accounting estimates and assumptions

The preparation of financial statements in conformity with IFRS for SMEs as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements that are issued by SOCPA requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i. Impairment of non-financial assets

Impairment exists when the carrying value of an asset or Cash Generating Unit (CGU) exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arms' length for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a Discounted Cash Flow (DCF) model. The cash flows are derived from the budget and marketing terms forecast for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is most sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

ii. Useful lives and residual values of property and equipment

The management determines the estimated useful lives and residual values of property and equipment for calculating depreciation. These estimates are determined after considering expected usage of the assets and physical wear and tear. Management reviews the residual values and useful lives annually and change in depreciation charges, if any, are adjusted in current and future periods.

iii. Provision for impairment of trade receivables

A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the agreement. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments are considered indicators of objective evidence that the trade receivable is impaired. For significant individual amounts, assessment is made on an individual basis. Amounts which are not individually significant, but are overdue, are assessed collectively and a provision is recognized considering the length of time and past recovery rates.

iv. Zakat and income tax

The Company is subject to income tax to the extent of foreign shareholding and Zakat to the extent of the GCC shareholders in accordance with the Zakat, Tax and Customs Authority (“ZTCA”) (formerly General Authority of Zakat and Tax (GAZT)) regulations. Income taxes and Zakat are provided on an accrual basis. Income tax and Zakat computation involves relevant knowledge and judgment of the Zakat and income tax rules and regulations to assess the impact of income tax and Zakat liability at a particular period end. This liability is considered an estimate until the final assessment by ZTCA is carried out until which the Company retains exposure to additional Zakat and income tax liability.

v. Provision and contingencies

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The assessment of the contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities which may differ on the occurrence / non-occurrence of the uncertain future events.

vi. Employees’ benefits

The cost of defined benefit and the present value of the related obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, withdrawal before normal retirement age, mortality rates etc. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The parameter most subject to change is the discount rate. In determining the appropriate discount rate, yield and duration of Saudi government bonds obligation with at least an ‘A’ rating or above, as set by an internationally acknowledged rating agency, and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation, is considered. The underlying bonds are further reviewed for quality. Those having excessive credit spreads are removed from the analysis of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds.

Age-wise “moderate” withdrawal rates are used in carrying out the valuation. These age-wise withdrawal rates are generally used in the MENA region to carry out the actuarial valuation of end of service benefit (EOSB) schemes.

The rates assumed are based on the WHO SA16 – 75% ultimate mortality tables, rated down one year. In the absence of any standard mortality tables in the region, these rates are generally used in Kingdom of Saudi Arabia in carrying out the actuarial valuation of EOSB schemes. If any other mortality table is used it will not make any significant difference in the results.

vii. Revenue

As part of application of percentage of completion method on long term contracts, the cost to complete the project is estimated. The stage of completion is measured by calculating the proportion that costs incurred to date bear to the estimated total costs of contracts. Such estimates are reviewed at regular intervals. Any subsequent changes in the estimated cost to complete may affect the results of the subsequent periods.

3. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements except otherwise stated:

a) Cash and cash equivalents

Cash and cash equivalents comprise of cash with banks and other short-term highly liquid investments, if any, with original maturities of three months or less, which are available to the Company without any restrictions.

b) Trade receivables

Trade receivables are carried at original invoice amount less provision for doubtful debts. A provision against doubtful debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. Such provisions are charged to the statement of comprehensive income and reported under "General and administrative expenses". When a trade receivable is uncollectible, it is written-off against the provision for doubtful debts. Any subsequent recoveries of amounts previously written-off are credited to the statement of comprehensive income.

c) Property and equipment

Property and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the asset. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the asset. All other expenditure is recognized as an expense in the statement of comprehensive income when incurred.

Depreciation is provided over the estimated useful lives of the assets using the straight-line method. The estimated useful lives of assets are as follows:

Asset category	Number of years
Furniture & fixtures	5
Office equipment	5
Machinery and equipment	5
Computer equipment	3

Gain and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment at the time of disposal and is recognized in the statement of comprehensive income.

d) Provisions and contingent liabilities

Provisions are recognized for liabilities of uncertain timing or amount, when the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

All possible obligations arising from past events whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or all present obligations arising from past events but not recognized because: (i) it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation, or (ii) the amount of the obligation cannot be measured with sufficient reliability; assessed at each financial position date and disclosed in the financial statements under contingent liabilities.

e) Trade payable and accruals

Liabilities are recognized for amounts to be paid for goods and services received, whether or not billed to the Company.

f) Employees' benefits

Employees' benefits required by Saudi Labor and Workman Law are accrued by the Company and charged to the statement of comprehensive income. The liability is calculated as a defined benefit obligation at the current value of the vested benefits to which the employee is entitled, should the employee leave at the reporting date. Benefit payments are based on employees' final salaries and allowances and their cumulative years of service, as stated in the laws of Saudi Arabia.

(i) The liability or asset recognised in the statement of financial position in respect of defined benefit plan is the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by independent actuaries using the projected unit cost method.

The present value of the defined benefit obligation is determined by discounting the estimated future outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefit will be paid and that have terms approximating the terms of the related obligation. In countries where there is no deep market in such bonds, the market rates on government bonds are used.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost is included in employees' benefit expense in the statement of comprehensive income.

Re-measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in statement of comprehensive income. They are included in retained earnings / accumulated losses in the statement of comprehensive income and in the statement of financial position.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of comprehensive income as past service costs.

g) Zakat and income taxes

In accordance with the regulations of the Zakat, Tax and Customs Authority ("ZTCA") (formerly General Authority of Zakat and Tax (GAZT), the Company is subject to income tax and Zakat. Provision for income tax and Zakat is charged to the statement of comprehensive income. Additional amounts payable, if any, at the finalization of final assessments are accounted for when such amounts are determined.

Deferred income tax is recognized on all major temporary differences between accounting income and taxable income during the year in which such differences arise, and are adjusted when related temporary differences are reversed. Deferred income tax assets on carry-forward losses are recognized to the extent that it is probable that future taxable income will be available against which such carry-forward tax losses can be adjusted. Deferred income tax is determined using tax rate which has been enacted by the statement of financial position date and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

The Company withholds taxes on certain transactions with non-resident parties, including dividend payments to the shareholders, in the Kingdom of Saudi Arabia as required under the Saudi Arabian Income Tax Law.

h) Revenue recognition

Revenue is recognized to the extent of the following recognition requirements:

- it is probable that the economic benefits will flow to the Company,
- it can be reliably measured, regardless of when the payment is being made; and
- the cost incurred to date and expected future costs are identifiable and can be measured reliably.

Revenue is measured at the fair value of the consideration received or the contractually defined terms of payment. The specific recognition criteria described below must also be met before the revenue is recognized.

Revenue on long term contracts, where the outcome can be estimated reliably, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity. The stage of completion is measured by calculating the proportion that costs incurred to date bear to the estimated total costs of a contract. When the current estimate of total contract costs and revenues indicate a loss, provision is made for the entire loss on the contract irrespective of the amount of work done. Progress payments and advances received from customers in respect of contracts are deducted from the amount of contract work in progress and excess payments on contracts are shown as a liability.

Revenue recognized in excess of billings represents the value of work performed but not yet billed as at year-end. Billings in excess of revenue earned included in current liabilities represent the excess of amounts billed over the value of work performed at the year-end.

i) Foreign currency translation

Transactions denominated in foreign currencies are translated to Saudi Arabian Riyals at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are translated to Saudi Arabian Riyals at the exchange rate ruling at that date. Exchange differences arising on translation are recognized in the statement of comprehensive income.

j) Expenses

Selling, general and administrative expenses include direct and indirect costs not specifically part of costs of revenue. Allocations between selling, general and administrative expenses and costs of revenue, when required, are made on a consistent basis.

k) Leases

Leases are classified as finance lease whenever the terms of the lease transfer substantially all of the risks and rewards of ownership to the Company as lessee. Other leases are classified as operating leases. Payments made under operating leases are recognized in the statement of comprehensive income over the terms of the lease.

l) Financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets

Measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. Management determines the classification of the financial asset at the time of initial recognition.

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. For purposes of subsequent measurement financial assets are classified in four categories, financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments and available-for-sale financial investments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the statement of financial position date which are classified as non-current assets. Loans and receivables comprise of loans, advances, deposits, prepayments, other receivables and cash and cash equivalents. After initial recognition, loans and receivables are measured at amortized cost using the effective interest rate method, less any impairment. Restructured/ rescheduled receivables are recorded at revised terms and conditions as approved by the management. Restructuring policies and practices are based on indicators or criteria which, indicate that payment will most likely continue.

Financial liabilities

Measurement

Financial liabilities are classified as financial liabilities at fair value through profit or loss or other financial liabilities, as appropriate. The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs. The measurement of financial liabilities depends on their classification as financial liabilities at fair value through profit or loss or “other financial liabilities”. The Company has not designated any financial liability as fair value through profit or loss.

The Company’s financial liabilities include trade payable and other liabilities.

Derecognition

Financial assets are derecognised when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognised when they are extinguished, that is, when the obligation specified in the contract is discharged, cancelled, or expires. On derecognition of a financial asset or financial liability, the difference between the carrying amount and the consideration received (and receivable) or paid (and payable) is recognised in the statement of comprehensive income.

4. CASH AND CASH EQUIVALENTS

	2021	2020
Bank balances	2,187,497	4,060,948
Short term deposit	5,000,000	5,000,000
	7,187,497	**9,060,948**

The short-term deposit carries an average interest rate of 0.29% (2020: 1.08%) per annum.

5. TRADE RECEIVABLES AND UNBILLED REVENUE

	2021	2020
Trade receivables	15,565,041	14,992,802
Unbilled revenue	6,389,829	5,805,672
Less: provision for doubtful debts	(3,650,813)	(1,962,797)
	18,304,057	**18,835,677**

Movement in provision for doubtful debts is as follows:

	2021	2020
Opening balance	1,962,797	-
Add: provision made during the year	2,098,471	1,962,797
Less : written off	(410,455)	-
Closing balance	**3,650,813**	**1,962,797**

6. RELATED PARTY TRANSACTIONS AND BALANCES

The related parties of Company comprise the shareholders, their affiliated companies, Board of Directors and key management personnel. The Company enters into transactions with the related parties in the normal course of its business. These transactions normally include providing and receipt of services, expenses incurred by / on behalf of related parties and are entered into mutually agreed terms as approved by the Company's management, with the following entities.

Related party	**Relationship**
Midad Holding Company, Kingdom of Saudi Arabia	Shareholder
Tech Mahindra Limited, India	Shareholder
Tech Mahindra GMBH, Germany	Other related party
Healthcare Clinical Informatics Limited	Other related party

The following are details of significant related party transactions during the year:

Related party	**Nature**	**2021**	**2020**
Tech Mahindra Limited	Subcontract cost	12,432,151	10,722,953
	Expense paid by Company on behalf of shareholder	-	17,397
	Expenses reimbursed by shareholder	8,215,738	65,526
Tech Mahindra GMBH	Loan repaid	-	5,476,469
	Finance cost	-	36,678
Healthcare Clinical Infomatics Limited	Payments made	233,237	602,585
Tech Mahindra Limited	Payments made	23,862,108	-
Mided Holding Company	Payments made	818,957	-

The following is a summary of balances due to related parties:

Due from a shareholder	**2021**	**2020**
Tech Mahindra Limited	23,186,823	25,444,588
Midad Holding Company	-	818,957
Healthcare Clinical Informatics Limited	-	233,237
	23,186,823	**26,496,782**

Key management personnel compensation:

There is a compensation at group level to directors and other members of key management (including salaries and benefits) in the year 2021 and 2020.

Transfer pricing

On 31 January 2019, the Zakat, Tax and Customs Authority ("ZTCA") (formerly General Authority of Zakat and Tax (GAZT) issued Transfer Pricing Bylaws (By-laws). These By-laws were enacted on 15 February 2019 as part of the tax law and became binding on tax payers for periods ending on or after 31 December 2018. This requires additional disclosure forms along with annual tax returns to be submitted to ZTCA, summarizing the related party transactions, counter parties including country, amount and Transfer Pricing method. Management has submitted disclosure form to ZTCA for the year ended 31 March 2020 in compliance with By-Laws. During the year, management does not expect any adjustment on account of Transfer Pricing.

7. PREPAYMENTS AND OTHER CURRENT ASSETS

	2021	2020
Prepayments	450,333	523,288
Advances to employees	53,132	15,605
Security deposits	184,480	-
VAT Asset	287,939	-
Others	9,875	34,875
	985,759	**573,768**

8. PROPERTY AND EQUIPMENT

	Furniture & fixtures	Machinery and equipment	Office equipment	Computer equipment	Total
Cost					
At 1 April 2019	420,602	252,655	28,050	252,406	953,713
Additions	57,850	-	1,150	72,516	131,516
At 31 March 2020	**478,452**	**252,655**	**29,200**	**324,922**	**1,085,229**
Additions	-	-	4,820	12,100	16,920
At 31 March 2021	**478,452**	**252,655**	**34,020**	**337,022**	**1,102,149**
Accumulated depreciation					
At 1 April 2019	105,482	67,825	3,384	150,010	326,701
Charge for the year	121,090	66,651	6,280	95,517	289,538
At 31 March 2020	**226,572**	**134,476**	**9,664**	**245,527**	**616,239**
Charge for the year	121,089	66,651	6,841	40,624	235,205
At 31 March 2021	**347,661**	**201,127**	**16,505**	**286,151**	**851,444**
Carrying amount as at:					
31 March 2021	**130,791**	**51,528**	**17,515**	**50,871**	**250,705**
31 March 2020	**251,880**	**118,179**	**19,536**	**79,395**	**468,990**

9. ZAKAT AND INCOME TAX

a) Zakat and income tax expenses for the year

	2021	2020
Income tax	393,752	338,394
Zakat	62,589	53,139
	456,341	**391,533**

b) The principal elements of the Zakat base of the Company are as follows:

	2021	2020
Non-current assets	**250,705**	468,990
Non-current liabilities	**722,789**	432,255
Opening shareholders' equity	**(3,136,946)**	(4,990,587)
Profit before Zakat	**3,514,447**	2,327,724

Some of these amounts have been adjusted in arriving Zakat charge for the year.

Income tax charge for the year ended 31 March 2021 and 2020 is based on the adjusted taxable income calculated on the portion of equity owned by a foreign shareholder.

c) Provision for Zakat and income tax

	2021			2020
	Zakat	Income tax	Total	Total
Balance at the beginning of the year	57,238	338,394	395,632	4,099
Charge for the year	62,589	393,752	456,341	391,533
Payment made during the year	(70,969)	(338,339)	(409,308)	-
Balance at the end of the year	**48,858**	**393,807**	**442,665**	**395,632**

The Company submitted its Zakat and income tax returns up to the year ended 31 March 2020 within the statutory deadlines and received the Zakat and income tax certificates. The Company has not received any assessments from Zakat, Tax and Customs Authority ("ZTCA") (formerly General Authority of Zakat and Tax (GAZT)) since its inception.

10. ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

	2021	2020
Accrued expenses	1,321,221	3,785,153
Value added tax payable	-	480,069
Staff related accruals	77,689	50,613
Others	100,754	206,452
	1,499,664	**4,522,287**

11. EMPLOYEES' BENEFITS

The Company operates an approved unfunded employees' end of service benefits scheme / plan for its permanent employees. The following table shows a reconciliation from the opening balances to the closing balances for the net defined benefit liability and its components.

	2021	2020
Opening balance	432,255	306,441
Included in statement of comprehensive income		
Current service cost	129,757	87,860
Interest cost	20,316	15,479
	150,073	**103,339**
Actuarial loss on obligation	140,461	82,550
Benefits paid during the year	-	(60,075)
Closing balance	**722,789**	**432,255**

Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date:

	2021	2020
Discount rate	**1.3%**	4.70%
Salary increase rate	**3.00%**	3.00%

Sensitivity analysis

A sensitivity analysis for the discount rate and future salary change assumption on the EOSB obligation as at 31 March 2021 is shown in the table below:

	Impact on defined benefit obligation – Increase / (decrease)		
	Change in assumption	**Increase in assumption**	**Decrease in assumption**
Discount rate	0.5%	(10,268)	10,268
Salary growth	0.5%	10,489	(10,489)

Expected maturity analysis of undiscounted defined benefit obligation is as follows:

	Less than a year	**Between 1-2 years**	**Between 2-5 years**	**Over 5 years**
Defined benefit obligation 31 March 2020	229,655	85,188	314,397	393,409
Defined benefit obligation 31 March 2021	**323,394**	**117,663**	**482,499**	**637,819**

12. SHARE CAPITAL

As of 31 March 2021 and 2020 , the share capital of the Company is divided into 1,000 shares of SR 1000 each and held as follows:

Name	**Country**	**No. of shares**	**Value**	**% of Holdings**
Tech Mahindra Limited	India	510	510,000	51%
Midad Holding Company	Kingdom of Saudi Arabia	490	490,000	49%
		1,000	**1,000,000**	**100%**

13. GENERAL AND ADMINISTRATIVE EXPENSES

	2021	**2020**
Provision for doubtful debts (refer note 5)	1,688,016	1,962,797
Rent	586,500	645,275
Depreciation (refer note 8)	235,205	289,538
Insurance	340,159	240,234
Legal and professional expenses	272,946	184,832
Office expenses	530,272	133,542
Travelling	115,900	113,919
Bad Debts written off	410,455	-
Others	334,327	50,158
	4,513,780	**3,620,295**

14. SELLING EXPENSES

	2021	**2020**
Employees' related cost	3,232,583	2,809,125
Others	4,542	-
	3,237,125	**2,809,125**

15. COMMITMENTS AND CONTINGENCIES

Operating lease commitments – Company as lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases are charged to statement of comprehensive income on a straight-line basis over the period of the lease.

The operating lease payments represent rentals for office premises. Lease rentals are fixed and negotiated for an average term of one year.

	2021	2020
Payments under operating leases recognised as expense during the year	586,500	645,275
	586,500	**645,275**

Contingent liabilities

The Company has no significant contingent liabilities as at 31 March 2021 (2020: Nil).

16. FINANCIAL INSTRUMENTS

Financial instruments carried on the statement of financial position include cash and cash equivalents, trade receivable and certain other current assets, trade payables, due to and due from related parties and certain other liabilities.

Fair value is the amount for which an asset could be exchanged, or a liability settled between knowledgeable willing parties in an arm's length transaction. As these financial statements are prepared under the historical cost convention, differences may arise between the book values and the fair value estimates. Management believes that the fair values of the Company's financial assets and liabilities are not materially different from their carrying values.

Credit risk is the risk that one party will fail to discharge an obligation and may cause the other party to incur a financial loss. Cash and cash equivalents are placed with national banks with sound reputation. Trade and other receivables are mainly due from local customers and related parties, which were stated at their estimated realizable values. The Company establishes a provision for doubtful receivables that reports its estimate of incurred losses in respect of trade and other receivables.

Currency risk is the risk that the value of a financial instrument may fluctuate due to changes in foreign exchange rates. The Company's transactions are principally in Saudi Riyals and United States Dollars. As US Dollar is pegged to Saudi Riyal, management believes that the impact of currency risk due to United States Dollar on the Company is not significant. The Company monitors the fluctuations in exchange rates and manages its foreign currency risk by monitoring the currency rate fluctuations on regular basis.

Interest rate risk is the exposures to various risks associated with the effect of fluctuations in the prevailing interest rates on the Company's financial position and cash flows. The Company is not exposed to interest rate risk.

Liquidity risk is the risk that an enterprise may encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from the inability to realize the values of financial assets at an amount close to its fair value. Liquidity risk is managed by monitoring on a regular basis that sufficient funds are available to meet the Company's future commitments.

17. SUBSEQUENT EVENTS

No adjusting event occurred after reporting date till the date of authorization of financial statements by Board of Directors which may have impact on the financial statements.

18. IMPACT OF COVID-19

The novel Coronavirus (COVID19) which was declared a pandemic by the World Health Organisation (WHO) in March 2020, continues to evolve. It is currently difficult to predict the full extent and duration of the impact of this pandemic on the business and the economies in which the Company operates. The extent and duration of the impact of the pandemic remains uncertain and depends on future developments (such as the transmission rate of the virus), which cannot be accurately predicted at this point in time.

The Company has taken containment steps that, as at 31st March 2021, have limited the adverse impact of the virus on the financial results of the Company. The Company do not expect future, significant and adverse impact on the going concern, the Company will continue to reassess its position and the related impact on regular basis.

19. APPROVAL OF FINANCIAL STATEMENTS

These financial statements were approved for issue by Board of Directors on 2 Dhul Hijjah 1442H corresponding to 12 July 2021G.

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2021

The directors have pleasure in presenting their Report and the financial statements for the year ended 31 March 2021.

Principal activities

The principal activity of the company is to hold an investment in the holding companies which control the Target Group of companies.

Results and Dividend

The results of the operations for the year under review are set out in the Profit and Loss Account in the ensuing pages.

The directors do not recommend the payment of any dividend. (2020: £Nil)

Directors

The directors who held office during the year were as follows:

Mr. Vivek Satish Agarwal

Mr. Patrick Michael Byrne

Mr. Vikram Narayanan Nair

Political contributions

There were no political contributions made during the current or prior year.

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information .

Auditor

As per section 485 of the Companies Act 2006 KNAV Limited was appointed as the auditor of the Company. In accordance with section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KNAV Limited will continue in office.

By order of the board

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2021

The Directors present their strategic report for the year ended 31 March 2021.

Principal activities

The principal activity of the company is to hold an investment in the holding companies which control the Target Group of companies.

Business performance

During the year under review a restructuring of group entities was undertaken and included the following

transactions:

- Receipt of dividend of £ 123,649,755 from Target TG Investments Limited.
- The application was made to the Companies house for struck off of Target TG Investments Limited, on 31st March 2021
- Following the receipt of a dividend, the brought forward investment carrying value of £120,010,000 was written down.

During the year the company paid interest on borrowing amounted to £3,477,938 (2020: £219,863) this mainly includes interest paid to Target TG Investments Limited £3,442,478 (2020:£ 197,276).

The Net loss for the year amounted to £64,737 (2020:£ 22,350,000).

Risks & uncertainties

As a holding company the directors haven't identified any specific risks or uncertainties, other than the ability to meet liabilities as they fall due which is covered by the financial support offered by the parent company.

Position of the company at the year end

At the end of the year the company has a cash balance of which is deemed to be sufficient to meet current liabilities as they fall due. Any shortfall would be covered by the financial support offered by the parent company as mentioned in the risks above.

COVID 2019

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of investments. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Annual Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company Law requires the directors to prepare financial statements for each financial period. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 the Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures
- disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TECH MAHINDRA FINTECH HOLDINGS LIMITED

Opinion

We have audited the financial statements of Tech Mahindra Fintech Holdings Ltd (the 'company') for the year ended 31 March 2021 which comprise the Profit and Loss Account and Other Comprehensive Income, the Balance Sheet and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2021 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of twelve months from when the financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other

information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Directors' Report and the Strategic Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Directors' Report and the Strategic Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report or the strategic report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 1387, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design our procedures so as to obtain sufficient appropriate audit evidence that the financial statements are not materially misstated due to non-compliance with laws and regulations or due to fraud or error.

We are not responsible for preventing non-compliance and cannot be expected to detect noncompliance with all laws and regulations – this responsibility lies with management with the oversight of the Directors.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the company and determined that the most significant are the Financial Reporting Standard 102, the Companies Act 2006, and tax legislation.
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by identifying significant classes of transactions and significant accounts and considering how these classes of transactions and accounts may be subject to management override and fraud.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved testing of transactions in the financial statements and carrying out analytical procedures to identify any unusual or unexpected relationships. We also tested the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements

Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The potential effects of inherent limitations are particularly significant in the case of misstatement resulting from fraud because fraud may involve sophisticated and carefully organized schemes designed to conceal it, including deliberate failure to record transactions, collusion or intentional misrepresentations being made to us.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes

(forming part of the financial statements)

1 Accounting policies

Tech Mahindra Fintech Holdings Limited ('the Company') is a private company limited by shares, incorporated, registered and domiciled in England and Wales, in the United Kingdom.

These financial statements were prepared in accordance with Financial Reporting Standard 102 The

Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102") as issued in August 2014. The amendments to FRS 102 issued in July 2015 have been applied. The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The company is itself a subsidiary company and is exempt from the requirement to prepare group accounts by virtue of section 401 of the Companies Act 2006. The Company's ultimate parent undertaking, Tech Mahindra Limited includes the Company in its consolidated financial statements. The consolidated financial statements of Tech Mahindra Limited are prepared in accordance with Indian Accounting Standards and are available to the public and may be obtained from the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company's website (www.techmahindra.com). In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of the number of shares outstanding from the beginning to end of the period;
- Cash Flow Statement and related notes;
- Carrying amounts, interest income/expense and net gains/losses for each category of financial instrument; and
- Key Management Personnel compensation

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

1.1 Measurement Convention

The financial statements are prepared on the historical cost basis.

1.2 Going concern

The company was formed to acquire the share capital of Target Topco Limited and this transaction completed during the year 2016-17. During the year 2019-20 Target Topco limited has been dissolved. The company does not carry on any activities other than holding an investment in Target Group Limited

During the year, the management has simplified the holding structure of the entire Target group. Consequently, Target TG Investment limited is being struck off. Refer to additional details in Note No 7.

As at 31 March 2021, the company had net current assets of £674,809 (Net current liabilities in 2020: £124,270,000), including cash of £458,419 (2020: £15,000), net assets of £83,874,809 (2020: £78,940,000) and reported a loss for the year then ended of 64,737 (2020:£ 22,350,000). The directors have prepared the financial statements on a going concern basis which they consider to be appropriate for the following reasons.

Tech Mahindra Limited, as the parent company has indicated that they will provide necessary funding to support the company to meet its obligations as they fall due for at least twelve months from the approval of these financial statements.

The directors are confident that the company will have sufficient funds to meet its liabilities as they fall due for at least twelve months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern

1.3 Foreign Currency

Transactions in foreign currencies are translated to the companies' functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non- monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are retranslated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined. Foreign exchange differences arising on translation are recognized in the profit and loss account.

1.4 Classification of financial instruments issued by the Company

In accordance with FRS 102.22, financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- they include no contractual obligations upon the company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavorable to the company; and
- where the instrument will or may be settled in the company's own equity instruments, it is either a non- derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

1.5 Basic financial instruments

Trade and other debtors and creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors.

If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of interest for a similar debt instrument.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses. In the Company balance sheet, investments in subsidiaries acquired for consideration are measured by reference to purchase price less any impairment.

Investments in subsidiaries

These are separate financial statements of the company. Investments in subsidiaries are carried at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand are included within liabilities.

1.6 Impairment

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Non-financial assets

The carrying amounts of the entity's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

1.7 Provisions

A provision is recognised in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, that can be reliably measured and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at the best estimate of the amount required to settle the obligation at the reporting date.

1.8 Interest receivable and Interest payable

Interest payable and similar expenses include interest payable, finance charges on shares classified as liabilities and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy).

Other interest receivable and similar income include interest receivable on funds invested and net foreign exchange gains.

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method. Dividend income is recognised in the profit and loss account on the date the entity's right to receive payments is established. Foreign currency gains and losses are reported on a net basis.

1.9 Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

2 Auditor's remuneration

Auditor's remuneration:

	Year ended 31 March 2021 £000	Year ended 31 March 2020 £000
Audit of these financial statements	**4.50**	14.20
Amounts receivable by the company's auditor and its associates in respect of:		
Audit -related services	**-**	-
	4.50	14.20

3 Staff numbers and costs

During the reporting period, the company had no employees (2020 :Nil)

4 Directors' remuneration

No remuneration or benefits were paid to any of the directors during the period. The directors are remunerated by other group companies, however none of their remuneration was in respect of this company, due to its nature as a non-trading holding company.

5 Interest payable and similar expenses

	Year ended 31 March 2021 £000	Year ended 31 March 2020 £000
Interest on loans	**3,478**	220
Total interest payable and similar expenses	**3,478**	**220**

6 Taxation

Reconciliation of effective tax rate

	Year ended 31 March 2021 £000	Year ended 31 March 2020 £000
Profit / (loss)for the year	**(65)**	(22,350)
Total tax credit	**-**	-
Profit /(Loss)Loss before tax	**(65)**	(22,350)
Tax using the UK corporation tax rate of 19% (2020:19%)	**(12.35)**	(4,246)
Movement in deferred tax not recognised	**12.35**	4,246
Group tax relief claimed	**-**	-
Total tax credit included in profit or loss	**-**	-

The main rate of corporation tax is 19% (2020:19%)

No deferred tax has been recognised on the carried forward losses, as due to the nature of the company it cannot be estimated when these will be utilised.

7 Fixed asset investments

	Year ended 31 March 2021 £000	Year ended 31 March 2020 £000
Cost		
At 1 April	203,210	105,213
Addition to investments in Target TG Investments Limited	-	120,010
Addition to investments in Target Group Limited	-	120,010
Adjustment to acquisition cost against dividend	(120,010)	(105,213)
Adjustment on account of impairment / fair valuation	-	(36,810)
At 31 March	83,200	203,210
At 1 April	203,210	105,213
At 31 March	**83,200**	**203,210**

During the year, management of the company decided to simplify the holding structure of Target Group as a whole. This is being undertaken by the following steps:

Investment in Target TG Investments Limited

During the year, Target TG Investments Limited declared a dividend of £ 123,649,755. To the extent that this dividend represented a diminution in the value of the investee below its carrying value it has been treated as a return of capital and set against the full carrying value of the investment of £ 120,010,000, using the direct credit method. Therefore, the amount of dividend declared in excess of the carrying value of £ 3,639,755 has been recognised as income in the profit and loss account and the carrying value of the investment at the year-end is Nil. On 31 March 2021 application was made to strike off Target TG Investments Limited.

Investment in Target Group Limited

After dissolution of Target Topco Limited, the Company bought all the shares of Target Group Limited from its holding company, Target TG Investments Limited, for a value of £120,010,000 in March 2020.

Investments in Subsidiaries are accounted at cost less any provision for impairment. The directors have assessed the operations of the subsidiary entities, including the future projections, to identify indications of diminution in the value of the investments recorded in the books of accounts. Based on the performance of subsidiaries and relevant economic and market indicators which are adversely impacted as a result of Covid-19, the Company has reassessed the recoverable amount in its subsidiaries as on March 31, 2021. Estimates of future cash flows used in the value in use calculations are specific to the entity and based on its business plans. The future cash flows consider potential risks given the current economic environment and key assumptions, such as volume forecasts and margins. The discount rate used in the calculation reflects market's assessment of the risks specific to the investee company as well as time value of money. The discount rate (pre-tax rate) used to determine the value of the investment is 13%. The financial projections and future cash flows basis which investments have been tested for impairment consider the increase in economic uncertainties due to the COVID-19 pandemic, reassessment of the discount rates, growth rates in arriving at terminal value and subjecting these variables to sensitivity analysis. In the prior year, the recoverable amount was lower than the carrying value of investments, the Company had recognised an impairment loss of £36,810,000 on its investment in Target Group Limited. The value of the investment currently remains at £83,200,000 (2019 - £83,200,000) at the end of the year.

The company's wholly owned subsidiaries as at 31 March 2021 were as below

Subsidiary underdaking	**Registered Office**	**Class of Shared held**	**% Held**
Target Group Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%
Elderbridge Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%
Target Servicing Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%
Target Financial Systems Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%
Harlosh Limited	Target House, Cowbridge Road East, Cardiff, S Glamorgan, CF11 9AU	Ordinary	100%

8 Debtors

	Year ended 31 March 2021 £000	**Year ended 31 March 2020 £000**
Amounts owed by group undertakings	52	52
Prepayments	177	258
	229	**310**

Debtors are all due within one year.

9 Creditors: amounts falling due within one year

	Year ended 31 March 2021 £000	**Year ended 31 March 2020 £000**
Other creditors	12	19
Obligations under Share Purchase agreement	-	1,470
Amounts owed to group companies (See Note 12)	-	123,107
	12	**124,596**

The obligation under the share purchase agreement related to the acquisition of Target Topco Limited in 2016 and was the second and final contingent consideration payable in respect of the acquisition, was paid in May 2020.

10 Interest bearing loans and borrowings

Unsecured loans falling due within one year

	Year ended 31 March 2021 £000	Year ended 31 March 2020 £000
Loan payable to immediate related company :		
Principal	-	122,887
Interest	-	220
	-	**123,107**

During the year the company has settled the loan along with interest payables to its group companies. Refer note 13.

11 Share capital

	Number of shares	
Allotted, called up and fully paid	**31-Mar-21**	**31-Mar-20**
Balance at 1 April	1,000,001	1,000,001
Issued during the year	5,000,000	Nil
Balance as at 31 March	6,000,001	1,000,001

Types of Shares	**No of shares**	**Face Value**
		£
Ordinary shares of £0.010 each	58,75,001	875,001
A1 shares of £0.0001 each	62,500	62,500
A2 voting shares of £0.0200 each	62,500	62,500
	6,000,001	**1,000,001**

A1 Shares have no voting rights attached, are non-redeemable and are not entitled to dividends.

A2 Shares are entitled to the greater of: two votes per share held, and such number of votes that would give the holder 5% of voting rights in the company (reducing other classes accordingly). The shares are non-redeemable and are not entitled to dividends.

Ordinary shares are entitled to one vote, and are entitled to dividends.

In May 2017, the company issued 17,816 A1 ordinary shares of £ 0.0001 each to the employees of Target Group at a premium of £ 0.1599. These shares were financed by loan from company to employee at zero interest rate. Also the company has established Tech Mahindra Fintech Holding Limited Employee Benefit Trust (“Trust”) and allotted 19,059 A1 ordinary shares of £0.0001 each. No entries in respect of the scheme have been reflected in the financial statements as the company does not consider this to be material

Reserves

The share premium reserve contains the premium arising on issue of equity shares.

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

12 Ultimate controlling party

The Company is a subsidiary undertaking of Tech Mahindra Limited. The ultimate controlling party is Tech Mahindra Limited and its registered office is Gateway Building, Apollo Bunder, Mumbai – 400001, India.

The largest group in which the results of the company are consolidated is that headed by Tech Mahindra Limited, Gateway Building, Apollo Bunder, Mumbai – 400001, India . The consolidated financial statements of Tech Mahindra Limited are available to the public on the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company’s website (www.techmahindra.com).

13 Related party transactions

At 31 March 2021, £ Nil (2020: £ 123,107,180 (Principal £122,887,085 & Interest £219,863) is due in relation to intercompany loans and £52,079 (2020: £52,079) is receivable in relation to group tax relief from the immediate parent company, Tech Mahindra Limited. Interest expenses of £Nil (2020: 22,587) accrued on the intercompany loan with Tech Mahindra GmbH Interest expenses of £ Nil (2020: £ 197,276) accrued on the intercompany loan with Target TG Investments.

Below is the summary of the transactions during the year:

Details of related party transactions during the year ended March 31, 2020 and balances outstanding as at March 31, 2021:

STRATEGIC REPORT

This strategic report has been prepared for the Group as a whole ("Target"), so includes matters which are significant to Target Group Limited and its subsidiary undertakings.

Review of the business

Principal activities

The principal activities of Target are the provision of transformational outsourcing, business process management and managed services to the financial services sector. We enable clients to transform performance by delivering a world class combination of customer experience, regulatory compliance and productivity through our digital technology and process improvement capabilities. Our services are delivered in highly regulated mission critical environments, and our platform supports over £28bn of business. We have over 40 years' experience and are trusted by over 50 financial institutions, including some of the top 20 global banks.

Through Elderbridge Limited we act as Lender of Record on a number of lending portfolios, providing management services for portfolio owners in the FCA regulated environment.

Covid-19 Pandemic

During the Covid-19 pandemic we recognised we had a crucial role to play in helping administer financial accounts for millions of customers, many of whom were concerned about their finances during a difficult time. Our customer service, and the safety and well-being of our staff are our priorities. Where required, we successfully transitioned our employees to home working, with just a skeleton staff remaining at our sites.

We are proud of the way our teams came together during this difficult time, however, to deliver this new way of working, it has had an impact on our financial results for the year ended 31 March 2021. We invested in capital expenditure related to IT equipment to enable a number of our contact centre staff to work from home. We incurred an additional operating expenditure, primarily relating to IT and facilities costs.

Financial review

The year ended 31 March 2021 has been challenging, we have continued to deliver critical projects for our clients whilst managing our response to Covid-19 and keeping our employees safe.

