Microsoft | Tech Mahindra

Advance to a New Age of Cloud Transformation with Azure
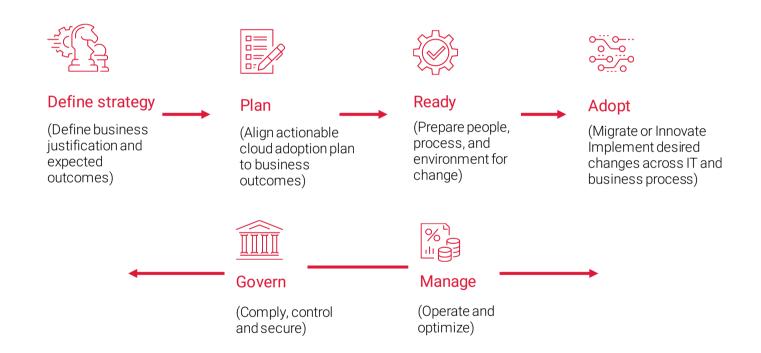

NXT.NOW™

Abstract

With Tech Mahindra, a global system integrator for Microsoft, we see a new paradigm emerging - an intelligent cloud, increased emphasis on user experience, and distribution of computing power to the edge. The GSI status with Microsoft lays a much stronger foundation of our collaboration, resources, and investments in the forthcoming years. Azure gives enterprises the freedom to build, manage, and deploy applications on a massive, global network using their preferred tools and frameworks.

Tech Mahindra is an Azure expert MSP and a Gold Certified Microsoft Partner with an association spanning over 15 years. Microsoft has worked closely with Tech Mahindra in developing differentiated joint solutions.

Our home-grown accelerators and frameworks like TACTiX, BlueMarble, TechM GAiA and more fruitful implementations helps in shaping the technology landscape.
Our solutions are invariably mapped with the cloud adoption framework for azure laid down by Microsoft to accelerate cloud adoption journey.

The recently acquired GSI status with Microsoft will help customers in embracing cloud transformation efficiently, harness the power of data and AI, improve business processes, and drive greater collaboration, and productivity in a secure and compliant manner.

Tech Mahindra adopts Microsoft cloud adoption framework for Azure

Define strategy

(Define business justification and expected outcomes)

Plan

(Align actionable cloud adoption plan to business outcomes)

Ready

(Prepare people, process, and environment for change)

Adopt

(Migrate or Innovate Implement desired changes across IT and business process)

Govern

(Comply, control and secure)

Manage

(Operate and optimize)

Our solutions and accelerators mapped with Microsoft CAF for Azure

Define strategy	Plan, ready and adopt			Innovate
Cloud strategy and roadmap	Cloud transformation and migration	Cloud managed services	Cloud application services	Industry and domain specific solutions

Govern and manage

Benefits
