

**REIMAGINING  
BUSINESS PROCESS,  
DESIGN, ORCHESTRATION,  
AND INTELLIGENCE**

# Abstract

Unlock unprecedented business efficiency with SAP Signavio, complemented by the unparalleled expertise of TechM as the core implementation partner and offering leader. With this solution, you can seamlessly integrate cutting-edge technology into your processes for enhanced productivity and innovation.

## Introduction

Innovation converges with efficiency with the transformative partnership between SAP Signavio and Tech Mahindra, to redefine your business processes. TechM, as the core implementation partner, brings a wealth of experience and technological prowess to complement the capabilities of SAP Signavio. This collaboration ensures a holistic approach to process optimization, enabling your organization to navigate the complexities of the modern business landscape with ease.

SAP Signavio is a cloud-based suite for business process transformation, aiding companies in comprehending, enhancing, and evolving their business processes across SAP and non-SAP platforms. This enterprise BPM solution integrates people, applications, and data to create purpose-built processes, utilizing business process intelligence technology. It enables employees to swiftly grasp organizational workflows, fostering active engagement in process improvement for increased efficiency and customer excellence. Our team of over 200 professionals adeptly trained in diverse BPM tools, with a specialized focus on SAP Signavio. We offer end-to-end BPM solutions, seamlessly integrating process modeling, workflow orchestration, and process intelligence, delivering unparalleled value to clients across the globe.

## Our Solution

Our solution combines the powerful process intelligence of SAP Signavio with the strategic implementation proficiency of TechM. Through meticulous planning and execution, we streamline your business workflows, improving visibility, agility, and decision-making. Signavio's integration with SAP S/4HANA enables superior modeling, sharing, collaboration, and auditing, resulting in accelerated migration and time-to-value. The collaboration between SAP Signavio and TechM ensures a solution that not only meets but surpasses your expectations.

### Process analysis and mining

Complete process analysis and mining for enterprise transformations and operational excellence initiatives. In addition, Process Insights is a process analytics solution that helps to rapidly discover areas for improvement and automation within your SAP business processes.

### Process and journey modelling

Standardized process and journey management, simulation and modeling from a business process and customer experience perspective. It enables organizations to capture, improve and maintain the business processes, fast and at scale. In addition, Journey Modeler solution helps to intuitively design customer journeys and connect them to the underlying processes to foster customer-centricity and operational excellence together.

