

# netOps.ai

Powering Telco Networks on AWS

## STRATEGIC COLLABORATION

Tech Mahindra (TM) in collaboration with Amazon Web Services (AWS) has developed an End to End innovative, secure, and automated cloud platform “**netOps.ai**”, powering Telco Networks on AWS to empower operators to accelerate digital transformation and enable rapid deployment of 5G Networks

## MWC BARCELONA

28th June - 1st July, 2021

Tech Mahindra along with AWS is enabling CSPs to realize their business objectives of cost, speed, and quality with netOps.ai, powered by AWS. This enables CSPs to implement 4G/5G use cases through Continuous Automation and Orchestration Platform supporting multi-cloud, multi-domain, and multi-vendor environments. We will showcase our joint vision of building the Networks of Future at MWC Barcelona.

To register for the event, please [click here](#)

## BENEFITS

Tech Mahindra and AWS strategic collaboration has helped our customers to become agile, lean and build reliable platforms and applications on AWS Cloud. netOps.ai enables customers to experience self-service/DevOps based environments with CI/CD capabilities

- Global Scale - Across 25 geographic regions
- Lowest TCO - Low CAPEX & OPEX
- Web Scale Operations - Single click deployments across multiple sites
- AWS Native Services - Proven cloud services to realize networks of future
- In-Built Security

## KEY TO SUCCESS

Hyper Automation of Distributed Networks

Implementation of 5G use cases

Leveraging EDGE Computing