Turnover for the year ended 31 March 2021 of £70,960k (31 March 2020 of £69,490k) represents an increase of 2% (2020: decrease of 8%). The gross margin for the year was 27% (2020: 24%). We have invested in developing our sales pipeline and securing new business opportunities. As a result, we have an extremely healthy pipeline and have secured significant new contract wins. The timing of the delivery means we incur upfront cost in the year ended 31 March 2021, and will see the returns initiate in the year ended 31 March 2022. Against the backdrop of the Covid-19 pandemic, Target delivered the ability for our workforce to successfully work from home, providing continuity and stability for our staff and our clients. This, in turn, helped to support our improved financial performance in year.

Operating loss decreased from £9,992k for the year ended 31 March 2020 to an operating loss of £8,351k for the year ended 31 March 2021. The underlying operating loss, excluding the onerous contract provision release, for the year ended 31 March 2021 was £11,397k. The loss is driven, in part, by one time restructuring and retention costs, along with additional Covid-19 related expenditure. In addition we have continued to invest in our platforms and operating model during the year which will deliver future cost savings, but not all of our investment meets the capitalisation thresholds available. This has resulted in additional costs in the year, but it is important investment to ensure we continuously improve our services to clients and customers, whilst driving efficiencies into our operations.

The following data illustrate the annualised comparison:

	2021 £000	**2020 £000**
Revenue	70,960	69,490
EBITDA	(3,589)	(5,661)

Our markets

Our clients are predominantly providers of lending, payment, investment and insurance products, across both the public and private sectors. We service these markets through four key offerings; transformational outsourcing, business process outsourcing, managed services and software, all of which are supported by our professional services and consultancy teams.

Business performance

We have continued to work with Tech Mahindra, of which Target is a 100%-owned subsidiary, in bringing new technology to bear in helping our clients succeed. We have also expanded the range of industries we serve, with new clients in utilities and the public sector. We have been delighted that in our core markets existing and new clients have chosen to put more business with Target, enabling us to continue to grow our franchise and create additional, sustainable annuity revenue streams.

In our existing client portfolio, we saw several of clients chose to renew their contracts with Target, and a number also placed new business with us during the year. These are relationships that we value deeply. We expect that our continued focus on operational excellence will see us renew several further clients in the near future.

Brexit

Target has been monitoring and planning for any impacts of Brexit through a Brexit Governance Meeting. The meeting was initially held monthly, but is now being held as required, in response to any new information that arises. There is representation from across the business and the purpose is to identify potential risks and the mitigants should those risks transpire. The Brexit Governance Meeting considers both the potential impact on our operations, for example scenarios that may affect the demand on our operations (e.g. call volumes), and also potential impacts to our clients and suppliers. To date, there have been no materially adverse impacts to the operations and performance of the company.

People

During the year we saw several key leadership changes at the board level. We appointed Catherine Rowe as our CEO as Ian Larkin stepped down after 5 years at the helm. In March 2020, Chris Mills also joined as CFO to ensure a smooth handover with Iestyn Evans leaving Target during June 2020.

In September 2020, Catherine Rowe resigned as director of the company. In December 2020, Chris Mills also resigned as director of the company. Catherine Rowe and Chris Mills will be moving on to pursue other interests outside of Target. While Catherine and Chris were only with Target a reasonably short time, on behalf of Target and Tech Mahindra, we want to thank them for what was achieved in during their tenure.

In October 2020, Terence Baxter resigned as director and CRO of the company after 6 years at Target Group. The directors of the company would like to thank Terence for his dedication during his time at Target Group, and wish Terence well as he explores other opportunities.

In September 2020, Roger Newman was appointed as CEO. Roger is a senior business leader in Tech Mahindra and has been instrumental in leading several transformative customer engagements in the Banking, Financial Services and Insurance (BFSI) space. Following Roger's appointment, the structure of the Target Executive team was reviewed, and it was decided not to appoint a replacement CFO at this time.

The average number of colleagues increased to support our new business wins in the year from 1,069 to 1,237. We continue to invest in our Management Graduate Scheme, supporting 6 graduates within the business during the year.

Our culture programme continues to thrive. Built around a clear set of values and behaviours, our employee recognition scheme 'Target Wins' ensures we recognise individuals and teams that make an outstanding contribution across the business. We also have a localised reward scheme, "MyRecognition" which provides small rewards to swiftly recognise great examples of our Target values and behaviours.

Engagements levels as measured by the Best Companies survey increased. We have placed a greater focus on colleague well-being through a range of initiatives and events, which has resulted in us being well placed to support colleagues through COVID-19.

Our Diversity & Inclusion working group continues to drive initiatives at the heart of our values. At Target we are delighted to have a diverse workforce and we have continued to support and encourage engagement through a number of activities involving our employees. It has been a difficult year to deliver some of the activities that were planned but we have been able to provide these virtually and online where possible.

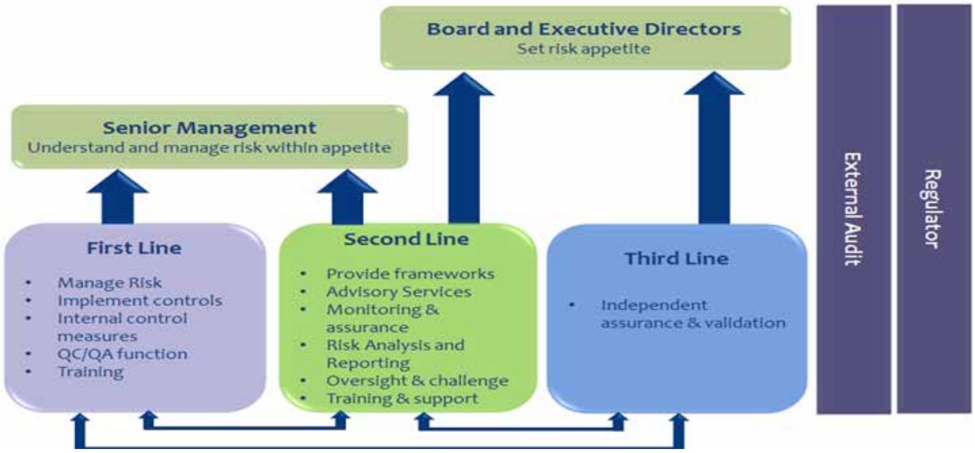
Corporate social responsibility

We continued to support charitable causes, though arranging the collection of regular charitable donations has been difficult due to COVID-19. As a Group, we are passionate about engaging with our local community and taking responsibility for the environment around us, we have been able to do this virtually and online where possible but we will be looking to get back to our previous levels of engagement, as and when restrictions are lifted.

Principal risks and uncertainties

Risk management in Target Group

Target seeks to embed effective risk management through the application of a 'Three Lines of Defence' model to manage and mitigate risks and provide assurance over preventative controls. The Framework is maintained by the Group Risk & Compliance function. Operation are the first line of defence and are responsible for day to day operational risk management. This is overseen by the Risk and Compliance Functions operating as the second line of defence. The third line is Internal Audit which operates as a co-sourced arrangement with Grant Thornton.



Outputs from risk management activities are reviewed through the Risk Governance Framework, culminating in escalation to the Board's Group Risk Committee or Group Audit Committee which are sub committees of the Target Group Board. We continue to review and evolve our Risk Management Framework, and as a result our Risk Governance Framework was updated during the year. The Framework is set out in the diagram below.

Principal risk outlook

Target is not risk averse but aims to offer innovative technology-based servicing, software and product propositions, within the constraints of its financial resources and without compromising customer outcomes, its reputation or its brand. It only pursues opportunities that are well understood, that support the vision and strategy of the group and where risks can be effectively managed.

The principal risks faced by the Group are summarised below:

Risk	Definition	Key mitigating actions
Conduct risk	The risk of a failure in our control and governance frameworks leading to unfair outcomes, detriment to our clients/customers and/or regulatory censure.	Target's governance and control frameworks are designed to minimise the risk of unfair outcomes. These frameworks are subject to regular review by Target, its clients and their auditors.

Risk	Definition	Key mitigating actions
Information security risk	The risk of failure in our controls for protecting corporate, client and customer data, leading to loss of client and customer trust, material cost and reputational damage.	Target maintains extensive controls to safeguard data, including increasing employee awareness, physical and logical access controls and data encryption. We have also invested in additional controls and technology because of GDPR which will further mitigate this risk.
Operational risk	The risk of failing to effectively deliver the volume of simultaneous, complex change facing the business and thereby impacting on service delivery.	Target has a combined and comprehensive resource management approach that enables effective management of change across all business activities, while maintaining agreed standards of conduct and service level performance.

Future developments

Target Group is in an excellent position to take advantage of opportunities arising in the coming year.

A rapidly changing financial services market will lead to opportunities with both established players and disruptive entrants. The continued strengthening of our senior leadership team and our relationship with Tech Mahindra during the year leaves us well positioned to secure these new client opportunities.

Ultimately the success of Target will be determined by the success of our clients and I would like to take this opportunity to thank our clients for their continued custom.

July 1, 2021

DIRECTORS' REPORT

The directors present their annual report together with the financial statements and auditor's report, for the year ended 31 March 2021.

In accordance with Section 414C (11) of the Companies Act 2006, certain information around the trading activities of the Group are contained within the Strategic Report.

Results and dividends

The Group's results are set out in the consolidated profit and loss account on page 1413 and the strategic report on page 1402. The directors elected not to declare a dividend during the year (2020: £5,453k).

Directors

The directors who held office during the year were as follows:

P. M. Byrne

T. A. Baxter (resigned 30 October 2020)

V.S. Agarwal

A.S. Doman (resigned 5 October 2020)

I.D. Evans (resigned 19 June 2020)

A. Wallace

C. E. Rowe (appointed 4 May 2020, resigned 7 September 2020)

C. A. Mills (appointed 24 June 2020, resigned 11 December 2020)

R. Newman (appointed 31 July 2020)

Directors' indemnities

The Company has made qualifying third-party indemnity provisions for the benefit of its directors which were made during the prior period and remain in force at the date of this report.

Financial risk management objectives and policies

The Group's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risks.

Cash flow risk

All treasury matters are coordinated via the relevant group functions of our parent entity Tech Mahindra Limited.

There is minimal interest rate risk to the Group as we hold no external debt, except our finance leases.

Credit risk

The Group's principal financial assets are bank balances and cash, trade and other receivables and investments.

The Group's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of cash flows.

The Group has no significant concentration of credit risk, with exposure spread over a large number of clients. Most of our clients are blue chip investment, retail banking, finance and insurance companies, and government bodies which represent a low credit risk.

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the company uses short-term debt finance, when required. Finance leases are used by the company to facilitate the purchase of long-term assets (note 1).

Regulatory risk

Target Servicing Limited holds FCA permissions as an IFPRU 125k limited licence firm to enable it to operate as a plan manager within the structured product arena under the Hartmoor Financial brand. Whilst the plan manager business was closed in November 2016, we have kept these permissions with the Financial Conduct Authority. Our risk function reviews our regulatory requirements on an ongoing basis to ensure compliance with all relevant permissions held.

Political contributions

No political donations were made (2020: nil).

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitude of the applicant concerned. In the event of members of staff becoming disabled, every effort will be made to ensure their employment with the Group continues and that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee consultation

The Group places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved through formal and informal meetings with the Executive Committee ("ExCo") in the form of Town Halls, Heads of Department Scrums and group e-mail communications. The Town Halls are open forums and are a way of consulting regularly with employees on a wide range of matters affecting their current and future interests.

Energy and Carbon Reporting

For the period from 1 April 2020 to 31 March 2021 the consumption of reportable energy for the Group was 2,340,504 kWh and 13,592 miles of travel mileage reimbursements to employees. This equated to:

- 535 tCO2e from the purchase of electricity
- 5 tCO2e from the purchase of gas
- 4 tCO2e from the purchase of oil
- 4 tCO2e from miles travelled by employees

Energy efficiency:

The Group does not own any of its buildings, nor are they run under finance leases. We have no authority to improve the energy efficiency of the buildings without agreement and investment from our landlords.

Whilst we encourage energy efficiency best practice with our employees, the health and welfare of our employees always comes first. The extent of staff travel time and mileage has greatly reduced during the year due to the impacts of Covid-19 working restrictions, which has significantly reduced our associated CO 2 emissions.

Intensity Ratio:

The group used on average 1 kgCO2 for every £129.36 of turnover (2020: 1kg CO2 for every £61.95).

Methodology:

We have calculated out emissions based on the Activity data (kWh or mileage) x Emission Factor.

As our energy usage is invoiced directly from our energy suppliers, and we have taken the usage of electricity, gas and oil directly from the supplier invoices to determine the Activity data. For mileage, we have used employee expense claims to determine the Activity data. We have used data from the Carbon Trust: (https://proddrupal-files.storage.googleapis.com/documents/resource/public/Conversion_factor_introductory_guide.pdf) as the emissions factor source.

Statement of engagement with suppliers, customers and others in a business relationship with the group

We value our customer relationships deeply and all clients have specific Client Account Manager and Director to ensure regular and relevant engagement. Given that we are a business that provides long-term services to clients, the ability to develop and foster our client relationships is key to our success. We use client satisfaction surveys as a key metric to engage with our clients to monitor and continuously improve our services to them.

We proactively engage with our suppliers as we have a number of suppliers that are fundamental to the quality of our services, and therefore to ensuring that we meet the high standards of conduct that we set ourselves. We perform due diligence on our suppliers before entering a relationship to assess whether they meet the standards of conduct we expect. We conduct frequent supplier meetings, the regularity of which are done on a risk-based approach, with all suppliers tiered in accordance to their size and how business critical their services are to us.

Section 172 Statement

Target Group is a trusted provider of outsourced services within the financial services sector and as such the group seeks to put the customers of its clients first, invests in its employees, supports the communities in which it operates and strives to generate sustainable profits for shareholders.

The Directors of the group have acted in accordance with their duties codified in law, which include their duty to act in the way in which they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, having regard to the stakeholders and matters set out in section 172(1) of the Companies Act 2006.

Section 172 considerations are embedded in decision making at Board level and throughout the Group. Issues, factors and stakeholders which the Directors have considered when discharging their duty under section 172(1) are detailed within the strategic report and directors' report within these annual statements.

Our business purposes and the risks facing our organisation are set out in the strategic report, including those relating to our people and our social responsibilities practices, including examples of stakeholder engagement with employees and suppliers.

Other information

An indication of likely future developments in the business and particulars of significant events which have occurred since the end of the financial period have been included in the Strategic Report on page 1402.

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the company's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the directors have appointed KNAV Limited as auditors of these financial statements.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ANNUAL REPORT AND CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the group and parent company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of the groups profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF TARGET GROUP LIMITED

Opinion

We have audited the financial statements of Target Group Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 March 2021, which comprise the Consolidated Profit and Loss Account, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Company Balance Sheet, Consolidated Statement of Changes in Equity, Company Statement of Changes in Equity and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 March 2021 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the director's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's or company's ability to continue as a going concern for a period of at least twelve months from when the original financial statements were authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Group Strategic Report and Director's Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Group Strategic Report and Director's Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the group and the parent company and their environment obtained in the course of the audit, we have not identified material misstatements in the Group Strategic Report and the Director's Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the directors

As explained more fully in the Statement of Director's Responsibilities [page 1409], the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Extent to which the audit is capable of detecting irregularities, including fraud

We design our procedures so as to obtain sufficient appropriate audit evidence that the financial statements are not materially misstated due to non-compliance with laws and regulations or due to fraud or error.

We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations – this responsibility lies with management with the oversight of the Directors.

Based on our understanding of the Group, Company and industry, discussions with management, we identified Companies Act 2006, Financial Reporting Standard 102, UK taxation legislation and the Financial Conduct Authority's regulations as having a direct effect on the amounts and disclosures in the financial statements.

As part of the engagement team discussion about how and where the Group's financial statements may be materially misstated due to fraud, we did not identify any areas with an increased risk of fraud.

Our audit procedures included:

- enquiry of management about the Group and Company's policies, procedures and related controls regarding compliance with laws and regulations and if there are any known instances of non-compliance;
- examining supporting documents for all material balances, transactions and disclosures;
- review of the Board of directors minutes;
- enquiry of management of legal matters in the year and use of legal firms thereof.;
- evaluation of the selection and application of accounting policies related to subjective measurements and complex transactions;
- analytical procedures to identify any unusual or unexpected relationships;
- testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements;
- review of accounting estimates for biases.

Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements of the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The potential effects of inherent limitations are particularly significant in the case of misstatement resulting from fraud because fraud may involve sophisticated and carefully organized schemes designed to conceal it, including deliberate failure to record transactions, collusion or intentional misrepresentations being made to us.

A further description of our responsibilities is available on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Amanjit Singh FCA (Senior Statutory Auditor)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 31 MARCH 2021

1 Significant accounting policies

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding year.

General information and basis of accounting

Target Group Limited is a company incorporated in the United Kingdom under the Companies Act.

The Company is a private Company limited by shares and is registered in England and Wales. The address of the registered office is given on page 1401.

The nature of the group's operations and its principal activities are set out in the Directors' report and Strategic report on pages 1402 to 1408.

These financial statements were prepared in accordance with Financial Reporting Standard 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102") and the Companies Act 2006.

The presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £1,000.

The functional currency of Target Group Limited is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates. The consolidated financial statements are also presented in pounds sterling.

Target Group Limited meets the definition of a qualifying entity under FRS 102 and has therefore taken advantage of the disclosure exemptions available to it in respect of its separate financial statements, which are presented alongside these consolidated financial statements. Exemptions have been taken in relation to financial instruments, presentation of a cash flow statement and remuneration of key management personnel.

The consolidated financial statements of Tech Mahindra Limited, within which this Company is included, can be obtained from the National Stock Exchange of India Ltd (NSE), The BSE Limited (BSE) and the company's website (www.techmahindra.com).

Going concern

The directors have considered the use of the going concern basis in the preparation of the Group and Company financial statements in light of the current financial position of the Group and Company and their related forecast cash flows. They have concluded that it is appropriate at the date of signing the financial statements.

The Directors have considered the impact of the current COVID-19 pandemic on the business, with a particular focus on its effect on the Group's and Company's employees, customers and suppliers.

The Group's products and services remained critical to customers during the pandemic and will continue to remain critical as the pandemic and lockdown eases. The group has remained open and operational throughout the pandemic to date, continuing to provide customers with our services, some of which have been undertaken remotely with minimal disruption. It is expected that the Group will continue operating in this manner for the foreseeable future, at least until restrictions are fully lifted. We do not expect significant disruption to the services being delivered, or to the Company's anticipated performance and strategic direction.

The directors have prepared cash flow forecasts for a period of at least 12 months from the date of approval of these consolidated financial statements in order to assess the Group's ability to continue as a going concern. This includes modelling of severe downside scenarios such as a drop in new business activity and unmitigated increases in the cost base.

The ongoing impact of COVID-19 on revenues and our cost base has been considered and reflected in forecasts which show that whilst revenue is expected to continue in line with this year, there is continuing pressure on costs. As such, various cost optimisation / reduction programmes are being implemented that will impact both next year as well as the longer-term.

Given this situation and the continued investment in the company's platforms, operations and new business opportunities, the forecasts indicate that, after taking account of reasonably possible downsides, the Group and Company will post a similar result for the coming year with improvements being realised thereafter.

The company does not have any external debt or material financing arrangements in place currently and as a result, in this case, the forecasts, which have been prepared for a period of at least 12 months, indicate that the company will have sufficient funds through funding from its intermediate parent company, Tech Mahindra Limited, to meet its liabilities as they fall due for that period.

Those forecasts are dependent on Tech Mahindra Limited providing additional financial support during that period. Tech Mahindra Limited has indicated its intention to continue to make available such funds as are needed by the company for the period covered by the forecasts. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the company and all its subsidiary undertakings made up to 31 March 2021, and previously to 31 March 2020. The results of subsidiaries acquired or sold are consolidated for the periods from or to the date on which control passed.

Business combinations are accounted for under the purchase method. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Foreign currency

Transactions in foreign currencies are translated to the Group companies' functional currency at the foreign exchange rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at the balance sheet date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Foreign exchange differences arising on translation are recognised in the profit and loss account. The revenues and expenses of foreign operations are translated at an average rate for the year where this rate approximates to the foreign exchange rates ruling at the dates of the transactions. Foreign exchange differences arising on retranslation are recognised in other comprehensive income.

Business combinations

Business combinations are accounted for using the purchase method as at the acquisition date, which is the date on which control is transferred to the company.

Intangible assets - Goodwill

Goodwill arising on the acquisition of subsidiary undertakings and businesses representing the excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight-line basis over its useful economic life. Provisions are made for any impairment.

Goodwill is carried at cost less accumulated amortisation and accumulated impairment losses. Estimates of the useful economic life of goodwill are based on a variety of factors such as the expected use of the acquired business, the expected useful life of the cash generating units to which the goodwill is attributed, any legal, regulatory or contractual provisions that can limit useful life and assumptions that market participants would consider in respect of similar businesses. The directors consider each acquisition separately for the purpose of determining the amortisation period, being the period over which the directors estimate that economic benefit will continue to be derived from the purchase as:

Goodwill on consolidation arising on acquisition of subsidiary undertakings	5 – 10 years

Intangible assets – research and development

Research expenditure is written off as incurred. Development expenditure is also written off, except where the directors are satisfied as to the technical, commercial and financial viability of individual projects. In such cases, the identifiable expenditure is deferred and amortised over the period during which the Group is expected to benefit. This period is between 2 and 5 years. Provisions are made for any impairment. See note 2 for further details.

Other intangible assets

Intangible assets acquired as part of a business acquisition are capitalised separately from goodwill if the fair value can be measured reliably on initial recognition. The intangible assets acquired have been valued using an income approach, using the multi-period excess earnings method for customer contracts, and the relief from royalty method for brands.

Subsequent to initial recognition, intangible assets are stated at cost less accumulated amortisation and accumulated impairment. Intangible assets are amortised on a straight line basis over their estimated useful economic lives as follows:

Customer contracts	5 years
Brand	5 years
Capitalised development costs	2 to 5 years

The company reviews the amortisation period and method when events and circumstances indicate that the useful life may have changed since the last reporting date. Goodwill and other intangible assets are tested for impairment in accordance with Section 27 Impairment of assets when there is an indication that goodwill or an intangible asset may be impaired.

Tangible fixed assets

Tangible fixed assets are stated at their historic cost, net of depreciation and any provision for impairment. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less the estimated residual value, of each asset on a straight-line basis over their estimated useful economic lives from the point they are brought into use as follows:

Short leasehold property	-	the term of the lease
Computer equipment	-	3-7 years
Fixtures and fittings	-	3-10 years
Motor vehicles	-	2-4 years

Where parts of an item of tangible fixed assets have different useful lives, they are accounted for as separate items of tangible fixed assets.

The company assesses at each reporting date whether tangible fixed assets (including those leased under a finance lease) are impaired.

Depreciation methods, useful lives and residual values are reviewed if there is an indication of a significant change since last annual reporting date in the pattern by which the company expects to consume an asset's future economic benefits.

Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities.

Financial assets and liabilities

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a financing transaction, the financial asset or financial liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Financial assets and liabilities are only offset in the statement of financial position when, and only when there exists a legally enforceable right to set off the recognised amounts and the Group intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

Debt instruments which meet the following conditions, are subsequently measured at amortised cost using the effective interest method:

a. Returns to the holder are (i) a fixed amount; or (ii) a positive fixed rate of return over the life of the instrument; or (iii) a positive variable return that, throughout the life of the instrument, is equal to a single referenced quoted or observable interest rate; or (iv) some combination of such fixed rate and variable rates, providing that both rates are positive.

b. There is no contractual provision that could, by its terms, result in the holder losing the principal amount or any interest attributable to the current period or prior periods.

c. Contractual provisions that permit the issuer to prepay a debt instrument or permit the holder to put it back to the issuer before maturity are not contingent on future events, other than to protect the holder against the credit deterioration of the issuer or a change in control of the issuer, or to protect the holder or issuer against changes in relevant taxation or law.

d. There are no conditional returns or repayment provisions except for the variable rate return described in (a) and prepayment provisions described in (c).

Debt instruments that are classified as payable or receivable within one year and which meet the above conditions are measured at the undiscounted amount of the cash or other consideration expected to be paid or received, net of impairment.

Other debt instruments not meeting these conditions are measured at fair value through profit or loss.

Financial assets are derecognised when and only when a) the contractual rights to the cash flows from the financial asset expire or are settled, b) the Group transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Group, despite having retained some significant risks and rewards of ownership, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Trade and other debtors / creditors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses in the case of trade debtors. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of interest for a similar debt instrument.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Investments

In the Company balance sheet, investments in subsidiaries and associates are measured at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits.

Impairment of assets

Assets, other than those measured at fair value, are assessed for indicators of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in the profit and loss as described below.

Non-financial assets

The carrying amounts of the entity’s non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset’s recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its Cash Generating Unit (CGU) exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

Financial assets

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset’s carrying amount and the present value of estimated future cash flows, discounted at the financial asset’s original effective interest rate.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset’s carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the Group's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

The tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income.

Current tax assets and liabilities are offset only when there is a legally enforceable right to set off the amounts and the Group intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Interest receivable and interest payable

Interest payable and similar charges include interest payable and finance leases recognised in profit or loss using the effective interest method, unwinding of the discount on provisions, and net foreign exchange losses that are recognised in the profit and loss account (see foreign currency accounting policy).

Interest income and interest payable are recognised in profit or loss as they accrue, using the effective interest method.

Turnover

Turnover represents the amounts, excluding value added tax, derived from the provisions of solutions to third party customers. Solutions can be provided in four ways: as software licence and related service sales, under facilities management contracts, under business transformation contracts and under business process outsourcing contracts.

Turnover for the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the fair value of the consideration received or receivable. Where a contract has only been partially completed at the balance sheet date turnover represents the fair value of the service provided to date based on the stage of completion of the contract activity at the balance sheet date. Where payments are received from customers in advance of services provided, the amounts are recorded as deferred income and included as part of creditors.

Government grants

Government grants are accounted under the accruals model as permitted by FRS 102 and are recognised in the Profit and Loss in the same period as the related expenditure. The group has chosen to show the government grants received as other operating income.

Retirement benefits

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

Leases

Assets held under finance leases and other similar arrangements, which confer rights and obligations similar to those attached to owned assets, are capitalised as tangible fixed assets at the fair value of the leased asset (or, if lower, the present value of the minimum lease payments as determined at the inception of the lease) and are depreciated over the shorter of the lease terms and their useful lives. The capital elements of future obligations are recorded as liabilities, while the interest elements of the rental obligations are charged to the profit and loss account over the periods of the leases and to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals under operating leases are charged in the profit and loss account on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

Provisions

Provisions are recognised when the group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount of the obligation can be estimated reliably. A provision is not made for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

2 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Revenue recognition

Due to the complexity of some of the Group's contracts, there are judgements to be applied, including the measurement and timing of implementation revenue recognition and the recognition of assets and liabilities that result from the performance of the contract.

Research and development costs

In line with FRS 102, the Group capitalises expenditure on development activities where that expenditure meets the requirements of the standard i.e. a product or process is technically and commercially feasible, the Group intends and has the technical ability and sufficient resources to complete development, future economic benefits are probable and the Group can measure reliably the expenditure attributable to the intangible asset during its development. Projects are assessed on an individual basis to determine which activities meet the eligibility criteria for capitalisation as an intangible asset. The days attributable to eligible activities based on the time recording system, together with management assessment of percentage attributable where required, are multiplied by the relevant day rate for that period and capitalised. Eligible non-staff costs are also capitalised where relevant.

There are also judgements applied to the period over which the costs will be recovered. This determines the amortisation period appropriate for the asset.

3 Turnover

Turnover by destination was UK £70,234k (2020: £68,378k) and rest of the world £726k (2020: £1,112k).

The table below sets out information for each of the group's industry segments:

	Software		**Services**		**Total**	
	2021	2020	**2021**	2020	**2021**	2020
	£000	£000	**£000**	£000	**£000**	£000
Turnover	**23,916**	18,100	47,045	**51,390**	70,960	69,490

4 Interest payable and similar expenses

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
Bank interest and charges	**9**	5
Hire purchase and finance interest	**93**	106
Other finance costs	**-**	55
	102	**166**

5 Interest receivable and similar income

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
Other interest receivable and similar income	**-**	4
	-	4

6 Staff numbers and costs

The average number of persons employed by the Group (including directors) during the year was as follows:

	Number of employees	
	Year ended 31 March 2021	Restated Year ended 31 March 2020
Technical and operational	**1,106**	943
Sales, marketing, management and administration	**131**	126
	1,237	1,069

On further review, the Group noted an error in the prior year's average staff numbers and as such have corrected this in the current year. Technical and operational staff employed changed from 940 employees to 943 and sales, marketing, management and administration staff employed changed from 126 to 142. There is no financial impact to the Group as a result of this change. The aggregate payroll costs of these persons were as follows

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
Wages and salaries	**38,977**	32,498
Social security costs	**3,705**	3,035
Pension costs	**1,601**	1,772
	44,283	37,305

7 (Loss) / Profit before taxation

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
Profit before taxation is stated after charging/(crediting):		
Amortisation of goodwill (note 11)	**220**	155
Amortisation of other intangible assets (note 11)	**1,970**	1,685
Depreciation (note 12)		
Owned	**1,705**	1,839
Leased	**760**	652
Rentals under operating leases - property	**1,143**	1,116
Foreign exchange loss / (gain)	**4**	55
Government grants – furlough	**(21)**	-
Auditor's remuneration:		
Audit of these financial statements	**36**	37
Audit of financial statements of other group companies pursuant to legislation	**34**	37
Other assurance services	**-**	19

Auditor's remuneration in respect of the company was £36k (2020: £37k). Audit of other group companies relates to the audit fees for the subsidiaries Harlosh Limited, Target Servicing Limited, Target Financial Systems Limited and Elderbridge Limited and the parent companies Target TG Investments Limited.

Amortisation and impairment charge

The amortisation, impairment charge and impairment reversals are recognised in the following line items in the profit and loss account:

	2021	2020
	£000	£000
Administrative expenses	**2,190**	1,840

8 Profit and loss account of parent company

As permitted by Section 408 of the Companies Act 2006, the profit and loss account or statement of other comprehensive income is presented in respect of the parent Company. The profit attributable to the Company is disclosed in the footnote to the Company's balance sheet.

9 Directors' remuneration

Emoluments of the directors were as follows:

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
Directors' emoluments	**1,321**	889
Company contributions to money purchase pension scheme	**14**	26
	1,335	915

The number of directors who:

Are members of a money purchase pension scheme	**3**	3
Had awards receivable in the form of shares under a long-term incentive scheme	**2**	3

The aggregate of emoluments of the highest paid director were £545k (2020: £263k) and company pension contributions of £nil (2020: £11k) were made to a money purchase pension plan on his behalf.

10 Taxation

The tax charge for the period comprises:

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	**£000**
Current tax		
UK Corporation tax on (loss)/profit for the year	**-**	-
Adjustments in respect of prior periods	**(44)**	(274)
Total current tax charge / (credit)	**(44)**	**(274)**
Deferred tax:		
Origination and reversal of timing differences	**(1,486)**	(1,186)
Adjustments in respect of prior periods	**11**	(384)
Total deferred tax charge / (credit)	**(1,475)**	**(1,570)**
Total tax charge / (credit) on profit	**(1,519)**	(1,844)

The tax (credit)/charge is lower (2020:lower) than the standard rate of corporation tax in the UK of 19% (2020: 19%) as explained below:

	Year ended 31 March 2021	Year ended 31 March 2020
	£000	£000
(Loss)/Profit for the year	(6,934)	(8,310)
Total tax (credit)/charge	(1,519)	(1,844)
(Loss)/Profit excluding taxation	(8,453)	(10,154)
Tax at 19% (2020:19%)	(1,606)	(1,929)
Effects of:		
Expenses not deductible for tax purposes	49	743
Group relief claimed		-
Tax losses utilised in the year		-
Adjustments in respect of prior periods	38	(658)
Total charge for the year as above	(1,519)	(1,844)

A reduction in the UK corporation tax rate from 19% to 17% (effective 1 April 2020) was substantively enacted on 6 September 2016. The March 2020 Budget announced that a rate of 19% would continue to apply with effect from 1 April 2020, and this change was substantively enacted on 17 March 2020. The deferred tax balance as at 31 March 2021 has been calculated based on this rate.

Net book value		
At 31 March 2021	**433**	**433**
At 31 March 2020	**2,282**	**2,282**

Development costs relating to the design and build of core systems have been capitalised in accordance with the requirements of FRS 102 and are therefore not treated, for dividend purposes, as a realised loss. These costs are being amortised over the life of the project to which they relate on a straight-line basis, which is no more than 5 years.

Goodwill arising on the acquisition of Harlosh Ltd is fully amortised.

Goodwill arising on the acquisition of Commercial First Mortgages Ltd's trade and assets have been amortised fully during the year, as the directors' believe the recoverable value of these assets to be nil. Prior to this, the assets were amortised evenly over its useful economic life of 5 years.

12 Tangible fixed assets

Group	Short leasehold property	Computer equipment	Fixtures and fittings	Total

At 1 April 2020 and 31 March 2021	**17,888**	17,888
Provisions		
Provision for investment in Harlosh Limited	**(6,852)**	(6,852)
Net book value		
At 31 March 2020 and 31 March 2021	**11,036**	11,036

In the previous year, the directors of company decided to focus on its core activities within lending and investment. The insurance sector was no longer considered to be a key strategic area for the Target Group and the activities of its subsidiary entity, Harlosh Limited, either ceased or were transferred to another group entity. As a result, Harlosh Limited was not considered a going concern and a provision had been recognised for the full cost of investment in Harlosh Limited. The directors assessed the carrying value of the company's investment in other subsidiaries at year-end and are of the opinion that they are not worth less than the carrying value in the financial statements..

The company's wholly owned subsidiaries at 31 March 2021 were:

	Country of incorporation	Principal activity	Class of shares	Percentage ownership
Subsidiary undertakings				
Target Servicing Limited	UK	Provision of business process outsourced services	Ordinary	100%
Harlosh Limited	UK	Provision of computer applications software and related services	Ordinary	100%

	Country of incorporation	Principal activity	Class of shares	Percentage ownership
Target Financial Systems Limited	UK	Management of owned loan portfolios	Ordinary	100%
Elderbridge Limited	UK	Lender of record for loan portfolios	Ordinary	100%

TThe registered office of all subsidiary companies is Target House, Cowbridge Road East, Cardiff, CF11 9AU and the individual results of each entity have been included in these consolidated financial statements.

14 Debtors

	22,640	**16,018**	**32,697**	**24,321**

The prior year's comparative for the following classifications have been restated so as to better reflect the nature of the transaction:

- Group trade creditors have been restated from £3,293k to £2,847k
- Group accruals and deferred income have been restated from £10,118k to £6,031k
- Group amounts due to group undertakings have been restated from £Nil to £4,952k

- Company trade creditors have been restated from £2,111k to £1,949k
- Company accruals and deferred income have been restated from £7,739k to £3,820k
- Company amounts due to group undertakings have been restated from £14,154 to £18,235k

16 Creditors: amounts falling due after more than one year

	Group		Company	
	2021	2020	**2021**	2020
	£000	£000	**£000**	£000
Obligations under finance leases (amounts payable in the second to fifth years inclusive)	**1,272**	1,592	**1,272**	1,592
Accruals and deferred income	**2,078**	2,078	**-**	-
	3,350	3,670	**1,272**	1,592

17 Deferred taxation

	Group		Company	
	2021	2020	**2021**	2020
	£000	£000	**£000**	£000
At beginning of year - asset	**1,723**	155	**421**	53
(Charge) / credit for the year in the P&L account	**1,475**	1,568	**957**	368
At end of year – asset (note 14)	**3,198**	1,723	**1,378**	421
The deferred tax asset comprises				
Tax losses carried forward	**3,426**	1,848	**1,123**	368
Other timing differences	**(228)**	(125)	**255**	53
	3,198	1,723	**1,378**	421

A further deferred tax asset of £41k (2020: £41k) for the group and £41k (2020: £41k) for the company has not been recognised due to uncertainty over its future utilisation. It is made up as follows:

	2021	2020	**2021**	2020
	£000	£000	**£000**	£000
The unprovided deferred tax asset comprises				
Tax losses carried forward	**41**	41	**41**	41
	41	41	**41**	41

18 Provision for liabilities

The group had the following provisions during the year:

	Group	
	Onerous contract provision	**Total**
	£000	£000
As at 1 April 2020	**(4,845)**	(4,845)
(Charge) / credit for the year in the P&L account	**3,050**	**3,050**
As at 31 March 2021	**(1,795)**	**(1,795)**

Onerous contract provision

The group provides for any contract where the unavoidable cost of delivering our contractual obligations exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net costs of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it.

Company

The Company had no provision for liabilities as at 31 March 2021.

