

The background of the slide features a composite image. On the left, a businessman in a grey suit and white shirt is shown from the chest up, holding a tablet with both hands. His face is partially visible on the far left. Overlaid on his suit is a semi-transparent image of a modern city skyline with several skyscrapers. The right side of the slide is a solid light blue gradient. A large orange rectangle is positioned in the lower right, containing the main title. A red diagonal bar runs across the bottom right corner.

# Tech Mahindra RECONCILIATION AS A SERVICE

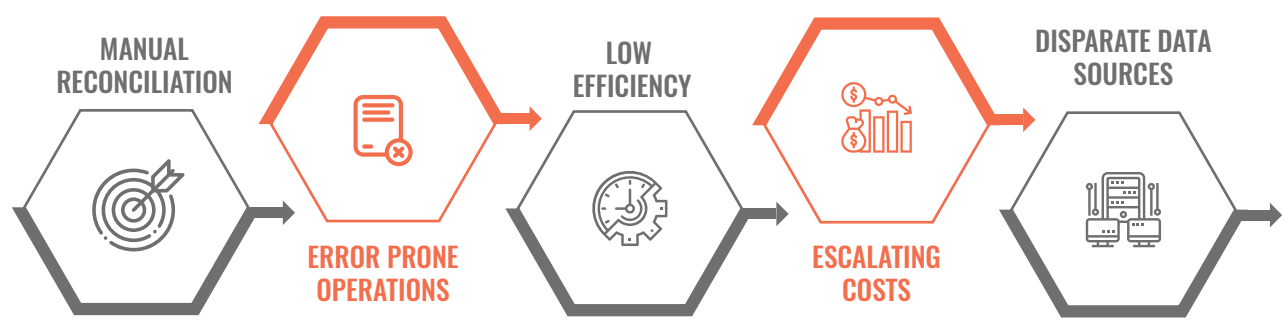

“

Reconciliations and exception management is an integral part of any Financial Institution and constitute a large element of back office processes to deliver operational efficiency effectively and efficiently.

The bigger challenge for any Financial Institution is to manage manual reconciliation process. They become time consuming and handling diverse reconciliations types along with fluctuating transactional volumes lead to escalating costs and is a resource intensive exercise.

# MAJOR CHALLENGES EXPERIENCED IN RECONCILIATIONS

Tech Mahindra offers Reconciliation as a Service, an integrated solution to empower end users to easily manage complex data problems in a fraction of time required by traditional systems.

24

**Live in 24 hours**
