

CASE STUDY

Guidewire full suite implementation for **state-run, insurance corporation in workers compensation in ANZ**

1. Digitized guidewire suit applications for faster policy , billing and claims processing
2. Better customer experience by faster claims recoveries.

Business Problem

In early 2018, the client moved to a model utilising a vendor coalition model with specialist partners enhancing the existing PolicyCenter / BillingCenter deployment and the implementation of ClaimCenter.

Our Solution

- We implemented Guidewire PolicyCenter / BillingCenter V9 using a single SI construction risk product.
- We led this stream and provided Guidewire configuration and integration of ClaimCenter, implemented Salesforce integration, SAP integration, and the end-to-end implementation for claims recoveries.