19 Share capital

	Ordinary shares of 5p each	'A' shares of 5p each	'B' shares of 5p each	Total
	Number	Number	Number	Number
Allotted, called up and fully paid				
At 31 March 2020 and 31 March 2021	11,557,417	1,476,287	3,161,200	16,194,904

	Ordinary Shares of 5p each	'A' Shares of 5p each	'B' Shares of 5p each	Total
	£000	£000	£000	£000
Allotted, called up and fully paid				
At 31 March 2020 and 31 March 2021	578	74	158	810

Both the 'A' and 'B' shares carry no right to vote at, attend or receive notice of general meetings of the company. They have rights to income or capital only on a sale of the business for a value above specific defined thresholds.

The Group and Company's other reserves are as follows:

The share premium reserve contains the premium arising on issue of equity shares.

The profit and loss reserve represents cumulative profits or losses, net of dividends paid and other adjustments.

The capital redemption reserve is a statutory, non-distributable reserve into which amounts are transferred following the redemption or purchase of a company's own shares.

20 Financial instruments

The carrying values of the Group and Company's financial assets and liabilities are summarised by category below:

	Group		Company	
Financial assets	**2021 Total**	2020 Total	**2021 Total**	2020 Total
	£000	£000	**£000**	£000
Measured at undiscounted amount receivable				
Amounts due from customers (see note 14)	**17,762**	23,138	**5,105**	4,226
Amounts due from related undertakings (see note 14)	**2,639**	1,188	**4,587**	4,116
Other amounts	**7,334**	5,398	**4,374**	3,409
	27,735	29,724	**14,066**	11,751

Financial liabilities	Group 2021 Total £000	Group 2020 Total £000	Company 2021 Total £000	Company 2020 Total £000
Measured at amortised cost				
Finance lease liabilities (see notes 15 & 16)	**2,068**	2,308	**2,068**	2,308
Measured at undiscounted amount payable				
Trade and other creditors	**14,673**	12,428	**8,025**	5,370
Amounts owed to related undertakings	**9,249**	4,952	**23,876**	18,235
	25,990	19,688	**33,969**	25,913

Refer to note 15 for details of the restatement.

The Group's income, expense, gains and losses in respect of financial instruments are summarised below:

Financial assets	Group 2021 Total	Group 2020 Total
Interest income and expense	**£000**	£000
Total interest income for financial assets at amortised cost	**-**	-
Total interest expense for financial liabilities at amortised cost	**93**	106

The interest expense includes £nil (2020: £nil) of interest that was recognised within cost of sales in Target Financial Systems Limited. The remainder relates to bank and other finance costs (note 4).

21 Dividend

No dividends were declared during the year (2020: £5,453k).

22 Commitments

Group capital commitments authorised and contracted at 31 March 2021 were £nil (2020: £nil).

Group total future minimum lease payments under non-cancellable operating leases are as follows:

	2021 Total £000	2020 Total £000
Group:	**-**	-
In the first year	**1,030**	1,072
Between one and five years	**3,761**	3,949
After five years	**183**	1,025
	4,974	6,046

Total future minimum lease payments under non-cancellable finance leases are as follows:

	2021 Total £000	2020 Total £000
Company only:	**-**	-
In the first year	**825**	447
Between one and five years	**1,239**	1,680
After five years	**-**	295
	2,064	2,422

Annual commitments at 31 March 2021 relate to property and car leases. The majority of leases of land and buildings are subject to rent reviews.

The company had no capital commitments or annual commitments at the year-end (2020: £nil).

23 Pensions

The assets of the pension schemes to which the group contributes on behalf of its employees are held within independently administered funds. The schemes are all defined contribution schemes thus the group's obligation is solely to make contributions based on a percentage of salary. Employer contributions to the schemes for the year amounted to £1,601k (2020: £1,772k). The pension liability at the year end was £357k (2020: £253k).

24 Interest-bearing loans and borrowings

This note provides information about the contractual terms of the Group's and parent Company's interest-bearing loans and borrowings, which are measured at amortised cost.

	Group		**Company**

REPORT OF THE STATUTORY AUDITOR ON THE LIMITED STATUTORY EXAMINATION TO THE GENERAL MEETING OF SHAREHOLDERS FINANCIAL STATEMENTS 2021

Report of the Statutory Auditor on the Limited Statutory Examination to the General Meeting of Shareholders of TECH MAHINDRA (SWITZERLAND) SA , Vernier

As statutory auditor, we have examined the financial statements (balance sheet, income statement and notes) of TECH MAHINDRA (SWITZERLAND) SA for the year ended 31 March 2021.

These financial statements are the responsibility of the Board of Directors. Our responsibility is to perform a limited statutory examination on these financial statements. We confirm that we meet the licensing and independence requirements as stipulated by Swiss law.

We conducted our examination in accordance with the Swiss Standard on the Limited Statutory Examination. This standard requires that we plan and perform a limited statutory examination to identify material misstatements in the financial statements. A limited statutory examination consists primarily of inquiries of company personnel and analytical procedures as well as detailed tests of company documents as considered necessary in the circumstances. However, the testing of operational processes and the internal control system, as well as inquiries and further testing procedures to detect fraud or other legal violations, are not within the scope of this examination.

Based on our limited statutory examination, nothing has come to our attention that causes us to believe that the financial statements and the proposed appropriation of available earnings do not comply with Swiss law and the Company's articles of incorporation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

1. Principles General

The Company was incorporated on November 2, 2001.

The principal activity of the Company is to provide banking consultancy services to banks and financial institutions in order to assist them in the implementation of solutions.

The Company's headquarter is in Vernier (Geneva - Switzerland).

2. Summary of significant accounting policies

2.1 General aspects

These financial statements were prepared according to the principles of the Swiss Law on Accounting and Financial Reporting (32nd title of the Swiss Code of Obligations). Where not prescribed by law, the significant accounting and valuation principles applied are described below.

2.2 Revenue recognition

Services include revenue earned from services rendered on time and material basis, time bound fixed price engagements and system integration projects.

Revenue is recognised over the period of the contract in accordance with its term.

2.3 Tangible and intangible fixed assets

Fixed assets are stated at cost and are depreciated using the linear method on their estimated useful lives. Depreciation durations are the following:

Office equipment	5 years
Hardware	3 years
Software	3 years
Development cost	5 years

2.4 Payables

Trade payables and other current liabilities are carried at their nominal value.

3. Disclosure on balance sheet and income statement items

3.1 Long term interest bearing loan from shareholder

The Company's financial statements presented a shareholder's deficit (i.e. excess of liabilities over assets) as at March 31, 2020. In light of the article 725, paragraph 2 of the Swiss Code of Obligations, on June 19, 2020, the Company entered into a subordination agreement with its shareholder at the time, SOFGEN Holdings Limited, for a total amount of CHF 6,500,000.

In August 2020, SOFGEN Holdings Limited decided to waive the subordinated claim together with other open payable balances (note 3.3).

3.2 Share capital

The share capital includes 1,700 registered shares of CHF 1,000, fully paid-in.

3.3 Non-operating income

	2021	2020
Waiver obtained from intercompany and shareholder debt	8,764,838	-
Tax / insurance /sponsorship refunds	177,568	192,730
Other	246,689	52,040
Total	**9,189,095**	**244,770**

3.4 Non-operating expenses

	2021	2020
Write-off of intercompany receivables	(2,058,479)	(202,223)
Total	**(2,058,479)**	**(202,223)**

3.5 Long-term liabilities from third parties

The Company has obtained and used in 2020 a credit facility granted by the Swiss Government, i.e, a zero interest bearing COVID-19 credit amounting to CHF 500,000.

4. Other information

4.1 Pension scheme liabilities

On March 31, 2021, there was no liability to the pension scheme (31.03.2020: CHF 39,454).

4.2 Full-time equivalents

The annual average number of full-time equivalents for the reporting year, as well as the previous year, did not exceed 250.

4.3 Assets pledged as guarantee for commitments of the company

Bank current accounts for an amount of CHF 1’202’351 are pledged in favour of the banks (31.03.2020 : CHF 967,024). Those pledges relate to performance guarantees (note 4.4).

4.4 Contingent liabilities

At year-end, the Company has provided performance guarantees for CHF 1,199,670 (31.03.2020 : CHF 751,111) in favour of clients.

4.5 Residual amount of leasing obligations

The maturity of leasing obligations which have a residual maturity of more than twelve months or which cannot be cancelled within the next twelve months is CHF 46,270 (31.03.2020 : CHF 156,648).

4.6 Significant events after the balance sheet date

There are no significant events after the balance sheet date which could impact the book value of the assets or liabilities or which should be disclosed here.

PROPOSED APPROPRIATION OF AVAILABLE EARNINGS

	2021 CHF
Accumulated losses	(8,204,067)
Profit for the year	9,455,855
Available earnings	**1,251,788**

The Board of Directors proposes to the General Meeting of Shareholders the following appropriation of available earnings:

Transfer to the general legal retained earnings	62,589

NOTES TO THE CORPORATE ACCOUNTS

General

The financial year will run from April 1st to March 31st.

Foundation

The company is seated in ‘s-Hertogenbosch, The Netherlands. The visiting address is the Maanplein 20, 2516 CK in The Hague, The Netherlands. LCC Network Services B.V. is registered atthe Chamber of Commerce under number 17145728.

The company is a private limited company where 100% of the shares are held by Tech Mahindra Limited as from 31st March 2021. Tech Mahindra Limited (incorporated in India) is the largest group in which the results of the Company are consolidated.

Application of Section 2, book 408 of the Netherlands Civil Code (BW)

Consolidation of the subsidiaries has not taken place based on the application of Section 2, book 408 of the Netherlands CMI Code (BW).

PRINCIPLES FOR THE VALUATION OF ASSETS AND LIABILITIES AND THE DETERMINATION OFTHE RESULT

General

The principles adopted for the valuation of assets and liabilities and determination of the result are based on the historical cost convention. Insofar as not stated otherwise, assets and liabilities are shown at nominal value. The income and expenses are accounted for the period to which they relate. All amounts are in euro.

The financial statements have been prepared in accordance with Title 9 Book 2 of the Netherlands CMI Code.

Foreign currencies

Assets and liabilities expressed in foreign currencies are converted into Euros at rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are converted at the rates approximating those in effect at the dates of the transactions. The resulting change differences are recognized in the profit and loss account.

Tangible fixed assets

Tangible fixed assets are valued at cost less straight-line depreciation based on the useful lives of the assets concerned. Book results arising from disposals or retirements are added to or charged against depreciation in the result. As of January 2010the company changed the method of depreciation into a fiscal compliant method (fiscal depreciation).

Financial fixed assets

The receivables on and loans to subsidiaries and associates are initially valued at its fair value, and subsequently valued at amortized costs, which is similar to the face value, after deducting any provisions if necessary.

Inventory

Work in progress

Work in progress is valued according to the ‘percentage of completion’ method, which includes directwages, material and external costs, as well as a mark-up for general and administrative expenses, excludingselling expenses. Results are allocated in proportion to the progress made. Foreseeable losses are taken into account.

Stock

Stock is valued at purchase value of the goods/products.

Accounts receivable

Receivables are carried at face value less an allowance for bad debts. Other receivables and receivables from group companies

The receivables are initially valued at its fair value, and subsequently valued at amortized costs, which is similar to the face value, after deducting any provisions if necessary.

Cash and bank

cash and bank are valued at nominal value and are unless stated otherwise fully available for the company.

Short term liabilities

Short term liabilities are valued at amortized costs. The short term liabilities are settied within one year unless stated otherwise.

Revenue accounting

The company records the revenue from sales to the net tumover if there is convincing evidence of a sales agreement, when delivery has taken place, the price has been agreed or can be determined,and there is reasonable certainty that the selling price is collectable. Normally, these criteria are satisfied at the moment the product or the service is delivered an acceptance has been obtained, if required.

Net sales

Net sales represent income from goods delivered and services rendered to third parties, less reductions and sales tax.

Operating expenses

calculation of expenses to be allocated to the operations is based on historical cost Corporate income tax

Corporate income tax is calculated over the result for financial statement purposes at the nominal rate, meaning that deferred taxation is taken into account Deferred tax receivables are only taken into account if realization may be reasonably assumed.

The use of estimates

During the preparation of the financial statements, the management must, in accordance with the general prevailing principles, make certain estimates and assumptions that co-determine the stated amounts. The actual results may deviate from these estimates.

Notes to the balance sheet

1. Tangible fixed assets

	€	€	€	€	€
Balance April 1, 2019	18.000	2.496.801	-38.983.516	-1.721.068	-38.189.783
Changes in 2019/ 2020			-2.219.008	497.939	-1.721.069
Result 2019/ 2020					
Balance as per March 31, 2020	**18.000**	**2.496.801**	**-38.983.516**	**-1.721.068**	**-38.189.783**

Issued share capital

The authorized capital of LCC Network Services B.V. amounts to € 90.000,- divided into 90.000 common shares with a par value of € 1,- each. As at December 31" ,2004, 18.000 shares have been subscribed and paid up.

Share premium

The share premium comprises the proceeds from the issue of shares insofar as these exceed the nominal amount of the shares (proceeds above par). In 2006 an amount of C 2.409.000,- was additionally paid in. In 2009 dividend was paid to the shareholders for an amount of € 591.753,- and in 2010 for an amount of € 450.000,-. In 2013 the share premium increased with the profit made on the selling of shares of subsidiary LCC North Central Europe B.V. to LCC Europe B.V. The full amount of the share premium reserve can be considered as free share premium as referred to in the 1964 Income Tax Act The share premium is the difference between the net asset value as per transaction date and the sale price as determined by the parent company in the US. No goodwill is recognized because this transaction is treated like a transaction within the group.

Retained earnings

The share-based compensation represents stock options granted to management of the company that is initiated and settled by a group company.

Undistributed result

In anticipation of the Annual General Meeting's adoption of the annual accounts, it is proposed that the net result after tax over the period April 1,2019 until March 31,2020, amounting to € 1.721.069,- negative, will be deducted from the undistributed result.

7. Loan group company

	31-03-2021	31-03-2020
	€	€
Loan LCC Europe B.V. (The Netherlands)		30.305.643

The interest rate of the loan is 6%. No repayment schedule is agreed, so therefore the loan is to be considered as a long term loan

8. Payables to group companies

Position relates to intercompany payables with a duration < 1year. No interest was calculated because of the short term character of the positions.

4 - ECONOMIC ACTIVITY CODE

Food Agriculture
001 001 Cereal crop
001 002 Growing of tubers and plantains
001 003 Growing vegetables
001 004 Growing seasoning plants
001 005 Fruit growing
001 006 Growing other food products

Industrial Agriculture and Exports
002 001 Growing sugar cane
002 002 Growing oil mill peanuts
002 003 Growing ground nuts for eating
002 004 Growing tobacco
002 005 Growing cotton
002 006 Growing wheat
002 007 Growing cocoa
002 008 Growing coffee
002 009 Growing bananas for export
002 010 Growing pineapple for export
002 011 Other industrial food crops
Livestock Raising and Hunting
003 001 Raising Cattle
003 002 Raising sheep, goats, horses
003 003 Raising chickens
003 004 Other livestock
003 005 Hunting
Tree Plantations, Logging
004 001 Tree plantations
004 002 Logging
Fishing and Aquaculture
005 001 Fishing

005 002 Other fisheries and aquaculture
Extractive Industries
006 001 Extraction of Hydrocarbons
006 002 Extraction of other products
Production of Meat and Fish
007 001 Production of meat and meat products
007 002 Production of fish and fish products
Grain Processing and Manufacturing of Starchy Products
008 000 Grain processing and manufacturing of starchy products
Transformation of coffee and cocoa
009 001 Transformation of coffee
009 002 Transformation of cocoa
Oilseed Industry
010 001 Crude oils and meals
010 002 Other fats
Bakeries, cake shops and Pasta food

011 001 Production of bread, biscuits and pastry
011 002 Production of pasta

Dairy Industries
012 000 Dairy Industries
Fruit and vegetable processing and manufacturing of other food products
013 001 Sugar manufacturing
013 002 Manufacturing of products based on fruits and vegetables
013 003 Manufacturing of other food products

Beverage Industry
014 001 Breweries and Malting Plants
014 002 Manufacturing of other alcoholic beverages
014 003 Production of Non-alcoholic and alcoholic beverages and mineral water

Tobacco Industry
015 000 Tobacco industry
Textile and clothing Industries
016 001 Textile Industries
016 002 Clothing Industries
Leather and footwear Industries
017 001Manufacture of leather and leather articles
017 002 Footwear manufacturing
Wood Industries
018 001 Sawing, planing and impregnation of wood
018 002 Wood panel manufacturing
018 003 Manufacture of assembled wood articles
Paper and cardboard Industries publishing and printing
019 001 Paper and cardboard Industries
019 002 Publishing, printing and reproduction
Oil Refining
020 000 Oil refining
Chemical Industry
021 001 Basic chemical industries
021 002 Manufacture of soaps, detergents and cleaning products
021 003 Manufacture of agro-chemical products

021 004 Pharmaceutical Industries
021 005 Manufacture of other chemical products
Rubber and Plastic Industries
022 001 Natural Rubber manufacturingFabrication du caoutchouc naturel
022 002 Rubber Industries
022 003 Manufacture of plastics
Manufacture of other non-mineral products, metal and construction materials
023 001 Glass Industries
023 002 Manufacture of mineral products for construction
023 003 Manufacture of other mineral and non-metallic products
Métallurgy and Metal working
024 001 Métallurgy
024 002 Metalworking
Manufacture of machines, equipment and electric appliances
025 001 Manufacture of machines and equipment
025 002 Manufacture of office machines
025 003 Manufacture of electrical appliances
Manufacture of audio-visual and communicationequipment and apparatuses ; Manufacture of medical and optical instruments and watchmaking
026 001 Manufacture of audiovisual and communication equipment and appliances
026 002 Manufacture of medical and optical instruments and watchworking
Manufacture of Transportation equipment
027 001 Manufacture of Road vehicules
027 002 Manufacture of other transport machines and equipment
Various Industries
028 001 Furniture manufacturing
028 002 Miscellaneous Industries
Production and distribution of water, electricity and gas
029 001 Production, transportation and distribution of electricity
029 002 Water collection, purification and distribution
029 003 Production and distribution of gas

Construction
030 001 Site Preparation and construction, of buildings or civil engineering works
030 002 Installation and finishing work
Trade
031 001 Sale of vehicles, accessories and fuel

031 002 Trade in unprocessed agricultural products and live animals
031 003 Other businesses
Repairs
032 001 Automobile maintenance and repair

032 002 Repair of personal household property

Hotels, Restaurants
033 001 Hotels
033 002 Bars and restaurants
Transport and Communication
034 001 Rail Transport
034 002 Road Transport with a driver

034 003 Water Transportation
034 004 Air Transport
034 005 Ancillary and auxiliary Services of transportation
Postal and telecommunication services
035 001 Postal
035 002 Télécommunications
Financial ActivitiesActivités financières
036 001 Financial Intermediation Services

036 002 Insurance (except Social Security)
036 003 Financial and insurance auxiliary services
Real Estate Activities
037 001 Rental of Real Estate
037 002 Other real estate services
Business Services
038 001 Rentals without operators
038 002 Computer Activities
038 003 Services rendered mainly to companies

Public Administration
039 001 General Administration, economic and social services
039 002 Services of public prerogative
039 003 Obligatory Social Security
Education
040 000 Education
Health and Social Work
Activities for people's health
041 002 Veterinarian activities
041 003 Social work
Community, social and personal Services
042 001 Sewerage, roads and wastewater and waste products management

042 002 Associative Activities
042 003 Recreational and cultural activities and all sports activities
042 004 Personal Services
042 005 Domestic Services
Financial Intermediation Services measured indirectly
043 000 Financial intermediation Services measured indirectly

Mr. Hrishikesh Pandit

COVID-19

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Outlook for the Current Year:

The Company is optimistic of increasing its local business in future.

Acknowledgments:

Your Directors thank the customers, suppliers, bankers, State and Federal Government Authorities and the shareholders for the cooperation and assistance received from them.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Tech Mahindra (Thailand) Limited

To the Shareholders of Tech Mahindra (Thailand) Limited

Opinion

I have audited the financial statements of Tech Mahindra (Thailand) Limited (the "Company"), which comprise the statement of financial position as at 31 March 2021, the statements of income and changes in equity for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2021 and its financial performance for the year then ended

in accordance with the Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Company in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRS for NPAEs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

The accompanying notes are an integral part of these financial statements.

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the

Thai language statutory financial statements, and were approved and authorized for issue by the director on 9 July 2021.

1 General information

Tech Mahindra (Thailand) Limited, the "Company", is incorporated in Thailand on August 26, 2005 and has its registered office at 54 BB Building, 13th Floor, Room 1304, Sukhumvit 21 Road (Asoke), Kwang Klongtoey Nua, Khet Wattana, Bangkok and the principal businesses of the Company are providing IT services and development for computer software.

2 Basis of preparation of the financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standard for Non-Publicly Accountable Entities (TFRS for NPAEs); guidelines promulgated by the Federation of Accounting Professions (TFAC). In addition, the Company has complied with Thai Financial Reporting Standard for Publicly Accountable Entities (TFRS for PAEs).

TFRS	Topic
TAS 12	Income Taxes

The financial statements are prepared and presented in Thai Baht. They are prepared on the historical cost basis except as stated in the accounting policies.

The preparation of financial statements in conformity with TFRS for NPAEs requires management to make judgements, estimates and assumptions that affect the application of the Company's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Going concern

As 31 March 2021, the Company has net loss of Baht 550.83 million for the year ended 31 March 2021 (2020: Baht 16.20 million) and, as of that date, the Company's current liabilities exceeded its current assets by Baht 384.13 million, deficit of Baht 545.84 million and capital deficiency of Baht 539.84 million. The condition indicates the existence of uncertainty which may cast doubt about the Company's ability to continue as a going concern. The Company's management, however, believes that the going concern basis of financial statement presentation is appropriate to prepare its financial statements since the Company's shareholders provided financial support to the Company and are major debtors of the Company. Moreover, the management believe that the Company will has sufficient working capital from its future operation to be used in their operations in the next 12 months from 31 March 2021. The financial statements do not include any adjustments relating to the recoverability and classification of the recorded assets amounts or to amounts and classification of liabilities that may be necessary if the Company is unable to continue as a going concern.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currency transactions

Transactions in foreign currencies are translated to Thai Baht at the foreign exchange rates ruling at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated to Thai Baht at the exchange rates at that date. Gains or losses arising on translation are recognised in the statement of income.

(b) Cash and cash equivalents

Cash and cash equivalents comprise cash balances.

(c) Trade, lease and other receivables

Trade and other receivables are stated at their invoice value less allowance for doubtful accounts.

Receivable under finance lease contracts are carried at outstanding amount, net of unearned interest income less allowance for doubtful accounts.

Unbilled trade accounts receivable represents the gross unbilled amount expected to be collected from customers for contract work performed to date. It is measured at cost plus profit recognised for the portion of work performed, less progress billings and recognised losses.

The allowance for doubtful accounts is provided at the estimated collection losses on receivables at the end of the year. Such estimates are assessed primarily on analysis of payment histories and future expectations of customer payments. Bad debts are written off when incurred.

(d) Leasehold improvement and equipment

Leasehold improvement and equipment are measured at cost less accumulated depreciation and losses on decline in value.

Cost includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalized borrowing costs. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of leasehold improvement and equipment have different useful lives, they are accounted for as separate items (major components) of leasehold improvement and equipment .

Any gains and losses on disposal of an item of leasehold improvement and equipment are determined by comparing the proceeds from disposal with the carrying amount of leasehold improvement and equipment are recognised in the statement of income.

Subsequent costs

The cost of replacing a part of an item of leasehold improvement and equipment are recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of leasehold improvement and equipment are recognised in the statement of income as incurred.

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value. Depreciation is charged to the statement of income on a straight-line basis over the estimated useful lives of each component of an item of leasehold improvement and equipment. The estimated useful lives are as follows:

Office equipment	2	years
Computer	3	years
Leasehold improvement	2	years

(e) Losses on decline in value

The carrying amounts of the Company's assets are reviewed at each reporting date to determine whether there is any indication of a permanent decline in value. If any such indication exists, the assets' recoverable amounts are estimated. A loss on decline in value is recognised if the carrying amount exceeds its recoverable amount. A loss on decline in value is recognised in the statement of income.

(f) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate method.

Provision for retirement benefits

Provision for retired benefits are recognised using the best estimate method at the reporting date.

The Company derecognises the provision when actual payment is made.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting the Company's obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(g) Revenue

Revenue excludes value added taxes and is arrived at after deduction of trade discounts.

Sale of goods

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there is continuing management involvement with the goods or there are significant uncertainties regarding recovery of the consideration due, associated costs or the probable return of goods.

Service contracts revenue

Services contract revenue includes the initial amount agreed in the contract plus any variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and can be measured reliably. As soon as the outcome of a service contract can be estimated reliably, contract revenue and expenses are recognised in the statement of income in proportion to the stage of completion of the contract.

The stage of completion is assessed based on the proportion of total labour hours incurred to date to the estimated total labour hours of each contract. When the outcome of a service contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. An expected loss on a contract is recognised immediately in the statement of income.

Other income

Interest and other income are recognised in the statement of income as it accrues.

(h) Operating lease

Payments made under operating leases are recognised on a straight-line basis over the term of the lease.

(i) Finance costs

Interest expenses and similar costs are recognised on accrual basis

(j) Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in the statements of income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax, the Company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Company believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Company to change its judgement regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the period that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but the Company intends to settle current tax liabilities and assets on a net basis or it is expected that tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilized. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans of the Company. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

INDEPENDENT AUDITORS' REPORT

No.; 00491/2.1005/AU.1/06/1214-2/1NII/2021

The Shareholders,
Board of Commissioners and Directors
PT Tech Mahindra Indonesia:

We have audited the accompanying financial statements of PT Tech Mahindra Indonesia, which comprise the statement of financial position as of 31 March 2021, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of PT Tech Mahindra Indonesia as of 31 March 2021, and its financial performance and its cash flows the year then ended, in accordance with Indonesia Financial Accounting Standards.

NOTES TO THE FINANCIAL STATEMENTS MARCH 31, 2021

1. GENERAL INFORMATION

PT Tech Mahindra Indonesia (the "Company") was established in the Republic of Indonesia in 2006. The Company commenced its commercial operations on May 1, 2006. The Company's head office is located in Cyber 2 Tower 17th Floor, JL. HR Rasuna Said Blok x5 Kav.13, Jakarta Selatan 12950, Indonesia.

The Company is currently engaged in providing Billing and Customer Care System Managed Services.

2. ADOPTION OF NEW AND REVISED STATEMENTS OF FINANCIAL ACCOUNTING STANDARDS ("PSAK") AND INTERPRETATIONS OF PSAK ("ISAK")

a. Amendments/improvements and interpretations to standards effective in the current year

In the current year, the Company has applied a number of amendments and an interpretation to PSAK that are relevant to its operations and effective for accounting period beginning on or after 1 January 2019.

The application of the ISAK 34, Uncertainty Over Income Tax Treatments has not resulted to material impact to disclosures or on the amounts recognized in the current and prior year financial statements.

b. Changes in accounting policies

(i) Statements of Financial Accounting Standards ("PSAK") which became applicable in 2020

- PSAK 71, Financial Instruments

The adoption of PSAK 71, mandates adherence with the newly amended PSAK 1, Presentation of Financial Statements, which requires impairment of financial assets to be presented separately in the statement of profit or loss and other comprehensive income instead of being classified as administrative expenses. Also, certain additional disclosures have been added to conform the 2020 information with the related amendments to PSAK 60, Financial Instruments: Disclosures.

i. Classification of financial assets

In accordance with PSAK 71, financial assets are classified in one of three categories based on the underlying business model by which a financial asset is managed and its contractual cash flow characteristics: measured at amortized cost, measured at fair value through other comprehensive income (FVOCI), or measured at fair value through profit or loss (FVTPL). The following table contrasts the original measurement categories under PSAK 55 and the new measurement categories under PSAK 71 for each of the Group's financial assets and financial liabilities as at 1 April 2020:

In millions of Rupiah	Original classification under PSAK 55	New classification under PSAK 71	Original carrying amount under PSAK 55	New carrying amount under PSAK 71
Financial assets				
Cash	Loans and receivables	Amortized cost	4,513,007	4,513,007
Account receivables	Loans and receivables	Amortized cost	3,608,921	3,608,921
Total financial assets			**8,121,928**	**8,121,928**
Financial liabilities				
Bank overdraft	Amortized cost	Amortized cost	560,855	560,855
Account payables	Amortized cost	Amortized cost	6,922,110	6,922,110
Total financial liabilities			**7,482,965**	**7,482,965**

ii. Impairment of financial assets

PSAK 71 replaced the "incurred loss" impairment model of PSAK 55 with the "expected credit loss" (ECL) impairment model. The new impairment model applies to all financial assets measured at amortized cost.

The Company has changed its accounting policy for financial instruments as disclosed in Note 3i. The adoption of PSAK 71 had no material effect on the Company's financial statements.

-PSAK 72, Revenue from Contracts with Customers

PSAK 72 is based on the principle of recognizing revenue when the control of goods or services is transferred to customers at the amount to which the entity expects to be entitled. Depending on whether certain criteria are met, revenue is recognized over time, in a manner that depicts the entity's performance, or at a point in time, when control of goods or services is transferred to the customer.

The adoption of PSAK 72 had no material effect on the Company's financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

a. Statement of compliance

The financial statements have been prepared in accordance with Indonesian Financial Accounting Standards.

b. The Company's directors approved the financial statements for issuance on 5 July 2021.

c. Basis of preparation

The financial statements have been prepared on the accrual basis using the historical cost concept, except where the accounting standards require fair value measurement.

d. Functional and presentation currency

The Company's functional currency is Indonesian Rupiah. The financial statements are presented in United States Dollar ("US Dollar/USD").

In preparing the financial statements of the Company, transactions in currencies other than its functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. The resulting gains or losses are credited or charged to profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognized in profit or loss in the period in which they arise.

e. Financial instruments

(i) Financial assets

Policy applicable from 1 January 2020 (PSAK 71)

On initial recognition, a financial asset is classified as measured at amortized cost; fair value through other comprehensive income ("FVOCI") – debt investment; FVOCI – equity investment; or, fair value through profit or loss ("FVTPL").

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

The financial assets that are measured at amortized cost consist of cash and account receivables. These financial assets are initially recognized at fair value plus directly attributable transaction costs, and subsequently are measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Gains or losses on derecognition of these financial assets are recognized in profit or loss.

Policy that was applicable before 1 January 2020 (PSAK 55)

The Company's financial assets comprise cash and account receivables, which are categorized as "Loans and receivables".

Financial assets that are categorized as loans and receivables are initially measured at fair value, plus any directly attributable transaction costs. Subsequent to initial measurement, they are carried at amortized cost, net of provision for impairment, if necessary. Amortized cost is measured by discounting the asset amounts using the effective interest rate, unless the effect of discounting would be insignificant. The effective interest rate is the rate at which the expected future cash flows are discounted on initial recognition in order to arrive at the net carrying amount. The interest amounts resulting from the application of discounting are recognized in profit or loss.

Financial liabilities are classified as either measured-at-amortized cost, or at FVTPL. A FVTPL financial liability is measured as such if it is classified as held-for-trading, if it is a derivative, or if it is designated as measured-at-FVTPL on initial recognition.

Bank overdraft and account payables are initially recognized at fair value plus transaction costs and subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Gains or losses on derecognition are also recognized in profit or loss.

(iii) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or when it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred: i.e. when control over the financial asset is relinquished.

In transactions where a financial assets is transferred but the risks and rewards associated with ownership are somehow retained the transferred asset is not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged, cancelled, or otherwise extinguished. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability, based on the modified terms, is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(v) Impairment

Policy applicable from 1 January 2020 (PSAK 71)

The Company recognizes loss allowances for expected credit loss ("ECL") on financial assets measured at amortized cost.

Measurement of ECLs

ECLs are a probability-weighted estimates of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. The Company measures loss allowances at an amount that reflects the lifetime ECL, except for cash in bank for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition, wherein the loss allowances are determined based on the 12-month ECL.

Loss allowances for trade and other receivables, and for contract assets that are measured at amortized cost, are measured at an amount that represents the lifetime ECL.

Policy that was applicable before 1 January 2020 (PSAK 55)

An impairment provision is recognized for financial assets that are categorized as loans and receivables when there is objective evidence that the Company will not be able to recover the carrying amounts according to the original terms of the instrument. The amount of the impairment loss is the difference between the carrying amount of the financial asset and the present value of its estimated future cash flows, discounted at the original effective interest rate. Changes in the impairment provision are recognized in profit or loss.

f. Leases

Policy applicable from 1 January 2020 (PSAK 73)

At inception of a contract, the Company determines if a contract is, or contains, a lease by considering whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for a consideration.

Company as a lessee

A contract conveys the right to control the use of an identified asset if all of the following conditions are meet:

- the contract involves the use of substantially all of the capacity of an identified asset that is physically distinct (as specified explicitly or implicitly in the contract). If the supplier has a substantive substitution right, then the asset cannot be considered as identifiable;
- the Company has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use; and
- the Company has the right to direct the use of the asset: i.e. it has decision-making rights that are most relevant to changing how and for what purpose the asset is used.

This policy is applied to contracts entered into, or changed, on or after 1 January 2020.

At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of fixed assets. In addition, the right-of-use asset is periodically reduced by impairment losses if any and adjusted for certain remeasurements (as described below) of the lease liability.

Company as a lessor

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies PSAK 72, Revenue from Customer Contracts, to allocate the consideration in the contract.

Policy that was applicable before 1 January 2020 (PSAK 30)

Leases in which the Company assumes substantially all the risks and rewards of ownership of the assets acquired are classified as "finance leases". Upon initial recognition, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the leased asset is accounted for in accordance with the accounting policy applicable to that asset. If there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

Leasing arrangements in which risks and rewards of ownership are not conveyed to the Company are categorized as "operating leases" and treated as an executory contract, wherein lease payments are recognized as expense over the lease term, and the underlying assets are not recognized in the statement of financial position

g. Revenue recognition

Policy applicable from 1 January 2020 (PSAK 72)

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as contract assets.

Revenue from fixed price maintenance contracts is recognized based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If invoicing is not consistent with value delivered, revenue is recognized as the services are performed. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognized on a straight-line basis over the specified period unless some other method better represents the manner in which services are performed.

Revenue on fixed price development contracts is recognized using the 'percentage of completion' method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Company does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the standalone statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

The solutions offered by the Company may include supply of third party equipment or software. In such cases, revenue for supply of such third party products are recorded at gross or net basis depending on whether the Company is acting as the principal or as an agent of the customer. The Company recognized gross amount of consideration as revenue when it is acting as a principal and net amount of consideration as revenue when it is acting as an agent.

Contracts assets are recognized when there is excess of revenue earned over billings on contracts.

Contract liability ("Unearned revenue") arises when there are billing in excess of revenue.

In arrangements for hardware and software implementation and integration, related services and maintenance services, the Company has applied the guidance in PSAK 72 by applying the revenue recognition criteria for each distinct performance obligation. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Company is unable to determine the standalone selling price, the Company uses the expected cost-plus margin approach in estimating the standalone selling price. Fixed price development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses where the customer obtains a 'right to use' the licenses is recognised at the time the license is made available to the customer. Revenue from licenses where the customer obtains a 'right to access' is recognized over the access period. The Company has applied the principles of PSAK 72 to account for revenues for these performance obligations.

Policy that was applicable before 1 January 2020 (PSAK 23)

Revenue from information technology services and business process outsourcing services include revenue earned from services rendered on 'time and material' basis, time bound fixe price engagements and fixed price development contracts.

h. Income tax

Income tax expense comprises current and deferred corporate income tax. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to items recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable or refundable on the taxable income or loss for the year, using tax rates substantively enacted at the reporting date, and includes true-up adjustments made to the previous years' tax provisions either to reconcile them with the income tax reported in annual tax returns, or to account for differences arising from tax assessments. Current tax payable or refundable is measured using the best estimate of the amount expected to be paid or received, taking into consideration the uncertainty associated with the complexity of tax regulations.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted as of the reporting date. This method also requires the recognition of future tax benefits, such as tax loss carry forwards, to the extent that realization of such benefits is probable.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profit will be available against which they can be used.

4. USE OF JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Critical Judgments in Applying Accounting Policies

In the process of applying the accounting policies described in Note 3, management has not made any critical judgment that has significant impact on the amounts recognized in the financial statements, apart from those involving estimates.