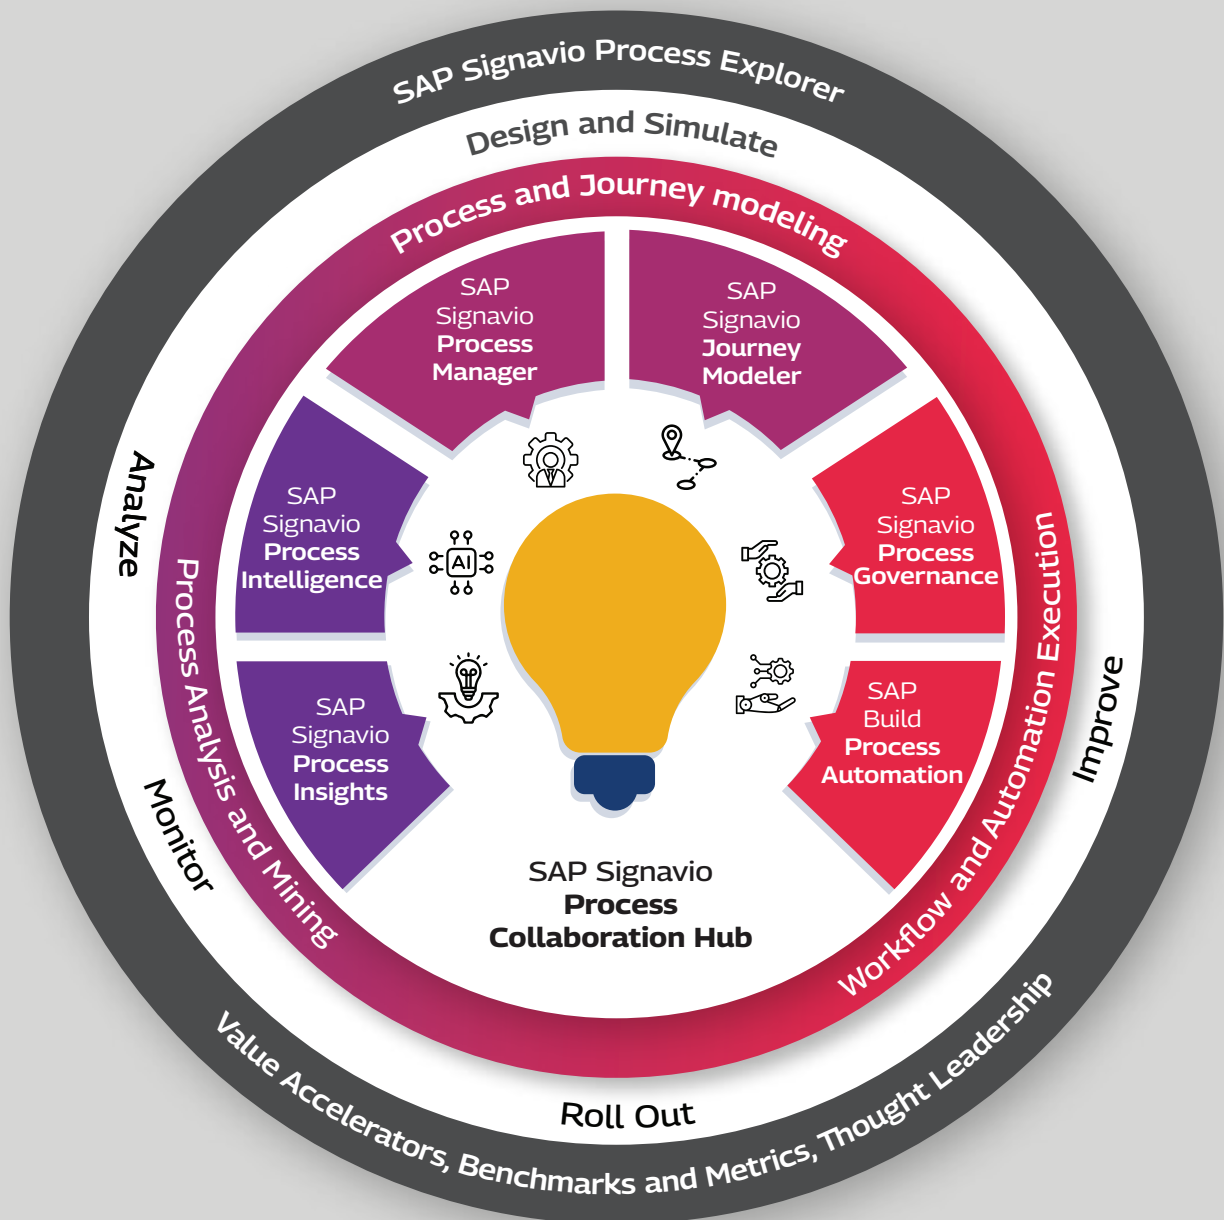

### Process governance and automated execution

Maintains organizational and regulatory compliance of all documented processes and automates existing processes. It transforms business process models into standardized process governance workflows and enables organizations to increase internal and external compliance.

### Process collaboration and value acceleration

Stakeholder alignment and active collaboration across departments and access to a myriad of value accelerators and resources. It acts as a single source of truth. It unites employees across your organization at a transparent meeting point and combines their expertise while fostering visibility and teamwork.

A cloud-based process transformation suite that provides the ability to understand, improve, and transform all of their end-to-end business processes fast and at scale (across SAP and non-SAP solutions). SAP Signavio can support as an end-to-end process management solution for S4 HANA migration, GBS and shared service transformation, operational excellence, merger, and acquisition.

## Benefits

Experience a myriad of benefits with our integrated solution and achieve operational excellence through streamlined processes, reduced costs, and improved resource utilization. An opportunity to gain unparalleled insights into your business operations with SAP Signavio's advanced process insights.

TechM's expertise ensures a smooth transition and helps minimize disruptions. So, enjoy enhanced scalability, allowing your organization to grow seamlessly and elevate customer satisfaction through quicker response times and optimized services. It's time to embrace a future-ready business model that adapts to change and positions you as an industry leader.
