

Solution

DISCOVERY RESEARCH PLATFORM

Request Management and Fulfillment Platform

THE SOLUTION

Discovery Research Platform is a unified request management and fulfillment platform that simplifies the process of making reagents available for scientific research

The PROBLEM

- Poor scalability of the bespoke applications
- Data generated exists in disparate systems and lack interconnectivity
- Too much manual hand off and notification leading to delays

BENEFITS

- Improved collaboration
- Decision support
- Robust request tracking
- Enhanced productivity

KEY FEATURES

- Decision support for automated and knowledge based actions with automated data collection from analytical instruments maintaining data integrity
- Quick Integration with systems like LIMS, ELN, Inventory management systems, barcode generator and molecule registration
- Robust request tracking with notification and work scheduling capabilities build on Pega

About Us:

Tech Mahindra represents the connected world, offering innovative and customer-centric information technology experiences, enabling Enterprises, Associates and the Society to Rise™. We are a USD 5.2 billion company with 123,400+ professionals across 90 countries, helping 981 global customers including Fortune 500 companies. Our convergent, digital, design experiences, innovation platforms and reusable assets connect across a number of technologies to deliver tangible business value and experiences to our stakeholders. Tech Mahindra has been recognised amongst India's 50 best companies to work for in 2020 by the Great Place to Work® Institute.

We are part of the USD 21 billion Mahindra Group that employs more than 240,000 people in over 100 countries. The Group operates in the key industries that drive economic growth, enjoying a leadership position in tractors, utility vehicles, after-market, information technology and vacation ownership.