5. ACCOUNT RECEIVABLES

In US Dollar	31 March 2021	31 March 2020
Account receivables arising from revenue generating activities are from:		
Non-related parties	14,561,436	10,896,187
Related parties	5,633	47
	14,567,069	**10,896,234**
Allowance for impairment losses	(7,493,368)	(7,287,313)
	7,073,701	**3,608,921**

6. CLAIMS FOR TAX REFUND

In US Dollar	31 March 2021	31 March 2020
March 2017 corporate income tax ("CIT")	739,524	739,524
March 2019 CIT	539,467	718,790
Other tax articles	1,144,024	1,124,897
	2,423,015	**2,583,211**

On March 2017 CIT, in August 2018 the Company was deemed by the tax office an underpayment of IDR 7,707 million (equivalent to USD 389,270) instead of overpayment of USD 350,254. The Company disagreed with the assessment and in February 2020, has filed an appeal letter. The hearing is ongoing.

On March 2019 CIT, in August 2020 the Company was deemed by the tax office an overpayment of USD 179,223 instead of overpayment of USD 718,790. The Company compensated USD 158,812 to tax payable and write off the remaining USD 20,511 as expense. In December 2020, the Company filed an objection for the remaining unclaimed overpayment amounted to USD 539,467. The tax audit is ongoing.

Other tax articles represent various additional tax assessments totaling IDR 18,411 million (equivalent to USD 1,274,647) deemed by the tax office on VAT and income tax article 26. The Company disagreed with the assessment and in February 2020 has filed an appeal letter. The hearing is ongoing.

In August 2020, the Company was deemed by the tax office for the additional various tax assessments totaling IDR 12,465 million (equivalent to USD 830,978) and filed an objection. The tax audit is ongoing.

7. ACCOUNT PAYABLES

In US Dollar	31 March 2021	31 March 2020
Payables arising from purchase of hardware, software and project related services are to:		
Non-related parties	448,518	1,499,400
Related parties	7,756,366	1,311,153
Sub-contracting and other expenses	5,867,728	4,111,557
	14,072,612	**6,922,110**

8. SHARE CAPITAL

The Company's authorized, issued and paid-up share capital amounted to USD 500,000 (500,000 shares at nominal value of USD 1 per share). The Company's shareholding as of 31 March 2021 and 2020 was as follows:

Shareholders	Number of shares	%	Nominal value
Tech Mahindra Limited, India	499,000	99.80	499,000
Mr. Manoj Bhat	1,000	0.20	1,000
	500,000	**100.00**	**500,000**

The Company has leased certain IT assets to a customer.

9. REVENUE

The Company generates revenue from the sale of hardware and software and provision of maintenance and other services.

In US Dollar	Year ended 31 March	
	2021	2020
Fixed-price development	3,419,711	3,394,635
Time and material	3,196,391	2,559,348
Fixed-price maintenance	34,734,297	17,441,987
	41,350,399	**23,395,970**

In US Dollar	Year ended 31 March	
	2021	2020
Major products/service	26,137,856	17,321,520
Rendering of services transferred over time	15,212,543	6,074,450
Sale of hardware/software transferred at a point in time	**41,350,399**	**23,395,970**

The contract assets primarily relate to the Company's right for consideration for work completed but not billed at the reporting date for its service. The following table provide information about contract assets from contracts with customers:

In US Dollar	Year ended 31 March	
	2021	2020
Beginning balance	4,431,754	4,726,112
Recognized as revenue	6,802,758	4,431,754
Transferred to receivables	(4,431,754)	(4,726,112)
Ending balance	**6,802,758**	**4,431,754**

The contract liabilities primarily relate to the advance consideration received from customers for periodic maintenance service package, for which revenue is recognized over time. This will be recognized as revenue upon performance of the services, which is expected to occur over the next 3 years. The movement in contract liabilities are as follows:

In US Dollar	Year ended 31 March	
	2021	2020
Beginning balance	325,150	452,153
Addition during the year	529,863	325,150
Recognized as revenue during the year	(325,150)	(452,153)
Ending balance	**529,863**	**325,150**

10. COST OF REVENUE

This account represents the costs incurred in developing the billing and customer care system, which consist of hardware, software and services.

11. OPERATING EXPENSES

In US Dollar	Year ended 31 March	
	2021	2020
Employees' salaries and compensations	6,590,001	6,587,149
Tax penalties	982,907	1,949,903
Professional fees	558,036	670,337
Telecommunication	315,018	76,810
Travel	216,310	301,719
General office expenses	166,048	159,323
Insurance	112,661	100,381
Recruitment	75,411	41,530
Depreciation	53,295	59,687
Bank charges	36,872	40,778
Entertainment expense	12,753	107,833
Printing and stationery	1,458	2,886
Conveyance	317	4,829
Other	49,425	20,474
	9,170,512	**10,123,639**

12. INCOME TAX

Provision for impairment loss on account receivables	1,906,914	(441,980)	-	1,464,934	(1,417)	-	1,463,517
	2,013,313	**(456,108)**	**-**	**1,557,205**	**57,407**	**(21,087)**	**1,593,525**

Under the taxation laws of Indonesia, the Company submits tax returns on the basis of self-assessment. The tax authorities may assess or amend taxes within the statute of limitations, under prevailing regulations.

The Company's tax positions may be challenged by the tax authorities. The Company's tax positions are formed on sound technical basis, in compliance with the tax regulations. Accordingly, management has assessed that the outstanding refundable taxes can be recovered, and the accruals for potential income tax liabilities is not necessary. This assessment relies on estimates and assumptions and may involve judgment about future events. New information may become available that causes management to change its judgment. Such changes will impact tax expense in the period in which such determination is made.

Pursuant to Law No. 2/2020, the corporate income tax rate is reduced from the previous statutory rate of 25% to 22% for 2020 and 2021, and to 20% for 2022 onwards (25% was the applied statutory tax rate in 2019).

13. LEASE RECEIVABLES

The Company has given hardware and software on finance lease. The transaction pertains to purchase of assets from its customer and lease back with lease amount fair valued at IDR 100,123 million (equivalent to USD 6,895,564). The lease period is 7 years from February 2020 to January 2027 and is discounted using an interest rate of 6%. As per the arrangement, on termination event or on closure of contract, Customer will buy the acquired assets at the unamortized value at the time of such event. There is no collateral pledged in this transaction. The lease receivables as at reporting dates are as follows:

In US Dollar	**31 March 2021**
Minimum lease receivables	
- Less than one year	1,863,469
- One to five years	4,085,726
	5,949,195
Present value of minimum lease receivables	
- Less than one year	1,996,760
- One to five years	3,622,554
	5,619,314

c. Total remuneration incurred by the Company for its key management personnel during the years ended 31 March 2021 and 2020 are USD 291,763 and USD 292,790 respectively.

15. FINANCE INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Financial instruments

The Company's financial assets and liabilities are expected to be realized or settled in the near term. Therefore, their carrying amounts approximate their fair values.

Financial risk management

The main risk arising from the Company's financial instruments are market risk, credit risk and liquidity risk.

i. Market risk management

The Company's market risk is limited to the financial risk of changes in foreign currency rates. Mainly transaction in foreign currency rate was settled in short-term, except for non-trade transaction with related parties. Based on these, management considers that the Company's exposure to market risk is minimal.

ii. Credit risk

Credit risk is the risk of financial loss in the event that a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk principally arises from trade receivables from customers.

The carrying amounts of financial assets represent the maximum credit exposure.

Trade receivables and contract assets

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The Company minimizes its exposure to credit risk of trade receivables and contract assets by assessing and monitoring the credit worthiness of customers. The exposure is also further limited by mandating payment terms of no longer than 60 days.

The Company's most significant customer an Indonesian telecommunications service provider, accounts for USD 3.55 million of the trade receivables and contract assets carrying amount at 31 March 2021 (31 March 2020: USD 3.3 million).

An analysis of the credit quality of trade receivables and contract assets is summarized below:

In US Dollar	31 March	
	2021	2020
Not past due	9,437,214	2,170,941
Less than 90 days past due	3,186,165	443,962
91 days to 1 year past due	995,202	993,971
1 year and above past due	257,877	-
	13,876,459	**3,608,874**

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets as at 31 March 2021:

In US Dollar	31 March 2021		
	Weighted average loss rate	Gross carrying amount	Loss allowance
Not past due	1%	9,540,437	(103,222)
Less than 90 days past due	3%	3,284,167	(98,002)
91 days to 1 year past due	16%	1,190,277	(195,074)
1 year and above past due	96%	7,354,946	(7,097,070)
		21,369,827	**(7,493,368)**

Comparative amounts for 2019 represent the allowance account for impairment losses under PSAK 55. The movement in the allowance for impairment in respect of trade receivables and contract assets during the year was as follows:

In US Dollar	31 March	
	2021	2020
Balance at 1 April per PSAK 55	7,287,313	7,590,310
Adjustment on initial application of PSAK 71	-	-
Balance at 1 April per PSAK 71	7,287,313	7,590,310
Amounts written off	(259,525)	-
Net remeasurement of loss allowance	465,580	(302,997)
Balance at 31 March	**7,493,368**	**7,287,313**

Cash in banks

The Company's cash in banks are deposited at reputable banks that are subject to tight regulations, therefore, the exposure to loss is minimized.

iii. Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company manages liquidity risk by maintaining adequate reserves, monitoring forecast and actual cash flows, and matching the maturity profiles of financial assets and liabilities.

The following are the contractual maturities of financial liabilities:

In US Dollar	Carrying amount	Contractual cash flows within 1 year
31 March 2021		
Account payables	14,072,613	14,072,613
31 March 2020		
Bank overdraft	560,855	560,855
Account payables	6,922,110	6,922,110
	7,482,965	**7,482,965**

Capital risk management

The Company manages capital risk to ensure that it will be able to continue as going concern, in addition to maximizing the profits of the shareholders through the optimization of the balance of debt and equity.

Management periodically reviews the Company's capital structure. As part of this review, management considers the cost of capital and related risk.

16. RECLASSIFICATION OF ACCOUNTS

Certain accounts in financial statements for the year ended 31 March 2020 have been reclassified to conform with the presentation of accounts in the financial statements for the year ended 31 March 2021. A comparison of the amounts as previously reported and as reclassified for the year ended 31 March 2020 is as follows:

In thousands of Rupiah	As previously reported	Reclassification	As reclassified
Statement of profit or loss and other			
Comprehensive income			
Operating expenses	(9,554,140)	(569,499)	(10,123,639)
Income tax expense	(2,391,855)	569,499	(1,822,356)

The reclassification did not affect the total assets, total liabilities, total operating, investing and financing cash flows as of and for the year ended 31 March 2020 as previously reported.

STATEMENT OF DIRECTORS' RESPONSIBILITIES FOR THE YEAR ENDED 31 MARCH 2021

The Companies and Allied Matters Act 2020 requires the Directors to prepare financial statements for each financial year that give a true and fair view of the state of financial affairs of the company at the end of each financial year and its profit or loss. The responsibilities include ensuring that the company:

- Keeps proper accounting records that disclose with accuracy, the financial position of the company and comply with the requirement of the Companies and Allied Matters Act;
- Establishes adequate internal controls to safeguard its assets and to prevent and detect fraud and other irregularities; and
- Prepares its financial statements using suitable accounting policies supported by reasonable and prudent judgements and estimates that are consistently applied.

The Directors accept responsibility for the interim financial statements which have been prepared using appropriate accounting policies supported by reasonable and prudent judgements and estimates in conformity with the International Financial Reporting Standards (IFRS) and the Companies and Allied Matters Act 2020.

The Directors are of the opinion that the financial statements give a true and fair view of the state of the financial affairs of the company and of its profit or loss. The Directors further accept responsibility for the maintenance of accounting records that may be relied upon in the preparation of financial statements as well as adequate systems of internal financial control.

Nothing has come to the attention of the Directors to indicate that the company will not remain a going concern for at least twelve months from the date of this statement.

Chief (Mrs.) Faidat Oreagba	**Mr. Ayan Chatterjee**

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Tech Mahindra (Nigeria) Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Tech Mahindra Nigeria Limited (the Company), which comprise the statement of financial position as at 31 March 2021, and the Statement of profit or loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs), the Financial Reporting Council of Nigeria Act No. 6, 2011 and the provision of the Companies and Allied Matters Act 2020.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2.1 in the financial statements, which indicate that the Company had an accumulated loss of ₦ 4,587,626,451 as at 31 March 2021 and as of that date, the Company's total liabilities exceeded its total assets by ₦ 4,434,568,425. As stated in Note 2.1, these events or conditions, along with other matters as set forth in Note 2.1, indicate that a material uncertainty exists that may cast doubt on the Company's ability to continue as going concern. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv) Conclude on the appropriateness of management's use of the going concern of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v) Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transaction and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The Companies and Allied Matters Act 2020 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

ii) In our opinion, proper books of account have been kept by the company; and

iii) The Company's Statement of Financial Position and Statement profit or loss are in agreement with the books of account.

The notes on pages 1552 to 1568 form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 Nature of Operations

The principal activity of the company is to provide global solution on information technology to various sector of the economy. It is engaged in directing, operating, managing, investing in or provide telecommunication, networking, communication, internet information and other information technology related services.

2 General Information, statement of compliance with IFRS and going concern assumption

The company was incorporated in Nigeria under the Companies and Allied Matters Act 2020 as a Private Limited Liability Company on 18 August 2009. It commenced full operation in January 2011. Its initial authorized share capital was 153,790,000 ordinary shares of N1.00. The company is wholly owned by Tech Mahindra India .

The financial statements of the company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The company's audited balances for the year under review are comparable with the prior year balances in all aspects.

2.1 Going Concern

We draw attention to the fact that the financial statements of Tech Mahindra Nigeria Limited for the year ended 31 March 2021 have the below concern indicators which might pose as a threat to the company's ability to continue as a going concern. We noted that;

- Presents a retained loss of ₦4,587,626,451
- Had a net current liability of ₦4,591,186,076
- Had a net liability position of ₦4,434,586,425

Management is however of the opinion that the going concern status of the company is not threatened and it is appropriate to prepare the financial statements on a going concern basis and hereby confirm specific assessment of the company's ability to continue as a going concern based on the following;

- The company will have sufficient funds, through funding from its immediate parent company (Tech Mahindra Limited India) to meet its liabilities and there is no indication that they will withdraw their support to the company.
- It is the intention of the parent company (Tech Mahindra Limited India) to provide any business supports, including financial support for the ordinary course of business whenever necessary.

To the extent the events and conditions are assessed, there were no significant doubts on the company's ability to continue and as such no material uncertainties exist. Consequently, they financial statements have been prepared under the assumption that the company operates on a going concern basis.

The financial statements for the year ended 31 March 2021 (including comparatives) were approved and authorised for issue by the board of directors of Tech Mahindra Nigeria Limited on 22 June 2021.

3 New or revised standards or interpretations

3.1 New standards adopted as at 1st April 2020

Some accounting pronouncements which have become effective from 1 April 2020 and have therefore been adopted do not have a significant impact on the company's financial results or position

3.1.1 Definition of a Business (Amendments to IFRS 3)

The IASB has issued 'Definition of a Business (Amendments to IFRS 3)' aimed at resolving the difficulties that arise when an entity determines whether it has acquired a business or a company of assets. The amendments are effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2020.

Changes to the Definition of a Business (Amendments to IFRS 3)

The amendments in Definition of a Business (Amendments to IFRS 3) are changes to Appendix A Defined terms, the application guidance, and the illustrative examples of IFRS 3 only. They:

* clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs;
* narrow the definitions of a business and of outputs by focusing on goods and services provided to customers and by removing the reference to an ability to reduce costs;

* add guidance and illustrative examples to help entities assess whether a substantive process has been acquired;
* remove the assessment of whether market participants are capable of replacing any missing inputs or processes and continuing to produce outputs; and
* add an optional concentration test that permits a simplified assessment of whether an acquired set of activities and assets is not a business.

3.2.3 Definition of Material (Amendments to IAS 1 and IAS 8)

The International Accounting Standards Board (IASB) has issued 'Definition of Material (Amendments to IAS 1 and IAS 8)' to clarify the definition of 'material' and to align the definition used in the Conceptual Framework and the standards themselves.

Changes and reasoning behind the changes

The changes in Definition of Material (Amendments to IAS 1 and IAS 8) all relate to a revised definition of 'material' which is quoted below from the final amendments:

^ Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.

Three new aspects of the new definition should especially be noted:

* Obscuring. The existing definition only focused on omitting or misstating information, however, the Board concluded that obscuring material information with information that can be omitted can have a similar effect. Although the term obscuring is new in the definition, it was already part of IAS 1 (IAS 1.30A).
* Could reasonably be expected to influence. The existing definition referred to 'could influence' which the Board felt might be understood as requiring too much information as almost anything 'could' influence the decisions of some users even if the possibility is remote.
* Primary users. The existing definition referred only to 'users' which again the Board feared might be understood too broadly as requiring to consider all possible users of financial statements when deciding what information to disclose.

Other Standards and amendments that are effective for the first time in 2020 (for an entity with a 31 March 2020 year-end) and could be applicable to the company are

- Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)
- Amendments to Refences to the Conceptual Framework (Various Standards)
- COVID-19 Rent Related Concessions (Amendments to IFRS 16)

These amendments do not have a significant impact on these Financial Statements and therefore the disclosures have not been made.

3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the company.

Other Standards and amendments that are not yet effective and have not been adopted early by the company include:

Standards

- IFRS 17 Insurance Contracts
- Amendments to IFRS 17 Insurance Contracts (Amendments to IFRS 17 and IFRS 4)
- References to the Conceptual Framework
- Proceeds before Intended Use (Amendments to IAS 16)
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)
- Annual Improvements to IFRS Standards 2018-2020 Cycle (Amendments to IFRS 1, IFRS 9, IFRS 16, IAS 41)
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1)

These amendments are not expected to have a significant impact on the financial statements in the period of initial application and therefore the disclosures have not been made.

3.2.1 IFRS 17 - Insurance Contracts

IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. The objective of IFRS 17 is to ensure that an entity provides relevant information that faithfully represents those contracts. This information gives a basis for users of financial statements to assess the effect that insurance contracts have on the entity's financial position, financial performance and cash flows. IFRS 17 was issued in May 2017 and applies to annual reporting periods beginning on or after 1 January 2021.

4 Significant Accounting Policies

4.1 Basis of preparation

The company's financial statements have been prepared on an accrual basis and under the historical cost convention. Monetary amounts are expressed in Nigerian currency (₦).

4.2 Foreign currency translation

Functional and presentation currency

The financial statements are presented in Nigerian naira (₦), which is also the functional currency of all the companies within the company.

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency of the respective entities, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the remeasurement of monetary items denominated in foreign currency at year-end exchange rates are recognised in profit or loss.

Non-monetary items are not retranslated at year-end and are measured at historical cost (translated using the exchange rates at the transaction date), except for non-monetary items measured at fair value which are translated using the exchange rates at the date when fair value was determined.

Foreign operations

In the company's financial statements, all assets, liabilities and transactions with functional currencies other than the Naira are translated into Naira upon consolidation. The functional currencies of entities within the company have remained unchanged during the reporting period.

4.3 Revenue

Revenue arises mainly from on-site/offshore services and hardware/software system services.

To determine whether to recognise revenue, the company follows a 5-step process:

1. - Identifying the contract with a customer
2. - Identifying the performance obligations
3. - Determining the transaction price
4. - Allocating the transaction price to the performance obligations
5. - Recognising revenue when/as performance obligation(s) are satisfied.

The company often enters into transactions involving a range of the company's services. In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices. The transaction price for a contract excludes any amounts collected on behalf of third parties.

Revenue is recognised either at a point in time or over time, when (or as) the company satisfies performance obligations by transferring the promised goods or services to its customers.

The company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the company satisfies a performance obligation before it receives the consideration, the company recognises either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

4.3.1 Onsite and offshore revenue

The entity's revenue is derived from the provision of onsite and offshore services to customers, majorly corporate bodies. Irrespective of the type of services, onsite or offshore services rendered are all categorised as revenue. Revenue is recognized upon completion of project. In some cases, if work is monthly for a fixed period, revenue is recognised monthly as it is due. Once the percentage of completion is received, the project revenue is updated monthly for a fixed period.

4.4 Operating expenses

Operating expenses are recognised in profit or loss upon utilization of the service or as incurred. Expenditure for warranties is recognised when the company incurs an obligation, which is typically when the related services are rendered.

4.5 Earnings Per Share, Interests and dividends

Basic earnings per share have been calculated using the profit attributable to shareholders of the parent company as the numerator, i.e. no adjustments to profit were necessary in 2020 or 2019. Interest income and expenses are reported on an accrual basis using the effective interest method. Dividends, other than those from investments in associates, are recognised at the time the right to receive payment is established.

4.6 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

4.7 Property, plant and equipment

Land

Land held for use in production or administration is stated at revalued amount. As no finite useful life for land can be determined, related carrying amounts are not depreciated.

Buildings, IT equipment and other equipment

Buildings, IT equipment and other equipment (comprising fittings & furniture, plants & machinery, vehicle & laboratory equipment and fire fighting equipment) are initially recognised at acquisition cost, including any costs directly attributable to bringing the assets to the location and condition necessary for them to be capable of operating in the manner intended by the company’s management. Buildings, IT equipment and other equipment are subsequently measured at revalued amount and cost less accumulated depreciation and impairment losses.

Depreciation is recognised on a straight-line basis to write down the revalued amount and cost less accumulated depreciation of buildings, computer and other equipment. The following useful lives are applied:

Motor Vehicles	3 - 5 years
Computer Equipment	3 years
Furniture and Fittings	5 - 10 years
Plant and Machinery	5 - 10 years

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss within other income or other expenses.

Impairment testing of property, plant and equipment

For impairment assessment purposes, assets are companyed at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level.

An impairment loss is recognised for the amount by which the asset’s (or cash-generating unit’s) carrying amount exceeds its recoverable amount, which is the higher of fair value less costs of disposal and value-in-use.

All assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment loss is reversed if the asset’s or cash-generating unit’s recoverable amount exceeds its carrying amount.

4.8 Financial instruments

4.8.1 Recognition, and derecognition

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

4.8.2 Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with IFRS 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable).

Financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

In the periods presented, the corporation does not have any financial assets categorised as FVOCI.

The classification is determined by both:

* the entity's business model for managing the financial asset
* the contractual cash flow characteristics of the financial asset.

All revenue and expenses relating to financial assets that are recognised in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

4.8.3 Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets are measured at amortised cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding

After initial recognition, these are measured at amortised cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply (see below).

The category also contains an equity investment. The company accounts for the investment at FVTPL and did not make the irrevocable election to account for the investment in unquoted securities and listed equity securities at fair value through other comprehensive income (FVOCI). The equity investment in unquoted securities was measured at cost less any impairment charges in the comparative period under IAS 39, as it was determined that its fair value could not be estimated reliably. In the current financial year, the fair value was determined in line with the requirements of IFRS 9, which does not allow for measurement at cost.

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

Financial assets at fair value through other comprehensive income (FVOCI)

The company accounts for financial assets at FVOCI, if the assets meet the following conditions:

- they are held under a business model whose objective it is "hold to collect" the associated cash flows and sell and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Any gains or losses recognised in other comprehensive income (OCI) will be recycled upon derecognition of the asset.

4.8.4 Impairment of financial assets

IFRS 9's impairment requirements use forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. Instruments within the scope of the requirements included loans and other debt-type financial assets measured at amortised cost and FVOCI, trade receivables, contract assets recognised and measured under IFRS 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

The company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').

'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second category. Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

Trade and other receivables and contract assets

The company makes use of a simplified approach in accounting for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the company uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

The company assess impairment of trade receivables on a collective basis as they possess shared credit risk characteristics they have been companyed based on the days past due.

4.8.5 Classification and measurement of financial liabilities

The company's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the company designated a financial liability at fair value through profit or loss.

Subsequently, financial liabilities are measured at amortised cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognised in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

4.9 Income taxes

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Deferred income taxes are calculated using the balance sheet liability method.

Deferred tax assets are recognised to the extent that it is probable that the underlying tax loss or deductible temporary difference will be utilized against future taxable income. This is assessed based on the company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss or credit.

Deferred tax liabilities are generally recognised in full, although IAS 12 'Income Taxes' specifies limited exemptions. As a result of these exemptions the company does not recognize deferred tax on temporary differences relating to goodwill, or to its investments in subsidiaries.

4.10 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments maturing within 90 days from the date of acquisition that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

4.11 Non-current assets and liabilities classified as held for sale and discontinued operations

Non-current assets classified as held for sale are presented separately and measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. However, some held for sale assets such as financial assets or deferred tax assets, continue to be measured in accordance with the company's relevant accounting policy for those assets. Once classified as held for sale, the assets are not subject to depreciation or amortisation.

Any profit or loss arising from the sale of a discontinued operation or its remeasurement to fair value less costs to sell is presented as part of a single line item, profit or loss from discontinued operations

4.12 Equity and reserves

Share capital represents the nominal (par) value of shares that have been issued.

Retained earnings include all current and prior period retained profits and share-based employee remuneration.

All transactions with owners of the parent are recorded separately within equity.

4.13 Post-employment benefits and short-term employee benefits

Post-employment benefit plans

The company provides post-employment benefits through various defined contribution and defined benefit plans.

Defined contribution plans

The company pays fixed contributions into independent entities in relation to several state plans and insurances for individual employees. The company has no legal or constructive obligations to pay contributions in addition to its fixed contributions, which are recognised as an expense in the period that related employee services are received.

Defined benefit plans

Under the company's defined benefit plans, the amount of pension benefit that an employee will receive on retirement is defined by reference to the employee's length of service and final salary. The legal obligation for any benefits remains with the company, even if plan assets for funding the defined benefit plan have been set aside. Plan assets may include assets specifically designated to a long-term benefit fund as well as qualifying insurance policies.

The liability recognised in the statement of financial position for defined benefit plans is the present value of the defined benefit obligation (DBO) at the reporting date less the fair value of plan assets.

Management estimates the DBO annually with the assistance of independent actuaries. This is based on standard rates of inflation, salary growth rate and mortality. Discount factors are determined close to each year-end by reference to high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating the terms of the related pension liability.

Service cost on the company's defined benefit plan is included in employee benefits expense. Employee contributions, all of which are independent of the number of years of service, are treated as a reduction of service cost. Net interest expense on the net defined benefit liability is included in finance costs. Gains and losses resulting from remeasurements of the net defined benefit liability are included in other comprehensive income and are not reclassified to profit or loss in subsequent periods.

Short-term employee benefits

Short-term employee benefits, including holiday entitlement, are current liabilities included in pension and other employee obligations, measured at the undiscounted amount that the company expects to pay as a result of the unused entitlement.

4.14 Provisions, contingent assets and contingent liabilities

Provisions for product warranties, legal disputes, onerous contracts or other claims are recognised when the company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of economic resources will be required from the company and amounts can be estimated reliably. The timing or amount of the outflow may still be uncertain.

Restructuring provisions are recognised only if a detailed formal plan for the restructuring exists and management has either communicated the plan's main features to those affected or started implementation. Provisions are not recognised for future operating losses.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the company is virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

No liability is recognised if an outflow of economic resources as a result of present obligations is not probable. Such situations are disclosed as contingent liabilities unless the outflow of resources is remote.

5 Significant management judgement in applying accounting policies and estimation uncertainty

When preparing the financial statements, management makes a number of judgements, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

5.1 Significant management judgements

The following are the judgements made by management in applying the accounting policies of the company that have the most significant effect on the financial statements.

5.1.1 Recognition of deferred tax assets

The extent to which deferred tax assets can be recognised is based on an assessment of the probability that future taxable income will be available against which the deductible temporary differences and tax loss carry-forwards can be utilised.

5.1.2 Estimation uncertainty

Information about estimates and assumptions that may have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate. In 2019, the company would recognise an impairment loss on goodwill if there are indications.

Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technological obsolescence that may change the utility of certain software and computer equipment.

Inventories

Management estimates the net realisable values of inventories, taking into account the most reliable evidence available at each reporting date. The future realisation of these inventories may be affected by market-driven changes that may reduce future selling prices.

Defined benefit obligation (DBO)

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurement

Management uses valuation techniques to determine the fair value of financial instruments (where active market quotes are not available) and non-financial assets. This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible but this is not always available. In that case, management uses the best information available. Estimated fair values may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

6 Financial Risk Management

6.1 Introduction

The company uses its financial skills to provide competitive product pricing and delivery to a broad range of customers.

Risk Management is essential to help ensure business sustainability thereby providing customers and the shareholders with a long-term value proposition.

Key elements of risk management are:

- Strong corporate governance including relevant and reliable management information and internal control processes;
- Ensuring significant and relevant skills and services are available consistently to the company;
- Influencing the business and environment by being active participants in the relevant regulatory and business forums; and
- Keeping abreast of technology and consumer trends and investing capital and resources where required.

The overall company focus within an appropriate risk framework is to give value to the customers through effective and efficient execution of transactions.

The board of directors acknowledges its responsibility for establishing, monitoring and communicating appropriate risk and control policies.

The company has exposure to significant risks which are categorised as follows:

(i) Regulatory (capital adequacy, legal, accounting and taxation);

(ii) Business environment (reputation and strategic);

(iii) Operational (people, information technology and internal control processes);

(iv) Market (equity prices, interest rate and currency); and

(v) Liquidity

6.2 Detailed discussion of significant risks

6.2.1 Regulatory risk

Regulatory risk is the risk arising from a change in regulations in any legal, taxation and accounting pronouncements or specific industry that pertain to the business of the company. In order to manage this risk, the company is an active participant in the petroleum industry and engages in discussions with policy makers and regulators.

6.2.2 Legal risk

Legal risk is the risk that the company will be exposed to contractual obligations which have not been provided for.

The company has a policy of ensuring all contractual obligations are documented and appropriately evidenced to agreements with the relevant parties to the contract.

All significant contracted claims are reviewed by independent legal resources and amounts are provided for if there is consensus as to any possible exposure. At 31 March 2021, the directors are not aware of any significant obligation not provided for.

6.2.3 Taxation risk

Taxation risk is the risk of suffering a loss, financial or otherwise, as a result of an incorrect interpretation and application of taxation legislation or due to the impact of new taxation legislation on existing products.

Taxation risk occurs in the following key areas:

- Transactional risk;
- Operational risk;
- Compliance risk; and
- Financial accounting risk.

- **Transactional risk**

  The risk which concerns specific transactions entered into by the company, including restructuring projects and reorganisations.

- **Operational risk**

  The underlying risks of applying tax laws, regulations and decisions to the day-to-day business operations of the company.

- **Compliance risk**

  The risk associated with meeting the company's statutory obligations.

- **Financial accounting risk**

  The risk relates to the inadequacy of proper internal controls over financial reporting, including tax provisioning.

In managing the company's taxation risk, the company tax policy is as follows:

The company will fulfil its responsibilities under tax law in each of the jurisdictions in which it operates, whether in relation to compliance, planning or client service matters. Tax law includes all responsibilities which the company may have in relation to company taxes, personal taxes, capital gains taxes, indirect taxes and tax administration.

Compliance with this policy is aimed at ensuring that:

- All taxes due by the company are correctly identified, calculated, paid and accounted for in accordance with the relevant tax legislation;
- The company continually reviews its existing operations and planned operations in this context; and
- The company ensures that, where clients participate in company products, these clients are either aware of the probably tax consequences, or are advised to consult with independent professionals to assess these consequences, or both.

The identification and management of tax risk is the primary objective of the company tax function, and this objective is achieved through the application of a formulated tax risk approach, which measures the fulfilment of tax responsibilities against the specific requirements of each category of tax to which the company is exposed, in the context of the various types of activities the company conducts.

6.2.4 Accounting risk

Accounting risk is the risk that the company fails to explain the current events of the business in the financial statements.

Accounting risk can arise from the failure of management to:

- Maintain proper books and records, accounting system and to have proper accounting policies;
- Establish proper internal accounting controls;
- Prepare periodic financial statements that reflect an accurate financial position; and
- Be transparent and fully disclose all important and relevant matters.

Measures to control accounting risk are the use of proper accounting systems, books and records based on proper accounting policies as well as the establishment of proper internal accounting controls. Proposed accounting changes are researched by accounting resources, and if required external resources, to identify and advise on any material impact on the company.

Financial statements are prepared in a transparent manner that fully discloses all important and relevant matters as well as accurately reflecting the financial position, results and cash flows of the company.

6.3 Business environment

6.3.1 Reputational risk

Reputational risk is the risk of loss caused by a decline in the reputation of the company or any of its specific business units from the perspective of its stakeholders, shareholders, customers, staff, business partners or the general public.

Reputational risk can both cause and result from losses in all risk categories such as market or credit risk.

6.3.2 Strategic risk

Strategic risk is the risk of an unexpected negative change in the company value, arising from the adverse effect of executive decisions on both business strategies and their implementation.

This risk is a function of the compatibility between strategic goals, the business strategies developed to achieve those goals and the resources deployed to achieve those goals. Strategic risk also includes the ability of management to effectively analyse and react to external factors, which could impact the future direction of the relevant business units.

6.3.3 Company risk

Company risk identifies and assesses both those risks qualitatively as part of a quarterly evaluation. On the basis of this evaluation, company risk creates an overview of local and global risks which also includes reputational risks, analyses the risk profile of the company and regularly informs directors and management.

6.3.4 Operational risk

Operational risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events.

The initiation of all transactions and their administration is conducted on the foundation of segregation of duties that has been designed to ensure materially the completeness, accuracy and validity of all transactions. These controls are augmented by management and executive review of control accounts and systems, electronic and manual checks and controls, back-up facilities and contingency planning. The internal control systems and procedures are also subjected to regular internal audit reviews.

6.3.5 Market risk

Market risk includes asset liability matching risk, currency risk, interest rate risk and equity price risk.

The company is exposed to market risk through its financial assets and financial liabilities. The most important components of this risk are interest rate risk and market price risk. These risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements.

6.3.6 Interest rate and market price risk

These risks have very different impacts on the various categories of business used in the company's Assets and Liabilities Management framework. Interest rate and market price risk have been discussed together since they interact on certain types of liabilities.

6.3.7 Interest rate risk

Interest rate risk is the risk that the value and cash flow of a financial instrument will fluctuate due to changes in market interest rates.

6.3.8 Equity price risk

Equity price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices.

6.3.9 Foreign currency risk

In respect of other monetary assets and liabilities held in currencies other than the Naira, the company ensures that the net exposure is kept to an acceptable level, by buying or selling foreign currencies at spot rates, where necessary, to address short-term imbalances.

6.3.10 Credit risk

Credit risk is the risk that one party to a financial instrument will cause a loss to the other party by failing to discharge an obligation.

Key areas where the company is exposed to credit risk are:

* Certain classes of financial assets such as term deposits and cash and cash equivalent; and
* Certain accounts within trade and other receivables.

Financial assets

Various debt instruments are entered into by the company in order to invest surplus shareholder funds. The company is exposed to the issuer's credit standing on these instruments.

The following policy and procedure is in place to mitigate the company's exposure to this credit risk:

* Exposure to outside financial institutions concerning financial instrument is monitored in accordance with parameters which have been approved by the company's Audit Committee and the company's board.

Age analysis of receivables (Net)	**2020**	**2019**
	₦,000	**₦,000**
1 - 90 days	662,883,305	318,150,378
91 - 180 days	69,679,620	33,442,685
181 - 270 days	51,274,798	
271 - 356 days		24,609,303
365 and above	399,816,172	191,891,492
	1,183,653,896	**568,093,858**

6.3.11 Liquidity risk

Liquidity risk is that the Group might be unable to meet its obligations. The Group manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities as well as forecast cash inflows and outflows due in day-to-day business. The data used for analysing these cash flows is consistent with that used in the contractual maturity analysis below. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on 360-day lookout period are identified monthly. Net cash requirements are compared to available the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a borrowing facilities in order to determine headroom or any shortfalls. This analysis shows that available borrowing facilities are expected to be sufficient over the lookout period.

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, Group Treasury maintains flexibility in funding by keeping committed credit lines available.

Trade and other payables	7,474,693	
Total	**7,474,693**	**355,270**

Sensitivity Analysis

Management applies a number of sensitivity tests to the earnings of the Group to better understand the exposure to and importance of each of the main drivers of profitability.

IFRS 7 requires management to report on the changes in the net income after tax following “reasonable possible” changes in each of the factors to which the Group is exposed. Management has set the upside and downside movements for each factor at a level which represents the amount by which management believes that factor could reasonably change over the year following the valuation date. These opinions have been informed by an analysis of historical one year changes in those factors. The upper and lower limits have been set at the 75th and 25th percentiles of observed changes as these bound and interval which may be expected to contain 50% of the changes in the coming year. Management believes this represents in some sense what is “reasonably possible”, though it is important to note that this opinion is based on past experience and the tested range is not sensitive to all the relevant information in the market at the reporting date.

Management has considered the impact of upside and downside movements in foreign exchange rates. In relation to these sensitivities:

* The earnings are sensitive to changes in both the shape and level of the yield curve. Management has not considered changes in the shape of the yield curve due to several constraints although this may be reviewed in the following year.
* The foreign exchange movements have been considered together in the same sensitivity. Observed historic negative correlations between factors would tend to dampen the effects presented. These correlations are not very large and they have not been adjusted for. This treatment has resulted in the presentation of a slightly more extreme view of what could reasonably occur over the following year.

Future rates of expense inflation, catastrophes and tax assumptions were considered but no sensitivities are presented as it is unlikely, in management’s opinion that, these assumptions will change over the following year.

It should be noted that each impact on profit after tax is shown individually for each sensitivity being changed, keeping all other assumptions constant. In practice this is unlikely to occur, as changes in some of the variables may be correlated.

ACCOUNTING POLICIES

1 Presentation of Financial Statements

The financial statements have been prepared in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities ("IFRS for SMEs"), and the Companies Act No 71 of 2008. The financial statements have been prepared on the historical cost basis, and incorporate the principal accounting policies set out below. They are presented in South African Rands.

These accounting policies are consistent with the previous period.

The financial statements for the year ended 31 March 2021 were certified by Management on July 10, 2021.

1.1 Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and any accumulated impairment losses. Depreciation is recognized so as to write-off the cost of assets less residual values using the straight-line method, over the estimated useful life of 4 years. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with effect of any changes in estimate accounted for on a prospective basis.

1.2 Tax

Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

The tax liability reflects the effect of the possible outcomes of a review by the tax authorities.

The tax asset reflects the excess of tax paid by the company over the tax liability.

Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences.

A deferred tax asset is recognised for all deductible temporary differences and for the carry forward of unused tax losses and unused tax credits.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date.

Tax expenses

Tax expense is recognised in the same component of total comprehensive income (i.e. continuing operations, discontinued operations, or other comprehensive income) or equity as the transaction or other event that resulted in the tax expense.

1.3 Trade receivables

Trade receivable are stated at original invoice amount net of allowance for doubtful debts. An allowance against doubtful debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

1.4 Cash and cash equivalents

Cash and cash equivalents include cash and bank balances and short term deposits with original maturities of three months or less.

1.5 Financial instruments

Financial instrument is a contract that give rise to a financial asset of one entity and financial liability or equity instrument of another entity.

Financial assets or financial liabilities are initially recognized at the transaction price (including transaction cost except in the initial measurement of financial assets and liabilities that are subsequently measured at fair value through profit or loss) unless the arrangement constitutes a financing transaction for either the Company or counter party. If the arrangement constitutes a financing transaction, the Company shall measure the financial assets or liability at the present value if the future payments discounted at the market rate of interest for a similar debt instrument. Subsequently at each financial position date, the Company measure financial instruments at amortized cost using effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability (or a group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the carrying amount of the financial asset or financial liability.

1.5 Financial instruments (continued)

Impairment of financial assets

The Company assess at the end of each reporting date whether there is any indication that an asset may be impaired. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

1.6 Trade and other payables

Liabilities are recognized for amounts to be paid in the future for goods/services when risks and rewards attributable to goods are transferred to the Company or services are received, whether or not billed to the Company.

1.7 Provisions

“Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).”

1.8 Revenue

Revenue from information technology include revenue earned from services earned on time bound fixed price engagements and fixed price development contracts.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognised on a straight-line basis over the specified period unless some other method better represents the manner in which services are performed.

When the outcome of a transaction under fixed price development contracts can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the company;
- the stage of completion of the transaction at the end of the reporting period can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue shall be recognised only to the extent of the expenses recognised that are recoverable.

Stage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The input method has been used to measure progress towards completion as there is a direct relationship between input and productivity.

In arrangements for hardware and software implementation and integration, related services and maintenance services, the Company has applied the guidance of section 23 of IFRS for SMEs by applying the revenue recognition criteria for each distinct performance obligation. In such arrangements hardware and software revenue is recognised on delivery and implementation and integration service is recognised as per stage of completion.

Unearned revenue arises when there are billing in excess of revenue.

Unbilled revenue is recognised when there is excess of revenue earned over billings and there is an unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Interest is recognised, in profit or loss, using the effective interest rate method.

1.9 Operating expenses

Operating expenses include indirect costs not specifically part of costs of revenue. Allocations between cost of revenue and operating expenses when required, are made on a consistent basis.

1.10 Employee costs

Employee cost directly attributable to service rendered is included in cost of revenue and indirect employee cost is included in operating expenses. Social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised during the period when the employee renders the service.

The liability for leave provision represents the amount which the company have the present obligation to pay as a result of employees' services provided upto the reporting date. The liability has been calculated at undiscounted amounts based on last drawn salary.

1.11 Translation of foreign currencies

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in the functional currency of the company, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of each reporting period:

- foreign currency monetary items are translated using the closing rate;

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements are recognised in profit or loss in the period in which they arise.

1.12 Estimation uncertainties relating to the COVID-19 pandemic

The Company has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue and other assets. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

TECH MAHINDRA DE MÉXICO, S. DE R. L. DE C. V.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Partners
Tech Mahindra de México, S. de R. L. de C. V.:

Qualified Opinion

We have audited the financial statements of Tech Mahindra de México, S. de R. L. de C. V. (the Company), which comprise the statements of financial position as at December 31, 2020 and 2019, the statements of income, changes in partners s' equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Tech Mahindra de México, S. de R. L. de C. V. as at December 31, 2020 and its results and its cash flows for the years then ended, in accordance with Mexican Financial Reporting Standards (FRS).

In our opinion, except for the matter described in the basis for qualified opinion, the accompanying financial statements presented fairly, in all material respects, the financial position of Tech Mahindra de México, S. de R. L. de C. V., as of December 31, 2019, and its result and it cash flows for the year ended on this date, in accordance with the Mexican Financial Reporting Standards (Mex FRS).

Basis for Qualified Opinion

As mentioned in note 2a), as of December 31, 2019 and for the year then ended, the Company recognized on the financial statements the requirements of Mex FRS D-3 "Employee benefits", related to long-term employee benefit obligations. The effect of this adoption amounted to $11,423,623. According to Mex FRS B-1 "Accounting changes and corrections of errors", retrospective recognition of corrections of errors and reformulation of the financial statements of previous years is required, however, the Company recorded this effect in the results of the year, with a credit to the liability for long-term employee benefits for $11,423,623 and a debit to the results of the period for the same amount, without identifying the effects prior to said year.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Mexico, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of Matter

As described in note 1, the main activity of Tech Mahindra de México, S. de R. L. de C. V. is to provide computing consulting services. At December 31, 2020 and 2019 services rendered to Tech Mahindra Limited represents the 100% of the revenues. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with FRS, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2020 and 2019

(In Mexican pesos)

1. Activities

a. Description of business

Tech Mahindra de México, S. de R.L. de C.V. (the "Entity or Company") was incorporated on June 30, 2008 under the laws of Mexico. Its address is Av. Eje 5 Norte # 990, Edificio F - Planta Baja, Colonia Santa Bárbara, C.P. 02230, Delegación Azcapotzalco, Distrito Federal México.

The Company is principally involved in computing consulting services and operates primarily in Mexico. Its holding company is Tech Mahindra Limited, an Indian public listed company. The Company carries out certain transactions with its Holding company as described in note 10.

Outstanding event

The infectious disease caused by the SARS-COV2 virus (hereinafter "COVID-19") was declared a pandemic on March 11, 2020 by the World Health Organization; Consequently, sanitary measures have been taken to limit the spread of this virus, including, but not limited to, social distancing and the closure of educational centers (schools and universities), commercial establishments and non-essential businesses in the public, private and social, as a strategy to combat this pandemic.

A part of the operations of the Company was considered an essential activity and it did not totally stop operation. On the other hand, it required the implementation of some security measures to safeguard the health of the employees according to the Government's indications, therefore which, the Company had to incur an expense of approximately $ 271,493 Mexican pesos.

b. Financial statement authorization and presentation-

On July 9, 2021, the issuance of the financial statements was authorized by Mr. Archit Asok (Board Manager and Secretary) and Roberto Carlos Esquivel (Finance Controller). These financial statements are subject to the approval of the Board of Partners and the general ordinary partners' meetings, where they may be modified, based on provisions set forth by the General Corporate Law.

2. Basis of presentation

a. Statement of compliance

The accompanying financial statements have been prepared in accordance with Mexican Financial Reporting Standards (MFRS).

b. Use of estimates and judgements

The preparation of financial statements requires Management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

Note 3 m - Leases: whether an arrangement contains a lease.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at December 31, 2020 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

Note 3 m - Leases: determination of lease period in case of an option of renew.

c. Explanation for preparation in English - The accompanying financial statements have been prepared in English for use outside of Mexico. These financial statements are presented on the basis of Mexican Financial Reporting Standards ("Mexican FRS" or "Mex FRS"), which are comprised of accounting standards that are individually referred to as Normas de Información Financiera, or "NIFs"). Certain accounting practices applied by the Entity that conform with MFRS may not conform with accounting principles generally accepted in the country of use.

d. **Monetary unit of the financial statements –**The financial statements and notes as of December 31, 2020 and 2019 and for the years then ended are presented in Mexican pesos (reporting currency), which is the same as the local currency and the functional currency.

e. **Statement of comprehensive income presentation -** The Company presents comprehensive income in a single statement of net income entitled "Statement of Operations" given that the Company did not generate Other Comprehensive Income (OCI) during the current year or the preceding year, which is presented for comparative purposes.

Ordinary costs and expenses are presented based on their function because it is the practice of the industry to which the Entity belongs. Additionally, the "Income from Operation" line item is included, which results from subtracting the cost of sales and expenses from net sales, as this line item is considered to provide a better understanding of the Company's economic and financial performance. Previous year's figures are regrouped wherever necessary (refer note 19).

3. Summary of the significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, and have been applied consistently by the Company:

a. Recognition of the effects of inflation

The Mexican FRS B-10 "Effects of inflation" requires the recognition of inflation until December 31, 2017. Since January 1, 2008, the Mexican FRS B-10 requires the recognition of the effects of inflation when the Company operates in an inflationary economic environment (cumulated inflation equal or more than 26% during last three years). Annual and cumulative inflation percentage of the last three years and the indices used to determine inflation, are as follows:

	Inflation	
December 31,	**Yearly**	**Cumulative**
2020	3.33%	11.42%
2019	2.83%	15.10%
2018	4.83%	15.69%

b. **Cash and cash equivalents–** Cash and cash equivalents consist of checking accounts, bank deposits, foreign currency and other highly liquid instruments.

c. **Property and equipment (net) –** Property, plant and equipment, including those under leases, are recorded at acquisition cost and the present value of total payments, respectively. Balances from acquisitions made through December 31, 2007 were restated for the effects of inflation by applying factors derived from the NCPI through that date.

Depreciation on property, plant and equipment is calculated using the straight-line method based on the estimated useful lives of the related assets, as follows:

Category	**Useful life**
Computers	3 years
Furniture and fixtures	5 years
Plant & Machinery	5 years
Office equipment	5 years
Software acquired for consideration	1 year

Leasehold improvements are amortized over the useful life of the improvement or the related contract term, whichever is shorter.

Minor repairs and maintenance costs are expensed as incurred.

d. **Prepayments-** Mainly include prepayments for employee health and life insurance services that are received after the date of the statement of financial position and in the ordinary course of operations.

e. **Other assets-** Other assets include mainly deposits in guarantee, advances to employees and suppliers and are stated at cost.

f. **Impairment of property, plant and equipment and other non-current assets, leases assets and intangible assets-**

The Company evaluates the net carrying amount of property, plant and equipment and other non-current assets, leases assets and intangible assets, to determine whether there is an indication that the carrying amount exceeds the recoverable amount. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the asset to future net revenues reasonably expected to be generated by the asset. If the net carrying amount of the asset exceeds the recoverable amount, the Company records the necessary provisions.

g. **Provisions -** Provisions are recognized for current obligations that arise from a past event, that are probable to result in the use of economic resources, and that can be reasonably estimated.

h. **Employee benefits -** Employee benefits are those granted to personnel and/or their beneficiaries in exchange for the services rendered by the employee, which include all kinds of remuneration earned, as follows:

   i. **Short-term direct benefits -** Short-term direct employee benefits are recognized in income of the period in which the services rendered are accrued. A liability is recognized for the amount expected to be paid if the Company has a legal or assumed obligation to pay this amount as a result of past services provided and the obligation can be reasonably estimated.

   ii. **Long-term direct benefits -** The Company's net obligation in relation to direct long-term benefits (except for deferred ESPS), and which the Company is expected to pay at least twelve months after the date of the most recent balance sheet presented, is the amount of future benefits that employees have obtained in exchange for their service in the current and previous periods. This benefit is discounted to its present value. Remeasurements are recognized in income in the period in which they are accrued.

   iii. **Employee benefits from termination -** A liability is recognized for termination benefits along with a cost or expense when the Company has no realistic alternative other than to make the corresponding payments or when the offer of these benefits cannot be withdrawn or when the conditions that require the recognition of restructuring costs are met, whichever occurs first. If benefits are not expected to be settled wholly within twelve months after the date of the most recent balance sheet presented, then they are discounted. The Company has only defined contribution plans and no defined benefit obligations.

   Defined contribution plans

   Obligations for contributions to defined contribution plans are recognized in income as the related services are provided by employees. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

   iv. **Employee statutory profit sharing (ESPS) -** ESPS is recorded in the results of the year in which it is incurred. Deferred ESPS is derived from temporary differences that result from comparing the accounting and tax bases of assets and liabilities and is recognized only when it can be reasonably assumed that a liability may be settled or a benefit is generated, and there is no indication that circumstances will change in such a way that the liabilities will not be paid or benefits will not be realized.

   As result of the 2014 Tax Reform, as of December 31, 2020 and 2019, ESPS is determined based on taxable income, according to Section I of Article 10 of the Income Tax Law. Deferred ESPS derived from temporary differences between the accounting and tax bases of assets and liabilities is recognized only when it can be reasonably assumed that a liability may be settled or a benefit is generated, and there is no indication that circumstances will change in such a way that the liabilities will not be paid or benefits will not be realized.

i. **Income taxes** - Income tax ("ISR") is recorded in results of the year in which they are incurred. Deferred taxes are calculated by applying the corresponding tax rate to temporary differences resulting from comparing the accounting and tax bases of assets and liabilities and including, if any, future benefits from tax loss carryforwards and certain tax credit.

j. **Foreign currency transactions -** Foreign currency transactions are recorded at the applicable exchange rate in effect at the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into Mexican pesos at the applicable exchange rate in effect at the balance sheet date. Exchange fluctuations are recorded as a component of net financing cost (income) in the statements of income.

k. **Revenue recognition –** Revenues include the fair value of the consideration received or receivable for the services in the regular course of operations, which is when control has been transferred to the customers in exchange for the consideration to which the Entity believes it is entitled in exchange for such goods or services. Revenues are presented net of discounts.

   Revenue from service contracts priced on a time and material basis is recognized when services are rendered. Revenue from fixed price service contracts is recognized as performance obligation satisfied over a period of time based on the stage of completion of the contract the stage of completion determined as the proportion of the total time expected to install that has elapsed at the end of the reporting period is an appropriate measure of progress towards complete satisfaction of these performance obligations.

   Invoices for services are issued on a monthly basis and are usually payable within 45-60 days.

Revenues are recognized when the following steps are completed:

- The contract or contracts are identified with the customer.
- The obligations to be performed in the contract are identified.
- The transaction price is determined.
- The transaction price is allocated among the different obligations to be performed in the contract.
- The revenues are recognized when the Entity fulfills each of the obligations involved.

The Company acts as a sub-contractor to its Holding Company Tech Mahindra Limited for which it is remunerated on cost plus markup basis. Its revenue from cost plus markup contracts are recognized based on the terms of the contract over the service period.

Invoices for services to the Holding Company are issued on a monthly basis and are usually payable within 30 days.

l. **Business and credit concentration-** Services rendered to Tech Mahindra Limited represented 100% in 2020 and 2019 of the Company's net revenue.

The principal supplier for sub-contracting services rendered is LCC Central America de Mexico SA de CV (fellow subsidiary company), from which the Company made approximately 42% in 2020 and 60% in 2019 of the Company's total cost of sub-contracting services.

m. **Leases-** At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company uses the definition of a lease in FRS D-5.

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

The Company determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Company is reasonably certain to exercise, lease payments in an optional renewal period if the Company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, if the Company changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

n. Financial instruments-

Financial assets and liabilities - including accounts receivable and payable - are initially recognized when these assets are originated or acquired, or when these liabilities are issued or assumed, both contractually.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at FVI, transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

Financial assets and financial liabilities (unless it is an account receivable or payable without a significant financing component) are measured and initially recognized at fair value, in the case of financial assets or liabilities not measured at fair value with changes through OCI, plus the transaction costs directly attributable to acquisition or issuance, when subsequently measured at amortized cost. An account receivable without a significant financing component is initially measured at the transaction price.

Loss allowance for expected credit losses (ECL)-

The Company recognizes loss allowances for ECLs on financial assets measured at amortized cost.

Loss allowances for trade receivable and contract assets are always measured at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument, about past events, current conditions and forecasts of future economic conditions.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit -impaired includes the following observable data:

— significant financial difficulty of the borrower or issuer;

— a breach of contract such as a default or being more than 90 days past due;

— the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;

— it is probable that the borrower will enter bankruptcy or other financial reorganization; or

— the disappearance of an active market for a security because of financial difficulties

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write off

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For external customers, the Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery, on a case to case basis. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

o. Contingencies- Liabilities for loss contingencies are recorded when it is probable that a liability has been incurred and the amount thereof can be reasonably estimated. When a reasonable estimation cannot be made, disclosure is provided in the notes to the financial statements. Contingent revenues, earnings or assets are not recognized until realization is assured.

p. Comprehensive financial results (CFR)-

The CFR includes finance income and expense, reduced by the amounts capitalized.

Finance income and expense include:

- interest expense;
- interest income;
- the foreign currency gain or loss on financial assets and financial liabilities;

Interest income or expense is recognized using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

Transactions in foreign currency are recorded at the exchange rate prevailing on the date of execution or settlement. Monetary assets and liabilities denominated in foreign currency are translated at the exchange rate in force at the statement of financial position date. Exchange differences arising from assets and liabilities denominated in foreign currencies are reported on the statement of comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

4. Cash and equivalents-

Particulars	**2020**	**2019**
Cash and checking accounts		
Current accounts	$ 28,721,614	15,959,495
Fixed deposits	145,000,000	40,000,000
Cash and cash equivalents	**$ 173,721,614**	**55,959,495**

The Company had no restricted cash and cash equivalents.

5. Accounts receivable-

Particulars	**2020**	**2019**
Receivable from external customer		
Customer	$ 173,203,328	150,431,721
Expected credit losses	(7,030,487)	(27,222,426)
Debtors (net of allowance for doubtful debts)	166,172,841	123,209,295
Unbilled Revenue	22,057,094	17,912,495
Total Receivable from external customers	**$ 188,229,935**	**141,121,790**

Expected credit losses:

For the commercial accounts receivable portfolio, the Entity estimates the expected credit loss (ECL) based on its experience of previous credit losses, current changes in the behavior of its customers and future economic forecasts, for which purpose it classifies its portfolio by degree of payment arrears and allocates different amounts of ECL to each of the segments of its portfolio.

The Company acts as a sub-contractor to its Holding Company Tech Mahindra Limited for which it is remunerated on cost plus markup basis. The expected credit loss provision is created for the external customers of the Company for which the Company is acting as an agent or sub-contractor.

Based on the average that its ECL represent of total revenues and the payment arrears of customer receivables, as well as adjustments to the amounts of ECL considering the current economic situation, the respective calculation is as follows:

Amount of accounts receivable	**Days in arrears**	**Probability of default**	**Portfolio amount in default**	**Loss Severity (SP)**	**Estimated ECL**
7,030,487	More than 365 days	100%	7,030,487	100%	7,030,487

In this case, given the impossibility of estimating the collection date, it is not practical to discount the amounts of cash flows receivable. Also, the Company does not charge interest to its customers for arrears, and so it has not identified the effective interest rate.

6. Other receivables-

Particulars	**2020**	**2019**
Advances to employees	$ 178,615	1,878,617
Other receivables	765,117	1,208,518
Total Other receivables	**$ 943,732**	**3,087,135**

7. Property and equipment, and intangible assets-

a) Investment	**2020**	**2019**
Plant & machinery	$ 26,126,896	20,935,828
Furniture and fixtures	25,512,128	19,343,331
Equipment and computers	39,391,891	30,121,392
Leasehold improvements	5,103,655	1,495,104
Total	**$ 96,134,570**	**71,895,655**

b) **Accumulated depreciation**		**2020**	**2019**
Plant & machinery	$	12,259,452	7,450,006
Furniture and fixtures		11,807,613	7,411,227
Equipment and computers		26,650,167	17,810,819
Leasehold improvements		1,683,338	1,063,972
Total		**52,400,570**	**33,736,024**
Net property and equipment	**$**	**43,734,000**	**38,159,631**

a) Intangible assets		**2020**	**2019**
Software acquired for consideration	$	921,700	683,897

b) Accumulated depreciation		**2020**	**2019**
Software acquired for consideration	$	864,930	683,897
Net Intangible assets	**$**	**56,770**	**-**

Depreciation recognized in the statements of operations was $18,845,580 and $16,171,584; in 2020 and 2019, respectively.

8. Right of use assets and liabilities-

The Company leases office premises, typically for a period of 3 years. Previously, these leases were classified as operating leases.

During 2018, part of the leased premises was sub-let by the Company. The lease and sub-lease expire in 2022.

Information about leases for which the Company is a lessee is presented below:

Right of use asset

Right-of-use assets related to lease properties that do not meet the definition of investment property comprise the following page:

Particulars		**Buildings**	
		2020	**2019**
Balance at January 1, 2019	$	55,600,997	77,507,765
Depreciation charge for the year		(26,373,777)	(21,906,768)
Additions to right-of-use assets		21,081,985	-
Balance at December 31	**$**	**50,309,205**	**55,600,997**

Amounts recognized in profit or loss

Leases under FRS D-5		**2020**	**2019**
Interest on lease liabilities	$	6,060,697	-
Expenses relating to short-term leases		-	1,167,365
Total	$	**6,069,697**	**1,167,365**

Total cash outflows for leases during 2020 were $31,782,173 and $28,324,913 in 2020 and 2019 respectively.

Lease Liabilities		**2020**	**2019**
Liability	$	58,882,485	64,788,409

The terms and conditions of leases are as follows:

	2020	2019
Nominal Interest rate	10.80%	10.80%
Year of maturity	2021-2023	2021-2022
Nominal value	65,151,174	72,412,668
Present value	58,882,485	64,788,409

Maturities of lease liabilities:	**2020**		**2019**	
	Nominal value	**Present value**	**Nominal value**	**Present value**
Less than one year	$ 35,216,333	24,924,410	$ 27,869,546	22,156,640
Between one and five years	29,934,841	33,958,075	44,543,122	42,631,769
Total	**$ 65,151,174**	**58,882,485**	**$ 72,412,668**	**64,788,409**

9. Accrued expenses and taxes-

Accruals include the following:

	Accrued expenses	**VAT Payable**	**Provision for Discount**	**Other**	**Total**
Balances as at December 31, 2019	$ 14,451,157	23,904,915	3,818,625	560,506	42,735,203
Increases recorded in earnings	1,311,322	38,119,109	4,343,938	97,939,144	141,713,513
Payments	(13,785,777)	(31,181,473)	(4,439,716)	(589,987)	(49,996,953)
Balances as at December 31, 2020	**$ 1,976,702**	**30,842,551**	**3,722,847**	**97,909,663**	**134,451,763**

10. Related party-

a. List of related parties:

Tech Mahindra Limited (Parent company)

LCC Central America de Mexico S.A. de C.V. (Fellow subsidiary)

b. Transactions with related parties, carried out in the ordinary course of business, whose consideration is equivalent to that in similar transactions carried out with independent parties, were as follows:

	2020	2019
Revenues from services rendered to:		
Tech Mahindra Limited	$ 693,180,282	598,662,85
Expenses for services received from:		
Tech Mahindra Limited	(427,254,111)	(324,718,313)
LCC Central America de Mexico S.A. de C.V.	(34,551,397)	(27,090,108)
Reimbursement of expenses:		
Tech Mahindra Limited	(188,656)	(253,120)
LCC Central America de Mexico S.A. de C.V.	-	(69,656)
Other Income (rental income):		
LCC Central America de Mexico S.A. de C.V.	2,057,056	3,908,654

c. Balances due from and to related parties are as follows:

	2020	2019
Receivable:		
Tech Mahindra Limited	$ 82,514,653	84,695,996
LCC Central America de Mexico S.A. de C.V.	2,860,081	1,514,559
	$ 85,374,734	**86,210,555**
Payable:		
Tech Mahindra Limited	$ 222,251,193	158,875,541
LCC Central America de Mexico S.A. de C.V.	14,917,196	12.722,927
	$ 237,168,389	**171,648,468**

11. Employee benefits-

a) Short term direct benefits

The short-term direct benefits are as follows:

		2020	2019
Employee benefits			
Compensated absences*	$	1,853,746	814,521
Short term employee benefits		7,162,341	9,028,099
Other statutory payments		20,008,447	18,036,954
Total	**$**	**29,024,534**	**27,879,574**

* Note: Non -current portion of compensated absences $737,930 has been disclosed under Other employee benefits under non-current liabilities.

b) Post-employment benefits

The Company has a defined benefit plan for seniority premium and legal compensation, covering substantially all of its employees its unionized and trustworthy staff. Benefits are based on the years of service and the employee's compensation.

The components of defined benefit cost for the years ended December 31, 2020 and 2019 are shown below

		Seniority Premium		Legal Compensation	
		2020	2019	2020	2019
Current service cost (CLSA)	$	437,807	218,610	2,745,160	1,785,213
Prior years effects recognized in 2019		-	266,637	-	11,156,986
Net interest		42,273	21,562	1,164,133	917,704
Settlement cost		-	-	7,569,518	-
Remeasurements of net assets for defined benefits (DBNA) or net liabilities for defined benefits (DBNL) recognized in income of the period		255,282	150,005	3,348,553	4,037,497
Net cost for the period	**$**	**735,362**	**656,814**	**14,827,364**	**17,897,400**

		Seniority Premium		Legal Compensation	
		2020	2019	2020	2019
Beginning balance of DBNL	$	656,814	-	17,897,400	-
Defined Benefit Cost		735,362	656,814	14,827,364	17,897,400
Payments charged to DBNL		(188,963)	-	(10,826,206)	-
Ending balance of DBNL	**$**	**1,203,213**	**656,814**	**21,898,558**	**17,897,400**

Assumptions:	2020	2019
Disount rate	6%	7%
Rate of compensation increase	3%	3%
Average remaining employee labor life	17.36 years	17.89 years

12. Income tax (IT) and employee statutory profit sharing (ESPS)-

The Company is subject to IT. According with the IT law, the rate is 30% in 2020 and 2019 and it will continue at 30% thereafter.

a. IT consists of the following:

IT:		2020	2019
Current	$	36,970,420	25,086,504
Deferred		(35,610,582)	(7,103,646)
	$	**1,359,838**	**17,982,858**

Income tax expense attributable to income from continuing operations before income taxes, differed from the amounts computed by applying the Mexican statutory rates of 30% IT to income before income taxes, as a result of the items shown below:

		2020	2019
Computed "expected" tax expense	$	13,206,623	10,913,263
Increase (reduction) resulting from:			
Effects of inflation, net		912,529	512,840
Non-deductible expenses		4,692,408	5,031,344
Reversal of agent ECL*		(20,191,939)	-
Others **		2,740,217	1,525,412
IT expense	**$**	**1,359,838**	**17,982,858**

* Reversal of agent ECL pertains to the effect of balance sheet movement between provision for doubtful debts for December 31, 2020 versus December 31, 2019. Since the Company acts as an agent to its parent company, the risk of provision is borne by parent company and the impact of the provision is disclosed on a net basis in the Income Statement.

**Others includes effect of Right of use opening liability amounting to $833,544 for the period ended December 31, 2019.

The tax effects of temporary differences that give rise to significant portions of the deferred income tax assets and liabilities, at December 31, 2020 and 2019, are presented below:

		2020	2019
Deferred tax assets:			
Property, plant and equipment	$	4,879,759	2,159,526
Right of use assets (net of liability) for leased properties		2,571,984	2,756,223
Accrued bonuses and other accruals		14,111,979	5,359,530
Unearned revenue		24,551,212	-
Total gross deferred tax assets	**$**	**46,114,934**	**10,275,279**
Deferred tax liabilities:			
Prepaid Expenses		(1,151,147)	(922,074)
Net deferred Income Tax asset	**$**	**44,963,787**	**9,353,205**

ESPS

The ESPS expense is as follows:

		2020	2019
Total ESPS expense recognized in Income statement	**$**	**5,186,164**	**7,874,835**

13. Partners equity-

a As of December 31, 2020 and 2019 partner units at par value (historical pesos), is as follows:

		Number of social parts	Amount in historical pesos	Number of social parts	Amount in historical pesos
		2020		**2019**	
Fixed capital:					
Series "A" partner units*	$	2	1	2	1
(Non-Withdrawable)		-	-	-	-
Variable capital		-	-	-	-
Series "B" partner units**		1	12,934,770	1	12,934,770
Total	**$**	**3**	**12,934,771**	**3**	**12,934,771**

* Series "A" represents the fixed portion of capital stock with no retirement rights.

** Series "B" represents the variable portion of capital stock with retirement rights.

b. Pursuant to a resolution of the general ordinary partners meeting on January 4, 2016, variable social parts was increased by $5,015,522, through cash contributions.

c. Retained earnings include the statutory legal reserve. The General Corporate Law requires that at least 5% of net income of the year be transferred to the legal reserve until the reserve equals 20% of partner units at par value (historical pesos). The legal reserve may be capitalized but may not be distributed unless the Company is dissolved. The legal reserve must be replenished if it is reduced for any reason. As of December 31, 2016, the legal reserve, in historical pesos, was $164,203. The legal reserve for the year ended December 31, 2020 is $2,137,461.

d. Partners' equity, except restated paid-in capital and tax retained earnings, will be subject to income taxes in the event of distribution, at the rate of 30%, payable by the Company; consequently, the stockholders may only receive 70% of such amounts. Any tax paid on such distributions may be credited against annual and estimated income taxes of the year in which the tax on dividends is paid and the following two fiscal years.

e. The balances of the partners' equity tax accounts as of December 31 are as follows:

		2020	2019
Contributed capital account	$	16,797,974	16,284,997
Net tax income account		115,145,039	89,187,125
Total	**$**	**131,943,013**	**105,472,122**

14. Revenue

		2020	2019
Revenue from contracts with customers:			
From services rendered to Tech Mahindra Limited	$	693,180,282	575,304,123
Other income			
Rental income		2,057,056	3,908,654
Profit on disposal of asset		-	2,866
Others		189,766	112,370
Total other revenue		**2,246,822**	**4,023,890**
Total revenue	$	**695,427,104**	**579,328,013**

Costs	2020		2019	
	Cost of sales	Selling expenses and Administrative expenses	Cost of sales	Selling expenses and Administrative expenses
Salaries and related cost [1]	$ 466,109,075	-	370,302,196	-
Depreciation and amortization				
- On Property, plant and equipment	-	18,845,580	-	16,171,585
- On right of use assets	-	26,373,777	-	21,906,767
Subcontracting expenses	88,151,104	-	64,790,562	-
Communication expense	12,398,113	-	20,931,736	-
General Office expenses	-	13,010,768	-	14,140,055
Other	9,469,153	20,423,005	13,705,713	18,075,010
Total	**$ 576,127,445**	**78,653,130**	**469,730,207**	**70,293,417**

[1] Salaries and related cost includes expense for ESPS $5,186,164 for 2020 and $ 7,874,835 for 2019.

15. Financial instruments and risk review-

a. Accounting classifications and fair values

TThe following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value as the carrying amount is a reasonable approximation of fair value.

Financial Asset and Liabilities (not measured at fair value)	2020	2019
Carrying amount of financial assets:		
Cash and cash equivalents	$ 173,721,614	55,959,495
Accounts receivable - net	188,229,935	141,121,790
Due from related party	85,374,734	86,210,555
Payables to officers and employees	178,615	1,878,617
Deposits in guarantee	6,391,705	5,021,981
Other receivables	765,117	1,208,518
	$ 454,661,720	**291,400,956**
Carrying amount of financial liabilities:		
Accounts payable	$ 2,524,258	891,078
Due to related party	237,168,389	171,648,468
Accrued expenses and taxes*	134,451,763	42,596,973
Lease liabilities	58,882,485	42,631,769
	$ 433,026,895	**257,768,288**

*It includes provision for expenses, Provision for salary and provisions against employee advances.

b Financial risk management

The Company's activities expose it to a variety of financial risks i.e. market risk, credit risk and liquidity risk. The Company operates a risk management policy and program that performs close monitoring of and responding to each risk factors. Following are the financial risk factors.

(a) Credit risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Trade Receivable

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

Details of concentration of revenue are included in Note 3.l under the Significant accounting policies.

Average credit period for trade receivables ranges from 45-60 days and no interest is charged on overdue receivables. The Company uses a practical expedient by computing the expected credit loss (ECL) allowance for trade receivable based on a provision matrix which takes into account historical credit loss experience and adjusted for forward looking experience. The impact of the ECL model is disclosed in Note 5 Trade receivables.

The Company has a revenue arrangement with its Parent Company, wherein it acts as a sub-contractor to its Parent for all external contracts with customers and all the risk of these contracts are transferred to the Parent Company.

Cash and cash equivalents

The Company maintains its cash and cash equivalents with bank having good reputation and high-quality credit rating.

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The table below provides details regarding the contractual maturities of significant financial liabilities as on December 31, 2020. The amounts are gross and undiscounted.

Particulars	**Carrying value**	**Less than 1 year**	**1-3 years**
Accounts payable	$ 2,524,258	2,524,258	-
Due to Related Party	237,268,139	237,268,139	-
Accrued expenses and taxes	134,451,763	118,533,731	-
Lease liabilities	58,882,485	24,924,410	33,958,075
	$ 433,126,645	**383,250,538**	**33,958,075**

The table below provides details regarding the contractual maturities of significant financial liabilities as on December 31, 2019:

Particulars	**Carrying value**	**Less than 1 year**	**1-3 years**
Accounts payable	$ 891,078	891,078	-
Due to Related Party	171,648,468	171,648,468	-
Accrued expenses and taxes	24,042,759	42,596,973	-
Lease liabilities	42,631,769	27,869,546	44,543,122
	$ 239,214,074	**243,006,065**	**44,543,122**

(c) Market risk

Market risk is the risk that changes in market prices - e.g. foreign exchange rates, interest rates and equity prices -will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company's exposure to market risk is primarily on account of foreign currency exchange rate risk.

Exposure to currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

		2020		2019	
		USD	CAD	USD	CAD
Cash and cash equivalents	$	261,238	-	664,523	-
Accounts receivable - Net		1,487,584	584,130	2,409,570	372,508
Due from Related Party		39,440	-	78,880	-
Accounts payable		(125,141)	-	(12,000)	-
Due to Related Party		(11,418,082)	-	(7,906,217)	-
Net statement of financial position exposure	**$**	**(9,754,961)**	**584,130**	**(4,765,243)**	**372,508**

The following significant exchange rates have been applied:

	Average rate		Year end spot rate	
	2020	2019	2020	2019
USD 1	19.1	19.3	19.9	18.8
CAD 1	16.0	14.5	15.6	14.4

Sensitivity analysis

A reasonably possible strengthening (weakening) of the US dollar and CAD by 1% against the functional currency at December 31, would have affected the measurement of financial instruments denominated in foreign currencies and affected equity and income by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

		Income		Equity, net of tax	
		Strengthening	Weakening	Strengthening	Weakening
USD (1% movement)	$	(94,122)	94,122	(94,122)	94,122
CAD (1% movement)		6,728	(6,728)	(6,728)	6,728

16. Recently issued financial reporting standards-

2021 FRS Revisions -

In December 2020, CINIF issued a document called "2021 FRS Revisions" containing precise modifications to some of the existing FRS. The improvements made to the FRS result in accounting changes in the annual financial statements, which are shown below:

FRS D-5 "Leases"- The improvements to this FRS are: i) clarifications to the disclosures for short-term and low-value leases for which a right-of-use asset was not recognized, ii) clarifying that the lease liability in a sale-leaseback operation must include both the fixed payments such as estimated variable payments and specifications are made of the procedure to be followed in accounting recognition. This improvement is effective for periods starting as of January 1, 2021, and early application for 2020 is allowed. The accounting changes that arise must be recognized in accordance with the provisions of FRS B-1 Accounting changes and error corrections.

Management estimates that the adoption of this new FRS shall have no significant effects.

17. Contingencies

(a) In accordance with Mexican tax law, the tax authorities are empowered to examine transactions carried out during the five years prior to the most recent income tax return filed.

(b) The Company is involved in a number of claims arising in the normal course of business from labor obligations. It is expected that the final outcome of these matters will not have significant adverse effects on the Company's financial position and income.

18. Subsequent events

On April 23, 2021, following the reform of various legal provisions regarding subcontracting (outsourcing and insourcing), a third paragraph was added to section V of Article 27 of the Income Tax Law (ITL), which states that in the case of the provision of specialized services or the execution of specialized works referred to in Article 15-D , third paragraph of the Federal Fiscal Code (Código Fiscal de la Federación), the contractor must verify when the payment of the consideration for the service received is made, that the contractor has the registration with the Secretariat of Labor and Social Security (Secretaría del Trabajo y Previsión Social or STPS) referred to in article 15 of the Federal Labor Law (LFT as acronym in Spanish), also, must obtain from the contractor a copy of the tax receipts for the payment of wages of the workers with whom he have provided the service or carried out the corresponding work, of the receipt of payment issued by a banking institution for the declaration of the entire withholding of taxes made to said workers, of the payment of the employer's contributions to the Mexican Social Security Institute, as well as of the payment of the contributions to the Institute of the National Housing Fund for Workers. Similarly, the contractor shall be obliged to provide the contracting party with the vouchers and information referred to in this paragraph.

Likewise, section XXXIII was added to article 28, which states that payments or consideration made for the subcontracting of personnel to carry out activities related to both the corporate purpose and the predominant economic activity of the contractor shall not be deductible; as well as the services in which personnel are provided or made available to the contractor, when any of the cases contemplated in article 15-D, section I and II of the Federal Fiscal Code is updated.

19. Previous year regrouping

Particulars		Previously reported amount	Reclassification	Reclassified amount
Income statement				
Revenue	$	598,662,851	(23,358,728)	575,304,123
Cost of sales		(493,088,935)	23,358,728	(469,730,207)
	$	**105,573,916**	**-**	**105,573,916**

Reason for re-classification: Correction in presentation of revenue and costs from "Gross" in the previous year to "Net" in the current year.

NOTES TO THE FINANCIAL STATEMENTS

Tech Mahindra ICT Services (Malaysia) Sdn. Bhd. is a private limited liability company, incorporated and domiciled in Malaysia. The addresses of the principal place of business and registered office of the Company are as follows:

Principal place of business
Malaysia Global Solution Center
Lot 12122, Persiaran APEC
63000 Cyberjaya
Selangor Darul Ehsan

Registered office
35-3, Jalan SS15/8A
47500 Subang Jaya
Selangor Darul Ehsan

The Company is principally engaged in the business of developing, advising, consulting and implementing of software systems relating to information technology and electronic services including application and programming services, administration and management control, technical, scientific and operational assistance, systems design, project management training and support of personnel, management of services facility and generally, any type of business in connection therein. There has been no significant change in the nature of these activities during the financial year.

The Company is a wholly-owned subsidiary of Tech Mahindra Limited, which is incorporated in India and regarded by the Directors as the Company's ultimate holding company, during the financial year and until the date of this report.

These financial statements were authorised for issue by the Board of Directors

1. Basis of preparation

(a) Statement of compliance

The financial statements of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The following are accounting standards, interpretations and amendments of the MFRSs that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Company:

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 June 2020

- Amendment to MFRS 16, Leases – Covid-19-Related Rent Concessions beyond 30 June 2021

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2021

- Amendments to MFRS 9, Financial Instruments, MFRS 139, Financial Instruments: Recognition and Measurement, MFRS 7, Financial Instruments: Disclosures, MFRS 4, Insurance Contracts and MFRS 16, Leases – Interest Rate Benchmark Reform – Phase 2

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 April 2021

- Amendment to MFRS 16, Leases – Covid-19-Related Rent Concessions beyond 30 June 2021

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2022

- Amendments to MFRS 1, First-time Adoption of Malaysian Financial Reporting Standards (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to MFRS 3, Business Combinations – Reference to the Conceptual Framework
- Amendments to MFRS 9, Financial Instruments (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to Illustrative Examples accompanying MFRS 16, Leases (Annual Improvements to MFRS Standards 2018−2020)
- Amendments to MFRS 116, Property, Plant and Equipment − Proceeds before Intended Use
- Amendments to MFRS 137, Provisions, Contingent Liabilities and Contingent Assets − Onerous Contracts − Cost of Fulfilling a Contract
- Amendments to MFRS 141, Agriculture (Annual Improvements to MFRS Standards 2018−2020)

MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2023

- MFRS 17, Insurance Contracts
- Amendments to MFRS 101, Presentation of Financial Statements – Classification of Liabilities as Current or Non-current and Disclosures of Accounting Policies
- Amendments to MFRS 108, Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates

- Amendments to MFRS 112, Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

MFRSs, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

  The Company plans to apply the abovementioned accounting standards, interpretations and amendments:

- from the annual period beginning on 1 April 2021 for those amendments that are effective for annual periods beginning on or after 1 June 2020 and 1 January 2021.
- from the annual period beginning on 1 April 2022 for those amendments that are effective for annual periods beginning on or after 1 April 2021 and 1 January 2022, except for amendments to MFRS 1, MFRS 3 and MFRS 141 which are not applicable to the Company.
- from the annual period beginning on 1 April 2023 for the accounting standard and amendments that are effective for annual periods beginning on or after 1 January 2023, except for MFRS 17 which is not applicable to the Company.

The initial application of the abovementioned accounting standards, amendments and interpretations is not expected to have any material financial impact to the current period and prior period financial statements of the Company.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

(c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency. All financial information is presented in RM, unless otherwise stated.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed below:

- Note 12.2 – Provision for onerous contracts
- Note 17.4 – Measurement of expected credit loss ("ECL")

2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

(a) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting date.

Foreign currency differences arising on retranslation are recognised in profit or loss.

(b) Financial instruments

(i) Recognition and initial measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade receivable without significant financing component) or a financial liability is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

(ii) Financial instrument categories and subsequent measurement

Financial assets

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets (see Note 2(f)(i)) where the effective interest rate is applied to the amortised cost.

All financial assets are subject to impairment assessment (see Note 2(f)(i)).

Financial liabilities

The categories of financial liabilities at initial recognition are as follows:

Amortised cost

Financial liabilities not categorised as fair value through profit or loss are subsequently measured at amortised cost using the effective interest method.

Interest expense and foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

(iii) Derecognition

A financial asset or part of it is derecognised when, and only when, the contractual rights to the cash flows from the financial asset expire or transferred, or control of the asset is not retained or substantially all of the risks and rewards of ownership of the financial asset are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount of the financial asset and the sum of consideration received (including any new asset obtained less any new liability assumed) is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. A financial liability is also derecognised when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability based on modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(iv) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and liability simultaneously.

(c) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The gain or loss on disposal of an item of property, plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and is recognised net within "other income" and "other expenses" respectively in profit or loss.

(ii) Subsequent costs

The cost of replacing a component of an item of equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced component is derecognised to profit or loss. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

(iii) Depreciation

Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed, and if a component has a useful life that is different from the remainder of that asset, then that component is depreciated separately.

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment from the date that they are available for use.

The estimated useful lives for the current and comparative periods are as follows::

• Office equipment	5 years
• Computers	3 years
• Plant and equipment	3 to 5 years
• Lease improvement	Lease period
• Furniture and fixtures	5 years

Depreciation methods, useful lives and residual values are reviewed at the end of the reporting period, and adjusted as appropriate.

(d) Leases

(i) Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain a substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

  At inception or on reassessment of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Company is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

(ii) Recognition and initial measurement

(a) As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. Generally, the Company uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise of the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Company is reasonably certain to exercise; and
- penalties for early termination of a lease unless the Company is reasonably certain not to terminate early.

The Company excludes variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(b) As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Company makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

If an arrangement contains lease and non-lease components, the Company applies MFRS 15 to allocate the consideration in the contract based on the stand-alone selling prices.

The Company recognises assets held under a finance lease in its statement of financial position and presents them as a receivable at an amount equal to the net investment in the lease. The Company uses the interest rate implicit in the lease to measure the net investment in the lease.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sublease as an operating lease.

(iii) Subsequent measurement

(a) As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(b) As a lessor

The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of "other operating income".

The Company recognises finance income over the lease term, based on a pattern reflecting a constant periodic rate of return on the Company's net investment in the lease. The Company aims to allocate finance income over the lease term on a systematic and rational basis. The Company applies the lease payments relating to the period against the gross investment in the lease to reduce both the principal and the unearned finance income. The net investment in the lease is subject to impairment requirements in MFRS 9, Financial Instruments (see note 2(m)(i)).

(e) Contract asset/contract liability

A contract asset is recognised when the Company's right to consideration is conditional on something other than the passage of time. A contract asset is subject to impairment in accordance to MFRS 9, Financial Instruments (see Note 2(g)(i)).

A contract liability is stated at cost and represents the obligation of the Company to transfer goods or services to a customer for which consideration has been received (or the amount is due) from the customers.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in fair value with original maturities of three months or less, and are used by the Company in the management of their short term commitments.

(g) Impairment

(i) Financial assets

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost and contract assets. Expected credit losses are a probability-weighted estimate of credit losses.

The Company measures loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables and contract assets are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information, where available.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery amounts due.

(ii) Other assets

The carrying amounts of other assets are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are Companyed together into the smallest Company of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cash-generating unit exceeds its estimated recoverable amount.

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amounts of the other assets in the cash-generating unit (Companys of cash-generating units) on a pro rata basis.

In respect of other assets, impairment losses recognised in prior years are assessed at the end of each reporting year for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

(h) Equity instruments

Instruments classified as equity are measured at cost on initial recognition and are not remeasured subsequently.

Ordinary shares

Ordinary shares are classified as equity.

(i) Employee benefits

(i) Short-term employee benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) State plans

The Company's contributions to the statutory pension funds are charged to profit or loss in the financial year to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Onerous contracts

A provision for onerous contracts is recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

(k) Revenue and other income

(i) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer in exchange for transferring services to a customer, excluding amounts collected on behalf of third parties. The Company recognises revenue when (or as) it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of the asset.

The Company transfers control of service at a point in time unless one of the following overtime criteria is met:

(a) the customer simultaneously receives and consumes the benefits provided as the Company performs;

(b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

(c) the Company's performance does not create an asset with an alternative use and the Company has an enforceable right to payment for performance completed to date.

(ii) Interest income

Interest income is recognised as it accrues using the effective interest method in profit or loss.

(l) Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the temporary differences arising from the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(m) Fair value measurements

Fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant’s ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair value is categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

Level 1 : quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 : inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : unobservable inputs for the asset or liability.

The Company recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

3. Property, plant and equipment

	Office equipment	Computers	Plant and equipment	Lease improvement	Furniture and fixtures	Total

Unrecognised deferred tax assets

Deferred tax assets have not been recognised in respect of the following items (stated at gross):

	2021
	RM
Provisions	45,516,170
Property, plant and equipment	1,148,481
Tax loss carry-forwards	15,425,422
Other temporary differences	183,362
	62,273,435

Unutilised tax losses amounting to RM15,425,422 will expire in years of assessment 2028 under the current tax legislation.

Deferred tax assets have not been recognised in respect of these items as the Company has been granted with the pioneer status as disclosed in Note 16.

Movement in temporary differences during the year:

	At 1.4.2019	Recognised in profit or loss (Note 16)	At 31.3.2020/ 1.4.2020	Recognised in profit or loss (Note 16)	At 31.3.2021

		132,248,880	**26,916,285**

6.1 Lease receivables

During the year, the Company has given hardware and software on finance lease. The transaction pertains to certain assets taken on lease and certain assets purchased from its customer and leased back to the customer with the lease amount fair valued at RM19,954,530. The lease periods under these arrangements range from 3 years to 7 years and are discounted using an interest rate of 4.9%. There is no collateral pledged in this transaction. The lease receivables as at reporting dates are as follows:

	2021 RM
At 1 April	-
Addition	22,223,990
Interest income	(788,094)
Lease payments received	(3,687,262)
At 31 March	**17,748,634**

The lease payments to be received are as follows:

	2021 RM
Less than one year	5,254,858
One to two years	5,145,045
Two to five years	7,097,980
More than five years	250,751
Total undiscounted lease payments	17,748,634
Unearned interest income	(1,478,730)
Net investment in lease	**16,269,904**

6.2 Trade receivables

Trade receivables are usually settled on 30 to 90 days.

6.3 Amount due from ultimate holding company and related companies

The amount due from ultimate holding company and related companies are subject to the normal trade terms.

6.4 Amount due from related company

The amount due from related company is unsecured, subject to interest at 3.78% per annum (2020: 3.78% per annum) and repayable on demand

7. Contract assets/(liabilities)

	2021 RM	2020 RM
Current		
Contract assets	26,341,590	20,058,650
Non-current		
Contract liabilities	(733,506)	-
Current		
Contract liabilities	(2,434,475)	(3,450,228)

The contract assets primarily relate to the Company's right to consideration for work completed on the milestone-based projects but not yet billed at the reporting date.

The contract liabilities primarily relate to the advance consideration received from customers for the milestone-based projects, which revenue is recognised overtime during the duration of the projects.

Significant changes to contract assets and contract liabilities balances during the period are as follows:

	2021 RM	2020 RM
Contract liabilities at the beginning of the period recognised as revenue	3,450,228	3,619,299

8. Cash and cash equivalents

	Note	2021 RM	2020 RM
Cash at banks		401,737	3,002,993
Fixed deposits with licensed bank	8.1	28,556,501	52,423,293
		28,958,238	**55,426,286**

8.1 The effective interest rate of fixed deposits ranges from 0.95% to 1.55% (2020: 1.51% to 2.85%) per annum and the maturity period ranges from 1 to 3 months (2020: 1 to 3 months).

9. Share capital

	Number of shares	Amount	Number of shares	Amount
	2021	2021	2020	2020
		RM		RM
Issued and fully paid shares with no par value classified as equity instruments:				
Ordinary shares At 1 April/31 March	**10,654,000**	**10,654,000**	**10,654,000**	**10,654,000**

Ordinary shares

The holder of ordinary shares is entitled to receive dividends as declared from time to time, and is entitled to one vote per share at meetings of the Company.

10. Lease liabilities

	2021 RM	2020 RM
Non-current		
Finance lease liabilities	9,091,269	-
Lease liabilities	-	3,911,653
	9,091,269	**3,911,653**
Current		
Finance lease liabilities	4,776,607	-
Lease liabilities	3,674,094	4,194,377
	8,450,701	**4,194,377**
	17,541,970	**8,106,030**

Included in the current balance of lease liabilities were lease payables in relation the rental of office building amounting to RM3,674,094 (2019: RM8,106,030). The remaining balances are on account of the hardware and software related finance lease transactions which are subsequently lease back to the customer (See Note 6.1).

Finance lease liabilities

Finance lease liabilities are payable as follows:

	Future minimum lease payments	Interest	Present value of minimum lease payments
	2021	2021	2021
	RM	RM	RM
Less than one year	5,318,721	(542,111)	4,776,607
Between one and five years	9,671,657	(580,388)	9,091,269
	14,990,378	**(1,122,499)**	**13,867,876**

		60,955,034	23,147,319
		93,087,998	**23,632,649**

12.1 Provision for employee benefits: leave encashment

Movement in provision for employee benefits: leave encashment is shown as follow:

	2021	2020
	RM	RM
At 1 April	1,719,670	1,462,708
Charge for the year (Note 15)	1,555,353	675,462
Leave encashment paid	(832,403)	(418,500)
At 31 March	**2,442,620**	**1,719,670**

The Company provides for the compensated absences subject to Company's leave policy. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each reporting date. It is measured as at reporting date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

12.2 Provision for onerous contracts

This provision related to onerous contracts which are recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Significant estimate and judgement are required in estimating the budgeted costs in relation of the contract. A change in the estimates will directly affect the provision to be recognised in relation to the future obligations under the contract. The discount rate used is a pre-tax rate that reflects the current market assessment of the time value of money and the risks specific to the liability. This provision for onerous contract has occurred from a service agreement with other party and is towards the additional delivery costs.

13. Revenue

	2021 RM	2020 RM
Revenue from contracts with customers		
Sale of equipment	5,074,435	7,770,983
Rendering of services	214,754,486	111,025,635
	219,828,921	**118,796,618**

13.1 Disaggregation of revenue

	2021 RM	2020 RM
Timing of revenue recognition		
At a point of time	5,074,435	7,770,983
Over time	214,754,486	111,025,635
	219,828,921	**118,796,618**

13.2 Nature of services

The following information reflects the typical transactions of the Company:

Nature of services	**Timing of recognition or method used to recognised revenue**	**Significant payment terms**
Sale of equipment	Revenue is recognised at a point of time upon the completion of the project when the services are delivered and accepted by the customers at their premises.	Credit period of 30-90 days from invoice date.
Rendering of services	Revenue is recognised over the period of time for the milestone-based projects when the services are delivered and accepted by the customers at their premises.	Credit period of 30-90 days from invoice date.

13.3 Transaction price allocated to the remaining performance obligations

Revenue from performance obligations that are unsatisfied (or partially unsatisfied) as at the reporting date and will be recognised in the next twelve months is 2021: RM33,970,486 (2020: RM8,449,638).

14. Cost of services

	2021 RM	2020 RM
Employee cost	133,389,988	61,808,035
Hardware related expenses	53,968,710	6,918,429
Anticipated loss on project	60,836,249	-
	248,194,947	**68,726,464**

15. (Loss)/Profit for the year

	2021 RM	2020 RM
(Loss)/Profit for the year is arrived at after charging/(crediting):		
Auditors' remuneration		
Audit fees:		
- KPMG PLT	54,000	54,000
Material expenses/(income)		
Depreciation of property, plant and equipment	804,478	480,137
Depreciation on right-of-use assets	3,994,114.	4,076,575
Personnel expenses (including key management personnel):		
- Salaries and allowances	70,603,107	54,531,388
- Defined contribution plan	5,761,431	3,798,776
- Other staff-related expenses	4,709,684	3,477,871
Leave encashment expenses	1,555,353	675,462
Foreign exchange losses/(gain):		
- Realised	3,625,787	289,686
- Unrealised	21,015	(615,837)
Interest income	**(1,743,302)**	**(1,546,234)**
Net (gain)/loss on impairment of financial instruments		
Financial assets at amortised cost		
Trade receivables	101,090	(130,630)
Other receivables	158,033	132,968
Amount due from related companies	(1,098,253)	6,072,850
	(839,130)	**6,075,188**

In prior year, the net loss on impairment of financial assets at amortised cost includes RM6,072,850 for the impairment loss for loans given to Softgen Services Pte. Limited.

16. Tax expense

	2021 RM	2020 RM
Current tax expense		
- Current year	-	6,482,765
- Over provision in prior years	(5,917,585)	-
	(5,917,585)	**6,482,765**
Deferred tax expense		
- Origination and reversal of temporary differences	-	(4,050,449)
- Under provision in prior year	4,050,449	-
	4,050,449	(4,050,449)
	(1,867,136)	**2,432,316**
Reconciliation of tax expense		
(Loss)/Profit before tax	(44,887,365)	21,137,261
Income tax calculated using Malaysia tax rates at 24% (2019: 24%)	(10,772,967)	5,072,943
Non-deductible expenses	141,372	1,977,327
Deferred tax asset not recognised	10,895,176	-
Recognition of previously unrecognised deferred tax asset	-	(4,195,576)
Tax exempted income	(263,581)	(422,378)
Over provision in prior years	(1,867,136)	-
	(1,867,136)	**2,432,316**

The Company was awarded MSC Malaysian Status and is eligible for income tax exemption on statutory income from 31 May 2019 to 30 May 2024.

The Company was under pioneer status until 30 May 2024 and since the trade income was not taxable, no provision for tax was required to be made on the business income and no deferred tax was created.

17. Financial instruments

17.1 Categories of financial instruments

The table below provides an analysis of financial instruments categorised as amortised cost ("AC").

	Carrying amount	AC
	RM	RM
2021		
Financial assets		
Trade and other receivables (excluding prepayments and GST receivables)	114,072,362	114,072,362
Cash and cash equivalents	28,958,238	28,958,238
	143,030,600	**143,030,600**
Financial liabilities		
Trade payables	(57,499,232)	(57,499,232)
Other payables (excluding VAT payable)	(28,820,253)	(28,820,253)
	(86,319,485)	**(86,319,485)**
2020		
Financial assets		
Trade and other receivables (excluding prepayments and GST receivables)	20,139,908	20,139,908
Cash and cash equivalents	55,426,286	55,426,286
	75,566,194	**75,566,194**
Financial liabilities		
Trade payables	(4,056,815)	(4,056,815)
Other payables (excluding VAT payable)	(21,547,752)	(21,547,752)
	(25,604,567)	**(25,604,567)**

17.2 Net gains and losses arising from financial instruments

	2021	2020
	RM	RM
Net losses on:		
Financial assets at amortised cost	2,561,327	(3,913,117)

17.3 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

17.4Credit risk

Credit risk is the risk of a financial loss if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk arises principally from the individual characteristic of each customer. There are no significant changes as compared to prior periods.

Trade receivables and contract assets

Risk management objectives, policies and processes for managing the risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on new customers requiring credit over a certain amount.

At each reporting date, the Company assesses whether any of the trade receivables and contract assets are credit impaired.

The gross carrying amounts of credit impaired trade receivables and contract assets are written off (either partially or fully) when there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, trade receivables and contract assets that are written off could still be subject to enforcement activities.

There are no significant changes as compared to previous year.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables and contract assets are represented by the carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

In managing credit risk of trade receivables, the Company manages its customers and take appropriate action (including but not limited to legal action) to recover long overdue balances. Generally, trade receivables will pay within 30-90 days. The Company's debt recovery process is as follows:

a) Above 180 days past due after credit term, the Company will start to initiate a structured debt recovery process which is monitored by the sales management team; and

b) Above 365 days past due, the Company will commence a legal proceeding gainst the customer.

The Company uses a simple average loss rate model and past due date to measure Expected Credit Losses ("ECLs") of trade receivables and contract assets. Consistent with the debt recovery process, invoices which are past due 365 days will be considered as credit impaired.

The Company assessed the risk of loss of each customer individually based on their financial information, past trend of payments and external credit ratings, where applicable. All of these customers have low risk of default.

The Company also considers differences between (a) economic conditions during the period over which the historic data has been collected, (b) current conditions and (c) the Company's view of economic conditions over the expected lives of the receivables. Nevertheless, the Company believes that these factors are immaterial for the purpose of impairment calculation for the year.

The following table provides information about the exposure to credit risk and ECLs for trade receivables and contract assets which are grouped together as they are expected to have similar risk nature.

	Gross carrying amount	Loss allowance	Net balance
	RM	RM	RM
2021			
Current (not past due)	61,650,476	(788)	61,649,688
0 - 90 days past due	13,659,840	(899)	13,658,941
90 - 180 days past due	3,599,502	(414)	3,599,088
180 - 365 days past due	425,655	(224)	425,431
	79,335,473	**(2,325)**	**79,333,148**
Credit impaired			
Past due more than 365 days	15,345,075	(15,342,750)	2,325
	94,680,548	**(15,345,075)**	**79,335,473**
Trade receivables	68,338,958	(15,345,075)	52,993,883
Contract assets	26,341,590	-	26,341,590
	94,680,548	**(15,345,075)**	**79,335,473**
2020			
Current (not past due)	13,765,252	(811)	13,764,441
0 - 90 days past due	1,666,131	(250)	1,665,881
90 - 180 days past due	21,549,748	(365)	21,549,383
180 - 365 days past due	1,463,849	(1,408)	1,462,441
	38,444,980	**(2,834)**	**38,442,146**

	Gross carrying amount	Loss allowance	Net balance
	RM	RM	RM
Credit impaired			
Past due more than 365 days	15,243,985	(15,241,151)	2,834
	53,688,965	**(15,243,985)**	**38,444,980**
Trade receivables	33,630,315	(15,243,985)	18,386,330
Contract assets	20,058,650	-	20,058,650
	53,688,965	**15,243,985**	**38,444,980**

The movements in the allowance for impairment in respect of trade receivables during the year are shown below:

	Not credit impaired	Credit impaired	Total
	RM	RM	RM
Balance at 1 April 2019	-	16,808,706	16,808,706
Amounts written off	-	(1,434,091)	(1,434,091)
Net remeasurement of loss allowance	2,834	(133,464)	(130,630)
Balance at 31 March 2020/ 1 April 2020	**2,834**	**15,241,151**	**15,243,985**
Net remeasurement of loss allowance	(509)	101,599	101,090
Balance at 31 March 2021	**2,325**	**15,342,750**	**15,345,075**

Other receivables

Risk management objectives, policies and processes for managing the risk

Credit risks on other receivables and deposits are mainly arising from deposits paid for office buildings and fixtures rented. These deposits will be received at the end of each lease terms. The Company manages the credit risk together with the leasing arrangement.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

The following table provides information about the exposure to credit risk for other receivable and deposits balances.

	Gross carrying amount	Impairment loss allowances	Net balance
	RM	RM	RM
2021			
Other receivables	1,004,826	(576,941)	427,885
Deposits	1,159,690	(6,000)	1,153,690
	59,306,351	**(582,941)**	**1,581,575**
2020			
Other receivables	668,368	(418,908)	249,460
Deposits	1,174,274	(6,000)	1,168,274
	1,842,642	**(424,908)**	**1,417,734**

The movement of allowance account used to record the impairment are as follows:

	Other receivables	Deposits	Total
	RM	RM	RM
Balance at 1 April 2019	285,940	6,000	291,940
Impairment loss recognised	132,968	-	132,968
Balance at 31 March 2020/ 1 April 2020	**418,908**	**6,000**	**424,908**
Impairment loss recognised	158,033	-	158,033
Balance at 31 March 2021	**576,941**	**6,000**	**582,941**

Other than the impairment losses made, the Company is of the view that the loss allowance is not material in relation to the other receivables and deposits balances at financial year end and hence, it is not provided for.

Cash and cash equivalents

Risk management objectives, policies and processes for managing the risk

The cash and cash equivalents are held with banks and financial institutions.

Exposure to credit risk, credit quality and collateral

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

These banks and financial institutions have low credit risks. In addition, some of the bank balances are insured by government agencies. Consequently, the Company is of the view that the loss allowance is not material and hence, it is not provided for.

Inter-company balances

Risk management objectives, policies and processes for managing the risk

The Company trades with its ultimate holding company and related companies and provides advances to a related party. The Company monitors the results of the immediate holding company, related companies and related party on individual basis.

Exposure to credit risk, credit quality and collateral

As at the end of reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position.

Recognition and measurement of impairment loss

Generally, the Company considers receivables from its ultimate holding company, related companies and related party to have low credit risk. The Company assumes that there is a significant increase in credit risk when the financial position of immediate holding company's and related companies' financial positions deteriorate significantly. As the Company is able to determine the timing of payments of the balances when they are payable, the Company considers the balances to be in default when the immediate holding company, related companies or related party is not able to pay when demanded. The Company considers the immediate holding company's, a related company's or a related party's balances to be credit impaired when:

- The immediate holding company, a related company or a related party is unlikely to repay its balance to the Company in full.
- The immediate holding company, a related company or a related party is continuously loss making and is having a deficit shareholder's fund.

The Company determines the profitability of default for the receivables individually using internal information available.

Inter-company balances

The following table provides information about the exposure to credit risk for inter-companies balances.

	Gross carrying amount	Impairment loss allowance	Net balances
	RM	RM	RM
2021			
Amount due from ultimate holding company	11,508,925	-	11,508,925
Amount due from related company	47,797,426	(4,974,597)	42,822,829
	59,306,351	**(4,974,597)**	**54,331,754**
2020			
Amount due from ultimate holding company	4,709,892	-	4,709,892
Amount due from related company	8,377,804	(6,072,850)	2,304,954
	13,087,696	**(6,072,850)**	**7,014,846**

The movement of allowance account used to record the impairment are as follows:

	Credit impaired
	RM
Balance at 1 April 2019	**-**
Impairment loss	6,072,850
Balance at 31 March 2020/1 April 2020	**6,072,850**
Impairment loss	(1,098,253)
Balance at 31 March 2021	**4,974,597**

Other than the impairment loss made for the financial year, the Company did not recognise any allowances for impairment loss as the Company is of the view that the loss allowances is not material and hence, it is not provided for.

17.5 Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's exposure to liquidity risk arises principally from its various payables.

The Company maintains a level of cash and cash equivalents deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Maturity analysis

The table below summarises the maturity profile of the Company's financial liabilities as at the end of the reporting period:

	Carrying amount	Discount rate %	Contractual cash flows	Under 1 year	More than 1 year
2021	RM		RM	RM	
Non-derivative financial liabilities					
Lease liabilities	17,541,970	2.75 – 4.90	18,664,472	8,992,815	9,671,657
Trade payables	57,499,232	-	57,499,232	57,499,232	-
Other payables	28,820,253	-	28,820,253	28,820,253	-
	103,861,455		**104,983,957**	**95,312,300**	**9,671,657**
2020					
Non-derivative financial liabilities					
Lease liabilities	8,106,030	2.75	8,891,067	4,871,844	4,019,223
Trade payables	4,056,815	-	4,056,815	4,056,815	-
Other payables	21,547,752	-	21,547,752	21,547,752	-
	33,710,597		**34,495,634**	**30,476,411**	**4,019,223**

17.6 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates that will affect the Company's financial position or cash flows. The Company is not exposed to other price risk.

17.6.1 Currency risk

The Company is exposed to foreign currency risk on services rendered that are denominated in a currency other than the functional currency of the Company. The currencies giving rise to this risk are primarily United States Dollar ("USD"), Euro Dollar ("EUR"), Indian Rupee ("INR") and Australian Dollar ("AUD").

Risk management objectives, policies and processes for managing the risk

The Company ensures that the net exposure is kept to an acceptable level by monitoring the fluctuation of the foreign currency.

Exposure to foreign currency risk

The Company's exposure to foreign currency (a currency which is other than the functional currency of the Company) risk, based on carrying amounts as at the end of the reporting period are as follows:

	Denominated in			
	USD	**EUR**	**INR**	**AUD**
2021	**RM**	**RM**	**RM**	**RM**
Balances recognised in the statement of financial position				
Cash and cash equivalents	141,820	-	-	-
Trade receivables	16,454,412	398,232	-	-
Other receivables	37,177,933	-	-	-
Trade payables	(398,031)	(5,249,628)	-	(3,399,462)
Other payables	(3,387,711)	(48,652)	(29,592)	-
	49,988,423	**(4,900,048)**	**(29,592)**	**(3,399,462)**
2020				
Balances recognised in the statement of financial position				
Cash and cash equivalents	1,389,109	-	-	-
Trade receivables	1,704,746	857,179	-	-
Other receivables	2,304,954	-	-	-
Trade payables	(445,764)	-	(3,085)	-
Other payables	(944,248)	-	(11,097)	-
	4,008,797	**857,179**	**(14,182)**	**-**

Currency risk sensitivity analysis

A 5% (2020: 5%) strengthening of USD, EUR, INR and AUD against the following currencies at the end of the reporting period would have increased/(decreased) equity and post-tax profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remained constant.

	Profit or loss	
	2021	**2020**
	RM	**RM**
USD	2,380,401	190,895
EUR	(233,336)	40,818
INR	(1,409)	(675)
SGD	(161,879)	-
HKD	(22,035)	-
	1,961,742	**231,038**

A 5% (2020: 5%) weakening of USD, EUR, INR and AUD against the above currencies at the end of the reporting period would have had equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remained constant.

17.6.2 Interest rate risk

The Company's fixed rate borrowings are exposed to a risk of change in their fair values due to changes in interest rates. Short term receivables and payables are not significantly exposed to interest rate risk.

Risk management objectives, policies and processes for managing the risk

The Company has entered into interest rate swaps in order to achieve an appropriate mix of fixed and floating rate exposure within the Company's policy.

Exposure to interest rate risk

The interest rate profile of the Company's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period, was::

	2021	2020
	RM	RM
Fixed rate instruments		
Financial assets	30,911,067	54,728,247

Interest rate risk sensitivity analysis

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the end of the reporting year would not affect profit or loss.

17.7 Fair value information

The carrying amounts of cash and cash equivalents and short term receivables and payables reasonably approximate their fair values due to the relatively short term nature of these financial instruments.

18. Capital management

The Company's objectives when managing capital is to maintain a strong capital base and safeguard the Company's ability to continue as a going concern, so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Directors monitor and are determined to maintain an optimal debt-to-equity ratio that complies with debt covenants and regulatory requirements.

19. Related parties

Identity of related parties

For the purposes of these financial statements, parties are considered to be related to the Company, if the Company has the ability, directly or indirectly, to control or jointly control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Company and the party are subject to common control. Related parties may be individuals or other entities.

Related parties also include key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Company either directly or indirectly. Key management personnel include all the Directors of the Company.

The Company has related party relationship with its ultimate holding company and related companies.

List of related parties:

Name of related party	**Nature of relationship**
Tech Mahindra Limited	Ultimate holding company
Sofgen Services Pte. Limited	Related company
Tech Mahindra Vietnam Company Limited	Related company

Significant related party transactions

Related parties transactions have been entered into in the normal course of business under negotiated terms. The significant related party transactions of the Company are shown below. The balances related to the transactions are shown in Note 6 and Note 11.

	2021 RM	2020 RM
A. Ultimate holding company

INDEPENDENT AUDITOR'S REPORT

To the Members of Sofgen Holdings Limited

Report on the Audit of Special Purpose Condensed Consolidated Financial Statements Opinion

We have audited the special purpose condensed consolidated financial statements of Sofgen Holdings Limited (""hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), which comprise the condensed consolidated balance sheet as at 31 March 2021, and the condensed consolidated statement of profit and loss and other comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the year then ended, and notes to the condensed consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (together herein after referred to as "condensed consolidated financial statements"). These condensed consolidated financial statements have been prepared by the management as described in Note 2 to the condensed consolidated financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid condensed consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, of the consolidated state of affairs of the Group as at 31 March 2021, and of its consolidated loss and other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date in accordance with Note 2 to the condensed consolidated financial statements.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ('the Act'). Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Condensed Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the condensed consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the condensed consolidated financial statements.

Management's and Board of Directors' Responsibility for the Condensed Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the preparation and presentation of these condensed consolidated financial statements that give a true and fair view of the consolidated state of affairs, consolidated profit/loss and other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs, as described in Note 2 to the financial statements.

The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the condensed consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the condensed consolidated financial statements by the Management and Directors of the Holding Company, as aforesaid.

In preparing the condensed consolidated financial statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Condensed Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Condensed Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these condensed consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the condensed consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and Board of Directors.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting in preparation of condensed consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the condensed consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the condensed consolidated financial statements, including the disclosures, and whether the condensed consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the condensed consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the condensed consolidated financial statements of which we are the independent auditors.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the condensed consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the condensed consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The financial statements/financial information of one subsidiary, whose financial statements/financial information reflect total assets (before consolidation adjustments) of USD 4,098 thousands as at 31 March 2021, total revenues (before consolidation adjustments) of USD 811 thousands and net cash flows (before consolidation adjustments) amounting to USD 81 thousands for the year ended on that date, as considered in the condensed consolidated financial statements, have not been audited either by us or by other auditors. These unaudited financial statements/financial information have been furnished to us by the Management and our opinion on the condensed consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this subsidiary, is based solely on such unaudited financial statements/financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements/financial information are not material to the Group.

Our opinion on the condensed consolidated financial statements is not modified in respect of the above matter with respect to our reliance on the financial statements/financial information certified by the Management.

Basis of Accounting and Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note 2 to the condensed consolidated financial statements, which describes the basis of accounting. These condensed consolidated financial statements are prepared to assist the Holding Company, Tech Mahindra Limited to comply with the requirements of Section 129 of the Act / in the preparation of their Consolidated Financial Statements. These condensed consolidated financial statements are not the statutory financial statements of the Group. As a result, these condensed consolidated financial statements may not be suitable for any other purpose. Our report must not be copied, disclosed, quoted or circulated, or referred to, in correspondence or discussion, in whole or in part or distributed to anyone other than the purpose for which it has been issued without our prior written consent.

Securities Premium:

Securities premium reserve is used to record the premium on issue of shares. The fair value of employee stock options is recognised in Securities Premium once the shares have been allotted on exercise of the options.

General Reserve:

The general reserve is a free reserve which is used from time to time to transfer profits from retained earnings for appropriation purposes.

Statutory Reserve:

Statutory reserve represent reserve created out of profits for compliance of local laws of a subsidiary.

Retained Earnings:

Retained earnings represents the undistributed profits of the group accumulated as on balance sheet date.

Foreign Currency Translation Reserve:

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than USD is recognised in other comprehensive income and is presented within equity in the foreign currency translation reserve.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2021

1. Corporate Information:

The Company Sofgen Holdings Limited (the ''Company'') was incorporated in Cyprus on 27 May 2008 as a private limited liability company under the provisions of the Cyprus Companies Law, Cap. 113. Its registered office is at 229, Arch. Makarios III Ave. Meliza Court, 4th floor, 3105, Limassol, Cyprus.

The condensed consolidated financial statements for the year ended March 31, 2021 were approved by the Board of Directors and authorized for issue on July 8th 2021.

2. Significant accounting policies:

2.1 Statement of Compliance:

These condensed consolidated financial statements (referred to as 'financial statements') have been prepared in accordance with the Indian Accounting Standards (referred to as 'Ind AS') prescribed under Section 133 of the Companies Act, 2013, read with the Companies (Indian Accounting Standards) Rules as amended from time to time.

2.2 Basis for preparation of financial statements:

The functional currency of the Company is EURO and of its subsidiaries is the currency of the primary economic environment in which the entity operates. The presentation currency of the reporting entity is USD to facilitate consolidation by the Ultimate Holding Company.

These financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current as per the Group's normal operating cycle.

The net-worth of the Group is eroded, primarily on account of losses earned in recent years. Management has performed an assessment of the ability of the Group to continue as a going concern at the reporting date for the foreseeable future, including a sensitivity assessment of its projections. In addition, the Group has obtained a Letter of Support from its ultimate holding company to provide financial assistance to the Group and it will continue in the near future which will at least be for 12 months from the date of signing of the 2021 financial statements.

Considering all the above factors, the Group believes that it has the ability to pay its operating expenses as they fall due in the ordinary course from its operating income and cash reserves; to satisfy the interest repayments in the ordinary course for 12 months from the date of the financial statements, from free cash available. Further, the Group continues to generate and receive revenue through new and existing customers even during the Pandemic situation and current economic uncertainty. Accordingly, these financial statements have been prepared as per the going concern assumption.

The Financial statements have been prepared as per section 129 (1) of the Act to assist the Tech Mahindra Limited (Parent Company) for preparation of consolidated financial statements and for the purpose of compliance with the provision of section 129 and Section 136 read with Schedule III of the Companies Act, 2013.

2.3 Basis of Consolidation:

These condensed consolidated financial statements comprise the financial statements of Sofgen Holdings Limited and its subsidiaries (the Company and its subsidiaries constitute "the Group"). The Company consolidates all entities which are controlled by it.

The Company establishes control when; it has power over the entity, is exposed or has rights to variable returns from its involvement with the entity and has ability to affect the entity's returns by using its power over the entity. The results of subsidiaries acquired, or sold, during the year are consolidated from the effective date of acquisition and up to the effective date of disposal, as appropriate.

The financial statements of the Group companies are consolidated on a line-by-line basis and intra- group balances, transactions including unrealized gain / loss from such transactions and cash flows are eliminated upon consolidation. These financial statements are prepared by applying uniform accounting policies in use at the Group. Non-controlling interests which represent part of the net profit or loss and net assets of subsidiaries that are not, directly or indirectly, owned or controlled by the company, are excluded.

Changes in the Company's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amount of the company's interests and the non-controlling interests are adjusted to reflect changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Company.

The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as on the date of disposal is recognised in the Condensed Consolidated Statement of Profit and Loss being the profit or loss on disposal of investment in subsidiary.

2.4 Business Combinations:

Acquisitions of businesses are accounted for using the purchase (acquisition) method.

The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed, and equity instruments issued at the date of exchange by the Group. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expenses as incurred.

The interest of non-controlling shareholders is initially measured either at fair value or at the non- controlling interests' proportionate share of the fair value of the acquiree' s identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity of subsidiaries.

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is remeasured at subsequent reporting dates in accordance with IND AS 109 Financial Instruments or IND AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognized in profit or loss.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at historical cost. The difference between any consideration given and the aggregate historical carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill and intangible assets

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment at least annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount.

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination, are measured at fair value as of the date of acquisition. Following initial recognition intangible assets are carried at cost , less accumulated amortization and accumulated impairment losses, if any.

2.5 Use of Estimates:

The preparation of financial statements requires the management of the Group to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Actual results may differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Critical accounting estimates

i) Revenue Recognition

The Company applies the percentage of completion method in accounting for its fixed price development contracts. Use of the percentage of completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date.

Judgement is also required to determine the transaction price for the contract and to allocate the transaction price to each distinct performance obligation. The transaction price could be either a fixed amount of customer consideration or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period. The Company allocates the elements of variable considerations to all the performance obligations of the contract unless there is observable evidence that they pertain to one or more distinct performance obligations.

The Company exercises judgments while determining the transaction price allocated to performance obligations using the expected cost-plus margin approach.

ii) Income taxes

The major tax jurisdictions for the Company are Cyprus, Singapore, Philippines and Africa. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods. Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry forwards become deductible. The Company considers the expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of the deferred tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced. The policy for the same has been explained under Note 2.15.

iii) Property, plant and equipment

The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by management at the time the asset is acquired and reviewed at the end of each reporting period. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The policy for the same has been explained under Note 2.6.

iv) Provisions

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. These are reviewed at each balance sheet date adjusted to reflect the current best estimates. The policy for the same has been explained under Note 2.17.

v) Business combinations and intangible assets

Business combinations are accounted for using Ind AS 103. Ind AS 103 requires the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent consideration and intangible assets and their estimated useful life. These valuations are conducted by independent valuation experts.

vi) Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long-term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections consider past experience and represent management's best estimate about future developments.

vii) Compensated Absences

The cost of the compensated absences is based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate; future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, other long-term employee benefits are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same has been explained under Note 2.13.

viii) Expected credit losses on financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, customer's creditworthiness, existing market conditions as well as forward looking estimates at the end of each reporting period. The policy for the same has been explained under Note 2.8.

ix) Estimation uncertainties relating to the COVID-19 pandemic

The Group has considered the possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables, unbilled revenue, intangible assets and goodwill. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Group, as at the date of approval of these financial statements has used an internal and external source of information including economic forecasts. The Group based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions.

2.6 Property, Plant & Equipment and Intangible assets:

Property, Plant & Equipment and intangible assets are stated at actual cost less accumulated depreciation and net of impairment.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable costs of bringing the item to it working condition for its intended use and estimated cost of dismantling and removing the item and restoring the site on which it is located. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

The cost of property, plant and equipment not available for use as at each reporting date is disclosed under capital work in progress.

Depreciable amount for assets is the cost of an asset, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life has been assessed based on internal technical estimate, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. The estimated useful lives of assets are as follows:

Computers	3 years
Furniture and Fixtures	5 years
Plant and equipments	3 to 5 years
Leasehold Improvements	5 yeas
Office Equipment	5 years

The estimated useful lives and residual values of the Property, Plant & Equipment and Intangible Assets are reviewed at the end of each reporting period

Leasehold improvements are amortized over the shorter of estimated useful life of the asset and lease term.

The cost of software purchased for internal use is capitalized and depreciated in full in the month in which it is put to use.

Project specific intangible assets are amortized over their estimated useful lives on a straight-line basis or over the period of the license/lease period, whichever is lower.

An item of Property, Plant & Equipment and intangibles asset is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of Property, Plant & Equipment and intangible assets are determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the profit or loss.

2.7 Leases:

At inception of the contract, the Company determines whether the contract is a lease or contains a lease arrangement. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in substance fixed lease payments. The Group recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Group as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Group recognises lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor’s net investment in the lease. When the Group is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Group applies Ind AS 115 Revenue to allocate the consideration in the contract.

2.8 Impairment of Assets:

i) Financial assets

The Group applies the expected credit loss model for recognizing impairment loss on financial assets. Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using effective interest rate. Loss allowances for trade receivables are measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into the account historical credit loss experience adjusted for forward looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

ii) Non-financial assets

a) Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability when there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit

(CGU) to which the asset belongs. If the recoverable amount of an asset (or CGU) is estimated to be less than it's carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognized in the profit or loss.

b) Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that goodwill may be impaired, relying on a number of factors including operating results, business plans and future cash flows. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to the Group's cash generating units (CGU) or groups of CGUs' expected to benefit from the synergies arising from the business combination.

A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Impairment occurs when the carrying amount of a CGU including the goodwill, exceeds the estimated recoverable amount of the CGU. The recoverable amount of a CGU is the higher of its fair value less cost to sell and its value-in-use. Value-in-use is the present value of future cash flows expected to be derived from the CGU.

The Group estimates the value-in-use of the cash generating unit (CGU) based on the future cash flows after considering current economic conditions and trends, estimated future operating results and growth rate and anticipated future economic and regulatory conditions. The estimated cash flows are developed using internal forecasts. The discount rate used for the CGU's represent the weighted average cost of capital based on the historical market returns of comparable companies.

Total impairment loss of a CGU is allocated first to reduce the carrying amount of goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU.

2.9 Revenue recognition:

Revenue from information technology services include revenue earned from services rendered on 'time and material' basis, time bound fixed price engagements and fixed price development contracts. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Group expect to receive in exchange for those products or services, net of indirect taxes, discounts, rebates, credits, price concessions, incentives, performance bonuses, penalties, or other similar items.

Revenue from time and material contracts is recognized as the related services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue.

Revenue from fixed price maintenance contracts is recognised based on the right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If invoicing is not consistent with value delivered, revenue is recognized as the services are performed. When services are performed through an indefinite number of repetitive acts over a specified period, revenue is recognised on a straight-line basis over the specified period unless some other method better represents the manner in which services are performed.

Revenue on fixed price development contracts is recognised using the 'percentage of completion' method of accounting, unless work completed cannot be reasonably estimated. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. If the Group does not have a sufficient basis to measure the progress of completion or to estimate the total contract revenues and costs, revenue is recognized only to the extent of contract cost incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the consolidated statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

The solutions offered by the Group may include supply of third-party equipment or software. In such cases, revenue for supply of such third- party products are recorded at gross or net basis depending on whether the Group is acting as the principal or as an agent of the customer. The Group recognizes gross amount of consideration as revenue when it is acting as a principal and net amount of consideration as revenue when it is acting as an agent.

Contracts assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liability ("Unearned revenue") arises when there are billing in excess of revenue.

In arrangements for hardware and software implementation and integration, related services and maintenance services, the Group has applied the guidance in Ind AS 115, by applying the revenue recognition criteria for each distinct performance obligation. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the Group is unable to determine the standalone selling price, the Group uses the expected cost-plus margin approach in estimating the standalone selling price. Fixed Price Development contracts and related services, the performance obligation is satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

Revenue from licenses where the customer obtains a ‘right to use’ the licenses is recognized at the time the license is made available to the customer. Revenue from licenses where the customer obtains a ‘right to access’ is recognised over the access period. The Group has applied the principles of Ind AS 115 to account for revenues for these performance obligations.

The Group accounts for volume discount and pricing incentives to customers as a reduction based on ratable allocation of the discounts/incentives amount to each of the underlying performance obligation that corresponds to the progress made by the customer towards earning the discount/incentive. Also, when the level of discount varies with increases in levels of revenue transactions, the Group recognises the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognised until the payment is probable and the amount can be estimated reliably. The Group recognises changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Deferred contract costs are upfront costs incurred for the contract and are amortized on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling prices. Services added that are not distinct are accounted for on a cumulative catch up basis, while those are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Liquidated damages and penalties are accounted as per the contract terms wherever there is a delayed delivery attributable to the Group and when there is a reasonable certainty with which the same can be estimated.

The Group disaggregates revenue from contracts with customers by geography.

Dividend income is recognised when the Group’s right to receive dividend is established. Interest income is recognised using effective interest rate method.

2.10 Foreign currency transactions:

The functional currency of the group is United States Dollar (‘USD’) whereas the functional currency of foreign subsidiaries is the currency of their primary economic environment.

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are restated into the functional currency using exchange rates prevailing on the dates of Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are recognized in the profit or loss.

2.11 Foreign Operations:

For the purpose of these consolidated financial statements, the assets and liabilities of the Group’s foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognized in other comprehensive income and accumulated in equity.

When a subsidiary is disposed of, in full, the relevant amount is transferred to net profit in the statement of profit and loss. However, when a change in the parent’s ownership does not result in loss of control of a subsidiary, such changes are recorded through equity.

2.12 Financial Instruments:

Financial assets and liabilities are recognized when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized in profit or loss.

i) Non-derivative financial instruments:

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortized cost

Financial assets are subsequently measured at amortized cost using the effective interest rate method less impairment losses, if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortized cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investment in equity instruments which are not held for trading.

The Group, on initial application of IND AS 109 has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognized in profit or loss.

Financial liabilities

Financial liabilities are subsequently carried at amortized cost using the effective interest rate method or at FVTPL. For financial liabilities carried at amortized cost, the carrying amounts approximate fair values due to the short-term maturities of these instruments. Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognized in a business combination or is held for trading or it is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognized in profit and loss.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

ii) Financial Guarantee contracts

Financial guarantee contracts issued by the Company are initially measured at fair value and subsequently measured at the higher of the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115.

iii) Derecognition of financial instruments

The Group derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group retains substantially all the risk and rewards of transferred financial assets, the Group continues to recognize the financial asset and also recognizes the borrowing for the proceeds received.

The Group derecognizes financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired.

2.13 Employee Benefits:

a) Gratuity:

The Group accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation, or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method. Certain overseas subsidiaries of the Company also provide for retirement benefit plans in accordance with the local laws.

Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur. Past service cost is recognized in profit or loss in the period of a plan amendment.

b) Defined Contribution Plans

Provident fund/Social Security Contributions:

The eligible employees of the Group are entitled to receive the benefits of Social Security Contributions Scheme applicable to the employees as per the labour laws of the country in which the subsidiary is domiciled. These Schemes are in nature of a defined contribution plan, in which both employees and the company make monthly contributions at a specified percentage of the covered employees' salary which are charged to the Statement of Profit and Loss on accrual basis.

c) Compensated absences:

The Group provides for the compensated absences subject to certain Group's rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date. It is measured as at balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method, whereas provision for encashment of unavailed leave on retirement is made on actual basis for foreign subsidiaries.

Actuarial gains and losses are recognised in full in the Statement of Profit and Loss in the period in which they occur.

The Group also offers a short term benefit in the form of encashment of unavailed accumulated compensated absence above certain limit for all of its employees and same is recognised as undiscounted liability at the balance sheet date.

d) Other short term employee benefits:

Other short-term employee benefits such as overseas social security contributions and performance incentives expected to be paid in exchange for the services rendered by employees, are recognised in the statement of profit and loss during the period when the employee renders the service.

2.14 Borrowing costs:

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to the Statement of Profit and Loss.

2.15 Taxation:

Tax expense comprises of current tax and deferred tax. The tax rates and tax laws used to compute the current tax amount are those that are enacted or substantively enacted as at the reporting date and applicable for the period. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the income taxes are recognised in other comprehensive income or directly in equity, respectively.

Advance taxes and provisions for current income taxes are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the relevant tax paying units has a legally enforceable right and intends to settle the asset and liability on a net basis.

Deferred income taxes

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

Deferred tax assets and liabilities are offset when it relates to income taxes levied by the same taxation authority and the relevant entity intends to settle its current tax assets and liabilities on a net basis.

Deferred tax liability (DTL) is not recognized on the accumulated undistributed profits of the subsidiary companies in the consolidated financial statements of the company if it is determined that such accumulated undistributed profits will not be distributed in the foreseeable future. When it is probable that the accumulated undistributed profits will be distributed in the foreseeable future, then DTL on accumulated undistributed profits of the subsidiary companies is recognized in the consolidated statement of profit and loss of the Group.

In cases, where the dividend distribution tax (DDT) paid by a subsidiary on distribution of its accumulated profits/ tax on dividend from a foreign subsidiary, is allowed as a set off against the Group's own DDT liability, then the amount of DDT paid by domestic subsidiary/ tax paid on foreign dividend is recognised in the consolidated statement of changes in equity.

The Group recognizes interest levied and penalties related to income tax assessments in interest expenses.

2.16 Earnings per Share:

Basic earnings/ (loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the period.

For the purpose of calculating diluted earnings / (loss) per share, the net profit / (loss) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.17 Provision, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Group has a present obligation as a result of past event, and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

2.18 Recent Indian Accounting Standards (Ind AS):

On 24 March 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from 1 April 2021. The amendments primarily relate to:

a) Change in existing presentation requirements for certain items in the Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long-term borrowings, effect of prior period errors on Equity Share capital

b) Additional disclosure requirements in specified formats, for e.g. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions

d) Additional Regulatory Information, for e.g. compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel

e) Disclosures relating to undisclosed income and crypto or virtual currency etc.

The Company is currently evaluating the impact of these amendments.

This percentage of holding is presented with reference to Issued, Subscribed and Paid up..

i) Each ordinary equity share and option share entitles the holder to one vote and carries an equal right to dividend. Class A type equity shares are not entitled to right to vote or dividend.

ii) Capital Management:

The Group manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to stakeholders through the optimisation of the debt and equity balance. The capital structure of the Group consists of net debt and total equity of the Group. The Group is not subject to any externally imposed capital requirements. The Group's risk management committee reviews the capital structure of the Group on an ongoing basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital.

24. Particulars of Consolidation

The financial statements present the consolidated accounts of the Group, which consists of financial statements of Sofgen Holdings Limited and its subsidiaries:

Name of Company	Country of Incorporation	Extent of Holding	
		As at March 31, 2021	As at March 31, 2020
Sofgen Holdings Limited and its following subsidiaries:	Cyprus		
• Tech Mahindra (Switzerland) SA* (Formerly known as Sofgen SA)	Switzerland	-	100%
• Sofgen Africa Limited	Kenya	100%	100%
• Tech Mahindra Products Services Signapore Pte. Ltd. (Formerly known as Sofgen Services Pte. Ltd.)	Singapore	100%	100%

* During the financial year 2020-21 the investment in Tech Mahindra (Switzerland) SA was sold to Tech Mahindra Limited.

25. Contingent Liabilities

Bank Guarantees/corporate guarantees outstanding as at March 31, 2021: Nil. March 31, 2020: USD 0.78 Million).

26. Goodwill

Following is the summary of changes in carrying amount of goodwill:

USD in Thousands

Particulars	Year ended	
	March 31, 2021	March 31, 2020
Balance at the beginning of the year	2,406	2,406
Acquisition/(Sell-off) during the year	(2,406)	-
Effect of foreign currency exchange differences (net)	-	-
Impairment	-	-
Balance at the end of the year	**-**	**2,406**

The Group tests goodwill for impairment at least annually, or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill has been allocated for impairment testing purposes to the underlying cash-generating unit ('CGU') identified based on business units/geographies. The goodwill impairment test is performed at the level of the CGU or groups of CGUs which are benefiting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes. The recoverable amount of CGUs is determined based on higher of value-in-use and fair value less cost to sell. The recoverable value was determined by value in use in cases where there is no basis for making a reliable estimate of the price at which an orderly transaction to sell the asset would take place between market participants at the measurement date under current market conditions.

In determining the value in use, cash flow projections from financial budgets approved by senior management have been considered. Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long-term growth rates, weighted average cost of capital and estimated operating margins.

Cash flow projections are considered for next 3-5 years and consider past experience and represent management's best estimate about future developments. Cash flows beyond the five-year period are extrapolated using a 2% rate (31 March 2020).

The goodwill as of 31 March 2020 pertained to investment in Tech Mahindra (Switzerland) SA which was sold to Tech Mahindra Limited during the financial year 2020-21. Hence the entire goodwill has been reversed and impairment testing was not required as of 31 March 2021.

27. Details of employee benefits as required by IND AS-19 - Employee Benefits are as under:

Defined Contribution Plan

Amount recognized as an expense in the Statement of Profit and Loss for the year ended March 31, 2021 in respect of defined contribution plan is USD 817 Thousand (March 31, 2020: USD 1,002 Thousand).

28. Financial Instruments and Risk Review

Financial Risk Management Framework

The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions.

Financial Instruments by Category

The carrying value and fair value of financial instruments by categories as of March 31, 2021 is as follows:

USD in Thousand

Other financial liabilities	-	-	-	745	745	745
Total	**-**	**-**	**-**	**30,316**	**30,316**	**30,316**

*The fair value of cash and cash equivalents, trade receivables, unbilled receivables, trade payables, borrowing and certain other financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments.

Fair Value Hierarchy

The following table summarizes financial assets and liabilities measured at fair value on a recurring basis and financial assets that are not measured at fair value on a recurring basis (but fair value disclosures are required), The different levels have been defined as follows:

Level-1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities at net market value.

Level-2 – Inputs other than quoted prices included within level-1 that are observable for asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level- 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Since there are no financial instruments valued at fair value, no further disclosure is required.

Credit Risk

Credit risk is the risk of financial loss arising from counterparty failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses of both, the direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks. Credit risk is controlled by analyzing credit limits and creditworthiness of customers on a continuous basis to whom the credit has been granted after obtaining necessary approvals for credit.

Financial instruments that are subject to concentrations of credit risk principally consist of trade receivables, investments, loans, cash and cash equivalents, and other financial assets. None of the financial instruments of the Group results in material concentration of credit risk.

Credit risk on cash and cash equivalents is limited as the Group generally invest in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies. Investments primarily include investment in funds deposited at a bank/financial institution for a specified time period.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk was USD 14,206 Thousand and USD 13,238 Thousand as of March 31, 2021 and March 31, 2020 respectively, being the total of the carrying amount of trade receivables, investments, loans, cash and cash equivalents, and other financial assets.

In addition, the Group is exposed to credit risk in relation to financial guarantees given to banks provided by the Group. The Group's maximum exposure in this respect is the maximum amount the Group would have to pay if the guarantee is called on. Refer Note 25 above.

Trade receivables

Ind AS requires expected credit losses to be measured through a loss allowance. The Group assesses at each date of statements of financial position whether a financial asset or a group of financial assets is impaired

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusts for forward-looking information. Group's exposure to customers is diversified and no single customer contributes to more than 10% of outstanding accounts receivable and unbilled revenue as of March 31, 2021 and March 31, 2020. The concentration of credit risk is limited because the customer base is large and unrelated.

The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates as given in the provision matrix.

Movement in the expected credit loss allowance:

		USD in Thousand
Particulars	**As at March 31, 2021**	**As at March 31, 2020**
Balance at the beginning of the year	1,578	1,476
Movement in the expected credit loss allowance on trade receivables calculated at lifetime expected credit losses	165	102
Foreign currency translation difference	(17)	-
Balance at the end of the year	**1,726**	**1,578**

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Such changes in the values of financial instruments may result from changes in the foreign currency exchange rates, interest rates, credit, liquidity, and other market changes. The Group's exposure to market risk is primarily because of foreign currency exchange rate risk.

Foreign Currency Exchange Rate Risk

The fluctuation in foreign currency exchange rates may have potential impact on the statement of profit or loss and other comprehensive income and equity, where any transaction references more than one currency or where assets / liabilities are denominated in a currency other than the functional currency of the respective entities. Considering the countries and economic environment in which the Group operates, its operations are subject to risks arising from fluctuations in exchange rates in those countries. The risks primarily relate to fluctuations in US Dollar, Euro, Singapore Dollar, Great Britain Pound, Swiss Franc and Kenyan Shillings against the respective functional currencies of Sofgen Holdings Limited. The Group evaluates the impact of foreign exchange rate fluctuations by assessing its exposure to exchange rate risks.

Interest Rate Sensitivity Analysis

If interest rates had been 0.25 basis points higher/lower and all other variables were held constant, the Group's profit for the year ended March 31, 2021 would decrease/increase by USD 42 Thousand (March 31, 2020: decrease/ increase by USD 40 Thousand). This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

Liquidity Risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2021:

USD in Thousand

Particulars	**Less than 1 year**	**1-3 years**	**3-5 years**	**Total**
Non-Derivative Financial Liabilities				
Lease Liabilities	218	-	-	218
Other borrowings	15,859	-	-	15,859
Trade Payables	7,111	-	-	7,111
Other Financial Liabilities	484	-	-	484
Total	**23,672**	-	-	**23,672**

The table below provides details regarding the contractual maturities of significant financial liabilities as of March 31, 2020:

USD in Thousand

Particulars	**Less than 1 year**	**1-3 years**	**3-5 years**	**Total**
Non-Derivative Financial Liabilities				
Lease Liabilities	521	143	-	664
Other borrowings	17,839	-	-	17,839
Trade Payables	11,083	-	-	11,083
Other financial liabilities	745	-	-	745
Total	**30,188**	143	-	**30,331**

Other Risks:

Financial assets carried at amortized cost as at March 31, 2021 is USD 14,206 Thousand (March 31, 2020: USD 13,238 Thousand)

In addition to assessing counterparty risk and the historical pattern of credit loss, the Company has considered the likelihood of increased credit risk considering emerging situations due to the COVID-19 pandemic. This assessment is based on the likelihood of the recoveries from the customers in the present situation. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case. The same assessment is done in respect of unbilled receivables and contract assets while arriving at the level of provision that is required. Basis this assessment, the allowance for doubtful trade receivables is considered adequate.

29. Current Tax and Deferred Tax

The income tax expense for the year ended can be reconciled to the accounting profit as follows:.

USD in Thousand

Particulars	Year ended	
	March 31, 2021	March 31, 2020
Profit/(Loss) before income taxes	1,155	(6,127)
Enacted tax rates	22.51%	25%
Income tax expense calculated at tax rate	(260)	1532
Effect of expenses that are not deductible in determining taxable profit	501	(64)
Effect of unused tax losses and tax offsets not recognised as deferred tax assets	38	(1632)
Others	(2,879)	(133)
Income tax expense recognized in profit or loss	**(2,601)**	**297**

Deferred Tax:

The breakup of Deferred Tax Assets presented in the Balance Sheet is as follows::

USD in Thousand

31. Operating Segments

Ind AS 108 establishes standards for the way that companies report information about their operating segments and related disclosures, as applicable about products and services, geographic areas, and major customers.

Based on the “management approach” as defined in Ind AS 108, the management evaluates the Group’s performance and allocates resources based on an analysis of various performance indicators by business segments and geographic segments.

The Group is engaged in the business of providing IT services. As the Group is engaged in only one business segment, the balance sheet as at 31 March 2021 and statement of profit and loss for the year ended then pertain to only one business segment. Accordingly, information has been presented only for geographic segments.

Geographical information on revenue and business segment revenue information is collated based on individual customers invoiced or in relation to which the revenue is otherwise recognized. Information on reportable segments for the year ended March 31, 2021 given below:

Revenues as per geographies

Geography	USD in Thousand For the year ended March 31, 2021	March 31, 2020
Americas	196	910
Europe	11,704	11,749
Asia Pacific region	10,377	10,639
Rest of the world	1,636	3,833
Total	**23,912**	**27,131**

32. Disclosure for Ind AS 115 – Revenue from contracts with customers

Disaggregation of Revenue:

Revenue disaggregation by geography is disclosed in Note 31 above.

The Group has evaluated the impact of the COVID-19 pandemic, amongst other matters, resulting from (i) the possibility of constraints to render services which may require revision of estimations of costs to complete the contract because of additional efforts, (ii) termination or deferment of contracts by customers and (iii) customer disputes. The Group has concluded that the impact of the COVID-19 pandemic is not material based on these estimates.

33. Leases:

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation, and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Group has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019).

Group as a lessee:

Operating leases:

For transition, the Group has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Group has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease. The Group has used a single discount rate to a portfolio of leases with similar characteristics.

On transition, the Group recognised a lease liability measured at the present value of the remaining lease payments. The right-of-use asset is recognised at it's carrying amount as if the standard had been

applied since the commencement of the lease but discounted using the lessee's incremental borrowing rate as at April 1, 2019. Accordingly, a right-of-use asset of USD 537 Thousand and a corresponding lease liability of USD 551 Thousand was recognized. The cumulative effect on transition in retained earnings net-off taxes is USD 14 Thousand The principle portion of the lease payments have been disclosed under cash flow from financing activities. The lease payments for operating leases as per Ind AS 17-Leases, were earlier reported under cash flow from operating activities. The weighted average incremental borrowing rate 2% has been applied to lease liabilities recognised in the balance sheet at the date of initial application.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability. The difference between the future minimum lease rental commitments towards non-cancellable operating leases and finance leases reported as at March 31, 2019 compared to the lease liability as accounted as at April 1, 2019 is primarily due to inclusion of present value of the lease payments for the cancellable term of the leases, reduction due to discounting of the lease liabilities as per the requirement of Ind AS 116 and exclusion of the commitments for the leases to which the Group has chosen to apply the practical expedient as per the standard.

The total cash outflow for leases is USD 451 Thousand for the year ended March 31, 2021, including cash outflow for short term and low value leases.

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2021 on discounted and undiscounted basis:

			USD in Thousands
Particulars	**Not later than 1 year**	**1 - 5 years**	**Later than 5 years**
Minimum Lease Rental Payables	223	-	-
Present Value of Minimum Lease Payments	218	-	-

The table below provides details regarding the contractual maturities of lease liabilities as of March 31, 2020 on discounted and undiscounted basis:

Expenditure on the objects of the Company	**6,260.87**	7,089.03
Corpus fund	**13,897.16**	12,667.90

REVIEW OF ACTIVITIES

The Foundation was set up in 2006, as a Section 25 Company (referred to as a Section 8 Company in the Companies Act, 2013). Since then, it has worked tirelessly towards the overarching vision of "Empowerment through Education", establishing itself as a prominent CSR player within the Mahindra Group as well as a leading social organization at the national level. The Foundation essentially works with children, youth and teachers from disadvantaged urban communities in India, with a special focus on women and persons with disabilities. During the year under review, Tech Mahindra Foundation has successfully implemented 150 high-impact projects with more than 90 partners, directly benefitting 31,767 individuals. In addition, the Foundation reached out to over 1.5 million people across the country through its Covid Relief efforts.

EDUCATION

The key initiatives in the area of School Education include:

ALL ROUND IMPROVEMENT IN SCHOOL EDUCATION (ARISE)

Tech Mahindra Foundation's educational initiatives under ARISE are long-term school improvement programmes, in partnership with local governments and partner organisations. The Foundation in 2020-21 worked with 30 government schools to turn them around into model schools of excellence. Around 6,400 students were covered under this programme.

During the year, the Foundation expanded its work for children with disabilities through its ARISE+ programme. This programme is a variant of ARISE in which children with disabilities are provided chronic therapy as well as special education to help them lead more fulfilling lives. Through 25 projects, the programme enabled 2,776 differently-abled students to become more independent in managing themselves and better learners. As the interventions shifted to an online mode, 430 students were provided digital tablets to ensure continuity of learning.

SHIKSHAANTAR

Shikshaantar, envisioned as a programme for enhancing capacity of government school teachers, has emerged as an important programme in the education portfolio of the Foundation. TMF works with the Municipal Corporations in East Delhi and North Delhi by running their In-Service Teacher Education Institutes, and during the year under review, as many as 6,378 teachers were trained as part of this initiative. This included specially designed modules for Digital Literacy, Cyber Security and Mental Health that were delivered to the teachers through online sessions.

MOBILE SCIENCE LAB

In order to increase the footprint of its work in Education and reach the unreached, TMF had launched a unique initiative in 2019-20: The Mobile Science Lab. For this, a Mahindra bus has been remodelled to be a science lab on wheels and has been going from school to school in East Delhi to provide STEM learning for children in grades 3 and 4 in these schools. Though the program could not be implemented because of Covid, a second Mobile Science Lab was commissioned through funding received from the National Scheduled Caste Finance & Development Corporation.

EMPLOYABILITY

Skills-for-Market Training (SMART) is the Foundation's flagship programme in employability. It is built on the vision of an educated, enabled and empowered India, and the belief that educated and skilled youth are the country's true strength. The programme started with 3 Centres in 2012 and is currently running over 100 Centres at 11 locations across India. These include SMART Centres, SMART+ Centres (training for people with disabilities), and SMART-T Centres (training in technical trades).

In 2020-21, your Company trained 14,394 young women and men under its SMART program, of which,1,687 were persons with disabilities. More than 70% of the graduates are placed in jobs upon successful completion of the training, across multiple industries. A significant achievement for the year that the average salaries earned by the students increased by over ₹ 500 per month, despite the severe impact of the pandemic.

The Foundation's commitment to setting new benchmarks in skill development in India has been underscored by the setting up of Tech Mahindra SMART Academies, which provide the highest quality of skill training to youngsters in Healthcare and Digital Technologies. During FY 20-21, 1,317 students were enrolled to the four Healthcare Academies in Delhi, Mohali, Mumbai, and Pune, the last of which started functioning only in March 2021. In addition, at the SMART Academies for Digital Technologies in Vizag, Hyderabad and Mohali, another 710 students were enrolled.

TMF's work in Covid Relief

As soon as the pandemic broke out at the beginning of the Financial Year, the TMF team shifted its emphasis towards carrying out relief activities for those who were the hardest hit – daily wagers, migrant workers, farmers, persons with disabilities and the transgender community. Through a structured and efficient intervention, the Foundation distributed nearly 6 lakhs ration kits, 3.20 lakhs cooked meals, PPE kits, masks, and medical equipment to hospitals. In all, relief efforts worth ₹ 14.82 crores were carried out over the year and is continuing into the current financial year as well. Till date, over 20 lakhs people have benefitted through these efforts.

MATERIAL CHANGES AND COMMITMENTS

There are no material changes which will affect the Company.

SIGNIFICANT AND MATERIAL ORDERS / PROCEEDINGS

There are no orders passed by the regulators or courts or tribunals which would impact the going concern status and Company's operations in future.

Further no application against the Company has been filed or is pending under the Insolvency and Bankruptcy Code, 2016, nor the Company has done any one time settlement with any Bank or Financial institutions.

FIXED DEPOSITS

Your Company has not accepted any fixed deposits and, as such, no amount of principal or interest was outstanding as on the balance sheet date.

AUDITORS

The members, in the 12th Annual General Meeting held on 1st August, 2017, appointed M/s B. K. Khare & Co, Chartered Accountants, [ICAI Registration No.105102W] as Statutory Auditors of the Company for a period of five years from the conclusion of the ensuing Annual General Meeting till the conclusion of the Sixth Annual General Meeting for the financial year 2021-22.

Pursuant to the amendment to Section 139 of the Companies Act, 2013 which was notified on May 7, 2018, ratification of appointment of Statutory Auditors at every AGM is no longer required.

There are no qualifications, reservation or adverse remark or disclaimer made in the audit report for the Financial Year 2020-21.

SHARE CAPITAL

The Company has not issued any equity shares carrying differential rights, sweat equity shares, employee stock options nor provided money for purchase of its own shares by employees or by trustees for the benefit of employees during the financial year. The Company's paid up equity capital is ₹ 5,00,000 comprising of 50,000 equity shares of Face Value of ₹ 10/- each.

ANNUAL RETURN

The annual return as on the financial year ended 31st March 2021 in Form MGT - 7 is available on the web-link https://techmahindrafoundation.org/reports/

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

a) Conservation of Energy: The operations of the Company are not energy-intensive and hence, the provisions are not applicable.

b) Research and Development: No amount was spent on Research and development during the year under review.

c) Foreign Exchange earnings and outgo: No amount was earned or expended in foreign exchange during the year under review.

DIRECTORS

As per Article 16 of the Articles of Association of the Company, all Directors retire at the ensuing annual general meeting and are eligible for re-appointment.

NUMBER OF MEETINGS OF BORAD

During the year ended 31st March 2021, two Board Meetings were held on, 30th April, 2020 and 24th October, 2020. The Company being a Section 8 Company, intervening gap between the meetings was within the period prescribed under the Companies Act, 2013.

PARTICULARS OF LOANS, GUARANTEES OR INVESTMENTS UNDER SECTION 186

The Company has not given any loans or guarantees or investment under Section 186 of the Companies Act, 2013.

PARTICULARS OF CONTRACTS OR ARRANGEMENTS WITH RELATED PARTIES

All transactions entered into with the Related Parties as defined under the Companies Act, 2013 during the financial year were in the ordinary course of business and on an arm's length basis and do not attract the provisions of Section 188 of the Companies Act, 2013. Suitable disclosure as required by the Indian Accounting Standards (IND AS 24) has been made in the notes to the Financial Statements.

The particulars of related party transactions in prescribed Form AOC - 2 is annexed herewith as **"Annexure 1"**.

RISK MANAGEMENT

The Company risk management is forming part of the risk management framework adopted by the Holding Company, wherein the elements of risks are overviewed for the organization as a whole including its subsidiaries.

WHISTLE BLOWER MECHANISM

Whistle Blower mechanism is forming part of the Holding Company's Code of Ethical Business Conduct Policy which is applicable to all its subsidiaries. The policy sets out ways through which the stakeholders can raise concerns that relate to actual or suspected violations to the Corporate Ombudsman office.

OBLIGATION OF COMPANY UNDER THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013

Your Company at group level has adopted a policy for prevention of Sexual Harassment of Women at workplace and has set up a Committee for implementation of the said policy. During the year under review there were no cases filed pursuant to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

DIRECTORS RESPONSIBILITY STATEMENT

Pursuant to provisions of Section 134 (5) of the Companies Act, 2013, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

(i) in the preparation of the annual accounts, the applicable accounting standards have been followed along with proper explanation relating to material departures, if any;

(ii) the directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit and loss of the company for that period;

(iii) the directors have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;

(iv) the directors have prepared the annual accounts on a going concern basis;

(v) the directors have devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

ACKNOWLEDGEMENTS

The Board takes this as an opportunity to thank the promoters and all the stakeholders of the Company for their faith and patronage.

For and on behalf of the Board

INDEPENDENT AUDITORS' REPORT

To the Members of Tech Mahindra Foundation

Report on the Financial Statements

Opinion

1. We have audited the accompanying Financial Statements of Tech Mahindra Foundation ("the Company") licensed and registered under Section 8 (erstwhile section 25) of Companies Act, 2013 (" the Act"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Income and Expenditure and the Statement of Changes in Equity for the year then ended, Cash Flow Statement, and notes to the financial statements, and a summary of significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2021, and its surplus/(deficit) and cash flows for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

4. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

5. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

7. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

8. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

9. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

   a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

   b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

   c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

   d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

   e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

10. Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

13. As the Company is licensed and registered under Section 8 (erstwhile section 25) of the Act, the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act (the "Order"), does not apply to it as stated under Clause 2(iii) of the said Order.

14. As required by Section 143(3) of the Act, we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

   b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c. The Balance Sheet, the Statement of Income and Expenditure Cash Flow Statement and the Statement of changes in Equity dealt with by this Report are in agreement with the books of account.

d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

e. On the basis of written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021, from being appointed as a director in terms of Section 164(2) of the Act.

f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure A.

g. With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial statements.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF TECH MAHINDRA FOUNDATION

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of Tech Mahindra Foundation ("the Company") licensed and registered under Section 8 (erstwhile section 25) of Companies Act, 2013, as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

5. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

7. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

   a. Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

   b. Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

   c. Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

8. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

9. Considering guidance given by ICAI in its Guidance Note on the essential Components of Internal Control over Financial Reporting, the framework of internal controls is commensurate with the nature and size of its operations.

NOTES FORMING PART OF THE BALANCE SHEET AND INCOME EXPENDITURE ACCOUNT

SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS FOR THE YEAR ENDED MARCH 31, 2021

1. Company Overview:

Tech Mahindra Foundation (“the Company”), a company registered under section 25 of the Companies Act, 1956 (now governed by section 8 of the Companies Act, 2013) was incorporated on March 20, 2006, and granted registration under section 12A of the Income Tax Act, 1961, with effect from March 21, 2006

The primary objects of the company are:

i. To provide needy children and/or students with fees, books, equipment, merit based freeships and/or scholarships , food, shelter, training and other help; assist mentally challenged, crippled and physically handicapped children in their rehabilitation through appropriate therapy, education, vocational training and other programmes; render assistance to orphaned, indigent and other less privileged children for their subsistence, shelter, education and medical care.

ii. To render assistance to indigent men, women and children for treatment, medical care, health care, preventive medical services which they otherwise cannot afford; to setup and/or operate or to help in setting up and/or operating, hospitals / nursing homes, shelters for the needy; to develop or adopt village(s) or other centre(s) for general progress and welfare; to render assistance for appropriate literacy, and vocational training programs for needy persons, provide assistance and social service at the times of natural calamities like famine, fire, earthquake; to render assistance to handicapped, destitute and needy persons.

iii. To conduct education in public health care, sanitation, cleanliness; and to work or provide assistance for such causes; to work for the health, welfare and upliftment of men, women and children in general without any distinction as to community, background, caste, race, language or religion.

2. Significant accounting policies:

(a) Basis for preparation of accounts:

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles (“GAAP”) in India under historical cost convention and on accrual basis, and are in conformity with mandatory accounting standards, as prescribed under Section 133 of the Companies Act 2013, read with rule 7 of the Companies (accounts) Rules, 2014, and the provisions of the Act (to the extent notified).

All assets and liabilities have been classified as current and non-current as per Company’s normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013.

(b) Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities if any) and the reported income and expenses during the year. The management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ due to the estimates and the differences between the actual results and the estimates are recognized in the periods in which the results are known/materialized.

(c) Revenue recognition:

i. Donations received with specific direction from the donors that they shall form part of the corpus have been accounted for accordingly.

ii. Interest income is recognized on time proportion basis.

iii. Other items of income are accounted for as per the terms of the contract.

(d) Fixed Assets including intangible assets:

Fixed assets are stated at cost less accumulated depreciation. Costs comprise of purchase price and attributable costs, if any.

(e) Depreciation / amortization of fixed assets:

(i) Depreciation on fixed assets is charged based on straight line method as per the life of the assets as assessed based on technical advice, considering the nature of the asset, estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. Estimate of useful life so made is more conservative than estimated useful life as prescribed in schedule II to the Companies Act, 2013.

Computers and Project specific software	3 years
Plant and Machinery	5 years
Furniture and Fixtures	5 years
Office Equipment	5 years
Vehicles	5 years
Leasehold improvements	Amortized over the lease period

(ii) Assets costing up to ₹ 5,000 are fully depreciated in the year of purchase.

(f) Investments:

Long term investments (including current portion thereof) are carried at cost less any other than temporary diminution in the value, determined separately for each investment

Current investments are carried at the lower of cost and fair value. Any reduction in the carrying amount and any reversals of such reductions are charged or credited to the Statement of Income and Expenditure.

(g) Cash and Cash Equivalents:

Cash and cash equivalents comprise cash at bank and in hand and short term bank deposits, if any with original maturity of three months or less.

(h) Defined benefit plans and compensated absences

The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The policy for the same is s below.

a. Defined benefit plans:

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at each balance sheet date. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling and the return on plan assets (excluding interest), is reflected immediately in the balance sheet with a charge or credit recognised in income and expenditure account in the period in which they occur. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee’s last drawn salary and the tenure of the employment.

The company has during the year reworked he gratuity payable at the time of retirement, death, incapacitation, termination based on actuarial valuation taking into account the past service period in which the employees rendered their services to the company.

b. Defined contribution plans:

(i) Provident fund:

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees’ salary (currently at 12% of the basic salary) which are charged to the statement of profit and loss on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner by the Company.

(ii) Superannuation and ESIC:

Contributions to Superannuation fund and employees’ state insurance scheme (ESI), which are defined contribution schemes, are charged to the statement of profit and loss on an accrual basis.

The Company has no further obligations for future superannuation fund benefits other than its annual contributions.

(iii) Compensated absences:

The Company provides for compensated absences subject to Company’s rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment or availment. The liability is accrued based on the number of days of unavailed leave at each Balance Sheet date . It is measured at the balance sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method.

Actuarial gains and losses are recognized in full in the statement of profit and loss in the period in which they occur.

(i) Details of dues to micro and small enterprises as defined under The Micro. Small and Medium Enterprises Development (MSMED) Act 2006:

Based on the information available with the Company, there are no outstanding amounts payable to creditors who have been identified as “suppliers ” within the meaning of “Micro, Small and Medium Enterprises Development (MSMED) Act, 2006”.

3. Previous year figures have been regrouped wherever necessary.

REVIEW OF ACTIVITIES – 2020-21

Mahindra University ("MU") (sponsored by Mahindra Educational Institutions, ("MEI") – a not-for-profit, 100% subsidiary of Tech Mahindra), was notified on 20th May 2020 by the Government of Telangana vide The Telangana State Private Universities (Establishment and Regulation) Act, 2018. Official launch took place on 24th July 2020 in the august presence of Shri KT Rama Rao and Shri Anand Mahindra (the founding Chancellor).

Academic operations commenced at the Ecole Centrale School of Engineering – with 4-year UG courses in Computer Science Engineering, Mechanical Engineering, Electrical & Electronics Engineering, Civil Engineering, Artificial Intelligence, Electronics & Computer Engineering, and Computation & Mathematics. PhD programs in Engineering and Humanities were also offered. Due the Covid-19 pandemic, start of the academic session for Batch 2020 (with 643 UG students and 28 PhD students) got delayed to 5th October 2020.

Academic Year 2020-21 has largely remained in an online mode, with students remaining back at their homes. During the period 15th February till 23rd March 2021, limited number of students were allowed back on campus. Exams have been conducted in an offline plus online mode – ensuring that students don't get affected due to restrictions imposed by COVID-19 protocols.

The School of Management, School of Law and the Indira Mahindra School of Education will commence academic operations in August 2021, subject to regulatory approvals as appropriate. Our academic partner for the School of Management will be Cornell SC Johnson College of Business, USA – which will offer strategic support in (i) curriculum development, (ii) faculty in residence, (iii) student immersions, and (iv) e-Cornell courses. The School will offer 3-year UG programs in BA (Finance & Economics), BBA (Digital Technologies), and BBA (Computational Business Analytics).

The other 2 Schools will offer (i) 5-years integrated BA-LLB and BBA-LLB courses, and (ii) 4-years BSc-BEd program of study. It is estimated that the School of Media & Liberal Arts will start in 2022, followed by the School of Design in 2023. At full strength, Mahindra University will have 9500+ students supported by 600+ faculty drawn from some of the leading institutions across the globe.

In a short span, MU Faculty members have published a total of 300+ publications including 18 Book Chapters and 7 Patents. Besides this, faculty have been able to secure 31 externally-funded projects totaling ₹ 800 lakhs.

Adding to its state-of-the-art academic infrastructure, the Entrepreneurship & Innovation Cell, (EIC) named Mahindra e-HUB – Incubation Centre is operational on campus with an intent of providing opportunities to students to bring their ideas to fruition. It would host events, workshops, industrial visits and seminars, all aimed at providing a conducive environment for students to develop their entrepreneurial skills. The Incubation Centre, spread over 2000 sq. feet of area, and can accommodate 15 entrepreneurs, facilitates through the process of starting, shaping and scaling up new innovative ventures resulting from student-faculty research. In addition to providing creative working space, we help in mentoring, technology, business development, legal, IPR, funding, networking and GTM strategy.

Apart from Annual techno-cultural festivals like AETHER, ECOLE-TYOHAR, TEDX-Mahindra Ecole Centrale, Centrale Connect Conclave, etc., Zenith Science Club hosted a Science Open Day an interactive session on Chandrayaan-2, designed prototypes for exhibit and also devised a few hands-on activities and a quiz for the school students.

Batch 2020 students have received admits to prestigious overseas universities such as MIT, Stanford, Imperial College (UK), University of California at Berkeley, Columbia University, Georgia Tech, University of Texas at Austin, UI Urbana Champaign, and many others.

MATERIAL CHANGES AND COMMITMENTS

There are no material changes and commitments affecting the financial position of the company which have occurred between the end of the financial year of the company to which the financial statements relate and the date of the report.

There was no change in the nature of business.

SIGNIFICANT AND MATERIAL ORDERS / PROCEEDINGS

During the year under review, there were no material orders passed by the regulators or courts or tribunals impacting the going concern status and company's operations in future.

Further no application against the Company has been filed or is pending under the Insolvency and Bankruptcy Code, 2016, nor the Company has done any one time settlement with any Bank or Financial institutions.

FIXED DEPOSITS

Your Company has not accepted any deposits and as such, no amount of principal or interest was outstanding on the date of the Balance Sheet.

AUDITORS

M/s. M. Bhaskara Rao & Co., Chartered Accountants, (Firm Registration No. 000459S) were appointed as statutory auditors of the Company for a period of five years from the conclusion of the 4th Annual General Meeting held on 28th August, 2017 until the conclusion of the Annual General Meeting of the Company for the financial year 2021-22, on such remuneration as may be determined by the Board of Directors.

The members may note that the Ministry of Corporate Affairs vide notification dated 7 May, 2018, has done away with the requirement of yearly ratification of appointment of Statutory Auditors, at the Annual General Meeting.

There are no qualifications, reservations and adverse remarks reported in the Auditor's Report for the financial year 2020-21 to comment upon by your Directors.

NUMBER OF MEETINGS OF BORAD

During the year ended March 2021, three Board Meetings were held on 29th April, 2020, 17th July, 2020 and 15th October, 2020. The Company being a Section 8 Company, intervening gap between the meetings was as prescribed under the Companies Act, 2013.

LOANS/ GUARANTEES / INVESTMENTS

The Company has not given / accepted any loans or guarantees during the year under review.

RELATED PARTY TRANSACTIONS

All related party transactions that were entered into during the financial year were on an arm's length basis and were in the ordinary course of business. There are no materially significant related party transactions made by the Company with Promoters, Directors, Key Managerial Personnel or other designated persons which may have a potential conflict with the interest of the Company at large. All Related Party Transactions for the period under review were approved by the Board. Pursuant to clause (h) of sub-section (3) of Section 134 of the Companies Act, 2013 and Rule 8(2) of the Companies (Accounts) Rules, 2014, Form AOC 2 is annexed to this report as **Annexure A.**

RISK MANAGEMENT

The Company risk management is forming part of the risk management framework adopted by the Holding Company, wherein the elements of risks are overviewed for the organization as a whole including its subsidiaries.

WHISTLE BLOWER MECHANISM

Whistle Blower mechanism is forming part of the Holding Company's Code of Ethical Business Conduct Policy which is applicable to all its subsidiaries. The policy sets out ways through which the stakeholders can raise concerns that relate to actual or suspected violations to the Corporate Ombudsman office.

OBLIGATION OF COMPANY UNDER THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013

Your Company at group level has adopted a policy for prevention of Sexual Harassment of Women at workplace and has set up a Committee for implementation of the said policy. During the year under review the Company has not received any complaint of harassment.

DIRECTORS RESPONSIBILITY STATEMENT

Pursuant to Section 134 of the Companies Act, 2013, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

i. In the preparation of the annual accounts, the applicable accounting standards have been followed;

ii. They have, in the selection of the accounting policies, consulted the Statutory Auditors and these have been applied consistently and reasonable and prudent judgments and estimates have been made so as to give a true and fair view of the state of affairs of the Company as at 31st March 2021 and of the deficit of the Company for the year ended on that date;

iii. Proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

iv. The annual accounts have been prepared on a going concern basis.

v. The directors had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

ACKNOWLEDGEMENTS

The Board takes this as an opportunity to thank the promoters and all the stakeholders of the Company for their faith and patronage.

For and on behalf of the Board

INDEPENDENT AUDITOR'S REPORT

To the Members of
Mahindra Educational Institutions

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the Standalone Financial Statements of Mahindra Educational Institutions ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Income and Expenditure, the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, deficit, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules issued thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our opinion.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Directors' report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the Rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained upto the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

This report does not include a statement on matters specified in paragraph 3 and 4 of the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, since in our opinion and according to the information and explanation given to us, the said Order is not applicable to the Company.

1. As required by section 143(3) of the Act, we report that:
    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
    c. the Balance Sheet, the Statement of Income and Expenditure, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account;
    d. in our opinion, the aforesaid standalone financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with the rules issued thereunder;
    e. on the basis of the written representations received from the directors as on 31 March 2021, and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021, from being appointed as a director in terms of Section 164 (2) of the Act;
    f. with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in 'Annexure A'; and

g. with respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the provisions of Section 197 of the Act and the rules thereunder are not applicable to the Company.

h. With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditor’s) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. there are no pending litigations on or by the Company, the impact of which needs to be disclosed in the standalone financial statements;

   ii. the Company does not have any material foreseeable losses relating to long term contracts, there were no derivative contracts entered into by the Company as at 31 March 2021; and

   iii. there are no amounts which were required to be transferred to the Investor Education and Protection Fund during the year ended 31 March 2021.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Mahindra Educational Institutions)

We have audited the internal financial controls over financial reporting of Mahindra Educational Institutions ("the Company") as of 31 March 2021, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR

The year ended 31 March 2021

1. Corporate Information

Mahindra Educational Institutions (“the Company”) incorporated as a Not-for-Profit Company with main objects to establish institutions of higher learning such as setting up of universities, colleges, academics and research institutes, encouraging education and research work in different disciplines, to promote innovation and technology development, to collaborate and / or affiliate with other universities in India for the cause of promoting high quality higher education within India.

2. Significant accounting policies

2.1 Statement of Compliance

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under the Section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

The financial statements for the year ended 31 March 2021 were approved by the Board of Directors and authorised to issue on 28 April 2021.

2.2 Basis for preparation of financial statements

These financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India on accrual basis under the historical cost convention, except for certain financial instruments which are measured at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In estimating the fair value of an asset or liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purpose in these standalone financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Use of Estimates

The preparation of these standalone financial statements requires the management of the Company to make estimates and assumptions to be made that affect the reported amounts of assets and liabilities on the date of financial statements, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of income and expenses during the reported period. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the financial statements.

2.4 Property, Plant & Equipment and Other Intangible assets

Property, Plant & Equipment and Other intangible assets are stated at actual cost less accumulated depreciation and net of impairment. The actual cost capitalised includes material cost, freight, installation cost, duties and taxes, eligible borrowing costs and other incidental expenses incurred during the construction / installation stage.

Depreciation / amortization of Property, Plant & Equipment and Other Intangible assets

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment including assets taken on lease, other than freehold land is charged based on straight line method on an estimated useful life as per the technical estimates of the Management. The estimated useful lives and residual values of the tangible and intangible assets are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis..

Particulars	Useful life
Buildings	28 Years
Computers	3 Years
Fumiture and fistures	5 Years
Library Books	3 Years

Particulars	Useful life
Pleant Machinery	5 Years
Softwer	1 Years
Vehicles	5 Years
Assets below ₹ 5000	Same Year

2.5 Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee

The Company assesses, whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract involves:

(a) the use of an identified asset,

(b) the right to obtain substantially all the economic benefits from use of the identified asset, and

(c) the right to direct the use of the identified asset.

The Company at the inception of the lease contract recognizes a Right-of-Use (RoU) asset at cost and corresponding lease liability, except for leases with term of less than twelve months (short term) and low-value assets.

The cost of the right-of-use assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, less any lease incentives received. Subsequently, the right-of-use assets is measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use assets.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets.

For lease liabilities at inception, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate

The Company recognizes the amount of the re-measurement of lease liability as an adjustment to the right-of-use assets. Where the carrying amount of the right-of-use assets is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in consolidated statement of income.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

Lease payments have been classified as cash used in Financing activities.

2.6 Impairment of Assets

i) Financial assets

Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Impairment loss on financial assets carried at amortised cost is measured at the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. In a subsequent period, if the amount of impairment loss decreases and the decreases can be related objectively to an event, the previously recognised impairment is reversed through Statement of Income and Expenditure.

ii) Non-financial assets

Property, Plant & Equipment and Other Intangible assets

Property, Plant and Equipment and Other intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the Statement of Income and Expenditure.

2.7 Revenue recognition

Revenue is recognized upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Arrangements with customers for services i.e. students are mainly on a time bound fixed price basis.

Revenue from fixed-price, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognized as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenues in excess of invoicing are classified as contract assets (which we refer as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (which we refer to as deferred revenues).

In arrangements for educational services with customers, the company has applied the guidance in Ind AS 115, Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering educational services and other related services as distinct performance obligations. For allocating the transaction price, the company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. In cases where the company is unable to determine the standalone selling price, the company uses the expected cost plus margin approach in estimating the standalone selling price. For time and material related services, the performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses.

The company accounts for discounts and pricing incentives to customers as a reduction of revenue based on the rateable allocation of the discounts/ incentives amount to each of the underlying performance obligation that corresponds to the progress by the customer towards earning the discount/ incentive. Also, when the level of discount / incentive varies with increases in levels of revenue transactions, the company recognizes the liability based on its estimate of the customer’s future purchases. If it is probable that the criteria for the discount will not be met, or if the amount thereof cannot be estimated reliably, then discount is not recognized until the payment is probable and the amount can be estimated reliably. The company recognizes changes in the estimated amount of obligations for discounts in the period in which the change occurs.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

The Company presents revenues net of indirect taxes in its statement of Profit and loss.

The Company classifies the right to consideration in exchange for deliverables as either a receivable or as unbilled revenue.

A receivable is a right to consideration that is unconditional upon passage of time.

Revenue recognition for fixed price development contracts is based on percentage of completion method. Invoicing to the clients is based on milestones as defined in the contract. This would result in the timing of revenue recognition being different from the timing of billing the customers. Unbilled revenue for fixed price development contracts is classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

Trade receivable and unbilled revenues are presented net of impairment in the Balance Sheet.

2.8 Donations / Funds received

Donations received are accounted as contributions to corpus fund or treated as revenue based on the directions from the donor.

a) Corpus Fund

Donations received from donors with a direction for utilisation towards capital expenditure are treated as corpus fund.

b) Building and Equipment Fund

Donations received from donors with a direction for utilisation towards development of infrastructure facilities including buildings and equipment are treated as building and equipment fund.

c) University Fund

Donations received from donors with a direction for utilisation towards requirements of the Institution

2.9 Foreign currency transactions

The functional currency of the Company is Indian Rupees (INR).

Foreign currency transactions are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities of foreign operations are restated into the functional currency using exchange rates prevailing on the date of the Balance Sheet. Gains and losses arising on settlement and restatement of foreign currency denominated monetary assets and liabilities are included in the Statement of Income and Expenditure.

2.10 Foreign Operations

For the purpose of these financial statements, the assets and liabilities of the Company's foreign operations are translated using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising on translation are recognised in other comprehensive income and accumulated in equity.

2.11 Financial Instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised in Statement of Income and Expenditure.

i) Non-derivative financial instruments

Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value

Financial asset not measured at amortised cost is carried at fair value through profit or loss (FVTPL) on initial recognition, unless the company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income.

The Company, on initial application of IND AS 109 Financial Instruments, has made an irrevocable election to present in other comprehensive income subsequent changes in fair value of equity instruments not held for trading.

Financial asset at FVTPL are measured at fair values at the end of each reporting period, with any gains or losses arising on remeasurement recognised in Statement of Income and Expenditure.

Financial liabilities

Financial liabilities at fair value through profit and loss are stated at fair value, with any gains or losses arising on remeasurement recognised in Statement of Income and Expenditure.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.12 Employee Benefits

a) Gratuity

The Company accounts for its gratuity liability, a defined retirement benefit plan covering eligible employees. The gratuity plan provides for a lump sum payment to employees at retirement, death, incapacitation or termination of the employment based on the respective employee's salary and the tenure of the employment. Liabilities with regard to a Gratuity plan are determined based on the actuarial valuation carried out by an independent actuary as at the Balance Sheet date using the Projected Unit Credit method for the Company. Actuarial gains and losses are recognised in full in other comprehensive income and accumulated in equity in the period in which they occur.

b) Provident fund

The eligible employees of the Company are entitled to receive the benefits of Provident fund, a defined contribution plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees' salary (currently at 12% of the basic salary) which are charged to the Statement of Income and Expenditure on accrual basis. The provident fund contributions are paid to the Regional Provident Fund Commissioner. The Company has no further obligations for future provident fund and superannuation fund benefits other than its annual contributions.

c) Compensated absences

The employees are entitled to accumulate leave subject to certain limits. The liability is provided based on the number of days of unavailed leave at each Balance Sheet date on the basis of an independent actuarial valuation using the Projected Unit Credit method for the Company. The liability which is not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised based on actuarial valuation as at the Balance Sheet date. Actuarial gains and losses are recognised in full in the Statement of Other Comprehensive Income in the period in which they occur.

2.13 Taxation

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to / recovered from the tax authorities, based on estimated tax liability computed after taking credit for allowances and exemption in accordance with the local tax laws existing in the respective countries.

Minimum Alternative Tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability is considered as an asset if there is convincing evidence that the Company will pay normal tax after the tax holiday period. Accordingly, it is recognized as an asset in the Balance Sheet when it is probable that the future economic benefit associated with it will flow to the Company and the asset can be measured reliably.

Deferred income taxes

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction.

Deferred income tax asset are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred tax assets and liabilities are measured using substantively enacted tax rates expected to apply to taxable income in the years in which the temporary differences are expected to be received or settled.

The Company recognises interest levied and penalties related to income tax assessments in income tax expenses.

Tax on distributed profits payable in accordance with the provisions of the Income-Tax Act, 1961 is disclosed in accordance with the Guidance Note on Accounting for Corporate Dividend Tax issued by the Institute of Chartered Accountants of India (ICAI)

2.14 Earnings per Share

Basic earnings/ (loss) per share are calculated by dividing the net surplus / (deficit) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year and also after the Balance Sheet date but before the date the financial statements are approved by the Board of Directors.

For the purpose of calculating diluted earnings / (loss) per share, the net surplus / (deficit) for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

The number of equity shares and potentially dilutive equity shares are adjusted for bonus shares as appropriate. The dilutive potential equity shares are adjusted for the proceeds receivable, had the shares been issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date.

2.15 Provision, Contingent Liabilities and Contingent Assets

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities and Contingent Assets are not recognized in the financial statements.

2.16 Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year

Useful lives of property, plant and equipment

The company reviews the estimated useful lives of property plant and equipment at the end of each reporting period. During the current year, there has been no change in life considered for the assets.

Fair value measurements and valuation processes

Some of the Company's assets and liabilities are measured at fair value for the financial reporting purposes.

In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1inputs are not available, the Company engages third party qualified valuers to perform the valuation . Finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Chief Executive Officer reports to the board of fluctuations in the fair value of the assets and liabilities.

Provision for employee benefits

The Company uses actuarial assumptions to determine the obligations for employee benefits at each reporting period. These assumptions include the discount rate, expected long-term rate of return on plan assets, rate of increase in compensation levels and mortality rates.

Provision for taxes

Significant judgments are required in determining the provision for income taxes, including the amount expected to be paid/ recovered for uncertain tax positions.

13.6 Capital Management

Equity share capital and other equity are considered for the purpose of Company's capital management. The Company manages its capital so as to safeguard its ability to continue as a going concern. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

e)	Interest accrued and remaining unpaid	**-**	-
f)	Further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprises.	**-**	-

32 Employee benefit plans

The gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The plan design mean the risks commonly affecting the liabilities and the financial results are exposed to:

a) Interest rate risk : the defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

b) Salary inflation risk : Higher than expexted increases in salary will increase the defined benefit obligation

c) Demographic risk : For example, as plan is open to new entrants, an increase in membership will increase the defined benefit obligation. Also, the plan only provides benefits upon completion of a vesting criteria. Therefore, if tunover rates increase, then the liability will tend to fall as fewer employees reach vesting period.

I The Principal Assumptions used for the purposes of the acturial valuation as follows

	Details	31-Mar-21	31-Mar-20
1	Discount Rate(s)	**6.91%**	6.79%
2	Expected Rate(s) of salary increase	**4%**	4%
3	Demographic Assumptions		
	Mortality Rate	**Indian Assured lives Mortality (2012-14) Ult.**	Indian Assured lives Mortality (2012-14) Ult.
	Withdrawal Rate (per Annum)	**4%**	4%

II Disclosure of defined benefit cost :

	Details	Year ended 31 March 2021	Year ended 31 March 2020

B	**Amounts Recongnised in Other Comprehensive Income (OCI)**		
1	Actuarial (gain)loss due to DBO experience	**(54.45)**	22.51
2	Actuarial (gain)loss due to DBO assumption changes	**-**	-
3	Actuarial (gain)loss arising during the period	**(54.45)**	22.51
4	Return on plan assets (Greater)/Less than discount rate	**-**	-
5	Actuarial (gains)/losses recognised in OCI	**(54.45)**	22.51
6	Adjustment for limit on net asset	**-**	-
7	Cumulative Actuarial (Gain)/ Loss Recogni zed via OCI at prior year end	**-**	-
8	Cumulative Actuarial (Gain)/ Loss Recognized via OCI at Current Period End	**(54.45)**	22.51
C	**Defined benefit cost**		
1	Service Cost	**20.16**	33.42
2	Net interest on net defined benefit liability / (asset)	**7.79**	4.48
3	Actuarial (gains)/losses recognised in OCI	**(54.45)**	22.51
4	Immediate recognition or (gains)/losses - other long term employee benefit plans	**-**	-
5	Defined Benefit Cost	**(26.50)**	60.41

III Changes in benefit obligation and assets

A.	**Changes in defined benefit obligation:**		
1	Defined benefit obligation(DBO) at the end of prior period	**114.71**	62.83
2	Current service cost	**20.16**	33.42
3	Interest cost	**7.79**	4.48
4	Curtailment (credit)/ cost	**-**	-
5	Settlement (credit)/ cost	**-**	-
6	Past service cost - plan amendments	**-**	-
7	Acquisitions (credit)/ cost	**-**	-

8	Actuarial (gain)/loss	**(54.45)**	22.51
9	Actuarial (gain)/loss - demographic assumptions	**-**	-
		Year ended 31 March 2021	Year ended 31 March 2020
10	Actuarial (gain)/loss - financial assumptions	**-**	-
11	Benefits paid directly by the Company	**-**	-
12	Benefits paid from plan assets	**-**	(8.53)
13	DBO at end of current period	**-**	-
13	DBO at end of current period	**88.21**	114.71

B.	**Changes in fair value of assets:**		
1	Fair value of assets at end of prior period	**-**	-
2	Acquisition adjustment	**-**	-
3	Interest income on plan assets	**-**	-
4	Employer contributions	**-**	-
5	Return on plan assets greater/(lesser) than discount rate	**-**	-
6	Benefits paid	**-**	-
7	Fair Value of assets at the end of current period	**-**	-

IV Additional Disclosures

		Year ended 31 March 2021	Year ended 31 March 2020
A.	**Expected benefit payments for the years ending**		
	2020	**-**	8.12
	2021	**13.23**	5.10
	2022	**4.14**	9.26
	2023	**6.11**	7.28
	2024	**4.89**	7.22
B.	**Current and Non current breakup**		
	Current liability	**13.23**	8.12
	Non current liability	**106.59**	106.59
	Total Liability	**119.82**	114.70

V Sensitivity Analysis

	Details	**As at 31 March 2021**	As at 31 March 2020
A	**Discount rate**		
	Discount rate as at year end	**6.91%**	6.79%
	Effect on DBO due to 1% increase in discount rate	**80.33**	103.47
	Effect on DBO due to 1% decrease in discount rate	**97.62**	128.14
B	**Salary escalation rate**		
	Salary escalation rate as at year end	**4%**	4%
	Effect on DBO due to 1% increase in salary escalation rate	**98.02**	128.58
	Effect on DBO due to 1% decrease in salary escalation rate	**79.88**	102.92

	Details	As at 31 March 2021	As at 31 March 2020
C	**Attrition rate**		
	Salary escalation rate as at year end	**4%**	4%
	Effect on DBO due to 1% increase in attrition rate	**90.24**	117.09
	Effect on DBO due to 1% decrease in attrition rate	**85.78**	111.80

Method used for sensitivity analysis: The sensitivity results above determine their individual impact on the Plan's end of year Defined Benefit Obligation. In reality, the Plan is subject to multiple external experience items which may move the Defined Benefit Obligation in similar or opposite directons, while the Plan's sensitivity to such changes can vary over time.

33 Financial Instruments

33.1 Accounting classification and fair values

The carrying amounts and fair values of financial instruments by class are as follows:

	As at 31 March 2021	As at 31 March 2020
Financial Assets		
Financial assets measured at fair value	**-**	-
Financial assets measured at amortised cost		
Other financial assets	**4,406.92**	4,040.10
Financial Liabilities		
Financial liabilities measured at fair value		
Financial liabilities measured at amortised cost		
Lease liabilities	**6,426.11**	12,288.97
Other financial liabilities	**150.49**	179.15

The Company has disclosed financial instruments such as cash and cash equivalents, other bank balances, trade receivables, trade payables at carrying value because their carrying amounts are a reasonable approximation of the fair values due to their short term nature.

33.2 Fair value hierarchy

The fair value of financial instruments as referred to in note 33.1 above have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The Company does not have any financial assets and liabilities, which are measured at fair value.

Other financial assets and liabilities

Cash and cash equivalents, trade receivables, investments in term deposits, other financial assets, trade payables and other financial liabilities have fair values that approximate to their carrying amounts due to their short-term nature.

33.3 Financial Risk Management

The Company’s activities are exposed to liquidity and market risks. The Company’s senior management has the overall responsibility for establishing and governing the company’s risk management frame work. The Company has constituted a Risk Management Committee, which is responsible for developing and monitoring the Company’s risk management policies. The Company’s risk management policies are established to identify and analyze the risks faced by the Company, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the board annually.

34 The Company has received Rs.12135.00 Lakhs as contributions towards development of building and equipment till year ended 31 March 2021. The Company has utilized amounts received and incurred capital expenditure Rs.12081.28 Lakhs (including advances paid of Rs.117.06 Lakhs) as on 31 March 2021 for the construction of buildings and purchase of equipments.

35 Establishment of Mahindra University

The Mahindra Educational Institutions ("MEI") has made an application to the Telangana State Govt ("TS Govt"), as sponsoring body, under The Telangana State Private Universities (Establishment and Regulation) Act, 2018 ("the Act") to permit it to establish a private University under the Act. During the year, Telangana State Govt ("TS Govt") granted permission to establish Mahindra University ("MU") in accordance with section 10 of the Act by publishing grant of approval in the Official Gazette dt.20th May 2020.

By virtue of said notification and no objection from Jawaharlal Nehru Technology Institute ('JNTU'), MEI would continue the academic activity for existing students under JNTU and any fresh admissions would be under MU. The infrastructure, relating to academic activity would vest with MU. Accordingly, MEI would cease to carry on activities of MEC over a period of three years and would continue its charitable activity in academics through MU as Sponsoring Body.

The Sponsoring Body, MEI under the Act, has given certain financial assurances and agreed to provide initial infrastructure necessary to commence the academic activities of the University as per the LOI.

As a Sponsoring Body, the MEI has following obligations in terms of the LOI:

a) Following two parcels of land to be registered in its name within a period of six months: 5 Acres 20 guntas and 16 Acres .056 guntas which are leased for a period of 29 years 10 months. This has been subsequently amended to include perpetual irrevocable lease in the name of sponsoring body for 90 years period of time and MEI complied with the requirement.

b) Establish corpus fund of Rs.10.00 crores

c) Continue Rs.30 Crores in the form of fixed deposit for a period of 3 years to support the various activities like construction of buildings, infrastructure and campus development etc.

d) Maintain endowment fund of 1% of the Project cost or Rs.10 Crores whichever is lower

e) Furnish sale / gift deed of the land favouring sponsoring body (amended to lease vide 1 above) and allocating the land exclusively to MU.

The MEI has made deposits and held in its name against its obligation as sponsoring body. The MEI has made a deposit of Rs.1.5 cr in the name of MU and State Government of Telangana towards endowment fund obligation and would transfer to MU in due course.

By virtue of notification stated above, the University was permitted to take students from Academic Year 2020-21, and the MEI was in receipt of admission and application fee and incurred costs on behalf of MU during the period of establishment of MU i.e. till 31 December 2020.

The MEI has identified revenues and expenditures for the period from 1st October 2020 being date of establishment of MU till 31 December 2020 and transferred to MU. From 1 January 2021 onwards, MU commenced accounting of its transactions. The liabilities, assets, income and expenditure transferred to MU are as detailed below:

Particulars	**Amount in Lakhs**
Stipend paid to Phd Students from Sept to December 2020	23.00
Salary cost of the professors for the period October 20 to December 2020	251.12
Lease Rent for the period October 2020 to December 2020	202.70
Sub-total	**476.82**
Fee received on-behalf of MU	1,599.80
Application Fee	43.49
Sub-total	**1,643.29**
Net payable	**(1,166.46)**

As at the year end, the Company had made its assets, infrastructure and other facilities available to MU for the purpose of its academic activities.

36 During the year 2020-21, pandemic caused due to COVID 19 had spread across most of parts the country and education sector is one sector which was affected by it. While there is no reduction in Company's revenues from tuition fee due to Covid-19, the hostel and other fees have decreased marginally. In assessing the recoverability of receivables (i.e. fee dues), financial assets and certain investments, the Company has considered internal and external information up to the date of approval of these financial statements. Considering the nature of these assets, while some delays are expected in the collection, the Company expects to recover the carrying amount of these assets. The impact of COVID 19 may be different from that estimated by the Company and the Company will continue to closely monitor any material changes in future economic conditions. Considering the Company's present liquidity position and the nature of its activities, the Company is of the opinion that it would be able to discharge its obligations.

37 Provision for current tax and deferred tax has not been made since the income of Company is exempted U/s 11 and 12 of the Income Tax Act, 1961. Tax assessment upto AY 17-18 are complete granting exemption to the income of the Company.
